

COLORADO CHRISTIAN UNIVERSITY

Grace and Truth

Academic Catalog 2021 - 2022

Christ-centered high education transforming students
to impact the world with grace and truth.

Catalog Home

Volume Thirty-three

Welcome to Colorado Christian University's online catalog. As outlined in the University's mission statement, CCU's undergraduate and graduate curriculum provides Christ-centered higher education transforming students to impact the world with grace and truth. Each of CCU's academic programs reflects this commitment. The ultimate goal for our academic programs is to train graduates to think critically and creatively, to lead with high ethical and professional standards, to embody the character and compassion of Jesus Christ, and to impact the world. This catalog serves as a resource for what is required in each of these programs and outlines academic policies and procedures that govern the University. We hope this catalog will serve you well as you make critical decisions regarding your education. We look forward to assisting you in achieving your educational goals.

The Academic Catalog is published annually by the office of the University Registrar, Colorado Christian University, 8787 West Alameda Avenue, Lakewood, Colorado 80226.

The catalog provides students with the best information available concerning the University and its programs at the time of publication. While every effort is made to provide accurate and up to date information, the University reserves the right to change without notice statements in the catalog regarding policies, academic offerings, standards of conduct, and charges for tuition, fees, and room and board. Since the University continually modifies and improves the curriculum to meet the needs of students, the catalog serves not only as a guide, but as an agreement between the student and Colorado Christian University. Students who are admitted to Colorado Christian University agree to abide by the University policies and codes of conduct.

A student who enrolls in the University will be allowed to graduate under the academic program requirements in the catalog published at the time of his or her initial enrollment or selection of a major, as long as the student has maintained continuous enrollment. A student who has not been enrolled for 366 days must apply for readmission and complete a degree program under the regulations published in the catalog that is in effect at the time of re-enrollment.

Colorado Christian University is an equal opportunity educational institution. The University does not discriminate on the basis of race, color, national origin, gender, age, individual handicap, or veteran status in the recruitment and admission of students, the recruitment and employment of faculty and staff, and the operation of any of its programs and activities, as specified by federal laws and regulations.

Accreditation and Affiliations

Colorado Christian University is accredited by The Higher Learning Commission, a commission of the North Central Association of Colleges and Schools, 30 North LaSalle Street, Suite 2400, Chicago, Illinois 60602-2504, phone 312-263-0456. The Association is one of six regional institutional accrediting associations in the United States. The Higher Learning Commission is recognized by the U.S. Department of Education and the Council on Higher Education Accreditation (CHEA).

CCU's College of Undergraduate Studies has been ranked in the top two percent of colleges nationwide by the American Council of Trustees and Alumni (ACTA) for the past eight years.

Special Accreditations and Endorsements

Counseling - CCU's Master of Arts in Counseling program is nationally accredited by the Council for Accreditation of Counseling and Related Educational Programs (CACREP).

Education - CCU's teacher education programs are authorized by the Colorado State Board of Education, by the Colorado Department of Education, and the Colorado Department of Higher Education, and are endorsed by the Association of Christian Schools International (ACSI).

Music - CCU's School of Music is nationally accredited by the National Association of Schools of Music.

Nursing - The baccalaureate degree program in nursing, the master's degree program in nursing, and the Doctor of Nursing Practice program at Colorado Christian University are accredited by the Commission on Collegiate Nursing Education (CCNE), 655 K Street NW, Suite 750, Washington, DC, 20001, (202) 887-6791.

CCU Memberships

- Association of Christian Schools International
- Council for Christian Colleges and Universities
- Council of Independent Colleges
- Evangelical Council for Financial Accountability
- National Association of Independent Colleges and Universities

Advisory Council

Office of the President

Donald W. Sweeting, Ph.D.

President

Janet M. Black, Ph.D.

Vice President of Academic Affairs, College of Undergraduate Studies

Allison Burkhart, MBA

Vice President of CAGS Enrollment, College of Adult and Graduate Studies

Roger Chandler, MBA

Vice President of Student Success, College of Adult and Graduate Studies

Daniel L. Cohrs, CPA

Executive Vice President

Shannon Dreyfuss, MBA

Vice President of Campus Development

Eric Hogue, M.Th.

Vice President of University Advancement

Jeff Hunt, M.Div., M.A.

Director of the Centennial Institute

James S. McCormick, M.A.

Senior Vice President and Vice President of Student Life, College of Undergraduate Studies

Thom Scheffel, J.D.

University Counsel

Sarah Scherling, Ed.D.

Vice President of Academic Affairs, College of Adult and Graduate Studies

Board of Trustees

Wil Armstrong
Brad Benson, J.D.
Jeff Coors
Dr. Margaret A. Fomer
Dr. Biff Gore
Don M. Harwell

Jerry Jenkins
Sam Kimbriel
The Hon. Mike Kopp
Harold A. Krause
Chick Lee
Terry Leprino
The Hon. Kevin Lundberg
Douglas I. McDonald
Tim McTavish
Dr. Jeff Myers
Dr. Jerry Nelson
John Pittman
Dr. Mark Sheehan
Don Siecke
Robert E. Warren
Dr. Donald W. Sweeting
William J. White

Trustee Emeritus

Dr. Kenell J. Touryan

Advisory Council

[^Top](#)

The Hon. Terry Considine
Hugh Hewitt
Alan Mason
The Hon. Jane Norton
William Pauls
Robert Woodson

Faculty

Matthew D. Aernie

Associate Professor of Biblical Studies
College of Adult and Graduate Studies
B.A., Hannibal La-Grange College
M.Div., Midwestern Baptist Theological Seminary
Th.M., Trinity Evangelical Divinity School
Ph.D., University of Wales-Lampeter

John W. Aldridge, Jr.

Director of Graduate Leadership; Associate Professor of Organizational Behavior and Change Management
College of Adult and Graduate Studies
B.A., University of Colorado
M.A., Regis University
M.A., Ph.D., Fielding Graduate University

Krystyne Aleksandr-Mendoza

Assistant Professor of Counseling
College of Adult and Graduate Studies
A.S., Amarillo College
B.S., M.A., West Texas A&M University
Ph.D., Texas Tech University

Diane M. Badzinski

Professor of Communication
College of Undergraduate Studies
B.A., St. Cloud State University

M.A., University of California, Santa Barbara
Ph.D., University of Wisconsin, Madison

Martin C. Beeson

Assistant Professor of Business and Leadership
College of Undergraduate Studies
B.A., Hardin-Simmons University
J.D., Baylor University

Andreas Bienert

Assistant Professor of Counseling
College of Adult and Graduate Studies
A.S., Bundesbildungsanstalt für Kindergartenpädagogik
A.S., A.A., B.A., Southwestern A/G University
M.A., Ph.D., Regent University

Janet M. Black

Vice President of Academic Affairs; Professor of English
College of Undergraduate Studies
B.A., Eastern College
M.A., Bucknell University
Ph.D., University of Denver

Mark E. Bolte

Professor of Counseling
College of Adult and Graduate Studies
B.A., Tennessee Temple University
M.S., Loyola College
M.S., Psy.D., Florida Institute of Technology

John R. Borman

Associate Professor of Education
College of Undergraduate Studies
B.A. (2), M.A., University of Northern Colorado

David E. Bosworth

Associate Professor of Theology and Missions
College of Undergraduate Studies
B.A., The Master's College
Th.M., Dallas Theological Seminary

Derek Branstrom

Director of Outdoor Leadership; Associate Professor of Outdoor Leadership
College of Undergraduate Studies
B.A., University of Wyoming
M.A., University of Northern Colorado

William Bart Brock

Program Director; Associate Professor of Accounting and Finance
College of Adult and Graduate Studies
BBA, Georgia College & State University
MBA, Emory University
Ph.D., Benedictine University

Bob Brooks

Assistant Professor of Public Administration
College of Adult and Graduate Studies
BBA, McMurry University
MBA, Abilene Christian University

Travis Buchanan

Assistant Professor of Theological Studies
College of Adult and Graduate Studies

B.A., University of Denver
M.Div., Phoenix Seminary
M.Litt., Ph.D., University of St. Andrews

Tamara M. Bultje

Associate Professor of Education
College of Undergraduate Studies
B.A., University of Northern Iowa
M.A., University of Phoenix

Ryan M. Burkhart

Director of M.A. Counseling; Associate Professor of Counseling
College of Adult and Graduate Studies
B.A., Oakland City University
M.A., Colorado Christian University
Ed.D., Argosy University

Steve A. Cappa

Assistant Professor of Counseling
College of Adult and Graduate Studies
B.A., University of California, Los Angeles
M.A., Denver Seminary
M.A., Psy.D., Rosemead School of Psychology, Biola University

Pamela K. Cassellius

Associate Professor of Counseling
College of Adult and Graduate Studies
B.S., North Central University
M.A., Bethel University
Ed.D., Argosy University

Y. Isaac Chilima

Assistant Professor of Economics and Business
College of Undergraduate Studies
B.Soc.Sc., University of Malawi
M.A., Ph.D., Yakohama National University

Ian H. Clary

Assistant Professor of Historical Theology
College of Undergraduate Studies
B.Th., M.Th., M.Div., The Toronto Baptist Seminary & Bible College
Ph.D., University of the Free State

Jeff Cline

Assistant Professor of Counseling
College of Adult and Graduate Studies
B.Soc.Sc., M.A., Arkansas State University
M.A., Harding University
Ph.D., Regent University

Thomas E. Copeland

Professor of Political Science
College of Undergraduate Studies
B.A., Geneva College
MPIA, Ph.D., University of Pittsburgh

Bryan B. Crutcher

Assistant Professor of Kinesiology and Exercise Science
College of Undergraduate Studies
B.S., M.A., California State University
Ph.D., Michigan State University

Frances L. Dailey

Associate Professor of Counseling
College of Adult and Graduate Studies
B.A., Indiana University
M.A., Ph.D., Regent University

Heather T. Day

Associate Professor of Communications
College of Undergraduate Studies
B.A., M.A., Ph.D., Andrews University

Mellani J. Day

Dean, School of Business and Technology; Professor of Business
College of Adult and Graduate Studies
B.S., University of Maryland
M.S., University of Southern California
DBA, Nova Southeastern University

Daniel T. DeLau

Associate Professor of Accounting
College of Undergraduate Studies
B.A., Indiana University
M.A., Denver University
CPA

Charles Denler

Coordinator of Composition & Music Production; Assistant Professor of Music
College of Undergraduate Studies
B.A., Colorado Christian University

Megan D. DeVore

Associate Professor of Classics and Early Christianity
College of Undergraduate Studies
B.A., Colorado Christian University
M.A., University of Colorado
Ph.D., University of Wales

Jonathan Dimos

Assistant Professor of Psychology
College of Undergraduate Studies
B.A., Taylor University
M.A., Trinity Graduate School
M.A., Colorado Christian University
Ph.D., University of Denver

Mark S. Dorn

Coordinator of Instrumental Music; Professor of Music
College of Undergraduate Studies
BME, M.M., Indiana University
M.A., Colorado Christian University

Gregory M. Elliott

Assistant Professor of Counseling
College of Adult and Graduate Studies
B.A., William Jewell College
M.A., University of Texas, San Antonio
Ph.D., Adams State University

Gary W. Ewen

Dean Emeritus, School of Business and Leadership; Professor of Management and Leadership
College of Undergraduate Studies
B.S., Illinois State University

M.Ed., Colorado State University
DSL, Regent University

Christian D. Finnigan

Assistant Professor of History and Politics
College of Undergraduate Studies
B.A., Randolph-Macon College
M.Div., Reformed Theological Seminary
Th.M., Erskine Theological Seminary
M.Litt., University of St Andrews
M.A., Queen Mary University London
J.D., George Mason University

Nahanni Freeman

Associate Professor of Psychology
College of Undergraduate Studies
B.A., M.A., Ph.D., Rosemead Graduate School of Psychology, Biola University

Cheryl Fricke

Director of Simulation; Assistant Professor of Nursing
College of Adult and Graduate Studies
BSN, MSN, Regis University

Susan K. Fuentes

Assistant Director of Nursing BSN Program; Assistant Professor of Nursing
College of Adult and Graduate Studies
BSN, Point Loma Nazarene University
MSN, Azusa Pacific University

Amanda M. Furness

Assistant Professor of Chemistry and Physical Science
College of Undergraduate Studies
B.A., B.S., Briar Cliff University
Ph.D., University of Kansas

Leontine L. Galante

Assistant Professor of Biology
College of Undergraduate Studies
B.A., Fairfield University
M.A., Ph.D., Princeton University

Kristen J. Goree

Professor of Nursing
College of Adult and Graduate Studies
B.A., BSN, MSN, DNP, University of Colorado

Gayle C. Gunderson

Dean of Library Services; Librarian
B.M., University of Colorado
MLS, Emporia State University

Kristi Hargrave

Director of Nursing BSN Program; Assistant Professor of Nursing
College of Adult and Graduate Studies
BSN, University of Texas at Arlington
M.S., Texas Woman's University
DNP, Abilene Christian University

Ryan Hartwig

Dean, School of Humanities and Social Sciences; Professor of Communication
College of Undergraduate Studies
B.A., B.S., Colorado Christian University

M.Ed., Purdue University
Ph.D., University of Colorado, Boulder

Cory Hixson

Assistant Professor of Industrial Engineering
College of Undergraduate Studies
B.S., Pennsylvania State University
M.S., Ph.D., Virginia Polytechnic Institute and State University

Tammie L. Huddle

Assistant Professor of Nursing
College of Adult and Graduate Studies
BSN, Metropolitan State College
MSN, University of Northern Colorado

Mark Hudson

Director of Music Education; Associate Professor of Music
College of Undergraduate Studies
B.A., Harding University
M.A., Ph.D., University of Florida

Katherine Hyon

Assistant Professor of English
College of Undergraduate Studies
B.A., Boston College
MFA, Florida International University
Ph.D., Georgia State University

Craig Jacobson

Assistant Professor of Business and Finance
College of Undergraduate Studies
B.A., M.S., University of Illinois-Urbana-Champaign
MBA, Pepperdine Graziadio Business School

Lene M. Jaqua

Professor of Physical and General Science
College of Undergraduate Studies
B.S., M.S., Ph.D., University of Arizona

Sarah Jarvie

Associate Professor of Counseling
College of Adult and Graduate Studies
B.A., Taylor University
M.A., Ed.D., University of Cincinnati

Matthew L. Jones

Associate Professor of Theology
College of Undergraduate Studies
B.A., Bryan College
M.A., Dallas Theological Seminary
Ph.D., Regent University

Peter A. Kerr

Dean, School of Business and Leadership; Associate Professor of Marketing
College of Undergraduate Studies
B.S., United States Air Force Academy
M.A., University of Washington, Seattle
M.Div., Asbury Theological Seminary
Ph.D., Northcentral University, San Diego

Charles E. King

Professor of Business, Law and Ethics; Dean Emeritus
College of Undergraduate Studies

B.A., Southwestern College
MBA, Northwestern University
J.D., University of Denver

Cheryl King

Assistant Professor of Nursing
College of Adult and Graduate Studies
BSN, MSN, University of Colorado Health Sciences Center

Mark R. Knox

Assistant Professor of Counseling
College of Adult and Graduate Studies
B.S., Nebraska Christian College
M.Div., Emmanuel School of Religion
M.S., Tarleton State University
D.Min., Louisville Presbyterian Seminary
Ph.D., Regent University

David S. Kotter

Dean, School of Theology; Professor
College of Undergraduate Studies
B.S., University of Illinois
M.Div., M.A., Trinity International University
MBA, University of Illinois at Urbana/Champaign
Ph.D. Southern Baptist Theological Seminary

Christa R. Koval

Professor of Chemistry
College of Undergraduate Studies
B.S., Hope College
M.S., California State University
Ph.D., University of Colorado

Paul Lange

Professor of Health Sciences
College of Undergraduate Studies
B.S., University of Michigan
M.D., Michigan State University

John P. Lesko

Associate Professor of Culturally and Linguistically Diverse Education
College of Adult and Graduate Studies
B.A., B.S., Pensacola Christian University
M.A., Bowling Green State University
Ph.D., University of Edinburgh

Marla Lohmann

Associate Professor of Special Education
College of Adult and Graduate Studies
B.S., Kansas State University
M.Ed., University of Houston
Ph.D., University of North Texas

Bryan Malone

Assistant Professor of Cybersecurity and Computer Science
College of Adult and Graduate Studies
BBA, M.Ed., Eastern New Mexico University
DCS, Colorado Technical University

Briana Martin

Assistant Librarian, Research and Instruction
B.A., Evangel University

M.A., Southwestern Assemblies of God University
MLIS, University of Southern Mississippi

Kristen Mauk

Director of Nursing Graduate Programs; Professor of Nursing
College of Adult and Graduate Studies
BSN, Valparaiso University
MSN, Purdue University
GNP, University of Virginia, Charlottesville
DNP, Valparaiso University
Ph.D., Wayne State University

Mark Mayfield

Assistant Professor of Counseling
College of Adult and Graduate Studies
B.A., Colorado Christian University
M.A., Denver Seminary
Ph.D., Walden University

David McNeil

Director of Choral Studies; Assistant Professor of Music
College of Undergraduate Studies
B.A., Trinity International University
M.M., Indiana University
DMA, Yale University School of Music

M. Kevin Miller

Executive in Residence, Distinguished Professor of Business and Leadership
College of Undergraduate Studies
B.S., M.S., Oklahoma State University

Raymond R. Mitsch

Professor of Psychology
College of Undergraduate Studies
B.A., Wabash College
M.S., Ph.D., Indiana State University

Jennifer Montoya

Assistant Professor of Nursing
College of Adult and Graduate Studies
BSN, Regis University
MSN, University of Colorado

Gregory J. Moore

Director of Global Engagement; Professor of Global Studies
College of Undergraduate Studies
B.A., Concordia College
M.A., University of Virginia
Ph.D., University of Denver

John Murray

Assistant Professor of Educational Leadership
College of Adult and Graduate Studies
B.A., M.Ed., University of Virginia
M.A., Columbia University
Ph.D., Auburn University

Jason Ney

Assistant Professor of English
College of Undergraduate Studies
B.A., Cedarville University
M.A., University of Cincinnati
Ph.D., University of Denver

Richard Niezen

Coordinator of Strings; Associate Professor of Music
College of Undergraduate Studies
B.M., University of Victoria
M.M., Cleveland Institute of Music
Ph.D., University of Colorado

Susan Pahlau

Assistant Professor of Communication
College of Undergraduate Studies
B.A., Colorado State University
M.A., University of Colorado, Denver

Alex Paine

Laboratory Coordinator; Instructor
College of Undergraduate Studies
B.S., Buena Vista University
Ph.D., University of Colorado, Boulder

Katheryn Palermo

Assistant Professor of Nursing
College of Adult and Graduate Studies
B.A., Dallas Baptist University
BSN, University of Colorado
MSN, Western Governor's University

Jody Panian

Interim BSN Director; Associate Professor of Nursing
College of Adult and Graduate Studies
BSN, Regis University
MSN, University of Phoenix

Jennifer Park

Assistant Professor of Counseling
College of Adult and Graduate Studies
B.A., M.Ed., University of Pennsylvania
M.A., Biblical Theological Seminary
Ph.D., Regent University

Mark A. Parker

Dean, School of Science and Engineering; Professor of Biology
College of Undergraduate Studies
B.S., Indiana University
M.A., Colorado Christian University
Ph.D., University of Denver

Damon Perez

Associate Professor of Biology
College of Adult and Graduate Studies
B.A., University of Colorado, Colorado Springs
Ph.D., Colorado State University

Selin Philip

Associate Professor of Counseling
College of Adult and Graduate Studies
B.A., Indira Gandhi National Open University
M.Ed., University of Alaska
Ph.D., Regent University

Michael Plato

Assistant Professor of Intellectual History and Christian Thought
College of Undergraduate Studies
B.A., University of Toronto

MTS, Brock University
MTS, Toronto Baptist Seminary

Bernard M. Prokop

Associate Professor of English
College of Undergraduate Studies
B.A., University of Colorado
M.A., University of Iowa

Jeff D. Renfrow

Director of Undergraduate Education; Assistant Professor of Education
College of Adult and Graduate Studies
B.A., Arizona State University
M.A., Northern Arizona University
Ed.D., University of Colorado

Ronald L. Rex

Executive in Residence, Associate Professor of Management and Marketing
College of Undergraduate Studies
Director of Employment Management Services
B.S., Northern Kentucky University
M.S., Xavier University

Seth Rodriguez

Assistant Professor of Old Testament and Biblical Archaeology
College of Undergraduate Studies
B.A., The Master's University
M.Div., The Master's Seminary
M.Th., Ph.D., Southern Baptist Theological Seminary

John J. Russo

Assistant Professor of Accounting
College of Undergraduate Studies
B.A., Western State College
CPA

William R. Saxby

Dean Emeritus; Professor of Psychology
College of Undergraduate Studies
B.A., University of Vermont
M.A., Fuller Theological Seminary
Ph.D., University of Vermont

Debora L. Scheffel

Dean, School of Education; Professor of Education
College of Undergraduate Studies
B.S., Bob Jones University
M.A., University of Denver
Ph.D., Northwestern University

Sarah E. Scherling

Vice President of Academic Affairs; Professor of Education
College of Adult and Graduate Studies
B.S., Colorado State University
M.S., Fort Hayes State University
Ed.D., Liberty University

John Schreiber

Assistant Professor of Nursing
College of Adult and Graduate Studies
BSN, University of Colorado
MSN, Regis University

M.A., Denver Seminary
DNP, Liberty University

Oliver Schulz

Associate Librarian, Technical Services
B.A., Union University
M.Div., M.Th., The Master's Seminary
MLIS, San Jose State University

Sherry Schulz

Assistant Professor of Mathematics
College of Undergraduate Studies
B.S., Union University
M.A., University of Florida

Stephen A. Shumaker

Professor of Political Science
College of Undergraduate Studies
B.A., The Master's College
M.A., Ph.D., University of Dallas, Irving

Albert Smith

Assistant Professor of Psychology
College of Adult and Graduate Studies
B.A., Baylor University
M.A., Ph.D., Southwestern Baptist Seminary

Susan D. Spear

Associate Professor of English
College of Undergraduate Studies
B.A., Geneva College
MFA, Western State College
M.A., University of Denver

Mary Spencer

Director of Assessment; Assistant Professor of Education
College of Undergraduate Studies
B.S., University of Rhode Island
M.Ed., Boston University

Jennifer K. Stafford

Assistant Professor of Theatre
College of Undergraduate Studies
BFA, Shenandoah University
MFA, New York University

Aaron Stampfl

Coordinator of Keyboard Studies; Assistant Professor of Piano
College of Undergraduate Studies
B.M., Wheaton College
M.M., Indiana University
D.M., Northwestern University

Gary L. Steward

Assistant Professor of History
College of Undergraduate Studies
B.A., South Dakota State University
M.A., Westminster Theological Seminary
M.Div., Ph.D., Southern Baptist Theological Seminary

Shane T. Stone

Associate Professor of Criminal Justice
College of Adult and Graduate Studies

B.S., University of Central Missouri
M.S., Lindenwood University
M.A., Midwestern Baptist Theological Seminary
Ph.D., University of the Cumberland

Rebecca E. Taylor

Assistant Professor of Counseling
College of Adult and Graduate Studies
B.A., Baylor University
M.A., Ed.D., University of Memphis

Steven T. Taylor

Dean, School of Music; Professor of Music
College of Undergraduate Studies
B.M., M.A., University of Denver

Nancy Thomas

Assistant Professor of Counseling
College of Adult and Graduate Studies
B.A., University of Texas
M.A., Dallas Theological Seminary
Ph.D., Texas A&M University

Bren Triplett

Director of CIT, ISM, and Project Management; Assistant Professor of Computer Information Technology
College of Adult and Graduate Studies
B.S., Eastern Washington University
M.A., Regis University

Kevin J. Turner

Professor of Youth Ministry and Theology
College of Undergraduate Studies
B.S., Washington Baptist College
M.Div., Multnomah Biblical Seminary
D.Min., Reformed Theological Seminary

Barry Vann

Dean, School of Behavioral and Social Sciences; Professor of Historical Geography
College of Adult and Graduate Studies
B.S., Tennessee Technological University
M.S., Western Kentucky University
Ed.D., University of Arkansas
Ph.D., University of Glasgow

Lewis Earl Waggoner

Dean, School of Biblical and Theological Studies; Professor of Theological Studies
College of Adult and Graduate Studies
B.A., Baylor University
M.Div., Ph.D., New Orleans Baptist Theological Seminary

Abigail L. Wegert

Assistant Professor of Nursing
College of Adult and Graduate Studies
BSN, Mercy College of Ohio
MSN, The University of Toledo

Wendy Elliott Wendover

Dean, School of Education Professions; Professor of Education
College of Adult and Graduate Studies
B.A., Keene State College
M.A., University of Rhode Island
M.A., University of Phoenix
Ph.D., University of Denver

Barbara J. White

Dean, School of Nursing and Health Professions; Professor of Nursing
College of Adult and Graduate Studies
BSN, University of Illinois
MSN, University of Colorado
Ed.D., University of Northern Colorado

Bushrod B. White

Director of Graduate Education; Assistant Professor of Education
College of Adult and Graduate Studies
B.A., Western State College of Colorado
M.A., Colorado State University
Ed.D., Nova Southeastern University

Jeffrey W. White

Associate Professor of Counseling
College of Adult and Graduate Studies
BBA, University of Memphis
M.A., M.Div., Reformed Theological Seminary
Ph.D., Drexel University

Andrew Wichterman

Assistant Professor of Counseling
College of Adult and Graduate Studies
B.A., Taylor University
M.A., Cornerstone University
Ph.D., Regent University

Elizabeth C. Wiggins

Assistant Professor of Counseling
College of Adult and Graduate Studies
B.A., Nazarene Bible College
M.A., Ph.D., Adams State University

Emily Willcott

Assistant Professor of Nursing
College of Adult and Graduate Studies
B.A., Azusa Pacific University
BSN, Belmont University
M.S., University College London

John A. Wind

Assistant Professor of Theology
College of Undergraduate Studies
B.A., Northwestern College
M.Div., Ph.D., Southern Baptist Theological Seminary

Julie A. Woodman

Assistant Professor of Biology
College of Undergraduate Studies
B.S., Colorado State University
Ph.D., University of Colorado, Anschutz Medical Campus

Priscilla B. Wright

Professor of Education
College of Undergraduate Studies
BSEd., M.Ed., Miami University (Ohio)
Ed.D., Clayton University

Jeffry Yeates

Associate Professor of Computer Information Systems
College of Undergraduate Studies
B.A., Westmont College

MBA, University of Colorado
M.A., Colorado Christian University

Faculty Emeriti

Sara E. Dallman

Professor Emeritus of Education
B.A., St. Olaf College
M.A., Ph.D., The Ohio State University

Larry R. Donnithorne

President Emeritus, Distinguished Professor of Leadership and Ethics
B.S., United States Military Academy (West Point)
M.S., M.A., Stanford University
Ed.D., Harvard University

Cherri S. Parks

Vice President Emeritus
B.S. Emporia State University
M.Ed., Ph.D., Mississippi State University

Distinguished/Visiting Lecturers

Lawrence J. Crabb, Jr.

Distinguished Scholar in Residence
B.A., Ursinus College
M.A., Ph.D., University of Illinois

History

In 1914 Colorado Christian University's heritage institution, Denver Bible Institute, was founded on the principles of grace and truth, taken from the Gospel of John. "Grace and truth came through Jesus Christ" from "the Father, full of grace and truth" (John 1:17, 14). In pursuit of these values, Denver Bible Institute's mission was to "teach the Bible as the Word of God and to train young men and women in the things of the Holy Spirit as they are in Jesus Christ, our Lord." The first classes were held in a rented building with two students and one teacher. God used this humble beginning to start an exciting journey that has given Colorado Christian University the grace to continue standing for His truth for nearly a century.

As the demand for Christian training grew, Denver Bible Institute was granted a state charter to become a four-year Bible college in 1945 and was renamed Denver Bible College. A short time later, the college expanded and developed three main academic schools: the College of Liberal Arts, the Theological School, and the Bible Institute.

Expansion continued and within four years Denver Bible College became Rockmont College. Meanwhile, another CCU heritage institution, Western Bible Institute, was founded by a Denver Bible Institute alumnus in 1948 "to prepare students for field ministry."

In 1981, Rockmont College was awarded accreditation by the North Central Association, and four years later the school merged with Western Bible Institute to become Colorado Christian College. Recognizing the benefits of combining resources to create an influential Christian university in Colorado, Colorado Christian College merged with Colorado Baptist University and became Colorado Christian University in 1989.

In 2020, over 8,600 traditional undergraduate, adult undergraduate, and graduate students enrolled in more than 100 academic programs at Colorado Christian University's main campus in Lakewood, as well as through our online program and at academic centers in Colorado Springs and Grand Junction. Over 5,200 students enrolled in CCU's Dual Credit program in 2020, while attending over 150 partner high schools, including three international schools.

Through the years many things about CCU have changed. Thousands of students have come and gone, the campus facilities have seen countless improvements, new programs have been launched to train the next generation of Christian leaders, students have gone on mission trips to countries that didn't exist when we were founded, and the University has been blessed by growing enrollments. Even now CCU continues to grow and change, most recently with the addition of Leprino Hall, a 43,000 square foot academic building that was part of phase one of the campus redevelopment project, Yetter Hall, a 53 apartment-style unit residence hall that was the first completed construction of phase two, and the Anschutz Student Center, a 60,000 square foot building that features dining, fitness, and office space. In 2019 CCU opened Rockmont Hall, a new 115,000-square-foot residential building named in honor of one of CCU's heritage institutions. CCU is also planning the construction of the Armstrong Center and a second academic building. Through the years one thing has remained constant: our commitment to a firm foundation that rests on the grace and truth of Christ. Throughout its history, Colorado Christian University has seen God's hand orchestrating each step in the journey, and the University looks toward the future with great anticipation for where He will lead us as the journey continues.

Information Technologies

A wide variety of technology resources are made available to students attending CCU. Enrolled students may access the Technical Support website on CCU Connect to view instructions on how to utilize technology at CCU as well as the policies and procedures that govern its use.

Network Access

Public use computers at the Lakewood campus are available in the Library and Beckman Center. Wireless network connectivity is available in all buildings and common areas, including residential locations and regional centers. In addition, each residential apartment is equipped with high-speed wired ports located in bedrooms and living areas for those students who wish to connect their personal computers.

Digital Services

Students have access to a variety of digital services: CCU email powered by Google and network printing in computer labs. In addition, web-enabled self-service applications (i.e., connect.ccu.edu, Self-Service, Online Services, Blackboard) allow students to view grades and unofficial transcripts, register for courses, view billing statements, check chapel attendance records, view account balances, and update contact information.

Student Computing

Information security is very important to CCU, as is keeping personal student information private and secure. As such, all students are required to run up-to-date antivirus and antispyware software when connecting their equipment to any of CCU's online resources. Students should set up automatic operating system software updates on any computer connecting to CCU's network. It is highly recommended that students refrain from using peer-to-peer file sharing software, as it is a common gateway for malware, spyware, Trojans, and viruses.

Classroom Technology

Each classroom at CCU is equipped with a computer, DVD/Blu-ray Player, sound system, and overhead projector. Science labs also include document cameras for showing live experiments on the overhead projector. Technology resources in the classrooms are frequently used by faculty and are available for in-class presentations.

Technical Support for Student Computers

CCU's Technical Support representatives are available to help each student connect to the CCU network. In addition, students can bring in their computers to Technical Support for a free analysis and consultation on anti-virus and anti-spyware solutions. If additional repairs are required, tech support will attempt to fix it free of charge while staying within the bounds of the device's warranty. Feel free to call Technical Support at 303-963-3444 to schedule an appointment, or email techsupport@ccu.edu. The hours of operation are Monday through Friday, 7:30 AM to 6:30 PM.

Library

Colorado Christian University's Clifton Fowler Library is both a traditional physical library located in the south end of the Beckman Learning Center and a virtual library accessible to students from any computer with Internet access. The main

level of the CCU library has a popular seating area, a computer lab, 6 small study rooms and a conference room for student, faculty and staff use. Additional computers are available throughout the library. There is also a Music Library located in the School of Music. The CCU Centers (Lakewood, Colorado Springs, Grand Junction, Global Online) are served by the ebooks, the online databases and the Book A Librarian reference services from the central library.

The library's collections include over 594,000 circulating, reference and e-book volumes, DVDs, CDs, scores and current print journal subscriptions. The library is a Prospector member library which gives students quick and easy access to over 30 million additional items located throughout Colorado at over 45 libraries. Students request an item which is delivered to the Lakewood campus library for easy pick up. And off-campus students in the Denver Metro area, Grand Junction, Vail, Western and Northern Colorado can use Prospector to request CCU items which are then delivered to their local public library, offering enhanced access for CCU students all over the state.

The library provides access to over 100 full text databases across a variety of academic disciplines including over 45,000 full text journals and periodicals. E-books number over 485,000 and include titles from ProQuest's eBrary Academic Complete, Ebsco Academic, Gale Virtual Reference titles, ABC Clio, Springer and Sage E Reference collections. The library website also offers an excellent collection of electronic tools, interactive tutorials and links created by library faculty to help with using the library and with doing research. All of these resources and services are provided and enriched by skilled professional staff together with student assistants.

Librarians are available for help from 7:30 am to 9:00 pm from Monday through Wednesday, and to 5:00 pm on Thursday through Saturday. We have numerous ways for students to reach us; through walk-ins, Book A Librarian, through the phone, email, and chat via our web pages. The librarians provide instructional classes, research help and involve their faculty colleagues in collection development. The library is a warm and collegial place, popular with students, and is open seven days a week during the regular semester. Please visit the library online at our CCU Library Web site.

Location and Directory

A multi-location institution, CCU operates one residential/commuter campus in Lakewood for traditional undergraduate students, and seven Colorado regional centers for adult undergraduate and graduate students, with overlap at our Lakewood campus. Our regional centers include Colorado Springs and Grand Junction. CCU also operates partner sites and satellite sites in various locations such as Peterson AFB, Schriever AFB, Buckley AFB, and the United States Air Force Academy. In addition, CCU's Global Online Center for Adult Undergraduate and Graduate Studies serves students around the globe.

Located in the southwest suburbs of Denver, the Lakewood campus provides a quiet setting for undergraduate and graduate classrooms, faculty offices, the library, music facilities, the gymnasium, the student center, and student apartments. Lush lawns, trees, and a private lake add to the beauty of the campus.

The Lakewood campus includes fully equipped science and computer labs, a bookstore, a dining commons, an events center, and a student center. The Music Center contains a performance hall, a music and art computer lab, a keyboard lab, music classrooms, and practice rooms, with a separate facility for recording. Resident single students live in two- and three-bedroom apartments or townhouses. The gymnasium offers facilities for exercise, basketball and volleyball, concerts, and other activities. A campus redevelopment plan is underway which will dramatically transform our Lakewood campus. Phase One was completed August 2014 with the dedication of Leprino Hall, a 43,000 square foot academic building housing classrooms, faculty and staff offices, multi-purpose and conference rooms, and casual seating throughout. The first construction of Phase Two was completed August 2015 with the dedication of Yetter Hall, a 53 apartment-style unit residence hall. Phase Two also includes the new Anschutz Student Center, completed in 2017. The Anschutz Student Center features dining, fitness, and office space, as well as an amphitheatre and a large multi-purpose great room. In 2019 CCU opened Rockmont Hall, a four-story apartment-style residential building housing up to 330 undergraduate students. Additionally, the Armstrong Center is slated to begin soon, serving as the backbone of the academic quad, housing the Lee Strobel Center for Evangelism and Applied Apologetics, the Clifford Fowler Library, and the University's first dedicated chapel space. Future plans also include the construction of a second academic building.

Denver, Colorado, and the Rocky Mountains, provide a variety of recreational opportunities: skiing, hiking, camping, hunting, fishing, sightseeing, biking, tennis, and golf. The city boasts a full complement of professional sports teams, including the MLB's Colorado Rockies, the NFL's Denver Broncos, the NBA's Denver Nuggets, the NHL's Colorado Avalanche, and the MLS's Colorado Rapids. The symphony, theaters, museums, and universities make Denver the cultural hub of the Rocky Mountains and one of America's great cities. Students attending classes on the Lakewood campus come for a university education and receive Colorado as a bonus.

CCU's adult undergraduate degree and graduate degree programs are designed specifically for busy, working adults. Taking courses at a location close to work and home, or completely online, helps students balance family, work, church, and school commitments. Students focus on one course at a time while typically attending class just one night a week at

on-site locations. Online students complete coursework at times and locations that are most convenient for them. CCU's aggressive transfer credit policy combined with credit for life learning experience, credit by exam, and accelerated course schedules, offer students the shortest path to their diploma. All of these features enable students to succeed in earning their degree and achieving their career and personal goals.

University Profile

Click on any of the following links below for more information

Essence of the University

Christ, the living Word, is the integrating center of Colorado Christian University, intentionally at the core of all that CCU is and does. The University exists to provide Christ-centered higher education transforming students to impact the world with grace and truth. This mission is accomplished through a highly competent and dedicated faculty, an integrated academic

curriculum, and student life programs designed to strengthen faith, shape character, and nurture compassionate response in a need-filled world.

At Colorado Christian University, the educational philosophy is guided by our non-denominational Statement of Faith, which is embraced by all faculty and staff. This brief statement affirms the key elements of the historical Christian faith, yet allows latitude on issues defining denominational distinctives. Our shared commitment assures consensus on the foundational tenets of the faith while accommodating productive dialog so that students hone their intellectual skills and formulate their Christian worldview.

The University emphasizes excellence in its academic programs and fosters strong student academic achievement. Class size is designed to encourage personal interactions between faculty and students, enhancing the learning process. The University seeks to allow students the flexibility to personalize their programs of study and to participate in a variety of enriching co-curricular educational opportunities, which fosters meaningful community experiences.

The essence, therefore, of the CCU experience is its integration of faith and learning. This distinctive integration of academic achievement, character development, and spiritual formation prepares CCU graduates to honor God and impact the world with their lives.

Mission and Strategic Priorities

Click on any of the following links below for more information

Mission

Christ-centered higher education transforming students to impact the world with grace and truth.

Colorado Christian University cultivates knowledge and love of God in a Christ-centered community of learners and scholars, with an enduring commitment to the integration of exemplary academics, spiritual formation, and engagement with the world. We envision graduates who think critically and creatively, lead with ethical and professional standards, embody the character and compassion of Jesus Christ, treasure the gospel, and who thereby are prepared to impact the world in their callings.

Christ-centered community

Our community of interdependent students, faculty, and staff seeks to honor and obey Jesus Christ, who is present in Spirit and speaks in Scripture, in order to advance God's purposes in the lives of every member.

Exemplary Academics

Our undergraduate and graduate curriculum integrates faith and learning in a scholarly environment that fosters critical and creative thinking, academic excellence, and professional competence.

Spiritual formation

Our academic and student development programs cultivate a deep and enduring faith that affirms the authority of Scripture and embraces Christ as the authentic center of life.

Engagement with the world

Our students experience and engage the world in ways that prepare leaders to serve and transform their professions, churches, and communities.

Strategic Priorities

Colorado Christian University's Strategic Priorities were adopted by the CCU Board of Trustees to serve as a guiding compass for the University. They direct the implementation of CCU's long-established mission and vision, and provide context for our first priority - an enduring commitment to Jesus Christ and His Kingdom. The Strategic Priorities provide a point of convergence for every member of the CCU community and for every aspect of life at CCU, from how we teach and learn in the classroom to how we live with and serve others.

Colorado Christian University shall:

- Honor Christ and share the love of Christ on campus and around the world
- Teach students to trust the Bible, live holy lives, and be evangelists
- Be a magnet for outstanding students and prepare them for positions of significant leadership in the church, business, government, and professions by offering an excellent education in strategic disciplines
- Teach students how to learn
- Teach students how to think for themselves
- Teach students how to speak and write clearly and effectively
- Give students significant opportunities to serve our Lord while they are at CCU and to help them develop a lifetime habit of such service
- Impact our culture in support of traditional family values, sanctity of life, compassion for the poor, Biblical view of human nature, limited government, personal freedom, free markets, natural law, original intent of the constitution, and Western civilization
- Be seekers of truth
- Debunk "spiced ideas" and those who traffic in them
- Ask God to multiply our time and ability to the glory of His great name
- Be a servant of the Church
- Become a great university.

Biblical Foundation

"Do not conform any longer to the pattern of this world, but be transformed by the renewing of your mind. Then you will be able to test and approve what God's will is - His good, pleasing and perfect will." Romans 12:2 (NIV)

"For the law was given through Moses; grace and truth came through Jesus Christ." John 1:17 (NIV)

University Lifestyle Expectations

As an institution of evangelical Christians, we believe that our faith in Christ is a living faith that bears visible fruit as, through God's grace and empowering, we gradually grow in likeness to Jesus. As Paul urged the Ephesians, we also urge one another "to live a life worthy of the calling you have received" (Eph 4:1).

As an educational institution, we believe that our students learn important lessons about spirituality, character, integrity, and morality by observing within the institution the Christ-like values lived out by respected role models.

As a result, our institutional mission is fulfilled in part as members of the CCU community - students, faculty, staff, and administrators - consciously seek a lifestyle that is both pleasing to Christ and exemplary to those who may be observing. To foster fulfillment of this aspect of our mission, we define guidelines for the behavior and conduct that are expected of those who choose to be part of our community.

Degree Descriptions

To accomplish its mission, the university offers a variety of undergraduate and graduate programs. At present, the following degree programs are available:

Associate of Arts

The two-year Associate of Arts degree focuses on the university's General Education curriculum which includes Arts and Humanities, Biblical Studies, Communication, Integrative Studies, Mathematics, Science, Social Science. It offers a solid foundation for many careers, Christian service, and informed living. Some A.A. degrees provide students with the educational background of 18 credit hours within specific core requirements. These A.A. degrees align fully with their corresponding Bachelor of Arts degrees so students are prepared to continue work toward the B.A. degree of their choosing.

Associate of Science

The Associate of Science degrees provide students with the foundational General Education courses and 18 credit hours within specific core requirements. The A.S. degrees provide students with the educational background to seek entry level positions in a variety of vocations. The A.S. degrees align fully with their corresponding Bachelor of Science degrees so students are prepared to continue work toward the B.S. degree of their choosing.

Bachelor of Arts

The Bachelor of Arts degree offers specialization in a major field, yet provides a breadth of arts and humanities, natural and social sciences, and biblical and theological studies.

Bachelor of Music

The Bachelor of Music in Music Education develops skills in music performance and instruction, and satisfies requirements for teacher licensure in music education for grades K-12. The Bachelor of Music in Worship Arts offers proficiency in both music and ministry for leadership in the Christian community.

Bachelor of Science

Like the Bachelor of Arts, the Bachelor of Science degree is based on a solid core of liberal arts and biblical and theological studies with a focus on required and elective courses in the school in which the degree is offered.

Bachelor of Science in Nursing

The Bachelor of Science in Nursing (BSN) is a professional discipline degree built upon a solid core of liberal arts, sciences, humanities and biblical principles. BSN graduates are prepared as nurse generalists and are eligible to sit for the National Council Licensure Examination for Registered Nurses (NCLEX) in order to obtain Colorado RN licensure.

Master of Arts in Applied Apologetics

The M.A. in Applied Apologetics provides training that improves the church's understanding and expression of the essential doctrines of the Christian faith and the evidence which undergirds those doctrines, equipping students with graduate-level knowledge and skills necessary to provide a meaningful defense of the faith and thoughtful evangelistic tools to share it.

Master of Arts in Biblical Studies

The Master of Arts in Biblical Studies focuses on the exegesis and interpretation of specific sections and books of the Bible. The emphasis is on understanding the Bible.

Master of Arts in Clinical Mental Health Counseling

The Master of Arts in Clinical Mental Health Counseling programs provide a strong clinical counseling background within a Christian framework that promotes study of the whole person, including the spiritual dimension. The curriculum offers an integrated approach to psychology, equipping students to be effective counselors in a variety of settings. Programs include the Master of Arts in Clinical Mental Health Counseling Marriage and Family Therapy and Master of Arts in Clinical Mental Health Counseling Substance Use Disorders.

Master of Arts in Curriculum and Instruction

The Master of Arts in Curriculum and Instruction degree is designed to provide an appropriate graduate degree for preschool, elementary, middle level, and secondary teachers in public or private schools. It is also appropriate for those

who desire to be curriculum specialists and writers, supervisors, or departmental chairpersons, and for those who want to enhance their skills and knowledge as corporate trainers or as college teachers.

Master of Arts in Executive Leadership in Christian Ministry

The Master of Arts in Executive Leadership in Christian Ministry prepares students for church and ministry leadership at the executive level, providing an emphasis on business-related skills and ministry competencies.

Master of Arts in School Counseling

The Masters of Arts in School Counseling provides the theories, skills, and knowledge necessary to work as a licensed school counselor in a PK-12th grade setting. The curriculum integrates Biblical principles while exploring relevant educational practices in order to support elementary, middle/junior, and high school students in their social, emotional, academic, and career development.

Master of Arts in Theological Studies

The Master of Arts in Theological Studies focuses on man's response to God's Word. This degree examines various approaches in understanding the Bible with a balance between theology and God's story through the Old and New Testament.

Master of Business Administration

The Master of Business Administration degree is designed to educate a new generation of managers, accountants, planners, analysts, programmers and other business leaders in the areas of leadership, supervision, management and planning. The program is designed to be helpful in all forms of trade and commerce among industrial, commercial, governmental, nonprofit, institutional, and consumer participants.

Master of Education

The Master of Education degree is intended for individuals who wish to work in pivotal educational leadership roles within teaching or administrative ranks of public, charter, or private schools as well as within district offices. The Master of Education programs provide conceptual knowledge and practical application required for professionals such as instructional coaches, directors, department chairs, special educators, and principals. The Master of Education degree meets national and Colorado Department of Education standards. Degrees include: Educational Leadership, Culturally and Linguistically Diverse Education, and the Master of Special Education degree.

Master of Organizational Leadership

The Master of Organizational Leadership degree is a dynamic program that provides Organizational Leaders with a range of innovative skills and collaborative tools for effective leadership in an uncertain and constantly changing global environment. Advances in technology are leveraged with an understanding of people and the importance of ethical values-based practice, converting ideas, resources and technology into lasting economic value for the organization. Students engage in areas such as influencing public policy, change initiatives, systems thinking, leading in diverse cultures, for-profit, government and nonprofit institutions, all set within a biblical worldview. Leaders of today and tomorrow are inspired and equipped to influence and improve their organizations and their worlds.

Master of Public Administration

A career in public administration is about service. The MPA program at CCU will provide not only a solid understanding of government and nonprofit operations, but will offer a cornerstone of Christ-centered leadership, character development and change leadership. MPA graduates will have the capability of leading government and nonprofit organizations ethically, by infusing the eternal truths of the Bible with the practicalities of thoughtful, evidence based fiscally responsible policies.

Master of Science in Accounting

The Master of Science in Accounting is designed to equip future business and nonprofit leaders and managers with a Christian worldview, leadership skills and advanced technology. The degree is in compliance with the Colorado State Board of Accountancy education requirements for students seeking their CPA.

Master of Science in Criminal Justice

Technological developments have put valuable but complex tools in the hands of criminal justice professionals. Demands for transparency and concerns for civil liberty and race relations has expanded accountability requirements. The Master of Science in Criminal Justice program at Colorado Christian University provides not only the competencies necessary for successful leadership in the criminal justice system, but will help students cultivate the character and the courage of moral conviction necessary to be a force for good and to administer justice in a manner based upon biblical principles.

Master of Science in Cyber Security

The Master of Science in Cyber Security equips students with the required technical skills and business knowledge to protect themselves and the key assets of their business or organization. The degree also shows the relationship between cyber security and Christianity - especially as it relates to cyber warfare and cyber crime - enabling students to demonstrate excellence in the workplace and in life.

Master of Science in Economics

The Master of Science in Economics prepares individuals to think critically using concepts and applications from economic theory, and integrating a biblical worldview throughout the program. The program applies economic theories and concepts in the domestic and international arenas, preparing the student to face the economic challenges in our society today.

Master of Science in Human Resource Management

The Master of Science in Human Resource management provides the skill, knowledge and commitment of human resource management so vital to organizational performance. CCU's Human Resources Management program focuses on the methodologies and practices proven to secure and maintain a workforce maximizing functionality and operational effectiveness.

Master of Science in Nursing

The Master of Science in Nursing (MSN) is a graduate degree in nursing with two specialty emphasis tracks: Nursing Education and Clinical Care Management in Adult/Geriatrics. The MSN program is designed utilizing national accreditation standards in preparation for national certification.

Doctor of Nursing Practice

The Doctor of Nursing Practice (DNP) is a doctorate that prepares experts in advanced nursing practice to apply credible research and evidence-based practice into improved health outcomes. The DNP program learning outcomes represent the intersection of the profession of nursing with the values of grace and truth.

College of Undergraduate Studies (Traditional; CUS)

Colorado Christian University's College of Undergraduate Studies (CUS) exists to produce graduates who think critically, live faithfully, and impact effectively their spheres of influence. As the only member of the Council for Christian Colleges and Universities in Colorado, CCU is uniquely positioned to offer students a distinctive variety of educational opportunities and experiences. The University is committed to integrating faith and learning by promoting academic achievement, character development, and spiritual formation. The College of Undergraduate Studies has been nationally recognized for its commitment to academic excellence. It is ranked in the top two percent of colleges nationwide by the American Council

of Trustees and Alumni. Through its CUS program, CCU offers 50 undergraduate degree programs that prepare graduates to become leaders who transform their professions, churches, and communities.

College of Undergraduate Studies

Bachelor's Degrees

CUS Dual Degree Programs

Colorado Christian University offers CUS students dual degree program options, providing a path for students to earn a Bachelor's and Master's degree within four years. Completing two degrees in a single, accelerated process provides a cost-effective opportunity for students to achieve career and educational goals.

Students who are accepted into this Dual Degree program complete their undergraduate coursework in three years through the College of Undergraduate Studies (CUS), graduating with a bachelor's degree. Students then complete their master's degree coursework in their fourth year through the College of Adult and Graduate Studies (CAGS). (Some CAGS graduate programs may require additional time to complete.) Students in their fourth year may take advantage of all traditional student service and student life activities, including sports participation, student government leadership, residence hall living, and mission opportunities.

Included in the bachelor's degree course requirements are nine to twelve master's level credit hours that satisfy both undergraduate and graduate degree requirements.

CCU degree programs offered in this unique dual degree option are the following:

- Bachelor of Arts in Biblical Studies with Languages (CUS) and the Master of Arts in Biblical Studies (CAGS)
- Bachelor of Arts in Liberal Arts: Special Education Generalist Licensure (CUS) and the Master of Education in Special Education (CAGS)
- Bachelor of Arts in Psychology with an emphasis in Biblical Studies (CUS) and the Master of Arts in Biblical Studies (CAGS)
- Bachelor of Arts in Psychology with an emphasis in Clinical Counseling (CUS) and the Master of Arts in Clinical Mental Health Counseling (CAGS)
- Bachelor of Arts in Psychology with an emphasis in Criminal Justice (CUS) and the Master of Science in Criminal Justice (CAGS)
- Bachelor of Arts in Theology (CUS) and the Master of Arts in Theological Studies (CAGS)
- Bachelor of Science in Management (CUS) and the Master of Business Administration (CAGS)

CUS students interested in the Dual Degree program must work with their academic advisor beginning in their freshman year to plan their course schedule and complete all bachelor's degree requirements in the first three years. Prior to the end of their second year students will apply for the master's degree program in CAGS, and take three to four graduate-level courses in their third year. These graduate-level credits fulfill bachelor's degree requirements, and can also be used to fulfill the master's degree requirements.

Degree Update Program/Second Bachelor's Degree

CCU Legacy Alumni may complete a Second Major or Bachelor's Degree

CCU Legacy Alumni are students of Western Bible College, Rockmont College, Colorado Christian College, Colorado Baptist University, or Colorado Christian University who have graduated with a bachelor's degree. They may take courses, and complete a second major or complete a second Bachelor of Science or Bachelor of Arts degree at CCU through the degree update program.

To complete a second major or degree (B.A. or B.S.) through the degree update program, students must complete a minimum of 24 semester hours of credit. Candidates for any major must, however, complete all of the credit hours required for that major.

The degree update program is not applicable to graduate studies. Students in teacher education programs must complete their academic major and all requirements for their teacher preparation program in the catalog year in which the student re-enters, including student teaching, and graduate with the bachelor's degree in order to qualify for the second degree or second major.

General Education Requirements

To earn a bachelor's degree, students must complete a minimum of 120 semester hours of study including the general education requirements described below.

The mission of the general education program in the College of Undergraduate Studies is to introduce students to a broad, foundational knowledge of the humanities, philosophy, Reformation theology, and the study of Western civilization and democracy. The general education program attempts to sharpen student knowledge of American politics and economics, Christian church history, and philosophy in Western society from antiquity. In addition, studies in scientific thought and mathematics stimulate inquiry, critical thinking, and problem-solving. Students learn to think logically, analytically, creatively, and ethically.

The program is structured with the aim of developing informed citizens who can be active in public life. Furthermore, the program strives to promote the development of citizens who will participate in cogent oral discourse and debate in ways that show engagement with central questions posed by the humanities, the philosophy of science, and theology. The focused general education program at Colorado Christian University strives to produce citizens with exceptional written and oral communicative abilities, and who can advance the missional objectives that are consistent with Christian ethics.

English ACT and Critical Reading SAT scores will be used to determine student placement into the required English general education courses. Students with ACT or SAT scores below the CCU standard or those whose performance on placement or diagnostic examinations fail to meet specified university standards for admission into ENG 102 are required to enroll in ENG 102 BASIC. English and mathematics placement examinations are required for first-time freshmen and transfer students with freshman standing who do not have an ACT or SAT score or transferable credit for these courses.

As an advanced English composition and research methods course, ENG 105 fulfills the general education requirement for English by substituting for ENG 102 and ENG 201. Students are invited to enroll in ENG 105 based on one of the following:

- AP English Language and Composition: A score of 4 is the minimum prerequisite for enrollment in ENG 105. A student who scores a 4 or 5 will automatically enroll a student in ENG 105 instead of ENG 102 and/or ENG 201.
- AP English Literature and Composition: A score of 4 is the minimum prerequisite for enrollment in ENG 105. A student who scores a 4 or 5 will automatically enroll a student in ENG 105 instead of ENG 102 and/or ENG 201.
- Score of 30 or above on the verbal section of the ACT exam.
- Score of 700 or above on the verbal section of the SAT exam.
- By invitation of the English department.

To complete general education course requirements, a letter grade of D or better must be earned. Courses with letter grades of D- cannot be used to satisfy graduation requirements in the College of Undergraduate Studies.

Bachelor degree students must complete the following minimum general education courses. Some courses in the list are prescribed for particular majors. To determine which alternatives to take, consult the requirements for your major and your academic advisor.

General Education Requirements (48 credit hours)

Arts and Humanities (9 credit hours)

Take one course from each of the following three academic disciplines:

Fine Arts (3 credit hours)

Choose one course from the following:

HUM 120 - Introduction to the Arts

(3) Introduction to our humanity through hands-on experience in the arts (music, visual arts, poetry, story, play, and dance). Aesthetic and artistic values in the broader context of human cultural development, responsibility, and joy.

Notes: This course satisfies the general education fine arts requirement for most students, and is the required fine arts

course for education majors. It is recommended for all students with a general interest in the fine arts. Students with a special interest in theatre should see THR 112. Students with a special interest in music should see MUS 110.

Note: HUM 120 does not satisfy the fine arts requirement for music majors or minors.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

MUS 110 - Musical Perspectives

(3) An exploration of music in the broader context of culture and the arts; personal musical experiences through listening and doing; and developing the ability to discern aesthetic excellence. Included is an introduction to the elements of music and how music works, the development of a Christian perspective on the arts, a broad survey of representative selections of Western music, and a focused overview of non-western/world music.

Notes: This course satisfies the general education fine arts requirement for most students. It is recommended for all students, especially those with an interest in music, and is the required fine arts course for all music majors and minors. Students with a special interest in Theatre should see THR 112.

Note: MUS 110 does not satisfy the fine arts requirement for education majors.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

THR 112 - Theatre Appreciation

(3) An introduction to the theatre world and all its aspects: the people who are active in that world, the many kinds of work that are created, the sensations and ideas we receive from those works, and the ways the life of theatre has transmitted across many times and place.

Notes: This course satisfies the general education fine arts requirement for most students. It is recommended for all students, especially those with an interest in theatre. Students with a special interest in music should see MUS 110.

Note: THR 112 does not satisfy the fine arts requirement for music majors or minors, or education majors.

When Offered

Fall and spring semesters.

Literature (3 credit hours)

Choose one course from the following:

ENG 201 - Introduction to Literature

(3) Understand, experience, and evaluate poetry, short fiction, essays, and drama genres, both American and multinational.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Fall and spring semesters.

ENG 202 - American Literature I

(3) Representative stories, poems, and documents in American literature from the Colonial era to the early Republic (1776-1830) through the Romantic-transcendentalist period (1830-1860). Includes readings from multiethnic and women writers.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every fall semester.

ENG 203 - American Literature II

(3) Representative stories, poems, and drama in American literature from the Civil War to the present. Nontraditional ethnic and women's voices included. Emphasis on interpretation and criticism of American literature.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every spring semester.

ENG 204 - British Literature I

(3) Surveys the history of literature in Britain until 1800 and representative works by influential writers of the periods contained therein.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every fall semester.

ENG 205 - British Literature II

(3) Surveys the history of literature in Britain from 1800 to the present and representative works by influential writers.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every spring semester.

Philosophy (3 credit hours)

PHL 202 - Introduction to Philosophy

(3) This course is a survey of many major issues raised over the two-and-a-half millennia of western philosophy. With an emphasis on historical context and development, as well as philosophy's relationship to Christian thought, this course challenges students to critically explore philosophical questions and introduce them to the great tradition of intellectual inquiry. Special attention will be given to the subjects of truth and knowledge, reality and appearance, mind and body, right and wrong, beauty and the existence of God.

When Offered

Fall and summer semesters.

Biblical Studies (12 credit hours)

Take the following four courses (some courses are cross-listed and only one prefix needs to be taken):

BIB 111 - Old Testament

(3) This course provides an introduction to the theological, historical, and literary features of the Old Testament, tracing God's covenant relationship with ancient Israel. Special consideration will be given to the divine covenants and Messianic prophecies of the Old Testament.

When Offered

Every spring semester.

Cross-listed HIS 111

HIS 111 - Old Testament

(3) This course provides an introduction to the theological, historical, and literary features of the Old Testament, tracing God's covenant relationship with ancient Israel. Special consideration will be given to the divine covenants and Messianic prophecies of the Old Testament.

When Offered

Every spring semester.

Cross-listed BIB 111.

BIB 114 - New Testament

(3) This course provides an introduction to the theological, historical, and literary features of the New Testament, tracing the presentation of the gospel message through historical, epistolary, and apocalyptic genres. Special consideration will be given to the life of Christ and missionary journeys of the Apostle Paul.

When Offered

Every fall semester.

Cross-listed HUM 114

HUM 114 - New Testament

(3) This course provides an introduction to the theological, historical, and literary features of the New Testament, tracing the presentation of the gospel message through historical, epistolary, and apocalyptic genres. Special consideration will

be given to the life of Christ and missionary journeys of the Apostle Paul.

When Offered

Every fall semester.
Cross-listed BIB 114.

PHL 315 - World Religions and Systems of Belief

(3) This course introduces an academic study of religion and what is called worldview, supplemented by an overview of some of the major tenets of Christianity; this is then followed by a survey of several other religious traditions and competing philosophies.

Prerequisites: PHL 202, THE 201.

When Offered

Winter and spring semesters.

THE 201 - Introduction to Theology

(3) This course covers basic issues, themes, and categories of Christian theology, including the doctrines of Scripture, God, humanity, Christ, salvation, the church, and last things. This course encourages students to better know, trust, love, and live by God's Word.

Prerequisites: BIB 111, BIB 114.

When Offered

Fall, winter, spring, and summer semesters.

Communication (6 credit hours)

COM 103 - Public Speaking

(3) Introductory principles of communication emphasizing public speaking. Aspects of verbal and nonverbal delivery, speech organization, and the effective use of supporting material and presentational aids are addressed. Students give several speeches designed to better equip them for future speaking endeavors

When Offered

Fall and spring semesters.

ENG 102 - English Composition

(3) Effective use of the English language and exploration of rhetorical modes in written composition. Review of structure, purpose, and audience awareness in developing essays.

Prerequisites: ACT and/or SAT scores will be used to determine placement in either ENG 102 or ENG 102 (Basic).

Notes: Course must be completed first semester at CCU.

When Offered

Fall and spring semester.

ENG 105 - Advanced English Composition

(3) Advanced English composition, research methods, and literary study for invited exceptional students. Focus on both the study of literature and research writing.

Prerequisites: One of the following:

- AP English Language and Composition
 - A score of 4 is the minimum prerequisite for enrollment in ENG 105. A student who scores a 4 or 5 will automatically enroll a student in ENG 105 instead of ENG 102 and/or ENG 201.
- AP English Literature and Composition
 - A score of 4 is the minimum prerequisite for enrollment in ENG 105. A student who scores a 4 or 5 will automatically enroll a student in ENG 105 instead of ENG 102 and/or ENG 201.
- Score of 30 or above on the verbal section of the ACT exam.
- Score of 700 or above on the verbal section of the SAT exam.
- By invitation of the English department.

Notes: Fulfills general education requirements for both ENG 102 and ENG 201.

When Offered

Every fall semester.

Integrative Studies (3 credit hours)

* Please see the First-Year Integration (FYI) page for specific information about this required course.

INT 101 - First-Year Integration

(3) Think critically, grow spiritually, and change the world. Based on the premise that we as Christians are called to be rational creatures, relational creatures, and responsible creatures, FYI is an integrative study of foundational Christian principles with other disciplines. Examination and discussion of problems and contemporary issues - academic, personal, and social - facing students in their pursuit of success in college and life. Please see the First-Year Integration (FYI) page for specific information about this required course.

When Offered

Fall and spring semesters.

Mathematics (3 credit hours)

MAT 112 - Mathematics for Liberal Arts

(3) This course introduces some of the important ideas in mathematics and how they can be applied in everyday life situations, solving a wide range of practical problems. Topics include sets, logic, history of numeration, number systems and their properties, number patterns, counting principles, probability, statistics, graph theory, personal finance, and voting methods.

Notes: Students with higher level mathematics skills (i.e. ACT MAT above 20 and SAT MATH above 520) are discouraged from taking this class. Only students who do not place into MAT 111 - College Algebra should enroll in MAT 112 - Mathematics for Liberal Arts.

When Offered

Fall, spring and summer semesters.

(or higher except for MAT 202 or MAT 302 - Teaching Mathematics in the Elementary Classroom)

Science (3 credit hours)

SCI 230 - Integrated Physical Science with Lab

(3) This is an integrated course presenting the major concepts, theoretical perspectives, historical trends, and empirical findings of the physical sciences. Laboratory exercises and lectures explore motion, the four forces, heat, energy, chemical reactions, the structure and development of matter, the types and nature of chemical bonding, and the nature and history of the universe, the solar system, and the Earth.

Lab/Lecture Hours

Laboratory investigations included in course.

Fee

Lab fees apply.

When Offered

Every semester.

Social Sciences (12 credit hours)

Take each of the following four courses:

ECO 215 - Economics

(3) Economics is about scarcity and choice. Students in this course study how people, firms, governments, and nations interact in alternative economic systems to make choices about allocating scarce resources. In addition, students learn to evaluate these systems, understand macroeconomic monetary and fiscal policies, and engage in policy debates.

When Offered

Fall and spring semesters.

HIS 185 - Western Civilization

(3) The spiritual values and intellectual achievements of ancient Israel, Greece, Rome, the Middle Ages, the Renaissance, and Reformation that gave birth to the modern world.

When Offered

Every fall semester.

HIS 205 - American History

(3) Principles of the founding and the political, economic, intellectual, cultural, and religious traditions that have shaped America.

When Offered

Every spring semester.

POL 207 - Introduction to American Politics

(3) Introduction to political science and American government to prepare students to be effective citizens.

When Offered

Every fall and spring semester.

Additional Requirements

General education requirements may vary slightly, depending on the student's program of study. Please see the program page of the individual majors for specific degree requirements.

Graduation Requirements: Bachelor of Arts, Bachelor of Science and Bachelor of Music

The Bachelor of Arts, Bachelor of Science and Bachelor of Music degrees prepare students for selected professions and for study at the graduate level. Each degree offers a broad range of courses in the arts and humanities, natural and social sciences, biblical studies, business, and education, and allows specialization in a major field. The baccalaureate typically requires four years of full-time study to complete, although some programs may take longer.

Bachelor's degree students must complete the minimum General Education courses. Some courses in the list are prescribed for particular majors. To determine which alternatives to take, consult your degree program page, the requirements for your major, and your academic advisor.

Graduation Requirements for Baccalaureate Degrees in the College of Undergraduate Studies

The faculty recommends students in Bachelor of Arts, Bachelor of Music and Bachelor of Science degrees to the Board of Trustees as candidates for graduation when they have completed the following requirements.

1. Completion of at least 120 semester hours, including all General Education, major courses, and electives. (Some majors may require additional credit hours to complete degree requirements.)
2. A letter grade of D or better and a cumulative GPA of 2.0 or higher in all CCU coursework, with a GPA of 2.0 or higher for all courses specified for the major.
 1. In the School of Business and Leadership a cumulative GPA of 2.75 or higher for all SBL degree program courses. Accounting major students must earn a grade of C or better in all Accounting major program courses.
 2. For the School of Education a cumulative GPA of 2.50 or higher for all CCU courses, and a C- or better in all professional education courses.
 3. Nursing students must earn a grade of C or better and a cumulative GPA of 2.5 or better in all CCU coursework.
3. Completion of 180 hours of ministry/community service and 180 chapel credits. Transfer students are required to complete 45 hours of ministry/community service and 45 chapel credits each year of attendance at CCU. For further details on ministry/community service, see the Life Directions Center (LDC) section of this catalog. For further details on chapel credits, see the Student Life section of this catalog.
4. Effective with the 2019-20 catalog year, seniors wishing to walk during the commencement ceremony must have 90% of their required chapel credits accomplished: 162 for a student at CCU for four years, 121 for a student at CCU for three years, 82 for a student at CCU for two years. A student who is short of the 90% threshold will not be able to participate in commencement exercises.
5. Meet the CCU Residency requirements.
6. Acceptable performance on exit exams, as required by the faculty.
7. Formal and timely application for graduation.
8. No outstanding financial obligations to the university.
9. For music majors only: completion of eight semesters of MUA 175 - Music Convocation .

Minors, Emphases, and Cross Disciplinary Studies

Students may select a minor, an emphasis, or a cross disciplinary study in many fields of interest. A minor requires the completion of at least 18 semester hours in the field. An emphasis and cross disciplinary study require the completion of a minimum of 12 hours in the field. Course requirements for various emphases are listed with the appropriate major. Cross disciplinary studies are a concentration of coursework independent of a major. Course requirements for various minors and cross disciplinary studies are listed in their designated program pages. Minors and cross disciplinary studies may require additional prerequisites for degree completion. There can be no overlap of credit between majors, minors, emphases, or cross disciplinary studies, and cum GPA requirements for the minor, emphasis or cross disciplinary study follow the baccalaureate GPA requirements of the School in which they are located. Minors, emphases, and cross disciplinary studies are awarded when the baccalaureate degree is conferred.

Individually Designed Majors

Designed majors must be approved by the faculty advisor, the Dean of the School where most credits will be taken and by the University Registrar. The proposal for a designed major must include a list of course requirements for the major and a detailed explanation indicating why an existing major or combination of majors/minors cannot meet the educational objectives of the student.

A designed major must have a minimum of 45 credits but not more than 54 credits from the major or majors offered at CCU. The proposal must include 21 credits from at least two academic departments with a minimum of two thirds of the courses being 300 or 400 level courses. To provide courses in disciplines not offered in the University curriculum, Colorado Christian University occasionally works in cooperation with other educational institutions. This enables students to gain experience not otherwise available to them while benefiting from the biblical studies and Christian environment offered to resident students.

School of Business and Leadership

The School of Business and Leadership (SBL) offers Bachelors of Science Degrees in the disciplines of Accounting, Business Administration, Computer Information Systems, Entrepreneurship, Management, Marketing, and Outdoor Leadership. These degree programs prepare students to enter the professional world of business and commerce or graduate school following graduation. All degree programs require a minimum of 120 credit hours to complete. Minors are also available in the disciplines of Accounting, Business, Camp Management, Computer Information Systems, Economics, Finance, International Business, Leadership Studies, Management, Marketing, Outdoor Leadership, and Pre-Law. The School of Business and Leadership also offers Cross Disciplinary Studies in Leadership Studies, Management, and Pre-Law.

Progress

The Bachelor of Science degrees offered through the School of Business and Leadership require a minimum of 120 semester hours as prescribed in the areas of general education and biblical studies and the requirements as defined by the major. Appropriate progress in SBL degree programs requires students to achieve a cumulative 2.75 or higher for all SBL courses required. Students must demonstrate patterns of behavior appropriate for an individual preparing for a position of trust and responsibility. In addition, all students must meet the CCU residency requirements. Students failing to maintain these standards may be dismissed from the program

Majors

Accounting Major
Business Administration Major
Computer Information Systems Major
Entrepreneurship Major
Management Major
Marketing Major
Outdoor Leadership Major

Minors

Accounting Minor (CUS - for School of Business and Leadership Majors Only)
Business Minor (CUS - for Non-School of Business and Leadership Majors Only)
Camp Management Minor (CUS - for Non-School of Business and Leadership Majors Only)
Computer Information Systems Minor
Economics Minor
Entrepreneurship Minor
Finance Minor (CUS - for School of Business and Leadership Majors Only)
International Business Minor (CUS - for School of Business and Leadership Majors Only)
Leadership Studies Minor
Management Minor (CUS - for School of Business and Leadership Majors Only)
Management Minor (CUS - for Non-School of Business and Leadership Majors Only)
Marketing Minor (CUS - for School of Business and Leadership Majors Only)
Outdoor Leadership Minor
Pre-Law Studies Minor

Cross Disciplinary Studies

Leadership Studies Cross Disciplinary Study
Management Cross Disciplinary Study (CUS - for Non-School of Business and Leadership Majors Only)
Pre-Law Cross Disciplinary Study

Bachelor's Degrees

Accounting Major

The Bachelor of Science in Accounting provides students the breadth and depth of accounting knowledge necessary to prepare them for the increased demand for accounting majors in all industries. Demand for accounting graduates is stable even during economic downturns. With the emergence of corporate financial scandals, the demand for accounting majors with high ethical standards has increased.

The program in accounting focuses on the following:

- Financial and Managerial Accounting and Reporting:
Demonstrate effective application of GAAP for business enterprises, not-for-profit organizations, and governmental entities.
- Auditing & Attestation:
Demonstrate effective application of U.S. GAAS for attest engagements and knowledge of auditing procedures.
- Regulation:
Demonstrate application of knowledge pertaining to federal taxation, AICPA & PCAOB Codes of Ethics, Principles and Standards, professional and legal responsibilities, Sarbanes-Oxley, and business law.
- Integration of Faith and Learning:
Research and apply scripture to resolve ethical dilemmas resulting from accounting issues.

The objectives above provide Accounting Majors with the knowledge required for any professional entering into the field of accounting and finance and fulfill the requirements necessary to take the Uniform CPA Examination in the State of Colorado. An additional 30 semester hours are required for CPA licensure, all of which can be earned through CCU's Master of Business Administration with an Accounting emphasis or Master of Science in Accounting. By carefully selecting 500-level elective credits, accounting students can also earn up to 18 credit hours toward their CCU MBA degree while finishing their undergraduate accounting degree at no additional cost or time to graduation.

Students who major in Accounting have a wide range of choices for successful and rewarding careers in banking; corporate finance & accounting; management; nonprofit organizations; educational institutions; governmental entities as well as in Public Accounting.

The Accounting Major requires completion of the following 120 credits:

General Education (48 credit hours)
Business Core (34 credit hours)
Accounting Major Core (24 credit hours)
Accounting Electives (6 credit hours)
General Electives (8 credit hours)

Business and Leadership General Education Core (48 credit hours)

Arts and Humanities (9 credit hours)

Take one course from each of the following three academic disciplines:

Fine Arts (3 credit hours)

Choose one course from the following:

HUM 120 - Introduction to the Arts

(3) Introduction to our humanity through hands-on experience in the arts (music, visual arts, poetry, story, play, and dance). Aesthetic and artistic values in the broader context of human cultural development, responsibility, and joy.

Notes: This course satisfies the general education fine arts requirement for most students, and is the required fine arts course for education majors. It is recommended for all students with a general interest in the fine arts. Students with a special interest in theatre should see THR 112. Students with a special interest in music should see MUS 110.

Note: HUM 120 does not satisfy the fine arts requirement for music majors or minors.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

MUS 110 - Musical Perspectives

(3) An exploration of music in the broader context of culture and the arts; personal musical experiences through listening and doing; and developing the ability to discern aesthetic excellence. Included is an introduction to the elements of music and how music works, the development of a Christian perspective on the arts, a broad survey of representative selections of Western music, and a focused overview of non-western/world music.

Notes: This course satisfies the general education fine arts requirement for most students. It is recommended for all students, especially those with an interest in music, and is the required fine arts course for all music majors and minors. Students with a special interest in Theatre should see THR 112.

Note: MUS 110 does not satisfy the fine arts requirement for education majors.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

THR 112 - Theatre Appreciation

(3) An introduction to the theatre world and all its aspects: the people who are active in that world, the many kinds of work that are created, the sensations and ideas we receive from those works, and the ways the life of theatre has transmitted across many times and place.

Notes: This course satisfies the general education fine arts requirement for most students. It is recommended for all students, especially those with an interest in theatre. Students with a special interest in music should see MUS 110.

Note: THR 112 does not satisfy the fine arts requirement for music majors or minors, or education majors.

When Offered

Fall and spring semesters.

Literature (3 credit hours)

Choose one course from the following:

ENG 201 - Introduction to Literature

(3) Understand, experience, and evaluate poetry, short fiction, essays, and drama genres, both American and multinational.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Fall and spring semesters.

ENG 202 - American Literature I

(3) Representative stories, poems, and documents in American literature from the Colonial era to the early Republic (1776-1830) through the Romantic-transcendentalist period (1830-1860). Includes readings from multiethnic and women writers.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every fall semester.

ENG 203 - American Literature II

(3) Representative stories, poems, and drama in American literature from the Civil War to the present. Nontraditional ethnic and women's voices included. Emphasis on interpretation and criticism of American literature.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every spring semester.

ENG 204 - British Literature I

(3) Surveys the history of literature in Britain until 1800 and representative works by influential writers of the periods contained therein.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every fall semester.

ENG 205 - British Literature II

(3) Surveys the history of literature in Britain from 1800 to the present and representative works by influential writers.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every spring semester.

Philosophy (3 credit hours)

PHL 202 - Introduction to Philosophy

(3) This course is a survey of many major issues raised over the two-and-a-half millennia of western philosophy. With an emphasis on historical context and development, as well as philosophy's relationship to Christian thought, this course challenges students to critically explore philosophical questions and introduce them to the great tradition of intellectual inquiry. Special attention will be given to the subjects of truth and knowledge, reality and appearance, mind and body, right and wrong, beauty and the existence of God.

When Offered

Fall and summer semesters.

Biblical Studies (12 credit hours)

Take the following four courses (some courses are cross-listed and only one prefix needs to be taken):

BIB 111 - Old Testament

(3) This course provides an introduction to the theological, historical, and literary features of the Old Testament, tracing God's covenant relationship with ancient Israel. Special consideration will be given to the divine covenants and Messianic prophecies of the Old Testament.

When Offered

Every spring semester.

Cross-listed HIS 111

HIS 111 - Old Testament

(3) This course provides an introduction to the theological, historical, and literary features of the Old Testament, tracing God's covenant relationship with ancient Israel. Special consideration will be given to the divine covenants and Messianic prophecies of the Old Testament.

When Offered

Every spring semester.
Cross-listed BIB 111.

BIB 114 - New Testament

(3) This course provides an introduction to the theological, historical, and literary features of the New Testament, tracing the presentation of the gospel message through historical, epistolary, and apocalyptic genres. Special consideration will be given to the life of Christ and missionary journeys of the Apostle Paul.

When Offered

Every fall semester.
Cross-listed HUM 114

HUM 114 - New Testament

(3) This course provides an introduction to the theological, historical, and literary features of the New Testament, tracing the presentation of the gospel message through historical, epistolary, and apocalyptic genres. Special consideration will be given to the life of Christ and missionary journeys of the Apostle Paul.

When Offered

Every fall semester.
Cross-listed BIB 114.

PHL 315 - World Religions and Systems of Belief

(3) This course introduces an academic study of religion and what is called worldview, supplemented by an overview of some of the major tenets of Christianity; this is then followed by a survey of several other religious traditions and competing philosophies.

Prerequisites: PHL 202, THE 201.

When Offered

Winter and spring semesters.

THE 201 - Introduction to Theology

(3) This course covers basic issues, themes, and categories of Christian theology, including the doctrines of Scripture, God, humanity, Christ, salvation, the church, and last things. This course encourages students to better know, trust, love, and live by God's Word.

Prerequisites: BIB 111, BIB 114.

When Offered

Fall, winter, spring, and summer semesters.

Communication (6 credit hours)

COM 103 - Public Speaking

(3) Introductory principles of communication emphasizing public speaking. Aspects of verbal and nonverbal delivery, speech organization, and the effective use of supporting material and presentational aids are addressed. Students give several speeches designed to better equip them for future speaking endeavors

When Offered

Fall and spring semesters.

ENG 102 - English Composition

(3) Effective use of the English language and exploration of rhetorical modes in written composition. Review of structure, purpose, and audience awareness in developing essays.

Prerequisites: ACT and/or SAT scores will be used to determine placement in either ENG 102 or ENG 102 (Basic).

Notes: Course must be completed first semester at CCU.

When Offered

Fall and spring semester.

ENG 105 - Advanced English Composition

(3) Advanced English composition, research methods, and literary study for invited exceptional students. Focus on both the study of literature and research writing.

Prerequisites: One of the following:

- AP English Language and Composition
 - A score of 4 is the minimum prerequisite for enrollment in ENG 105. A student who scores a 4 or 5 will automatically enroll a student in ENG 105 instead of ENG 102 and/or ENG 201.
- AP English Literature and Composition
 - A score of 4 is the minimum prerequisite for enrollment in ENG 105. A student who scores a 4 or 5 will automatically enroll a student in ENG 105 instead of ENG 102 and/or ENG 201.
- Score of 30 or above on the verbal section of the ACT exam.
- Score of 700 or above on the verbal section of the SAT exam.
- By invitation of the English department.

Notes: Fulfills general education requirements for both ENG 102 and ENG 201.

When Offered

Every fall semester.

Integrative Studies (3 credit hours)

* Please see the First-Year Integration (FYI) page for specific information about this required course.

INT 101 - First-Year Integration

(3) Think critically, grow spiritually, and change the world. Based on the premise that we as Christians are called to be rational creatures, relational creatures, and responsible creatures, FYI is an integrative study of foundational Christian principles with other disciplines. Examination and discussion of problems and contemporary issues - academic, personal, and social - facing students in their pursuit of success in college and life. Please see the First-Year Integration (FYI) page for specific information about this required course.

When Offered

Fall and spring semesters.

Mathematics (3 credit hours)

MAT 112 - Mathematics for Liberal Arts

(3) This course introduces some of the important ideas in mathematics and how they can be applied in everyday life situations, solving a wide range of practical problems. Topics include sets, logic, history of numeration, number systems and their properties, number patterns, counting principles, probability, statistics, graph theory, personal finance, and voting methods.

Notes: Students with higher level mathematics skills (i.e. ACT MAT above 20 and SAT MATH above 520) are discouraged from taking this class. Only students who do not place into MAT 111 - College Algebra should enroll in MAT 112 - Mathematics for Liberal Arts.

When Offered

Fall, spring and summer semesters.

MAT 212 - Statistics and their Application

(3) An introduction to statistical analysis as used in various liberal arts disciplines. Descriptive and inferential statistics and attendant research designs will be considered. Students will become familiar with SPSS and its use in analyzing data and decision making.

Prerequisites: Sophomore standing.

When Offered

Fall and spring semesters.

(or higher except for MAT 202 or MAT 302 - Teaching Mathematics in the Elementary Classroom)

Science (3 credit hours)

SCI 230 - Integrated Physical Science with Lab

(3) This is an integrated course presenting the major concepts, theoretical perspectives, historical trends, and empirical findings of the physical sciences. Laboratory exercises and lectures explore motion, the four forces, heat, energy, chemical reactions, the structure and development of matter, the types and nature of chemical bonding, and the nature and history of the universe, the solar system, and the Earth.

Lab/Lecture Hours

Laboratory investigations included in course.

Fee

Lab fees apply.

When Offered

Every semester.

Social Sciences (12 credit hours)

Take each of the following four courses:

ECO 215 - Economics

(3) Economics is about scarcity and choice. Students in this course study how people, firms, governments, and nations interact in alternative economic systems to make choices about allocating scarce resources. In addition, students learn to evaluate these systems, understand macroeconomic monetary and fiscal policies, and engage in policy debates.

When Offered

Fall and spring semesters.

HIS 185 - Western Civilization

(3) The spiritual values and intellectual achievements of ancient Israel, Greece, Rome, the Middle Ages, the Renaissance, and Reformation that gave birth to the modern world.

When Offered

Every fall semester.

HIS 205 - American History

(3) Principles of the founding and the political, economic, intellectual, cultural, and religious traditions that have shaped America.

When Offered

Every spring semester.

POL 207 - Introduction to American Politics

(3) Introduction to political science and American government to prepare students to be effective citizens.

When Offered

Every fall and spring semester.

Accounting Major (64 credit hours)

Business Core (34 credit hours)

The Accounting major requires completion of the following essential business courses:

ACC 201 - Principles of Accounting I Financial Reporting

(4) This course provides an introduction to the financial accounting information role in business and society, focusing on the recording and reporting of business operations, including financing and investing events. It provides insights on business and enables students to become familiar with reporting of business operations using generally accepted accounting principles.

Prerequisites: BUS 101 or MGT 101.

When Offered

Fall and spring semesters.

BUS 392 - Business Analytics and Data Management

(3) Data is the economy's new oil, and knowing how to refine it is vital to every part of business. In this course, students learn to optimize decision-making by using quantitative analytical tools to extract, assimilate, and manage data. Using the latest technology, students create and understand decision models, multiple regressions, and time-series forecasting.

Prerequisites: BUS 101, CIS 101.

When Offered

Every fall and spring semesters.

CIS 101 - Business Applications in Technology

(3) A look at the history and use of the personal computer, with an emphasis upon current Microsoft products including MS Office. Students will gain skills in word processing, spreadsheet management, database management, web design, and presentation graphics. An emphasis will be placed on the use of technology in Business. A mastery of the materials and skills taught in this course is essential for success in most of the other courses in the School of Business and Leadership because the tools taught in this course are used extensively in the other courses.

Fee

Course fees apply.

When Offered

Every fall and spring semester.

ECO 222 - Principles of Economics: Microeconomics

(3) Economics is the study of mankind in the ordinary business of life. Because the world has a scarcity of resources, the principles in this course will help students consider costs and make better, more efficient decisions. Students learn how people and businesses make choices, how markets are organized, why and how businesses behave differently, and the effects of government interventions on free markets.

Prerequisites: BUS 101 / MGT 101, ECO 215.

When Offered

Every fall semester.

FIN 301 - Managerial Finance

(3) This course equips students to manage the financial aspects of businesses, non-profits, and ministries. Risk-return, time value of money, ratio analysis, business valuation, asset pricing, and financial decision making are topics covered in this course.

Prerequisites: ACC 201, LED 101.

When Offered

Every fall semester.

LAW 303 - Business Law

(3) Practical overview of relevant foundational aspects of business law, such as contracts, agency, and commercial transactions, and basic application of these principles to the workplace.

Prerequisites: BUS 101 or MGT 101, Junior or Senior standing.

When Offered

Fall and spring semesters.

LED 101 - Foundations of Management and Leadership

(3) Students learn to build theoretical, practical, and theological foundations for becoming effective managers and leaders. Students learn to analyze their strengths and weaknesses, making specific growth plans. The course covers many facets of organizational behavior and analyzes human behavior in the workplace. Students study the elements of group behavior including group dynamics, communication, leadership power and politics, and conflict and negotiation.

When Offered

Fall and spring semesters.

MGT 101 - Introduction to Business, Management and Ethics

(3) Students learn fundamental business topics that prepare them to be successful in the exciting world of business and non-profit organizations. Students gain foundations in functional areas (accounting, finance, management, marketing, and technology) and operating environments common to every organization. This course is engaging and transformational, whether one is just starting out or already an avid student of business.

When Offered

Fall and spring semesters.

Cross-listed BUS 101

Accounting major students must take MGT 101 for their Business Core requirements.

MGT 400 - Organizational Capstone

(3) Students gain practical understandings, application, and integration of cutting-edge organizational disciplines and practices - all undergirded by Christian principles. The course focuses on developmental, reconstructive, and succession aspects of all types of organizations. It emphasizes strategic understandings of stewardship, leadership, and management both internally and externally to the organization.

Prerequisites: Senior standing, Final semester at CCU, Instructor permission required. This course must satisfy a major course requirement in the student's degree program.

Fee

Fees may apply.

When Offered

Every fall and spring semesters.

Cross-listed LED 400.

MGT 500 - Management Problem Solving and Decision-Making

(3) Fundamental and advanced techniques for making decisions and solving problems at all leadership levels in business and in life. These systematic techniques, or processes, are designed to improve the student's ability to gather, organize, and evaluate information in the areas of problem solving, decision making and plan implementation.

Prerequisites: Juniors and Seniors only.

When Offered

Every fall and spring semester.

MKT 202 - Principles of Marketing

(3) Marketing is not tricking people into buying something, but rather involves creating genuine value for customers. Students learn how to use the marketing mix (product, price, promotion, and place) and STP (segmenting, targeting, and positioning) as well as better understand advertising, logistics, data analytics, online marketing, pricing, and ethics. The final group project includes a real-world application to rebrand and market a company.

When Offered

Every fall semester.

Accounting Core (24 credit hours)

ACC 300 - Managerial Cost Accounting

(3) This course enables students to prepare, use, and evaluate management accounting information for purposes of strategic decision making, planning, and control over operations as well as performance measurement and evaluation. Particular emphasis is placed on product costing analysis and making effective managerial decisions over activity-based costing systems, cost-volume profit analysis, and organizational budgeting.

Prerequisites: ACC 201.

When Offered

Every fall and spring semester.

ACC 302 - Intermediate Accounting I

(3) This course provides a thorough understanding of the theoretical foundations and mechanics underlying financial reporting. The course's primary objective is to provide the tools necessary to understand and execute appropriate accounting procedures, with an understanding of the broader context in which accounting information is produced and used. The course focuses on the preparation of financial statements while emphasizing accounting requirements for revenue recognition, cash flows, inventory valuation, and the acquisition, utilization, and disposition of long-term assets.

Prerequisites: ACC 201.

When Offered

Every fall and spring semester.

ACC 303 - Intermediate Accounting II

(3) This course provides a thorough understanding of accounting for long-term contracts, investments, liabilities and contingencies, long-term debt, leases, income taxes, the preparation of cash flow statements, and other in-depth accounting issues.

Prerequisites: ACC 302.

When Offered

Every spring semester.

ACC 305 - Design and Audit of Internal Controls

(3) The course provides a thorough understanding of U.S. Generally Accepted Auditing Standards for Internal Controls and the design of internal controls for accounting systems. This course provides an in-depth study of the COSO Internal Control Framework and risk analysis of a company's internal controls to prevent fraud and errors. Students learn to document accounting systems and internal controls, design tests and evaluate the controls, and prepare the resulting Auditor's Opinion on Internal Controls.

Prerequisites: ACC 201.

When Offered

Every fall semester.

ACC 306 - Individual Taxation

(3) This course examines the concepts and structure of the United States income tax system, with a focus on the taxation of individual taxpayers, the compliance burden associated with individual income taxation, and the decision-making process required in structuring activities.

Prerequisites: ACC 201.

When Offered

Every fall semester.

ACC 401 - Advanced Accounting

(3) The course covers advanced topics in financial reporting for students planning careers as professional accountants. Topics include business combinations, consolidated financial reporting, partnership accounting, segment and interim reporting, SEC reporting, multinational accounting and reporting, and other emerging topics.

Prerequisites: ACC 303.

When Offered

Every fall semester.

ACC 404 - Auditing I

(3) The course focuses on the scope, activities, and responsibilities of the professional auditor. Generally Accepted Auditing Standards governing assurance services are studied and applied. Students learn to practice professional judgment and professional skepticism in the process of assessing risk, planning, and performance of audit procedures, and reporting on financial results. Students examine professional ethics, legal liability, and internal control towards the application of auditing and attestation standards.

Prerequisites: ACC 302.

When Offered

Every spring semester.

ACC 520 - Advanced Tax Accounting

(3) This course develops a conceptual framework for analyzing taxation of property transactions, corporations, partnerships, and exempt organizations. Building on skills acquired in the undergraduate tax accounting course, students will research, analyze and communicate conclusions about issues related to the above topics for reporting and management decision-making.

Prerequisites: ACC 306.

When Offered

Every spring semester.

Elective Core (6 credit hours)

An additional 6 elective credit hours is required and can be met by 1) completing a School of Business and Leadership emphasis, 2) completing 6 credit hours from the following courses and/or any course with a prefix from the School of Business and Leadership (ACC, BUS, CIS, ECO, ENT, FIN, LAW, LED, MGT, MKT, OUL), or 3) by completing the requirements of an SBL minor or SBL second major.

ACC 505 - Accounting Ethics

(3) Ethics as applied to the accounting profession is studied through the lenses of biblical responsibility and practice. The fundamental values of integrity, due care, confidentiality, objectivity and independence are explored through theory and cases. Students will learn to recognize potential conflict of interest and moral dilemma situations and develop proper

professional code of conduct responses.

Prerequisites: ACC 303.

When Offered

Every fall semester.

BUS 420 - Applied Business Analytics

(3) Data will talk if you know how to listen. In this course students learn how to incorporate and analyze large/complex data sets of information to optimize decision-making. Students learn to aggregate data and analyze company reports, then apply this knowledge to create a major research paper and presentation that incorporates state-of-the-art data visualization techniques.

Prerequisites: ACC 201, BUS 392.

When Offered

Every spring semester.

BUS 500 - International Business Practicum

(3) This applied International Business course building upon prior global knowledge is an intensive study abroad experience of 3.5 weeks in a foreign country. Students will visit many types of organizations and participate in a number of cultural site visits designed to develop a deep understanding of business/economic, political, social, technological, and theological issues, with extensive readings, presentations, and papers required.

Prerequisites: BUS 370, Juniors and Seniors only.

Fee

Course fee applies.

When Offered

Every spring semester.

ECO 500 - Micro-Economic Analysis and Policy

(3) Economics provides insights on how individuals, businesses, governments, and nations make choices. Often, incentives embodied in policies drive those choices, and choices have implications. This course equips students with the tools to be able to analyze microeconomic issues, the macro-economy, and economic development policies. Students engage in research to develop policies addressing current economic problems in their interest areas, write academic papers, and produce creative means to disseminate policy suggestions using modern media.

Prerequisites: ECO 215; Juniors and Seniors only.

When Offered

Every spring semester.

FIN 502 - Financial Institutions and Monetary Policy

(3) The best way to learn about finance and economics is to know the players and the system. In this course, students learn about all the major participants in global finance, including central banks, financial institutions, and stock and bond markets. Monetary policy and other major financial policy decisions will also be explored. Risk-return concepts including hedging, derivatives, and asset valuation will be covered in detail. The course focuses on financial crises and their policy implications illuminating interactions, roles, and failures of major market participants.

Prerequisites: FIN 301, LAW 303; Juniors and Seniors only.

When Offered

Every fall semester.

Cross-listed ECO 502.

LAW 501 - Legal Issues in Management

(3) This course reviews concepts of business and employment law to include: human resource matters; the use of technology and intellectual property rights; entity formation, taxation, finance, Uniform Commercial Code, contracts, privacy, consumer rights, and trans-border issues.

Prerequisites: LAW 303, Juniors and Seniors only.

When Offered

Every spring semester.

MKT 510 - Marketing Strategy

(3) Designed for students interested in careers in product/brand management, planning, marketing research, sales management or an entrepreneurial view of bringing products to markets. Exposure to advance thinking on product development process and elements of effective market planning. Marketing is changing rapidly and is reliant on lower cost guerrilla tactics, intentional viral strategies and wrap-around strategies in social media.

Prerequisites: MKT 310, Juniors and Seniors only.

When Offered

Every spring semester.

MGT 561 - Business Project Planning, Scheduling, and Controlling

(3) To be successful, project managers must analyze alternative project decisions by relying heavily on project planning, scheduling, estimating, control, and risk management tools and techniques. This course provides students with the skills required to plan, baseline, monitor, analyze, and evaluate project performance and associated risks.

Prerequisites: Juniors and Seniors only.

Fee

Course fees apply.

When Offered

Every spring semester.

Optional Accounting Emphases

Elective requirements can be satisfied by completing one of the Accounting Emphases listed below. None of these emphases are required for the major.

Computer Information Systems Emphasis (12 credit hours)

The emphasis in Computer Information Systems is designed for accounting major students seeking careers related to the field of information systems. The CIS emphasis can significantly increase marketability for accounting majors. Proficient usage of computers in day-to-day business functions is now viewed as a critical skill for success in any business environment. Having a CIS emphasis adds skills and abilities employers need, and it can differentiate graduates from those without it.

CIS 130 - Programming Foundations I

(3) Programming teaches people logical thought progression. In this course students learn how to organize a problem into a series of steps and then write code in Python for a computer to implement the steps. Some of the modern software programming principles studied include object-oriented design, decomposition, encapsulation, abstraction, prototyping, testing, and the implementation of event-driven logic to solve real-world problems.

When Offered

Every fall semester.

CIS 137 - Web Design Fundamentals

(3) A company's website serves as the front door for customers. The site's appeal, ease of use, and quality of interaction will determine profits. This course covers the computer languages of HTML, CSS, and JavaScript, allowing students to produce web pages that can be intuitively understood by users. Students learn to design with many forms of data, including hypertext, graphics, audio, and video to create superior interactive web pages.

Prerequisites: CIS 130.

When Offered

Every spring semester.

CIS 230 - Programming Foundations II

(3) This course provides more in-depth instruction in an object-oriented programming language, to include program specification, design, development, prototyping, testing, implementation, and documentation. Students learn to use the structure of modern Internet-based programs to write multi-threaded real-time applications.

Prerequisites: CIS 130.

When Offered

Every fall semester.

CIS 326 - Database Administration and Implementation

(3) Modern society uses databases to hold back chaos; without them, everything from debit cards to cell phones would fail. In this course students learn about the tools and techniques of relational database analysis and design using structured query language (SQL). Students put their skills into practice by analyzing business scenarios and then designing and implementing database solutions to include web-based data access.

Prerequisites: CIS 130.

When Offered

Every spring semester.

Economics Emphasis (12 credit hours)

The Economics emphasis builds on the foundation of the core economics course and provides in-depth study of economics. The study of economics provides students with the knowledge required to be competent citizens who actively participate in economics affairs and decision-making.

BUS 370 - International Business

(3) The Internet has made international business everyone's business. In this course students learn about international organizations, the global monetary system, regional trading blocs, and how politics and culture impact doing business abroad. This course surveys each of the functional areas of business (finance, marketing, organization, strategy, etc.) to help students assess opportunities, mitigate risk, and create and capture value.

When Offered

Every spring semester.

ECO 497 - Special Topics

(1 to 3) Guided group investigation and discussion of a selected topic.

Notes: Graded; may be repeated for credit.

When Offered

Scheduled by School.

ECO 297 or ECO 397 may be substituted for ECO 497.

ECO 500 - Micro-Economic Analysis and Policy

(3) Economics provides insights on how individuals, businesses, governments, and nations make choices. Often, incentives embodied in policies drive those choices, and choices have implications. This course equips students with the tools to be able to analyze microeconomic issues, the macro-economy, and economic development policies. Students engage in research to develop policies addressing current economic problems in their interest areas, write academic papers, and produce creative means to disseminate policy suggestions using modern media.

Prerequisites: ECO 215; Juniors and Seniors only.

When Offered

Every spring semester.

POL 301 - Political Economy

(3) This course provides an overview of the intersection of politics and economics, particularly in macroeconomics, fiscal and monetary policy; also explores comparative economic systems, free markets and trade. Students will also engage and integrate the subject matter themes with concepts of political theory, such as justice, freedom, property ownership, and stewardship.

Prerequisites: ECO 215; POL 207 or POL 233.

When Offered

Every fall semester.

Finance Emphasis (12 credit hours)

The emphasis in finance provides students the essential knowledge and practice-oriented skills associated with financial management. Courses in the specialization focus on investments, markets, and small business finance through the applications of financial analysis, capital management, and cash management. Financial analysis will cover the skills and techniques for organizations and market institutions. Capital and cash management will focus on the application of strategies and models for capital acquisitions and cash flows.

FIN 307 - Personal Financial Planning

(3) Wealth comes in many forms. In this course, students explore various aspects of money management and the Christian concept of stewardship. In addition to learning about investments, insurance, taxes, and the basics of budgeting, students discover what the Bible says about contentment, generosity, living within our means, and much more.

When Offered

Every fall and spring semesters.

FIN 320 - Investments & Portfolio Management

(3) Students learn how to invest in financial markets. Advanced concepts are covered, such as portfolio management, security analysis, and stock-picking.

Prerequisites: FIN 301.

When Offered

Every spring semester.

FIN 411 - Financial Management Strategies

(3) This course focuses on financial management strategies for all stages of the business life cycle. Students learn about financial instruments in detail, including the securities issued by a firm, how they are offered, and their underlying valuation. Important business transactions are also covered, including paying dividends, stock buybacks, acquisitions, and restructuring.

Prerequisites: FIN 301, LAW 303.

When Offered

Every spring semester.

FIN 502 - Financial Institutions and Monetary Policy

(3) The best way to learn about finance and economics is to know the players and the system. In this course, students learn about all the major participants in global finance, including central banks, financial institutions, and stock and bond markets. Monetary policy and other major financial policy decisions will also be explored. Risk-return concepts including hedging, derivatives, and asset valuation will be covered in detail. The course focuses on financial crises and their policy implications illuminating interactions, roles, and failures of major market participants.

Prerequisites: FIN 301, LAW 303; Juniors and Seniors only.

When Offered

Every fall semester.

Cross-listed ECO 502.

International Business Emphasis (12 credit hours)

Because business is increasingly conducted across international borders, graduates with an understanding of different cultures, markets, and international business practices, are in demand. Obtaining an International Business Emphasis will give you an understanding of the economic, financial, and cultural differences across countries. It can also provide a broad background in international management and marketing.

BUS 370 - International Business

(3) The Internet has made international business everyone's business. In this course students learn about international organizations, the global monetary system, regional trading blocs, and how politics and culture impact doing business abroad. This course surveys each of the functional areas of business (finance, marketing, organization, strategy, etc.) to help students assess opportunities, mitigate risk, and create and capture value.

When Offered

Every spring semester.

COM 314 - Cross-Cultural Communication

(3) Examines Issues, theories, research, and strategies related to developing effective communication practices between diverse cultures. Consideration of biblical principles related to peoples and issues within various cultural backgrounds and experiences.

Prerequisites: COM 103.

When Offered

Every fall semester.

GLS 203 - Introduction to Global Studies

(3) Relationships between sovereign states in the global community; concepts of national interests, goals of foreign policies; interactions between nation-states and the resolution of international conflicts; geography and geopolitics; the first, second, and third worlds; and current affairs and controversial issues.

When Offered

Every fall semester.

POL 324 - Foreign Policy and Diplomacy

(3) This course examines the history of U.S. foreign policy; foreign policy processes and theories; key global organizations; and comparative foreign policies of world powers.

Prerequisites: POL 233.

When Offered

Every spring semester.

Management Emphasis (12 credit hours)

The management emphasis for business majors program builds on the foundation of the business core courses and then provides in-depth study of management and leadership concepts (International Business, Managerial and Corporate Communication, Organizational Behavior, Managing and Marketing of Nonprofit Organizations, Leadership Communication, etc.).

BUS 370 - International Business

(3) The Internet has made international business everyone's business. In this course students learn about international organizations, the global monetary system, regional trading blocs, and how politics and culture impact doing business abroad. This course surveys each of the functional areas of business (finance, marketing, organization, strategy, etc.) to help students assess opportunities, mitigate risk, and create and capture value.

When Offered

Every spring semester.

COM 403 - Organizational Communication

(3) Integration of communication, management, and organizational theory; provides historical and contemporary vantage points of communication's role in organizational operation.

Prerequisites: Junior or Senior standing.

When Offered

Every fall semester.

MGT 309 - Managing and Marketing Nonprofit Organizations

(3) Taking a contemporary view of the challenges nonprofits face today, this course assists students in understanding how nonprofits are affected by the 21st-century economy. The course enables students to understand the evolution of a nonprofit from ideation to progression through the various stages in the life of a nonprofit. Students participate in real-world nonprofits developing semester-long business projects.

Prerequisites: BUS 101 or instructor permission.

Notes: Laptop computer required.

When Offered

Every spring semester.

MGT 561 - Business Project Planning, Scheduling, and Controlling

(3) To be successful, project managers must analyze alternative project decisions by relying heavily on project planning, scheduling, estimating, control, and risk management tools and techniques. This course provides students with the skills required to plan, baseline, monitor, analyze, and evaluate project performance and associated risks.

Prerequisites: Juniors and Seniors only.

Fee

Course fees apply.

When Offered

Every spring semester.

Marketing Emphasis (12 credit hours)

The Marketing Emphasis program builds on the foundation of the business core courses and then provides in-depth study of marketing concepts, advertising theory, consumer behavior, public relations and publicity, market research, strategic marketing management, Internet marketing, and e-commerce.

MKT 309 - Sales and Service Relationships

(3) Great salespersons are relationship builders who sell needed solutions, not just products or services. In this course students learn everything from prospecting and qualifying to sales presentations and closing the sale. Customer Relationship Management is covered, including optimizing identification, acquisition, growth, and retention of desired customers. Other topics include employing technology, managing a sales force, and handling legal, ethical, and social issues.

Prerequisites: MKT 202.

When Offered

Every fall semester.

MKT 310 - Marketing Research and Consumer Behavior

(3) Marketers must know the customer so well that the product or service sells itself. This course teaches the basics of marketing research and the cultural, social, personal, and psychological factors influencing buyer behavior. Students learn how to do marketing research and scrutinize research literature.

Prerequisites: MAT 212, MKT 202.

When Offered

Every spring semester.

MKT 314 - Advertising Management

(3) Commercials should be what people are interested in. In this course students learn how to develop an advertising campaign, conduct target market analyses, and manage creative strategy, production, and media planning. They will also understand and be prepared to navigate the legal and ethical issues that surround advertising.

Prerequisites: MKT 202.

When Offered

Every spring semester.

MKT 510 - Marketing Strategy

(3) Designed for students interested in careers in product/brand management, planning, marketing research, sales management or an entrepreneurial view of bringing products to markets. Exposure to advance thinking on product development process and elements of effective market planning. Marketing is changing rapidly and is reliant on lower cost guerrilla tactics, intentional viral strategies and wrap-around strategies in social media.

Prerequisites: MKT 310, Juniors and Seniors only.

When Offered

Every spring semester.

Pre-Law Studies Emphasis (12 credit hours)

The Pre-Law Studies Emphasis helps students to determine if they have an aptitude and interest in law and provides a background for law school coursework. This emphasis helps students build a strong liberal arts education with challenging courses that require them to analyze and evaluate conflicting ideas and to communicate effectively orally and in writing. The Pre-Law Studies Emphasis is designed to complement Business and Accounting majors, and to help students determine if they should invest in further education in law school.

Required Core (6 credit hours)

LAW 212 - Legal Reasoning and Writing

(3) Engages students in basic principles and techniques of formal logic, reasoning, and legal research and writing. This course provides a foundation in critical thinking and analysis skills necessary for success on the Law School Admissions Test (LSAT).

When Offered

Every spring semester.

LAW 217 - Constitutional Law

(3) This course is a study of the U.S. Constitution as the foundational document for all law in the United States. The course is designed to prepare the student for law school. The course relies primarily on the legal case study method as a learning strategy for understanding key principles of constitutional law.

When Offered

Every fall semester.

Required Electives (6 credit hours)

Choose 6 credit hours from the following:

LAW 311 - Moot Court Team

(1) Instruction in oral argument and legal analysis with opportunities to compete at regional and national moot court tournaments. Participation in Moot Court Team requires enrollment in this class.

Prerequisites: LAW 310 taken either previously or concurrently. Instructor permissions required.

Notes: May be repeated for credit for a maximum of six credits. Pass/Fail.

When Offered

Every fall semester.

LAW 429 - Legal Issues in Nonprofit Organizations

(3) This course provides the student a practical overview of relevant foundational aspects of nonprofit organizations and certain legal issues impacting their organization and operation, as well as how a basic application of these principles applies to the business workplace.

Prerequisites: LAW 303.

When Offered

Scheduled by School.

LAW 501 - Legal Issues in Management

(3) This course reviews concepts of business and employment law to include: human resource matters; the use of technology and intellectual property rights; entity formation, taxation, finance, Uniform Commercial Code, contracts, privacy, consumer rights, and trans-border issues.

Prerequisites: LAW 303, Juniors and Seniors only.

When Offered

Every spring semester.

Professional Licensure Disclosure

Colorado Christian University offers several academic programs which lead to professional licensure in the state of Colorado and, in some programs, prepare students for a national exam. All students should be aware that states vary in their educational and professional requirements depending on the profession. Some states require specific educational requirements, clinical requirements, accreditation requirements, or exam requirements. See professional licensure disclosures for details.

Graduation Requirements for Bachelor of Science in Accounting

The faculty recommends students in the B.S. in Accounting to the Board of Trustees as candidates for graduation when they have completed the following requirements.

1. Completion of a total of 120 credits, including all general education, electives, and major core requirements.
2. A letter grade of D or better and a cumulative GPA of 2.0 or better in all CCU coursework, and a cumulative GPA of 2.75 or higher and a minimum of C or better in all Accounting major program courses.
3. Completion of 180 hours of ministry/community service and 180 chapel credits. Transfer students are required to complete 45 hours of ministry/community service and 45 chapel credits each year of attendance at CCU. For further details on ministry/community service, see the Life Directions Center (LDC) section of this catalog. For further details on chapel credits, see the Student Life section of this catalog.
4. Meet the CCU Residency requirements.
5. Acceptable performance on exit exams, as required by the faculty.
6. Formal and timely application for graduation by the date specified by the University Registrar.
7. No outstanding financial obligation to the University.

Business Administration Major

The Bachelor of Science degree with a major in Business Administration is designed for students seeking breadth of business training and careers involving the various aspects of business and organizational effort. The courses offered in this degree train the student in foundational areas with a measured depth of integrated understanding in all aspects of business.

Business administration students who choose graduate courses in either the Required Electives Core requirements or one of the Optional Emphases can earn up to 12 credit hours toward their CCU Master of Business Administration degree while finishing their undergraduate business administration degree at no additional cost or time to graduation.

The Business Administration Major requires completion of the following 120 credit hours:

General Education (48 credit hours)

Business Core (34 credit hours)

Required Electives (12 credit hours)

General Electives (26 credit hours)

Business and Leadership General Education Core (48 credit hours)

Arts and Humanities (9 credit hours)

Take one course from each of the following three academic disciplines:

Fine Arts (3 credit hours)

Choose one course from the following:

HUM 120 - Introduction to the Arts

(3) Introduction to our humanity through hands-on experience in the arts (music, visual arts, poetry, story, play, and dance). Aesthetic and artistic values in the broader context of human cultural development, responsibility, and joy.

Notes: This course satisfies the general education fine arts requirement for most students, and is the required fine arts course for education majors. It is recommended for all students with a general interest in the fine arts. Students with a special interest in theatre should see THR 112. Students with a special interest in music should see MUS 110.

Note: HUM 120 does not satisfy the fine arts requirement for music majors or minors.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

MUS 110 - Musical Perspectives

(3) An exploration of music in the broader context of culture and the arts; personal musical experiences through listening and doing; and developing the ability to discern aesthetic excellence. Included is an introduction to the elements of music and how music works, the development of a Christian perspective on the arts, a broad survey of representative selections of Western music, and a focused overview of non-western/world music.

Notes: This course satisfies the general education fine arts requirement for most students. It is recommended for all students, especially those with an interest in music, and is the required fine arts course for all music majors and minors. Students with a special interest in Theatre should see THR 112.

Note: MUS 110 does not satisfy the fine arts requirement for education majors.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

THR 112 - Theatre Appreciation

(3) An introduction to the theatre world and all its aspects: the people who are active in that world, the many kinds of work that are created, the sensations and ideas we receive from those works, and the ways the life of theatre has transmitted across many times and place.

Notes: This course satisfies the general education fine arts requirement for most students. It is recommended for all students, especially those with an interest in theatre. Students with a special interest in music should see MUS 110.

Note: THR 112 does not satisfy the fine arts requirement for music majors or minors, or education majors.

When Offered

Fall and spring semesters.

Literature (3 credit hours)

Choose one course from the following:

ENG 201 - Introduction to Literature

(3) Understand, experience, and evaluate poetry, short fiction, essays, and drama genres, both American and multinational.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Fall and spring semesters.

ENG 202 - American Literature I

(3) Representative stories, poems, and documents in American literature from the Colonial era to the early Republic (1776-1830) through the Romantic-transcendentalist period (1830-1860). Includes readings from multiethnic and women writers.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every fall semester.

ENG 203 - American Literature II

(3) Representative stories, poems, and drama in American literature from the Civil War to the present. Nontraditional ethnic and women's voices included. Emphasis on interpretation and criticism of American literature.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every spring semester.

ENG 204 - British Literature I

(3) Surveys the history of literature in Britain until 1800 and representative works by influential writers of the periods contained therein.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every fall semester.

ENG 205 - British Literature II

(3) Surveys the history of literature in Britain from 1800 to the present and representative works by influential writers.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every spring semester.

Philosophy (3 credit hours)**PHL 202 - Introduction to Philosophy**

(3) This course is a survey of many major issues raised over the two-and-a-half millennia of western philosophy. With an emphasis on historical context and development, as well as philosophy's relationship to Christian thought, this course challenges students to critically explore philosophical questions and introduce them to the great tradition of intellectual inquiry. Special attention will be given to the subjects of truth and knowledge, reality and appearance, mind and body, right and wrong, beauty and the existence of God.

When Offered

Fall and summer semesters.

Biblical Studies (12 credit hours)

Take the following four courses (some courses are cross-listed and only one prefix needs to be taken):

BIB 111 - Old Testament

(3) This course provides an introduction to the theological, historical, and literary features of the Old Testament, tracing God's covenant relationship with ancient Israel. Special consideration will be given to the divine covenants and Messianic prophecies of the Old Testament.

When Offered

Every spring semester.
Cross-listed HIS 111

HIS 111 - Old Testament

(3) This course provides an introduction to the theological, historical, and literary features of the Old Testament, tracing God's covenant relationship with ancient Israel. Special consideration will be given to the divine covenants and Messianic prophecies of the Old Testament.

When Offered

Every spring semester.
Cross-listed BIB 111.

BIB 114 - New Testament

(3) This course provides an introduction to the theological, historical, and literary features of the New Testament, tracing the presentation of the gospel message through historical, epistolary, and apocalyptic genres. Special consideration will be given to the life of Christ and missionary journeys of the Apostle Paul.

When Offered

Every fall semester.
Cross-listed HUM 114

HUM 114 - New Testament

(3) This course provides an introduction to the theological, historical, and literary features of the New Testament, tracing the presentation of the gospel message through historical, epistolary, and apocalyptic genres. Special consideration will be given to the life of Christ and missionary journeys of the Apostle Paul.

When Offered

Every fall semester.
Cross-listed BIB 114.

PHL 315 - World Religions and Systems of Belief

(3) This course introduces an academic study of religion and what is called worldview, supplemented by an overview of some of the major tenets of Christianity; this is then followed by a survey of several other religious traditions and competing philosophies.

Prerequisites: PHL 202, THE 201.

When Offered

Winter and spring semesters.

THE 201 - Introduction to Theology

(3) This course covers basic issues, themes, and categories of Christian theology, including the doctrines of Scripture, God, humanity, Christ, salvation, the church, and last things. This course encourages students to better know, trust, love, and live by God's Word.

Prerequisites: BIB 111, BIB 114.

When Offered

Fall, winter, spring, and summer semesters.

Communication (6 credit hours)

COM 103 - Public Speaking

(3) Introductory principles of communication emphasizing public speaking. Aspects of verbal and nonverbal delivery, speech organization, and the effective use of supporting material and presentational aids are addressed. Students give several speeches designed to better equip them for future speaking endeavors

When Offered

Fall and spring semesters.

ENG 102 - English Composition

(3) Effective use of the English language and exploration of rhetorical modes in written composition. Review of structure, purpose, and audience awareness in developing essays.

Prerequisites: ACT and/or SAT scores will be used to determine placement in either ENG 102 or ENG 102 (Basic).

Notes: Course must be completed first semester at CCU.

When Offered

Fall and spring semester.

ENG 105 - Advanced English Composition

(3) Advanced English composition, research methods, and literary study for invited exceptional students. Focus on both the study of literature and research writing.

Prerequisites: One of the following:

- AP English Language and Composition
 - A score of 4 is the minimum prerequisite for enrollment in ENG 105. A student who scores a 4 or 5 will automatically enroll a student in ENG 105 instead of ENG 102 and/or ENG 201.
- AP English Literature and Composition
 - A score of 4 is the minimum prerequisite for enrollment in ENG 105. A student who scores a 4 or 5 will automatically enroll a student in ENG 105 instead of ENG 102 and/or ENG 201.
- Score of 30 or above on the verbal section of the ACT exam.
- Score of 700 or above on the verbal section of the SAT exam.
- By invitation of the English department.

Notes: Fulfills general education requirements for both ENG 102 and ENG 201.

When Offered

Every fall semester.

Integrative Studies (3 credit hours)

* Please see the First-Year Integration (FYI) page for specific information about this required course.

INT 101 - First-Year Integration

(3) Think critically, grow spiritually, and change the world. Based on the premise that we as Christians are called to be rational creatures, relational creatures, and responsible creatures, FYI is an integrative study of foundational Christian principles with other disciplines. Examination and discussion of problems and contemporary issues - academic, personal, and social - facing students in their pursuit of success in college and life. Please see the First-Year Integration (FYI) page for specific information about this required course.

When Offered

Fall and spring semesters.

Mathematics (3 credit hours)**MAT 112 - Mathematics for Liberal Arts**

(3) This course introduces some of the important ideas in mathematics and how they can be applied in everyday life situations, solving a wide range of practical problems. Topics include sets, logic, history of numeration, number systems and their properties, number patterns, counting principles, probability, statistics, graph theory, personal finance, and voting methods.

Notes: Students with higher level mathematics skills (i.e. ACT MAT above 20 and SAT MATH above 520) are discouraged from taking this class. Only students who do not place into MAT 111 - College Algebra should enroll in MAT 112 - Mathematics for Liberal Arts.

When Offered

Fall, spring and summer semesters.

MAT 212 - Statistics and their Application

(3) An introduction to statistical analysis as used in various liberal arts disciplines. Descriptive and inferential statistics and attendant research designs will be considered. Students will become familiar with SPSS and its use in analyzing data and

decision making.

Prerequisites: Sophomore standing.

When Offered

Fall and spring semesters.

(or higher except for MAT 202 or MAT 302 - Teaching Mathematics in the Elementary Classroom)

Science (3 credit hours)

SCI 230 - Integrated Physical Science with Lab

(3) This is an integrated course presenting the major concepts, theoretical perspectives, historical trends, and empirical findings of the physical sciences. Laboratory exercises and lectures explore motion, the four forces, heat, energy, chemical reactions, the structure and development of matter, the types and nature of chemical bonding, and the nature and history of the universe, the solar system, and the Earth.

Lab/Lecture Hours

Laboratory investigations included in course.

Fee

Lab fees apply.

When Offered

Every semester.

Social Sciences (12 credit hours)

Take each of the following four courses:

ECO 215 - Economics

(3) Economics is about scarcity and choice. Students in this course study how people, firms, governments, and nations interact in alternative economic systems to make choices about allocating scarce resources. In addition, students learn to evaluate these systems, understand macroeconomic monetary and fiscal policies, and engage in policy debates.

When Offered

Fall and spring semesters.

HIS 185 - Western Civilization

(3) The spiritual values and intellectual achievements of ancient Israel, Greece, Rome, the Middle Ages, the Renaissance, and Reformation that gave birth to the modern world.

When Offered

Every fall semester.

HIS 205 - American History

(3) Principles of the founding and the political, economic, intellectual, cultural, and religious traditions that have shaped America.

When Offered

Every spring semester.

POL 207 - Introduction to American Politics

(3) Introduction to political science and American government to prepare students to be effective citizens.

When Offered

Every fall and spring semester.

Business Administration Major (46 credit hours)

Business Core (34 credit hours)

ACC 201 - Principles of Accounting I Financial Reporting

(4) This course provides an introduction to the financial accounting information role in business and society, focusing on the recording and reporting of business operations, including financing and investing events. It provides insights on business and enables students to become familiar with reporting of business operations using generally accepted accounting principles.

Prerequisites: BUS 101 or MGT 101.

When Offered

Fall and spring semesters.

BUS 101 - Introduction to Business, Management and Ethics

(3) Students learn fundamental business topics that prepares them to be successful in the exciting world of business and non-profit organizations. Students gain foundations in functional areas (accounting, finance, management, marketing, and technology) and operating environments common to every organization. This course is engaging and transformational, whether one is just starting out or already an avid student of business.

When Offered

Fall and spring semesters.

Cross-listed MGT 101

MGT 101 - Introduction to Business, Management and Ethics

(3) Students learn fundamental business topics that prepare them to be successful in the exciting world of business and non-profit organizations. Students gain foundations in functional areas (accounting, finance, management, marketing, and technology) and operating environments common to every organization. This course is engaging and transformational, whether one is just starting out or already an avid student of business.

When Offered

Fall and spring semesters.

Cross-listed BUS 101

BUS 392 - Business Analytics and Data Management

(3) Data is the economy's new oil, and knowing how to refine it is vital to every part of business. In this course, students learn to optimize decision-making by using quantitative analytical tools to extract, assimilate, and manage data. Using the latest technology, students create and understand decision models, multiple regressions, and time-series forecasting.

Prerequisites: BUS 101, CIS 101.

When Offered

Every fall and spring semesters.

CIS 101 - Business Applications in Technology

(3) A look at the history and use of the personal computer, with an emphasis upon current Microsoft products including MS Office. Students will gain skills in word processing, spreadsheet management, database management, web design, and presentation graphics. An emphasis will be placed on the use of technology in Business. A mastery of the materials and skills taught in this course is essential for success in most of the other courses in the School of Business and Leadership because the tools taught in this course are used extensively in the other courses.

Fee

Course fees apply.

When Offered

Every fall and spring semester.

ECO 222 - Principles of Economics: Microeconomics

(3) Economics is the study of mankind in the ordinary business of life. Because the world has a scarcity of resources, the principles in this course will help students consider costs and make better, more efficient decisions. Students learn how people and businesses make choices, how markets are organized, why and how businesses behave differently, and the effects of government interventions on free markets.

Prerequisites: BUS 101 / MGT 101, ECO 215.

When Offered

Every fall semester.

FIN 301 - Managerial Finance

(3) This course equips students to manage the financial aspects of businesses, non-profits, and ministries. Risk-return, time value of money, ratio analysis, business valuation, asset pricing, and financial decision making are topics covered in this course.

Prerequisites: ACC 201, LED 101.

When Offered

Every fall semester.

LAW 303 - Business Law

(3) Practical overview of relevant foundational aspects of business law, such as contracts, agency, and commercial transactions, and basic application of these principles to the workplace.

Prerequisites: BUS 101 or MGT 101, Junior or Senior standing.

When Offered

Fall and spring semesters.

LED 101 - Foundations of Management and Leadership

(3) Students learn to build theoretical, practical, and theological foundations for becoming effective managers and leaders. Students learn to analyze their strengths and weaknesses, making specific growth plans. The course covers many facets of organizational behavior and analyzes human behavior in the workplace. Students study the elements of group behavior including group dynamics, communication, leadership power and politics, and conflict and negotiation.

When Offered

Fall and spring semesters.

MGT 400 - Organizational Capstone

(3) Students gain practical understandings, application, and integration of cutting-edge organizational disciplines and practices - all undergirded by Christian principles. The course focuses on developmental, reconstructive, and succession aspects of all types of organizations. It emphasizes strategic understandings of stewardship, leadership, and management both internally and externally to the organization.

Prerequisites: Senior standing, Final semester at CCU, Instructor permission required. This course must satisfy a major course requirement in the student's degree program.

Fee

Fees may apply.

When Offered

Every fall and spring semesters.

Cross-listed LED 400.

MGT 500 - Management Problem Solving and Decision-Making

(3) Fundamental and advanced techniques for making decisions and solving problems at all leadership levels in business and in life. These systematic techniques, or processes, are designed to improve the student's ability to gather, organize, and evaluate information in the areas of problem solving, decision making and plan implementation.

Prerequisites: Juniors and Seniors only.

When Offered

Every fall and spring semester.

MKT 202 - Principles of Marketing

(3) Marketing is not tricking people into buying something, but rather involves creating genuine value for customers. Students learn how to use the marketing mix (product, price, promotion, and place) and STP (segmenting, targeting, and positioning) as well as better understand advertising, logistics, data analytics, online marketing, pricing, and ethics. The final group project includes a real-world application to rebrand and market a company.

When Offered

Every fall semester.

Required Electives Core (12 credit hours)

Students may choose one of the School of Business and Leadership emphases equal to 12 credit hours. Elective credits can also be completed by taking one or more of the following courses and/or any course with a prefix from the School of Business and Leadership (ACC, BUS, CIS, ECO, ENT, FIN, LAW, LED, MGT, MKT, OUL), for a total of 12 credit hours. At least three credits in the required electives core must be upper-level, i.e. 300, 400, or 500-level. In addition, the required elective core can be replaced by fulfilling the requirements of an SBL minor, emphasis or SBL second major.

ACC 505 - Accounting Ethics

(3) Ethics as applied to the accounting profession is studied through the lenses of biblical responsibility and practice. The fundamental values of integrity, due care, confidentiality, objectivity and independence are explored through theory and cases. Students will learn to recognize potential conflict of interest and moral dilemma situations and develop proper professional code of conduct responses.

Prerequisites: ACC 303.

When Offered

Every fall semester.

BUS 420 - Applied Business Analytics

(3) Data will talk if you know how to listen. In this course students learn how to incorporate and analyze large/complex data sets of information to optimize decision-making. Students learn to aggregate data and analyze company reports, then apply this knowledge to create a major research paper and presentation that incorporates state-of-the-art data visualization techniques.

Prerequisites: ACC 201, BUS 392.

When Offered

Every spring semester.

BUS 500 - International Business Practicum

(3) This applied International Business course building upon prior global knowledge is an intensive study abroad experience of 3.5 weeks in a foreign country. Students will visit many types of organizations and participate in a number of cultural site visits designed to develop a deep understanding of business/economic, political, social, technological, and theological issues, with extensive readings, presentations, and papers required.

Prerequisites: BUS 370, Juniors and Seniors only.

Fee

Course fee applies.

When Offered

Every spring semester.

ECO 500 - Micro-Economic Analysis and Policy

(3) Economics provides insights on how individuals, businesses, governments, and nations make choices. Often, incentives embodied in policies drive those choices, and choices have implications. This course equips students with the tools to be able to analyze microeconomic issues, the macro-economy, and economic development policies. Students engage in research to develop policies addressing current economic problems in their interest areas, write academic papers, and produce creative means to disseminate policy suggestions using modern media.

Prerequisites: ECO 215; Juniors and Seniors only.

When Offered

Every spring semester.

FIN 502 - Financial Institutions and Monetary Policy

(3) The best way to learn about finance and economics is to know the players and the system. In this course, students learn about all the major participants in global finance, including central banks, financial institutions, and stock and bond markets. Monetary policy and other major financial policy decisions will also be explored. Risk-return concepts including hedging, derivatives, and asset valuation will be covered in detail. The course focuses on financial crises and their policy implications illuminating interactions, roles, and failures of major market participants.

Prerequisites: FIN 301, LAW 303; Juniors and Seniors only.

When Offered

Every fall semester.

Cross-listed ECO 502.

LAW 501 - Legal Issues in Management

(3) This course reviews concepts of business and employment law to include: human resource matters; the use of technology and intellectual property rights; entity formation, taxation, finance, Uniform Commercial Code, contracts, privacy, consumer rights, and trans-border issues.

Prerequisites: LAW 303, Juniors and Seniors only.

When Offered

Every spring semester.

MKT 510 - Marketing Strategy

(3) Designed for students interested in careers in product/brand management, planning, marketing research, sales management or an entrepreneurial view of bringing products to markets. Exposure to advance thinking on product development process and elements of effective market planning. Marketing is changing rapidly and is reliant on lower cost guerrilla tactics, intentional viral strategies and wrap-around strategies in social media.

Prerequisites: MKT 310, Juniors and Seniors only.

When Offered

Every spring semester.

MGT 561 - Business Project Planning, Scheduling, and Controlling

(3) To be successful, project managers must analyze alternative project decisions by relying heavily on project planning, scheduling, estimating, control, and risk management tools and techniques. This course provides students with the skills required to plan, baseline, monitor, analyze, and evaluate project performance and associated risks.

Prerequisites: Juniors and Seniors only.

Fee

Course fees apply.

When Offered

Every spring semester.

Optional Business Administration Emphases

Elective requirements can be satisfied by completing one of the Business Administration Emphases listed below.

Accounting Emphasis (12 credit hours)

An emphasis in accounting provides graduates a strong basis to understanding how to use and interpret financial information in organizations. The use of financial information is a key source of strategic actions and decisions in organizations. Graduates who possess such skills and knowledge will find it very conducive to another selected business or non-business emphasis.

ACC 300 - Managerial Cost Accounting

(3) This course enables students to prepare, use, and evaluate management accounting information for purposes of strategic decision making, planning, and control over operations as well as performance measurement and evaluation. Particular emphasis is placed on product costing analysis and making effective managerial decisions over activity-based costing systems, cost-volume profit analysis, and organizational budgeting.

Prerequisites: ACC 201.

When Offered

Every fall and spring semester.

ACC 302 - Intermediate Accounting I

(3) This course provides a thorough understanding of the theoretical foundations and mechanics underlying financial reporting. The course's primary objective is to provide the tools necessary to understand and execute appropriate accounting procedures, with an understanding of the broader context in which accounting information is produced and used. The course focuses on the preparation of financial statements while emphasizing accounting requirements for revenue recognition, cash flows, inventory valuation, and the acquisition, utilization, and disposition of long-term assets.

Prerequisites: ACC 201.

When Offered

Every fall and spring semester.

ACC 305 - Design and Audit of Internal Controls

(3) The course provides a thorough understanding of U.S. Generally Accepted Auditing Standards for Internal Controls and the design of internal controls for accounting systems. This course provides an in-depth study of the COSO Internal Control Framework and risk analysis of a company's internal controls to prevent fraud and errors. Students learn to document accounting systems and internal controls, design tests and evaluate the controls, and prepare the resulting Auditor's Opinion on Internal Controls.

Prerequisites: ACC 201.

When Offered

Every fall semester.

ACC 306 - Individual Taxation

(3) This course examines the concepts and structure of the United States income tax system, with a focus on the taxation of individual taxpayers, the compliance burden associated with individual income taxation, and the decision-making process required in structuring activities.

Prerequisites: ACC 201.

When Offered

Every fall semester.

Computer Information Systems Emphasis (12 credit hours)

The emphasis in Computer Information Systems is designed for business administration major students seeking careers related to the field of information systems. The CIS emphasis can significantly increase marketability for business majors. Proficient usage of computers in day-to-day business functions is now viewed as a critical skill for success in any business environment. Having a CIS emphasis adds skills and abilities employers need, and it can differentiate graduates from those without it.

CIS 130 - Programming Foundations I

(3) Programming teaches people logical thought progression. In this course students learn how to organize a problem into a series of steps and then write code in Python for a computer to implement the steps. Some of the modern software programming principles studied include object-oriented design, decomposition, encapsulation, abstraction, prototyping, testing, and the implementation of event-driven logic to solve real-world problems.

When Offered

Every fall semester.

CIS 137 - Web Design Fundamentals

(3) A company's website serves as the front door for customers. The site's appeal, ease of use, and quality of interaction will determine profits. This course covers the computer languages of HTML, CSS, and JavaScript, allowing students to produce web pages that can be intuitively understood by users. Students learn to design with many forms of data, including hypertext, graphics, audio, and video to create superior interactive web pages.

Prerequisites: CIS 130.

When Offered

Every spring semester.

CIS 230 - Programming Foundations II

(3) This course provides more in-depth instruction in an object-oriented programming language, to include program specification, design, development, prototyping, testing, implementation, and documentation. Students learn to use the structure of modern Internet-based programs to write multi-threaded real-time applications.

Prerequisites: CIS 130.

When Offered

Every fall semester.

CIS 326 - Database Administration and Implementation

(3) Modern society uses databases to hold back chaos; without them, everything from debit cards to cell phones would fail. In this course students learn about the tools and techniques of relational database analysis and design using structured query language (SQL). Students put their skills into practice by analyzing business scenarios and then designing and implementing database solutions to include web-based data access.

Prerequisites: CIS 130.

When Offered

Every spring semester.

Economics Emphasis (12 credit hours)

The Economics emphasis builds on the foundation of the core economics course and provides in-depth study of economics. The study of economics provides students with the knowledge required to be competent citizens who actively participate in economics affairs and decision-making.

BUS 370 - International Business

(3) The Internet has made international business everyone's business. In this course students learn about international organizations, the global monetary system, regional trading blocs, and how politics and culture impact doing business abroad. This course surveys each of the functional areas of business (finance, marketing, organization, strategy, etc.) to help students assess opportunities, mitigate risk, and create and capture value.

When Offered

Every spring semester.

ECO 497 - Special Topics

(1 to 3) Guided group investigation and discussion of a selected topic.

Notes: Graded; may be repeated for credit.

When Offered

Scheduled by School.

ECO 297 or ECO 397 may be substituted for ECO 497.

ECO 500 - Micro-Economic Analysis and Policy

(3) Economics provides insights on how individuals, businesses, governments, and nations make choices. Often, incentives embodied in policies drive those choices, and choices have implications. This course equips students with the tools to be able to analyze microeconomic issues, the macro-economy, and economic development policies. Students engage in research to develop policies addressing current economic problems in their interest areas, write academic papers, and produce creative means to disseminate policy suggestions using modern media.

Prerequisites: ECO 215; Juniors and Seniors only.

When Offered

Every spring semester.

POL 301 - Political Economy

(3) This course provides an overview of the intersection of politics and economics, particularly in macroeconomics, fiscal and monetary policy; also explores comparative economic systems, free markets and trade. Students will also engage and integrate the subject matter themes with concepts of political theory, such as justice, freedom, property ownership, and stewardship.

Prerequisites: ECO 215; POL 207 or POL 233.

When Offered

Every fall semester.

Finance Emphasis (12 credit hours)

The emphasis in finance provides students the essential knowledge and practice-oriented skills associated with financial management. Courses in the specialization focus on investments, markets, and small business finance through the applications of financial analysis, capital management, and cash management. Financial analysis will cover the skills and techniques for organizations and market institutions. Capital and cash management will focus on the application of strategies and models for capital acquisitions and cash flows.

FIN 307 - Personal Financial Planning

(3) Wealth comes in many forms. In this course, students explore various aspects of money management and the Christian concept of stewardship. In addition to learning about investments, insurance, taxes, and the basics of budgeting, students discover what the Bible says about contentment, generosity, living within our means, and much more.

When Offered

Every fall and spring semesters.

FIN 320 - Investments & Portfolio Management

(3) Students learn how to invest in financial markets. Advanced concepts are covered, such as portfolio management, security analysis, and stock-picking.

Prerequisites: FIN 301.

When Offered

Every spring semester.

FIN 411 - Financial Management Strategies

(3) This course focuses on financial management strategies for all stages of the business life cycle. Students learn about financial instruments in detail, including the securities issued by a firm, how they are offered, and their underlying valuation. Important business transactions are also covered, including paying dividends, stock buybacks, acquisitions, and restructuring.

Prerequisites: FIN 301, LAW 303.

When Offered

Every spring semester.

FIN 502 - Financial Institutions and Monetary Policy

(3) The best way to learn about finance and economics is to know the players and the system. In this course, students learn about all the major participants in global finance, including central banks, financial institutions, and stock and bond markets. Monetary policy and other major financial policy decisions will also be explored. Risk-return concepts including hedging, derivatives, and asset valuation will be covered in detail. The course focuses on financial crises and their policy implications illuminating interactions, roles, and failures of major market participants.

Prerequisites: FIN 301, LAW 303; Juniors and Seniors only.

When Offered

Every fall semester.

Cross-listed ECO 502.

International Business Emphasis (12 credit hours)

Because business is increasingly conducted across international borders, graduates with an understanding of different cultures, markets, and international business practices, are in demand. Obtaining an International Business Emphasis will give you an understanding of the economic, financial, and cultural differences across countries. It can also provide a broad background in international management and marketing.

BUS 370 - International Business

(3) The Internet has made international business everyone's business. In this course students learn about international organizations, the global monetary system, regional trading blocs, and how politics and culture impact doing business abroad. This course surveys each of the functional areas of business (finance, marketing, organization, strategy, etc.) to help students assess opportunities, mitigate risk, and create and capture value.

When Offered

Every spring semester.

COM 314 - Cross-Cultural Communication

(3) Examines Issues, theories, research, and strategies related to developing effective communication practices between diverse cultures. Consideration of biblical principles related to peoples and issues within various cultural backgrounds and experiences.

Prerequisites: COM 103.

When Offered

Every fall semester.

GLS 203 - Introduction to Global Studies

(3) Relationships between sovereign states in the global community; concepts of national interests, goals of foreign policies; interactions between nation-states and the resolution of international conflicts; geography and geopolitics; the first, second, and third worlds; and current affairs and controversial issues.

When Offered

Every fall semester.

POL 324 - Foreign Policy and Diplomacy

(3) This course examines the history of U.S. foreign policy; foreign policy processes and theories; key global organizations; and comparative foreign policies of world powers.

Prerequisites: POL 233.

When Offered

Every spring semester.

Management Emphasis (12 credit hours)

The management emphasis for business majors program builds on the foundation of the business core courses and then provides in-depth study of management and leadership concepts (International Business, Managerial and Corporate Communication, Organizational Behavior, Managing and Marketing of Nonprofit Organizations, Leadership Communication, etc.).

BUS 370 - International Business

(3) The Internet has made international business everyone's business. In this course students learn about international organizations, the global monetary system, regional trading blocs, and how politics and culture impact doing business abroad. This course surveys each of the functional areas of business (finance, marketing, organization, strategy, etc.) to help students assess opportunities, mitigate risk, and create and capture value.

When Offered

Every spring semester.

COM 403 - Organizational Communication

(3) Integration of communication, management, and organizational theory; provides historical and contemporary vantage points of communication's role in organizational operation.

Prerequisites: Junior or Senior standing.

When Offered

Every fall semester.

MGT 309 - Managing and Marketing Nonprofit Organizations

(3) Taking a contemporary view of the challenges nonprofits face today, this course assists students in understanding how nonprofits are affected by the 21st-century economy. The course enables students to understand the evolution of a nonprofit from ideation to progression through the various stages in the life of a nonprofit. Students participate in real-world nonprofits developing semester-long business projects.

Prerequisites: BUS 101 or instructor permission.

Notes: Laptop computer required.

When Offered

Every spring semester.

MGT 561 - Business Project Planning, Scheduling, and Controlling

(3) To be successful, project managers must analyze alternative project decisions by relying heavily on project planning, scheduling, estimating, control, and risk management tools and techniques. This course provides students with the skills required to plan, baseline, monitor, analyze, and evaluate project performance and associated risks.

Prerequisites: Juniors and Seniors only.

Fee

Course fees apply.

When Offered

Every spring semester.

Marketing Emphasis (12 credit hours)

The Marketing Emphasis program builds on the foundation of the business core courses and then provides in-depth study of marketing concepts, advertising theory, consumer behavior, public relations and publicity, market research, strategic marketing management, Internet marketing, and e-commerce.

MKT 309 - Sales and Service Relationships

(3) Great salespersons are relationship builders who sell needed solutions, not just products or services. In this course students learn everything from prospecting and qualifying to sales presentations and closing the sale. Customer Relationship Management is covered, including optimizing identification, acquisition, growth, and retention of desired customers. Other topics include employing technology, managing a sales force, and handling legal, ethical, and social issues.

Prerequisites: MKT 202.

When Offered

Every fall semester.

MKT 310 - Marketing Research and Consumer Behavior

(3) Marketers must know the customer so well that the product or service sells itself. This course teaches the basics of marketing research and the cultural, social, personal, and psychological factors influencing buyer behavior. Students learn how to do marketing research and scrutinize research literature.

Prerequisites: MAT 212, MKT 202.

When Offered

Every spring semester.

MKT 314 - Advertising Management

(3) Commercials should be what people are interested in. In this course students learn how to develop an advertising campaign, conduct target market analyses, and manage creative strategy, production, and media planning. They will also understand and be prepared to navigate the legal and ethical issues that surround advertising.

Prerequisites: MKT 202.

When Offered

Every spring semester.

MKT 510 - Marketing Strategy

(3) Designed for students interested in careers in product/brand management, planning, marketing research, sales management or an entrepreneurial view of bringing products to markets. Exposure to advance thinking on product development process and elements of effective market planning. Marketing is changing rapidly and is reliant on lower cost guerrilla tactics, intentional viral strategies and wrap-around strategies in social media.

Prerequisites: MKT 310, Juniors and Seniors only.

When Offered

Every spring semester.

Pre-Law Studies Emphasis (12 credit hours)

The Pre-Law Studies Emphasis helps students to determine if they have an aptitude and interest in law and provides a background for law school coursework. This emphasis helps students build a strong liberal arts education with challenging courses that require them to analyze and evaluate conflicting ideas and to communicate effectively orally and in writing. The Pre-Law Studies Emphasis is designed to complement Accounting and Business Administration majors and to help students determine if they should invest in further education in law school.

Required Core (6 credit hours)

LAW 212 - Legal Reasoning and Writing

(3) Engages students in basic principles and techniques of formal logic, reasoning, and legal research and writing. This course provides a foundation in critical thinking and analysis skills necessary for success on the Law School Admissions Test (LSAT).

When Offered

Every spring semester.

LAW 217 - Constitutional Law

(3) This course is a study of the U.S. Constitution as the foundational document for all law in the United States. The course is designed to prepare the student for law school. The course relies primarily on the legal case study method as a learning strategy for understanding key principles of constitutional law.

When Offered

Every fall semester.

Required Electives (6 credit hours)

Choose 6 credit hours from the following:

LAW 311 - Moot Court Team

(1) Instruction in oral argument and legal analysis with opportunities to compete at regional and national moot court tournaments. Participation in Moot Court Team requires enrollment in this class.

Prerequisites: LAW 310 taken either previously or concurrently. Instructor permissions required.

Notes: May be repeated for credit for a maximum of six credits. Pass/Fail.

When Offered

Every fall semester.

LAW 429 - Legal Issues in Nonprofit Organizations

(3) This course provides the student a practical overview of relevant foundational aspects of nonprofit organizations and certain legal issues impacting their organization and operation, as well as how a basic application of these principles applies to the business workplace.

Prerequisites: LAW 303.

When Offered

Scheduled by School.

LAW 501 - Legal Issues in Management

(3) This course reviews concepts of business and employment law to include: human resource matters; the use of technology and intellectual property rights; entity formation, taxation, finance, Uniform Commercial Code, contracts, privacy, consumer rights, and trans-border issues.

Prerequisites: LAW 303, Juniors and Seniors only.

When Offered

Every spring semester.

Graduation Requirements for Bachelor of Science in Business Administration

The faculty recommends students in the B.S. in Business Administration to the Board of Trustees as candidates for graduation when they have completed the following requirements.

1. Completion of a total of 120 credits, including all general education, electives, and major core requirements.
2. A letter grade of D or better and a cumulative GPA of 2.0 or better in all CCU coursework, and a cumulative GPA of 2.75 or higher for all Business Administration major program courses.
3. Completion of 180 hours of ministry/community service and 180 chapel credits. Transfer students are required to complete 45 hours of ministry/community service and 45 chapel credits each year of attendance at CCU. For further details on ministry/community service, see the Life Directions Center (LDC) section of this catalog. For further details on chapel credits, see the Student Life section of this catalog.
4. Meet the CCU Residency requirements.
5. Acceptable performance on exit exams, as required by the faculty.
6. Formal and timely application for graduation by the date specified by the University Registrar.
7. No outstanding financial obligation to the University.

Computer Information Systems Major

The Bachelor of Science degree with a major in Computer Information Systems is designed for students seeking careers as information systems professionals. The CIS major emphasizes practical application of classroom learning through individual and group lab experiences as well as praxis projects with real-world clients. With a strong emphasis on technology solutions for business, the CIS major offers a distinctive balance between technical challenges and managerial issues. CIS majors master the standard business core courses in addition to their technical skills. Technological emphasis is placed on a variety of modern programming languages, data structures, distributed data processing, database management, networks and data communications, and information systems organization and design. Each CIS course is intended to prepare students to take a specific industry recognized certification exam covering the topics taught in that course.

By carefully selecting 500-level elective credits, computer information systems students can also earn up to 18 credit hours toward their CCU Master of Business Administration degree while finishing their undergraduate computer information systems degree at no additional cost or time to graduation.

The Computer Information Systems Major requires completion of the following 120 credit hours:

General Education (48 credit hours)

Business Core (34 credit hours)

CIS Major Requirements (27 credit hours)

Electives (11 credit hours)

Business and Leadership General Education Core (48 credit hours)

Arts and Humanities (9 credit hours)

Take one course from each of the following three academic disciplines:

Fine Arts (3 credit hours)

Choose one course from the following:

HUM 120 - Introduction to the Arts

(3) Introduction to our humanity through hands-on experience in the arts (music, visual arts, poetry, story, play, and dance). Aesthetic and artistic values in the broader context of human cultural development, responsibility, and joy.

Notes: This course satisfies the general education fine arts requirement for most students, and is the required fine arts course for education majors. It is recommended for all students with a general interest in the fine arts. Students with a special interest in theatre should see THR 112. Students with a special interest in music should see MUS 110.

Note: HUM 120 does not satisfy the fine arts requirement for music majors or minors.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

MUS 110 - Musical Perspectives

(3) An exploration of music in the broader context of culture and the arts; personal musical experiences through listening and doing; and developing the ability to discern aesthetic excellence. Included is an introduction to the elements of music and how music works, the development of a Christian perspective on the arts, a broad survey of representative selections of Western music, and a focused overview of non-western/world music.

Notes: This course satisfies the general education fine arts requirement for most students. It is recommended for all students, especially those with an interest in music, and is the required fine arts course for all music majors and minors. Students with a special interest in Theatre should see THR 112.

Note: MUS 110 does not satisfy the fine arts requirement for education majors.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

THR 112 - Theatre Appreciation

(3) An introduction to the theatre world and all its aspects: the people who are active in that world, the many kinds of work that are created, the sensations and ideas we receive from those works, and the ways the life of theatre has transmitted across many times and place.

Notes: This course satisfies the general education fine arts requirement for most students. It is recommended for all students, especially those with an interest in theatre. Students with a special interest in music should see MUS 110.

Note: THR 112 does not satisfy the fine arts requirement for music majors or minors, or education majors.

When Offered

Fall and spring semesters.

Literature (3 credit hours)

Choose one course from the following:

ENG 201 - Introduction to Literature

(3) Understand, experience, and evaluate poetry, short fiction, essays, and drama genres, both American and multinational.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Fall and spring semesters.

ENG 202 - American Literature I

(3) Representative stories, poems, and documents in American literature from the Colonial era to the early Republic (1776-1830) through the Romantic-transcendentalist period (1830-1860). Includes readings from multiethnic and women writers.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every fall semester.

ENG 203 - American Literature II

(3) Representative stories, poems, and drama in American literature from the Civil War to the present. Nontraditional ethnic and women's voices included. Emphasis on interpretation and criticism of American literature.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every spring semester.

ENG 204 - British Literature I

(3) Surveys the history of literature in Britain until 1800 and representative works by influential writers of the periods contained therein.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every fall semester.

ENG 205 - British Literature II

(3) Surveys the history of literature in Britain from 1800 to the present and representative works by influential writers.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every spring semester.

Philosophy (3 credit hours)

PHL 202 - Introduction to Philosophy

(3) This course is a survey of many major issues raised over the two-and-a-half millennia of western philosophy. With an emphasis on historical context and development, as well as philosophy's relationship to Christian thought, this course challenges students to critically explore philosophical questions and introduce them to the great tradition of intellectual inquiry. Special attention will be given to the subjects of truth and knowledge, reality and appearance, mind and body, right and wrong, beauty and the existence of God.

When Offered

Fall and summer semesters.

Biblical Studies (12 credit hours)

Take the following four courses (some courses are cross-listed and only one prefix needs to be taken):

BIB 111 - Old Testament

(3) This course provides an introduction to the theological, historical, and literary features of the Old Testament, tracing God's covenant relationship with ancient Israel. Special consideration will be given to the divine covenants and Messianic prophecies of the Old Testament.

When Offered

Every spring semester.

Cross-listed HIS 111

HIS 111 - Old Testament

(3) This course provides an introduction to the theological, historical, and literary features of the Old Testament, tracing God's covenant relationship with ancient Israel. Special consideration will be given to the divine covenants and Messianic prophecies of the Old Testament.

When Offered

Every spring semester.
Cross-listed BIB 111.

BIB 114 - New Testament

(3) This course provides an introduction to the theological, historical, and literary features of the New Testament, tracing the presentation of the gospel message through historical, epistolary, and apocalyptic genres. Special consideration will be given to the life of Christ and missionary journeys of the Apostle Paul.

When Offered

Every fall semester.
Cross-listed HUM 114

HUM 114 - New Testament

(3) This course provides an introduction to the theological, historical, and literary features of the New Testament, tracing the presentation of the gospel message through historical, epistolary, and apocalyptic genres. Special consideration will be given to the life of Christ and missionary journeys of the Apostle Paul.

When Offered

Every fall semester.
Cross-listed BIB 114.

PHL 315 - World Religions and Systems of Belief

(3) This course introduces an academic study of religion and what is called worldview, supplemented by an overview of some of the major tenets of Christianity; this is then followed by a survey of several other religious traditions and competing philosophies.

Prerequisites: PHL 202, THE 201.

When Offered

Winter and spring semesters.

THE 201 - Introduction to Theology

(3) This course covers basic issues, themes, and categories of Christian theology, including the doctrines of Scripture, God, humanity, Christ, salvation, the church, and last things. This course encourages students to better know, trust, love, and live by God's Word.

Prerequisites: BIB 111, BIB 114.

When Offered

Fall, winter, spring, and summer semesters.

Communication (6 credit hours)

COM 103 - Public Speaking

(3) Introductory principles of communication emphasizing public speaking. Aspects of verbal and nonverbal delivery, speech organization, and the effective use of supporting material and presentational aids are addressed. Students give several speeches designed to better equip them for future speaking endeavors

When Offered

Fall and spring semesters.

ENG 102 - English Composition

(3) Effective use of the English language and exploration of rhetorical modes in written composition. Review of structure, purpose, and audience awareness in developing essays.

Prerequisites: ACT and/or SAT scores will be used to determine placement in either ENG 102 or ENG 102 (Basic).

Notes: Course must be completed first semester at CCU.

When Offered

Fall and spring semester.

ENG 105 - Advanced English Composition

(3) Advanced English composition, research methods, and literary study for invited exceptional students. Focus on both the study of literature and research writing.

Prerequisites: One of the following:

- AP English Language and Composition
 - A score of 4 is the minimum prerequisite for enrollment in ENG 105. A student who scores a 4 or 5 will automatically enroll a student in ENG 105 instead of ENG 102 and/or ENG 201.
- AP English Literature and Composition
 - A score of 4 is the minimum prerequisite for enrollment in ENG 105. A student who scores a 4 or 5 will automatically enroll a student in ENG 105 instead of ENG 102 and/or ENG 201.
- Score of 30 or above on the verbal section of the ACT exam.
- Score of 700 or above on the verbal section of the SAT exam.
- By invitation of the English department.

Notes: Fulfills general education requirements for both ENG 102 and ENG 201.

When Offered

Every fall semester.

Integrative Studies (3 credit hours)

* Please see the First-Year Integration (FYI) page for specific information about this required course.

INT 101 - First-Year Integration

(3) Think critically, grow spiritually, and change the world. Based on the premise that we as Christians are called to be rational creatures, relational creatures, and responsible creatures, FYI is an integrative study of foundational Christian principles with other disciplines. Examination and discussion of problems and contemporary issues - academic, personal, and social - facing students in their pursuit of success in college and life. Please see the First-Year Integration (FYI) page for specific information about this required course.

When Offered

Fall and spring semesters.

Mathematics (3 credit hours)

MAT 112 - Mathematics for Liberal Arts

(3) This course introduces some of the important ideas in mathematics and how they can be applied in everyday life situations, solving a wide range of practical problems. Topics include sets, logic, history of numeration, number systems and their properties, number patterns, counting principles, probability, statistics, graph theory, personal finance, and voting methods.

Notes: Students with higher level mathematics skills (i.e. ACT MAT above 20 and SAT MATH above 520) are discouraged from taking this class. Only students who do not place into MAT 111 - College Algebra should enroll in MAT 112 - Mathematics for Liberal Arts.

When Offered

Fall, spring and summer semesters.

MAT 212 - Statistics and their Application

(3) An introduction to statistical analysis as used in various liberal arts disciplines. Descriptive and inferential statistics and attendant research designs will be considered. Students will become familiar with SPSS and its use in analyzing data and decision making.

Prerequisites: Sophomore standing.

When Offered

Fall and spring semesters.

(or higher except for MAT 202 or MAT 302 - Teaching Mathematics in the Elementary Classroom)

Science (3 credit hours)

SCI 230 - Integrated Physical Science with Lab

(3) This is an integrated course presenting the major concepts, theoretical perspectives, historical trends, and empirical findings of the physical sciences. Laboratory exercises and lectures explore motion, the four forces, heat, energy, chemical reactions, the structure and development of matter, the types and nature of chemical bonding, and the nature and history of the universe, the solar system, and the Earth.

Lab/Lecture Hours

Laboratory investigations included in course.

Fee

Lab fees apply.

When Offered

Every semester.

Social Sciences (12 credit hours)

Take each of the following four courses:

ECO 215 - Economics

(3) Economics is about scarcity and choice. Students in this course study how people, firms, governments, and nations interact in alternative economic systems to make choices about allocating scarce resources. In addition, students learn to evaluate these systems, understand macroeconomic monetary and fiscal policies, and engage in policy debates.

When Offered

Fall and spring semesters.

HIS 185 - Western Civilization

(3) The spiritual values and intellectual achievements of ancient Israel, Greece, Rome, the Middle Ages, the Renaissance, and Reformation that gave birth to the modern world.

When Offered

Every fall semester.

HIS 205 - American History

(3) Principles of the founding and the political, economic, intellectual, cultural, and religious traditions that have shaped America.

When Offered

Every spring semester.

POL 207 - Introduction to American Politics

(3) Introduction to political science and American government to prepare students to be effective citizens.

When Offered

Every fall and spring semester.

Computer Information Systems Major (61 credit hours)

Business Core (34 credit hours)

ACC 201 - Principles of Accounting I Financial Reporting

(4) This course provides an introduction to the financial accounting information role in business and society, focusing on the recording and reporting of business operations, including financing and investing events. It provides insights on business and enables students to become familiar with reporting of business operations using generally accepted accounting principles.

Prerequisites: BUS 101 or MGT 101.

When Offered

Fall and spring semesters.

BUS 101 - Introduction to Business, Management and Ethics

(3) Students learn fundamental business topics that prepares them to be successful in the exciting world of business and non-profit organizations. Students gain foundations in functional areas (accounting, finance, management, marketing, and technology) and operating environments common to every organization. This course is engaging and transformational, whether one is just starting out or already an avid student of business.

When Offered

Fall and spring semesters.

Cross-listed MGT 101

MGT 101 - Introduction to Business, Management and Ethics

(3) Students learn fundamental business topics that prepare them to be successful in the exciting world of business and non-profit organizations. Students gain foundations in functional areas (accounting, finance, management, marketing, and technology) and operating environments common to every organization. This course is engaging and transformational, whether one is just starting out or already an avid student of business.

When Offered

Fall and spring semesters.
Cross-listed BUS 101

BUS 392 - Business Analytics and Data Management

(3) Data is the economy's new oil, and knowing how to refine it is vital to every part of business. In this course, students learn to optimize decision-making by using quantitative analytical tools to extract, assimilate, and manage data. Using the latest technology, students create and understand decision models, multiple regressions, and time-series forecasting.

Prerequisites: BUS 101, CIS 101.

When Offered

Every fall and spring semesters.

CIS 101 - Business Applications in Technology

(3) A look at the history and use of the personal computer, with an emphasis upon current Microsoft products including MS Office. Students will gain skills in word processing, spreadsheet management, database management, web design, and presentation graphics. An emphasis will be placed on the use of technology in Business. A mastery of the materials and skills taught in this course is essential for success in most of the other courses in the School of Business and Leadership because the tools taught in this course are used extensively in the other courses.

Fee

Course fees apply.

When Offered

Every fall and spring semester.

ECO 222 - Principles of Economics: Microeconomics

(3) Economics is the study of mankind in the ordinary business of life. Because the world has a scarcity of resources, the principles in this course will help students consider costs and make better, more efficient decisions. Students learn how people and businesses make choices, how markets are organized, why and how businesses behave differently, and the effects of government interventions on free markets.

Prerequisites: BUS 101 / MGT 101, ECO 215.

When Offered

Every fall semester.

FIN 301 - Managerial Finance

(3) This course equips students to manage the financial aspects of businesses, non-profits, and ministries. Risk-return, time value of money, ratio analysis, business valuation, asset pricing, and financial decision making are topics covered in this course.

Prerequisites: ACC 201, LED 101.

When Offered

Every fall semester.

LAW 303 - Business Law

(3) Practical overview of relevant foundational aspects of business law, such as contracts, agency, and commercial transactions, and basic application of these principles to the workplace.

Prerequisites: BUS 101 or MGT 101, Junior or Senior standing.

When Offered

Fall and spring semesters.

LED 101 - Foundations of Management and Leadership

(3) Students learn to build theoretical, practical, and theological foundations for becoming effective managers and leaders. Students learn to analyze their strengths and weaknesses, making specific growth plans. The course covers many facets of organizational behavior and analyzes human behavior in the workplace. Students study the elements of group behavior

including group dynamics, communication, leadership power and politics, and conflict and negotiation.

When Offered

Fall and spring semesters.

MGT 400 - Organizational Capstone

(3) Students gain practical understandings, application, and integration of cutting-edge organizational disciplines and practices - all undergirded by Christian principles. The course focuses on developmental, reconstructive, and succession aspects of all types of organizations. It emphasizes strategic understandings of stewardship, leadership, and management both internally and externally to the organization.

Prerequisites: Senior standing, Final semester at CCU, Instructor permission required. This course must satisfy a major course requirement in the student's degree program.

Fee

Fees may apply.

When Offered

Every fall and spring semesters.

Cross-listed LED 400.

MGT 500 - Management Problem Solving and Decision-Making

(3) Fundamental and advanced techniques for making decisions and solving problems at all leadership levels in business and in life. These systematic techniques, or processes, are designed to improve the student's ability to gather, organize, and evaluate information in the areas of problem solving, decision making and plan implementation.

Prerequisites: Juniors and Seniors only.

When Offered

Every fall and spring semester.

MKT 202 - Principles of Marketing

(3) Marketing is not tricking people into buying something, but rather involves creating genuine value for customers. Students learn how to use the marketing mix (product, price, promotion, and place) and STP (segmenting, targeting, and positioning) as well as better understand advertising, logistics, data analytics, online marketing, pricing, and ethics. The final group project includes a real-world application to rebrand and market a company.

When Offered

Every fall semester.

Computer Information Systems Core (27 credit hours)

CIS 130 - Programming Foundations I

(3) Programming teaches people logical thought progression. In this course students learn how to organize a problem into a series of steps and then write code in Python for a computer to implement the steps. Some of the modern software programming principles studied include object-oriented design, decomposition, encapsulation, abstraction, prototyping, testing, and the implementation of event-driven logic to solve real-world problems.

When Offered

Every fall semester.

CIS 137 - Web Design Fundamentals

(3) A company's website serves as the front door for customers. The site's appeal, ease of use, and quality of interaction will determine profits. This course covers the computer languages of HTML, CSS, and JavaScript, allowing students to produce web pages that can be intuitively understood by users. Students learn to design with many forms of data, including hypertext, graphics, audio, and video to create superior interactive web pages.

Prerequisites: CIS 130.

When Offered

Every spring semester.

CIS 230 - Programming Foundations II

(3) This course provides more in-depth instruction in an object-oriented programming language, to include program specification, design, development, prototyping, testing, implementation, and documentation. Students learn to use the structure of modern Internet-based programs to write multi-threaded real-time applications.

Prerequisites: CIS 130.

When Offered

Every fall semester.

CIS 236 - Data Communications and Network Management

(3) The Internet is the town square for tomorrow's global village, and modernity is only made possible through wires, fibers, and protocols of data networks. In this course students learn the underlying principles of how information systems use telecommunications services. Students learn to create efficient and secure networks for voice, data, and video services. Specific topics addressed include the principles, protocols, methods, and standards of telecommunications, voice, and data communications concepts, networking, system configuration, and information security.

When Offered

Every fall semester.

CIS 326 - Database Administration and Implementation

(3) Modern society uses databases to hold back chaos; without them, everything from debit cards to cell phones would fail. In this course students learn about the tools and techniques of relational database analysis and design using structured query language (SQL). Students put their skills into practice by analyzing business scenarios and then designing and implementing database solutions to include web-based data access.

Prerequisites: CIS 130.

When Offered

Every spring semester.

CIS 330 - Advanced Programming

(3) If you give someone a program, you might frustrate them for a day, but if you teach someone to program well, they will benefit for a lifetime. This course brings together programming, web design, and database management. Topics studied include object-oriented programming, computer languages, development tools, client-server-based software, interactive web pages, and database design. The result is students who are ready for employment with the ability to create their own online stores.

Prerequisites: CIS 137, CIS 230, CIS 326.

When Offered

Every spring semester.

CIS 447 - Advanced Database Administration and Implementation

(3) This course focuses on how to manage a database, covering all of the concepts necessary to design and implement database systems, including logical and physical file organization, data models, data integrity, and file security. Students also learn about the transition of legacy systems to modern databases, decision support systems, and data mining. A final project includes implementing and managing a data warehouse based on real-world business information.

Prerequisites: CIS 326.

When Offered

Every fall semester.

CIS 495 - Programming and Design Capstone

(3) Computers solve problems, many of which did not exist before computers. In this course students work in teams on self-selected projects that are approved by the professor. They learn to conceptualize problems, develop and code solutions, and then present their projects orally and in written reports. Final projects are expected to be of sufficient originality and quality to impress future employers. This is the capstone course for CIS, and can only be taken by seniors.

Prerequisites: CIS 330. Senior standing.

When Offered

Every fall semester.

MGT 561 - Business Project Planning, Scheduling, and Controlling

(3) To be successful, project managers must analyze alternative project decisions by relying heavily on project planning, scheduling, estimating, control, and risk management tools and techniques. This course provides students with the skills required to plan, baseline, monitor, analyze, and evaluate project performance and associated risks.

Prerequisites: Juniors and Seniors only.

Fee

Course fees apply.

When Offered

Every spring semester.

Optional Computer Information Systems Electives

Elective requirements can be satisfied by completing one or more of the following courses:

ACC 505 - Accounting Ethics

(3) Ethics as applied to the accounting profession is studied through the lenses of biblical responsibility and practice. The fundamental values of integrity, due care, confidentiality, objectivity and independence are explored through theory and cases. Students will learn to recognize potential conflict of interest and moral dilemma situations and develop proper professional code of conduct responses.

Prerequisites: ACC 303.

When Offered

Every fall semester.

BUS 420 - Applied Business Analytics

(3) Data will talk if you know how to listen. In this course students learn how to incorporate and analyze large/complex data sets of information to optimize decision-making. Students learn to aggregate data and analyze company reports, then apply this knowledge to create a major research paper and presentation that incorporates state-of-the-art data visualization techniques.

Prerequisites: ACC 201, BUS 392.

When Offered

Every spring semester.

BUS 500 - International Business Practicum

(3) This applied International Business course building upon prior global knowledge is an intensive study abroad experience of 3.5 weeks in a foreign country. Students will visit many types of organizations and participate in a number of cultural site visits designed to develop a deep understanding of business/economic, political, social, technological, and theological issues, with extensive readings, presentations, and papers required.

Prerequisites: BUS 370, Juniors and Seniors only.

Fee

Course fee applies.

When Offered

Every spring semester.

ECO 500 - Micro-Economic Analysis and Policy

(3) Economics provides insights on how individuals, businesses, governments, and nations make choices. Often, incentives embodied in policies drive those choices, and choices have implications. This course equips students with the tools to be able to analyze microeconomic issues, the macro-economy, and economic development policies. Students engage in research to develop policies addressing current economic problems in their interest areas, write academic papers, and produce creative means to disseminate policy suggestions using modern media.

Prerequisites: ECO 215; Juniors and Seniors only.

When Offered

Every spring semester.

FIN 502 - Financial Institutions and Monetary Policy

(3) The best way to learn about finance and economics is to know the players and the system. In this course, students learn about all the major participants in global finance, including central banks, financial institutions, and stock and bond markets. Monetary policy and other major financial policy decisions will also be explored. Risk-return concepts including hedging, derivatives, and asset valuation will be covered in detail. The course focuses on financial crises and their policy implications illuminating interactions, roles, and failures of major market participants.

Prerequisites: FIN 301, LAW 303; Juniors and Seniors only.

When Offered

Every fall semester.
Cross-listed ECO 502.

LAW 501 - Legal Issues in Management

(3) This course reviews concepts of business and employment law to include: human resource matters; the use of technology and intellectual property rights; entity formation, taxation, finance, Uniform Commercial Code, contracts, privacy, consumer rights, and trans-border issues.

Prerequisites: LAW 303, Juniors and Seniors only.

When Offered

Every spring semester.

MGT 500 - Management Problem Solving and Decision-Making

(3) Fundamental and advanced techniques for making decisions and solving problems at all leadership levels in business and in life. These systematic techniques, or processes, are designed to improve the student's ability to gather, organize, and evaluate information in the areas of problem solving, decision making and plan implementation.

Prerequisites: Juniors and Seniors only.

When Offered

Every fall and spring semester.

MKT 510 - Marketing Strategy

(3) Designed for students interested in careers in product/brand management, planning, marketing research, sales management or an entrepreneurial view of bringing products to markets. Exposure to advance thinking on product development process and elements of effective market planning. Marketing is changing rapidly and is reliant on lower cost guerrilla tactics, intentional viral strategies and wrap-around strategies in social media.

Prerequisites: MKT 310, Juniors and Seniors only.

When Offered

Every spring semester.

Graduation Requirements for Bachelor of Science in Computer Information Systems

The faculty recommends students in the B.S. in Computer Information Systems to the Board of Trustees as candidates for graduation when they have completed the following requirements.

1. Completion of a total of 120 credits, including all general education, electives, and major core requirements.
2. A letter grade of D or better and a cumulative GPA of 2.0 or better in all CCU coursework, and a cumulative GPA of 2.75 or higher for all Computer Information Systems major program courses.
3. Completion of 180 hours of ministry/community service and 180 chapel credits. Transfer students are required to complete 45 hours of ministry/community service and 45 chapel credits each year of attendance at CCU. For further details on ministry/community service, see the Life Directions Center (LDC) section of this catalog. For further details on chapel credits, see the Student Life section of this catalog.
4. Meet the CCU Residency requirements.
5. Acceptable performance on exit exams, as required by the faculty.
6. Formal and timely application for graduation by the date specified by the University Registrar.
7. No outstanding financial obligation to the University.

Entrepreneurship Major

The Bachelor of Science in Entrepreneurship provides a robust foundation in business and prepares students to launch their own businesses as entrepreneurs or creatively contribute as intrapreneurs inside existing businesses. Students will learn all facets of the business creation process to include new product development, technology integration, financing new ventures, and the operations behind a business. They will also draft their own business plans and, if a superior idea is discovered, potentially follow the plan to launch a real-world business.

The Bachelor of Science in Entrepreneurship requires completion of the following 120 credit hours:

General Education (48 credit hours)

Business Core (34 credit hours)

Entrepreneurship Core (21 credit hours)

General Electives (17 credit hours)

Business and Leadership General Education Core (48 credit hours)

Arts and Humanities (9 credit hours)

Take one course from each of the following three academic disciplines:

Fine Arts (3 credit hours)

Choose one course from the following:

HUM 120 - Introduction to the Arts

(3) Introduction to our humanity through hands-on experience in the arts (music, visual arts, poetry, story, play, and dance). Aesthetic and artistic values in the broader context of human cultural development, responsibility, and joy.

Notes: This course satisfies the general education fine arts requirement for most students, and is the required fine arts course for education majors. It is recommended for all students with a general interest in the fine arts. Students with a special interest in theatre should see THR 112. Students with a special interest in music should see MUS 110.

Note: HUM 120 does not satisfy the fine arts requirement for music majors or minors.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

MUS 110 - Musical Perspectives

(3) An exploration of music in the broader context of culture and the arts; personal musical experiences through listening and doing; and developing the ability to discern aesthetic excellence. Included is an introduction to the elements of music and how music works, the development of a Christian perspective on the arts, a broad survey of representative selections of Western music, and a focused overview of non-western/world music.

Notes: This course satisfies the general education fine arts requirement for most students. It is recommended for all students, especially those with an interest in music, and is the required fine arts course for all music majors and minors. Students with a special interest in Theatre should see THR 112.

Note: MUS 110 does not satisfy the fine arts requirement for education majors.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

THR 112 - Theatre Appreciation

(3) An introduction to the theatre world and all its aspects: the people who are active in that world, the many kinds of work that are created, the sensations and ideas we receive from those works, and the ways the life of theatre has transmitted across many times and place.

Notes: This course satisfies the general education fine arts requirement for most students. It is recommended for all students, especially those with an interest in theatre. Students with a special interest in music should see MUS 110.

Note: THR 112 does not satisfy the fine arts requirement for music majors or minors, or education majors.

When Offered

Fall and spring semesters.

Literature (3 credit hours)

Choose one course from the following:

ENG 201 - Introduction to Literature

(3) Understand, experience, and evaluate poetry, short fiction, essays, and drama genres, both American and multinational.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Fall and spring semesters.

ENG 202 - American Literature I

(3) Representative stories, poems, and documents in American literature from the Colonial era to the early Republic (1776-1830) through the Romantic-transcendentalist period (1830-1860). Includes readings from multiethnic and women

writers.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every fall semester.

ENG 203 - American Literature II

(3) Representative stories, poems, and drama in American literature from the Civil War to the present. Nontraditional ethnic and women's voices included. Emphasis on interpretation and criticism of American literature.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every spring semester.

ENG 204 - British Literature I

(3) Surveys the history of literature in Britain until 1800 and representative works by influential writers of the periods contained therein.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every fall semester.

ENG 205 - British Literature II

(3) Surveys the history of literature in Britain from 1800 to the present and representative works by influential writers.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every spring semester.

Philosophy (3 credit hours)

PHL 202 - Introduction to Philosophy

(3) This course is a survey of many major issues raised over the two-and-a-half millennia of western philosophy. With an emphasis on historical context and development, as well as philosophy's relationship to Christian thought, this course challenges students to critically explore philosophical questions and introduce them to the great tradition of intellectual inquiry. Special attention will be given to the subjects of truth and knowledge, reality and appearance, mind and body, right and wrong, beauty and the existence of God.

When Offered

Fall and summer semesters.

Biblical Studies (12 credit hours)

Take the following four courses (some courses are cross-listed and only one prefix needs to be taken):

BIB 111 - Old Testament

(3) This course provides an introduction to the theological, historical, and literary features of the Old Testament, tracing God's covenant relationship with ancient Israel. Special consideration will be given to the divine covenants and Messianic prophecies of the Old Testament.

When Offered

Every spring semester.

Cross-listed HIS 111

HIS 111 - Old Testament

(3) This course provides an introduction to the theological, historical, and literary features of the Old Testament, tracing God's covenant relationship with ancient Israel. Special consideration will be given to the divine covenants and Messianic prophecies of the Old Testament.

When Offered

Every spring semester.

Cross-listed BIB 111.

BIB 114 - New Testament

(3) This course provides an introduction to the theological, historical, and literary features of the New Testament, tracing the presentation of the gospel message through historical, epistolary, and apocalyptic genres. Special consideration will be given to the life of Christ and missionary journeys of the Apostle Paul.

When Offered

Every fall semester.
Cross-listed HUM 114

HUM 114 - New Testament

(3) This course provides an introduction to the theological, historical, and literary features of the New Testament, tracing the presentation of the gospel message through historical, epistolary, and apocalyptic genres. Special consideration will be given to the life of Christ and missionary journeys of the Apostle Paul.

When Offered

Every fall semester.
Cross-listed BIB 114.

PHL 315 - World Religions and Systems of Belief

(3) This course introduces an academic study of religion and what is called worldview, supplemented by an overview of some of the major tenets of Christianity; this is then followed by a survey of several other religious traditions and competing philosophies.

Prerequisites: PHL 202, THE 201.

When Offered

Winter and spring semesters.

THE 201 - Introduction to Theology

(3) This course covers basic issues, themes, and categories of Christian theology, including the doctrines of Scripture, God, humanity, Christ, salvation, the church, and last things. This course encourages students to better know, trust, love, and live by God's Word.

Prerequisites: BIB 111, BIB 114.

When Offered

Fall, winter, spring, and summer semesters.

Communication (6 credit hours)

COM 103 - Public Speaking

(3) Introductory principles of communication emphasizing public speaking. Aspects of verbal and nonverbal delivery, speech organization, and the effective use of supporting material and presentational aids are addressed. Students give several speeches designed to better equip them for future speaking endeavors

When Offered

Fall and spring semesters.

ENG 102 - English Composition

(3) Effective use of the English language and exploration of rhetorical modes in written composition. Review of structure, purpose, and audience awareness in developing essays.

Prerequisites: ACT and/or SAT scores will be used to determine placement in either ENG 102 or ENG 102 (Basic).

Notes: Course must be completed first semester at CCU.

When Offered

Fall and spring semester.

ENG 105 - Advanced English Composition

(3) Advanced English composition, research methods, and literary study for invited exceptional students. Focus on both the study of literature and research writing.

Prerequisites: One of the following:

- AP English Language and Composition

- A score of 4 is the minimum prerequisite for enrollment in ENG 105. A student who scores a 4 or 5 will automatically enroll a student in ENG 105 instead of ENG 102 and/or ENG 201.
- AP English Literature and Composition
 - A score of 4 is the minimum prerequisite for enrollment in ENG 105. A student who scores a 4 or 5 will automatically enroll a student in ENG 105 instead of ENG 102 and/or ENG 201.
- Score of 30 or above on the verbal section of the ACT exam.
- Score of 700 or above on the verbal section of the SAT exam.
- By invitation of the English department.

Notes: Fulfills general education requirements for both ENG 102 and ENG 201.

When Offered

Every fall semester.

Integrative Studies (3 credit hours)

* Please see the First-Year Integration (FYI) page for specific information about this required course.

INT 101 - First-Year Integration

(3) Think critically, grow spiritually, and change the world. Based on the premise that we as Christians are called to be rational creatures, relational creatures, and responsible creatures, FYI is an integrative study of foundational Christian principles with other disciplines. Examination and discussion of problems and contemporary issues - academic, personal, and social - facing students in their pursuit of success in college and life. Please see the First-Year Integration (FYI) page for specific information about this required course.

When Offered

Fall and spring semesters.

Mathematics (3 credit hours)

MAT 112 - Mathematics for Liberal Arts

(3) This course introduces some of the important ideas in mathematics and how they can be applied in everyday life situations, solving a wide range of practical problems. Topics include sets, logic, history of numeration, number systems and their properties, number patterns, counting principles, probability, statistics, graph theory, personal finance, and voting methods.

Notes: Students with higher level mathematics skills (i.e. ACT MAT above 20 and SAT MATH above 520) are discouraged from taking this class. Only students who do not place into MAT 111 - College Algebra should enroll in MAT 112 - Mathematics for Liberal Arts.

When Offered

Fall, spring and summer semesters.

MAT 212 - Statistics and their Application

(3) An introduction to statistical analysis as used in various liberal arts disciplines. Descriptive and inferential statistics and attendant research designs will be considered. Students will become familiar with SPSS and its use in analyzing data and decision making.

Prerequisites: Sophomore standing.

When Offered

Fall and spring semesters.

(or higher except for MAT 202 or MAT 302 - Teaching Mathematics in the Elementary Classroom)

Science (3 credit hours)

SCI 230 - Integrated Physical Science with Lab

(3) This is an integrated course presenting the major concepts, theoretical perspectives, historical trends, and empirical findings of the physical sciences. Laboratory exercises and lectures explore motion, the four forces, heat, energy, chemical reactions, the structure and development of matter, the types and nature of chemical bonding, and the nature and history of the universe, the solar system, and the Earth.

Lab/Lecture Hours

Laboratory investigations included in course.

Fee

Lab fees apply.

When Offered

Every semester.

Social Sciences (12 credit hours)

Take each of the following four courses:

ECO 215 - Economics

(3) Economics is about scarcity and choice. Students in this course study how people, firms, governments, and nations interact in alternative economic systems to make choices about allocating scarce resources. In addition, students learn to evaluate these systems, understand macroeconomic monetary and fiscal policies, and engage in policy debates.

When Offered

Fall and spring semesters.

HIS 185 - Western Civilization

(3) The spiritual values and intellectual achievements of ancient Israel, Greece, Rome, the Middle Ages, the Renaissance, and Reformation that gave birth to the modern world.

When Offered

Every fall semester.

HIS 205 - American History

(3) Principles of the founding and the political, economic, intellectual, cultural, and religious traditions that have shaped America.

When Offered

Every spring semester.

POL 207 - Introduction to American Politics

(3) Introduction to political science and American government to prepare students to be effective citizens.

When Offered

Every fall and spring semester.

Entrepreneurship Major (55 credit hours)**Business Core (34 credit hours)****ACC 201 - Principles of Accounting I Financial Reporting**

(4) This course provides an introduction to the financial accounting information role in business and society, focusing on the recording and reporting of business operations, including financing and investing events. It provides insights on business and enables students to become familiar with reporting of business operations using generally accepted accounting principles.

Prerequisites: BUS 101 or MGT 101.

When Offered

Fall and spring semesters.

BUS 101 - Introduction to Business, Management and Ethics

(3) Students learn fundamental business topics that prepares them to be successful in the exciting world of business and non-profit organizations. Students gain foundations in functional areas (accounting, finance, management, marketing, and technology) and operating environments common to every organization. This course is engaging and transformational, whether one is just starting out or already an avid student of business.

When Offered

Fall and spring semesters.

Cross-listed MGT 101

MGT 101 - Introduction to Business, Management and Ethics

(3) Students learn fundamental business topics that prepare them to be successful in the exciting world of business and non-profit organizations. Students gain foundations in functional areas (accounting, finance, management, marketing, and

technology) and operating environments common to every organization. This course is engaging and transformational, whether one is just starting out or already an avid student of business.

When Offered

Fall and spring semesters.
Cross-listed BUS 101

BUS 392 - Business Analytics and Data Management

(3) Data is the economy's new oil, and knowing how to refine it is vital to every part of business. In this course, students learn to optimize decision-making by using quantitative analytical tools to extract, assimilate, and manage data. Using the latest technology, students create and understand decision models, multiple regressions, and time-series forecasting.

Prerequisites: BUS 101, CIS 101.

When Offered

Every fall and spring semesters.

CIS 101 - Business Applications in Technology

(3) A look at the history and use of the personal computer, with an emphasis upon current Microsoft products including MS Office. Students will gain skills in word processing, spreadsheet management, database management, web design, and presentation graphics. An emphasis will be placed on the use of technology in Business. A mastery of the materials and skills taught in this course is essential for success in most of the other courses in the School of Business and Leadership because the tools taught in this course are used extensively in the other courses.

Fee

Course fees apply.

When Offered

Every fall and spring semester.

ECO 222 - Principles of Economics: Microeconomics

(3) Economics is the study of mankind in the ordinary business of life. Because the world has a scarcity of resources, the principles in this course will help students consider costs and make better, more efficient decisions. Students learn how people and businesses make choices, how markets are organized, why and how businesses behave differently, and the effects of government interventions on free markets.

Prerequisites: BUS 101 / MGT 101, ECO 215.

When Offered

Every fall semester.

FIN 301 - Managerial Finance

(3) This course equips students to manage the financial aspects of businesses, non-profits, and ministries. Risk-return, time value of money, ratio analysis, business valuation, asset pricing, and financial decision making are topics covered in this course.

Prerequisites: ACC 201, LED 101.

When Offered

Every fall semester.

LAW 303 - Business Law

(3) Practical overview of relevant foundational aspects of business law, such as contracts, agency, and commercial transactions, and basic application of these principles to the workplace.

Prerequisites: BUS 101 or MGT 101, Junior or Senior standing.

When Offered

Fall and spring semesters.

LED 101 - Foundations of Management and Leadership

(3) Students learn to build theoretical, practical, and theological foundations for becoming effective managers and leaders. Students learn to analyze their strengths and weaknesses, making specific growth plans. The course covers many facets of organizational behavior and analyzes human behavior in the workplace. Students study the elements of group behavior including group dynamics, communication, leadership power and politics, and conflict and negotiation.

When Offered

Fall and spring semesters.

MGT 400 - Organizational Capstone

(3) Students gain practical understandings, application, and integration of cutting-edge organizational disciplines and practices - all undergirded by Christian principles. The course focuses on developmental, reconstructive, and succession aspects of all types of organizations. It emphasizes strategic understandings of stewardship, leadership, and management both internally and externally to the organization.

Prerequisites: Senior standing, Final semester at CCU, Instructor permission required. This course must satisfy a major course requirement in the student's degree program.

Fee

Fees may apply.

When Offered

Every fall and spring semesters.

Cross-listed LED 400.

MGT 500 - Management Problem Solving and Decision-Making

(3) Fundamental and advanced techniques for making decisions and solving problems at all leadership levels in business and in life. These systematic techniques, or processes, are designed to improve the student's ability to gather, organize, and evaluate information in the areas of problem solving, decision making and plan implementation.

Prerequisites: Juniors and Seniors only.

When Offered

Every fall and spring semester.

MKT 202 - Principles of Marketing

(3) Marketing is not tricking people into buying something, but rather involves creating genuine value for customers. Students learn how to use the marketing mix (product, price, promotion, and place) and STP (segmenting, targeting, and positioning) as well as better understand advertising, logistics, data analytics, online marketing, pricing, and ethics. The final group project includes a real-world application to rebrand and market a company.

When Offered

Every fall semester.

Entrepreneurship Core (21 credit hours)**BUS 285 - New Venture Creation and Business Modeling**

(3) This course focuses on the process of launching a new venture in a corporate setting or as a new startup, including identifying a problem or market opportunity, developing business models, forming a team, financing, analyzing markets, assessing the competitive environment, and planning to acquire leadership talent. The course concludes with presentations of business plans to potential investors and may lead to two consecutive cohort courses (Entrepreneurship Practicum 1 and 2) to develop and launch real-world businesses.

When Offered

Every fall semester.

ENT 155 - New Product/Service Design & Development

(3) Design is how products work. This course introduces students to the processes for conceiving, developing, launching, and controlling innovative products/services that meet or create customer demand. Students study past successes and failures as they learn New Product Development strategies including how to evaluate value, cost, time, and risks in an ever-dynamic marketplace.

When Offered

Every fall semester.

ENT 185 - Emerging Trends, Technology, and Innovation

(3) This class is about the future. When disrupting an industry or beating existing competitors, no one can succeed by playing the same old game. This course surveys emerging trends, evolving demographics, and future studies tools to assist in discovering disruptors and innovations that create new markets. Students learn to assess market diversities, identify competitive complexities and resource changes, foresee the implications of socio-political shifts, and understand new business models associated with innovation.

When Offered

Every fall semester.

ENT 225 - Social Entrepreneurship and Economic Development

(3) This course first introduces students to poverty's causes and alleviation strategies, then covers key social impact concepts including organizational structures (for-profit, nonprofit, and hybrid), financing, marketing, social/cultural/environmental impact, and performance assessment tools. The final presentation will be a plan to start a social venture start-up or a plan to expand services of an existing social entrepreneurial company.

When Offered

Every spring semester.

FIN 385 - New Venture Finance Strategies

(3) Successful entrepreneurs must effectively seek and manage scarce resources. In this course, students gain a wide range of financial skills, including how to discover new sources of finances, bootstrapping, crowdsourcing, attracting angel investors and venture capital, grant writing, financial forecasting, and exit planning.

Prerequisites: BUS 101 or MGT 101.

When Offered

Every fall semester.

MGT 405 - Supply Chain, Manufacturing, and Service Operations

(3) Start-up businesses must know how to scale up to succeed. This course introduces students to supply chain management, the key principles of manufacturing, and how to run service operations. Students learn multifarious strategies for operating service or manufacturing organizations to include how to select and manage supplier relationships, visibility and integration in the supply chain, inventory control, and how to apply a variety of quantitative models for operations analyses.

Prerequisites: BUS 101, BUS 392, CIS 101.

When Offered

Every fall semester.

MGT 561 - Business Project Planning, Scheduling, and Controlling

(3) To be successful, project managers must analyze alternative project decisions by relying heavily on project planning, scheduling, estimating, control, and risk management tools and techniques. This course provides students with the skills required to plan, baseline, monitor, analyze, and evaluate project performance and associated risks.

Prerequisites: Juniors and Seniors only.

Fee

Course fees apply.

When Offered

Every spring semester.

Recommended Electives

Students are recommended to take the following elective courses for real-world experience in entrepreneurship.

ENT 385 - Entrepreneurship Practicum I: Business Plan Maturation and Finance Acquisition

(3) This first of two cohort-based elective courses follows BUS 285. If the professor and students believe they have a superior idea and wish to launch a real-world business. Students will further grow their business plan and act to secure funding for their start-up. Students not in the original BUS 285 course must get professor approval. The course is limited to 30 students who must have junior/senior standing.

Prerequisites: BUS 285; Junior/Senior standing; Professor approval.

When Offered

Scheduled by school.

ENT 485 - Entrepreneurship Practicum 2: Launching a Business

(3) This second of two cohort-based elective courses follows the Entrepreneurship Practicum 1 course (ENT 385), if the professor and students have secured funding and wish to continue the process to launch a business. In this course,

students hire employees, purchase equipment, rent a location, and launch a real-world business.

Prerequisites: ENT 385; Junior/Senior standing; Professor approval.

When Offered

Scheduled by school.

Graduation Requirement for Bachelor of Science in Entrepreneurship

The faculty recommends students in the B.S. in Entrepreneurship to the Board of Trustees as candidates for graduation when they have completed the following requirements.

1. Completion of a total of 120 credits, including all general education, electives, and major core requirements.
2. A letter grade of D or better and a cumulative GPA of 2.0 or better in all CCU coursework, and a cumulative GPA of 2.75 or higher for all Entrepreneurship major program courses.
3. Completion of 180 hours of ministry/community service and 180 chapel credits. Transfer students are required to complete 45 hours of ministry/community service and 45 chapel credits each year of attendance at CCU. For further details on ministry/community service, see the Life Directions Center (LDC) section of this catalog. For further details on chapel credits, see the Student Life section of this catalog.
4. Meet the CCU Residency requirements.
5. Acceptable performance on exit exams, as required by the faculty.
6. Formal and timely application for graduation by the date specified by the University Registrar.
7. No outstanding financial obligation to the University.

Management Major

The Management major offers a breadth of training in business, accounting, finance, economics and marketing, as well as provides a focus on management and organizational leadership. Students will be well-prepared for management positions with in-depth knowledge of decision-making, risk assessment, management skills, and planning, directing, and controlling business operations.

Students in the Bachelor of Science in Management may apply for the Dual Degree Program, earning both their Management major and the Master of Business Administration in the College of Adult and Graduate Studies (CAGS). Additional information on the Management Dual Degree program is below.

The Bachelor of Science in Management requires completion of the following 120 credit hours:

General Education (48 credit hours)

Business Core (34 credit hours)

Management Core (12 credit hours)

General Electives (26 credit hours)

Business and Leadership General Education Core (48 credit hours)

Arts and Humanities (9 credit hours)

Take one course from each of the following three academic disciplines:

Fine Arts (3 credit hours)

Choose one course from the following:

HUM 120 - Introduction to the Arts

(3) Introduction to our humanity through hands-on experience in the arts (music, visual arts, poetry, story, play, and dance). Aesthetic and artistic values in the broader context of human cultural development, responsibility, and joy.

Notes: This course satisfies the general education fine arts requirement for most students, and is the required fine arts course for education majors. It is recommended for all students with a general interest in the fine arts. Students with a special interest in theatre should see THR 112. Students with a special interest in music should see MUS 110.

Note: HUM 120 does not satisfy the fine arts requirement for music majors or minors.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

MUS 110 - Musical Perspectives

(3) An exploration of music in the broader context of culture and the arts; personal musical experiences through listening and doing; and developing the ability to discern aesthetic excellence. Included is an introduction to the elements of music and how music works, the development of a Christian perspective on the arts, a broad survey of representative selections of Western music, and a focused overview of non-western/world music.

Notes: This course satisfies the general education fine arts requirement for most students. It is recommended for all students, especially those with an interest in music, and is the required fine arts course for all music majors and minors. Students with a special interest in Theatre should see THR 112.

Note: MUS 110 does not satisfy the fine arts requirement for education majors.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

THR 112 - Theatre Appreciation

(3) An introduction to the theatre world and all its aspects: the people who are active in that world, the many kinds of work that are created, the sensations and ideas we receive from those works, and the ways the life of theatre has transmitted across many times and place.

Notes: This course satisfies the general education fine arts requirement for most students. It is recommended for all students, especially those with an interest in theatre. Students with a special interest in music should see MUS 110.

Note: THR 112 does not satisfy the fine arts requirement for music majors or minors, or education majors.

When Offered

Fall and spring semesters.

Literature (3 credit hours)

Choose one course from the following:

ENG 201 - Introduction to Literature

(3) Understand, experience, and evaluate poetry, short fiction, essays, and drama genres, both American and multinational.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Fall and spring semesters.

ENG 202 - American Literature I

(3) Representative stories, poems, and documents in American literature from the Colonial era to the early Republic (1776-1830) through the Romantic-transcendentalist period (1830-1860). Includes readings from multiethnic and women writers.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every fall semester.

ENG 203 - American Literature II

(3) Representative stories, poems, and drama in American literature from the Civil War to the present. Nontraditional ethnic and women's voices included. Emphasis on interpretation and criticism of American literature.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every spring semester.

ENG 204 - British Literature I

(3) Surveys the history of literature in Britain until 1800 and representative works by influential writers of the periods contained therein.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every fall semester.

ENG 205 - British Literature II

(3) Surveys the history of literature in Britain from 1800 to the present and representative works by influential writers.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every spring semester.

Philosophy (3 credit hours)

PHL 202 - Introduction to Philosophy

(3) This course is a survey of many major issues raised over the two-and-a-half millennia of western philosophy. With an emphasis on historical context and development, as well as philosophy's relationship to Christian thought, this course challenges students to critically explore philosophical questions and introduce them to the great tradition of intellectual inquiry. Special attention will be given to the subjects of truth and knowledge, reality and appearance, mind and body, right and wrong, beauty and the existence of God.

When Offered

Fall and summer semesters.

Biblical Studies (12 credit hours)

Take the following four courses (some courses are cross-listed and only one prefix needs to be taken):

BIB 111 - Old Testament

(3) This course provides an introduction to the theological, historical, and literary features of the Old Testament, tracing God's covenant relationship with ancient Israel. Special consideration will be given to the divine covenants and Messianic prophecies of the Old Testament.

When Offered

Every spring semester.

Cross-listed HIS 111

HIS 111 - Old Testament

(3) This course provides an introduction to the theological, historical, and literary features of the Old Testament, tracing God's covenant relationship with ancient Israel. Special consideration will be given to the divine covenants and Messianic prophecies of the Old Testament.

When Offered

Every spring semester.

Cross-listed BIB 111.

BIB 114 - New Testament

(3) This course provides an introduction to the theological, historical, and literary features of the New Testament, tracing the presentation of the gospel message through historical, epistolary, and apocalyptic genres. Special consideration will be given to the life of Christ and missionary journeys of the Apostle Paul.

When Offered

Every fall semester.

Cross-listed HUM 114

HUM 114 - New Testament

(3) This course provides an introduction to the theological, historical, and literary features of the New Testament, tracing the presentation of the gospel message through historical, epistolary, and apocalyptic genres. Special consideration will be given to the life of Christ and missionary journeys of the Apostle Paul.

When Offered

Every fall semester.

Cross-listed BIB 114.

PHL 315 - World Religions and Systems of Belief

(3) This course introduces an academic study of religion and what is called worldview, supplemented by an overview of some of the major tenets of Christianity; this is then followed by a survey of several other religious traditions and competing philosophies.

Prerequisites: PHL 202, THE 201.

When Offered

Winter and spring semesters.

THE 201 - Introduction to Theology

(3) This course covers basic issues, themes, and categories of Christian theology, including the doctrines of Scripture, God, humanity, Christ, salvation, the church, and last things. This course encourages students to better know, trust, love, and live by God's Word.

Prerequisites: BIB 111, BIB 114.

When Offered

Course fees apply.

When Offered

Every fall and spring semester.

ECO 222 - Principles of Economics: Microeconomics

(3) Economics is the study of mankind in the ordinary business of life. Because the world has a scarcity of resources, the principles in this course will help students consider costs and make better, more efficient decisions. Students learn how people and businesses make choices, how markets are organized, why and how businesses behave differently, and the effects of government interventions on free markets.

Prerequisites: BUS 101 / MGT 101, ECO 215.

When Offered

Every fall semester.

FIN 301 - Managerial Finance

(3) This course equips students to manage the financial aspects of businesses, non-profits, and ministries. Risk-return, time value of money, ratio analysis, business valuation, asset pricing, and financial decision making are topics covered in this course.

Prerequisites: ACC 201, LED 101.

When Offered

Every fall semester.

LAW 303 - Business Law

(3) Practical overview of relevant foundational aspects of business law, such as contracts, agency, and commercial transactions, and basic application of these principles to the workplace.

Prerequisites: BUS 101 or MGT 101, Junior or Senior standing.

When Offered

Fall and spring semesters.

LED 101 - Foundations of Management and Leadership

(3) Students learn to build theoretical, practical, and theological foundations for becoming effective managers and leaders. Students learn to analyze their strengths and weaknesses, making specific growth plans. The course covers many facets of organizational behavior and analyzes human behavior in the workplace. Students study the elements of group behavior including group dynamics, communication, leadership power and politics, and conflict and negotiation.

When Offered

Fall and spring semesters.

MGT 400 - Organizational Capstone

(3) Students gain practical understandings, application, and integration of cutting-edge organizational disciplines and practices - all undergirded by Christian principles. The course focuses on developmental, reconstructive, and succession aspects of all types of organizations. It emphasizes strategic understandings of stewardship, leadership, and management both internally and externally to the organization.

Prerequisites: Senior standing, Final semester at CCU, Instructor permission required. This course must satisfy a major course requirement in the student's degree program.

Fee

Fees may apply.

When Offered

Every fall and spring semesters.

Cross-listed LED 400.

MGT 500 - Management Problem Solving and Decision-Making

(3) Fundamental and advanced techniques for making decisions and solving problems at all leadership levels in business and in life. These systematic techniques, or processes, are designed to improve the student's ability to gather, organize, and evaluate information in the areas of problem solving, decision making and plan implementation.

Prerequisites: Juniors and Seniors only.

When Offered

Every fall and spring semester.

MKT 202 - Principles of Marketing

(3) Marketing is not tricking people into buying something, but rather involves creating genuine value for customers. Students learn how to use the marketing mix (product, price, promotion, and place) and STP (segmenting, targeting, and positioning) as well as better understand advertising, logistics, data analytics, online marketing, pricing, and ethics. The final group project includes a real-world application to rebrand and market a company.

When Offered

Every fall semester.

Management Core (12 credit hours)

MGT 309 - Managing and Marketing Nonprofit Organizations

(3) Taking a contemporary view of the challenges nonprofits face today, this course assists students in understanding how nonprofits are affected by the 21st-century economy. The course enables students to understand the evolution of a nonprofit from ideation to progression through the various stages in the life of a nonprofit. Students participate in real-world nonprofits developing semester-long business projects.

Prerequisites: BUS 101 or instructor permission.

Notes: Laptop computer required.

When Offered

Every spring semester.

MGT 315 - Human Resource Management

(3) People should be trained so well that they could leave, but treated so well they want to stay. In this course, students learn the essential elements of a great Human Resources Management (HRM) program including staffing, training, compensation, benefits, safety and health, and performance management. An emphasis is placed on how HRM must be an integral part of the creation and implementation of all business policies and, when done well, delivers a competitive edge.

Prerequisites: BUS 101 or MGT 101, CIS 101

When Offered

Every fall semester.

MGT 435 - Strategic Foresight and Change Management

(3) Great managers know how to navigate change. In this course, students learn to identify and anticipate relevant changes, mobilize and manage resources efficiently, and make appropriate decisions to avoid failure and exploit innovation. Topics covered include contingency leadership, change dynamics, the impact of globalization, tools to detect approaching disruptions and innovations, and how to optimally interact with governments, industries, corporations, and the third sector to seek mutually beneficial ways to prosper from change.

Prerequisites: BUS 101 or LED 101 or MGT 101.

When Offered

Every spring semester.

MGT 561 - Business Project Planning, Scheduling, and Controlling

(3) To be successful, project managers must analyze alternative project decisions by relying heavily on project planning, scheduling, estimating, control, and risk management tools and techniques. This course provides students with the skills required to plan, baseline, monitor, analyze, and evaluate project performance and associated risks.

Prerequisites: Juniors and Seniors only.

Fee

Course fees apply.

When Offered

Every spring semester.

Optional SBL Electives

Students are strongly encouraged to take additional elective courses with an SBL emphasis, minor or second major.

Dual Degree Track in Management

Students accepted in the Dual Degree program complete their Bachelor of Science in Management degree, then complete their Master of Business Administration degree through the College of Adult and Graduate Studies (CAGS). Included in the bachelor's degree course requirements are 12 master's level credit hours that satisfy both undergraduate and graduate degree requirements. To satisfy CCU graduate program course requirements, students must earn a letter grade of B- or better in the master's level courses taken in their undergraduate degree. (Cum GPA and letter grade requirements for the undergraduate degree remain the same.) All admissions requirements of the Master of Business Administration must be fulfilled. Information on admission can be found on the CAGS admissions page.

The Bachelor of Science in Management Dual Degree major requires completion of the following 120 credits:

General Education (48 credit hours)

Business Core (34 credit hours)

Management Core (12 credit hours)

Master of Business Administration coursework (12 credit hours)

General Electives (14 credit hours)

The Master of Business Administration requires completion of an additional 27 credit hours.

Management Dual Degree Course Requirements

In addition to the Management major requirements, students in the Dual Degree Management track take the following graduate-level MBA courses.

ACC 505 - Accounting Ethics

(3) Ethics as applied to the accounting profession is studied through the lenses of biblical responsibility and practice. The fundamental values of integrity, due care, confidentiality, objectivity and independence are explored through theory and cases. Students will learn to recognize potential conflict of interest and moral dilemma situations and develop proper professional code of conduct responses.

FIN 502 - Financial Institutions and Monetary Policy

(3) The best way to learn about finance and economics is to know the players and the system. In this course, students learn about all the major participants in global finance, including central banks, financial institutions, and stock and bond markets. Monetary policy and other major financial policy decisions will also be explored. Risk-return concepts including hedging, derivatives, and asset valuation will be covered in detail. The course focuses on financial crises and their policy implications illuminating interactions, roles, and failures of major market participants.

Prerequisites: FIN 301, LAW 303; Juniors and Seniors only.

When Offered

Every fall semester.

Cross-listed ECO 502.

LAW 501 - Legal Issues in Management

(3) This course reviews concepts of business and employment law to include: human resource matters; the use of technology and intellectual property rights; entity formation, taxation, finance, Uniform Commercial Code, contracts, privacy, consumer rights, and trans-border issues.

Prerequisites: LAW 303, Juniors and Seniors only.

When Offered

Every spring semester.

MKT 510 - Marketing Strategy

(3) Designed for students interested in careers in product/brand management, planning, marketing research, sales management or an entrepreneurial view of bringing products to markets. Exposure to advance thinking on product development process and elements of effective market planning. Marketing is changing rapidly and is reliant on lower cost guerrilla tactics, intentional viral strategies and wrap-around strategies in social media.

Prerequisites: MKT 310, Juniors and Seniors only.

When Offered

Every spring semester.

Graduation Requirement for Bachelor of Science in Management

The faculty recommends students in the B.S. in Management to the Board of Trustees as candidates for graduation when they have completed the following requirements.

1. Completion of a total of 120 credits, including all general education, electives, and major core requirements.
2. A letter grade of D or better and a cumulative GPA of 2.0 or better in all CCU coursework, and a cumulative GPA of 2.75 or higher for all Management major program courses.
3. Completion of 180 hours of ministry/community service and 180 chapel credits. Transfer students are required to complete 45 hours of ministry/community service and 45 chapel credits each year of attendance at CCU. For further details on ministry/community service, see the Life Directions Center (LDC) section of this catalog. For further details on chapel credits, see the Student Life section of this catalog.
4. Meet the CCU Residency requirements.
5. Acceptable performance on exit exams, as required by the faculty.
6. Formal and timely application for graduation by the date specified by the University Registrar.
7. No outstanding financial obligation to the University.

Marketing Major

The Bachelor of Science in Marketing offers a breadth of training in business to include leadership, accounting, finance, and economics, as well as provides a focus on both traditional and digital marketing. Students will study the full marketing process, including customer identification, segmentation, product development, consumer behavior, pricing strategies, sales, advertising, branding, social media marketing, and how to generate added value that results in customer satisfaction.

The Bachelor of Science in Marketing requires completion of the following 120 credit hours:

General Education (48 credit hours)

Business Core (34 credit hours)

Marketing Major Core (24 credit hours)

General Electives (14 credit hours)

Business and Leadership General Education Core (48 credit hours)**Arts and Humanities (9 credit hours)**

Take one course from each of the following three academic disciplines:

Fine Arts (3 credit hours)

Choose one course from the following:

HUM 120 - Introduction to the Arts

(3) Introduction to our humanity through hands-on experience in the arts (music, visual arts, poetry, story, play, and dance). Aesthetic and artistic values in the broader context of human cultural development, responsibility, and joy.

Notes: This course satisfies the general education fine arts requirement for most students, and is the required fine arts course for education majors. It is recommended for all students with a general interest in the fine arts. Students with a special interest in theatre should see THR 112. Students with a special interest in music should see MUS 110.

Note: HUM 120 does not satisfy the fine arts requirement for music majors or minors.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

MUS 110 - Musical Perspectives

(3) An exploration of music in the broader context of culture and the arts; personal musical experiences through listening and doing; and developing the ability to discern aesthetic excellence. Included is an introduction to the elements of music and how music works, the development of a Christian perspective on the arts, a broad survey of representative selections of Western music, and a focused overview of non-western/world music.

Notes: This course satisfies the general education fine arts requirement for most students. It is recommended for all

students, especially those with an interest in music, and is the required fine arts course for all music majors and minors. Students with a special interest in Theatre should see THR 112.

Note: MUS 110 does not satisfy the fine arts requirement for education majors.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

THR 112 - Theatre Appreciation

(3) An introduction to the theatre world and all its aspects: the people who are active in that world, the many kinds of work that are created, the sensations and ideas we receive from those works, and the ways the life of theatre has transmitted across many times and place.

Notes: This course satisfies the general education fine arts requirement for most students. It is recommended for all students, especially those with an interest in theatre. Students with a special interest in music should see MUS 110.

Note: THR 112 does not satisfy the fine arts requirement for music majors or minors, or education majors.

When Offered

Fall and spring semesters.

Literature (3 credit hours)

Choose one course from the following:

ENG 201 - Introduction to Literature

(3) Understand, experience, and evaluate poetry, short fiction, essays, and drama genres, both American and multinational.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Fall and spring semesters.

ENG 202 - American Literature I

(3) Representative stories, poems, and documents in American literature from the Colonial era to the early Republic (1776-1830) through the Romantic-transcendentalist period (1830-1860). Includes readings from multiethnic and women writers.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every fall semester.

ENG 203 - American Literature II

(3) Representative stories, poems, and drama in American literature from the Civil War to the present. Nontraditional ethnic and women's voices included. Emphasis on interpretation and criticism of American literature.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every spring semester.

ENG 204 - British Literature I

(3) Surveys the history of literature in Britain until 1800 and representative works by influential writers of the periods contained therein.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every fall semester.

ENG 205 - British Literature II

(3) Surveys the history of literature in Britain from 1800 to the present and representative works by influential writers.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every spring semester.

Philosophy (3 credit hours)

PHL 202 - Introduction to Philosophy

(3) This course is a survey of many major issues raised over the two-and-a-half millennia of western philosophy. With an emphasis on historical context and development, as well as philosophy's relationship to Christian thought, this course challenges students to critically explore philosophical questions and introduce them to the great tradition of intellectual inquiry. Special attention will be given to the subjects of truth and knowledge, reality and appearance, mind and body, right and wrong, beauty and the existence of God.

When Offered

Fall and summer semesters.

Biblical Studies (12 credit hours)

Take the following four courses (some courses are cross-listed and only one prefix needs to be taken):

BIB 111 - Old Testament

(3) This course provides an introduction to the theological, historical, and literary features of the Old Testament, tracing God's covenant relationship with ancient Israel. Special consideration will be given to the divine covenants and Messianic prophecies of the Old Testament.

When Offered

Every spring semester.

Cross-listed HIS 111

HIS 111 - Old Testament

(3) This course provides an introduction to the theological, historical, and literary features of the Old Testament, tracing God's covenant relationship with ancient Israel. Special consideration will be given to the divine covenants and Messianic prophecies of the Old Testament.

When Offered

Every spring semester.

Cross-listed BIB 111.

BIB 114 - New Testament

(3) This course provides an introduction to the theological, historical, and literary features of the New Testament, tracing the presentation of the gospel message through historical, epistolary, and apocalyptic genres. Special consideration will be given to the life of Christ and missionary journeys of the Apostle Paul.

When Offered

Every fall semester.

Cross-listed HUM 114

HUM 114 - New Testament

(3) This course provides an introduction to the theological, historical, and literary features of the New Testament, tracing the presentation of the gospel message through historical, epistolary, and apocalyptic genres. Special consideration will be given to the life of Christ and missionary journeys of the Apostle Paul.

When Offered

Every fall semester.

Cross-listed BIB 114.

PHL 315 - World Religions and Systems of Belief

(3) This course introduces an academic study of religion and what is called worldview, supplemented by an overview of some of the major tenets of Christianity; this is then followed by a survey of several other religious traditions and competing philosophies.

Prerequisites: PHL 202, THE 201.

When Offered

Winter and spring semesters.

THE 201 - Introduction to Theology

(3) This course covers basic issues, themes, and categories of Christian theology, including the doctrines of Scripture, God, humanity, Christ, salvation, the church, and last things. This course encourages students to better know, trust, love, and live by God's Word.

Prerequisites: BIB 111, BIB 114.

When Offered

Fall, winter, spring, and summer semesters.

Communication (6 credit hours)

COM 103 - Public Speaking

(3) Introductory principles of communication emphasizing public speaking. Aspects of verbal and nonverbal delivery, speech organization, and the effective use of supporting material and presentational aids are addressed. Students give several speeches designed to better equip them for future speaking endeavors

When Offered

Fall and spring semesters.

ENG 102 - English Composition

(3) Effective use of the English language and exploration of rhetorical modes in written composition. Review of structure, purpose, and audience awareness in developing essays.

Prerequisites: ACT and/or SAT scores will be used to determine placement in either ENG 102 or ENG 102 (Basic).

Notes: Course must be completed first semester at CCU.

When Offered

Fall and spring semester.

ENG 105 - Advanced English Composition

(3) Advanced English composition, research methods, and literary study for invited exceptional students. Focus on both the study of literature and research writing.

Prerequisites: One of the following:

- AP English Language and Composition
 - A score of 4 is the minimum prerequisite for enrollment in ENG 105. A student who scores a 4 or 5 will automatically enroll a student in ENG 105 instead of ENG 102 and/or ENG 201.
- AP English Literature and Composition
 - A score of 4 is the minimum prerequisite for enrollment in ENG 105. A student who scores a 4 or 5 will automatically enroll a student in ENG 105 instead of ENG 102 and/or ENG 201.
- Score of 30 or above on the verbal section of the ACT exam.
- Score of 700 or above on the verbal section of the SAT exam.
- By invitation of the English department.

Notes: Fulfills general education requirements for both ENG 102 and ENG 201.

When Offered

Every fall semester.

Integrative Studies (3 credit hours)

* Please see the First-Year Integration (FYI) page for specific information about this required course.

INT 101 - First-Year Integration

(3) Think critically, grow spiritually, and change the world. Based on the premise that we as Christians are called to be rational creatures, relational creatures, and responsible creatures, FYI is an integrative study of foundational Christian principles with other disciplines. Examination and discussion of problems and contemporary issues - academic, personal, and social - facing students in their pursuit of success in college and life. Please see the First-Year Integration (FYI) page for specific information about this required course.

When Offered

Fall and spring semesters.

Mathematics (3 credit hours)

MAT 112 - Mathematics for Liberal Arts

(3) This course introduces some of the important ideas in mathematics and how they can be applied in everyday life situations, solving a wide range of practical problems. Topics include sets, logic, history of numeration, number systems and their properties, number patterns, counting principles, probability, statistics, graph theory, personal finance, and voting methods.

Notes: Students with higher level mathematics skills (i.e. ACT MAT above 20 and SAT MATH above 520) are discouraged from taking this class. Only students who do not place into MAT 111 - College Algebra should enroll in MAT 112 - Mathematics for Liberal Arts.

When Offered

Fall, spring and summer semesters.

MAT 212 - Statistics and their Application

(3) An introduction to statistical analysis as used in various liberal arts disciplines. Descriptive and inferential statistics and attendant research designs will be considered. Students will become familiar with SPSS and its use in analyzing data and decision making.

Prerequisites: Sophomore standing.

When Offered

Fall and spring semesters.

(or higher except for MAT 202 or MAT 302 - Teaching Mathematics in the Elementary Classroom)

Science (3 credit hours)

SCI 230 - Integrated Physical Science with Lab

(3) This is an integrated course presenting the major concepts, theoretical perspectives, historical trends, and empirical findings of the physical sciences. Laboratory exercises and lectures explore motion, the four forces, heat, energy, chemical reactions, the structure and development of matter, the types and nature of chemical bonding, and the nature and history of the universe, the solar system, and the Earth.

Lab/Lecture Hours

Laboratory investigations included in course.

Fee

Lab fees apply.

When Offered

Every semester.

Social Sciences (12 credit hours)

Take each of the following four courses:

ECO 215 - Economics

(3) Economics is about scarcity and choice. Students in this course study how people, firms, governments, and nations interact in alternative economic systems to make choices about allocating scarce resources. In addition, students learn to evaluate these systems, understand macroeconomic monetary and fiscal policies, and engage in policy debates.

When Offered

Fall and spring semesters.

HIS 185 - Western Civilization

(3) The spiritual values and intellectual achievements of ancient Israel, Greece, Rome, the Middle Ages, the Renaissance, and Reformation that gave birth to the modern world.

When Offered

Every fall semester.

HIS 205 - American History

(3) Principles of the founding and the political, economic, intellectual, cultural, and religious traditions that have shaped America.

When Offered

Every spring semester.

POL 207 - Introduction to American Politics

(3) Introduction to political science and American government to prepare students to be effective citizens.

When Offered

Every fall and spring semester.

Marketing Major (58 credit hours)

Business Core (34 credit hours)

The Marketing major requires completion of the following essential business courses:

ACC 201 - Principles of Accounting I Financial Reporting

(4) This course provides an introduction to the financial accounting information role in business and society, focusing on the recording and reporting of business operations, including financing and investing events. It provides insights on business and enables students to become familiar with reporting of business operations using generally accepted accounting principles.

Prerequisites: BUS 101 or MGT 101.

When Offered

Fall and spring semesters.

BUS 101 - Introduction to Business, Management and Ethics

(3) Students learn fundamental business topics that prepares them to be successful in the exciting world of business and non-profit organizations. Students gain foundations in functional areas (accounting, finance, management, marketing, and technology) and operating environments common to every organization. This course is engaging and transformational, whether one is just starting out or already an avid student of business.

When Offered

Fall and spring semesters.

Cross-listed MGT 101

MGT 101 - Introduction to Business, Management and Ethics

(3) Students learn fundamental business topics that prepare them to be successful in the exciting world of business and non-profit organizations. Students gain foundations in functional areas (accounting, finance, management, marketing, and technology) and operating environments common to every organization. This course is engaging and transformational, whether one is just starting out or already an avid student of business.

When Offered

Fall and spring semesters.

Cross-listed BUS 101

BUS 392 - Business Analytics and Data Management

(3) Data is the economy's new oil, and knowing how to refine it is vital to every part of business. In this course, students learn to optimize decision-making by using quantitative analytical tools to extract, assimilate, and manage data. Using the latest technology, students create and understand decision models, multiple regressions, and time-series forecasting.

Prerequisites: BUS 101, CIS 101.

When Offered

Every fall and spring semesters.

CIS 101 - Business Applications in Technology

(3) A look at the history and use of the personal computer, with an emphasis upon current Microsoft products including MS Office. Students will gain skills in word processing, spreadsheet management, database management, web design, and presentation graphics. An emphasis will be placed on the use of technology in Business. A mastery of the materials and skills taught in this course is essential for success in most of the other courses in the School of Business and Leadership because the tools taught in this course are used extensively in the other courses.

Fee

Course fees apply.

When Offered

Every fall and spring semester.

ECO 222 - Principles of Economics: Microeconomics

(3) Economics is the study of mankind in the ordinary business of life. Because the world has a scarcity of resources, the principles in this course will help students consider costs and make better, more efficient decisions. Students learn how people and businesses make choices, how markets are organized, why and how businesses behave differently, and the effects of government interventions on free markets.

Prerequisites: BUS 101 / MGT 101, ECO 215.

When Offered

Every fall semester.

FIN 301 - Managerial Finance

(3) This course equips students to manage the financial aspects of businesses, non-profits, and ministries. Risk-return, time value of money, ratio analysis, business valuation, asset pricing, and financial decision making are topics covered in this course.

Prerequisites: ACC 201, LED 101.

When Offered

Every fall semester.

LAW 303 - Business Law

(3) Practical overview of relevant foundational aspects of business law, such as contracts, agency, and commercial transactions, and basic application of these principles to the workplace.

Prerequisites: BUS 101 or MGT 101, Junior or Senior standing.

When Offered

Fall and spring semesters.

LED 101 - Foundations of Management and Leadership

(3) Students learn to build theoretical, practical, and theological foundations for becoming effective managers and leaders. Students learn to analyze their strengths and weaknesses, making specific growth plans. The course covers many facets of organizational behavior and analyzes human behavior in the workplace. Students study the elements of group behavior including group dynamics, communication, leadership power and politics, and conflict and negotiation.

When Offered

Fall and spring semesters.

MGT 400 - Organizational Capstone

(3) Students gain practical understandings, application, and integration of cutting-edge organizational disciplines and practices - all undergirded by Christian principles. The course focuses on developmental, reconstructive, and succession aspects of all types of organizations. It emphasizes strategic understandings of stewardship, leadership, and management both internally and externally to the organization.

Prerequisites: Senior standing, Final semester at CCU, Instructor permission required. This course must satisfy a major course requirement in the student's degree program.

Fee

Fees may apply.

When Offered

Every fall and spring semesters.

Cross-listed LED 400.

MGT 500 - Management Problem Solving and Decision-Making

(3) Fundamental and advanced techniques for making decisions and solving problems at all leadership levels in business and in life. These systematic techniques, or processes, are designed to improve the student's ability to gather, organize, and evaluate information in the areas of problem solving, decision making and plan implementation.

Prerequisites: Juniors and Seniors only.

When Offered

Every fall and spring semester.

MKT 202 - Principles of Marketing

(3) Marketing is not tricking people into buying something, but rather involves creating genuine value for customers. Students learn how to use the marketing mix (product, price, promotion, and place) and STP (segmenting, targeting, and

positioning) as well as better understand advertising, logistics, data analytics, online marketing, pricing, and ethics. The final group project includes a real-world application to rebrand and market a company.

When Offered

Every fall semester.

Marketing Core (24 credit hours)

BUS 370 - International Business

(3) The Internet has made international business everyone's business. In this course students learn about international organizations, the global monetary system, regional trading blocs, and how politics and culture impact doing business abroad. This course surveys each of the functional areas of business (finance, marketing, organization, strategy, etc.) to help students assess opportunities, mitigate risk, and create and capture value.

When Offered

Every spring semester.

COM 225 - Introduction to Strategic Communication

(3) This survey course introduces students to strategic communication practice in the 21st century, and immerses students in the strategic concepts necessary to understand how effective decisions are developed and executed in the field of strategic communication. Students will learn how to use critical and creative thinking to gather, organize, evaluate, and deliver information and influence others by developing relationships.

When Offered

Every fall semester.

COM 355 - Social Media, Audience Analysis, and Analytics

(3) This course is designed to help students identify, study, and analyze audiences on social media in order to prepare better strategic communication messages. Students will discuss both the benefits and limitations of relying on social media data compared to traditional methods of marketing research, and learn how to develop effective social media messages and campaigns.

Prerequisites: COM 206.

When Offered

Every fall semester.

MKT 309 - Sales and Service Relationships

(3) Great salespersons are relationship builders who sell needed solutions, not just products or services. In this course students learn everything from prospecting and qualifying to sales presentations and closing the sale. Customer Relationship Management is covered, including optimizing identification, acquisition, growth, and retention of desired customers. Other topics include employing technology, managing a sales force, and handling legal, ethical, and social issues.

Prerequisites: MKT 202.

When Offered

Every fall semester.

MKT 310 - Marketing Research and Consumer Behavior

(3) Marketers must know the customer so well that the product or service sells itself. This course teaches the basics of marketing research and the cultural, social, personal, and psychological factors influencing buyer behavior. Students learn how to do marketing research and scrutinize research literature.

Prerequisites: MAT 212, MKT 202.

When Offered

Every spring semester.

MKT 314 - Advertising Management

(3) Commercials should be what people are interested in. In this course students learn how to develop an advertising campaign, conduct target market analyses, and manage creative strategy, production, and media planning. They will also understand and be prepared to navigate the legal and ethical issues that surround advertising.

Prerequisites: MKT 202.

When Offered

Every spring semester.

MKT 485 - Marketing Practicum

(3) This course serves to help students apply their marketing knowledge to real-world situations and/or simulations, and serves as a capstone for the Marketing major. Students will choose a company to act as a marketing firm on their behalf for the semester, promoting their products and/or services by understanding the marketing mix fundamentals (Produce, Price, Promotion, Place), segmenting the market, targeting, using analytical tools, strategizing, and then potentially designing websites, social media campaigns, advertising, and engaging in sales. This course may be substituted with a qualifying marketing-centric internship.

Prerequisites: MKT 202.

Fee

Course fee applies.

When Offered

Every fall and spring semesters.

MKT 510 - Marketing Strategy

(3) Designed for students interested in careers in product/brand management, planning, marketing research, sales management or an entrepreneurial view of bringing products to markets. Exposure to advance thinking on product development process and elements of effective market planning. Marketing is changing rapidly and is reliant on lower cost guerrilla tactics, intentional viral strategies and wrap-around strategies in social media.

Prerequisites: MKT 310, Juniors and Seniors only.

When Offered

Every spring semester.

Graduation Requirements for Bachelor of Science in Marketing

The faculty recommends students in the B.S. in Marketing to the Board of Trustees as candidates for graduation when they have completed the following requirements.

1. Completion of a total of 120 credits, including all general education, electives, and major core requirements.
2. A letter grade of D or better and a cumulative GPA of 2.0 or better in all CCU coursework, and a cumulative GPA of 2.75 or higher for all Marketing major program courses.
3. Completion of 180 hours of ministry/community service and 180 chapel credits. Transfer students are required to complete 45 hours of ministry/community service and 45 chapel credits each year of attendance at CCU. For further details on ministry/community service, see the Life Directions Center (LDC) section of this catalog. For further details on chapel credits, see the Student Life section of this catalog.
4. Meet the CCU Residency requirements .
5. Acceptable performance on exit exams, as required by the faculty.
6. Formal and timely application for graduation by the date specified by the University Registrar.
7. No outstanding financial obligation to the University.

Outdoor Leadership Major

"While God's glory is written all over his work, in the wilderness the letters are capitalized." Roderick Nash

The Bachelor of Science in Outdoor Leadership prepares students for careers in or related to the outdoor industry. According to the Outdoor Industry Association, outdoor recreation generates \$646 billion in consumer spending and 6.1 million direct jobs. Students will develop a strong, Bible-based foundation in their skills and leadership to prepare them for this vast industry. We accomplish this by taking CLASS outside to pursue these goals:

Character Formation
Leadership Development
Authentic Community
Skills Acquisition
Spiritual Transformation

Through these, students will develop their own theology of outdoor leadership in the context of a Christian world view throughout the 4 year program. By choosing from a wide array of minors, students will gain knowledge and experience in an area of concentration depending on their career goals.

The Outdoor Leadership Major requires completion of the following 120 credits:
General Education (48 credit hours)
Outdoor Leadership Major Core (45 credit hours)
General Electives (27 credit hours - may be used to satisfy a minor)

Business and Leadership General Education Core (48 credit hours)

Arts and Humanities (9 credit hours)

Take one course from each of the following three academic disciplines:

Fine Arts (3 credit hours)

Choose one course from the following:

HUM 120 - Introduction to the Arts

(3) Introduction to our humanity through hands-on experience in the arts (music, visual arts, poetry, story, play, and dance). Aesthetic and artistic values in the broader context of human cultural development, responsibility, and joy.

Notes: This course satisfies the general education fine arts requirement for most students, and is the required fine arts course for education majors. It is recommended for all students with a general interest in the fine arts. Students with a special interest in theatre should see THR 112. Students with a special interest in music should see MUS 110.

Note: HUM 120 does not satisfy the fine arts requirement for music majors or minors.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

MUS 110 - Musical Perspectives

(3) An exploration of music in the broader context of culture and the arts; personal musical experiences through listening and doing; and developing the ability to discern aesthetic excellence. Included is an introduction to the elements of music and how music works, the development of a Christian perspective on the arts, a broad survey of representative selections of Western music, and a focused overview of non-western/world music.

Notes: This course satisfies the general education fine arts requirement for most students. It is recommended for all students, especially those with an interest in music, and is the required fine arts course for all music majors and minors. Students with a special interest in Theatre should see THR 112.

Note: MUS 110 does not satisfy the fine arts requirement for education majors.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

THR 112 - Theatre Appreciation

(3) An introduction to the theatre world and all its aspects: the people who are active in that world, the many kinds of work that are created, the sensations and ideas we receive from those works, and the ways the life of theatre has transmitted across many times and place.

Notes: This course satisfies the general education fine arts requirement for most students. It is recommended for all students, especially those with an interest in theatre. Students with a special interest in music should see MUS 110.

Note: THR 112 does not satisfy the fine arts requirement for music majors or minors, or education majors.

When Offered

Fall and spring semesters.

Literature (3 credit hours)

Choose one course from the following:

ENG 201 - Introduction to Literature

(3) Understand, experience, and evaluate poetry, short fiction, essays, and drama genres, both American and multinational.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Fall and spring semesters.

ENG 202 - American Literature I

(3) Representative stories, poems, and documents in American literature from the Colonial era to the early Republic (1776-1830) through the Romantic-transcendentalist period (1830-1860). Includes readings from multiethnic and women writers.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every fall semester.

ENG 203 - American Literature II

(3) Representative stories, poems, and drama in American literature from the Civil War to the present. Nontraditional ethnic and women's voices included. Emphasis on interpretation and criticism of American literature.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every spring semester.

ENG 204 - British Literature I

(3) Surveys the history of literature in Britain until 1800 and representative works by influential writers of the periods contained therein.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every fall semester.

ENG 205 - British Literature II

(3) Surveys the history of literature in Britain from 1800 to the present and representative works by influential writers.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every spring semester.

Philosophy (3 credit hours)**PHL 202 - Introduction to Philosophy**

(3) This course is a survey of many major issues raised over the two-and-a-half millennia of western philosophy. With an emphasis on historical context and development, as well as philosophy's relationship to Christian thought, this course challenges students to critically explore philosophical questions and introduce them to the great tradition of intellectual inquiry. Special attention will be given to the subjects of truth and knowledge, reality and appearance, mind and body, right and wrong, beauty and the existence of God.

When Offered

Fall and summer semesters.

Biblical Studies (12 credit hours)

Take the following four courses (some courses are cross-listed and only one prefix needs to be taken):

BIB 111 - Old Testament

(3) This course provides an introduction to the theological, historical, and literary features of the Old Testament, tracing God's covenant relationship with ancient Israel. Special consideration will be given to the divine covenants and Messianic prophecies of the Old Testament.

When Offered

Every spring semester.

Cross-listed HIS 111

HIS 111 - Old Testament

(3) This course provides an introduction to the theological, historical, and literary features of the Old Testament, tracing God's covenant relationship with ancient Israel. Special consideration will be given to the divine covenants and Messianic prophecies of the Old Testament.

When Offered

Every spring semester.
Cross-listed BIB 111.

BIB 114 - New Testament

(3) This course provides an introduction to the theological, historical, and literary features of the New Testament, tracing the presentation of the gospel message through historical, epistolary, and apocalyptic genres. Special consideration will be given to the life of Christ and missionary journeys of the Apostle Paul.

When Offered

Every fall semester.
Cross-listed HUM 114

HUM 114 - New Testament

(3) This course provides an introduction to the theological, historical, and literary features of the New Testament, tracing the presentation of the gospel message through historical, epistolary, and apocalyptic genres. Special consideration will be given to the life of Christ and missionary journeys of the Apostle Paul.

When Offered

Every fall semester.
Cross-listed BIB 114.

PHL 315 - World Religions and Systems of Belief

(3) This course introduces an academic study of religion and what is called worldview, supplemented by an overview of some of the major tenets of Christianity; this is then followed by a survey of several other religious traditions and competing philosophies.

Prerequisites: PHL 202, THE 201.

When Offered

Winter and spring semesters.

THE 201 - Introduction to Theology

(3) This course covers basic issues, themes, and categories of Christian theology, including the doctrines of Scripture, God, humanity, Christ, salvation, the church, and last things. This course encourages students to better know, trust, love, and live by God's Word.

Prerequisites: BIB 111, BIB 114.

When Offered

Fall, winter, spring, and summer semesters.

Communication (6 credit hours)

COM 103 - Public Speaking

(3) Introductory principles of communication emphasizing public speaking. Aspects of verbal and nonverbal delivery, speech organization, and the effective use of supporting material and presentational aids are addressed. Students give several speeches designed to better equip them for future speaking endeavors

When Offered

Fall and spring semesters.

ENG 102 - English Composition

(3) Effective use of the English language and exploration of rhetorical modes in written composition. Review of structure, purpose, and audience awareness in developing essays.

Prerequisites: ACT and/or SAT scores will be used to determine placement in either ENG 102 or ENG 102 (Basic).

Notes: Course must be completed first semester at CCU.

When Offered

Fall and spring semester.

ENG 105 - Advanced English Composition

(3) Advanced English composition, research methods, and literary study for invited exceptional students. Focus on both the study of literature and research writing.

Prerequisites: One of the following:

- AP English Language and Composition
 - A score of 4 is the minimum prerequisite for enrollment in ENG 105. A student who scores a 4 or 5 will automatically enroll a student in ENG 105 instead of ENG 102 and/or ENG 201.
- AP English Literature and Composition
 - A score of 4 is the minimum prerequisite for enrollment in ENG 105. A student who scores a 4 or 5 will automatically enroll a student in ENG 105 instead of ENG 102 and/or ENG 201.
- Score of 30 or above on the verbal section of the ACT exam.
- Score of 700 or above on the verbal section of the SAT exam.
- By invitation of the English department.

Notes: Fulfills general education requirements for both ENG 102 and ENG 201.

When Offered

Every fall semester.

Integrative Studies (3 credit hours)

* Please see the First-Year Integration (FYI) page for specific information about this required course.

INT 101 - First-Year Integration

(3) Think critically, grow spiritually, and change the world. Based on the premise that we as Christians are called to be rational creatures, relational creatures, and responsible creatures, FYI is an integrative study of foundational Christian principles with other disciplines. Examination and discussion of problems and contemporary issues - academic, personal, and social - facing students in their pursuit of success in college and life. Please see the First-Year Integration (FYI) page for specific information about this required course.

When Offered

Fall and spring semesters.

Mathematics (3 credit hours)

MAT 112 - Mathematics for Liberal Arts

(3) This course introduces some of the important ideas in mathematics and how they can be applied in everyday life situations, solving a wide range of practical problems. Topics include sets, logic, history of numeration, number systems and their properties, number patterns, counting principles, probability, statistics, graph theory, personal finance, and voting methods.

Notes: Students with higher level mathematics skills (i.e. ACT MAT above 20 and SAT MATH above 520) are discouraged from taking this class. Only students who do not place into MAT 111 - College Algebra should enroll in MAT 112 - Mathematics for Liberal Arts.

When Offered

Fall, spring and summer semesters.

MAT 212 - Statistics and their Application

(3) An introduction to statistical analysis as used in various liberal arts disciplines. Descriptive and inferential statistics and attendant research designs will be considered. Students will become familiar with SPSS and its use in analyzing data and decision making.

Prerequisites: Sophomore standing.

When Offered

Fall and spring semesters.

(or higher except for MAT 202 or MAT 302 - Teaching Mathematics in the Elementary Classroom)

Science (3 credit hours)

SCI 230 - Integrated Physical Science with Lab

(3) This is an integrated course presenting the major concepts, theoretical perspectives, historical trends, and empirical findings of the physical sciences. Laboratory exercises and lectures explore motion, the four forces, heat, energy,

chemical reactions, the structure and development of matter, the types and nature of chemical bonding, and the nature and history of the universe, the solar system, and the Earth.

Lab/Lecture Hours

Laboratory investigations included in course.

Fee

Lab fees apply.

When Offered

Every semester.

Social Sciences (12 credit hours)

Take each of the following four courses:

ECO 215 - Economics

(3) Economics is about scarcity and choice. Students in this course study how people, firms, governments, and nations interact in alternative economic systems to make choices about allocating scarce resources. In addition, students learn to evaluate these systems, understand macroeconomic monetary and fiscal policies, and engage in policy debates.

When Offered

Fall and spring semesters.

HIS 185 - Western Civilization

(3) The spiritual values and intellectual achievements of ancient Israel, Greece, Rome, the Middle Ages, the Renaissance, and Reformation that gave birth to the modern world.

When Offered

Every fall semester.

HIS 205 - American History

(3) Principles of the founding and the political, economic, intellectual, cultural, and religious traditions that have shaped America.

When Offered

Every spring semester.

POL 207 - Introduction to American Politics

(3) Introduction to political science and American government to prepare students to be effective citizens.

When Offered

Every fall and spring semester.

Outdoor Leadership Major (45 credit hours)

Outdoor Leadership Core (19 credit hours)

The Outdoor Leadership major requires completion of the following essential courses:

OUL 100 - Introduction to Outdoor Leadership

(2) A survey course providing an introduction to the history, philosophy, and education theory and context of Christian outdoor leadership. Addresses roles of the outdoor leader, models of outdoor leadership, decision making and judgment, risk management, experiential education, and more. Students are exposed to many occupational expressions, and seek to discover their own interests within this broad field.

Fee

Course fees apply.

When Offered

Every spring semester.

OUL 119 - Field Natural History

(2) Through classroom and field sessions, this course increases awareness and appreciation for God's outdoor creation. It demonstrates how outdoor leaders can introduce and facilitate their participants' relationship to the land through which they travel. Addresses natural revelation, basic ecological organization and cycles, terrestrial and aquatic ecosystems

common to Colorado, common flora and fauna, meteorology, faith lessons, and more.

Fee

Course fee required.

When Offered

Every spring semester.

OUL 131 - Backcountry Skills and Spiritual Transformation

(3) This course includes a multi-day backpack trip. This is a physically demanding course. Students should be prepared for long days of travel with heavy backpacks. Topics include outdoor living skills (orienteeing, backcountry cookery, backpacking, and more), leadership development, and risk management. Includes practice of spiritual disciplines and a solo experience. Destinations may include desert (e.g. GCNP) or alpine terrain.

Prerequisites: Acceptance into the Outdoor Leadership major or minor.

Fee

Course fees apply.

When Offered

Every fall semester.

OUL 141 - Christian Camping and Spiritual Transformation

(3) In this course students learn how to use instruction in hunting, fishing, and challenge courses to teach life-lessons and lead people into a deeper relationship with God. Students study all aspects of camps, retreat centers, and outdoor education programs, and learn how to optimally lead Challenge Courses, Climbing Walls, Ziplines, Archery, Riflery, Fishing, and Orienteering.

Fee

Course fee applies.

When Offered

Every fall semester.

OUL 230 - Biblical and Theological Foundations for Outdoor Leadership

(2) This course introduces students to a theology of outdoor leadership, biblical perspectives on experiential learning in the outdoor leadership setting, and the Bible's unique perspective on outdoor leadership theory and practice. Course readings, class discussions, and course assignments will focus on the biblical basis and outdoor context as the primary foundation and location for leadership development and spiritual formation.

When Offered

Every spring semester.

OUL 303 - Wilderness Navigation

(2) This course teaches efficient backcountry navigation in a combination of classroom and field-based settings using topographic maps and other appropriate navigation tools. The course includes the application of technology-based tools (GPS, apps, etc.).

When Offered

Every fall semester.

OUL 402 - Integrating Mental Health in Outdoor Leadership

(3) This course is to equip outdoor leaders with the skills and confidence to promote emotional healing and spiritual transformation within outdoor contexts. Focus will be on the development of leadership through a holistic lens including emotional, spiritual, and physical dimensions.

When Offered

Every spring semester.

OUL 404 - Management and Administration of Outdoor Programs

(2) This course explores principles and practices of organizational management and administration for outdoor programs. Students receive practical perspectives on current professional outdoor leadership standards and practices, managing risks, and minimizing liability. Students will implement these skills via program development. This class is necessary for any student wanting to exceed beyond the role of a guide or seasonal employee.

Prerequisites: OUL 100.

Fee

Course fees apply.

When Offered

Every fall semester.

OUL 420 - Wilderness First Responder Certification

(3) This course is specifically designed for the individual who will be taking clients into outdoor field experiences for extended periods. Upon completion, the student will be able to conduct a thorough physical exam, obtain a patient history, assess vital signs, provide emergency care in the wilderness, and make crucial evacuation decisions. Successful completion of this course will certify the student for a Wilderness First Responder (WFR).

When Offered

Scheduled by school.

Leadership Studies Core (12 credit hours)

Required Core (9 credit hours)

LED 101 - Foundations of Management and Leadership

(3) Students learn to build theoretical, practical, and theological foundations for becoming effective managers and leaders. Students learn to analyze their strengths and weaknesses, making specific growth plans. The course covers many facets of organizational behavior and analyzes human behavior in the workplace. Students study the elements of group behavior including group dynamics, communication, leadership power and politics, and conflict and negotiation.

When Offered

Fall and spring semesters.

LED 301 - Personal Life of the Leader

(3) First master yourself if you wish to lead others. This course focuses more on the "being" than the "doing" of leadership, by challenging students to develop their character and put healthy habits in place. Topics include setting vision, building teams, decision-making, spiritual disciplines (solitude, prayer, fasting, etc.) and fostering deeper personal relationships.

Prerequisites: LED 101.

When Offered

Every fall semester.

MGT 500 - Management Problem Solving and Decision-Making

(3) Fundamental and advanced techniques for making decisions and solving problems at all leadership levels in business and in life. These systematic techniques, or processes, are designed to improve the student's ability to gather, organize, and evaluate information in the areas of problem solving, decision making and plan implementation.

Prerequisites: Juniors and Seniors only.

When Offered

Every fall and spring semester.

Elective Core (3 credit hours)

Choose one course from the following:

BUS 392 - Business Analytics and Data Management

(3) Data is the economy's new oil, and knowing how to refine it is vital to every part of business. In this course, students learn to optimize decision-making by using quantitative analytical tools to extract, assimilate, and manage data. Using the latest technology, students create and understand decision models, multiple regressions, and time-series forecasting.

Prerequisites: BUS 101, CIS 101.

When Offered

Every fall and spring semesters.

COM 320 - Small Group Communication

(3) Systematic study and practice of the principles of effective communication in groups; exploration of features unique to small group interaction including the exploration of public discussion formats.

Prerequisites: COM 103.

Notes: Junior or senior standing or permission of the instructor.

When Offered

Every spring semester.

LED 205 - Cross Cultural Leadership

(3) This century will be remembered for intense globalization. In this course students discover how multifarious cultures view the world and leadership by studying ways to categorize cultures, apply insights from the Hofstede value dimensions in leadership decisions, and better navigate differences in work habits, communication, and religion/philosophy. Students learn to stretch their own perspectives and gain a deeper knowledge of themselves.

Prerequisites: LED 101.

When Offered

Every spring semester.

PSY 315 - Group Processing and Community

(3) Christians are called to be in community, thus various types of groups become a foundational part of our faith experience. This course investigates group process principles and the nature of groups. Practical application of the theoretical concepts and the development of group-related skills are emphasized.

Prerequisites: PSY 101.

When Offered

Odd fall semesters.

Required Electives (14 credit hours)

Choose 14 credits from the following:

OUL 102 - Introduction to Backpacking

(1) Fundamentals of equipment selection, food preparation, and trip planning. Includes a 2-3 night excursion. Credit not accepted toward Outdoor Leadership Major or Minor.

Fee

Course fee required.

When Offered

Even fall semesters.

OUL 106 - Intro to Stand Up Paddleboarding

(1) This course provides the student with the fundamental knowledge and paddling skills necessary to safely participate in Stand Up Paddleboarding (SUP). Topics include SUP history, the paddling environment, principals of balance, board control and maneuvers, and SUP water safety. This field oriented course is based on the American Canoe Association SUP Level 1 & 2 Skills Courses.

Fee

Course fees apply.

When Offered

Even fall semesters.

OUL 108 - Rock Climbing I

(1) This 1-credit course will provide students with the fundamentals of recreational rock climbing for lifelong leisure. This course will provide the basics of the sport of top rope rock climbing, climbing techniques, and climbing safety. Students will also climb a variety of routes at local climbing areas not far from the CCU campus.

Notes: Two day long field experiences.

Fee

Course fee required.

When Offered

Every fall semester.

OUL 109 - Fly Fishing

(1) Fundamentals of equipment, basics of fly casting, stream entomology and conservation.

Fee

Course fee required.

When Offered

Every fall semester.

OUL 122 - Hiking Colorado Peaks

(1) Colorado is famous for mountain climbing. This one-credit course introduces students to the majesty and challenge of hiking the high peaks in the state. Students will hike several easy to moderate peaks as a guided group. Mountains of the Bible, trip planning, gear and clothing, risk management, Acute Mountain Sickness, and LNT are also addressed.

Fee

Course fees apply.

When Offered

Every fall semester.

OUL 125 - Introduction to Ice Climbing

(1) This introductory course exposes students to the skills and techniques to safely climb low-level difficulty ice in a top rope situation.

Fee

Course fees apply.

When Offered

Every spring semester.

OUL 127 - Snowshoeing

(1) This course introduces students to the joy of snowshoeing. Students will enjoy the majesty of the Rocky Mountains while learning techniques for level terrain, ascending, and descending while on and off trail. Recognition and treatment of cold injuries, risk management, and trip planning are also addressed. Snowshoes are provided.

Fee

Course fees apply.

When Offered

Even spring semesters.

OUL 135 - Introduction to Canyoneering

(1) This introduction to canyoneering course is designed to prepare students to safely and effectively travel through technical slot canyons. This course gives students the opportunity to travel through 2-3 canyons with a guide while receiving practical hands-on experience and instruction. Topics include double and single rope rappelling, gear/equipment, weather and flash flood planning, basic pothole escapes, natural and bolted anchor building, knots, ascending, and group dynamics.

Fee

Course fees apply.

When Offered

Every spring semester.

OUL 202 - Facilitation and Group Processing

(2) Through philosophical, theological and experiential learning opportunities, this course will train outdoor leaders to successfully facilitate a group through various Christ-centered adventure experiences. Vital for anyone seeking outdoor adventure or team-building experience as a form of ministry. Provides tools to correctly sequence activities, foster group synergy, process learning through questioning techniques, and ensure that contained experiences become applicable and transferable to real life situations.

Fee

Course fees apply.

When Offered

Odd fall semesters.

OUL 205 - Introduction to Backcountry Ski and Snowboard

(1) Make the transition from resort to backcountry riding (ski or snowboard). Learn how to travel uphill efficiently and navigate variable snow conditions on the descent - from deep powder to hard pack and everything in-between. Learn how

to plan backcountry tours, choose appropriate terrain, and equipment for backcountry riding. Explore the relationship between winter adventure and the Christian faith. Must have strong intermediate or better (blue/black diamond) ski/snowboard background. Students will choose riding preference (ski or snowboard) based on experience and interest.

Prerequisites: Must have strong intermediate or better (blue/black diamond) ski/snowboard background.

Fee

Course fee required.

When Offered

Every spring semester.

OUL 207 - Canoeing

(1) Field-oriented course emphasizing entry-level paddling skills providing an introduction to the sport of canoeing. Topics include equipment, strokes, maneuvers, safety and rescue, and solo and tandem techniques. Successful completion leads to an American Canoe Association Level 1 certification. Canoes and equipment provided.

Fee

Course fee required.

When Offered

Odd fall semesters.

OUL 208 - Rock Climbing II

(2) An intermediate level I course designed to teach students to lead climb. Primary focus will be sport climbing, but traditional climbing will also be covered. Multiple field days combined with class lectures will provide students ample opportunity to learn to lead climb safely and efficiently. Learn to set artificial and natural anchors, cleaning anchors, and introductory rescue skills. Students must have 3 months of recent top-roping experience and proficiency in belaying.

Prerequisites: 3 months recent top-roping experience and proficiency belaying.

Fee

Course fees apply.

When Offered

Every fall semester.

OUL 215 - Snow Climbing

(1) This field-oriented course provides students with skills to climb and travel on steep snow. Knowledgeable use of an ice axe separates the hiker/backpacker from the mountaineer, and opens up dynamic alpine terrain to fun experiences. Learn self belay, self-arrest, snow anchors, use of crampons, ascending and descending techniques, roped snow travel, and decision making.

Fee

Course fee required.

When Offered

Odd spring semesters.

OUL 225 - Snow Shelters and Winter Camping

(1) Includes a 3-day, 2-night backpacking trip. Students construct and sleep in snow shelters. Topics include tenting; clothing, gear, and food considerations; trip planning and risk management; and recognition and treatment of cold injuries.

Fee

Course fee required.

When Offered

Odd spring semesters.

OUL 227 - White-Water Rafting

(1) Guided instruction on Class II and III water. Half day and day long excursions.

Fee

Course fee required.

When Offered

Even spring semesters.

OUL 305 - Challenge Course Instructor

(2) Students learn the basic techniques to safely facilitate a challenge course experience. Techniques include both soft and hard skills. Students will facilitate individual and group dynamics as well as demonstrate the necessary technical skills for managing a challenge course experience on both low and high ropes courses. Leadership skills and strategies and application are integral parts of this course.

Fee

Course fees apply.

When Offered

Even fall semesters.

OUL 308 - Avalanche Level 1 and Companion Rescue

(3) This course provides comprehensive fundamentals of avalanche safety. Most learning is done during field sessions in outdoor mountain locations of Colorado. Addresses terrain, snowpack assessment, weather, human factors, beacons, rescue and more. Course content adheres to American Avalanche Association education guidelines Upon successful completion of the course students earn a Level 1 avalanche certification.

Fee

Course fees apply.

When Offered

Every spring semester.

OUL 312 - LNT Certification and Stewardship of Creation

(2) Classroom learning is augmented by hands-on practice while backpacking. Students gain understanding of Leave No Trace (LNT) techniques and ethics regarding care of creation. This course provides a Scripture-infused version of the national LNT curriculum consistent with the Christian worldview. Upon successful completion, students are certified as LNT Trainers or Master Educators capable of offering LNT Trainer courses or awareness workshops.

Prerequisites: OUL 102 or OUL 131 or instructor permission.

Fee

Course fees apply.

When Offered

Odd fall semesters.

OUL 318 - Rock Climbing III

(2) An advanced course that provides students with concepts and industry practices to lead groups in outdoor rock climbing. Learn to set natural, artificial, and traditional anchors; risk management; mock lead climbing; climber rescue techniques; and managing climbing sites as an instructor. This course also addresses group facilitation, teaching and learning styles, and Christian metaphors applicable to rock climbing. Students must be proficient at leading sport climbing routes at 5.10a or higher.

Prerequisites: OUL 208 or with Instructor permission. Students must be proficient at leading sport climbing routes at 5.10a or higher.

Fee

Course fees apply.

When Offered

Every spring semester.

OUL 325 - Advanced Backcountry Ski and Snowboard

(2) This course begins the transition from ski touring to ski mountaineering. It includes a weekend trip that requires staying in a hut or in tents, and explores the relationship between winter adventure and the Christian faith. Students must have strong (black diamond) ski/snowboard background.

Prerequisites: OUL 205, OUL 308.

Fee

Course fees apply.

When Offered

Every spring semester.

OUL 328 - Avalanche Level 2

(2) Building on skills from OUL 308, this course mixes lecture, field time, and individual and group projects with a focus on managing uncertainty in avalanche terrain as a group leader. Students advance decision-making skills by applying them to new terrains and situations, learn about weather, snowpack and avalanche processes, and identify how these

processes relate to observations and travel within avalanche terrain.

Prerequisites: OUL 308.

Fee

Course fee applies.

When Offered

Every spring semester.

OUL 411 - International Missional Trekking

(3) In this course students travel to remote locations across the world such as Patagonia, Nepal, Argentina, and Peru to learn about expedition behavior, self-care, high altitude physiology, local religion and culture, and how to share the love of Jesus Christ in an attractive and winsome manner.

Prerequisites: Instructor permission.

Notes: Submission of medical history and clearance from a medical doctor required.

Fee

Course fees apply.

When Offered

Scheduled by school.

OUL 413 - Trekking: Aconcagua

(3) A missional trekking course to Aconcagua - one of the famed seven summits. Students plan the logistics of the trek during the fall semester, then over Christmas break attempt to trek to the 22,831 foot summit via the Normal route, seeking opportunities to love others and share their faith. Learn about expedition behavior, self-care, high altitude physiology, and local religions and culture.

Prerequisites: Instructor permission required.

Fee

Course fees apply.

When Offered

Scheduled by school.

OUL 450 - Internship

(1 to 3) Mentored experience arranged with a local ministry that implements an outdoor leadership activity.

Prerequisites: OUL 100, OUL 202.

Concentration or General Electives (27 credit hours)

Although not required, it is strongly encouraged that students complete a minor to complement the Outdoor Leadership Major. The areas of concentration listed below are typical of the fields in which one may seek employment in the outdoor industry. By completing one of the minors associated with an area of concentration, students will gain a competitive advantage in their field of interest.

Business & Camp Management - Business or Management Minor

Wilderness Therapy - Psychology Minor

Outdoor Education - Education or Youth Ministry Minor

Naturalist - Biology Minor

Outdoor Ministry - Theology or Intercultural Ministry Minor

Outdoor Journalism - Communication or English Minor

Graduation Requirements for Bachelor of Science in Outdoor Leadership

The faculty recommends students in the B.S. in Outdoor Leadership to the Board of Trustees as candidates for graduation when they have completed the following requirements.

1. Completion of a total of 120 credits, including all general education, electives, and major core requirements.
2. A letter grade of D or better and a cumulative GPA of 2.0 or better in all CCU coursework, and a cumulative GPA of 2.75 or higher for all Outdoor Leadership major program courses.
3. Completion of 180 hours of ministry/community service and 180 chapel credits. Transfer students are required to complete 45 hours of ministry/community service and 45 chapel credits each year of attendance at CCU. For

- further details on ministry/community service, see the Life Directions Center (LDC) section of this catalog. For further details on chapel credits, see the Student Life section of this catalog.
4. Meet the CCU Residency requirements.
 5. Acceptable performance on exit exams, as required by the faculty.
 6. Formal and timely application for graduation by the date specified by the University Registrar.
 7. No outstanding financial obligation to the University.

Minor

Accounting Minor (CUS - for School of Business and Leadership Majors Only)

Students who major in Business Administration, Computer Information Systems, and Outdoor Leadership may minor in Accounting in order to develop a more in-depth understanding of financial reporting and use of financial information. The minor will provide a better working knowledge of financial systems and an increased ability to interpret financial information.

Students may earn a minor in the field by completing the following 18 credit hours and all corresponding prerequisites provided none of the courses is required in the student's major.

Required Courses (18 credit hours)

Required Core (6 credit hours)

ACC 300 - Managerial Cost Accounting

(3) This course enables students to prepare, use, and evaluate management accounting information for purposes of strategic decision making, planning, and control over operations as well as performance measurement and evaluation. Particular emphasis is placed on product costing analysis and making effective managerial decisions over activity-based costing systems, cost-volume profit analysis, and organizational budgeting.

Prerequisites: ACC 201.

When Offered

Every fall and spring semester.

ACC 302 - Intermediate Accounting I

(3) This course provides a thorough understanding of the theoretical foundations and mechanics underlying financial reporting. The course's primary objective is to provide the tools necessary to understand and execute appropriate accounting procedures, with an understanding of the broader context in which accounting information is produced and used. The course focuses on the preparation of financial statements while emphasizing accounting requirements for revenue recognition, cash flows, inventory valuation, and the acquisition, utilization, and disposition of long-term assets.

Prerequisites: ACC 201.

When Offered

Every fall and spring semester.

Elective Core (12 credit hours)

Choose 4 courses from the following:

ACC 303 - Intermediate Accounting II

(3) This course provides a thorough understanding of accounting for long-term contracts, investments, liabilities and contingencies, long-term debt, leases, income taxes, the preparation of cash flow statements, and other in-depth accounting issues.

Prerequisites: ACC 302.

When Offered

Every spring semester.

ACC 305 - Design and Audit of Internal Controls

(3) The course provides a thorough understanding of U.S. Generally Accepted Auditing Standards for Internal Controls and the design of internal controls for accounting systems. This course provides an in-depth study of the COSO Internal Control Framework and risk analysis of a company's internal controls to prevent fraud and errors. Students learn to document accounting systems and internal controls, design tests and evaluate the controls, and prepare the resulting

Auditor's Opinion on Internal Controls.

Prerequisites: ACC 201.

When Offered

Every fall semester.

ACC 306 - Individual Taxation

(3) This course examines the concepts and structure of the United States income tax system, with a focus on the taxation of individual taxpayers, the compliance burden associated with individual income taxation, and the decision-making process required in structuring activities.

Prerequisites: ACC 201.

When Offered

Every fall semester.

ACC 309 - Accounting for Nonprofit and Government Organizations

(1-3) Concepts and practices of accounting for nonprofit and government organizations. Includes budgets, responsibility accounting, and fund accounting.

Prerequisites: ACC 201.

Notes: May be retaken for credit, maximum of 3 credit hours toward degree requirements.

When Offered

Every fall semester.

ACC 505 - Accounting Ethics

(3) Ethics as applied to the accounting profession is studied through the lenses of biblical responsibility and practice. The fundamental values of integrity, due care, confidentiality, objectivity and independence are explored through theory and cases. Students will learn to recognize potential conflict of interest and moral dilemma situations and develop proper professional code of conduct responses.

Prerequisites: ACC 303.

When Offered

Every fall semester.

ACC 520 - Advanced Tax Accounting

(3) This course develops a conceptual framework for analyzing taxation of property transactions, corporations, partnerships, and exempt organizations. Building on skills acquired in the undergraduate tax accounting course, students will research, analyze and communicate conclusions about issues related to the above topics for reporting and management decision-making.

Prerequisites: ACC 306.

When Offered

Every spring semester.

Business Minor (CUS - for Non-School of Business and Leadership Majors Only)

Students who are not majoring in Accounting, Business Administration, or Computer Information Systems may earn a minor in Business by completing the following 19 credits and all corresponding prerequisites, provided none of the courses is required in the student's major:

Required Courses (19 credit hours)

ACC 201 - Principles of Accounting I Financial Reporting

(4) This course provides an introduction to the financial accounting information role in business and society, focusing on the recording and reporting of business operations, including financing and investing events. It provides insights on business and enables students to become familiar with reporting of business operations using generally accepted accounting principles.

Prerequisites: BUS 101 or MGT 101.

When Offered

Fall and spring semesters.

BUS 101 - Introduction to Business, Management and Ethics

(3) Students learn fundamental business topics that prepares them to be successful in the exciting world of business and non-profit organizations. Students gain foundations in functional areas (accounting, finance, management, marketing, and technology) and operating environments common to every organization. This course is engaging and transformational, whether one is just starting out or already an avid student of business.

When Offered

Fall and spring semesters.
Cross-listed MGT 101

LAW 303 - Business Law

(3) Practical overview of relevant foundational aspects of business law, such as contracts, agency, and commercial transactions, and basic application of these principles to the workplace.

Prerequisites: BUS 101 or MGT 101, Junior or Senior standing.

When Offered

Fall and spring semesters.

MGT 201 - Organizational Behavior and Design

(3) This course is oriented toward developing a better understanding of organizational culture and the role human behavior has in forming culture; using this knowledge to help people be more productive and satisfied in various organizational settings, i.e. large publicly owned corporations, and small privately-owned companies and nonprofit organizations. It provides you with an understanding of the field of organizational behavior and the implications it has in the management of a rapidly evolving workforce.

Prerequisites: LED 101 or BUS 101 or MGT 101.

When Offered

Fall and spring semesters.

MGT 500 - Management Problem Solving and Decision-Making

(3) Fundamental and advanced techniques for making decisions and solving problems at all leadership levels in business and in life. These systematic techniques, or processes, are designed to improve the student's ability to gather, organize, and evaluate information in the areas of problem solving, decision making and plan implementation.

Prerequisites: Juniors and Seniors only.

When Offered

Every fall and spring semester.

MKT 202 - Principles of Marketing

(3) Marketing is not tricking people into buying something, but rather involves creating genuine value for customers. Students learn how to use the marketing mix (product, price, promotion, and place) and STP (segmenting, targeting, and positioning) as well as better understand advertising, logistics, data analytics, online marketing, pricing, and ethics. The final group project includes a real-world application to rebrand and market a company.

When Offered

Every fall semester.

Camp Management Minor (CUS - for Non-School of Business and Leadership Majors Only)

More people come to Christ in America at camps than any other way. Some of the greatest needs of camps today are people who have business skills like marketing and managing money. This unique minor combines business and outdoor leadership courses to prepare the workers and leaders needed at the 650 Christian camp and conference centers in the USA. Flexibility is provided in both required and elective courses to allow students to develop their giftedness and pursue their unique calling.

Students earn the minor by completing 18 credit hours and all corresponding prerequisites provided none of the courses are required in the student's major.

Required Core (10 credit hours)

BUS 101 - Introduction to Business, Management and Ethics

(3) Students learn fundamental business topics that prepares them to be successful in the exciting world of business and non-profit organizations. Students gain foundations in functional areas (accounting, finance, management, marketing, and technology) and operating environments common to every organization. This course is engaging and transformational, whether one is just starting out or already an avid student of business.

When Offered

Fall and spring semesters.
Cross-listed MGT 101

OUL 100 - Introduction to Outdoor Leadership

(2) A survey course providing an introduction to the history, philosophy, and education theory and context of Christian outdoor leadership. Addresses roles of the outdoor leader, models of outdoor leadership, decision making and judgment, risk management, experiential education, and more. Students are exposed to many occupational expressions, and seek to discover their own interests within this broad field.

Fee

Course fees apply.

When Offered

Every spring semester.

OUL 404 - Management and Administration of Outdoor Programs

(2) This course explores principles and practices of organizational management and administration for outdoor programs. Students receive practical perspectives on current professional outdoor leadership standards and practices, managing risks, and minimizing liability. Students will implement these skills via program development. This class is necessary for any student wanting to exceed beyond the role of a guide or seasonal employee.

Prerequisites: OUL 100.

Fee

Course fees apply.

When Offered

Every fall semester.

Choose one of the following:

MGT 201 - Organizational Behavior and Design

(3) This course is oriented toward developing a better understanding of organizational culture and the role human behavior has in forming culture; using this knowledge to help people be more productive and satisfied in various organizational settings, i.e. large publicly owned corporations, and small privately-owned companies and nonprofit organizations. It provides you with an understanding of the field of organizational behavior and the implications it has in the management of a rapidly evolving workforce.

Prerequisites: LED 101 or BUS 101 or MGT 101.

When Offered

Fall and spring semesters.

MGT 309 - Managing and Marketing Nonprofit Organizations

(3) Taking a contemporary view of the challenges nonprofits face today, this course assists students in understanding how nonprofits are affected by the 21st-century economy. The course enables students to understand the evolution of a nonprofit from ideation to progression through the various stages in the life of a nonprofit. Students participate in real-world nonprofits developing semester-long business projects.

Prerequisites: BUS 101 or instructor permission.

Notes: Laptop computer required.

When Offered

Every spring semester.

MKT 202 - Principles of Marketing

(3) Marketing is not tricking people into buying something, but rather involves creating genuine value for customers. Students learn how to use the marketing mix (product, price, promotion, and place) and STP (segmenting, targeting, and positioning) as well as better understand advertising, logistics, data analytics, online marketing, pricing, and ethics. The final group project includes a real-world application to rebrand and market a company.

When Offered

Every fall semester.

Elective Courses (8 credit hours)

Choose 8 credits from the following:

OUL 131 - Backcountry Skills and Spiritual Transformation

(3) This course includes a multi-day backpack trip. This is a physically demanding course. Students should be prepared for long days of travel with heavy backpacks. Topics include outdoor living skills (orienteering, backcountry cookery, backpacking, and more), leadership development, and risk management. Includes practice of spiritual disciplines and a solo experience. Destinations may include desert (e.g. GCNP) or alpine terrain.

Prerequisites: Acceptance into the Outdoor Leadership major or minor.

Fee

Course fees apply.

When Offered

Every fall semester.

OUL 202 - Facilitation and Group Processing

(2) Through philosophical, theological and experiential learning opportunities, this course will train outdoor leaders to successfully facilitate a group through various Christ-centered adventure experiences. Vital for anyone seeking outdoor adventure or team-building experience as a form of ministry. Provides tools to correctly sequence activities, foster group synergy, process learning through questioning techniques, and ensure that contained experiences become applicable and transferable to real life situations.

Fee

Course fees apply.

When Offered

Odd fall semesters.

OUL 305 - Challenge Course Instructor

(2) Students learn the basic techniques to safely facilitate a challenge course experience. Techniques include both soft and hard skills. Students will facilitate individual and group dynamics as well as demonstrate the necessary technical skills for managing a challenge course experience on both low and high ropes courses. Leadership skills and strategies and application are integral parts of this course.

Fee

Course fees apply.

When Offered

Even fall semesters.

OUL 450 - Internship

(1 to 3) Mentored experience arranged with a local ministry that implements an outdoor leadership activity.

Prerequisites: OUL 100, OUL 202.

Computer Information Systems Minor

The minor in Computer Information Systems is designed for students seeking careers related to the field of information systems. The CIS minor can significantly increase marketability for accounting and business administration majors. Proficient usage of computers in day-to-day business functions is now viewed as a critical skill for success in any business environment. Having a CIS minor adds skills and abilities beyond a student's major that employers need, and it can differentiate graduates from those without it.

Students may earn a minor in the field by completing the following 18 credit hours and all corresponding prerequisites provided none of the courses is required in the student's major.

Required Core (18 credit hours)**CIS 130 - Programming Foundations I**

(3) Programming teaches people logical thought progression. In this course students learn how to organize a problem into a series of steps and then write code in Python for a computer to implement the steps. Some of the modern software programming principles studied include object-oriented design, decomposition, encapsulation, abstraction, prototyping, testing, and the implementation of event-driven logic to solve real-world problems.

When Offered

Every fall semester.

CIS 137 - Web Design Fundamentals

(3) A company's website serves as the front door for customers. The site's appeal, ease of use, and quality of interaction will determine profits. This course covers the computer languages of HTML, CSS, and JavaScript, allowing students to produce web pages that can be intuitively understood by users. Students learn to design with many forms of data, including hypertext, graphics, audio, and video to create superior interactive web pages.

Prerequisites: CIS 130.

When Offered

Every spring semester.

CIS 230 - Programming Foundations II

(3) This course provides more in-depth instruction in an object-oriented programming language, to include program specification, design, development, prototyping, testing, implementation, and documentation. Students learn to use the structure of modern Internet-based programs to write multi-threaded real-time applications.

Prerequisites: CIS 130.

When Offered

Every fall semester.

CIS 236 - Data Communications and Network Management

(3) The Internet is the town square for tomorrow's global village, and modernity is only made possible through wires, fibers, and protocols of data networks. In this course students learn the underlying principles of how information systems use telecommunications services. Students learn to create efficient and secure networks for voice, data, and video services. Specific topics addressed include the principles, protocols, methods, and standards of telecommunications, voice, and data communications concepts, networking, system configuration, and information security.

When Offered

Every fall semester.

CIS 326 - Database Administration and Implementation

(3) Modern society uses databases to hold back chaos; without them, everything from debit cards to cell phones would fail. In this course students learn about the tools and techniques of relational database analysis and design using structured query language (SQL). Students put their skills into practice by analyzing business scenarios and then designing and implementing database solutions to include web-based data access.

Prerequisites: CIS 130.

When Offered

Every spring semester.

MGT 561 - Business Project Planning, Scheduling, and Controlling

(3) To be successful, project managers must analyze alternative project decisions by relying heavily on project planning, scheduling, estimating, control, and risk management tools and techniques. This course provides students with the skills required to plan, baseline, monitor, analyze, and evaluate project performance and associated risks.

Prerequisites: Juniors and Seniors only.

Fee

Course fees apply.

When Offered

Every spring semester.

Economics Minor

The Economics Minor builds on the foundation of the core economics course and then provides in-depth study of economics. The study of economics provides students with the knowledge required to be competent citizens who actively participate in economic affairs and decision making.

Students may earn a minor in the field by completing the following 18 credit hours and all corresponding prerequisites provided none of the courses is required in the student's major.

Required Courses (18 credit hours)

Required Core (12 credit hours)

ECO 315 - Economic Development

(3) In this course students learn the significance of economic and political institutions and explore macroeconomic growth strategies. Since human nature is at the heart of every economy, students explore poverty as material and spiritual are equipped to exercise compassion without compromising human dignity.

Prerequisites: ECO 215.

When Offered

Every fall semester.

ECO 500 - Micro-Economic Analysis and Policy

(3) Economics provides insights on how individuals, businesses, governments, and nations make choices. Often, incentives embodied in policies drive those choices, and choices have implications. This course equips students with the tools to be able to analyze microeconomic issues, the macro-economy, and economic development policies. Students engage in research to develop policies addressing current economic problems in their interest areas, write academic papers, and produce creative means to disseminate policy suggestions using modern media.

Prerequisites: ECO 215; Juniors and Seniors only.

When Offered

Every spring semester.

ECO 502 - Financial Institutions and Monetary Policy

(3) The best way to learn about finance and economics is to know the players and the system. In this course, students learn about all the major participants in global finance, including central banks, financial institutions, and stock and bond markets. Monetary policy and other major financial policy decisions will also be explored. Risk-return concepts including hedging, derivatives, and asset valuation will be covered in detail. The course focuses on financial crises and their policy implications illuminating interactions, roles, and failures of major market participants.

Prerequisites: FIN 301, LAW 303; Juniors or Seniors only.

When Offered

Every fall semester.

Cross-listed FIN 502.

POL 301 - Political Economy

(3) This course provides an overview of the intersection of politics and economics, particularly in macroeconomics, fiscal and monetary policy; also explores comparative economic systems, free markets and trade. Students will also engage and integrate the subject matter themes with concepts of political theory, such as justice, freedom, property ownership, and stewardship.

Prerequisites: ECO 215; POL 207 or POL 233.

When Offered

Every fall semester.

Elective Core (6 credit hours)

Choose 6 credits from the following:

BUS 370 - International Business

(3) The Internet has made international business everyone's business. In this course students learn about international organizations, the global monetary system, regional trading blocs, and how politics and culture impact doing business abroad. This course surveys each of the functional areas of business (finance, marketing, organization, strategy, etc.) to help students assess opportunities, mitigate risk, and create and capture value.

When Offered

Every spring semester.

ECO 222 - Principles of Economics: Microeconomics

(3) Economics is the study of mankind in the ordinary business of life. Because the world has a scarcity of resources, the principles in this course will help students consider costs and make better, more efficient decisions. Students learn how people and businesses make choices, how markets are organized, why and how businesses behave differently, and the effects of government interventions on free markets.

Prerequisites: BUS 101 / MGT 101, ECO 215.

When Offered

Every fall semester.

ECO 297 - Special Topics

(1 to 3) Guided group investigation and discussion of a selected topic.

Notes: Graded; may be repeated for credit.

When Offered

Scheduled by School.

ECO 397 - Special Topics

(1 to 3) Guided group investigation and discussion of a selected topic.

Notes: Graded; may be repeated for credit.

When Offered

Scheduled by School.

ECO 497 - Special Topics

(1 to 3) Guided group investigation and discussion of a selected topic.

Notes: Graded; may be repeated for credit.

When Offered

Scheduled by School.

GLS 203 - Introduction to Global Studies

(3) Relationships between sovereign states in the global community; concepts of national interests, goals of foreign policies; interactions between nation-states and the resolution of international conflicts; geography and geopolitics; the first, second, and third worlds; and current affairs and controversial issues.

When Offered

Every fall semester.

POL 324 - Foreign Policy and Diplomacy

(3) This course examines the history of U.S. foreign policy; foreign policy processes and theories; key global organizations; and comparative foreign policies of world powers.

Prerequisites: POL 233.

When Offered

Every spring semester.

Entrepreneurship Minor

The Entrepreneurship minor provides some foundation in business and preparation for students to launch their own businesses as entrepreneurs or creatively contribute as intrapreneurs inside existing businesses. Students will learn many facets of the business creation process to include drafting their own business plans, attempting to attract financial backing, and understanding trends and how to identify important innovations.

Students may earn a minor in the field by completing the following 18 credit hours and all corresponding prerequisites provided none of the courses is required in the student's major.

Required Courses (21 credit hours)

BUS 101 - Introduction to Business, Management and Ethics

(3) Students learn fundamental business topics that prepares them to be successful in the exciting world of business and non-profit organizations. Students gain foundations in functional areas (accounting, finance, management, marketing, and technology) and operating environments common to every organization. This course is engaging and transformational, whether one is just starting out or already an avid student of business.

When Offered

Fall and spring semesters.
Cross-listed MGT 101

MGT 101 - Introduction to Business, Management and Ethics

(3) Students learn fundamental business topics that prepare them to be successful in the exciting world of business and non-profit organizations. Students gain foundations in functional areas (accounting, finance, management, marketing, and technology) and operating environments common to every organization. This course is engaging and transformational, whether one is just starting out or already an avid student of business.

When Offered

Fall and spring semesters.
Cross-listed BUS 101

BUS 285 - New Venture Creation and Business Modeling

(3) This course focuses on the process of launching a new venture in a corporate setting or as a new startup, including identifying a problem or market opportunity, developing business models, forming a team, financing, analyzing markets, assessing the competitive environment, and planning to acquire leadership talent. The course concludes with presentations of business plans to potential investors and may lead to two consecutive cohort courses (Entrepreneurship Practicum 1 and 2) to develop and launch real-world businesses.

When Offered

Every fall semester.

ENT 155 - New Product/Service Design & Development

(3) Design is how products work. This course introduces students to the processes for conceiving, developing, launching, and controlling innovative products/services that meet or create customer demand. Students study past successes and failures as they learn New Product Development strategies including how to evaluate value, cost, time, and risks in an ever-dynamic marketplace.

When Offered

Every fall semester.

ENT 185 - Emerging Trends, Technology, and Innovation

(3) This class is about the future. When disrupting an industry or beating existing competitors, no one can succeed by playing the same old game. This course surveys emerging trends, evolving demographics, and future studies tools to assist in discovering disruptors and innovations that create new markets. Students learn to assess market diversities, identify competitive complexities and resource changes, foresee the implications of socio-political shifts, and understand new business models associated with innovation.

When Offered

Every fall semester.

FIN 385 - New Venture Finance Strategies

(3) Successful entrepreneurs must effectively seek and manage scarce resources. In this course, students gain a wide range of financial skills, including how to discover new sources of finances, bootstrapping, crowdsourcing, attracting angel investors and venture capital, grant writing, financial forecasting, and exit planning.

Prerequisites: BUS 101 or MGT 101.

When Offered

Every fall semester.

MGT 561 - Business Project Planning, Scheduling, and Controlling

(3) To be successful, project managers must analyze alternative project decisions by relying heavily on project planning, scheduling, estimating, control, and risk management tools and techniques. This course provides students with the skills

required to plan, baseline, monitor, analyze, and evaluate project performance and associated risks.

Prerequisites: Juniors and Seniors only.

Fee

Course fees apply.

When Offered

Every spring semester.

MKT 202 - Principles of Marketing

(3) Marketing is not tricking people into buying something, but rather involves creating genuine value for customers. Students learn how to use the marketing mix (product, price, promotion, and place) and STP (segmenting, targeting, and positioning) as well as better understand advertising, logistics, data analytics, online marketing, pricing, and ethics. The final group project includes a real-world application to rebrand and market a company.

When Offered

Every fall semester.

Finance Minor (CUS - for School of Business and Leadership Majors Only)

Students in Accounting, Business Administration, Computer Information Systems, or Outdoor Leadership may increase their financial skills and knowledge by adding a minor in Finance, provided none of the courses is required in the student's major. Students must complete the following 18 hours and all corresponding prerequisites:

Required Courses (18 credit hours)

Required Core (15 credit hours)

ACC 300 - Managerial Cost Accounting

(3) This course enables students to prepare, use, and evaluate management accounting information for purposes of strategic decision making, planning, and control over operations as well as performance measurement and evaluation. Particular emphasis is placed on product costing analysis and making effective managerial decisions over activity-based costing systems, cost-volume profit analysis, and organizational budgeting.

Prerequisites: ACC 201.

When Offered

Every fall and spring semester.

ACC 302 - Intermediate Accounting I

(3) This course provides a thorough understanding of the theoretical foundations and mechanics underlying financial reporting. The course's primary objective is to provide the tools necessary to understand and execute appropriate accounting procedures, with an understanding of the broader context in which accounting information is produced and used. The course focuses on the preparation of financial statements while emphasizing accounting requirements for revenue recognition, cash flows, inventory valuation, and the acquisition, utilization, and disposition of long-term assets.

Prerequisites: ACC 201.

When Offered

Every fall and spring semester.

FIN 307 - Personal Financial Planning

(3) Wealth comes in many forms. In this course, students explore various aspects of money management and the Christian concept of stewardship. In addition to learning about investments, insurance, taxes, and the basics of budgeting, students discover what the Bible says about contentment, generosity, living within our means, and much more.

When Offered

Every fall and spring semesters.

FIN 320 - Investments & Portfolio Management

(3) Students learn how to invest in financial markets. Advanced concepts are covered, such as portfolio management, security analysis, and stock-picking.

Prerequisites: FIN 301.

When Offered

Every spring semester.

FIN 502 - Financial Institutions and Monetary Policy

(3) The best way to learn about finance and economics is to know the players and the system. In this course, students learn about all the major participants in global finance, including central banks, financial institutions, and stock and bond markets. Monetary policy and other major financial policy decisions will also be explored. Risk-return concepts including hedging, derivatives, and asset valuation will be covered in detail. The course focuses on financial crises and their policy implications illuminating interactions, roles, and failures of major market participants.

Prerequisites: FIN 301, LAW 303; Juniors and Seniors only.

When Offered

Every fall semester.

Cross-listed ECO 502.

Elective Core (3 credit hours)

Choose one course from the following:

ACC 303 - Intermediate Accounting II

(3) This course provides a thorough understanding of accounting for long-term contracts, investments, liabilities and contingencies, long-term debt, leases, income taxes, the preparation of cash flow statements, and other in-depth accounting issues.

Prerequisites: ACC 302.

When Offered

Every spring semester.

ACC 305 - Design and Audit of Internal Controls

(3) The course provides a thorough understanding of U.S. Generally Accepted Auditing Standards for Internal Controls and the design of internal controls for accounting systems. This course provides an in-depth study of the COSO Internal Control Framework and risk analysis of a company's internal controls to prevent fraud and errors. Students learn to document accounting systems and internal controls, design tests and evaluate the controls, and prepare the resulting Auditor's Opinion on Internal Controls.

Prerequisites: ACC 201.

When Offered

Every fall semester.

ACC 306 - Individual Taxation

(3) This course examines the concepts and structure of the United States income tax system, with a focus on the taxation of individual taxpayers, the compliance burden associated with individual income taxation, and the decision-making process required in structuring activities.

Prerequisites: ACC 201.

When Offered

Every fall semester.

BUS 420 - Applied Business Analytics

(3) Data will talk if you know how to listen. In this course students learn how to incorporate and analyze large/complex data sets of information to optimize decision-making. Students learn to aggregate data and analyze company reports, then apply this knowledge to create a major research paper and presentation that incorporates state-of-the-art data visualization techniques.

Prerequisites: ACC 201, BUS 392.

When Offered

Every spring semester.

FIN 411 - Financial Management Strategies

(3) This course focuses on financial management strategies for all stages of the business life cycle. Students learn about financial instruments in detail, including the securities issued by a firm, how they are offered, and their underlying valuation. Important business transactions are also covered, including paying dividends, stock buybacks, acquisitions, and

restructuring.

Prerequisites: FIN 301, LAW 303.

When Offered

Every spring semester.

International Business Minor (CUS - for School of Business and Leadership Majors Only)

Because business is increasingly conducted across international borders, graduates with an understanding of different cultures, markets, and international business practices are in demand. Obtaining an International Business Minor will give you an understanding of the economic, financial, and cultural differences across countries. It can also provide a broad background in international management and marketing.

Students may earn a minor in the field by completing the following 18 credit hours and all corresponding prerequisites provided none of the courses is required in the student's major.

Required Courses (18 credit hours)

Required Core (12 credit hours)

BUS 370 - International Business

(3) The Internet has made international business everyone's business. In this course students learn about international organizations, the global monetary system, regional trading blocs, and how politics and culture impact doing business abroad. This course surveys each of the functional areas of business (finance, marketing, organization, strategy, etc.) to help students assess opportunities, mitigate risk, and create and capture value.

When Offered

Every spring semester.

COM 314 - Cross-Cultural Communication

(3) Examines Issues, theories, research, and strategies related to developing effective communication practices between diverse cultures. Consideration of biblical principles related to peoples and issues within various cultural backgrounds and experiences.

Prerequisites: COM 103.

When Offered

Every fall semester.

LED 205 - Cross Cultural Leadership

(3) This century will be remembered for intense globalization. In this course students discover how multifarious cultures view the world and leadership by studying ways to categorize cultures, apply insights from the Hofstede value dimensions in leadership decisions, and better navigate differences in work habits, communication, and religion/philosophy. Students learn to stretch their own perspectives and gain a deeper knowledge of themselves.

Prerequisites: LED 101.

When Offered

Every spring semester.

GLS 203 - Introduction to Global Studies

(3) Relationships between sovereign states in the global community; concepts of national interests, goals of foreign policies; interactions between nation-states and the resolution of international conflicts; geography and geopolitics; the first, second, and third worlds; and current affairs and controversial issues.

When Offered

Every fall semester.

Any one course from the "Contemporary World Cultures" category (GLS 385 - 388).

POL 324 - Foreign Policy and Diplomacy

(3) This course examines the history of U.S. foreign policy; foreign policy processes and theories; key global organizations; and comparative foreign policies of world powers.

Prerequisites: POL 233.

When Offered

Every spring semester.

Elective Business Core (3 credit hours)

Choose 3 credit hours from the following:

BUS 500 - International Business Practicum

(3) This applied International Business course building upon prior global knowledge is an intensive study abroad experience of 3.5 weeks in a foreign country. Students will visit many types of organizations and participate in a number of cultural site visits designed to develop a deep understanding of business/economic, political, social, technological, and theological issues, with extensive readings, presentations, and papers required.

Prerequisites: BUS 370, Juniors and Seniors only.

Fee

Course fee applies.

When Offered

Every spring semester.

ECO 500 - Micro-Economic Analysis and Policy

(3) Economics provides insights on how individuals, businesses, governments, and nations make choices. Often, incentives embodied in policies drive those choices, and choices have implications. This course equips students with the tools to be able to analyze microeconomic issues, the macro-economy, and economic development policies. Students engage in research to develop policies addressing current economic problems in their interest areas, write academic papers, and produce creative means to disseminate policy suggestions using modern media.

Prerequisites: ECO 215; Juniors and Seniors only.

When Offered

Every spring semester.

FIN 502 - Financial Institutions and Monetary Policy

(3) The best way to learn about finance and economics is to know the players and the system. In this course, students learn about all the major participants in global finance, including central banks, financial institutions, and stock and bond markets. Monetary policy and other major financial policy decisions will also be explored. Risk-return concepts including hedging, derivatives, and asset valuation will be covered in detail. The course focuses on financial crises and their policy implications illuminating interactions, roles, and failures of major market participants.

Prerequisites: FIN 301, LAW 303; Juniors and Seniors only.

When Offered

Every fall semester.

Cross-listed ECO 502.

MKT 510 - Marketing Strategy

(3) Designed for students interested in careers in product/brand management, planning, marketing research, sales management or an entrepreneurial view of bringing products to markets. Exposure to advance thinking on product development process and elements of effective market planning. Marketing is changing rapidly and is reliant on lower cost guerrilla tactics, intentional viral strategies and wrap-around strategies in social media.

Prerequisites: MKT 310, Juniors and Seniors only.

When Offered

Every spring semester.

Elective Core (3 credit hours)

Choose 3 credit hours from the following:

BUS 500 - International Business Practicum

(3) This applied International Business course building upon prior global knowledge is an intensive study abroad experience of 3.5 weeks in a foreign country. Students will visit many types of organizations and participate in a number of cultural site visits designed to develop a deep understanding of business/economic, political, social, technological, and theological issues, with extensive readings, presentations, and papers required.

Prerequisites: BUS 370, Juniors and Seniors only.

Fee

Course fee applies.

When Offered

Every spring semester.

ECO 297 - Special Topics

(1 to 3) Guided group investigation and discussion of a selected topic.

Notes: Graded; may be repeated for credit.

When Offered

Scheduled by School.

ECO 397 - Special Topics

(1 to 3) Guided group investigation and discussion of a selected topic.

Notes: Graded; may be repeated for credit.

When Offered

Scheduled by School.

ECO 497 - Special Topics

(1 to 3) Guided group investigation and discussion of a selected topic.

Notes: Graded; may be repeated for credit.

When Offered

Scheduled by School.

ECO 315 - Economic Development

(3) In this course students learn the significance of economic and political institutions and explore macroeconomic growth strategies. Since human nature is at the heart of every economy, students explore poverty as material and spiritual are equipped to exercise compassion without compromising human dignity.

Prerequisites: ECO 215.

When Offered

Every fall semester.

ECO 500 - Micro-Economic Analysis and Policy

(3) Economics provides insights on how individuals, businesses, governments, and nations make choices. Often, incentives embodied in policies drive those choices, and choices have implications. This course equips students with the tools to be able to analyze microeconomic issues, the macro-economy, and economic development policies. Students engage in research to develop policies addressing current economic problems in their interest areas, write academic papers, and produce creative means to disseminate policy suggestions using modern media.

Prerequisites: ECO 215; Juniors and Seniors only.

When Offered

Every spring semester.

FIN 502 - Financial Institutions and Monetary Policy

(3) The best way to learn about finance and economics is to know the players and the system. In this course, students learn about all the major participants in global finance, including central banks, financial institutions, and stock and bond markets. Monetary policy and other major financial policy decisions will also be explored. Risk-return concepts including hedging, derivatives, and asset valuation will be covered in detail. The course focuses on financial crises and their policy implications illuminating interactions, roles, and failures of major market participants.

Prerequisites: FIN 301, LAW 303; Juniors and Seniors only.

When Offered

Every fall semester.
Cross-listed ECO 502.

MKT 510 - Marketing Strategy

(3) Designed for students interested in careers in product/brand management, planning, marketing research, sales management or an entrepreneurial view of bringing products to markets. Exposure to advance thinking on product development process and elements of effective market planning. Marketing is changing rapidly and is reliant on lower cost guerrilla tactics, intentional viral strategies and wrap-around strategies in social media.

Prerequisites: MKT 310, Juniors and Seniors only.

When Offered

Every spring semester.

POL 301 - Political Economy

(3) This course provides an overview of the intersection of politics and economics, particularly in macroeconomics, fiscal and monetary policy; also explores comparative economic systems, free markets and trade. Students will also engage and integrate the subject matter themes with concepts of political theory, such as justice, freedom, property ownership, and stewardship.

Prerequisites: ECO 215; POL 207 or POL 233.

When Offered

Every fall semester.

Leadership Studies Minor

The Colorado Christian University Leadership Studies Minor is a program for students who want to develop effective leadership and character skills. The program combines intense academic study with practical, supervised training to cultivate understanding and application of leadership principles. The program is based on biblical and theoretical principles and includes modeling and mentoring courses in its forms of instruction.

Students may earn a minor in the field by completing the following 18 credit hours and all corresponding prerequisites provided none of the courses is required in the student's major.

Required Courses (18 credit hours)

Basic Leadership Core (12 credit hours)**LED 101 - Foundations of Management and Leadership**

(3) Students learn to build theoretical, practical, and theological foundations for becoming effective managers and leaders. Students learn to analyze their strengths and weaknesses, making specific growth plans. The course covers many facets of organizational behavior and analyzes human behavior in the workplace. Students study the elements of group behavior including group dynamics, communication, leadership power and politics, and conflict and negotiation.

When Offered

Fall and spring semesters.

LED 301 - Personal Life of the Leader

(3) First master yourself if you wish to lead others. This course focuses more on the "being" than the "doing" of leadership, by challenging students to develop their character and put healthy habits in place. Topics include setting vision, building teams, decision-making, spiritual disciplines (solitude, prayer, fasting, etc.) and fostering deeper personal relationships.

Prerequisites: LED 101.

When Offered

Every fall semester.

MGT 201 - Organizational Behavior and Design

(3) This course is oriented toward developing a better understanding of organizational culture and the role human behavior has in forming culture; using this knowledge to help people be more productive and satisfied in various organizational settings, i.e. large publicly owned corporations, and small privately-owned companies and nonprofit organizations. It provides you with an understanding of the field of organizational behavior and the implications it has in

the management of a rapidly evolving workforce.

Prerequisites: LED 101 or BUS 101 or MGT 101.

When Offered

Fall and spring semesters.

MGT 500 - Management Problem Solving and Decision-Making

(3) Fundamental and advanced techniques for making decisions and solving problems at all leadership levels in business and in life. These systematic techniques, or processes, are designed to improve the student's ability to gather, organize, and evaluate information in the areas of problem solving, decision making and plan implementation.

Prerequisites: Juniors and Seniors only.

When Offered

Every fall and spring semester.

Leadership Elective (6 credit hours)

Choose two of the following classes.

COM 320 - Small Group Communication

(3) Systematic study and practice of the principles of effective communication in groups; exploration of features unique to small group interaction including the exploration of public discussion formats.

Prerequisites: COM 103.

Notes: Junior or senior standing or permission of the instructor.

When Offered

Every spring semester.

LED 205 - Cross Cultural Leadership

(3) This century will be remembered for intense globalization. In this course students discover how multifarious cultures view the world and leadership by studying ways to categorize cultures, apply insights from the Hofstede value dimensions in leadership decisions, and better navigate differences in work habits, communication, and religion/philosophy. Students learn to stretch their own perspectives and gain a deeper knowledge of themselves.

Prerequisites: LED 101.

When Offered

Every spring semester.

PSY 101 - Introduction to Psychology

(3) This course provides an overview of the field of psychology, including psychological principles, methods, theories, and research broadly applied to various domains within the discipline. This course will equip students to understand the theoretical and philosophical foundations of contemporary psychology in light of a Christian worldview, and proposes an integrated framework from which to approach psychology and their Christian faith.

When Offered

Every fall and spring semesters.

PSY 315 - Group Processing and Community

(3) Christians are called to be in community, thus various types of groups become a foundational part of our faith experience. This course investigates group process principles and the nature of groups. Practical application of the theoretical concepts and the development of group-related skills are emphasized.

Prerequisites: PSY 101.

When Offered

Odd fall semesters.

Management Minor (CUS - for Non-School of Business and Leadership Majors Only)

The Management Minor builds on the foundation of the business core courses and then provides in-depth study of management concepts, managerial accounting, managerial finance, organizational behavior, leadership communications, conflict management, and business law.

Students who are not majoring in a School of Business and Leadership academic program may earn a minor in Management by completing the following 19 credits and all corresponding prerequisites, provided none of the courses is required in the student's major:

Required Core (19 credit hours)

ACC 201 - Principles of Accounting I Financial Reporting

(4) This course provides an introduction to the financial accounting information role in business and society, focusing on the recording and reporting of business operations, including financing and investing events. It provides insights on business and enables students to become familiar with reporting of business operations using generally accepted accounting principles.

Prerequisites: BUS 101 or MGT 101.

When Offered

Fall and spring semesters.

BUS 101 - Introduction to Business, Management and Ethics

(3) Students learn fundamental business topics that prepares them to be successful in the exciting world of business and non-profit organizations. Students gain foundations in functional areas (accounting, finance, management, marketing, and technology) and operating environments common to every organization. This course is engaging and transformational, whether one is just starting out or already an avid student of business.

When Offered

Fall and spring semesters.

Cross-listed MGT 101

COM 403 - Organizational Communication

(3) Integration of communication, management, and organizational theory; provides historical and contemporary vantage points of communication's role in organizational operation.

Prerequisites: Junior or Senior standing.

When Offered

Every fall semester.

LED 101 - Foundations of Management and Leadership

(3) Students learn to build theoretical, practical, and theological foundations for becoming effective managers and leaders. Students learn to analyze their strengths and weaknesses, making specific growth plans. The course covers many facets of organizational behavior and analyzes human behavior in the workplace. Students study the elements of group behavior including group dynamics, communication, leadership power and politics, and conflict and negotiation.

When Offered

Fall and spring semesters.

MGT 201 - Organizational Behavior and Design

(3) This course is oriented toward developing a better understanding of organizational culture and the role human behavior has in forming culture; using this knowledge to help people be more productive and satisfied in various organizational settings, i.e. large publicly owned corporations, and small privately-owned companies and nonprofit organizations. It provides you with an understanding of the field of organizational behavior and the implications it has in the management of a rapidly evolving workforce.

Prerequisites: LED 101 or BUS 101 or MGT 101.

When Offered

Fall and spring semesters.

MGT 500 - Management Problem Solving and Decision-Making

(3) Fundamental and advanced techniques for making decisions and solving problems at all leadership levels in business and in life. These systematic techniques, or processes, are designed to improve the student's ability to gather, organize, and evaluate information in the areas of problem solving, decision making and plan implementation.

Prerequisites: Juniors and Seniors only.

When Offered

Every fall and spring semester.

Management Minor (CUS - for School of Business and Leadership Majors Only)

The management minor for Accounting, Business Administration, Computer Information Systems, and Outdoor Leadership majors builds on the foundation of the business core courses and then provides in-depth study of management and leadership concepts (Human Resource Management, Managerial and Corporate Communication, Organizational Behavior, Managing and Marketing of Nonprofit Organizations, Leadership Communication, etc.).

Students may earn a minor in the field by completing the following 18 credit hours and all corresponding prerequisites provided none of the courses is required in the student's major.

Required Courses (18 credit hours)**BUS 370 - International Business**

(3) The Internet has made international business everyone's business. In this course students learn about international organizations, the global monetary system, regional trading blocs, and how politics and culture impact doing business abroad. This course surveys each of the functional areas of business (finance, marketing, organization, strategy, etc.) to help students assess opportunities, mitigate risk, and create and capture value.

When Offered

Every spring semester.

COM 403 - Organizational Communication

(3) Integration of communication, management, and organizational theory; provides historical and contemporary vantage points of communication's role in organizational operation.

Prerequisites: Junior or Senior standing.

When Offered

Every fall semester.

LED 205 - Cross Cultural Leadership

(3) This century will be remembered for intense globalization. In this course students discover how multifarious cultures view the world and leadership by studying ways to categorize cultures, apply insights from the Hofstede value dimensions in leadership decisions, and better navigate differences in work habits, communication, and religion/philosophy. Students learn to stretch their own perspectives and gain a deeper knowledge of themselves.

Prerequisites: LED 101.

When Offered

Every spring semester.

MGT 309 - Managing and Marketing Nonprofit Organizations

(3) Taking a contemporary view of the challenges nonprofits face today, this course assists students in understanding how nonprofits are affected by the 21st-century economy. The course enables students to understand the evolution of a nonprofit from ideation to progression through the various stages in the life of a nonprofit. Students participate in real-world nonprofits developing semester-long business projects.

Prerequisites: BUS 101 or instructor permission.

Notes: Laptop computer required.

When Offered

Every spring semester.

MGT 500 - Management Problem Solving and Decision-Making

(3) Fundamental and advanced techniques for making decisions and solving problems at all leadership levels in business and in life. These systematic techniques, or processes, are designed to improve the student's ability to gather, organize, and evaluate information in the areas of problem solving, decision making and plan implementation.

Prerequisites: Juniors and Seniors only.

When Offered

Every fall and spring semester.

MGT 561 - Business Project Planning, Scheduling, and Controlling

(3) To be successful, project managers must analyze alternative project decisions by relying heavily on project planning, scheduling, estimating, control, and risk management tools and techniques. This course provides students with the skills required to plan, baseline, monitor, analyze, and evaluate project performance and associated risks.

Prerequisites: Juniors and Seniors only.

Fee

Course fees apply.

When Offered

Every spring semester.

Marketing Minor (CUS - for School of Business and Leadership Majors Only)

The Marketing Minor program builds on the foundation of the business core courses and then provides in-depth study of marketing concepts, advertising theory, consumer behavior, public relations and publicity, market research, strategic marketing management, Internet marketing, and e-commerce.

Students may earn a minor in the field by completing the following 18 credit hours and all corresponding prerequisites provided none of the courses is required in the student's major.

Required Courses (18 credit hours)

Required Core (18 credit hours)

BUS 370 - International Business

(3) The Internet has made international business everyone's business. In this course students learn about international organizations, the global monetary system, regional trading blocs, and how politics and culture impact doing business abroad. This course surveys each of the functional areas of business (finance, marketing, organization, strategy, etc.) to help students assess opportunities, mitigate risk, and create and capture value.

When Offered

Every spring semester.

COM 225 - Introduction to Strategic Communication

(3) This survey course introduces students to strategic communication practice in the 21st century, and immerses students in the strategic concepts necessary to understand how effective decisions are developed and executed in the field of strategic communication. Students will learn how to use critical and creative thinking to gather, organize, evaluate, and deliver information and influence others by developing relationships.

When Offered

Every fall semester.

MKT 309 - Sales and Service Relationships

(3) Great salespersons are relationship builders who sell needed solutions, not just products or services. In this course students learn everything from prospecting and qualifying to sales presentations and closing the sale. Customer Relationship Management is covered, including optimizing identification, acquisition, growth, and retention of desired customers. Other topics include employing technology, managing a sales force, and handling legal, ethical, and social issues.

Prerequisites: MKT 202.

When Offered

Every fall semester.

MKT 310 - Marketing Research and Consumer Behavior

(3) Marketers must know the customer so well that the product or service sells itself. This course teaches the basics of marketing research and the cultural, social, personal, and psychological factors influencing buyer behavior. Students learn how to do marketing research and scrutinize research literature.

Prerequisites: MAT 212, MKT 202.

When Offered

Every spring semester.

MKT 314 - Advertising Management

(3) Commercials should be what people are interested in. In this course students learn how to develop an advertising campaign, conduct target market analyses, and manage creative strategy, production, and media planning. They will also understand and be prepared to navigate the legal and ethical issues that surround advertising.

Prerequisites: MKT 202.

When Offered

Every spring semester.

MKT 510 - Marketing Strategy

(3) Designed for students interested in careers in product/brand management, planning, marketing research, sales management or an entrepreneurial view of bringing products to markets. Exposure to advance thinking on product development process and elements of effective market planning. Marketing is changing rapidly and is reliant on lower cost guerrilla tactics, intentional viral strategies and wrap-around strategies in social media.

Prerequisites: MKT 310, Juniors and Seniors only.

When Offered

Every spring semester.

Outdoor Leadership Minor

Facilitated outdoor experiences may be the most effective way to transform people into Kingdom leaders, to be catalysts for Christ. This program is not about recreation; it is about re-creation. The minor can also create vocational fitness for outdoor industries or outdoor ministries. The goals of the Outdoor Leadership Minor are:

- **Spiritual transformation** - moving people from their actual to potential in Christ; and able to use outdoor experiences to encourage people to say "yes" to God.
- **Leadership development** - the Scriptures indicate God's strategy for developing leaders almost always involved transformative outdoor experiences. Development is accelerated outdoors due to the experiential challenges faced, consequences of decision making, and short feedback loops.
- **Character formation** - developing perseverance and resiliency, embracing challenges, and growing in Christ-likeness for the sake of others.
- **Outdoor skills acquisition** - sound skills are prerequisites for risk management in leading self or others in any outdoor context, and a pioneering witness for Christ in the secular outdoor workplace is competency.

Students are required to experience a 7-day backpack trip where they are introduced to backcountry skills and use of God's creation for spiritual transformation. They must also learn the biblical and theological basis for outdoor leadership; outdoor pedagogy, theory, and contexts; and management and administration of outdoor programs. Elective courses include many outdoor skills and certifications. Courses go to nearby locations such as Rocky Mountain National Park and Colorado "14ers," as well as Grand Canyon National Park.

Faculty are practicing professionals with many decades of cumulative field experience, advanced degrees, and advanced certifications. Most also teach at the graduate level.

Students may earn a minor in the field by completing the following 19 credit hours and all corresponding prerequisites provided none of the courses is required in the student's major.

Required Courses (19 credit hours)

Required Courses (10 credit hours)

OUL 100 - Introduction to Outdoor Leadership

(2) A survey course providing an introduction to the history, philosophy, and education theory and context of Christian outdoor leadership. Addresses roles of the outdoor leader, models of outdoor leadership, decision making and judgment, risk management, experiential education, and more. Students are exposed to many occupational expressions, and seek to discover their own interests within this broad field.

Fee

Course fees apply.

When Offered

Every spring semester.

OUL 131 - Backcountry Skills and Spiritual Transformation

(3) This course includes a multi-day backpack trip. This is a physically demanding course. Students should be prepared for long days of travel with heavy backpacks. Topics include outdoor living skills (orienteering, backcountry cookery, backpacking, and more), leadership development, and risk management. Includes practice of spiritual disciplines and a solo experience. Destinations may include desert (e.g. GCNP) or alpine terrain.

Prerequisites: Acceptance into the Outdoor Leadership major or minor.

Fee

Course fees apply.

When Offered

Every fall semester.

OUL 141 - Christian Camping and Spiritual Transformation

(3) In this course students learn how to use instruction in hunting, fishing, and challenge courses to teach life-lessons and lead people into a deeper relationship with God. Students study all aspects of camps, retreat centers, and outdoor education programs, and learn how to optimally lead Challenge Courses, Climbing Walls, Ziplines, Archery, Rifflery, Fishing, and Orienteering.

Fee

Course fee applies.

When Offered

Every fall semester.

OUL 206 - Wilderness First Aid

(1) The Wilderness First Aid (WFA) course is designed to meet the needs of trip leaders, camp staff, outdoor enthusiasts and individuals working in remote locations. Classroom lectures and demonstrations are combined with realistic scenarios in which mock patients will challenge students to integrate learning. At the end of the course, students will have the knowledge, skills and ability to make sound decisions in emergency situations, and will receive their 2 year certification with Wilderness Medicine Institute of NOLS.

Fee

Course fee required.

When Offered

Every spring semester.

OUL 230 - Biblical and Theological Foundations for Outdoor Leadership

(2) This course introduces students to a theology of outdoor leadership, biblical perspectives on experiential learning in the outdoor leadership setting, and the Bible's unique perspective on outdoor leadership theory and practice. Course readings, class discussions, and course assignments will focus on the biblical basis and outdoor context as the primary foundation and location for leadership development and spiritual formation.

When Offered

Every spring semester.

OUL 404 - Management and Administration of Outdoor Programs

(2) This course explores principles and practices of organizational management and administration for outdoor programs. Students receive practical perspectives on current professional outdoor leadership standards and practices, managing risks, and minimizing liability. Students will implement these skills via program development. This class is necessary for any student wanting to exceed beyond the role of a guide or seasonal employee.

Prerequisites: OUL 100.

Fee

Course fees apply.

When Offered

Every fall semester.

Elective Courses (9 credit hours)

Students must take 9 credit hours from the following courses:

OUL 106 - Intro to Stand Up Paddleboarding

(1) This course provides the student with the fundamental knowledge and paddling skills necessary to safely participate in Stand Up Paddleboarding (SUP). Topics include SUP history, the paddling environment, principals of balance, board

control and maneuvers, and SUP water safety. This field oriented course is based on the American Canoe Association SUP Level 1 & 2 Skills Courses.

Fee

Course fees apply.

When Offered

Even fall semesters.

OUL 108 - Rock Climbing I

(1) This 1-credit course will provide students with the fundamentals of recreational rock climbing for lifelong leisure. This course will provide the basics of the sport of top rope rock climbing, climbing techniques, and climbing safety. Students will also climb a variety of routes at local climbing areas not far from the CCU campus.

Notes: Two day long field experiences.

Fee

Course fee required.

When Offered

Every fall semester.

OUL 109 - Fly Fishing

(1) Fundamentals of equipment, basics of fly casting, stream entomology and conservation.

Fee

Course fee required.

When Offered

Every fall semester.

OUL 119 - Field Natural History

(2) Through classroom and field sessions, this course increases awareness and appreciation for God's outdoor creation. It demonstrates how outdoor leaders can introduce and facilitate their participants' relationship to the land through which they travel. Addresses natural revelation, basic ecological organization and cycles, terrestrial and aquatic ecosystems common to Colorado, common flora and fauna, meteorology, faith lessons, and more.

Fee

Course fee required.

When Offered

Every spring semester.

OUL 122 - Hiking Colorado Peaks

(1) Colorado is famous for mountain climbing. This one-credit course introduces students to the majesty and challenge of hiking the high peaks in the state. Students will hike several easy to moderate peaks as a guided group. Mountains of the Bible, trip planning, gear and clothing, risk management, Acute Mountain Sickness, and LNT are also addressed.

Fee

Course fees apply.

When Offered

Every fall semester.

OUL 125 - Introduction to Ice Climbing

(1) This introductory course exposes students to the skills and techniques to safely climb low-level difficulty ice in a top rope situation.

Fee

Course fees apply.

When Offered

Every spring semester.

OUL 127 - Snowshoeing

(1) This course introduces students to the joy of snowshoeing. Students will enjoy the majesty of the Rocky Mountains while learning techniques for level terrain, ascending, and descending while on and off trail. Recognition and treatment of cold injuries, risk management, and trip planning are also addressed. Snowshoes are provided.

Fee

Course fees apply.

When Offered

Even spring semesters.

OUL 135 - Introduction to Canyoneering

(1) This introduction to canyoneering course is designed to prepare students to safely and effectively travel through technical slot canyons. This course gives students the opportunity to travel through 2-3 canyons with a guide while receiving practical hands-on experience and instruction. Topics include double and single rope rappelling, gear/equipment, weather and flash flood planning, basic pothole escapes, natural and bolted anchor building, knots, ascending, and group dynamics.

Fee

Course fees apply.

When Offered

Every spring semester.

OUL 202 - Facilitation and Group Processing

(2) Through philosophical, theological and experiential learning opportunities, this course will train outdoor leaders to successfully facilitate a group through various Christ-centered adventure experiences. Vital for anyone seeking outdoor adventure or team-building experience as a form of ministry. Provides tools to correctly sequence activities, foster group synergy, process learning through questioning techniques, and ensure that contained experiences become applicable and transferable to real life situations.

Fee

Course fees apply.

When Offered

Odd fall semesters.

OUL 207 - Canoeing

(1) Field-oriented course emphasizing entry-level paddling skills providing an introduction to the sport of canoeing. Topics include equipment, strokes, maneuvers, safety and rescue, and solo and tandem techniques. Successful completion leads to an American Canoe Association Level 1 certification. Canoes and equipment provided.

Fee

Course fee required.

When Offered

Odd fall semesters.

OUL 208 - Rock Climbing II

(2) An intermediate level I course designed to teach students to lead climb. Primary focus will be sport climbing, but traditional climbing will also be covered. Multiple field days combined with class lectures will provide students ample opportunity to learn to lead climb safely and efficiently. Learn to set artificial and natural anchors, cleaning anchors, and introductory rescue skills. Students must have 3 months of recent top-roping experience and proficiency in belaying.

Prerequisites: 3 months recent top-roping experience and proficiency belaying.

Fee

Course fees apply.

When Offered

Every fall semester.

OUL 215 - Snow Climbing

(1) This field-oriented course provides students with skills to climb and travel on steep snow. Knowledgeable use of an ice axe separates the hiker/backpacker from the mountaineer, and opens up dynamic alpine terrain to fun experiences. Learn self belay, self-arrest, snow anchors, use of crampons, ascending and descending techniques, roped snow travel, and decision making.

Fee

Course fee required.

When Offered

Odd spring semesters.

OUL 225 - Snow Shelters and Winter Camping

(1) Includes a 3-day, 2-night backpacking trip. Students construct and sleep in snow shelters. Topics include tenting; clothing, gear, and food considerations; trip planning and risk management; and recognition and treatment of cold injuries.

Fee

Course fee required.

When Offered

Odd spring semesters.

OUL 227 - White-Water Rafting

(1) Guided instruction on Class II and III water. Half day and day long excursions.

Fee

Course fee required.

When Offered

Even spring semesters.

OUL 303 - Wilderness Navigation

(2) This course teaches efficient backcountry navigation in a combination of classroom and field-based settings using topographic maps and other appropriate navigation tools. The course includes the application of technology-based tools (GPS, apps, etc.).

When Offered

Every fall semester.

OUL 305 - Challenge Course Instructor

(2) Students learn the basic techniques to safely facilitate a challenge course experience. Techniques include both soft and hard skills. Students will facilitate individual and group dynamics as well as demonstrate the necessary technical skills for managing a challenge course experience on both low and high ropes courses. Leadership skills and strategies and application are integral parts of this course.

Fee

Course fees apply.

When Offered

Even fall semesters.

OUL 308 - Avalanche Level 1 and Companion Rescue

(3) This course provides comprehensive fundamentals of avalanche safety. Most learning is done during field sessions in outdoor mountain locations of Colorado. Addresses terrain, snowpack assessment, weather, human factors, beacons, rescue and more. Course content adheres to American Avalanche Association education guidelines Upon successful completion of the course students earn a Level 1 avalanche certification.

Fee

Course fees apply.

When Offered

Every spring semester.

OUL 312 - LNT Certification and Stewardship of Creation

(2) Classroom learning is augmented by hands-on practice while backpacking. Students gain understanding of Leave No Trace (LNT) techniques and ethics regarding care of creation. This course provides a Scripture-infused version of the national LNT curriculum consistent with the Christian worldview. Upon successful completion, students are certified as LNT Trainers or Master Educators capable of offering LNT Trainer courses or awareness workshops.

Prerequisites: OUL 102 or OUL 131 or instructor permission.

Fee

Course fees apply.

When Offered

Odd fall semesters.

OUL 325 - Advanced Backcountry Ski and Snowboard

(2) This course begins the transition from ski touring to ski mountaineering. It includes a weekend trip that requires staying in a hut or in tents, and explores the relationship between winter adventure and the Christian faith. Students must have strong (black diamond) ski/snowboard background.

Prerequisites: OUL 205, OUL 308.

Fee

Course fees apply.

When Offered

Every spring semester.

OUL 328 - Avalanche Level 2

(2) Building on skills from OUL 308, this course mixes lecture, field time, and individual and group projects with a focus on managing uncertainty in avalanche terrain as a group leader. Students advance decision-making skills by applying them to new terrains and situations, learn about weather, snowpack and avalanche processes, and identify how these processes relate to observations and travel within avalanche terrain.

Prerequisites: OUL 308.

Fee

Course fee applies.

When Offered

Every spring semester.

OUL 402 - Integrating Mental Health in Outdoor Leadership

(3) This course is to equip outdoor leaders with the skills and confidence to promote emotional healing and spiritual transformation within outdoor contexts. Focus will be on the development of leadership through a holistic lens including emotional, spiritual, and physical dimensions.

When Offered

Every spring semester.

OUL 411 - International Missional Trekking

(3) In this course students travel to remote locations across the world such as Patagonia, Nepal, Argentina, and Peni to learn about expedition behavior, self-care, high altitude physiology, local religion and culture, and how to share the love of Jesus Christ in an attractive and winsome manner.

Prerequisites: Instructor permission.

Notes: Submission of medical history and clearance from a medical doctor required.

Fee

Course fees apply.

When Offered

Scheduled by school.

OUL 413 - Trekking: Aconcagua

(3) A missional trekking course to Aconcagua - one of the famed seven summits. Students plan the logistics of the trek during the fall semester, then over Christmas break attempt to trek to the 22,831 foot summit via the Normal route, seeking opportunities to love others and share their faith. Learn about expedition behavior, self-care, high altitude physiology, and local religions and culture.

Prerequisites: Instructor permission required.

Fee

Course fees apply.

When Offered

Scheduled by school.

OUL 450 - Internship

(1 to 3) Mentored experience arranged with a local ministry that implements an outdoor leadership activity.

Prerequisites: OUL 100, OUL 202.

Pre-Law Studies Minor

The Pre-Law Studies Minor helps students to determine if they have an aptitude and interest in law and provides a background for law school coursework. This minor helps students build a strong liberal arts education with challenging courses that require them to analyze and evaluate conflicting ideas and to communicate effectively orally and in writing. The Pre-Law Studies Minor is designed to complement any CCU major and to help students determine if they should invest in further education in law school.

Students may earn a minor in the field by completing the following 18 credit hours and all corresponding prerequisites provided none of the courses is required in the student's major.

Required Courses (18 credit hours)

Required Core (15 credit hours)

LAW 212 - Legal Reasoning and Writing

(3) Engages students in basic principles and techniques of formal logic, reasoning, and legal research and writing. This course provides a foundation in critical thinking and analysis skills necessary for success on the Law School Admissions Test (LSAT).

When Offered

Every spring semester.

LAW 217 - Constitutional Law

(3) This course is a study of the U.S. Constitution as the foundational document for all law in the United States. The course is designed to prepare the student for law school. The course relies primarily on the legal case study method as a learning strategy for understanding key principles of constitutional law.

When Offered

Every fall semester.

LAW 303 - Business Law

(3) Practical overview of relevant foundational aspects of business law, such as contracts, agency, and commercial transactions, and basic application of these principles to the workplace.

Prerequisites: BUS 101 or MGT 101, Junior or Senior standing.

When Offered

Fall and spring semesters.

LAW 310 - Appellate Advocacy and Moot Court

(3) This course provides an introduction to principles of legal communication and advocacy within the American legal system. Aspects of critical thinking, public speaking skills, logic, and analysis are integrated throughout. Students learn about the judicial appeals process, write a case brief, and practice oral argument skills.

When Offered

Every fall and spring semesters.

LAW 427 - Philosophies of Jurisprudence

(3) This capstone course explores the ethics and theories of law that students will encounter in law school. Students are prepared with the analytical framework to recognize, understand, and more effectively negotiate legal philosophies and practices from a biblical worldview.

Prerequisites: LAW 212, LAW 217, LAW 303, LAW 310.

When Offered

Every spring semester.

Elective Core (3 credits)

Choose 3 credit hours from the following:

LAW 311 - Moot Court Team

(1) Instruction in oral argument and legal analysis with opportunities to compete at regional and national moot court tournaments. Participation in Moot Court Team requires enrollment in this class.

Prerequisites: LAW 310 taken either previously or concurrently. Instructor permissions required.

Notes: May be repeated for credit for a maximum of six credits. Pass/Fail.

When Offered

Every fall semester.

LAW 429 - Legal Issues in Nonprofit Organizations

(3) This course provides the student a practical overview of relevant foundational aspects of nonprofit organizations and certain legal issues impacting their organization and operation, as well as how a basic application of these principles applies to the business workplace.

Prerequisites: LAW 303.

When Offered

Scheduled by School.

LAW 435 - Legal Studies Practicum

(3) Students participate directly in a workplace practicum in an area of law of their choosing. One-on-one mentorship and supervision is provided by a faculty attorney.

Prerequisites: LAW 212, LAW 217, LAW 303.

When Offered

Every fall and spring semesters.

LAW 501 - Legal Issues in Management

(3) This course reviews concepts of business and employment law to include: human resource matters; the use of technology and intellectual property rights; entity formation, taxation, finance, Uniform Commercial Code, contracts, privacy, consumer rights, and trans-border issues.

Prerequisites: LAW 303, Juniors and Seniors only.

When Offered

Every spring semester.

Public Accountant Preparation Minor

To be licensed as a Certified Public Accountant (CPA), a candidate is required to have 150 hours of college level education and a year's experience working under the supervision of a CPA. This minor enables Accounting Major students (only) to complete 6 months of that experience through internships and completed coursework toward the 150 hour requirement.

Students may earn a minor in the field by completing the following 21 credit hours and all corresponding prerequisites.

Required Courses (21 credit hours)

Required Core (12 credit hours)

ACC 505 - Accounting Ethics

(3) Ethics as applied to the accounting profession is studied through the lenses of biblical responsibility and practice. The fundamental values of integrity, due care, confidentiality, objectivity and independence are explored through theory and cases. Students will learn to recognize potential conflict of interest and moral dilemma situations and develop proper professional code of conduct responses.

Prerequisites: ACC 303.

When Offered

Every fall semester.

BUS 420 - Applied Business Analytics

(3) Data will talk if you know how to listen. In this course students learn how to incorporate and analyze large/complex data sets of information to optimize decision-making. Students learn to aggregate data and analyze company reports, then apply this knowledge to create a major research paper and presentation that incorporates state-of-the-art data visualization techniques.

Prerequisites: ACC 201, BUS 392.

When Offered

Every spring semester.

COM 403 - Organizational Communication

(3) Integration of communication, management, and organizational theory; provides historical and contemporary vantage points of communication's role in organizational operation.

Prerequisites: Junior or Senior standing.

When Offered

Every fall semester.

LAW 501 - Legal Issues in Management

(3) This course reviews concepts of business and employment law to include: human resource matters; the use of technology and intellectual property rights; entity formation, taxation, finance, Uniform Commercial Code, contracts, privacy, consumer rights, and trans-border issues.

Prerequisites: LAW 303, Juniors and Seniors only.

When Offered

Every spring semester.

Elective Core (9 credit hours)

Choose 9 credits from the following:

ACC 410 - Certified Public Accountant's Exam Review

(3) The course provides a comprehensive review of all subjects tested on the nation-wide CPA Exam, addressing all four parts of the exam (Financial Accounting and Reporting, Business Environment and Concepts, Regulation, and Auditing). The goal of the course is to prepare CPA candidates for the exam by presenting the content and format of the exam and providing useful techniques for taking the exam.

Prerequisites: Senior Accounting Majors only.

When Offered

Every fall and spring semesters.

ACC 450 - Internship

(1 to 3) Supervised experience in a professional setting.

Notes: May be repeated for credit.

ACC 520 - Advanced Tax Accounting

(3) This course develops a conceptual framework for analyzing taxation of property transactions, corporations, partnerships, and exempt organizations. Building on skills acquired in the undergraduate tax accounting course, students will research, analyze and communicate conclusions about issues related to the above topics for reporting and management decision-making.

Prerequisites: ACC 306.

When Offered

Every spring semester.

FIN 320 - Investments & Portfolio Management

(3) Students learn how to invest in financial markets. Advanced concepts are covered, such as portfolio management, security analysis, and stock-picking.

Prerequisites: FIN 301.

When Offered

Every spring semester.

FIN 502 - Financial Institutions and Monetary Policy

(3) The best way to learn about finance and economics is to know the players and the system. In this course, students learn about all the major participants in global finance, including central banks, financial institutions, and stock and bond markets. Monetary policy and other major financial policy decisions will also be explored. Risk-return concepts including hedging, derivatives, and asset valuation will be covered in detail. The course focuses on financial crises and their policy

implications illuminating interactions, roles, and failures of major market participants.

Prerequisites: FIN 301, LAW 303; Juniors and Seniors only.

When Offered

Every fall semester.

Cross-listed ECO 502.

LED 497 - Special Topics in Leadership

(1 to 3) This course offers guided group investigation and discussion of a selected topic. Past courses have included The Disney Way of Leadership; Human Resources for the 21st Century; Strategic Foresight; Business Law for the Non-Profit Organization.

Notes: Graded; may be repeated for credit.

When Offered

Scheduled by School.

MGT 561 - Business Project Planning, Scheduling, and Controlling

(3) To be successful, project managers must analyze alternative project decisions by relying heavily on project planning, scheduling, estimating, control, and risk management tools and techniques. This course provides students with the skills required to plan, baseline, monitor, analyze, and evaluate project performance and associated risks.

Prerequisites: Juniors and Seniors only.

Fee

Course fees apply.

When Offered

Every spring semester.

MKT 310 - Marketing Research and Consumer Behavior

(3) Marketers must know the customer so well that the product or service sells itself. This course teaches the basics of marketing research and the cultural, social, personal, and psychological factors influencing buyer behavior. Students learn how to do marketing research and scrutinize research literature.

Prerequisites: MAT 212, MKT 202.

When Offered

Every spring semester.

PSY 315 - Group Processing and Community

(3) Christians are called to be in community, thus various types of groups become a foundational part of our faith experience. This course investigates group process principles and the nature of groups. Practical application of the theoretical concepts and the development of group-related skills are emphasized.

Prerequisites: PSY 101.

When Offered

Odd fall semesters.

Cross Disciplinary Study

Leadership Studies Cross Disciplinary Study

The Colorado Christian University Leadership Studies cross disciplinary study is a program for students who want to develop effective leadership and character skills. The program combines intense academic study with practical, supervised training to cultivate understanding and application of leadership principles. The program is based on biblical and theoretical principles and includes modeling and mentoring courses in its forms of instruction.

Students may earn the cross disciplinary study in the field by completing the following 12 credit hours and all corresponding prerequisites provided none of the courses is required in the student's major.

Required Courses (12 credit hours)

LED 101 - Foundations of Management and Leadership

(3) Students learn to build theoretical, practical, and theological foundations for becoming effective managers and leaders. Students learn to analyze their strengths and weaknesses, making specific growth plans. The course covers many facets

of organizational behavior and analyzes human behavior in the workplace. Students study the elements of group behavior including group dynamics, communication, leadership power and politics, and conflict and negotiation.

When Offered

Fall and spring semesters.

LED 301 - Personal Life of the Leader

(3) First master yourself if you wish to lead others. This course focuses more on the "being" than the "doing" of leadership, by challenging students to develop their character and put healthy habits in place. Topics include setting vision, building teams, decision-making, spiritual disciplines (solitude, prayer, fasting, etc.) and fostering deeper personal relationships.

Prerequisites: LED 101.

When Offered

Every fall semester.

MGT 201 - Organizational Behavior and Design

(3) This course is oriented toward developing a better understanding of organizational culture and the role human behavior has in forming culture; using this knowledge to help people be more productive and satisfied in various organizational settings, i.e. large publicly owned corporations, and small privately-owned companies and nonprofit organizations. It provides you with an understanding of the field of organizational behavior and the implications it has in the management of a rapidly evolving workforce.

Prerequisites: LED 101 or BUS 101 or MGT 101.

When Offered

Fall and spring semesters.

MGT 500 - Management Problem Solving and Decision-Making

(3) Fundamental and advanced techniques for making decisions and solving problems at all leadership levels in business and in life. These systematic techniques, or processes, are designed to improve the student's ability to gather, organize, and evaluate information in the areas of problem solving, decision making and plan implementation.

Prerequisites: Juniors and Seniors only.

When Offered

Every fall and spring semester.

Management Cross Disciplinary Study (CUS - for Non-School of Business and Leadership Majors Only)

The cross disciplinary study in Management for non-School of Business and Leadership majors builds on the foundation of the business core courses and then provides in-depth study of management concepts, managerial accounting, managerial finance, organizational behavior, leadership communications, conflict management, and business law.

Students may earn a cross disciplinary study in Management by completing the following 13 credit hours and any corresponding prerequisites provided none of the courses is required in the student's major.

Required Courses (13 credit hours)

ACC 201 - Principles of Accounting I Financial Reporting

(4) This course provides an introduction to the financial accounting information role in business and society, focusing on the recording and reporting of business operations, including financing and investing events. It provides insights on business and enables students to become familiar with reporting of business operations using generally accepted accounting principles.

Prerequisites: BUS 101 or MGT 101.

When Offered

Fall and spring semesters.

BUS 101 - Introduction to Business, Management and Ethics

(3) Students learn fundamental business topics that prepares them to be successful in the exciting world of business and non-profit organizations. Students gain foundations in functional areas (accounting, finance, management, marketing, and technology) and operating environments common to every organization. This course is engaging and transformational, whether one is just starting out or already an avid student of business.

When Offered

Fall and spring semesters.
Cross-listed MGT 101

MGT 201 - Organizational Behavior and Design

(3) This course is oriented toward developing a better understanding of organizational culture and the role human behavior has in forming culture; using this knowledge to help people be more productive and satisfied in various organizational settings, i.e. large publicly owned corporations, and small privately-owned companies and nonprofit organizations. It provides you with an understanding of the field of organizational behavior and the implications it has in the management of a rapidly evolving workforce.

Prerequisites: LED 101 or BUS 101 or MGT 101.

When Offered

Fall and spring semesters.

MGT 500 - Management Problem Solving and Decision-Making

(3) Fundamental and advanced techniques for making decisions and solving problems at all leadership levels in business and in life. These systematic techniques, or processes, are designed to improve the student's ability to gather, organize, and evaluate information in the areas of problem solving, decision making and plan implementation.

Prerequisites: Juniors and Seniors only.

When Offered

Every fall and spring semester.

Pre-Law Cross Disciplinary Study

The cross disciplinary study in Pre-Law helps students to determine if they have an aptitude and interest in law and provides a background for law school coursework. This emphasis helps students build a strong liberal arts education with challenging courses that require them to analyze and evaluate conflicting ideas and to communicate effectively orally and in writing. Pre-Law studies is designed to complement any CCU major and to help students determine if they should invest in further education in law school.

Students may earn a cross disciplinary study in Pre-Law by completing the following 12 credit hours and any corresponding prerequisites provided none of the courses is required in the student's major.

Required Courses (12 credit hours)**COM 203 - Argumentation and Persuasion**

(3) Covers basic principles and techniques of argumentation and persuasion, including both classical and contemporary theories and approaches with emphases on message construction, critical thinking, analysis and presentation.

Prerequisites: COM 103.

When Offered

Every fall semester.

COM 460 - Rhetorical Criticism

(3) Offers a look at the nature of persuasive communication including strategies, applications, techniques, and the use of propaganda, persuasive message construction, and audience adaptation are also examined.

Prerequisites: Junior or Senior standing.

When Offered

Every spring semester.

LAW 501 - Legal Issues in Management

(3) This course reviews concepts of business and employment law to include: human resource matters; the use of technology and intellectual property rights; entity formation, taxation, finance, Uniform Commercial Code, contracts, privacy, consumer rights, and trans-border issues.

Prerequisites: LAW 303, Juniors and Seniors only.

When Offered

Every spring semester.

POL 463 - Supreme Court and Constitutional Law

(3) A study of the historical development of the Supreme Court and select constitutional cases from the American founding to the present. Emphasis is placed on landmark court cases, as well as the evolving place of the Supreme Court within the American political system.

Prerequisites: POL 207.

When Offered

Even fall semesters.

School of Education

Grounded in Christian faith, the School of Education (SoE) prepares teachers from culturally diverse backgrounds with academic and professional expertise for service in public and private schools, locally, nationally and globally. Graduates demonstrate academic knowledge, specialized skills, leadership, and a commitment to the academic achievement and lives of children/youth in America and beyond.

In collaboration with the School of Humanities and Social Sciences, the School of Science and Engineering, and the School of Music, the School of Education offers Bachelor of Arts, Bachelor of Science, and Bachelor of Music degrees with professional, state-approved teacher licensure programs in Elementary Education (K-6), Secondary Education (7-12; Science, English, Mathematics or Social Studies), Music (K-12), and Special Education: Generalist (K-12+/ages 5-21). School of Education graduates of the Special Education Licensure Program are also eligible to apply to the Colorado Department of Education for an endorsement in Elementary Education. School of Education graduates in the Elementary Licensure Program, CLD Track, are also eligible to apply to the Colorado Department of Education for an endorsement in K-K-12 Culturally and Linguistically Diverse Education.

New Program Tracks: The School of Education now offers a dual-degree program track for students in the Special Education Licensure Program. Graduates of this track will earn 9 graduate level credits towards the Master of Education in Special Education program offered by CCU's College of Adult and Graduate Studies. The School of Education also offers a Classical Education track within the Elementary Education Licensure Program.

The School of Education provides a carefully planned sequence of courses and clinical practice in CCU Partnership Schools leading to effective, standards-based teacher preparation. Teacher candidates in the Elementary and Special Education teacher licensure programs have a special opportunity to participate in the School of Education's new Reading and Mathematics Clinic serving upper elementary students from Denver Public Schools and Jefferson County Schools.

In addition to state-approved teacher licensure programs, the School of Education offers a non-licensure B.A. program in Teaching and Learning. In this program, students complete 30 credits in the professional education core, where options exist for a focus on elementary or secondary content within school-based field experiences. Students then choose an established CCU minor of their choice to allow for an additional area of focus. This valuable degree includes 51 credits in the general education core, as well as 17 elective credits, preparing graduates for a wide array of educational, business or Christian careers throughout the world.

Teacher Licensure Programs

The School of Education teacher licensure programs are state-authorized and include all requirements stipulated by the Colorado Department of Education and the Colorado Department of Higher Education for professional teacher licensure in Colorado K-12 public schools. Upon completion of education program requirements at the proficient level, including a passing score on requisite state licensure PRAXIS exams, and graduation from the University, students (teacher candidates) are recommended for Colorado Teacher Licensure awarded by the State of Colorado.

Graduates from the School of Education teacher licensure programs are eligible to apply for teacher certification from the Association for Christian Schools International: <https://www.acsi.org/>

The elementary and secondary licensure programs are ranked in the top 2% of elementary and secondary licensure programs in the country by the National Council on Teacher Quality: <https://www.nctq.org/>

Teacher licensure programs are performance-based with content, activities, and assessments aligned to the Colorado Teacher Quality Standards, the appropriate Colorado Licensure Endorsement Standards, and the K-12 Colorado Academic Standards. Teacher Candidates apply and meet criteria for admission to the School of Education and the specific licensure program. In the professional program, Teacher Candidates participate in theoretical coursework, action research, and a minimum of 800-850+ school-based, clinical practice hours under the mentorship of School-Based Teachers who have demonstrated evidence of their effectiveness in increasing K-6/7-12 student achievement. Teacher candidates also work under the mentorship of CCU Supervisors, many of whom are former school principals.

Three semesters prior to the Student Teaching Internship, Teacher Candidates are required to take and pass the PRAXIS exam in their academic content/endorsement area. As applicable, Teacher Candidates work directly with state education officials outside of Colorado to be advised of the appropriate teacher licensure examination, as well as other applicable licensure requirements. Some students will find this website helpful in understanding state licensure requirements: <https://www.ecs.org/50-state-comparison-teacher-license-reciprocity/>

United States Department of Education Information

The United States Department of Education requires all institutions receiving federal assistance under the Higher Education Act to report the following information:

Program Information: 357 students were enrolled in traditional teacher licensure programs offered by the College of Undergraduate Studies and the College of Adult and Graduate Studies during the 2018-2019 academic year (Source: <https://www.cde.state.co.us/code/eppreport>). The SoE, within the College of Undergraduate Studies, served 175 Teacher Candidates during the 2020-2021 academic year (Source: CCU enrollment data system).

Accreditation: The teacher preparation licensure programs offered by Colorado Christian University are authorized by the State of Colorado under the auspices of the Higher Learning Commission who accredits CCU as an institution of higher learning.

Title II Program Completer Licensure Exam Pass Rate: The most recent public data is from the 2018-19 academic year and shows that Colorado Christian University Program Completers demonstrated a 98% pass rate on state licensure exams as reported by the United States Department of Education.

Screening

Students/Teacher Candidates must qualify and complete a screening process for acceptance into the SoE Teacher Licensure Program. The application is completed and submitted directly to the School of Education. General education or major courses can be taken prior to screening. Only screened students are permitted to register for advanced professional education courses.

Students learn about and initiate the screening process during introductory courses (e.g., EDU 215: Field 1 Theory and Practice in Elementary Education) in their chosen program of study in the School of Education. As part of the screening process, students are required to meet all the general CCU admissions requirements. Students are also required to maintain a "clear" Colorado and Federal Bureau of Investigation criminal background status throughout the entire CCU program. Additional screening requirements apply. Further information is available from the School of Education.

Course Requirements

Students must complete courses in three categories: 1) CCU General Education, 2) the Major (Liberal Arts, English, Mathematics, General Science, History, Music, or Teaching and Learning), and 3) SoE Professional Education Courses.

Please note the School of Education offers licensure programs approved by the Colorado Department of Education and the Colorado Department of Higher Education. We are accountable and responsive to these outside accreditation bodies. Thus, on occasion, a specific major, professional course requirement, or policy may be changed from that listed in this catalog to meet dynamic higher education teacher preparation requirements, and to assure our teacher candidates are prepared with best practices.

Student Teaching

During Student Teaching, Teacher Candidates/Student Teachers must be assessed and demonstrate proficiency on all Colorado Teacher Quality Standards; standards-aligned criteria of an Action Research Project; document a positive impact on the academic achievement of K-6/7-12/K-12 students; and demonstrate proficiency on all SoE Professional Dispositions. Student Teachers who do not maintain these standards/requirements may be dismissed from the program, or may not be recommended for teacher licensure. Student Teachers may retake the Student Teaching internship semester to achieve comprehensive proficiency on the Colorado Teacher Quality Standards and SoE Professional Dispositions with permission from the SoE Dean.

The School of Education recommends that Teacher Candidates take and pass their designated Colorado teacher licensure PRAXIS exam(s) three semesters prior to the Student Teaching Internship. However, Teacher Candidates may extend this deadline to the semester prior to Student Teaching. Taking the PRAXIS exam early in the program allows teacher candidates time to retake the exam(s) should a passing score not be reached. A passing score on the requisite teacher licensure PRAXIS exam(s) is a SoE graduation requirement. The SoE is not permitted by the Colorado

Department of Education (CDE) to recommend program graduates for teacher licensure, or sign program verification forms unless all CCU graduation requirements are met and the student has acquired a passing score on all PRAXIS licensure exams as required by the CDE. Current PRAXIS exam requirements may be found on the Colorado Department of Education website here: <http://www.cde.state.co.us/cdeprof/endorsementrequirements>

Progress and SoE Policies

Students are required to meet the School of Education graduation requirement of a cumulative 2.50 GPA or higher, across all courses taken at Colorado Christian University. In addition, students are required to meet the cumulative 2.50 GPA or higher across all CCU courses to meet the prerequisite course enrollment requirement for Student Teaching.

Students must demonstrate patterns of professional behavior/dispositions appropriate for an individual preparing for a position of public trust. The School of Education has a documented process for tracking and assessing professional behavior/dispositions. All teacher candidates receive an overview of the professional behavior/dispositions expectations and process by SoE faculty. Teacher Candidates who fail to maintain professional dispositions, or fail to resolve identified issues may be placed on a professional development plan or dismissed from the program.

Students who are conditionally admitted may not enroll in Field 1 during their first semester at CCU. Exceptions may be made by the SoE Dean's Office.

Students on CCU Academic Probation may not enroll in clinical or field courses (e.g., Field 1, Field 2, Student Teaching, Reading and Math clinics, Music courses with field components, etc.).

Students who do not receive passing grades for the field component/activities of a course will not receive a passing grade for the course.

Students who receive a grade of D+, D, D- or an F in a course within the major or SoE professional core will be required to re-take the course in order to achieve a grade of C- or higher.

Students are not permitted to take courses from CCU's College of Adult and Graduate Studies (CAGS) in the major or the SoE professional core without prior approval from the SoE Dean's Office. Exceptions include instances where CAGS courses are required in the CUS School of Education programs.

Due to the responsibilities of Student Teaching, School of Education policy restricts students from holding an outside job either full or part-time, paid or volunteer, during the Student Teaching semester. Extra-curricular activities on the CCU campus may also be restricted.

Students may not submit passing CLEP exam scores for MAT 202: Teaching Mathematics in the Elementary Classroom 1 or MAT 402: Teaching Elementary Mathematics 2: Math Clinic because these two courses are pedagogy courses.

School of Education Recommendations to the Colorado Department of Education

To be recommended for teacher licensure, a student/Teacher Candidate must complete the following:

- Completion of all required General Education, Major and SoE professional courses with a cumulative GPA of 2.50 or higher;
- Successful Student Teaching - including evidence of assessed proficiency on all Colorado Teacher Quality Standards; assessed proficiency on the standards-aligned Action Research Project; documentation of impacting K-6/7-12/K-12 student academic achievement through classroom instruction; and demonstrated proficiency on all SoE Professional Dispositions;
- Completion of the CCU chapel requirement, ministry hours requirement, and all other CCU graduation requirements;
- Completion of the Teacher Candidate Portfolio Defense;
- Documented 800-850+ hours of K-6/7-12/K-12 clinical practice in a partnership school with all required Lesson Observations implemented;
- Passing score(s) on the Colorado Department of Education's required PRAXIS licensure test(s) in the Teacher Candidate's licensure content/endorsement area;
- Colorado Department of Education (CDE) application for licensure including the submission of CDE's Approved Program Verification Form verifying completion of all School of Education teacher licensure program requirements.

Association of Christian Schools International (ACSI) Teacher Certification

All students/Teacher Candidates graduating from the SoE teacher licensure programs are eligible to apply for Association of Christian Schools International (ACSI) teacher certification.

Bachelor's Degrees

Elementary Licensure Program: B.A. Liberal Arts (CUS)

The Elementary Education Licensure Program graduates earn a Bachelor of Arts in Liberal Arts. The Liberal Arts Major is an essential component due to the interdisciplinary character and comprehensive coverage of academic knowledge and skills elementary teachers need to promote student learning and success. The elementary licensure program is 122 credit hours and offers supervised clinical practice experiences in diverse school settings. Upon program completion, the teacher candidate will have met all requirements for an institutional recommendation for an Initial Colorado Teacher License with an endorsement in K-6 Elementary Education and an endorsement in K-12 Culturally and Linguistically Diverse Education.

Students in the Elementary Education Licensure program may select the Classical Elementary Education track, giving students the opportunity to study traditional approaches to education rooted in western civilization and culture. Information on the Classical Elementary Education program requirements is listed below.

CCU graduates of the Elementary Licensure Program earn four CCU Areas of Emphasis: Biblical Studies, English, Reading, and Social Studies.

The Elementary Education Licensure Program requires the following 122 credit hours, including 850+ Clinical Practice Hours in schools:

General Education (27 credit hours)

Liberal Arts Major Core (38 credit hours)

Elementary Education Professional Core (57 credit hours)

General Education Requirements (27 credit hours)

Arts and Humanities (3 credit hours)

PHL 202 - Introduction to Philosophy

(3) This course is a survey of many major issues raised over the two-and-a-half millennia of western philosophy. With an emphasis on historical context and development, as well as philosophy's relationship to Christian thought, this course challenges students to critically explore philosophical questions and introduce them to the great tradition of intellectual inquiry. Special attention will be given to the subjects of truth and knowledge, reality and appearance, mind and body, right and wrong, beauty and the existence of God.

When Offered

Fall and summer semesters.

Biblical Studies (12 credit hours)

HIS 111 - Old Testament

(3) This course provides an introduction to the theological, historical, and literary features of the Old Testament, tracing God's covenant relationship with ancient Israel. Special consideration will be given to the divine covenants and Messianic prophecies of the Old Testament.

When Offered

Every spring semester.

Cross-listed BIB 111.

HUM 114 - New Testament

(3) This course provides an introduction to the theological, historical, and literary features of the New Testament, tracing the presentation of the gospel message through historical, epistolary, and apocalyptic genres. Special consideration will be given to the life of Christ and missionary journeys of the Apostle Paul.

When Offered

Every fall semester.

Cross-listed BIB 114.

PHL 315 - World Religions and Systems of Belief

(3) This course introduces an academic study of religion and what is called worldview, supplemented by an overview of some of the major tenets of Christianity; this is then followed by a survey of several other religious traditions and competing philosophies.

Prerequisites: PHL 202, THE 201.

When Offered

Winter and spring semesters.

THE 201 - Introduction to Theology

(3) This course covers basic issues, themes, and categories of Christian theology, including the doctrines of Scripture, God, humanity, Christ, salvation, the church, and last things. This course encourages students to better know, trust, love, and live by God's Word.

Prerequisites: BIB 111, BIB 114.

When Offered

Fall, winter, spring, and summer semesters.

Communication (6 credit hours)

COM 103 - Public Speaking

(3) Introductory principles of communication emphasizing public speaking. Aspects of verbal and nonverbal delivery, speech organization, and the effective use of supporting material and presentational aids are addressed. Students give several speeches designed to better equip them for future speaking endeavors

When Offered

Fall and spring semesters.

ENG 102 - English Composition

(3) Effective use of the English language and exploration of rhetorical modes in written composition. Review of structure, purpose, and audience awareness in developing essays.

Prerequisites: ACT and/or SAT scores will be used to determine placement in either ENG 102 or ENG 102 (Basic).

Notes: Course must be completed first semester at CCU.

When Offered

Fall and spring semester.

ENG 105 - Advanced English Composition

(3) Advanced English composition, research methods, and literary study for invited exceptional students. Focus on both the study of literature and research writing.

Prerequisites: One of the following:

- AP English Language and Composition
 - A score of 4 is the minimum prerequisite for enrollment in ENG 105. A student who scores a 4 or 5 will automatically enroll a student in ENG 105 instead of ENG 102 and/or ENG 201.
- AP English Literature and Composition
 - A score of 4 is the minimum prerequisite for enrollment in ENG 105. A student who scores a 4 or 5 will automatically enroll a student in ENG 105 instead of ENG 102 and/or ENG 201.
- Score of 30 or above on the verbal section of the ACT exam.
- Score of 700 or above on the verbal section of the SAT exam.
- By invitation of the English department.

Notes: Fulfills general education requirements for both ENG 102 and ENG 201.

When Offered

Every fall semester.

Integrative Studies (3 credit hours)

INT 101 - First-Year Integration

(3) Think critically, grow spiritually, and change the world. Based on the premise that we as Christians are called to be rational creatures, relational creatures, and responsible creatures, FYI is an integrative study of foundational Christian principles with other disciplines. Examination and discussion of problems and contemporary issues - academic, personal, and social - facing students in their pursuit of success in college and life. Please see the First-Year Integration (FYI) page

for specific information about this required course.

When Offered

Fall and spring semesters.

Please see the First-Year Integration (FYI) page for specific information about the required INT 101 course.

Social Sciences (3 credit hours)

HIS 185 - Western Civilization

(3) The spiritual values and intellectual achievements of ancient Israel, Greece, Rome, the Middle Ages, the Renaissance, and Reformation that gave birth to the modern world.

When Offered

Every fall semester.

Liberal Arts Major Core (38 credit hours)

BIO 101 - Biological Life

(3) An introduction to the field of biology. Life processes common to plants and animals, cell structure and function, and an introduction to genetics, biochemistry, and development.

Corequisites: BIO 111 (Lab).

Notes: This course is recommended for non-Biological Science majors, including Elementary Education Liberal Arts majors.

When Offered

Every fall semester.

BIO 111 - Biological Life Lab

(1) Corequisite Lab for BIO 101.

Corequisites: BIO 101.

Lab/Lecture Hours

Three-hour lab.

Fee

Lab fees apply.

When Offered

Every fall semester.

ENG 203 - American Literature II

(3) Representative stories, poems, and drama in American literature from the Civil War to the present. Nontraditional ethnic and women's voices included. Emphasis on interpretation and criticism of American literature.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every spring semester.

ENG 340 - American Ethnic Literatures

(3) Fiction, poetry, and nonfiction by major writers from American ethnic backgrounds (African, Asian, Jewish, Hispanic/Latino, and Native American, and others) are analyzed, and literary criticism on American ethnic literary concerns is integrated into analysis of primary texts.

Prerequisites: One of the following: ENG 201, ENG 202, ENG 203, ENG 204 or ENG 205.

When Offered

Even fall semesters.

ENG 360 - World Literature

(3) Multinational works of contemporary literature in English translation. Central human dilemmas and the role of literature in other societies.

Prerequisites: One of the following: ENG 201, ENG 202, ENG 203, ENG 204 or ENG 205.

When Offered

Odd fall semesters.

HUM 120 - Introduction to the Arts

(3) Introduction to our humanity through hands-on experience in the arts (music, visual arts, poetry, story, play, and dance). Aesthetic and artistic values in the broader context of human cultural development, responsibility, and joy.

Notes: This course satisfies the general education fine arts requirement for most students, and is the required fine arts course for education majors. It is recommended for all students with a general interest in the fine arts. Students with a special interest in theatre should see THR 112. Students with a special interest in music should see MUS 110.

Note: HUM 120 does not satisfy the fine arts requirement for music majors or minors.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

MUS 110 - Musical Perspectives

(3) An exploration of music in the broader context of culture and the arts; personal musical experiences through listening and doing; and developing the ability to discern aesthetic excellence. Included is an introduction to the elements of music and how music works, the development of a Christian perspective on the arts, a broad survey of representative selections of Western music, and a focused overview of non-western/world music.

Notes: This course satisfies the general education fine arts requirement for most students. It is recommended for all students, especially those with an interest in music, and is the required fine arts course for all music majors and minors. Students with a special interest in Theatre should see THR 112.

Note: MUS 110 does not satisfy the fine arts requirement for education majors.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

THR 112 - Theatre Appreciation

(3) An introduction to the theatre world and all its aspects: the people who are active in that world, the many kinds of work that are created, the sensations and ideas we receive from those works, and the ways the life of theatre has transmitted across many times and place.

Notes: This course satisfies the general education fine arts requirement for most students. It is recommended for all students, especially those with an interest in theatre. Students with a special interest in music should see MUS 110.

Note: THR 112 does not satisfy the fine arts requirement for music majors or minors, or education majors.

When Offered

Fall and spring semesters.

PHY 103 - Physical Geology

(3) Physical/ chemical makeup of Earth and processes giving rise to its present form.

Corequisites: PHY 104.

Lab/Lecture Hours

Three credit lecture, one-credit lab, two required field trips.

When Offered

Every fall semester.

PHY 104 - Physical Geology Lab

(1) Lab.

Corequisites: PHY 103.

Lab/Lecture Hours

One credit lab.

Fee

Lab fees apply.

When Offered

Every fall semester.

ECO 215 - Economics

(3) Economics is about scarcity and choice. Students in this course study how people, firms, governments, and nations interact in alternative economic systems to make choices about allocating scarce resources. In addition, students learn to evaluate these systems, understand macroeconomic monetary and fiscal policies, and engage in policy debates.

When Offered

Fall and spring semesters.

ENG 201 - Introduction to Literature

(3) Understand, experience, and evaluate poetry, short fiction, essays, and drama genres, both American and multinational.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Fall and spring semesters.

EPS 340 - Educational Child Psychology and Development

(3) The educator's role in recognizing, evaluating and guiding the cognitive, physical, psychosocial and emotional growth patterns and characteristics from infants to early, middle and late childhood, as well as adolescence.

When Offered

Fall and spring semesters.

GEO 270 - World Geography

(3) Introduces students to key concepts in geography and mapping: explores political, economic, and cultural geography, as well as physical geography and the environment.

When Offered

Every spring semester.

HIS 205 - American History

(3) Principles of the founding and the political, economic, intellectual, cultural, and religious traditions that have shaped America.

When Offered

Every spring semester.

HUM 305 - Children's Literature in Education

(3) Use of literary materials for children from preschool through middle school (4-14 years of age). History, genres, and classroom applications.

When Offered

Every fall and spring semesters.

MAT 112 - Mathematics for Liberal Arts

(3) This course introduces some of the important ideas in mathematics and how they can be applied in everyday life situations, solving a wide range of practical problems. Topics include sets, logic, history of numeration, number systems and their properties, number patterns, counting principles, probability, statistics, graph theory, personal finance, and voting methods.

Notes: Students with higher level mathematics skills (i.e. ACT MAT above 20 and SAT MATH above 520) are discouraged from taking this class. Only students who do not place into MAT 111 - College Algebra should enroll in MAT 112 - Mathematics for Liberal Arts.

When Offered

Fall, spring and summer semesters.

POL 207 - Introduction to American Politics

(3) Introduction to political science and American government to prepare students to be effective citizens.

When Offered

Every fall and spring semester.

Elementary Education Professional Core (57 credit hours)

CLD 205 - Culturally Responsive Pedagogy

(3) This course focuses on theories, concepts, research and pedagogical techniques related to culturally-responsive teaching, English language learning, language and content acquisition, teacher-student relationships, and building school-community partnerships with culturally diverse populations.

Prerequisites: Sophomore standing.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

CLD 300 - Foundations of English Language Education

(3) This course provides an overview of historical, cultural, legal, sociolinguistic, and political contexts of teaching culturally and linguistically diverse learners in diverse school settings. Content also includes the study of the origins of the English language, grammatical structures, dialects, and connection of heritage language to learning English. Familial influences and communication issues are also explored.

Prerequisites: CLD 205.

When Offered

Every fall and spring semesters.

CLD 425 - First and Second Language Acquisition

(3) This course focuses on how students acquire language (first and second language acquisition) and how language acquisition theory can help support language learner development in order to achieve academic success.

Prerequisites: CLD 205.

When Offered

Every fall and spring semester.

EDU 214 - Field 1 Theory and Practice in Elementary Education

(3) Field 1 is the first of a four-semester, professional field-based experience within a CCU partnership school. The focus is on educational theory, as well as the development and implementation of standards-based lessons under university and school-based teacher supervision. Teacher candidates complete hours toward the clinical program hour minimum in addition to on-campus seminars.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

EDU 250 - Field 2 Elementary Classroom and Behavior Management

(3) Field 2 is the second of a four-semester, professional field-based experience within a CCU partnership school. The focus is on implementation of research-based methods related to classroom and behavior management under university and school-based teacher supervision. Teacher candidates complete hours toward the required clinical program hour minimum in addition to on-campus seminars.

Prerequisites: EDU 214 or SPD 213; Sophomore standing. School of Education major or minor students only.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

EDU 334 - Teaching Science and Social Studies in the Elementary Classroom

(3) This course focuses on the instructional methods, curriculum and assessments necessary to effectively teach social studies and science to K-6 students. Emphasis is on the integration of curriculum, Colorado Academic Standards, and

effective, research-based teaching practices in science and social studies. Teacher Candidates complete the clinical practice requirements of this course, concurrently, during their EDU 461 Field 3 school placement.

Prerequisites: EDU 250.

Corequisites: EDU 461.

When Offered

Every fall and spring semesters.

EDU 340 - Assessment of Learning and Critical Thinking

(3) The role of assessment and evaluation in critical thinking development and the instructional decision-making process is explored, with an emphasis on practical application to student learning outcomes, and increasing achievement for students from diverse backgrounds. Performance-based assessment, assessment procedures, protocols, and other assessment practices will be analyzed.

Prerequisites: Sophomore standing.

When Offered

Fall and spring semesters.

EDU 360 - Classical Education Pedagogy in the 21st Century

(3) This course explores the traditional approach to education rooted in western civilization and culture, employing the historic curriculum and pedagogy of the seven liberal arts in order to cultivate men and women characterized by truth, wisdom, virtue, and eloquence. This course may include a field-based experience.

Prerequisites: Sophomore standing.

When Offered

Every fall and spring semesters.

EDU 461 - Elementary Student Teaching and Seminar 1

(3) This course is the third of a four-semester, professional field-based experience within a CCU partnership school. The focus is on implementation of research-based methods in a K-6 classroom under university and school-based teacher supervision. Teacher candidates implement lessons in reading, writing, mathematics, science and social studies aligned to state/professional standards. Teacher candidates complete hours toward the required clinical program hour minimum in addition to on-campus seminars

Prerequisites: EDU 250, EDU 340, RDG 447, RDG 457. Student must have a minimum cum GPA of 2.50

Corequisites: EDU 334, MAT 402.

Notes: Course fees apply.

When Offered

Every fall and spring semester.

EDU 471 - Elementary Student Teaching and Seminar 2

(12) This course is the culminating, professional experience within a CCU partnership school. Teacher Candidates complete a full-time teaching experience under guidance of a licensed School-Based Teacher and CCU Supervisor. Teacher candidates implement lessons and complete action research via instruction aligned to state/professional standards. Teacher candidates complete the clinical program hour minimum in addition to on-campus seminars.

Prerequisites: All degree program courses.

Fee

Fees apply.

When Offered

Every fall and spring semester.

MAT 202 - Teaching Mathematics in the Elementary Classroom 1

(3) This course is the first of two mathematics courses focused on the instructional methods necessary to effectively teach numbers and operations, algebra, geometry and data analysis to K-6 culturally, linguistically and academically diverse students.

Notes: This course does not meet general education requirements in Mathematics.

When Offered

Fall and spring semesters.

MAT 402 - Teaching Elementary Mathematics 2: Math Clinic

(3) This course is the second of two mathematics courses focused on the instructional methods necessary to effectively teach numbers and operations, algebra, geometry and data analysis to culturally, linguistically and academically diverse students. Teacher Candidates complete the clinical practice requirements of this course during their concurrent EDU 461 - Elementary Student Teaching and Seminar 1 or SPD 416 - Special Education Student Teaching and Seminar 1 school placement. In addition, this course includes a campus-based math clinic where teacher candidates teach mathematical concepts to upper elementary students from local partnership schools.

Prerequisites: EDU 250 or EDU 260; MAT 202.

Corequisites: EDU 461 or SPD 416.

Fee

Course fees apply.

When Offered

Every fall and spring semesters.

RDG 324 - Teaching Content Literacy and Writing

(3) This course is one in a suite of four required literacy courses in the Elementary and Special Education programs. The main focus of this course is on research-based methodologies to teach the structures and processes of writing to academically, culturally and linguistically diverse K-6 learners. Methodologies to effectively teach vocabulary, comprehension and content literacy are also explored.

Prerequisites: EDU 214 or SPD 213.

When Offered

Every fall and spring semester.

RDG 447 - Diverse Reader 1: Instruction for Developing Readers

(3) This course focuses on scientifically-based methods of teaching reading to culturally and linguistically diverse elementary students who are "at-risk" or who have a learning disability. Phonemic Awareness, Phonics, Reading Fluency, English language structures and Sheltered Instruction are analyzed. An intensive phonics unit is developed. Teacher candidates complete hours toward the 830 clinical hour minimum in addition to on-campus seminars.

Corequisites: RDG 457. (Except for Teaching and Learning majors; please see advisor for enrolling in this course.)

When Offered

Every fall and spring semester.

RDG 457 - Diverse Reader 2: Reading Clinic

(3) Teacher candidates will be trained in an evidence-based reading intervention program aligned to findings from today's reading neuroscientists, then implement the program with diverse 3rd, 4th, and 5th grade students from Denver Public Schools and Jefferson County Schools under the supervision of a CCU Supervisor.

Prerequisites: Junior Standing.

Fee

Course fees apply.

When Offered

Every fall and spring semester.

SPD 210 - Introduction to Special Education

(3) Understanding of the integration of exceptional children and adolescents (K-12) into general educational environments. Development of an understanding of students with special needs. Designing a learning environment to include assessment and adaptation of instruction to maximize student learning potential.

When Offered

Every fall and spring semester.

Classical Elementary Education Track

Elementary education licensure students have the option of completing the Classical Elementary Education Track. This unique track provides students the opportunity to study traditional approaches to education rooted in western civilization and culture, employing the historic curriculum and pedagogy of the seven liberal arts in order to cultivate men and women

characterized by Truth, wisdom, virtue, and eloquence. Students also choose 2 philosophy courses as part of this track. This track does not yield eligibility to apply for a K-12 Culturally and Linguistically Diverse Education endorsement.

The Classical Elementary Education Licensure program, requires the following 122 credit hours, including 850+ Clinical Practice Hours in schools:

General Education (27 credit hours)

Liberal Arts Major Core (44 credit hours)

Elementary Classical Education Professional Core (51 credit hours)

In addition to the General Education core courses listed above, students in the Classical Elementary Education Licensure program take the following Liberal Arts Major and Classical Elementary Education Professional core classes.

Liberal Arts Major, Classical Education Core (44 credit hours)

BIO 101 - Biological Life

(3) An introduction to the field of biology. Life processes common to plants and animals, cell structure and function, and an introduction to genetics, biochemistry, and development.

Corequisites: BIO 111 (Lab).

Notes: This course is recommended for non-Biological Science majors, including Elementary Education Liberal Arts majors.

When Offered

Every fall semester.

BIO 111 - Biological Life Lab

(1) Corequisite Lab for BIO 101.

Corequisites: BIO 101.

Lab/Lecture Hours

Three-hour lab.

Fee

Lab fees apply.

When Offered

Every fall semester.

ECO 215 - Economics

(3) Economics is about scarcity and choice. Students in this course study how people, firms, governments, and nations interact in alternative economic systems to make choices about allocating scarce resources. In addition, students learn to evaluate these systems, understand macroeconomic monetary and fiscal policies, and engage in policy debates.

When Offered

Fall and spring semesters.

ENG 201 - Introduction to Literature

(3) Understand, experience, and evaluate poetry, short fiction, essays, and drama genres, both American and multinational.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Fall and spring semesters.

ENG 203 - American Literature II

(3) Representative stories, poems, and drama in American literature from the Civil War to the present. Nontraditional ethnic and women's voices included. Emphasis on interpretation and criticism of American literature.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every spring semester.

ENG 340 - American Ethnic Literatures

(3) Fiction, poetry, and nonfiction by major writers from American ethnic backgrounds (African, Asian, Jewish, Hispanic/Latino, and Native American, and others) are analyzed, and literary criticism on American ethnic literary concerns is integrated into analysis of primary texts.

Prerequisites: One of the following: ENG 201, ENG 202, ENG 203, ENG 204 or ENG 205.

When Offered

Even fall semesters.

ENG 360 - World Literature

(3) Multinational works of contemporary literature in English translation. Central human dilemmas and the role of literature in other societies.

Prerequisites: One of the following: ENG 201, ENG 202, ENG 203, ENG 204 or ENG 205.

When Offered

Odd fall semesters.

EPS 340 - Educational Child Psychology and Development

(3) The educator's role in recognizing, evaluating and guiding the cognitive, physical, psychosocial and emotional growth patterns and characteristics from infants to early, middle and late childhood, as well as adolescence.

When Offered

Fall and spring semesters.

GEO 270 - World Geography

(3) Introduces students to key concepts in geography and mapping: explores political, economic, and cultural geography, as well as physical geography and the environment.

When Offered

Every spring semester.

HIS 205 - American History

(3) Principles of the founding and the political, economic, intellectual, cultural, and religious traditions that have shaped America.

When Offered

Every spring semester.

HUM 120 - Introduction to the Arts

(3) Introduction to our humanity through hands-on experience in the arts (music, visual arts, poetry, story, play, and dance). Aesthetic and artistic values in the broader context of human cultural development, responsibility, and joy.

Notes: This course satisfies the general education fine arts requirement for most students, and is the required fine arts course for education majors. It is recommended for all students with a general interest in the fine arts. Students with a special interest in theatre should see THR 112. Students with a special interest in music should see MUS 110.

Note: HUM 120 does not satisfy the fine arts requirement for music majors or minors.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

MUS 110 - Musical Perspectives

(3) An exploration of music in the broader context of culture and the arts; personal musical experiences through listening and doing; and developing the ability to discern aesthetic excellence. Included is an introduction to the elements of music and how music works, the development of a Christian perspective on the arts, a broad survey of representative selections of Western music, and a focused overview of non-western/world music.

Notes: This course satisfies the general education fine arts requirement for most students. It is recommended for all students, especially those with an interest in music, and is the required fine arts course for all music majors and minors. Students with a special interest in Theatre should see THR 112.

Note: MUS 110 does not satisfy the fine arts requirement for education majors.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

THR 112 - Theatre Appreciation

(3) An introduction to the theatre world and all its aspects: the people who are active in that world, the many kinds of work that are created, the sensations and ideas we receive from those works, and the ways the life of theatre has transmitted across many times and place.

Notes: This course satisfies the general education fine arts requirement for most students. It is recommended for all students, especially those with an interest in theatre. Students with a special interest in music should see MUS 110.

Note: THR 112 does not satisfy the fine arts requirement for music majors or minors, or education majors.

When Offered

Fall and spring semesters.

HUM 305 - Children's Literature in Education

(3) Use of literary materials for children from preschool through middle school (4-14 years of age). History, genres, and classroom applications.

When Offered

Every fall and spring semesters.

MAT 112 - Mathematics for Liberal Arts

(3) This course introduces some of the important ideas in mathematics and how they can be applied in everyday life situations, solving a wide range of practical problems. Topics include sets, logic, history of numeration, number systems and their properties, number patterns, counting principles, probability, statistics, graph theory, personal finance, and voting methods.

Notes: Students with higher level mathematics skills (i.e. ACT MAT above 20 and SAT MATH above 520) are discouraged from taking this class. Only students who do not place into MAT 111 - College Algebra should enroll in MAT 112 - Mathematics for Liberal Arts.

When Offered

Fall, spring and summer semesters.

PHY 103 - Physical Geology

(3) Physical/ chemical makeup of Earth and processes giving rise to its present form.

Corequisites: PHY 104.

Lab/Lecture Hours

Three credit lecture, one-credit lab, two required field trips.

When Offered

Every fall semester.

PHY 104 - Physical Geology Lab

(1) Lab.

Corequisites: PHY 103.

Lab/Lecture Hours

One credit lab.

Fee

Lab fees apply.

When Offered

Every fall semester.

POL 207 - Introduction to American Politics

(3) Introduction to political science and American government to prepare students to be effective citizens.

When Offered

Every fall and spring semester.

Choose 2 of the following courses:

PHL 240 - Logic and Critical Thinking

(3) This course includes the fundamentals of logic, induction and deduction, logical fallacies, and sources of authority because the ability to think critically and reason well is at the heart of all philosophical endeavors. Emphases will include the application of critical thinking to real-world situations, such as social media, and the relationship between reason and faith.

When Offered

Every odd fall semester.

PHL 301 - Ethics

(3) This course introduces students to the major tenets of Christian natural law as well as the ethical theories of deontology, utilitarianism, and virtue ethics. Major concepts such as natural rights, virtue, and happiness are explored and then applied to individual cases relating to themes such as censorship, cloning, euthanasia, capital punishment, and social distancing.

Prerequisites: PHL 202.

When Offered

Every even spring semester.

PHL 340 - Beauty, Desire, and Wisdom

(3) Why is there beauty in the world? What compels us to pursue it in the forms of art, relationships, and the things of the world around us? This course helps students understand the important but troubled relationship between beauty, desire, and the need for guiding wisdom.

Prerequisites: PHL 202.

When Offered

Every even fall semesters.

PHL 360 - Philosophy of Mind, Soul, and the Human Person

(3) This course examines classical, Christian, and contemporary issues in the philosophy of mind and what it means to be human. Particular emphasis is given to the nature of the soul and recent attempts to redefine the human person.

Prerequisites: PHL 202.

When Offered

Every odd spring semesters.

Classical Elementary Education Professional Core (51 credit hours)

CLD 205 - Culturally Responsive Pedagogy

(3) This course focuses on theories, concepts, research and pedagogical techniques related to culturally-responsive teaching, English language learning, language and content acquisition, teacher-student relationships, and building school-community partnerships with culturally diverse populations.

Prerequisites: Sophomore standing.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

EDU 214 - Field 1 Theory and Practice in Elementary Education

(3) Field 1 is the first of a four-semester, professional field-based experience within a CCU partnership school. The focus is on educational theory, as well as the development and implementation of standards-based lessons under university and school-based teacher supervision. Teacher candidates complete hours toward the clinical program hour minimum in addition to on-campus seminars.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

EDU 250 - Field 2 Elementary Classroom and Behavior Management

(3) Field 2 is the second of a four-semester, professional field-based experience within a CCU partnership school. The focus is on implementation of research-based methods related to classroom and behavior management under university and school-based teacher supervision. Teacher candidates complete hours toward the required clinical program hour minimum in addition to on-campus seminars.

Prerequisites: EDU 214 or SPD 213; Sophomore standing. School of Education major or minor students only.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

EDU 334 - Teaching Science and Social Studies in the Elementary Classroom

(3) This course focuses on the instructional methods, curriculum and assessments necessary to effectively teach social studies and science to K-6 students. Emphasis is on the integration of curriculum, Colorado Academic Standards, and effective, research-based teaching practices in science and social studies. Teacher Candidates complete the clinical practice requirements of this course, concurrently, during their EDU 461 Field 3 school placement.

Prerequisites: EDU 250.

Corequisites: EDU 461.

When Offered

Every fall and spring semesters.

EDU 340 - Assessment of Learning and Critical Thinking

(3) The role of assessment and evaluation in critical thinking development and the instructional decision-making process is explored, with an emphasis on practical application to student learning outcomes, and increasing achievement for students from diverse backgrounds. Performance-based assessment, assessment procedures, protocols, and other assessment practices will be analyzed.

Prerequisites: Sophomore standing.

When Offered

Fall and spring semesters.

EDU 360 - Classical Education Pedagogy in the 21st Century

(3) This course explores the traditional approach to education rooted in western civilization and culture, employing the historic curriculum and pedagogy of the seven liberal arts in order to cultivate men and women characterized by truth, wisdom, virtue, and eloquence. This course may include a field-based experience.

Prerequisites: Sophomore standing.

When Offered

Every fall and spring semesters.

EDU 461 - Elementary Student Teaching and Seminar 1

(3) This course is the third of a four-semester, professional field-based experience within a CCU partnership school. The focus is on implementation of research-based methods in a K-6 classroom under university and school-based teacher supervision. Teacher candidates implement lessons in reading, writing, mathematics, science and social studies aligned to state/professional standards. Teacher candidates complete hours toward the required clinical program hour minimum in addition to on-campus seminars

Prerequisites: EDU 250, EDU 340, RDG 447, RDG 457. Student must have a minimum cum GPA of 2.50

Corequisites: EDU 334, MAT 402.

Notes: Course fees apply.

When Offered

Every fall and spring semester.

EDU 471 - Elementary Student Teaching and Seminar 2

(12) This course is the culminating, professional experience within a CCU partnership school. Teacher Candidates complete a full-time teaching experience under guidance of a licensed School-Based Teacher and CCU Supervisor. Teacher candidates implement lessons and complete action research via instruction aligned to state/professional

standards. Teacher candidates complete the clinical program hour minimum in addition to on-campus seminars.

Prerequisites: All degree program courses.

Fee

Fees apply.

When Offered

Every fall and spring semester.

MAT 202 - Teaching Mathematics in the Elementary Classroom 1

(3) This course is the first of two mathematics courses focused on the instructional methods necessary to effectively teach numbers and operations, algebra, geometry and data analysis to K-6 culturally, linguistically and academically diverse students.

Notes: This course does not meet general education requirements in Mathematics.

When Offered

Fall and spring semesters.

MAT 402 - Teaching Elementary Mathematics 2: Math Clinic

(3) This course is the second of two mathematics courses focused on the instructional methods necessary to effectively teach numbers and operations, algebra, geometry and data analysis to culturally, linguistically and academically diverse students. Teacher Candidates complete the clinical practice requirements of this course during their concurrent EDU 461 - Elementary Student Teaching and Seminar 1 or SPD 416 - Special Education Student Teaching and Seminar 1 school placement. In addition, this course includes a campus-based math clinic where teacher candidates teach mathematical concepts to upper elementary students from local partnership schools.

Prerequisites: EDU 250 or EDU 260; MAT 202.

Corequisites: EDU 461 or SPD 416.

Fee

Course fees apply.

When Offered

Every fall and spring semesters.

RDG 324 - Teaching Content Literacy and Writing

(3) This course is one in a suite of four required literacy courses in the Elementary and Special Education programs. The main focus of this course is on research-based methodologies to teach the structures and processes of writing to academically, culturally and linguistically diverse K-6 learners. Methodologies to effectively teach vocabulary, comprehension and content literacy are also explored.

Prerequisites: EDU 214 or SPD 213.

When Offered

Every fall and spring semester.

RDG 447 - Diverse Reader 1: Instruction for Developing Readers

(3) This course focuses on scientifically-based methods of teaching reading to culturally and linguistically diverse elementary students who are "at-risk" or who have a learning disability. Phonemic Awareness, Phonics, Reading Fluency, English language structures and Sheltered Instruction are analyzed. An intensive phonics unit is developed. Teacher candidates complete hours toward the 830 clinical hour minimum in addition to on-campus seminars.

Corequisites: RDG 457. (Except for Teaching and Learning majors; please see advisor for enrolling in this course.)

When Offered

Every fall and spring semester.

RDG 457 - Diverse Reader 2: Reading Clinic

(3) Teacher candidates will be trained in an evidence-based reading intervention program aligned to findings from today's reading neuroscientists, then implement the program with diverse 3rd, 4th, and 5th grade students from Denver Public Schools and Jefferson County Schools under the supervision of a CCU Supervisor.

Prerequisites: Junior Standing.

Fee

Course fees apply.

When Offered

Every fall and spring semester.

SPD 210 - Introduction to Special Education

(3) Understanding of the integration of exceptional children and adolescents (K-12) into general educational environments. Development of an understanding of students with special needs. Designing a learning environment to include assessment and adaptation of instruction to maximize student learning potential.

When Offered

Every fall and spring semester.

Elementary Licensure Emphases and Endorsements

CCU Graduates completing the Elementary Licensure Program earn four CCU areas of emphasis:

- Biblical Studies
- English
- Reading Literacy
- Social Studies

CCU Graduates completing the Elementary Licensure program earn an institutional recommendation for an Initial Colorado Teacher License with the following two endorsements:

- Elementary Education
- Culturally and Linguistically Diverse Education

CCU Graduates completing the Classical Elementary Education Licensure program earn an institutional recommendation for an Initial Colorado Teacher License with the following endorsement:

- Elementary Education

Elementary Program Courses With Corequisites and/or Prerequisites**EDU 250 - Field 2 Elementary Classroom and Behavior Management**

(3) Field 2 is the second of a four-semester, professional field-based experience within a CCU partnership school. The focus is on implementation of research-based methods related to classroom and behavior management under university and school-based teacher supervision. Teacher candidates complete hours toward the required clinical program hour minimum in addition to on-campus seminars.

Prerequisites: EDU 214 or SPD 213; Sophomore standing. School of Education major or minor students only.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

EDU 334 - Teaching Science and Social Studies in the Elementary Classroom

(3) This course focuses on the instructional methods, curriculum and assessments necessary to effectively teach social studies and science to K-6 students. Emphasis is on the integration of curriculum, Colorado Academic Standards, and effective, research-based teaching practices in science and social studies. Teacher Candidates complete the clinical practice requirements of this course, concurrently, during their EDU 461 Field 3 school placement.

Prerequisites: EDU 250.

Corequisites: EDU 461.

When Offered

Every fall and spring semesters.

EDU 340 - Assessment of Learning and Critical Thinking

(3) The role of assessment and evaluation in critical thinking development and the instructional decision-making process is explored, with an emphasis on practical application to student learning outcomes, and increasing achievement for students from diverse backgrounds. Performance-based assessment, assessment procedures, protocols, and other assessment practices will be analyzed.

Prerequisites: Sophomore standing.

When Offered

Fall and spring semesters.

EDU 461 - Elementary Student Teaching and Seminar 1

(3) This course is the third of a four-semester, professional field-based experience within a CCU partnership school. The focus is on implementation of research-based methods in a K-6 classroom under university and school-based teacher supervision. Teacher candidates implement lessons in reading, writing, mathematics, science and social studies aligned to state/professional standards. Teacher candidates complete hours toward the required clinical program hour minimum in addition to on-campus seminars

Prerequisites: EDU 250, EDU 340, RDG 447, RDG 457. Student must have a minimum cum GPA of 2.50

Corequisites: EDU 334, MAT 402.

Notes: Course fees apply.

When Offered

Every fall and spring semester.

EDU 471 - Elementary Student Teaching and Seminar 2

(12) This course is the culminating, professional experience within a CCU partnership school. Teacher Candidates complete a full-time teaching experience under guidance of a licensed School-Based Teacher and CCU Supervisor. Teacher candidates implement lessons and complete action research via instruction aligned to state/professional standards. Teacher candidates complete the clinical program hour minimum in addition to on-campus seminars.

Prerequisites: All degree program courses.

Fee

Fees apply.

When Offered

Every fall and spring semester.

MAT 402 - Teaching Elementary Mathematics 2: Math Clinic

(3) This course is the second of two mathematics courses focused on the instructional methods necessary to effectively teach numbers and operations, algebra, geometry and data analysis to culturally, linguistically and academically diverse students. Teacher Candidates complete the clinical practice requirements of this course during their concurrent EDU 461 - Elementary Student Teaching and Seminar 1 or SPD 416 - Special Education Student Teaching and Seminar 1 school placement. In addition, this course includes a campus-based math clinic where teacher candidates teach mathematical concepts to upper elementary students from local partnership schools.

Prerequisites: EDU 250 or EDU 260; MAT 202.

Corequisites: EDU 461 or SPD 416.

Fee

Course fees apply.

When Offered

Every fall and spring semesters.

RDG 447 - Diverse Reader 1: Instruction for Developing Readers

(3) This course focuses on scientifically-based methods of teaching reading to culturally and linguistically diverse elementary students who are "at-risk" or who have a learning disability. Phonemic Awareness, Phonics, Reading Fluency, English language structures and Sheltered Instruction are analyzed. An intensive phonics unit is developed. Teacher candidates complete hours toward the 830 clinical hour minimum in addition to on-campus seminars.

Corequisites: RDG 457. (Except for Teaching and Learning majors; please see advisor for enrolling in this course.)

When Offered

Every fall and spring semester.

RDG 457 - Diverse Reader 2: Reading Clinic

(3) Teacher candidates will be trained in an evidence-based reading intervention program aligned to findings from today's reading neuroscientists, then implement the program with diverse 3rd, 4th, and 5th grade students from Denver Public Schools and Jefferson County Schools under the supervision of a CCU Supervisor.

Prerequisites: Junior Standing.

Fee

Course fees apply.

When Offered

Every fall and spring semester.

CLD 205 - Culturally Responsive Pedagogy

(3) This course focuses on theories, concepts, research and pedagogical techniques related to culturally-responsive teaching, English language learning, language and content acquisition, teacher-student relationships, and building school-community partnerships with culturally diverse populations.

Prerequisites: Sophomore standing.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

Professional Licensure Disclosure

Colorado Christian University offers several academic programs which lead to professional licensure in the state of Colorado and, in some programs, prepare students for a national exam. All students should be aware that states vary in their educational and professional requirements depending on the profession. Some states require specific educational requirements, clinical requirements, accreditation requirements, or exam requirements. See professional licensure disclosures for details.

Graduation Requirements for Bachelor of Arts in Liberal Arts with Elementary Education Licensure

The faculty recommends students in the B.A. in Liberal Arts with Elementary Education Licensure to the Board of Trustees as candidates for graduation when they have completed the following requirements.

1. Completion of a total of 122 credits, including all general education, liberal arts major, and elementary education professional core requirements.
2. A letter grade of D or better and a cumulative GPA of 2.5 or better in all CCU coursework, and a C- or better in all professional education courses.
3. Completion of 180 hours of ministry/community service and 180 chapel credits. Transfer students are required to complete 45 hours of ministry/community service and 45 chapel credits each year of attendance at CCU. For further details on ministry/community service, see the Life Directions Center (LDC) section of this catalog. For further details on chapel credits, see the Student Life section of this catalog.
4. Meet the CCU Residency requirements.
5. Acceptable performance on exit exams (e.g., Praxis exam), as required by the faculty.
6. Formal and timely application for graduation by the date specified by the University Registrar.
7. No outstanding financial obligation to the University.

K-12 Physical Education Licensure (School of Education)

Graduates in the K-12 Physical Education Licensure program earn a Bachelor of Science in two majors: Kinesiology and Physical Health Education, and K-12 Physical Education Teaching. This program is 120 credit hours and offers supervised clinical practice experiences in elementary, middle, and high school settings. Upon program completion, the candidate has met all requirements for an institutional recommendation for an Initial Colorado Teacher License with an Endorsement in K-12 Physical Education.

The Physical Education Licensure program requires a major in Kinesiology and Physical Health Education, a major in K-12 Physical Education Teaching, and completion of the following 120 credit hours.

General Education Core (45 credit hours)

Kinesiology and Physical Health Education Major Core (39 credit hours)

K-12 Physical Education Teaching Major Core (36 credit hours)

K-12 Physical Education Licensure**General Education Requirements (45 credit hours)****Arts and Humanities (9 credit hours)****Fine Arts (3 credit hours)**

Choose one course from the following:

HUM 120 - Introduction to the Arts

(3) Introduction to our humanity through hands-on experience in the arts (music, visual arts, poetry, story, play, and dance). Aesthetic and artistic values in the broader context of human cultural development, responsibility, and joy.

Notes: This course satisfies the general education fine arts requirement for most students, and is the required fine arts course for education majors. It is recommended for all students with a general interest in the fine arts. Students with a special interest in theatre should see THR 112. Students with a special interest in music should see MUS 110.

Note: HUM 120 does not satisfy the fine arts requirement for music majors or minors.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

MUS 110 - Musical Perspectives

(3) An exploration of music in the broader context of culture and the arts; personal musical experiences through listening and doing; and developing the ability to discern aesthetic excellence. Included is an introduction to the elements of music and how music works, the development of a Christian perspective on the arts, a broad survey of representative selections of Western music, and a focused overview of non-western/world music.

Notes: This course satisfies the general education fine arts requirement for most students. It is recommended for all students, especially those with an interest in music, and is the required fine arts course for all music majors and minors. Students with a special interest in Theatre should see THR 112.

Note: MUS 110 does not satisfy the fine arts requirement for education majors.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

THR 112 - Theatre Appreciation

(3) An introduction to the theatre world and all its aspects: the people who are active in that world, the many kinds of work that are created, the sensations and ideas we receive from those works, and the ways the life of theatre has transmitted across many times and place.

Notes: This course satisfies the general education fine arts requirement for most students. It is recommended for all students, especially those with an interest in theatre. Students with a special interest in music should see MUS 110.

Note: THR 112 does not satisfy the fine arts requirement for music majors or minors, or education majors.

When Offered

Fall and spring semesters.

Literature (3 credit hours)

Choose one course from the following:

ENG 201 - Introduction to Literature

(3) Understand, experience, and evaluate poetry, short fiction, essays, and drama genres, both American and multinational.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Fall and spring semesters.

ENG 202 - American Literature I

(3) Representative stories, poems, and documents in American literature from the Colonial era to the early Republic (1776-1830) through the Romantic-transcendentalist period (1830-1860). Includes readings from multiethnic and women writers.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every fall semester.

ENG 203 - American Literature II

(3) Representative stories, poems, and drama in American literature from the Civil War to the present. Nontraditional ethnic and women's voices included. Emphasis on interpretation and criticism of American literature.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every spring semester.

ENG 204 - British Literature I

(3) Surveys the history of literature in Britain until 1800 and representative works by influential writers of the periods contained therein.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every fall semester.

ENG 205 - British Literature II

(3) Surveys the history of literature in Britain from 1800 to the present and representative works by influential writers.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every spring semester.

Philosophy (3 credit hours)

PHL 202 - Introduction to Philosophy

(3) This course is a survey of many major issues raised over the two-and-a-half millennia of western philosophy. With an emphasis on historical context and development, as well as philosophy's relationship to Christian thought, this course challenges students to critically explore philosophical questions and introduce them to the great tradition of intellectual inquiry. Special attention will be given to the subjects of truth and knowledge, reality and appearance, mind and body, right and wrong, beauty and the existence of God.

When Offered

Fall and summer semesters.

Biblical Studies (12 credit hours)

HUM 114 - New Testament

(3) This course provides an introduction to the theological, historical, and literary features of the New Testament, tracing the presentation of the gospel message through historical, epistolary, and apocalyptic genres. Special consideration will be given to the life of Christ and missionary journeys of the Apostle Paul.

When Offered

Every fall semester.

Cross-listed BIB 114.

HIS 111 - Old Testament

(3) This course provides an introduction to the theological, historical, and literary features of the Old Testament, tracing God's covenant relationship with ancient Israel. Special consideration will be given to the divine covenants and Messianic prophecies of the Old Testament.

When Offered

Every spring semester.

Cross-listed BIB 111.

PHL 315 - World Religions and Systems of Belief

(3) This course introduces an academic study of religion and what is called worldview, supplemented by an overview of some of the major tenets of Christianity; this is then followed by a survey of several other religious traditions and competing philosophies.

Prerequisites: PHL 202, THE 201.

When Offered

Winter and spring semesters.

THE 201 - Introduction to Theology

(3) This course covers basic issues, themes, and categories of Christian theology, including the doctrines of Scripture, God, humanity, Christ, salvation, the church, and last things. This course encourages students to better know, trust, love, and live by God's Word.

Prerequisites: BIB 111, BIB 114.

When Offered

Fall, winter, spring, and summer semesters.

Communication (6 credit hours)

COM 103 - Public Speaking

(3) Introductory principles of communication emphasizing public speaking. Aspects of verbal and nonverbal delivery, speech organization, and the effective use of supporting material and presentational aids are addressed. Students give several speeches designed to better equip them for future speaking endeavors

When Offered

Fall and spring semesters.

ENG 102 - English Composition

(3) Effective use of the English language and exploration of rhetorical modes in written composition. Review of structure, purpose, and audience awareness in developing essays.

Prerequisites: ACT and/or SAT scores will be used to determine placement in either ENG 102 or ENG 102 (Basic).

Notes: Course must be completed first semester at CCU.

When Offered

Fall and spring semester.

ENG 105 - Advanced English Composition

(3) Advanced English composition, research methods, and literary study for invited exceptional students. Focus on both the study of literature and research writing.

Prerequisites: One of the following:

- AP English Language and Composition
 - A score of 4 is the minimum prerequisite for enrollment in ENG 105. A student who scores a 4 or 5 will automatically enroll a student in ENG 105 instead of ENG 102 and/or ENG 201.
- AP English Literature and Composition
 - A score of 4 is the minimum prerequisite for enrollment in ENG 105. A student who scores a 4 or 5 will automatically enroll a student in ENG 105 instead of ENG 102 and/or ENG 201.
- Score of 30 or above on the verbal section of the ACT exam.
- Score of 700 or above on the verbal section of the SAT exam.
- By invitation of the English department.

Notes: Fulfills general education requirements for both ENG 102 and ENG 201.

When Offered

Every fall semester.

Integrative Studies (3 credit hours)

* Please see the First-Year Integration (FYI) page for specific information about this required course.

INT 101 - First-Year Integration

(3) Think critically, grow spiritually, and change the world. Based on the premise that we as Christians are called to be rational creatures, relational creatures, and responsible creatures, FYI is an integrative study of foundational Christian principles with other disciplines. Examination and discussion of problems and contemporary issues - academic, personal, and social - facing students in their pursuit of success in college and life. Please see the First-Year Integration (FYI) page for specific information about this required course.

When Offered

Fall and spring semesters.

Mathematics (3 credit hours)

MAT 112 - Mathematics for Liberal Arts

(3) This course introduces some of the important ideas in mathematics and how they can be applied in everyday life situations, solving a wide range of practical problems. Topics include sets, logic, history of numeration, number systems and their properties, number patterns, counting principles, probability, statistics, graph theory, personal finance, and voting methods.

Notes: Students with higher level mathematics skills (i.e. ACT MAT above 20 and SAT MATH above 520) are discouraged from taking this class. Only students who do not place into MAT 111 - College Algebra should enroll in MAT 112 - Mathematics for Liberal Arts.

When Offered

Fall, spring and summer semesters.

MAT 212 - Statistics and their Application

(3) An introduction to statistical analysis as used in various liberal arts disciplines. Descriptive and inferential statistics and attendant research designs will be considered. Students will become familiar with SPSS and its use in analyzing data and decision making.

Prerequisites: Sophomore standing.

When Offered

Fall and spring semesters.

Social Sciences (12 credit hours)

Take each of the following four courses:

ECO 215 - Economics

(3) Economics is about scarcity and choice. Students in this course study how people, firms, governments, and nations interact in alternative economic systems to make choices about allocating scarce resources. In addition, students learn to evaluate these systems, understand macroeconomic monetary and fiscal policies, and engage in policy debates.

When Offered

Fall and spring semesters.

HIS 185 - Western Civilization

(3) The spiritual values and intellectual achievements of ancient Israel, Greece, Rome, the Middle Ages, the Renaissance, and Reformation that gave birth to the modern world.

When Offered

Every fall semester.

HIS 205 - American History

(3) Principles of the founding and the political, economic, intellectual, cultural, and religious traditions that have shaped America.

When Offered

Every spring semester.

POL 207 - Introduction to American Politics

(3) Introduction to political science and American government to prepare students to be effective citizens.

When Offered

Every fall and spring semester.

Kinesiology and Physical Health Education Major Core (39 credit hours)

BIO 120 - Biological Principles

(3) Life processes common to plants and animals, cell structure and function. Introduction to genetics, biochemistry, and development.

Prerequisites: For Biological and General Sciences majors only.

Corequisites: BIO 121.

When Offered

Every fall semester.

BIO 121 - Biological Principles Lab

(1) Corequisite Lab for BIO 120 Biological Principles.

Corequisites: BIO 120.

Lab/Lecture Hours

Three-hour lab.

Fee

Course fees apply.

When Offered

Every fall semester.

BIO 201 - Human Anatomy and Physiology I

(3) Structure and function of the skeletal, muscular, and nervous systems.

Prerequisites: BIO 120 or BIO 209.

Corequisites: BIO 211 (Lab).

When Offered

Every fall and spring semester.

BIO 211 - Human Anatomy and Physiology I Lab

(1)

Corequisites: BIO 201.

Lab/Lecture Hours

Three-hour lab.

Fee

Lab fees apply.

When Offered

Every fall and spring semester.

BIO 202 - Human Anatomy and Physiology II

(3) Human respiratory, circulatory, digestive, excretory, endocrine, and reproductive systems.

Prerequisites: BIO 201.

Corequisites: BIO 212 (Lab).

When Offered

Every fall and spring semester.

BIO 212 - Human Anatomy and Physiology II Lab

(1)

Corequisites: BIO 202.

Lab/Lecture Hours

Three-hour lab.

Fee

Lab fees apply.

When Offered

Every fall and spring semester.

CHM 111 - Nutrition

(3) Nutrients and their functions in the body. Nutrition and health, clinical applications of nutrition, and facts and fallacies of diet. Meets nutrition prerequisites for students planning to enter various advanced programs for health science-oriented

professions.

When Offered

Every spring semester.

KIN 210 - Foundations in Kinesiology

(3) Foundations in Kinesiology introduces the study of kinesiology and provides the foundations of anatomy, physiology, biomechanics, and sports psychology for students to continue their kinesiology degree.

When Offered

Every fall semester.

KIN 220 - Introduction to Sports Medicine

(3) Introduce students to sports medicine and how athletes are treated in contrast to other medical practices.

Fee

Course fees apply.

When Offered

Every spring semester.

KIN 225 - Individual and Dual Physical Activities

(3) This course examines the key factors related to proper instruction and participation for individual sports, team sports, and lifetime physical activities. Emphasis is placed on rules, strategies, organization, and the development of skills.

Prerequisites: KIN 210. Student must be a declared major in Kinesiology, Physical Education, Pre-Physical Therapy, or Sports Management.

Fee

Course fee applies.

When Offered

Every spring semester.

KIN 235 - Motor Learning and Performance

(3) This course introduces students to the physiological, neurological, and psychological mechanisms of motor behavior, control, and learning within the context of skill development.

Prerequisites: KIN 210. Student must be a declared major in Kinesiology, Physical Education, Pre-Physical Therapy, or Sports Management.

Fee

Course fee applies.

When Offered

Every fall semester.

KIN 245 - Team Sports and Games

(3) This course examines the key fundamentals in teaching and implementing team sports and games for K-12 physical education programs.

Prerequisites: KIN 210. Student must be a declared major in Kinesiology, Physical Education, Pre-Physical Therapy, or Sports Management.

Fee

Course fee applies.

When Offered

Every spring semester.

KIN 310 - Mental Aspects of Sports Performance

(3) Offers overview of basic concepts and principles essential to understanding the psychological and behavioral aspects of sport and exercise. Emphasis is given to the conceptual frameworks and the applied aspects of sport performance enhancement and mental skills, exercise behavior and motivation, and health and well being. Applications are made to future practitioners of coaching, teaching, sports medicine, counseling, sport management, and fitness instruction.

Prerequisites: PSY 101 or PSY 201 or PSY 245.

When Offered

Every spring semester.

KIN 320 - Physiology of Exercise

(3) Educate students how exercise affects the anatomy and physiology of the human body.

Prerequisites: BIO 202, BIO 212. Student must be a declared major in Kinesiology, Physical Education, Pre-Physical Therapy, or Sports Management.

When Offered

Every fall semester.

KIN 340 - Anatomical Kinesiology

(3) This course is designed to help students integrate the knowledge of anatomy and biomechanics to understand functional movement in sport and physical activity.

Prerequisites: BIO 201, BIO 211, KIN 210. Student must be a declared major in Kinesiology, Physical Education, Pre-Physical Therapy, or Sports Management.

Fee

Course fee applies.

When Offered

Every spring semester.

K-12 Physical Education Teaching Major Core (36 credit hours)**CLD 205 - Culturally Responsive Pedagogy**

(3) This course focuses on theories, concepts, research and pedagogical techniques related to culturally-responsive teaching, English language learning, language and content acquisition, teacher-student relationships, and building school-community partnerships with culturally diverse populations.

Prerequisites: Sophomore standing.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

EDU 214 - Field 1 Theory and Practice in Elementary Education

(3) Field 1 is the first of a four-semester, professional field-based experience within a CCU partnership school. The focus is on educational theory, as well as the development and implementation of standards-based lessons under university and school-based teacher supervision. Teacher candidates complete hours toward the clinical program hour minimum in addition to on-campus seminars.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

EDU 215 - Field 1 Theory and Practice in Secondary Education

(3) Field 1 is the first of a four-semester, professional field-based experience within a CCU partnership secondary school. The focus is on education theory, as well as the development and implementation of standards-based lessons under university and school-based teacher supervision. Teacher candidates complete hours toward the clinical program hour minimum in addition to on-campus seminars.

Fee

Course fees apply.

When Offered

Every fall and spring semester.

EDU 250 - Field 2 Elementary Classroom and Behavior Management

(3) Field 2 is the second of a four-semester, professional field-based experience within a CCU partnership school. The focus is on implementation of research-based methods related to classroom and behavior management under university and school-based teacher supervision. Teacher candidates complete hours toward the required clinical program hour minimum in addition to on-campus seminars.

Prerequisites: EDU 214 or SPD 213; Sophomore standing. School of Education major or minor students only.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

EDU 260 - Field 2 Secondary Classroom and Behavior Management

(3) Field 2 is the second of a four-semester, professional field-based experience within a CCU partnership school. The focus is on implementation of research-based methods related to classroom and behavior management under university and school-based teacher supervision. Teacher candidates complete hours toward the required clinical program hour minimum in addition to on-campus seminars.

Prerequisites: EDU 215 or SPD 213. School of Education major or minor students only.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

EDU 340 - Assessment of Learning and Critical Thinking

(3) The role of assessment and evaluation in critical thinking development and the instructional decision-making process is explored, with an emphasis on practical application to student learning outcomes, and increasing achievement for students from diverse backgrounds. Performance-based assessment, assessment procedures, protocols, and other assessment practices will be analyzed.

Prerequisites: Sophomore standing.

When Offered

Fall and spring semesters.

EDU 380 - Foundations of K-12 Physical Education

(3) This course provides an overview of both historical and contemporary foundations for K-12 Physical Education in the United States, including the study of philosophical, cultural, and scientific influences in physical education programs.

Prerequisites: EDU 214 or EDU 215.

When Offered

Every spring semester.

EDU 445 - K-12 Physical Education Student Teaching and Seminar 1

(3) This course is the third of a four-semester, field-based experience within a CCU partnership school. Focus is on the implementation of research-based methods in a K-12 physical education classroom under university and school-based teacher supervision. Teacher candidates implement K-12 physical education lessons aligned to state/professional standards. Candidates complete hours toward the required clinical program hour minimum in addition to on-campus seminars.

Prerequisites: EDU 250 or EDU 260; EDU 340.

Fee

Course fee applies.

When Offered

Every fall semester.

EDU 475 - K-12 Physical Education Student Teaching and Seminar 2

(12) This course is the culminating, professional experience within a CCU partnership school. Teacher candidates complete a full-time teaching experience under the guidance of a licensed School-Based Teacher and CCU Supervisor. Teacher candidates implement lessons and complete action research via instruction aligned to state/professional standards. Teacher candidates complete the clinical program hour minimum in addition to on-campus seminars.

Prerequisites: EDU 445.

Fee

Course fee applies.

When Offered

Every spring semester.

EPS 340 - Educational Child Psychology and Development

(3) The educator's role in recognizing, evaluating and guiding the cognitive, physical, psychosocial and emotional growth patterns and characteristics from infants to early, middle and late childhood, as well as adolescence.

When Offered

Fall and spring semesters.

EPS 342 - Adolescent Development and Culture

(3) Biological, cognitive, psychological, social, and moral growth and development of early, middle and late adolescents. Explores theories of adolescent development in a family, peer, school, and community context. Explores personal, educational and career decision making, psychosocial problems during adolescence, and implications for teaching, youth ministry, counseling, and nonprofit organization work with youth.

Prerequisites: Sophomore standing (30+ Credit Hours).

When Offered

Every fall and spring semester.

SPD 210 - Introduction to Special Education

(3) Understanding of the integration of exceptional children and adolescents (K-12) into general educational environments. Development of an understanding of students with special needs. Designing a learning environment to include assessment and adaptation of instruction to maximize student learning potential.

When Offered

Every fall and spring semester.

SED 500 - Introduction to Special Education

(3) This course is an introduction to the profession of special education and focuses on the foundations of special education (history, law, and finance), the special education teacher (ethics, professionalism and roles), and with knowledge about current trends (issues and research based). (Includes 20 field hours)

Graduation Requirements for Bachelor of Science in Physical Education Licensure

The faculty recommends students in the B.S. in Physical Education Licensure to the Board of Trustees as candidates for graduation when they have completed the following requirements.

1. Completion of a total of 120 credits, including all general education, Kinesiology and Physical Health Education major, and K-12 Physical Education Teaching major core requirements.
2. A letter grade of D or better and a cumulative GPA of 2.5 or better in all CCU coursework, and a C- or better in all Kinesiology and Physical Health Education and K-12 Physical Education Teaching courses.
3. Completion of 180 hours of ministry/community service and 180 chapel credits. Transfer students are required to complete 45 hours of ministry/community service and 45 chapel credits each year of attendance at CCU. For further details on ministry/community service, see the Life Directions Center (LDC) section of this catalog. For further details on chapel credits, see the Student Life section of this catalog.
4. Meet the CCU Residency requirements.
5. Acceptable performance on exit exams, as required by the faculty.
6. Formal and timely application for graduation by the date specified by the University Registrar.
7. No outstanding financial obligation to the University.

Music Education K-12 Licensure (School of Education)

The Music Education K-12 Licensure Program graduates earn a B.M. in Music. This program is 128 credit hours and offers supervised clinical practice experiences in elementary, middle and high school settings. Upon program completion, the candidate has met all requirements for an institutional recommendation for an Initial Colorado Teacher License with an Endorsement in the area of Music.

CCU's School of Music shares the music education program with CCU's School of Education, which has been recognized by the state of Colorado as a program of excellence. The distinct focus on developing Teacher Candidates who are servant-leaders, as well as excellent music practitioners has earned CCU graduates in music education teaching positions in both public and private schools throughout the state. The program also offers excellent preparation for graduate school.

The Bachelor of Music with Music Education requires completion of the following 128 credits:

General Education (42 credit hours)
Professional School of Education Core (18 credit hours)
Professional Music Education Core (16 credit hours)
Music Major Core (46 credit hours)
Primary Instrument (4 credit hours)
Electives (2 credit hours)

Music Education K-12 Licensure Program

General Education Requirements (42 credit hours)

Arts and Humanities (6 credit hours)

Take one course from each of the following two academic disciplines:

Philosophy (3 credit hours)

PHL 202 - Introduction to Philosophy

(3) This course is a survey of many major issues raised over the two-and-a-half millennia of western philosophy. With an emphasis on historical context and development, as well as philosophy's relationship to Christian thought, this course challenges students to critically explore philosophical questions and introduce them to the great tradition of intellectual inquiry. Special attention will be given to the subjects of truth and knowledge, reality and appearance, mind and body, right and wrong, beauty and the existence of God.

When Offered

Fall and summer semesters.

Fine Arts (3 credit hours)

MUS 110 - Musical Perspectives

(3) An exploration of music in the broader context of culture and the arts; personal musical experiences through listening and doing; and developing the ability to discern aesthetic excellence. Included is an introduction to the elements of music and how music works, the development of a Christian perspective on the arts, a broad survey of representative selections of Western music, and a focused overview of non-western/world music.

Notes: This course satisfies the general education fine arts requirement for most students. It is recommended for all students, especially those with an interest in music, and is the required fine arts course for all music majors and minors. Students with a special interest in Theatre should see THR 112.

Note: MUS 110 does not satisfy the fine arts requirement for education majors.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

Biblical Studies (12 credit hours)

Take the following four courses:

HIS 111 - Old Testament

(3) This course provides an introduction to the theological, historical, and literary features of the Old Testament, tracing God's covenant relationship with ancient Israel. Special consideration will be given to the divine covenants and Messianic prophecies of the Old Testament.

When Offered

Every spring semester.

Cross-listed BIB 111.

HUM 114 - New Testament

(3) This course provides an introduction to the theological, historical, and literary features of the New Testament, tracing the presentation of the gospel message through historical, epistolary, and apocalyptic genres. Special consideration will be given to the life of Christ and missionary journeys of the Apostle Paul.

When Offered

Every fall semester.
Cross-listed BIB 114.

THE 201 - Introduction to Theology

(3) This course covers basic issues, themes, and categories of Christian theology, including the doctrines of Scripture, God, humanity, Christ, salvation, the church, and last things. This course encourages students to better know, trust, love, and live by God's Word.

Prerequisites: BIB 111, BIB 114.

When Offered

Fall, winter, spring, and summer semesters.

PHL 315 - World Religions and Systems of Belief

(3) This course introduces an academic study of religion and what is called worldview, supplemented by an overview of some of the major tenets of Christianity; this is then followed by a survey of several other religious traditions and competing philosophies.

Prerequisites: PHL 202, THE 201.

When Offered

Winter and spring semesters.

Communication (6 credit hours)

COM 103 - Public Speaking

(3) Introductory principles of communication emphasizing public speaking. Aspects of verbal and nonverbal delivery, speech organization, and the effective use of supporting material and presentational aids are addressed. Students give several speeches designed to better equip them for future speaking endeavors

When Offered

Fall and spring semesters.

ENG 102 - English Composition

(3) Effective use of the English language and exploration of rhetorical modes in written composition. Review of structure, purpose, and audience awareness in developing essays.

Prerequisites: ACT and/or SAT scores will be used to determine placement in either ENG 102 or ENG 102 (Basic).

Notes: Course must be completed first semester at CCU.

When Offered

Fall and spring semester.

ENG 105 - Advanced English Composition

(3) Advanced English composition, research methods, and literary study for invited exceptional students. Focus on both the study of literature and research writing.

Prerequisites: One of the following:

- AP English Language and Composition
 - A score of 4 is the minimum prerequisite for enrollment in ENG 105. A student who scores a 4 or 5 will automatically enroll a student in ENG 105 instead of ENG 102 and/or ENG 201.
- AP English Literature and Composition
 - A score of 4 is the minimum prerequisite for enrollment in ENG 105. A student who scores a 4 or 5 will automatically enroll a student in ENG 105 instead of ENG 102 and/or ENG 201.
- Score of 30 or above on the verbal section of the ACT exam.
- Score of 700 or above on the verbal section of the SAT exam.
- By invitation of the English department.

Notes: Fulfills general education requirements for both ENG 102 and ENG 201.

When Offered

Every fall semester.

Integrative Studies (3 credit hours)

* Please see the First-Year Integration (FYI) page for specific information information about this required course.

INT 101 - First-Year Integration

(3) Think critically, grow spiritually, and change the world. Based on the premise that we as Christians are called to be rational creatures, relational creatures, and responsible creatures, FYI is an integrative study of foundational Christian principles with other disciplines. Examination and discussion of problems and contemporary issues - academic, personal, and social - facing students in their pursuit of success in college and life. Please see the First-Year Integration (FYI) page for specific information about this required course.

When Offered

Fall and spring semesters.

Mathematics (3 credit hours)

MAT 112 - Mathematics for Liberal Arts

(3) This course introduces some of the important ideas in mathematics and how they can be applied in everyday life situations, solving a wide range of practical problems. Topics include sets, logic, history of numeration, number systems and their properties, number patterns, counting principles, probability, statistics, graph theory, personal finance, and voting methods.

Notes: Students with higher level mathematics skills (i.e. ACT MAT above 20 and SAT MATH above 520) are discouraged from taking this class. Only students who do not place into MAT 111 - College Algebra should enroll in MAT 112 - Mathematics for Liberal Arts.

When Offered

Fall, spring and summer semesters.

Or higher - While Statistics is a valuable course for educators, MAT 212 cannot be used to fulfill General Education requirements.

Science (3 credit hours)

SCI 230 - Integrated Physical Science with Lab

(3) This is an integrated course presenting the major concepts, theoretical perspectives, historical trends, and empirical findings of the physical sciences. Laboratory exercises and lectures explore motion, the four forces, heat, energy, chemical reactions, the structure and development of matter, the types and nature of chemical bonding, and the nature and history of the universe, the solar system, and the Earth.

Lab/Lecture Hours

Laboratory investigations included in course.

Fee

Lab fees apply.

When Offered

Every semester.

Social Sciences (9 credit hours)

Take each of the following three courses:

HIS 185 - Western Civilization

(3) The spiritual values and intellectual achievements of ancient Israel, Greece, Rome, the Middle Ages, the Renaissance, and Reformation that gave birth to the modern world.

When Offered

Every fall semester.

HIS 205 - American History

(3) Principles of the founding and the political, economic, intellectual, cultural, and religious traditions that have shaped America.

When Offered

Every spring semester.

ECO 215 - Economics

(3) Economics is about scarcity and choice. Students in this course study how people, firms, governments, and nations interact in alternative economic systems to make choices about allocating scarce resources. In addition, students learn to

evaluate these systems, understand macroeconomic monetary and fiscal policies, and engage in policy debates.

When Offered

Fall and spring semesters.

Professional Education Core (18 credit hours)

CLD 205 - Culturally Responsive Pedagogy

(3) This course focuses on theories, concepts, research and pedagogical techniques related to culturally-responsive teaching, English language learning, language and content acquisition, teacher-student relationships, and building school-community partnerships with culturally diverse populations.

Prerequisites: Sophomore standing.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

EDU 472 - Music Student Teaching and Seminar

(12) This course is the culminating, professional experience within a CCU partnership school. Teacher candidates complete a full-time teaching experience under guidance of a licensed School-Based Teacher and CCU Supervisor. Teacher candidates implement lessons and complete action research via instruction aligned to state/professional standards. Teacher candidates complete 640 hours of the 800 clinical hour minimum in addition to on-campus seminars.

Prerequisites: All other degree program courses.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

EPS 340 - Educational Child Psychology and Development

(3) The educator's role in recognizing, evaluating and guiding the cognitive, physical, psychosocial and emotional growth patterns and characteristics from infants to early, middle and late childhood, as well as adolescence.

When Offered

Fall and spring semesters.

EPS 342 - Adolescent Development and Culture

(3) Biological, cognitive, psychological, social, and moral growth and development of early, middle and late adolescents. Explores theories of adolescent development in a family, peer, school, and community context. Explores personal, educational and career decision making, psychosocial problems during adolescence, and implications for teaching, youth ministry, counseling, and nonprofit organization work with youth.

Prerequisites: Sophomore standing (30+ Credit Hours).

When Offered

Every fall and spring semester.

Professional Music Education Core (16 credit hours)

MUA 176 - Music Education Colloquium

(0) This course will provide future music educators with the opportunity to experience self-reflection and peer review as important tools for professional development, while increasing their ability to analyze instructional strategies and problem solve instructional dilemmas for the purpose of increasing student learning and classroom success. The course format is inquiry and discussion.

Prerequisites: Music Education majors only.

Notes: Pass/Fail course.

When Offered

Every fall semester.

MUS 120 - Introduction to Music Education

(2) This course introduces the historical roots of music education, influences of and upon contemporary practices in music education, with classroom observations of expert teachers. The expectations of today's music educator within the framework of content standards, instructional design and accountability, classroom success while addressing individual learning needs, and the importance of conveying the societal value of music will be investigated.

When Offered

Every spring semester.

MUS 328 - Choral Methods and Literature

(2) The course focus is on developing skills and a knowledge base for successfully organizing, leading and building all musical aspects of the effective choral ensemble. Topics will include: warm-ups, rudiments of voice and sound production, development of choral tone, vocal auditions and voice classification, children's voices, group vocal training, verbal and nonverbal techniques of communication to increase teaching effectiveness, survey of choral musical styles and repertoire diverse choral groups, techniques for addressing varied learning styles in a choral context, administration of the choral program and communication, literature sources, organization of the choir, analysis of the choral experience, rehearsal techniques, and introduction to diction and language (IPA), teaching comprehensive musicianship in the choir.

When Offered

Odd spring semesters.

MUS 329 - Instrumental Methods and Literature

(2) Administration, organization, curriculum selection, and teaching of instrumental music programs in churches and schools. Analysis of the instrumental experience, rehearsal techniques, basic musicianship, and performance practices. Verbal and nonverbal techniques of communication to increase teaching effectiveness. Survey of instrumental musical styles and repertoire.

When Offered

Even fall semesters.

MUS 330 - General Music Methods and Literature

(2) Course content includes methods and techniques for the administration, organization, and teaching of general music programs in schools. The analysis of experiences, curricula, methods and literature for teaching young voices and for using classroom instruments to build comprehensive musicianship is introduced. Curriculums studied include an introduction to Orff, Kodaly, Dalcroze, and combined approaches, as well as primary curriculums provided by major publishers. All are introduced while studying and implementing standards-based education.

When Offered

Even spring semesters.

MUS 380 - Pedagogical Models for Effective Learning in Music

(3) This course addresses the design and implementation of successful standards-based instructional models and pedagogies to foster effective and authentic learning in music. Topics include research and collaborative discussion of how students learn, how to organize differentiated delivery options based on student interests, linguistic diversity, learning profiles and individual student needs, and assessment alternatives for effective student demonstration of learning.

When Offered

Every spring semester.

MUS 404 - Music K-12 Curriculum and Instruction

(3) Musical education within aesthetic, extra-aesthetic, and artistic dimensions as it relates to the entire school music curriculum K-12, including school music performances. Special emphasis is given to managing a musical organization, classroom management, and lesson planning. Additionally, methods and curricula used for middle school/secondary instruction (vocal, instrumental, and general) are discussed. Students will develop an articulate philosophy of music education, discuss appropriate advocacy procedures, and study and implement standards-based education.

When Offered

Odd fall semesters.

MUS 426 - Music Business

(2) An in-depth study of Christian and secular music industries; careers in the music business, including music director, choral directing and instrumental accompaniment, small business development, music publishing, recording industry, film

and television industry, teaching, and performance. The objective is to give students a greater understanding of music as an industry. Studies include: getting an agent, marketing, finance, understanding ASCAP/BMI, cue sheets, royalties, IMDB credits, talking with record companies, contract negotiations, creating a CV, building a website, music placement for film and television, budgeting for projects and worship arts, dealing with criticism, making a profit.

When Offered

Every fall semester.

Music Core (46 credit hours)

MUA 130 - Piano Class I

(1) Piano Class I is for Music majors with little or no background in piano study. Technique will cover five-finger patterns, two octave scales (white keys only), cross-hand arpeggios, root position triads and inversions, seventh chords in closed position, and root chord progressions in all major and minor keys. Students will learn a variety of repertoire from different styles and periods, developing sight-reading, transposition, improvisation, and harmonization skills.

Notes: For Music Majors or Minors this class (or MUA 115 - Piano (1 or 2)) is required until MUA 230 - Piano Proficiency (0) is passed. May be repeated for credit.

When Offered

Fall and spring semesters.

MUA 132 - Piano Class II

(1) Piano Class II is for Music Majors who have passed or have been exempted from Piano Class I. Technique will cover two octave scales (white and black keys), one-hand arpeggios, seventh chords in closed, small, and large open positions, root and inverted chord progressions in all major and minor keys. Students will learn a variety of repertoire from different styles and periods, developing sight-reading, transposition, improvisation, and harmonization skills. The completion of the Piano Class sequence along with the passing of the Piano Class II Final Exam will fulfill the piano proficiency requirement.

Prerequisites: MUA 130.

When Offered

Every semester.

OR

MUA 115 - Piano

(1-2) Private lessons in piano are customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals and technique as well as improving musical performance and artistry.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester. May be repeated for credit.

When Offered

Fall and spring semesters.

Students may take either (or a combination of) MUA 130 - Piano Class I and MUA 132 Piano Class II or MUA 115 - Piano until they pass MUA 230 - Piano Proficiency . Required number of semesters vary per student.

MUA 175 - Music Convocation

(0) Includes weekly performance class, all School of Music concerts and recitals, and special guest artists and speakers.

Notes: Required of all music majors each semester and of music minors for four semesters. Pass/Fail.

When Offered

Fall and spring semesters.

MUA 230 - Piano Proficiency

(0) The piano proficiency course covers areas of basic piano skills, including scales, chords, arpeggios, and cadences in major and minor keys. Students will be required to use these skills for harmonization, playing by ear, and transposing. Students will also be required to perform pieces at the piano in a variety of styles, including church, school, and community music, popular music, and classical music.

Corequisites: MUA 130 or MUA 115.

When Offered

Fall and spring semesters.

MUA 231 - Performance Proficiency

(0) Student must demonstrate basic levels of proficiency on their primary instrument at the end of their required applied lesson study.

Corequisites: Primary Instrument (MUA 102-126).

When Offered

Every fall and spring semester.

MUA 327 - Advanced Conducting

(2) Individual applied lessons in conducting. The primary emphasis is developing a philosophy of conducting and the practical application of conducting skills through ensemble directing in the student's area of concentration. Course content includes advanced conducting techniques, score analysis, conducting terms. Other topics include developing an ideal choral, orchestral, or band sound, leadership, non-verbal communication, historical performance practice, score preparation, and pre-rehearsal activities. Student must be enrolled in applicable choral or instrumental ensemble.

Prerequisites: MUS 326.

When Offered

Fall and spring semesters.

MUS 351 - Brass Techniques and Pedagogy

(1) Instruction in methods of playing and teaching the various instruments of the brass family. Exploration of various pedagogical techniques and literature used in current public and private instruction (including techniques and information useful for church instruction and ensembles). Discussion of important topics related to effective brass playing and teaching in school and church settings.

Fee

Music instrument fee.

When Offered

Odd fall semesters.

MUS 352 - Woodwind Techniques and Pedagogy

(1) Instruction in both the methods of playing and in teaching others to play the various instruments of the woodwind family. Exploration of various pedagogical techniques and literature used in current public and private instruction. Discussion of important topics related to effective woodwind playing and teaching techniques in school settings.

Fee

Music instrument fee.

When Offered

Even spring semesters.

MUS 353 - String Techniques and Pedagogy

(1) Instruction in both the methods of playing and in teaching others to play the various instruments of the string family. Exploration of various pedagogical techniques and literature used in current public and private instruction. Discussion of important topics related to effective string playing and teaching techniques in school settings.

Fee

Music instrument fee.

When Offered

Even fall semesters.

MUS 354 - Percussion Techniques and Pedagogy

(1) Instruction in both the methods of playing and in teaching others to play the various instruments of the percussion family. Exploration of various pedagogical techniques and literature used in current public and private instruction. Discussion of important topics related to effective percussion playing and teaching techniques in school settings.

Fee

Course fees apply.

When Offered

Odd spring semesters.

MUS 356 - Vocal Methods

(1) A study of how the vocal mechanism works and pedagogical techniques for instructing others in singing. Objectives include developing an understanding of the acoustical and physiological make-up of the vocal apparatus, gaining an aural perception and understanding of specific vocal problems - their causes and possible solutions, and fostering the development of the student's ability to teach sound vocal technique.

When Offered

Odd fall semesters.

MUS 357 - Fretted Techniques

(1) Instruction in methods of playing and teaching fretted instruments. Studies of various pedagogical techniques and literature used in current public and private instruction including techniques and information useful for church instruction and ensembles. Studies also include physical control of the sound, and learning the various approaches to the guitar - jazz, classical, rock, and praise and worship styles.

Fee

Music instrument fee.

When Offered

Even fall semesters.

MUS 111 - From Sight to Sound - Music Fundamentals

(2) A course exploring the fundamentals of written music and its practical application to sound and vice versa. Students will gain a basic understanding of music including notation, rhythm, scales, key signatures, intervals, and chords, with an introduction to keyboard and improvisation.

When Offered

Every fall semester.

MUS 112 - Music Theory I: Elements of Music

(3) This course is the first semester of a four-semester sequence required of all music majors. Comprehensive musicianship through hearing, analyzing, and composing. Musical elements covered include melody, rhythm (including simple and compound meter), major and minor modes, chord structure, phrase structure, realization of figured bass, and basic counterpoint.

Prerequisites: MUS 111 or passing grade on the Music Theory Entrance Exam.

Corequisites: MUS 113.

When Offered

Every spring semester.

MUS 113 - Sight-Singing and Ear Training I

(1) This course is the first semester of a four-semester sequence required of all music majors. It is assumed that students will be enrolled in the corequisite Music Theory class when enrolled in a Sight Singing and Ear Training course. In this sequence, students will develop aural skills and competency with sight singing and ear training using solfege in the areas of melody, harmony, and rhythm in a systematic pedagogy.

Prerequisites: MUS 111 or a passing grade on the Music Theory Entrance Exam.

Corequisites: MUS 112.

When Offered

Every spring semester.

MUS 212 - Music Theory II: Diatonic Harmony and Tonicization

(3) Continuation of MUS 112. Topics covered include phrase structure (forms) and motivic analysis, cadences, embellishing tones, introduction to voice-leading, secondary dominants and leading-tone chords, and modulation. Also included in an introduction to music writing software (Finale) as applicable to continued study in Music Theory.

Prerequisites: MUS 110, MUS 112, MUS 113.

Corequisites: MUS 213.

When Offered

Every fall semester.

MUS 213 - Sight-Singing and Ear Training II

(1) This course is the second semester of a four-semester sequence required of all music majors. It is assumed that students will be enrolled in the co-requisite Music Theory class when enrolled in a Sight Singing and Ear Training course. In this sequence, students will develop aural skills and competency with sight singing and ear training using solfege in the areas of melody, harmony, and rhythm in a systematic pedagogy.

Prerequisites: MUS 112, MUS 113.

Corequisites: MUS 212.

When Offered

Every fall semester.

MUS 214 - Music Theory III: Chromatic Harmony and Forms

(3) Continuation of MUS 212. Comprehensive emphasis of 18th century common-practice musical techniques, including melodic and contrapuntal writing, as well as analysis of modal mixture, Neapolitan and augmented sixth chords. An examination of chromatic harmony and modulation. Analysis of vocal forms, and harmony and melody in popular music.

Prerequisites: MUS 212, MUS 213.

Corequisites: MUS 215.

When Offered

Every spring semester.

MUS 215 - Sight-Singing and Ear Training III

(1) A continuation of MUS 213. Aural skills including sight singing using solfege and numbers; harmonic, melodic and rhythmic dictation, modes, and jazz scales.

Prerequisites: MUS 212, MUS 213.

Corequisites: MUS 214.

When Offered

Every spring semester.

MUS 312 - Music Theory IV: The Twentieth Century and Beyond

(3) Continuation of MUS 214. Study of modern and recent musical styles. Survey of advanced harmonic developments in 19th century music, as well as 20th/21st century compositional and improvisational techniques.

Prerequisites: MUS 214, MUS 215.

Corequisites: MUS 313.

When Offered

Every fall semester.

MUS 313 - Sight-Singing and Ear Training IV

(1) Continuation of MUS 215. Aural skills including sight singing using solfege and numbers; harmonic, melodic and rhythmic dictation, modes, and jazz scales.

Prerequisites: MUS 214, MUS 215.

Corequisites: MUS 312.

When Offered

Every fall semester.

MUS 323 - History of Music I

(2) Historical study of the music of the Medieval, Renaissance, and Baroque periods of music history through readings, study of scores, listening, and analysis of stylistic characteristics of representative compositions. The study of the music is

integrated with concurrent historical developments in government, politics, economics, geography, science, literature, painting, and philosophy.

When Offered

Every fall semester.

MUS 324 - History of Music II

(2) Historical study of the music from ca. 1700 to the present through readings, study of scores, listening, and analysis of stylistic characteristics of representative compositions. Emphasis is given to the development of music in Europe, with reference to concurrent historical development in non-Western cultures throughout the world.

Prerequisites: MUS 212, MUS 213.

When Offered

Every spring semester.

MUS 326 - Conducting

(2) This introductory conducting course addresses conducting gestures and technique, musical terminology and markings, language pronunciation, basic rehearsal procedures for choral and instrumental groups, developing leadership skills, and verbal and non-verbal communication. Special emphasis is placed on developing a relationship between conducting gestures and sound.

Prerequisites: MUS 212.

When Offered

Every spring semester.

MUS 410 - World Music

(2) World Music is an exploration of musical styles as the reflection of world cultures, with an introduction to ethnomusicology. This survey course begins in the eastern hemisphere and moves west, including studies from Oceania, Asia, the Middle East, Africa, Europe, the Caribbean, South America, and North America. The interaction of music, culture, and religion provides additional insight into diverse cultural traditions throughout the world.

When Offered

Every fall semester.

MUS 411 - Scoring and Arranging

(2) The study of technical capabilities and orchestration for instruments and voices, individually and in ensembles, including full orchestra, choir, and jazz instruments. Emphasis is given to developing technical mastery for transcribing, arranging, and score preparation using current music technology tools.

Prerequisites: MUS 212.

When Offered

Every spring semester.

MUS 362 - Music Education Performance Project

(0) Music Education students collaborate with the Coordinator of Music Education to identify appropriate vocal or instrumental concert literature selections and a volunteer ensemble of students. Students plan and schedule rehearsals with the ensemble, and direct the ensemble from the initial sight-reading of the selected work to rehearsal in preparation for a scheduled performance during Convocation.

When Offered

Every semester.

MUE 100 - University Women's Choir

(1) The University Women's Choir is a select large ensemble dedicated to the performance of vocal masterworks from all musical styles and periods. University Women's Choir is an opportunity for students to grow in stewardship of God-given gifts and musical talents. Musical excellence and well-prepared performances are stressed. The University Women's Choir tours and records annually and presents multiple concerts each year. Auditions for University Women's Choir are held at the beginning of the fall semester.

Notes: May be repeated for credit.

Fee

Music ensemble fee.

When Offered

Fall and spring semesters.

MUE 101 - University Choir

(1) The University Choir is a select large ensemble dedicated to the performance of vocal masterworks from all musical styles and periods. University Choir is an opportunity for students to grow in stewardship of God-given gifts and musical talents. Musical excellence and well-prepared performances are stressed. The University Choir tours and records annually and presents multiple concerts each year. Auditions for University Choir are held at the beginning of the fall semester.

Notes: May be repeated for credit.

Fee

Music ensemble fee.

When Offered

Fall and spring semesters.

MUE 102 - University Symphonic Band

(1) The University Symphonic Band is a select large ensemble for woodwinds, brass and percussion, oriented towards the performance of a wide range of music for the modern wind band, including transcriptions, standard literature, popular music, and sacred music for band. Symphonic Band is an opportunity for students to grow in stewardship of God-given gifts and musical talents. Musical excellence and well-prepared performances are stressed. The University Symphonic Band tours and records annually and presents multiple concerts each year. Auditions for University Symphonic Band are held at the beginning of the fall semester.

Notes: May be repeated for credit.

Fee

Music ensemble fee.

When Offered

Fall and spring semesters.

MUE 103 - Chamber Orchestra

(1) A select instrumental ensemble in conjunction with the Lakewood Symphony Orchestra featuring string and wind instruments that performs a variety of traditional and contemporary literature for community audiences.

Prerequisites: Instructor permission required.

Notes: May be repeated for credit.

When Offered

Fall and spring semesters.

MUE 109 - Chamber Strings

(1) The University Chamber Strings ensemble is comprised of violinists, violists, cellists, and double bassists performing varied music for small groups; including works from the standard chamber music literature, jazz and popular music, as well as sacred music for strings. Chamber Strings provides an opportunity for students to develop and express their God-given gifts and musical talents. Musical excellence, collaboration, and engaging and varied performances are stressed. The Chamber Strings do a number of outreach performances annually.

Notes: May be repeated for credit.

When Offered

Fall and spring semesters.

Each student will take three semesters of secondary ensembles to get specific music education experiences.

One semester will focus on handbells, one semester will focus on jazz, and one semester will focus on the area opposite of the usual one (choral for instrumentalists, instrumental for vocalists).

MUE 104 - Peak Harmony Vocal Ensemble

(1) Peak Harmony Vocal Ensemble is a select small ensemble that studies and performs a wide variety of pop and jazz styles including contemporary a cappella, CCM, jazz standards, rock, pop, blues and more. Participation in the Peak Harmony Vocal Ensemble is an opportunity to grow in the stewardship of God-given gifts and musical talents. Auditions for Peak harmony Vocal Ensemble are held at the beginning of the fall semester.

Corequisites: MUE 100, MUE 101, MUE 102, MUE 103, MUE 109, or MUE 114.

Notes: May be repeated for credit.

When Offered

Fall and spring semesters.

MUE 105 - Mainstream (Instrumental Jazz)

(1) Mainstream is a select small ensemble that is oriented toward the study and performance of a wide variety of jazz styles, including traditional big band, contemporary jazz, the blues, bebop, interpretation of jazz standards, and more. Participation in Mainstream is an opportunity to grow in the stewardship of God-given gifts and musical talents. Auditions for Mainstream are held at the beginning of the fall semester.

Corequisites: MUE 100, MUE 101, MUE 102, MUE 103, MUE 109, or MUE 114.

Notes: May be repeated for credit.

When Offered

Fall and spring semesters.

MUE 110 - Jazz Combo

(1) This ensemble exists as student interest dictates. Performance opportunities vary.

Corequisites: MUE 100, MUE 101, MUE 102, MUE 103, MUE 109, or MUE 114.

When Offered

Every fall and spring semester.

MUE 114 - Handbell Ensemble

(1) A performing ensemble that also focuses on developing rehearsal, conducting, and performance skills. Along with concert performance, students work in the areas of ringing technique development and pedagogy, instrument care and maintenance, rhythm reading, score reading, and conducting. Musical excellence, collaboration, and engaging and varied performances are stressed. The Handbell Ensemble does a number of outreach performances annually.

Notes: May be repeated for credit.

When Offered

Fall and spring semesters.

MUE 106 - Instrumental Chamber Ensemble

(1) This ensemble exists as student interest dictates. Performance opportunities vary.

Corequisites: MUE 100, MUE 101, MUE 102, MUE 103, MUE 109, or MUE 114.

Notes: May be repeated for credit.

When Offered

Fall and spring semesters.

MUE 108 - Vocal Chamber Ensemble

(1) This ensemble exists as student interest dictates. Performance opportunities vary.

Corequisites: MUE 100, MUE 101, MUE 102, MUE 103, MUE 109, or MUE 114.

Notes: May be repeated for credit.

When Offered

Fall and spring semesters.

MUE 116 - Drumline

(1) Drumline offers students wanting to pursue field percussion an opportunity to develop their talent and perform at various CCU athletic events.

Notes: May be repeated for credit.

When Offered

Fall and spring semesters.

Primary Instrument (4 credit hours)

Each student will take 4 credit hours on the instrument on which they have auditioned and been accepted.

MUA 102 - Baritone/Euphonium

(1-2) Private lessons in baritone and euphonium are customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals of tone production and technique as well as improving musical performance and artistry.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester. May be repeated for credit.

Fee

Music instrument fee.

When Offered

Fall and spring semesters.

MUA 103 - Bassoon

(1-2) Private lessons in bassoon are customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals and technique as well as improving musical performance and artistry.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester. May be repeated for credit.

Fee

Music instrument fee.

When Offered

Fall and spring semesters.

MUA 104 - Clarinet

(1-2) Private lessons in clarinet are customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals and technique as well as improving musical performance and artistry.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester. May be repeated for credit.

Fee

Music instrument fee.

When Offered

Fall and spring semesters.

MUA 108 - Flute

(1-2) Private lessons in flute are customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals and technique as well as improving musical performance and artistry.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester. May be repeated for credit.

Fee

Music instrument fee.

When Offered

Fall and spring semesters.

MUA 109 - French Horn

(1-2) Private lessons in French horn are customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals and technique as well as improving musical performance and artistry.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester.

May be repeated for credit.

Fee

Music instrument fee.

When Offered

Fall and spring semesters.

MUA 110 - Guitar

(1-2) Private lessons in guitar are customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals and technique as well as improving musical performance and artistry.

Prerequisites: Music Majors and Minors only.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester.

May be repeated for credit.

When Offered

Fall and spring semesters.

MUA 111 - Harp

(1-2) Private lessons in harp are customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals and technique as well as improving musical performance and artistry.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester.

May be repeated for credit.

When Offered

Fall and spring semesters.

MUA 112 - Oboe

(1-2) Private lessons in oboe are customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals and technique as well as improving musical performance and artistry.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester.

May be repeated for credit.

Fee

Music instrument fee.

When Offered

Fall and spring semesters.

MUA 113 - Organ

(1-2) Private lessons in organ are customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals and technique as well as improving musical performance and artistry.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester.

May be repeated for credit.

When Offered

Fall and spring semesters.

MUA 114 - Percussion

(1-2) Private lessons in percussion are customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals and technique as well as improving musical performance and artistry.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester.

May be repeated for credit.

When Offered

Fall and spring semesters.

MUA 115 - Piano

(1-2) Private lessons in piano are customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals and technique as well as improving musical performance and artistry.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester. May be repeated for credit.

When Offered

Fall and spring semesters.

MUA 116 - Saxophone

(1-2) Private lessons in saxophone are customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals of tone production and technique as well as improving musical performance and artistry.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester. May be repeated for credit.

Fee

Music instrument fee.

When Offered

Fall and spring semesters.

MUA 117 - String/Electric Bass

(1-2) Private lessons in string or electric bass are customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals of tone production and technique as well as improving musical performance and artistry.

Lab/Lecture Hours

Course fees apply.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester. May be repeated for credit.

When Offered

Fall and spring semesters.

MUA 120 - Trombone

(1-2) Private lessons in trombone are customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals of tone production and technique as well as improving musical performance and artistry.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester. May be repeated for credit.

Fee

Music instrument fee.

When Offered

Fall and spring semesters.

MUA 121 - Trumpet

(1-2) Private lessons in trumpet are customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals of tone production and technique as well as improving musical performance and artistry.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester. May be repeated for credit.

Fee

Music instrument fee.

When Offered

Fall and spring semesters.

MUA 122 - Tuba

(1-2) Private lessons in tuba are customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals of tone production and technique as well as improving musical performance and artistry.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester. May be repeated for credit.

Fee

Music instrument fee.

When Offered

Fall and spring semesters.

MUA 123 - Viola

(1-2) Private lessons in viola are customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals of tone production and technique as well as improving musical performance and artistry.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester. May be repeated for credit.

Fee

Music instrument fee.

When Offered

Fall and spring semesters.

MUA 124 - Violin

(1-2) Private lessons in violin are customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals of tone production and technique as well as improving musical performance and artistry.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester. May be repeated for credit.

Fee

Music instrument fee.

When Offered

Fall and spring semesters.

MUA 125 - Cello

(1-2) Private lessons in cello are customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals of tone production and technique as well as improving musical performance and artistry.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester. May be repeated for credit.

Fee

Music instrument fee.

When Offered

Fall and spring semesters.

MUA 126 - Voice

(1-2) Individual applied lessons in singing with the goals of the development of individual vocal talent; the personal and musical growth of each student; providing the student with the opportunity to study and perform a wide variety of vocal repertoire indicative of, and sympathetic to, the multi-cultural society in which we live; such vocal study as is consistent with the ideals of sound vocal technique.

Notes: the one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester. May be repeated for credit.

Fee

Fees may apply.

When Offered

Fall and spring semesters.

MUA 133 - Drumset

(1-2) Private lessons in drumset customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals and technique as well as improving musical performance and artistry.

Notes: The one-credit section involves one half-hour lesson per week; the two-credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester. May be repeated for credit.

When Offered

Every fall and spring semesters.

Electives Core (2 credits)

Students will take two (2) elective credits.

Additional Information

Those selecting the music major must take MUS 110 - Musical Perspectives as part of the general education requirements.

MUS 111 - From Sight to Sound - Music Fundamentals or a passing grade on the Theory Entrance Exam is a prerequisite for entrance into MUS 112 - Music Theory I: Elements of Music .

MUA 175 - Music Convocation is required for all music majors each semester at CCU (up to 7 semesters).

Piano and Piano Class requirements vary in order to pass Piano Proficiency. Students must take MUA 130 - Piano Class I and MUA 132 Piano Class II OR MUA 115 - Piano in consecutive semesters until MUA 230 - Piano Proficiency is passed.

Only one ensemble credit each semester counts toward the requirements for the major.

Additional information concerning attendance, appeals, recitals, applied music, and proficiency examinations is found in the Teacher Portfolio and the Music Handbook.

Suggested Electives to include with the B.M. Music Education degree:

MUS 271 Music Production and Engineering I

MUS 272 Music Production and Engineering II

MUS 325 Singer's Diction and Literature

Professional Licensure Disclosure

Colorado Christian University offers several academic programs which lead to professional licensure in the state of Colorado and, in some programs, prepare students for a national exam. All students should be aware that states vary in their educational and professional requirements depending on the profession. Some states require specific educational requirements, clinical requirements, accreditation requirements, or exam requirements. See professional licensure disclosures for details.

Graduation Requirements for Bachelor of Music in Music with K-12 Education Licensure

The faculty recommends students in the B.M. in Music with K-12 Education Licensure to the Board of Trustees as candidates for graduation when they have completed the following requirements.

1. Completion of a total of 128 credits, including all general education, music major, and education professional core requirements.

2. A letter grade of D or better and a cumulative GPA of 2.5 or better in all CCU coursework, and a C- or better in all professional education and music courses.
3. Completion of 180 hours of ministry/community service and 180 chapel credits. Transfer students are required to complete 45 hours of ministry/community service and 45 chapel credits each year of attendance at CCU. For further details on ministry/community service, see the Life Directions Center (LDC) section of this catalog. For further details on chapel credits, see the Student Life section of this catalog.
4. Meet the CCU Residency requirements.
5. Completion of seven semesters of MUA 175 - Music Convocation.
6. Acceptable performance on exit exams (e.g., Praxis Exam), as required by the faculty.
7. Formal and timely application for graduation by the date specified by the University Registrar.
8. No outstanding financial obligation to the University.

Secondary English/Language Arts Licensure Program: B.A. English

The Secondary English/Language Arts Licensure Program graduates earn a B.A. in English. This program is 120 credit hours and offers supervised clinical practice experiences in both middle and high school settings. Upon program completion, the candidate has met all requirements for an institutional recommendation for an Initial Colorado Teacher License with an Endorsement in English Language Arts.

The Secondary Education English/Language Arts Licensure Program requires a major in English and completion of the following 120 credit hours:

General Education Core (36 credit hours)

English Major Core (39 credit hours)

Secondary Education Professional Core (39 credit hours)

General Electives (6 credit hours)

General Education Core (36 credit hours)

Arts and Humanities (3 credit hours)

PHL 202 - Introduction to Philosophy

(3) This course is a survey of many major issues raised over the two-and-a-half millennia of western philosophy. With an emphasis on historical context and development, as well as philosophy's relationship to Christian thought, this course challenges students to critically explore philosophical questions and introduce them to the great tradition of intellectual inquiry. Special attention will be given to the subjects of truth and knowledge, reality and appearance, mind and body, right and wrong, beauty and the existence of God.

When Offered

Fall and summer semesters.

Biblical Studies (12 credit hours)

HIS 111 - Old Testament

(3) This course provides an introduction to the theological, historical, and literary features of the Old Testament, tracing God's covenant relationship with ancient Israel. Special consideration will be given to the divine covenants and Messianic prophecies of the Old Testament.

When Offered

Every spring semester.

Cross-listed BIB 111.

HUM 114 - New Testament

(3) This course provides an introduction to the theological, historical, and literary features of the New Testament, tracing the presentation of the gospel message through historical, epistolary, and apocalyptic genres. Special consideration will be given to the life of Christ and missionary journeys of the Apostle Paul.

When Offered

Every fall semester.

Cross-listed BIB 114.

PHL 315 - World Religions and Systems of Belief

(3) This course introduces an academic study of religion and what is called worldview, supplemented by an overview of some of the major tenets of Christianity; this is then followed by a survey of several other religious traditions and

competing philosophies.

Prerequisites: PHL 202, THE 201.

When Offered

Winter and spring semesters.

THE 201 - Introduction to Theology

(3) This course covers basic issues, themes, and categories of Christian theology, including the doctrines of Scripture, God, humanity, Christ, salvation, the church, and last things. This course encourages students to better know, trust, love, and live by God's Word.

Prerequisites: BIB 111, BIB 114.

When Offered

Fall, winter, spring, and summer semesters.

Communication (3 credit hours)

ENG 102 - English Composition

(3) Effective use of the English language and exploration of rhetorical modes in written composition. Review of structure, purpose, and audience awareness in developing essays.

Prerequisites: ACT and/or SAT scores will be used to determine placement in either ENG 102 or ENG 102 (Basic).

Notes: Course must be completed first semester at CCU.

When Offered

Fall and spring semester.

ENG 105 - Advanced English Composition

(3) Advanced English composition, research methods, and literary study for invited exceptional students. Focus on both the study of literature and research writing.

Prerequisites: One of the following:

- AP English Language and Composition
 - A score of 4 is the minimum prerequisite for enrollment in ENG 105. A student who scores a 4 or 5 will automatically enroll a student in ENG 105 instead of ENG 102 and/or ENG 201.
- AP English Literature and Composition
 - A score of 4 is the minimum prerequisite for enrollment in ENG 105. A student who scores a 4 or 5 will automatically enroll a student in ENG 105 instead of ENG 102 and/or ENG 201.
- Score of 30 or above on the verbal section of the ACT exam.
- Score of 700 or above on the verbal section of the SAT exam.
- By invitation of the English department.

Notes: Fulfills general education requirements for both ENG 102 and ENG 201.

When Offered

Every fall semester.

Integrative Studies (3 credit hours)

INT 101 - First-Year Integration

(3) Think critically, grow spiritually, and change the world. Based on the premise that we as Christians are called to be rational creatures, relational creatures, and responsible creatures, FYI is an integrative study of foundational Christian principles with other disciplines. Examination and discussion of problems and contemporary issues - academic, personal, and social - facing students in their pursuit of success in college and life. Please see the First-Year Integration (FYI) page for specific information about this required course.

When Offered

Fall and spring semesters.

Please see the First-Year Integration (FYI) page for specific information about the required INT 101 course.

Mathematics (3 credit hours)

MAT 112 - Mathematics for Liberal Arts

(3) This course introduces some of the important ideas in mathematics and how they can be applied in everyday life situations, solving a wide range of practical problems. Topics include sets, logic, history of numeration, number systems

and their properties, number patterns, counting principles, probability, statistics, graph theory, personal finance, and voting methods.

Notes: Students with higher level mathematics skills (i.e. ACT MAT above 20 and SAT MATH above 520) are discouraged from taking this class. Only students who do not place into MAT 111 - College Algebra should enroll in MAT 112 - Mathematics for Liberal Arts.

When Offered

Fall, spring and summer semesters.

Science (3 credit hours)

SCI 230 - Integrated Physical Science with Lab

(3) This is an integrated course presenting the major concepts, theoretical perspectives, historical trends, and empirical findings of the physical sciences. Laboratory exercises and lectures explore motion, the four forces, heat, energy, chemical reactions, the structure and development of matter, the types and nature of chemical bonding, and the nature and history of the universe, the solar system, and the Earth.

Lab/Lecture Hours

Laboratory investigations included in course.

Fee

Lab fees apply.

When Offered

Every semester.

Social Sciences (9 credit hours)

ECO 215 - Economics

(3) Economics is about scarcity and choice. Students in this course study how people, firms, governments, and nations interact in alternative economic systems to make choices about allocating scarce resources. In addition, students learn to evaluate these systems, understand macroeconomic monetary and fiscal policies, and engage in policy debates.

When Offered

Fall and spring semesters.

HIS 185 - Western Civilization

(3) The spiritual values and intellectual achievements of ancient Israel, Greece, Rome, the Middle Ages, the Renaissance, and Reformation that gave birth to the modern world.

When Offered

Every fall semester.

HIS 205 - American History

(3) Principles of the founding and the political, economic, intellectual, cultural, and religious traditions that have shaped America.

When Offered

Every spring semester.

English Major Core (39 credit hours)

COM 103 - Public Speaking

(3) Introductory principles of communication emphasizing public speaking. Aspects of verbal and nonverbal delivery, speech organization, and the effective use of supporting material and presentational aids are addressed. Students give several speeches designed to better equip them for future speaking endeavors

When Offered

Fall and spring semesters.

ENG 201 - Introduction to Literature

(3) Understand, experience, and evaluate poetry, short fiction, essays, and drama genres, both American and multinational.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Fall and spring semesters.

ENG 202 - American Literature I

(3) Representative stories, poems, and documents in American literature from the Colonial era to the early Republic (1776-1830) through the Romantic-transcendentalist period (1830-1860). Includes readings from multiethnic and women writers.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every fall semester.

ENG 203 - American Literature II

(3) Representative stories, poems, and drama in American literature from the Civil War to the present. Nontraditional ethnic and women's voices included. Emphasis on interpretation and criticism of American literature.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every spring semester.

ENG 205 - British Literature II

(3) Surveys the history of literature in Britain from 1800 to the present and representative works by influential writers.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every spring semester.

ENG 230 - Introduction to Creative Writing

(3) Study and practice the methods, structures, and conventions of fiction, poetry, and other genres of creative writing.

Prerequisites: ENG 102 or permission of the instructor.

When Offered

Fall and spring semester.

ENG 305 - Poetry Seminar

(3) Interpretation and critical reading, structures, and conventions of poetry in English, past and present.

Prerequisites: One of the following: ENG 201, ENG 202, ENG 203, ENG 204, or ENG 205.

When Offered

Odd fall semesters.

ENG 310 - History of the British Novel

(3) Representative novels by British authors in various historical periods depicting human responses to differing economic, political, psychological, and social issues. Includes interpretation and criticism of the novel.

Prerequisites: Junior or Senior Status.

When Offered

Every fall semester.

ENG 330 - Shakespeare

(3) Analysis of literary and performance techniques for selected Shakespeare plays.

Prerequisites: One of the following: ENG 201, ENG 202, ENG 203, ENG 204 or ENG 205.

When Offered

Even spring semesters.

Cross-listed THR 330.

ENG 340 - American Ethnic Literatures

(3) Fiction, poetry, and nonfiction by major writers from American ethnic backgrounds (African, Asian, Jewish, Hispanic/Latino, and Native American, and others) are analyzed, and literary criticism on American ethnic literary concerns is

integrated into analysis of primary texts.

Prerequisites: One of the following: ENG 201, ENG 202, ENG 203, ENG 204 or ENG 205.

When Offered

Even fall semesters.

ENG 410 - History and Structure of the English Language

(3) The course traces the development of English from its origins, with special emphasis on the relationship of language development to cultural background and environment; standard and non-standard dialect usage; and grammatical structure.

Prerequisites: Junior or Senior status.

Fee

Fees may apply.

When Offered

Every spring semester.

Choose two of the following courses:

ENG 204 - British Literature I

(3) Surveys the history of literature in Britain until 1800 and representative works by influential writers of the periods contained therein.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every fall semester.

ENG 360 - World Literature

(3) Multinational works of contemporary literature in English translation. Central human dilemmas and the role of literature in other societies.

Prerequisites: One of the following: ENG 201, ENG 202, ENG 203, ENG 204 or ENG 205.

When Offered

Odd fall semesters.

ENG 380 - Christian Writers

(3) Foundational literary works by Christian writers: their scriptural, historical, and cultural influences, from the medieval period to the present.

Prerequisites: One of the following: ENG 201, ENG 202, ENG 203, ENG 204 or ENG 205.

When Offered

Even spring semesters.

ENG 408 - Seminar in Literary Topics

(3) This seminar provides a variety of literary topics for analysis and discussion. Previous Seminars in Literary Topics have been on Detective Fiction, Tolkien, Russian Literature, the Romantics, Conversations with the Classics, Great Books, and others.

Prerequisites: Junior or Senior Status.

Notes: May be repeated for a maximum of 6 credit hours applied toward the English major.

When Offered

Scheduled by School.

ENG 430 - Advanced Creative Writing: Fiction

(3) Technique, writing practice, and criticism. Publishing guidelines.

Prerequisites: ENG 230 and junior/senior status or permission of the instructor.

When Offered

Odd spring semesters.

ENG 440 - Literary Criticism

(3) Identification and analysis of critical issues and key works in the history of literary criticism and literary theory.

Prerequisites: Junior or Senior status.

When Offered

Odd fall semesters.

- Other 300-400 by SOE approval

Secondary Education Professional Core (39 credit hours)

CLD 205 - Culturally Responsive Pedagogy

(3) This course focuses on theories, concepts, research and pedagogical techniques related to culturally-responsive teaching, English language learning, language and content acquisition, teacher-student relationships, and building school-community partnerships with culturally diverse populations.

Prerequisites: Sophomore standing.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

EDU 215 - Field 1 Theory and Practice in Secondary Education

(3) Field 1 is the first of a four-semester, professional field-based experience within a CCU partnership secondary school. The focus is on education theory, as well as the development and implementation of standards-based lessons under university and school-based teacher supervision. Teacher candidates complete hours toward the clinical program hour minimum in addition to on-campus seminars.

Fee

Course fees apply.

When Offered

Every fall and spring semester.

EDU 260 - Field 2 Secondary Classroom and Behavior Management

(3) Field 2 is the second of a four-semester, professional field-based experience within a CCU partnership school. The focus is on implementation of research-based methods related to classroom and behavior management under university and school-based teacher supervision. Teacher candidates complete hours toward the required clinical program hour minimum in addition to on-campus seminars.

Prerequisites: EDU 215 or SPD 213. School of Education major or minor students only.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

EDU 340 - Assessment of Learning and Critical Thinking

(3) The role of assessment and evaluation in critical thinking development and the instructional decision-making process is explored, with an emphasis on practical application to student learning outcomes, and increasing achievement for students from diverse backgrounds. Performance-based assessment, assessment procedures, protocols, and other assessment practices will be analyzed.

Prerequisites: Sophomore standing.

When Offered

Fall and spring semesters.

EDU 360 - Classical Education Pedagogy in the 21st Century

(3) This course explores the traditional approach to education rooted in western civilization and culture, employing the historic curriculum and pedagogy of the seven liberal arts in order to cultivate men and women characterized by truth, wisdom, virtue, and eloquence. This course may include a field-based experience.

Prerequisites: Sophomore standing.

When Offered

Every fall and spring semesters.

EDU 416 - Secondary English Student Teaching and Seminar 1

(3) This course is the third of a four-semester, professional field-based experience within a CCU partnership school. The focus is implementation of research-based methods in a secondary English classroom under university and school-based teacher supervision. Teacher Candidates implement English lessons aligned to state/professional standards. Teacher Candidates complete hours toward the required clinical program hour minimum in addition to on-campus seminars.

Prerequisites: EDU 260, EDU 340. Student must have a minimum cum GPA of 2.50.

Corequisites: EDU 440.

Fee

Course fees apply.

When Offered

Every fall semester.

EDU 440 - Secondary Curriculum and Instruction

(3) Teacher candidates complete a study of secondary curriculum in their endorsement area, design and implement a curricular unit aligned to Colorado Academic Standards, and implement an Action Research Project applying research instructional models and differentiated instruction. Teacher candidates complete the Field III course concurrently with EDU 440 to allow for implementation of lessons/assessments with students in a secondary partnership school.

Corequisites: EDU 415 or EDU 416 or EDU 450 or EDU 455.

When Offered

Every fall semester.

EDU 470 - Secondary Student Teaching and Seminar 2

(12) This course is the culminating, professional experience within a CCU secondary partnership school. Teacher candidates complete a full-time teaching experience under guidance of a licensed School-Based Teacher and CCU Supervisor. Teacher candidates implement lessons and complete action research via instruction aligned to state/professional standards. Teacher candidates complete the clinical program hour minimum in addition to on-campus seminars.

Prerequisites: All other degree program courses.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

EPS 342 - Adolescent Development and Culture

(3) Biological, cognitive, psychological, social, and moral growth and development of early, middle and late adolescents. Explores theories of adolescent development in a family, peer, school, and community context. Explores personal, educational and career decision making, psychosocial problems during adolescence, and implications for teaching, youth ministry, counseling, and nonprofit organization work with youth.

Prerequisites: Sophomore standing (30+ Credit Hours).

When Offered

Every fall and spring semester.

SPD 210 - Introduction to Special Education

(3) Understanding of the integration of exceptional children and adolescents (K-12) into general educational environments. Development of an understanding of students with special needs. Designing a learning environment to include assessment and adaptation of instruction to maximize student learning potential.

When Offered

Every fall and spring semester.

SED 500 - Introduction to Special Education

(3) This course is an introduction to the profession of special education and focuses on the foundations of special education (history, law, and finance), the special education teacher (ethics, professionalism and roles), and with knowledge about current trends (issues and research based). (Includes 20 field hours)

Electives (6 credit hours)

Teacher candidates in the Secondary English Licensure Program may choose 6 general elective credit hours in a subject area of their choice, or use these electives to transfer approved credits into their CCU program. Teacher candidates are required to work directly with their Life Directions Center Advisor regarding choice and enrollment of elective credits.

Secondary Program Courses With Corequisites and/or Prerequisites

EDU 260 - Field 2 Secondary Classroom and Behavior Management

(3) Field 2 is the second of a four-semester, professional field-based experience within a CCU partnership school. The focus is on implementation of research-based methods related to classroom and behavior management under university and school-based teacher supervision. Teacher candidates complete hours toward the required clinical program hour minimum in addition to on-campus seminars.

Prerequisites: EDU 215 or SPD 213. School of Education major or minor students only.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

EDU 340 - Assessment of Learning and Critical Thinking

(3) The role of assessment and evaluation in critical thinking development and the instructional decision-making process is explored, with an emphasis on practical application to student learning outcomes, and increasing achievement for students from diverse backgrounds. Performance-based assessment, assessment procedures, protocols, and other assessment practices will be analyzed.

Prerequisites: Sophomore standing.

When Offered

Fall and spring semesters.

EDU 416 - Secondary English Student Teaching and Seminar 1

Graduation Requirements for the Bachelor of Arts in English with Secondary Education Licensure

The faculty recommends students in the B.A. in English with Secondary Education Licensure to the Board of Trustees as candidates for graduation when they have completed the following requirements.

1. Completion of a total of 120 credits, including all general education, English major, and secondary education professional core requirements.
2. A letter grade of D or better and a cumulative GPA of 2.5 or better in all CCU coursework, and a C- or better in all professional education courses.
3. Completion of 180 hours of ministry/community service and 180 chapel credits. Transfer students are required to complete 45 hours of ministry/community service and 45 chapel credits each year of attendance at CCU. For further details on ministry/community service, see the Life Directions Center (LDC) section of this catalog. For further details on chapel credits, see the Student Life section of this catalog.
4. Meet the CCU Residency requirements.
5. Acceptable performance on exit exams (e.g., PRAXIS Exam), as required by the faculty.
6. Formal and timely application for graduation by the date specified by the University Registrar.

Secondary Mathematics Licensure Program: B.S. in General Mathematics

The Secondary Mathematics Licensure Program graduates earn a B.S. in Mathematics. This program is 120 credit hours and offers supervised clinical practice experiences in both middle and high school settings. Upon program completion, the candidate has met all requirements for an institutional recommendation for an Initial Colorado Teacher License with an Endorsement in the area of Mathematics.

The Secondary Education Mathematics Licensure Program requires a major in Mathematics and completion of the following 120 credit hours:

General Education Core (45 credit hours)

Mathematics Major Core (30 credit hours)

Secondary Education Professional Core (36 credit hours)
Electives (9 credit hours)

General Education Core (45 credit hours)

Arts and Humanities (9 credit hours)

PHL 202 - Introduction to Philosophy

(3) This course is a survey of many major issues raised over the two-and-a-half millennia of western philosophy. With an emphasis on historical context and development, as well as philosophy's relationship to Christian thought, this course challenges students to critically explore philosophical questions and introduce them to the great tradition of intellectual inquiry. Special attention will be given to the subjects of truth and knowledge, reality and appearance, mind and body, right and wrong, beauty and the existence of God.

When Offered

Fall and summer semesters.

ENG 201 - Introduction to Literature

(3) Understand, experience, and evaluate poetry, short fiction, essays, and drama genres, both American and multinational.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Fall and spring semesters.

ENG 202 - American Literature I

(3) Representative stories, poems, and documents in American literature from the Colonial era to the early Republic (1776-1830) through the Romantic-transcendentalist period (1830-1860). Includes readings from multiethnic and women writers.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every fall semester.

HUM 120 - Introduction to the Arts

(3) Introduction to our humanity through hands-on experience in the arts (music, visual arts, poetry, story, play, and dance). Aesthetic and artistic values in the broader context of human cultural development, responsibility, and joy.

Notes: This course satisfies the general education fine arts requirement for most students, and is the required fine arts course for education majors. It is recommended for all students with a general interest in the fine arts. Students with a special interest in theatre should see THR 112. Students with a special interest in music should see MUS 110.

Note: HUM 120 does not satisfy the fine arts requirement for music majors or minors.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

MUS 110 - Musical Perspectives

(3) An exploration of music in the broader context of culture and the arts; personal musical experiences through listening and doing; and developing the ability to discern aesthetic excellence. Included is an introduction to the elements of music and how music works, the development of a Christian perspective on the arts, a broad survey of representative selections of Western music, and a focused overview of non-western/world music.

Notes: This course satisfies the general education fine arts requirement for most students. It is recommended for all students, especially those with an interest in music, and is the required fine arts course for all music majors and minors. Students with a special interest in Theatre should see THR 112.

Note: MUS 110 does not satisfy the fine arts requirement for education majors.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

THR 112 - Theatre Appreciation

(3) An introduction to the theatre world and all its aspects: the people who are active in that world, the many kinds of work that are created, the sensations and ideas we receive from those works, and the ways the life of theatre has transmitted across many times and place.

Notes: This course satisfies the general education fine arts requirement for most students. It is recommended for all students, especially those with an interest in theatre. Students with a special interest in music should see MUS 110.

Note: THR 112 does not satisfy the fine arts requirement for music majors or minors, or education majors.

When Offered

Fall and spring semesters.

Biblical Studies (12 credit hours)

HIS 111 - Old Testament

(3) This course provides an introduction to the theological, historical, and literary features of the Old Testament, tracing God's covenant relationship with ancient Israel. Special consideration will be given to the divine covenants and Messianic prophecies of the Old Testament.

When Offered

Every spring semester.

Cross-listed BIB 111.

HUM 114 - New Testament

(3) This course provides an introduction to the theological, historical, and literary features of the New Testament, tracing the presentation of the gospel message through historical, epistolary, and apocalyptic genres. Special consideration will be given to the life of Christ and missionary journeys of the Apostle Paul.

When Offered

Every fall semester.

Cross-listed BIB 114.

THE 201 - Introduction to Theology

(3) This course covers basic issues, themes, and categories of Christian theology, including the doctrines of Scripture, God, humanity, Christ, salvation, the church, and last things. This course encourages students to better know, trust, love, and live by God's Word.

Prerequisites: BIB 111, BIB 114.

When Offered

Fall, winter, spring, and summer semesters.

PHL 315 - World Religions and Systems of Belief

(3) This course introduces an academic study of religion and what is called worldview, supplemented by an overview of some of the major tenets of Christianity; this is then followed by a survey of several other religious traditions and competing philosophies.

Prerequisites: PHL 202, THE 201.

When Offered

Winter and spring semesters.

Communication (6 credit hours)

COM 103 - Public Speaking

(3) Introductory principles of communication emphasizing public speaking. Aspects of verbal and nonverbal delivery, speech organization, and the effective use of supporting material and presentational aids are addressed. Students give several speeches designed to better equip them for future speaking endeavors.

When Offered

Fall and spring semesters.

ENG 102 - English Composition

(3) Effective use of the English language and exploration of rhetorical modes in written composition. Review of structure, purpose, and audience awareness in developing essays.

Prerequisites: ACT and/or SAT scores will be used to determine placement in either ENG 102 or ENG 102 (Basic).

Notes: Course must be completed first semester at CCU.

When Offered

Fall and spring semester.

ENG 105 - Advanced English Composition

(3) Advanced English composition, research methods, and literary study for invited exceptional students. Focus on both the study of literature and research writing.

Prerequisites: One of the following:

- AP English Language and Composition
 - A score of 4 is the minimum prerequisite for enrollment in ENG 105. A student who scores a 4 or 5 will automatically enroll a student in ENG 105 instead of ENG 102 and/or ENG 201.
- AP English Literature and Composition
 - A score of 4 is the minimum prerequisite for enrollment in ENG 105. A student who scores a 4 or 5 will automatically enroll a student in ENG 105 instead of ENG 102 and/or ENG 201.
- Score of 30 or above on the verbal section of the ACT exam.
- Score of 700 or above on the verbal section of the SAT exam.
- By invitation of the English department.

Notes: Fulfills general education requirements for both ENG 102 and ENG 201.

When Offered

Every fall semester.

Integrative Studies (3 credit hours)

INT 101 - First-Year Integration

(3) Think critically, grow spiritually, and change the world. Based on the premise that we as Christians are called to be rational creatures, relational creatures, and responsible creatures, FYI is an integrative study of foundational Christian principles with other disciplines. Examination and discussion of problems and contemporary issues - academic, personal, and social - facing students in their pursuit of success in college and life. Please see the First-Year Integration (FYI) page for specific information about this required course.

When Offered

Fall and spring semesters.

Please see the First-Year Integration (FYI) page for specific information about the required INT 101 course.

Science (3 credit hours)

SCI 230 - Integrated Physical Science with Lab

(3) This is an integrated course presenting the major concepts, theoretical perspectives, historical trends, and empirical findings of the physical sciences. Laboratory exercises and lectures explore motion, the four forces, heat, energy, chemical reactions, the structure and development of matter, the types and nature of chemical bonding, and the nature and history of the universe, the solar system, and the Earth.

Lab/Lecture Hours

Laboratory investigations included in course.

Fee

Lab fees apply.

When Offered

Every semester.

Social Sciences (12 credit hours)

GEO 270 - World Geography

(3) Introduces students to key concepts in geography and mapping: explores political, economic, and cultural geography, as well as physical geography and the environment.

When Offered

Every spring semester.

HIS 185 - Western Civilization

(3) The spiritual values and intellectual achievements of ancient Israel, Greece, Rome, the Middle Ages, the Renaissance, and Reformation that gave birth to the modern world.

When Offered

Every fall semester.

HIS 205 - American History

(3) Principles of the founding and the political, economic, intellectual, cultural, and religious traditions that have shaped America.

When Offered

Every spring semester.

POL 207 - Introduction to American Politics

(3) Introduction to political science and American government to prepare students to be effective citizens.

When Offered

Every fall and spring semester.

Mathematics Major Core (30 credit hours)

ECO 215 - Economics

(3) Economics is about scarcity and choice. Students in this course study how people, firms, governments, and nations interact in alternative economic systems to make choices about allocating scarce resources. In addition, students learn to evaluate these systems, understand macroeconomic monetary and fiscal policies, and engage in policy debates.

When Offered

Fall and spring semesters.

MAT 111 - College Algebra

(3) Study of equations, inequalities, functions, graphs, exponents, logarithms.

Prerequisites: SAT mathematics score of 520 or an ACT mathematics score of 20. OR a B- or better in high school algebra II. Meets general education requirements for mathematics for health science majors.

When Offered

Fall, spring and summer semesters.

MAT 115 - Pre-Calculus

(3) Study of functions - polynomial, rational, exponential, logarithmic and trigonometric. Emphasis on representing these functions numerically, graphically, symbolically. A recommended prerequisite course for Calculus I.

Prerequisites: 1. Successful completion of high school Algebra II and geometry as well as an SAT mathematics score of 550 or better, or an ACT mathematics score of 24 or better. OR 2. Successful completion of MAT 111 College Algebra with a B- or better.

When Offered

Every summer semester.

MAT 125 - College Geometry

(3) This course focuses on modern geometry, Euclidean geometry, trigonometry and geometric transformations. Students develop content proficiency through diverse course activities and use of mathematic software. Students also engage in mathematical problem solving through application of concepts to real-world situations.

When Offered

Odd spring semesters.

MAT 141 - Calculus I

(4) First semester single-variable calculus and analytic geometry: Limits, continuity, differentiation and its applications, Fundamental Theorem of Calculus, basic integration techniques.

Prerequisites: MAT 115 or high school pre-calculus completed with a grade of B- or better, or instructor permission.

Corequisites: MAT 142.

When Offered

Fall, spring and summer semesters.

MAT 142 - Calculus I Recitation

(0) Co-requisite for MAT 141.

Prerequisites: MAT 115 or high school pre-calculus completed with a grade of B- or better, or instructor permission.

Corequisites: MAT 141.

When Offered

Fall, spring and summer semesters.

MAT 212 - Statistics and their Application

(3) An introduction to statistical analysis as used in various liberal arts disciplines. Descriptive and inferential statistics and attendant research designs will be considered. Students will become familiar with SPSS and its use in analyzing data and decision making.

Prerequisites: Sophomore standing.

When Offered

Fall and spring semesters.

MAT 241 - Calculus II

(4) Second semester single-variable calculus and analytic geometry: Advanced techniques of integration, polar equations, parametric equations, introduction to differential equations, infinite sequences and series, convergence, power series, and Taylor polynomials. Limits, continuity, derivatives, applications of the derivative, integrals, applications of integrals, techniques of integration, infinite sequences and series including Taylor's series.

Prerequisites: MAT 141, MAT 142 with a grade of B- or better, or AP Calculus AB with a score of 4 or 5, or instructor permission.

Corequisites: MAT 242.

When Offered

Every spring semester.

MAT 242 - Calculus II Recitation

(0) Recitation section to accompany MAT 241.

Prerequisites: MAT 141, MAT 142 with a grade of B- or better, or AP Calculus AB with a score of 4 or 5, or instructor permission.

Corequisites: MAT 241.

When Offered

Every spring semester.

MAT 261 - Linear Algebra

(4) Matrix theory and linear algebra: Systems of linear equations, matrix operations, linear dependence and independence, orthogonal bases and projections, determinants, eigenvalues and eigenvectors, linear transformations.

Prerequisites: MAT 141, MAT 142 with a grade of C- or better.

Corequisites: MAT 262.

When Offered

Every spring semester.

MAT 262 - Linear Algebra Recitation

(0) Recitation section to accompany MAT 261.

Prerequisites: MAT 141, MAT 142 with a grade of C- or better.

Corequisites: MAT 261.

When Offered

Every spring semester.

MAT 315 - Historical Foundations of Mathematics

(3) This course focuses on the historical and philosophical foundations of mathematics and mathematics education. In addition to a comprehensive introduction to the history of mathematics, topics will also include a review of common historical and present-day mathematical tools, as well as current ethical considerations related to mathematics in society.

When Offered

Even spring semesters.

Secondary Education Professional Core (36 credit hours)**CLD 205 - Culturally Responsive Pedagogy**

(3) This course focuses on theories, concepts, research and pedagogical techniques related to culturally-responsive teaching, English language learning, language and content acquisition, teacher-student relationships, and building school-community partnerships with culturally diverse populations.

Prerequisites: Sophomore standing.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

EDU 215 - Field 1 Theory and Practice in Secondary Education

(3) Field 1 is the first of a four-semester, professional field-based experience within a CCU partnership secondary school. The focus is on education theory, as well as the development and implementation of standards-based lessons under university and school-based teacher supervision. Teacher candidates complete hours toward the clinical program hour minimum in addition to on-campus seminars.

Fee

Course fees apply.

When Offered

Every fall and spring semester.

EDU 260 - Field 2 Secondary Classroom and Behavior Management

(3) Field 2 is the second of a four-semester, professional field-based experience within a CCU partnership school. The focus is on implementation of research-based methods related to classroom and behavior management under university and school-based teacher supervision. Teacher candidates complete hours toward the required clinical program hour minimum in addition to on-campus seminars.

Prerequisites: EDU 215 or SPD 213. School of Education major or minor students only.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

EDU 340 - Assessment of Learning and Critical Thinking

(3) The role of assessment and evaluation in critical thinking development and the instructional decision-making process is explored, with an emphasis on practical application to student learning outcomes, and increasing achievement for students from diverse backgrounds. Performance-based assessment, assessment procedures, protocols, and other assessment practices will be analyzed.

Prerequisites: Sophomore standing.

When Offered

Fall and spring semesters.

EDU 440 - Secondary Curriculum and Instruction

(3) Teacher candidates complete a study of secondary curriculum in their endorsement area, design and implement a curricular unit aligned to Colorado Academic Standards, and implement an Action Research Project applying research instructional models and differentiated instruction. Teacher candidates complete the Field III course concurrently with EDU

440 to allow for implementation of lessons/assessments with students in a secondary partnership school.

Corequisites: EDU 415 or EDU 416 or EDU 450 or EDU 455.

When Offered

Every fall semester.

EDU 455 - Secondary Mathematics Student Teaching and Seminar 1

(3) This course is the third of a four-semester, professional field-based experience within a CCU partnership school. The focus is on implementation of research-based methods in a secondary mathematics classroom under university and school-based teacher supervision. Teacher candidates implement mathematics lessons aligned to state/professional standards. Teacher candidates complete hours toward the required clinical program hour minimum in addition to on-campus seminars.

Prerequisites: EDU 260, EDU 340. Student must have a minimum cum GPA of 2.50.

Corequisites: EDU 440.

Fee

Course fees apply.

When Offered

Every fall semester.

EDU 470 - Secondary Student Teaching and Seminar 2

(12) This course is the culminating, professional experience within a CCU secondary partnership school. Teacher candidates complete a full-time teaching experience under guidance of a licensed School-Based Teacher and CCU Supervisor. Teacher candidates implement lessons and complete action research via instruction aligned to state/professional standards. Teacher candidates complete the clinical program hour minimum in addition to on-campus seminars.

Prerequisites: All other degree program courses.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

EPS 342 - Adolescent Development and Culture

(3) Biological, cognitive, psychological, social, and moral growth and development of early, middle and late adolescents. Explores theories of adolescent development in a family, peer, school, and community context. Explores personal, educational and career decision making, psychosocial problems during adolescence, and implications for teaching, youth ministry, counseling, and nonprofit organization work with youth.

Prerequisites: Sophomore standing (30+ Credit Hours).

When Offered

Every fall and spring semester.

SPD 210 - Introduction to Special Education

(3) Understanding of the integration of exceptional children and adolescents (K-12) into general educational environments. Development of an understanding of students with special needs. Designing a learning environment to include assessment and adaptation of instruction to maximize student learning potential.

When Offered

Every fall and spring semester.

SED 500 - Introduction to Special Education

(3) This course is an introduction to the profession of special education and focuses on the foundations of special education (history, law, and finance), the special education teacher (ethics, professionalism and roles), and with knowledge about current trends (issues and research based). (Includes 20 field hours)

Electives (9 credit hours)

Teacher candidates in the Secondary Mathematics Licensure Program may choose 9 general elective credit hours in a subject area of their choice, or use these electives to transfer approved credits into their CCU program. Teacher

candidates are required to work directly with their Life Directions Center Advisor regarding choice and enrollment of elective credits.

Secondary Mathematics Program Courses With Corequisites and/or Prerequisites

EDU 260 - Field 2 Secondary Classroom and Behavior Management

(3) Field 2 is the second of a four-semester, professional field-based experience within a CCU partnership school. The focus is on implementation of research-based methods related to classroom and behavior management under university and school-based teacher supervision. Teacher candidates complete hours toward the required clinical program hour minimum in addition to on-campus seminars.

Prerequisites: EDU 215 or SPD 213. School of Education major or minor students only.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

EDU 340 - Assessment of Learning and Critical Thinking

(3) The role of assessment and evaluation in critical thinking development and the instructional decision-making process is explored, with an emphasis on practical application to student learning outcomes, and increasing achievement for students from diverse backgrounds. Performance-based assessment, assessment procedures, protocols, and other assessment practices will be analyzed.

Prerequisites: Sophomore standing.

When Offered

Fall and spring semesters.

EDU 440 - Secondary Curriculum and Instruction

(3) Teacher candidates complete a study of secondary curriculum in their endorsement area, design and implement a curricular unit aligned to Colorado Academic Standards, and implement an Action Research Project applying research instructional models and differentiated instruction. Teacher candidates complete the Field III course concurrently with EDU 440 to allow for implementation of lessons/assessments with students in a secondary partnership school.

Corequisites: EDU 415 or EDU 416 or EDU 450 or EDU 455.

When Offered

Every fall semester.

EDU 455 - Secondary Mathematics Student Teaching and Seminar 1

(3) This course is the third of a four-semester, professional field-based experience within a CCU partnership school. The focus is on implementation of research-based methods in a secondary mathematics classroom under university and school-based teacher supervision. Teacher candidates implement mathematics lessons aligned to state/professional standards. Teacher candidates complete hours toward the required clinical program hour minimum in addition to on-campus seminars.

Prerequisites: EDU 260, EDU 340. Student must have a minimum cum GPA of 2.50.

Corequisites: EDU 440.

Fee

Course fees apply.

When Offered

Every fall semester.

EDU 470 - Secondary Student Teaching and Seminar 2

(12) This course is the culminating, professional experience within a CCU secondary partnership school. Teacher candidates complete a full-time teaching experience under guidance of a licensed School-Based Teacher and CCU Supervisor. Teacher candidates implement lessons and complete action research via instruction aligned to state/professional standards. Teacher candidates complete the clinical program hour minimum in addition to on-campus seminars.

Prerequisites: All other degree program courses.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

CLD 205 - Culturally Responsive Pedagogy

(3) This course focuses on theories, concepts, research and pedagogical techniques related to culturally-responsive teaching, English language learning, language and content acquisition, teacher-student relationships, and building school-community partnerships with culturally diverse populations.

Prerequisites: Sophomore standing.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

Professional Licensure Disclosure

Colorado Christian University offers several academic programs which lead to professional licensure in the state of Colorado and, in some programs, prepare students for a national exam. All students should be aware that states vary in their educational and professional requirements depending on the profession. Some states require specific educational requirements, clinical requirements, accreditation requirements, or exam requirements. See professional licensure disclosures for details.

Graduation Requirements for the Bachelor of Science in Mathematics with Secondary Education Licensure

The faculty recommends students in the B.S. in Mathematics with Secondary Education Licensure to the Board of Trustees as candidates for graduation when they have completed the following requirements.

1. Completion of a total of 120 credits, including all general education, electives, Mathematics major, and secondary education professional core requirements.
2. A letter grade of D or better and a cumulative GPA of 2.5 or better in all CCU coursework, and a C- or better in all professional education courses.
3. Completion of 180 hours of ministry/community service and 180 chapel credits. Transfer students are required to complete 45 hours of ministry/community service and 45 chapel credits each year of attendance at CCU. For further details on ministry/community service, see the Life Directions Center (LDC) section of this catalog. For further details on chapel credits, see the Student Life section of this catalog.
4. Meet the CCU Residency requirements.
5. Acceptable performance on exit exams (e.g., PRAXIS Exam), as required by the faculty.
6. Formal and timely application for graduation by the date specified by the University Registrar.

Secondary Science Licensure Program: B.S. General Science

The Secondary Science Licensure Program graduates earn a B.S. in General Science. This program is 126 credit hours and offers supervised clinical practice experiences in both middle and high school settings. Upon program completion, the candidate has met all requirements for an institutional recommendation for an Initial Colorado Teacher License with an Endorsement in Science.

The Secondary Education Science Licensure Program requires a major in General Science and completion of the following 126 credit hours:

General Education Core (39 credit hours)

General Science Major Core (51-52 credit hours)

Secondary Education Professional Core (36 credit hours)

General Education Core (39 credit hours)**Arts and Humanities (9 credit hours)****PHL 202 - Introduction to Philosophy**

(3) This course is a survey of many major issues raised over the two-and-a-half millennia of western philosophy. With an emphasis on historical context and development, as well as philosophy's relationship to Christian thought, this course challenges students to critically explore philosophical questions and introduce them to the great tradition of intellectual inquiry. Special attention will be given to the subjects of truth and knowledge, reality and appearance, mind and body, right

and wrong, beauty and the existence of God.

When Offered

Fall and summer semesters.

ENG 201 - Introduction to Literature

(3) Understand, experience, and evaluate poetry, short fiction, essays, and drama genres, both American and multinational.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Fall and spring semesters.

ENG 202 - American Literature I

(3) Representative stories, poems, and documents in American literature from the Colonial era to the early Republic (1776-1830) through the Romantic-transcendentalist period (1830-1860). Includes readings from multiethnic and women writers.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every fall semester.

ENG 203 - American Literature II

(3) Representative stories, poems, and drama in American literature from the Civil War to the present. Nontraditional ethnic and women's voices included. Emphasis on interpretation and criticism of American literature.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every spring semester.

HUM 120 - Introduction to the Arts

(3) Introduction to our humanity through hands-on experience in the arts (music, visual arts, poetry, story, play, and dance). Aesthetic and artistic values in the broader context of human cultural development, responsibility, and joy.

Notes: This course satisfies the general education fine arts requirement for most students, and is the required fine arts course for education majors. It is recommended for all students with a general interest in the fine arts. Students with a special interest in theatre should see THR 112. Students with a special interest in music should see MUS 110.

Note: HUM 120 does not satisfy the fine arts requirement for music majors or minors.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

MUS 110 - Musical Perspectives

(3) An exploration of music in the broader context of culture and the arts; personal musical experiences through listening and doing; and developing the ability to discern aesthetic excellence. Included is an introduction to the elements of music and how music works, the development of a Christian perspective on the arts, a broad survey of representative selections of Western music, and a focused overview of non-western/world music.

Notes: This course satisfies the general education fine arts requirement for most students. It is recommended for all students, especially those with an interest in music, and is the required fine arts course for all music majors and minors. Students with a special interest in Theatre should see THR 112.

Note: MUS 110 does not satisfy the fine arts requirement for education majors.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

THR 112 - Theatre Appreciation

(3) An introduction to the theatre world and all its aspects: the people who are active in that world, the many kinds of work that are created, the sensations and ideas we receive from those works, and the ways the life of theatre has transmitted

across many times and place.

Notes: This course satisfies the general education fine arts requirement for most students. It is recommended for all students, especially those with an interest in theatre. Students with a special interest in music should see MUS 110.

Note: THR 112 does not satisfy the fine arts requirement for music majors or minors, or education majors.

When Offered

Fall and spring semesters.

Biblical Studies (12 credit hours)

HIS 111 - Old Testament

(3) This course provides an introduction to the theological, historical, and literary features of the Old Testament, tracing God's covenant relationship with ancient Israel. Special consideration will be given to the divine covenants and Messianic prophecies of the Old Testament.

When Offered

Every spring semester.

Cross-listed BIB 111.

HUM 114 - New Testament

(3) This course provides an introduction to the theological, historical, and literary features of the New Testament, tracing the presentation of the gospel message through historical, epistolary, and apocalyptic genres. Special consideration will be given to the life of Christ and missionary journeys of the Apostle Paul.

When Offered

Every fall semester.

Cross-listed BIB 114.

PHL 315 - World Religions and Systems of Belief

(3) This course introduces an academic study of religion and what is called worldview, supplemented by an overview of some of the major tenets of Christianity; this is then followed by a survey of several other religious traditions and competing philosophies.

Prerequisites: PHL 202, THE 201.

When Offered

Winter and spring semesters.

THE 201 - Introduction to Theology

(3) This course covers basic issues, themes, and categories of Christian theology, including the doctrines of Scripture, God, humanity, Christ, salvation, the church, and last things. This course encourages students to better know, trust, love, and live by God's Word.

Prerequisites: BIB 111, BIB 114.

When Offered

Fall, winter, spring, and summer semesters.

Communication (6 credit hours)

COM 103 - Public Speaking

(3) Introductory principles of communication emphasizing public speaking. Aspects of verbal and nonverbal delivery, speech organization, and the effective use of supporting material and presentational aids are addressed. Students give several speeches designed to better equip them for future speaking endeavors

When Offered

Notes: Course must be completed first semester at CCU.

When Offered

Fall and spring semester.

ENG 105 - Advanced English Composition

(3) Advanced English composition, research methods, and literary study for invited exceptional students. Focus on both the study of literature and research writing.

Prerequisites: One of the following:

- AP English Language and Composition
 - A score of 4 is the minimum prerequisite for enrollment in ENG 105. A student who scores a 4 or 5 will automatically enroll a student in ENG 105 instead of ENG 102 and/or ENG 201.
- AP English Literature and Composition
 - A score of 4 is the minimum prerequisite for enrollment in ENG 105. A student who scores a 4 or 5 will automatically enroll a student in ENG 105 instead of ENG 102 and/or ENG 201.
- Score of 30 or above on the verbal section of the ACT exam.
- Score of 700 or above on the verbal section of the SAT exam.
- By invitation of the English department.

Notes: Fulfills general education requirements for both ENG 102 and ENG 201.

When Offered

Every fall semester.

Integrative Studies (3 credit hours)**INT 101 - First-Year Integration**

(3) Think critically, grow spiritually, and change the world. Based on the premise that we as Christians are called to be rational creatures, relational creatures, and responsible creatures, FYI is an integrative study of foundational Christian principles with other disciplines. Examination and discussion of problems and contemporary issues - academic, personal, and social - facing students in their pursuit of success in college and life. Please see the First-Year Integration (FYI) page for specific information about this required course.

When Offered

Fall and spring semesters.

Please see the First-Year Integration (FYI) page for specific information about the required INT 101 course.

Social Sciences (9 credit hours)**ECO 215 - Economics**

(3) Economics is about scarcity and choice. Students in this course study how people, firms, governments, and nations interact in alternative economic systems to make choices about allocating scarce resources. In addition, students learn to evaluate these systems, understand macroeconomic monetary and fiscal policies, and engage in policy debates.

When Offered

Fall and spring semesters.

HIS 185 - Western Civilization

(3) The spiritual values and intellectual achievements of ancient Israel, Greece, Rome, the Middle Ages, the Renaissance, and Reformation that gave birth to the modern world.

When Offered

Every fall semester.

HIS 205 - American History

(3) Principles of the founding and the political, economic, intellectual, cultural, and religious traditions that have shaped America.

When Offered

Every spring semester.

General Science Major Core (51-52 credit hours)**BIO 120 - Biological Principles**

(3) Life processes common to plants and animals, cell structure and function. Introduction to genetics, biochemistry, and development.

Prerequisites: For Biological and General Sciences majors only.
Corequisites: BIO 121.

When Offered

Every fall semester.

BIO 121 - Biological Principles Lab

(1) Corequisite Lab for BIO 120 Biological Principles.

Corequisites: BIO 120.

Lab/Lecture Hours

Three-hour lab.

Fee

Course fees apply.

When Offered

Every fall semester.

BIO 130 - Biological Diversity

(3) Continuation of BIO 120 Biological Principles. Introduction to human physiology, animal and plant kingdom, plant structure and function, ecology, and creation and evolution.

Prerequisites: For Biological and General Sciences majors only.
Corequisites: BIO 131.

When Offered

Every spring semester.

BIO 131 - Biological Diversity Lab

(1) Co-requisite lab for BIO 130 Biological Diversity.

Corequisites: BIO 130.

Lab/Lecture Hours

3-hour lab.

Fee

Course fees apply.

When Offered

Every spring semester.

CHM 121 - General Chemistry I

(4) Atomic structure, stoichiometry, chemical bonding, and gas and solution chemistry.

Prerequisites: MAT 111 or MAT 115 or MAT 141.
Corequisites: CHM 131 (Lab), CHM 141 (Recitation).

When Offered

Every fall semester.

CHM 131 - General Chemistry I Lab

(1)

Corequisites: CHM 121.

Lab/Lecture Hours

Three-hour lab.

Fee

Lab fees apply.

When Offered

Every fall semester.

CHM 141 - General Chemistry I Recitation

(0)

Corequisites: CHM 121.

When Offered

Every fall semester.

CHM 122 - General Chemistry II

(4) Major concepts in four areas of chemistry: physical chemistry (kinetics and equilibrium), analytical chemistry (acids, base, redox), inorganic chemistry (atmospheric chemistry and metals), organic chemistry (alkanes and function groups).

Prerequisites: Grade of C- or higher in CHM 121.

Corequisites: CHM 132 (Lab), CHM 142 (Recitation).

When Offered

Every spring semester.

CHM 132 - General Chemistry II Lab

(1)

Corequisites: CHM 122.

Lab/Lecture Hours

Three-hour lab.

Fee

Lab fees apply.

When Offered

Every spring semester.

CHM 142 - General Chemistry II Recitation

(0)

Corequisites: CHM 122.

When Offered

Every spring semester.

CHM 221 - Organic Chemistry I

(4) Introduction to the study of structure, reactions, properties, and mechanisms of organic molecules.

Prerequisites: CHM 122.

Corequisites: CHM 231 (Lab), CHM 241 (Recitation).

When Offered

Every fall semester.

CHM 231 - Organic Chemistry I Lab

(1) Basic organic procedures using microscale lab techniques, computer simulation, and data acquisition.

Corequisites: CHM 221.

Lab/Lecture Hours

Three-hour lab.

Fee

Lab fees apply.

When Offered

Every fall semester.

CHM 241 - Organic Chemistry I Recitation

(0)

Corequisites: CHM 221.

When Offered

Every fall semester.

BIO 201 - Human Anatomy and Physiology I

(3) Structure and function of the skeletal, muscular, and nervous systems.

Prerequisites: BIO 120 or BIO 209.

Corequisites: BIO 211 (Lab).

When Offered

Every fall and spring semester.

BIO 211 - Human Anatomy and Physiology I Lab

(1)

Corequisites: BIO 201.

Lab/Lecture Hours

Three-hour lab.

Fee

Lab fees apply.

When Offered

Every fall and spring semester.

OR

CHM 222 - Organic Chemistry II

(4) Continuation of CHM 221. Emphasis on organic synthesis and reaction mechanisms. Chemistry of heterocycles and biologically related compounds introduced.

Prerequisites: CHM 221.

Corequisites: CHM 232 (Lab), CHM 242 (Recitation).

When Offered

Every spring semester.

CHM 232 - Organic Chemistry II Laboratory

(1) Continuation of CHM 231.

Corequisites: CHM 222.

Lab/Lecture Hours

Three-hour lab.

Fee

Lab fees apply.

When Offered

Every spring semester.

CHM 242 - Organic Chemistry II Recitation

(0)

Corequisites: CHM 222.

When Offered

Every spring semester.

MAT 111 - College Algebra

(3) Study of equations, inequalities, functions, graphs, exponents, logarithms.

Prerequisites: SAT mathematics score of 520 or an ACT mathematics score of 20. OR a B- or better in high school algebra II. Meets general education requirements for mathematics for health science majors.

When Offered

Fall, spring and summer semesters.

MAT 141 - Calculus I

(4) First semester single-variable calculus and analytic geometry: Limits, continuity, differentiation and its applications, Fundamental Theorem of Calculus, basic integration techniques.

Prerequisites: MAT 115 or high school pre-calculus completed with a grade of B- or better, or instructor permission.

Corequisites: MAT 142.

When Offered

Fall, spring and summer semesters.

MAT 142 - Calculus I Recitation

(0) Co-requisite for MAT 141.

Prerequisites: MAT 115 or high school pre-calculus completed with a grade of B- or better, or instructor permission.

Corequisites: MAT 141.

When Offered

Fall, spring and summer semesters.

Please note: MAT 111 - College Algebra is a prerequisite for Calculus I and Calculus I Recitation.

PHY 103 - Physical Geology

(3) Physical/ chemical makeup of Earth and processes giving rise to its present form.

Corequisites: PHY 104.

Lab/Lecture Hours

Three credit lecture, one-credit lab, two required field trips.

When Offered

Every fall semester.

PHY 104 - Physical Geology Lab

(1) Lab.

Corequisites: PHY 103.

Lab/Lecture Hours

One credit lab.

Fee

Lab fees apply.

When Offered

Every fall semester.

PHY 210 - General Physics I

(4) Basic principles of physics; classical mechanics, electricity and magnetism, thermodynamics, other selected topics.

Prerequisites: MAT 111 or MAT 115 or MAT 141.

Corequisites: PHY 211, PHY 212.

When Offered

Every fall semester.

PHY 211 - General Physics I Recitation

(0) Recitation.

Corequisites: PHY 210.

When Offered

Every fall semester.

PHY 212 - General Physics I Lab

(1) Lab.

Corequisites: PHY 210.

Lab/Lecture Hours

One-credit lab.

Fee

Lab fees apply.

When Offered

Every fall semester.

PHY 310 - General Physics II

(4) Thorough, systematic study of the foundations of classical and modern physics. Intended primarily for students preparing for careers in medicine, physical therapy, science education, and graduate work in other sciences. Sequence begins with kinematics and dynamics, explores the theories of gravitation and electricity, and ends with a study of nuclear physics, cosmology, and other selected topics.

Prerequisites: PHY 210.

Corequisites: PHY 311, PHY 312.

When Offered

Every spring semester.

PHY 311 - General Physics II Recitation

(0) Recitation.

Corequisites: PHY 310.

When Offered

Every spring semester.

PHY 312 - General Physics II Lab

(1) Lab.

Corequisites: PHY 310.

Lab/Lecture Hours

One credit lab.

Fee

Lab fees apply.

When Offered

Every spring semester.

SCI 230 - Integrated Physical Science with Lab

(3) This is an integrated course presenting the major concepts, theoretical perspectives, historical trends, and empirical findings of the physical sciences. Laboratory exercises and lectures explore motion, the four forces, heat, energy, chemical reactions, the structure and development of matter, the types and nature of chemical bonding, and the nature and history of the universe, the solar system, and the Earth.

Lab/Lecture Hours

Laboratory investigations included in course.

Fee

Lab fees apply.

When Offered

Every semester.

Secondary Education Professional Core (36 credit hours)

CLD 205 - Culturally Responsive Pedagogy

(3) This course focuses on theories, concepts, research and pedagogical techniques related to culturally-responsive teaching, English language learning, language and content acquisition, teacher-student relationships, and building school-community partnerships with culturally diverse populations.

Prerequisites: Sophomore standing.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

EDU 215 - Field 1 Theory and Practice in Secondary Education

(3) Field 1 is the first of a four-semester, professional field-based experience within a CCU partnership secondary school. The focus is on education theory, as well as the development and implementation of standards-based lessons under university and school-based teacher supervision. Teacher candidates complete hours toward the clinical program hour minimum in addition to on-campus seminars.

Fee

Course fees apply.

When Offered

Every fall and spring semester.

EDU 260 - Field 2 Secondary Classroom and Behavior Management

(3) Field 2 is the second of a four-semester, professional field-based experience within a CCU partnership school. The focus is on implementation of research-based methods related to classroom and behavior management under university and school-based teacher supervision. Teacher candidates complete hours toward the required clinical program hour minimum in addition to on-campus seminars.

Prerequisites: EDU 215 or SPD 213. School of Education major or minor students only.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

EDU 340 - Assessment of Learning and Critical Thinking

(3) The role of assessment and evaluation in critical thinking development and the instructional decision-making process is explored, with an emphasis on practical application to student learning outcomes, and increasing achievement for students from diverse backgrounds. Performance-based assessment, assessment procedures, protocols, and other assessment practices will be analyzed.

Prerequisites: Sophomore standing.

When Offered

Fall and spring semesters.

EDU 415 - Secondary Science Student Teaching and Seminar 1

(3) This course is the third of a four-semester, professional field-based experience within a CCU partnership school. The focus is on implementation of research-based methods in a secondary science classroom under university and school-based teacher supervision. Teacher candidates implement science lessons aligned to state/professional standards. Teacher candidates complete hours toward the required clinical program hour minimum in addition to on-campus seminars.

Prerequisites: EDU 260, EDU 340. Student must have a minimum cum GPA of 2.50.

Corequisites: EDU 440.

Fee

Course fees apply.

When Offered

Every fall semester.

EDU 440 - Secondary Curriculum and Instruction

(3) Teacher candidates complete a study of secondary curriculum in their endorsement area, design and implement a curricular unit aligned to Colorado Academic Standards, and implement an Action Research Project applying research instructional models and differentiated instruction. Teacher candidates complete the Field III course concurrently with EDU 440 to allow for implementation of lessons/assessments with students in a secondary partnership school.

Corequisites: EDU 415 or EDU 416 or EDU 450 or EDU 455.

When Offered

Every fall semester.

EDU 470 - Secondary Student Teaching and Seminar 2

(12) This course is the culminating, professional experience within a CCU secondary partnership school. Teacher candidates complete a full-time teaching experience under guidance of a licensed School-Based Teacher and CCU Supervisor. Teacher candidates implement lessons and complete action research via instruction aligned to state/professional standards. Teacher candidates complete the clinical program hour minimum in addition to on-campus seminars.

Prerequisites: All other degree program courses.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

EPS 342 - Adolescent Development and Culture

(3) Biological, cognitive, psychological, social, and moral growth and development of early, middle and late adolescents. Explores theories of adolescent development in a family, peer, school, and community context. Explores personal, educational and career decision making, psychosocial problems during adolescence, and implications for teaching, youth ministry, counseling, and nonprofit organization work with youth.

Prerequisites: Sophomore standing (30+ Credit Hours).

When Offered

Every fall and spring semester.

SPD 210 - Introduction to Special Education

(3) Understanding of the integration of exceptional children and adolescents (K-12) into general educational environments. Development of an understanding of students with special needs. Designing a learning environment to include assessment and adaptation of instruction to maximize student learning potential.

When Offered

Every fall and spring semester.

SED 500 - Introduction to Special Education

(3) This course is an introduction to the profession of special education and focuses on the foundations of special education (history, law, and finance), the special education teacher (ethics, professionalism and roles), and with knowledge about current trends (issues and research based). (Includes 20 field hours)

Secondary Program Courses With Corequisites and/or Prerequisites

EDU 260 - Field 2 Secondary Classroom and Behavior Management

(3) Field 2 is the second of a four-semester, professional field-based experience within a CCU partnership school. The focus is on implementation of research-based methods related to classroom and behavior management under university and school-based teacher supervision. Teacher candidates complete hours toward the required clinical program hour minimum in addition to on-campus seminars.

Prerequisites: EDU 215 or SPD 213. School of Education major or minor students only.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

EDU 340 - Assessment of Learning and Critical Thinking

(3) The role of assessment and evaluation in critical thinking development and the instructional decision-making process is explored, with an emphasis on practical application to student learning outcomes, and increasing achievement for students from diverse backgrounds. Performance-based assessment, assessment procedures, protocols, and other assessment practices will be analyzed.

Prerequisites: Sophomore standing.

When Offered

Fall and spring semesters.

EDU 415 - Secondary Science Student Teaching and Seminar 1

(3) This course is the third of a four-semester, professional field-based experience within a CCU partnership school. The focus is on implementation of research-based methods in a secondary science classroom under university and school-based teacher supervision. Teacher candidates implement science lessons aligned to state/professional standards. Teacher candidates complete hours toward the required clinical program hour minimum in addition to on-campus seminars.

Prerequisites: EDU 260, EDU 340. Student must have a minimum cum GPA of 2.50.

Corequisites: EDU 440.

Fee

Course fees apply.

When Offered

Every fall semester.

EDU 440 - Secondary Curriculum and Instruction

(3) Teacher candidates complete a study of secondary curriculum in their endorsement area, design and implement a curricular unit aligned to Colorado Academic Standards, and implement an Action Research Project applying research instructional models and differentiated instruction. Teacher candidates complete the Field III course concurrently with EDU 440 to allow for implementation of lessons/assessments with students in a secondary partnership school.

Corequisites: EDU 415 or EDU 416 or EDU 450 or EDU 455.

When Offered

Every fall semester.

EDU 470 - Secondary Student Teaching and Seminar 2

(12) This course is the culminating, professional experience within a CCU secondary partnership school. Teacher candidates complete a full-time teaching experience under guidance of a licensed School-Based Teacher and CCU Supervisor. Teacher candidates implement lessons and complete action research via instruction aligned to state/professional standards. Teacher candidates complete the clinical program hour minimum in addition to on-campus seminars.

Prerequisites: All other degree program courses.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

EPS 342 - Adolescent Development and Culture

(3) Biological, cognitive, psychological, social, and moral growth and development of early, middle and late adolescents. Explores theories of adolescent development in a family, peer, school, and community context. Explores personal, educational and career decision making, psychosocial problems during adolescence, and implications for teaching, youth ministry, counseling, and nonprofit organization work with youth.

Prerequisites: Sophomore standing (30+ Credit Hours).

When Offered

Every fall and spring semester.

CLD 205 - Culturally Responsive Pedagogy

(3) This course focuses on theories, concepts, research and pedagogical techniques related to culturally-responsive teaching, English language learning, language and content acquisition, teacher-student relationships, and building school-community partnerships with culturally diverse populations.

Prerequisites: Sophomore standing.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

Professional Licensure Disclosure

Colorado Christian University offers several academic programs which lead to professional licensure in the state of Colorado and, in some programs, prepare students for a national exam. All students should be aware that states vary in their educational and professional requirements depending on the profession. Some states require specific educational requirements, clinical requirements, accreditation requirements, or exam requirements. See professional licensure disclosures for details.

Graduation Requirements for the Bachelor of Science in General Science with Secondary Education Licensure

The faculty recommends students in the B.S. in General Science with Secondary Education Licensure to the Board of Trustees as candidates for graduation when they have completed the following requirements.

1. Completion of a total of 126 credits, including all general education, General Science major, and secondary education professional core requirements.
2. A letter grade of D or better and a cumulative GPA of 2.5 or better in all CCU coursework, and a C- or better in all professional education courses.
3. Completion of 180 hours of ministry/community service and 180 chapel credits. Transfer students are required to complete 45 hours of ministry/community service and 45 chapel credits each year of attendance at CCU. For further details on ministry/community service, see the Life Directions Center (LDC) section of this catalog. For further details on chapel credits, see the Student Life section of this catalog.
4. Meet the CCU Residency requirements.
5. Acceptable performance on exit exams (e.g., PRAXIS Exam), as required by the faculty.
6. Formal and timely application for graduation by the date specified by the University Registrar.

Secondary Social Studies Licensure Program: B.A. History

The Secondary Social Studies Licensure Program graduates earn a B.A. in History. This program is 120 credit hours and offers supervised clinical practice experiences in both middle and high school settings. Upon program completion, the candidate has met all requirements for an institutional recommendation for an Initial Colorado Teacher License with an Endorsement in Social Studies.

The Secondary Education Social Studies Licensure Program requires a major in History and completion of the following 120 credit hours:

General Education Core (36 credit hours)

History Major Core (42 credit hours)

Secondary Education Professional Core (39 credit hours)

General Electives (3 credit hours)

General Education Core (36 credit hours)

Arts and Humanities (9 credit hours)

PHL 202 - Introduction to Philosophy

(3) This course is a survey of many major issues raised over the two-and-a-half millennia of western philosophy. With an emphasis on historical context and development, as well as philosophy's relationship to Christian thought, this course challenges students to critically explore philosophical questions and introduce them to the great tradition of intellectual inquiry. Special attention will be given to the subjects of truth and knowledge, reality and appearance, mind and body, right and wrong, beauty and the existence of God.

When Offered

Fall and summer semesters.

ENG 201 - Introduction to Literature

(3) Understand, experience, and evaluate poetry, short fiction, essays, and drama genres, both American and multinational.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Fall and spring semesters.

ENG 202 - American Literature I

(3) Representative stories, poems, and documents in American literature from the Colonial era to the early Republic (1776-1830) through the Romantic-transcendentalist period (1830-1860). Includes readings from multiethnic and women writers.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every fall semester.

ENG 203 - American Literature II

(3) Representative stories, poems, and drama in American literature from the Civil War to the present. Nontraditional ethnic and women's voices included. Emphasis on interpretation and criticism of American literature.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every spring semester.

HUM 120 - Introduction to the Arts

(3) Introduction to our humanity through hands-on experience in the arts (music, visual arts, poetry, story, play, and dance). Aesthetic and artistic values in the broader context of human cultural development, responsibility, and joy.

Notes: This course satisfies the general education fine arts requirement for most students, and is the required fine arts course for education majors. It is recommended for all students with a general interest in the fine arts. Students with a special interest in theatre should see THR 112. Students with a special interest in music should see MUS 110.

Note: HUM 120 does not satisfy the fine arts requirement for music majors or minors.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

MUS 110 - Musical Perspectives

(3) An exploration of music in the broader context of culture and the arts; personal musical experiences through listening and doing; and developing the ability to discern aesthetic excellence. Included is an introduction to the elements of music and how music works, the development of a Christian perspective on the arts, a broad survey of representative selections of Western music, and a focused overview of non-western/world music.

Notes: This course satisfies the general education fine arts requirement for most students. It is recommended for all students, especially those with an interest in music, and is the required fine arts course for all music majors and minors. Students with a special interest in Theatre should see THR 112.

Note: MUS 110 does not satisfy the fine arts requirement for education majors.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

THR 112 - Theatre Appreciation

(3) An introduction to the theatre world and all its aspects: the people who are active in that world, the many kinds of work that are created, the sensations and ideas we receive from those works, and the ways the life of theatre has transmitted across many times and place.

Notes: This course satisfies the general education fine arts requirement for most students. It is recommended for all students, especially those with an interest in theatre. Students with a special interest in music should see MUS 110.

Note: THR 112 does not satisfy the fine arts requirement for music majors or minors, or education majors.

When Offered

Fall and spring semesters.

Biblical Studies (12 credit hours)

HIS 111 - Old Testament

(3) This course provides an introduction to the theological, historical, and literary features of the Old Testament, tracing God's covenant relationship with ancient Israel. Special consideration will be given to the divine covenants and Messianic prophecies of the Old Testament.

When Offered

Every spring semester.
Cross-listed BIB 111.

HUM 114 - New Testament

(3) This course provides an introduction to the theological, historical, and literary features of the New Testament, tracing the presentation of the gospel message through historical, epistolary, and apocalyptic genres. Special consideration will be given to the life of Christ and missionary journeys of the Apostle Paul.

When Offered

Every fall semester.
Cross-listed BIB 114.

PHL 315 - World Religions and Systems of Belief

(3) This course introduces an academic study of religion and what is called worldview, supplemented by an overview of some of the major tenets of Christianity; this is then followed by a survey of several other religious traditions and competing philosophies.

Prerequisites: PHL 202, THE 201.

When Offered

Winter and spring semesters.

THE 201 - Introduction to Theology

(3) This course covers basic issues, themes, and categories of Christian theology, including the doctrines of Scripture, God, humanity, Christ, salvation, the church, and last things. This course encourages students to better know, trust, love, and live by God's Word.

Prerequisites: BIB 111, BIB 114.

When Offered

Fall, winter, spring, and summer semesters.

Communication (6 credit hours)

COM 103 - Public Speaking

(3) Introductory principles of communication emphasizing public speaking. Aspects of verbal and nonverbal delivery, speech organization, and the effective use of supporting material and presentational aids are addressed. Students give several speeches designed to better equip them for future speaking endeavors.

When Offered

Fall and spring semesters.

ENG 102 - English Composition

(3) Effective use of the English language and exploration of rhetorical modes in written composition. Review of structure, purpose, and audience awareness in developing essays.

Prerequisites: ACT and/or SAT scores will be used to determine placement in either ENG 102 or ENG 102 (Basic).

Notes: Course must be completed first semester at CCU.

When Offered

Fall and spring semester.

ENG 105 - Advanced English Composition

(3) Advanced English composition, research methods, and literary study for invited exceptional students. Focus on both the study of literature and research writing.

Prerequisites: One of the following:

- AP English Language and Composition

- A score of 4 is the minimum prerequisite for enrollment in ENG 105. A student who scores a 4 or 5 will automatically enroll a student in ENG 105 instead of ENG 102 and/or ENG 201.
- AP English Literature and Composition
 - A score of 4 is the minimum prerequisite for enrollment in ENG 105. A student who scores a 4 or 5 will automatically enroll a student in ENG 105 instead of ENG 102 and/or ENG 201.
- Score of 30 or above on the verbal section of the ACT exam.
- Score of 700 or above on the verbal section of the SAT exam.
- By invitation of the English department.

Notes: Fulfills general education requirements for both ENG 102 and ENG 201.

When Offered

Every fall semester.

Integrative Studies (3 credit hours)

INT 101 - First-Year Integration

(3) Think critically, grow spiritually, and change the world. Based on the premise that we as Christians are called to be rational creatures, relational creatures, and responsible creatures, FYI is an integrative study of foundational Christian principles with other disciplines. Examination and discussion of problems and contemporary issues - academic, personal, and social - facing students in their pursuit of success in college and life. Please see the First-Year Integration (FYI) page for specific information about this required course.

When Offered

Fall and spring semesters.

Mathematics (3 credit hours)

MAT 112 - Mathematics for Liberal Arts

(3) This course introduces some of the important ideas in mathematics and how they can be applied in everyday life situations, solving a wide range of practical problems. Topics include sets, logic, history of numeration, number systems and their properties, number patterns, counting principles, probability, statistics, graph theory, personal finance, and voting methods.

Notes: Students with higher level mathematics skills (i.e. ACT MAT above 20 and SAT MATH above 520) are discouraged from taking this class. Only students who do not place into MAT 111 - College Algebra should enroll in MAT 112 - Mathematics for Liberal Arts.

When Offered

Fall, spring and summer semesters.

Science (3 credit hours)

SCI 230 - Integrated Physical Science with Lab

(3) This is an integrated course presenting the major concepts, theoretical perspectives, historical trends, and empirical findings of the physical sciences. Laboratory exercises and lectures explore motion, the four forces, heat, energy, chemical reactions, the structure and development of matter, the types and nature of chemical bonding, and the nature and history of the universe, the solar system, and the Earth.

Lab/Lecture Hours

Laboratory investigations included in course.

Fee

Lab fees apply.

When Offered

Every semester.

History Major Core (42 credit hours)

ECO 215 - Economics

(3) Economics is about scarcity and choice. Students in this course study how people, firms, governments, and nations interact in alternative economic systems to make choices about allocating scarce resources. In addition, students learn to evaluate these systems, understand macroeconomic monetary and fiscal policies, and engage in policy debates.

When Offered

Fall and spring semesters.

GEO 270 - World Geography

(3) Introduces students to key concepts in geography and mapping: explores political, economic, and cultural geography, as well as physical geography and the environment.

When Offered

Every spring semester.

GLS 321 - The World at War (1900-1945)

(3) This course is designed for advanced students of history and global studies. Our modern culture is a product of the political, social, economic and ideological trends that developed in this period. This class begins with final days of the great European empires over 100 years ago and concludes with the end of World War II in 1945. The primary emphasis is to understand how democracy, individual freedom, human rights, and technological progress were nourished and propagated in spite of the resistance of traditional elites and the challenges of Communist and Fascist ideologies.

Prerequisites: Junior standing.

When Offered

Every fall semester.

GLS 322 - The World Since 1945

(3) Contemporary world history is vital to understanding the present world situation. We live in a vast network of political, social, economic, and religious beliefs that continuously affect our lives. To better understand this world as well as the perspectives of others we encounter, we must know the events of the last 50 years. These include: the Cold War, the disparity between rich and poor nations, and intellectual and spiritual issues of our present technological age.

Prerequisites: Junior standing.

When Offered

Every spring semester.

GLS 385 - Contemporary Latin America

(3) Historical and cultural development of modern Latin America, beginning with the pre-European period, the Spanish and Portuguese colonial period, the 19th century independence movement, and emphasizing 20th century issues and problems, including the relationships of these countries with the United States.

When Offered

Odd spring semesters.

GLS 386 - Contemporary Asia

(3) A comprehensive examination of the origin and development of the civilizations of China, India, and Japan, with emphasis on literature, religion, philosophy, anthropology, and history, and the interaction of these historic cultures with the West in general and the United States in particular.

When Offered

Odd fall semesters.

GLS 387 - Contemporary Africa

(3) The diverse cultural, political, and economic history of the people, societies, and nations of Africa from the pre-European conquest through European colonialism and imperialism to the emergence of Modern Africa.

When Offered

Even spring semesters.

GLS 388 - Contemporary Middle East

(3) This class explores the religion, politics, and culture of the contemporary Middle East, starting with the end of World War II and the birth of modern Israel. It tracks contemporary Islamic movements, political developments within the Islamic world, and the rise of radical ideologies and organizations.

When Offered

Odd fall semesters.

HIS 185 - Western Civilization

(3) The spiritual values and intellectual achievements of ancient Israel, Greece, Rome, the Middle Ages, the Renaissance, and Reformation that gave birth to the modern world.

When Offered

Every fall semester.

HIS 186 - The Birth of the Modern World

(3) A study of the political, social, economic, intellectual, and religious developments in Europe from the 16th century and the impact of the West as it expanded its influence around the world.

When Offered

Every spring semester.

HIS 205 - American History

(3) Principles of the founding and the political, economic, intellectual, cultural, and religious traditions that have shaped America.

When Offered

Every spring semester.

HIS 206 - The Making of Modern America

(3) This course centers on the development of America politically, socially, economically, and religiously from the Civil War Era to the 20th century.

When Offered

Odd fall semesters.

HIS 360 - The American West

(3) Concentrated study of the history of the Trans-Mississippi West. The settling and social, economic and political development of this region. Attention to the Native Americans, Hispanics, Asians, and other ethnic groups who played a significant role in the West.

When Offered

Odd fall semesters.

HIS 317 - Modern Europe

(3) This course surveys the individuals, events, intellectual developments, and cultural trends influencing 17th, 18th, and 19th century Europe, starting with the Thirty Years' War to the end of Victorian Britain. This course explores trends in British and continental history alike, with special emphasis given to the English Civil War, the Glorious Revolution, the Enlightenment, the French Revolution, and the Industrial Revolution in Victorian Britain.

When Offered

Even spring semesters.

POL 324 - Foreign Policy and Diplomacy

(3) This course examines the history of U.S. foreign policy; foreign policy processes and theories; key global organizations; and comparative foreign policies of world powers.

Prerequisites: POL 233.

When Offered

Every spring semester.

HIS 466 - Historiography

(3) An introduction to the art and science of historical research and writing with an emphasis on the history of historical thought, the methodology of doing history, and the philosophy of history including a Christian perspective.

Prerequisites: Junior or senior standing.

When Offered

Even fall semesters.

POL 207 - Introduction to American Politics

(3) Introduction to political science and American government to prepare students to be effective citizens.

When Offered

Every fall and spring semester.

POL 381 - American Political Rhetoric

(3) This course examines the history of American political thought with particular attention paid to the historical context and rhetorical dimension of each work in order to grasp the universal claims and historical particulars embedded within our American political tradition.

Prerequisites: POL 207 or POL 210.

When Offered

Odd fall semesters.

POL 463 - Supreme Court and Constitutional Law

(3) A study of the historical development of the Supreme Court and select constitutional cases from the American founding to the present. Emphasis is placed on landmark court cases, as well as the evolving place of the Supreme Court within the American political system.

Prerequisites: POL 207.

When Offered

Even fall semesters.

Secondary Education Professional Core (39 credit hours)

CLD 205 - Culturally Responsive Pedagogy

(3) This course focuses on theories, concepts, research and pedagogical techniques related to culturally-responsive teaching, English language learning, language and content acquisition, teacher-student relationships, and building school-community partnerships with culturally diverse populations.

Prerequisites: Sophomore standing.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

EDU 215 - Field 1 Theory and Practice in Secondary Education

(3) Field 1 is the first of a four-semester, professional field-based experience within a CCU partnership secondary school. The focus is on education theory, as well as the development and implementation of standards-based lessons under university and school-based teacher supervision. Teacher candidates complete hours toward the clinical program hour minimum in addition to on-campus seminars.

Fee

Course fees apply.

When Offered

Every fall and spring semester.

EDU 260 - Field 2 Secondary Classroom and Behavior Management

(3) Field 2 is the second of a four-semester, professional field-based experience within a CCU partnership school. The focus is on implementation of research-based methods related to classroom and behavior management under university and school-based teacher supervision. Teacher candidates complete hours toward the required clinical program hour minimum in addition to on-campus seminars.

Prerequisites: EDU 215 or SPD 213. School of Education major or minor students only.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

EDU 340 - Assessment of Learning and Critical Thinking

(3) The role of assessment and evaluation in critical thinking development and the instructional decision-making process is explored, with an emphasis on practical application to student learning outcomes, and increasing achievement for

students from diverse backgrounds. Performance-based assessment, assessment procedures, protocols, and other assessment practices will be analyzed.

Prerequisites: Sophomore standing.

When Offered

Fall and spring semesters.

EDU 360 - Classical Education Pedagogy in the 21st Century

(3) This course explores the traditional approach to education rooted in western civilization and culture, employing the historic curriculum and pedagogy of the seven liberal arts in order to cultivate men and women characterized by truth, wisdom, virtue, and eloquence. This course may include a field-based experience.

Prerequisites: Sophomore standing.

When Offered

Every fall and spring semesters.

EDU 440 - Secondary Curriculum and Instruction

(3) Teacher candidates complete a study of secondary curriculum in their endorsement area, design and implement a curricular unit aligned to Colorado Academic Standards, and implement an Action Research Project applying research instructional models and differentiated instruction. Teacher candidates complete the Field III course concurrently with EDU 440 to allow for implementation of lessons/assessments with students in a secondary partnership school.

Corequisites: EDU 415 or EDU 416 or EDU 450 or EDU 455.

When Offered

Every fall semester.

EDU 450 - Secondary Social Studies Student Teaching and Seminar 1

(3) This course is the third of a four-semester, professional field-based experience within a CCU partnership school. The focus is implementation of research-based methods in a secondary Social Studies classroom under university and school-based teacher supervision. Teacher Candidates implement Social Studies lessons aligned to state/professional standards. Teacher Candidates complete hours toward the required clinical program hour minimum in addition to on-campus seminars.

Prerequisites: EDU 260, EDU 340. Student must have a minimum cum GPA of 2.50

Corequisites: EDU 440.

Fee

Course fees apply.

When Offered

Every fall semester.

EDU 470 - Secondary Student Teaching and Seminar 2

(12) This course is the culminating, professional experience within a CCU secondary partnership school. Teacher candidates complete a full-time teaching experience under guidance of a licensed School-Based Teacher and CCU Supervisor. Teacher candidates implement lessons and complete action research via instruction aligned to state/professional standards. Teacher candidates complete the clinical program hour minimum in addition to on-campus seminars.

Prerequisites: All other degree program courses.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

EPS 342 - Adolescent Development and Culture

(3) Biological, cognitive, psychological, social, and moral growth and development of early, middle and late adolescents. Explores theories of adolescent development in a family, peer, school, and community context. Explores personal, educational and career decision making, psychosocial problems during adolescence, and implications for teaching, youth ministry, counseling, and nonprofit organization work with youth.

Prerequisites: Sophomore standing (30+ Credit Hours).

When Offered

Every fall and spring semester.

SPD 210 - Introduction to Special Education

(3) Understanding of the integration of exceptional children and adolescents (K-12) into general educational environments. Development of an understanding of students with special needs. Designing a learning environment to include assessment and adaptation of instruction to maximize student learning potential.

When Offered

Every fall and spring semester.

SED 500 - Introduction to Special Education

(3) This course is an introduction to the profession of special education and focuses on the foundations of special education (history, law, and finance), the special education teacher (ethics, professionalism and roles), and with knowledge about current trends (issues and research based). (Includes 20 field hours)

Electives (3 credit hours)

Teacher candidates in this program may choose 3 general elective credit hours in a subject area of their choice, or use these electives to transfer approved credits into their CCU program. Teacher candidates are required to work directly with their Life Directions Center Advisor regarding choice and enrollment of elective credits.

Secondary Program Courses With Corequisites and/or Prerequisites**EDU 260 - Field 2 Secondary Classroom and Behavior Management**

(3) Field 2 is the second of a four-semester, professional field-based experience within a CCU partnership school. The focus is on implementation of research-based methods related to classroom and behavior management under university and school-based teacher supervision. Teacher candidates complete hours toward the required clinical program hour minimum in addition to on-campus seminars.

Prerequisites: EDU 215 or SPD 213. School of Education major or minor students only.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

EDU 340 - Assessment of Learning and Critical Thinking

(3) The role of assessment and evaluation in critical thinking development and the instructional decision-making process is explored, with an emphasis on practical application to student learning outcomes, and increasing achievement for students from diverse backgrounds. Performance-based assessment, assessment procedures, protocols, and other assessment practices will be analyzed.

Prerequisites: Sophomore standing.

When Offered

Fall and spring semesters.

EDU 440 - Secondary Curriculum and Instruction

(3) Teacher candidates complete a study of secondary curriculum in their endorsement area, design and implement a curricular unit aligned to Colorado Academic Standards, and implement an Action Research Project applying research instructional models and differentiated instruction. Teacher candidates complete the Field III course concurrently with EDU 440 to allow for implementation of lessons/assessments with students in a secondary partnership school.

Corequisites: EDU 415 or EDU 416 or EDU 450 or EDU 455.

When Offered

Every fall semester.

EDU 450 - Secondary Social Studies Student Teaching and Seminar 1

(3) This course is the third of a four-semester, professional field-based experience within a CCU partnership school. The focus is implementation of research-based methods in a secondary Social Studies classroom under university and school-based teacher supervision. Teacher Candidates implement Social Studies lessons aligned to state/professional standards. Teacher Candidates complete hours toward the required clinical program hour minimum in addition to on-campus

seminars.

Prerequisites: EDU 260, EDU 340. Student must have a minimum cum GPA of 2.50
Corequisites: EDU 440.

Fee

Course fees apply.

When Offered

Every fall semester.

EDU 470 - Secondary Student Teaching and Seminar 2

(12) This course is the culminating, professional experience within a CCU secondary partnership school. Teacher candidates complete a full-time teaching experience under guidance of a licensed School-Based Teacher and CCU Supervisor. Teacher candidates implement lessons and complete action research via instruction aligned to state/professional standards. Teacher candidates complete the clinical program hour minimum in addition to on-campus seminars.

Prerequisites: All other degree program courses.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

EPS 342 - Adolescent Development and Culture

(3) Biological, cognitive, psychological, social, and moral growth and development of early, middle and late adolescents. Explores theories of adolescent development in a family, peer, school, and community context. Explores personal, educational and career decision making, psychosocial problems during adolescence, and implications for teaching, youth ministry, counseling, and nonprofit organization work with youth.

Prerequisites: Sophomore standing (30+ Credit Hours).

When Offered

Every fall and spring semester.

CLD 205 - Culturally Responsive Pedagogy

(3) This course focuses on theories, concepts, research and pedagogical techniques related to culturally-responsive teaching, English language learning, language and content acquisition, teacher-student relationships, and building school-community partnerships with culturally diverse populations.

Prerequisites: Sophomore standing.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

Professional Licensure Disclosure

Colorado Christian University offers several academic programs which lead to professional licensure in the state of Colorado and, in some programs, prepare students for a national exam. All students should be aware that states vary in their educational and professional requirements depending on the profession. Some states require specific educational requirements, clinical requirements, accreditation requirements, or exam requirements. See professional licensure disclosures for details.

Graduation Requirements for the Bachelor of Arts in History with Secondary Education Licensure

The faculty recommends students in the B.A. in History with Secondary Education Licensure to the Board of Trustees as candidates for graduation when they have completed the following requirements.

1. Completion of a total of 120 credits, including all general education, History major, and secondary education professional core requirements.
2. A letter grade of D or better and a cumulative GPA of 2.5 or better in all CCU coursework, and a C- or better in all professional education courses.

3. Completion of 180 hours of ministry/community service and 180 chapel credits. Transfer students are required to complete 45 hours of ministry/community service and 45 chapel credits each year of attendance at CCU. For further details on ministry/community service, see the Life Directions Center (LDC) section of this catalog. For further details on chapel credits, see the Student Life section of this catalog.
4. Meet the CCU Residency requirements.
5. Acceptable performance on exit exams (e.g., PRAXIS Exam), as required by the faculty.
6. Formal and timely application for graduation by the date specified by the University Registrar.

Special Education: Generalist Licensure Program: B.A. Liberal Arts (CUS)

Special Education: Generalist Licensure Program graduates earn a B.A. in Liberal Arts. The Liberal Arts Major is required because of its interdisciplinary character and comprehensive coverage of academic knowledge and skills required for special education teachers. The Special Education Generalist Licensure Program is 120 credit hours and offers supervised clinical practice experiences in elementary, middle and high school settings for students aged 5-21. Upon program completion, the candidate has met all requirements for an institutional recommendation for an Initial Colorado Teacher License with an Endorsement in the area of K-12 Special Education: Generalist.

Students in the B.A. Special Education: Generalist Licensure program may choose the Dual Degree program, earning their B.A. Special Education: Generalist degree and nine graduate-level credit hours that can be applied toward CCU's Master of Education in Special Education. Course requirements for the Dual Degree program are listed below.

CCU Graduates of the Special Education: Generalist Licensure Program are also eligible to apply for a Colorado Teaching Endorsement in K-6 Elementary Education upon successfully passing the Colorado-approved Elementary Education licensure exam.

CCU Graduates of the Special Education: Generalist Licensure Program earn three CCU Areas of Emphasis: Biblical Studies, Reading, and Social Studies.

The Liberal Arts Major with Special Education (K-12 Generalist) requires completion of 120 credit hours:

General Education (27 credit hours)

Liberal Arts Major Core (38 credit hours)

Special Education Generalist Professional Core (48 credit hours)

General Electives (7 credit hours)

Liberal Arts Major with Special Education Generalist

General Education Core (27 credit hours)

Arts and Humanities (3 credit hours)

PHL 202 - Introduction to Philosophy

(3) This course is a survey of many major issues raised over the two-and-a-half millennia of western philosophy. With an emphasis on historical context and development, as well as philosophy's relationship to Christian thought, this course challenges students to critically explore philosophical questions and introduce them to the great tradition of intellectual inquiry. Special attention will be given to the subjects of truth and knowledge, reality and appearance, mind and body, right and wrong, beauty and the existence of God.

When Offered

Fall and summer semesters.

Biblical Studies (12 credit hours)

HIS 111 - Old Testament

(3) This course provides an introduction to the theological, historical, and literary features of the Old Testament, tracing God's covenant relationship with ancient Israel. Special consideration will be given to the divine covenants and Messianic prophecies of the Old Testament.

When Offered

Every spring semester.

Cross-listed BIB 111.

HUM 114 - New Testament

(3) This course provides an introduction to the theological, historical, and literary features of the New Testament, tracing the presentation of the gospel message through historical, epistolary, and apocalyptic genres. Special consideration will

be given to the life of Christ and missionary journeys of the Apostle Paul.

When Offered

Every fall semester.
Cross-listed BIB 114.

PHL 315 - World Religions and Systems of Belief

(3) This course introduces an academic study of religion and what is called worldview, supplemented by an overview of some of the major tenets of Christianity; this is then followed by a survey of several other religious traditions and competing philosophies.

Prerequisites: PHL 202, THE 201.

When Offered

Winter and spring semesters.

THE 201 - Introduction to Theology

(3) This course covers basic issues, themes, and categories of Christian theology, including the doctrines of Scripture, God, humanity, Christ, salvation, the church, and last things. This course encourages students to better know, trust, love, and live by God's Word.

Prerequisites: BIB 111, BIB 114.

When Offered

Fall, winter, spring, and summer semesters.

Communication (6 credit hours)

COM 103 - Public Speaking

(3) Introductory principles of communication emphasizing public speaking. Aspects of verbal and nonverbal delivery, speech organization, and the effective use of supporting material and presentational aids are addressed. Students give several speeches designed to better equip them for future speaking endeavors

When Offered

Fall and spring semesters.

ENG 102 - English Composition

(3) Effective use of the English language and exploration of rhetorical modes in written composition. Review of structure, purpose, and audience awareness in developing essays.

Prerequisites: ACT and/or SAT scores will be used to determine placement in either ENG 102 or ENG 102 (Basic).

Notes: Course must be completed first semester at CCU.

When Offered

Fall and spring semester.

ENG 105 - Advanced English Composition

(3) Advanced English composition, research methods, and literary study for invited exceptional students. Focus on both the study of literature and research writing.

Prerequisites: One of the following:

- AP English Language and Composition
 - A score of 4 is the minimum prerequisite for enrollment in ENG 105. A student who scores a 4 or 5 will automatically enroll a student in ENG 105 instead of ENG 102 and/or ENG 201.
- AP English Literature and Composition
 - A score of 4 is the minimum prerequisite for enrollment in ENG 105. A student who scores a 4 or 5 will automatically enroll a student in ENG 105 instead of ENG 102 and/or ENG 201.
- Score of 30 or above on the verbal section of the ACT exam.
- Score of 700 or above on the verbal section of the SAT exam.
- By invitation of the English department.

Notes: Fulfills general education requirements for both ENG 102 and ENG 201.

When Offered

Every fall semester.

Integrative Studies (3 credit hours)

INT 101 - First-Year Integration

(3) Think critically, grow spiritually, and change the world. Based on the premise that we as Christians are called to be rational creatures, relational creatures, and responsible creatures, FYI is an integrative study of foundational Christian principles with other disciplines. Examination and discussion of problems and contemporary issues - academic, personal, and social - facing students in their pursuit of success in college and life. Please see the First-Year Integration (FYI) page for specific information about this required course.

When Offered

Fall and spring semesters.

Please see the First-Year Integration (FYI) page for specific information about the required INT 101 course.

Social Sciences (3 credit hours)

HIS 185 - Western Civilization

(3) The spiritual values and intellectual achievements of ancient Israel, Greece, Rome, the Middle Ages, the Renaissance, and Reformation that gave birth to the modern world.

When Offered

Every fall semester.

Liberal Arts Major Core (38 credit hours)

BIO 101 - Biological Life

(3) An introduction to the field of biology. Life processes common to plants and animals, cell structure and function, and an introduction to genetics, biochemistry, and development.

Corequisites: BIO 111 (Lab).

Notes: This course is recommended for non-Biological Science majors, including Elementary Education Liberal Arts majors.

When Offered

Every fall semester.

BIO 111 - Biological Life Lab

(1) Corequisite Lab for BIO 101.

Corequisites: BIO 101.

Lab/Lecture Hours

Three-hour lab.

Fee

Lab fees apply.

When Offered

Every fall semester.

ECO 215 - Economics

(3) Economics is about scarcity and choice. Students in this course study how people, firms, governments, and nations interact in alternative economic systems to make choices about allocating scarce resources. In addition, students learn to evaluate these systems, understand macroeconomic monetary and fiscal policies, and engage in policy debates.

When Offered

Fall and spring semesters.

ENG 201 - Introduction to Literature

(3) Understand, experience, and evaluate poetry, short fiction, essays, and drama genres, both American and multinational.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Fall and spring semesters.

ENG 203 - American Literature II

(3) Representative stories, poems, and drama in American literature from the Civil War to the present. Nontraditional ethnic and women's voices included. Emphasis on interpretation and criticism of American literature.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every spring semester.

ENG 360 - World Literature

(3) Multinational works of contemporary literature in English translation. Central human dilemmas and the role of literature in other societies.

Prerequisites: One of the following: ENG 201, ENG 202, ENG 203, ENG 204 or ENG 205.

When Offered

Odd fall semesters.

ENG 340 - American Ethnic Literatures

(3) Fiction, poetry, and nonfiction by major writers from American ethnic backgrounds (African, Asian, Jewish, Hispanic/Latino, and Native American, and others) are analyzed, and literary criticism on American ethnic literary concerns is integrated into analysis of primary texts.

Prerequisites: One of the following: ENG 201, ENG 202, ENG 203, ENG 204 or ENG 205.

When Offered

Even fall semesters.

EPS 340 - Educational Child Psychology and Development

(3) The educator's role in recognizing, evaluating and guiding the cognitive, physical, psychosocial and emotional growth patterns and characteristics from infants to early, middle and late childhood, as well as adolescence.

When Offered

Fall and spring semesters.

EPS 342 - Adolescent Development and Culture

(3) Biological, cognitive, psychological, social, and moral growth and development of early, middle and late adolescents. Explores theories of adolescent development in a family, peer, school, and community context. Explores personal, educational and career decision making, psychosocial problems during adolescence, and implications for teaching, youth ministry, counseling, and nonprofit organization work with youth.

Prerequisites: Sophomore standing (30+ Credit Hours).

When Offered

Every fall and spring semester.

HUM 120 - Introduction to the Arts

(3) Introduction to our humanity through hands-on experience in the arts (music, visual arts, poetry, story, play, and dance). Aesthetic and artistic values in the broader context of human cultural development, responsibility, and joy.

Notes: This course satisfies the general education fine arts requirement for most students, and is the required fine arts course for education majors. It is recommended for all students with a general interest in the fine arts. Students with a special interest in theatre should see THR 112. Students with a special interest in music should see MUS 110.

Note: HUM 120 does not satisfy the fine arts requirement for music majors or minors.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

MUS 110 - Musical Perspectives

(3) An exploration of music in the broader context of culture and the arts; personal musical experiences through listening and doing; and developing the ability to discern aesthetic excellence. Included is an introduction to the elements of music and how music works, the development of a Christian perspective on the arts, a broad survey of representative selections

of Western music, and a focused overview of non-western/world music.

Notes: This course satisfies the general education fine arts requirement for most students. It is recommended for all students, especially those with an interest in music, and is the required fine arts course for all music majors and minors. Students with a special interest in Theatre should see THR 112.

Note: MUS 110 does not satisfy the fine arts requirement for education majors.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

THR 112 - Theatre Appreciation

(3) An introduction to the theatre world and all its aspects: the people who are active in that world, the many kinds of work that are created, the sensations and ideas we receive from those works, and the ways the life of theatre has transmitted across many times and place.

Notes: This course satisfies the general education fine arts requirement for most students. It is recommended for all students, especially those with an interest in theatre. Students with a special interest in music should see MUS 110.

Note: THR 112 does not satisfy the fine arts requirement for music majors or minors, or education majors.

When Offered

Fall and spring semesters.

GEO 270 - World Geography

(3) Introduces students to key concepts in geography and mapping: explores political, economic, and cultural geography, as well as physical geography and the environment.

When Offered

Every spring semester.

HIS 205 - American History

(3) Principles of the founding and the political, economic, intellectual, cultural, and religious traditions that have shaped America.

When Offered

Every spring semester.

HUM 305 - Children's Literature in Education

(3) Use of literary materials for children from preschool through middle school (4-14 years of age). History, genres, and classroom applications.

When Offered

Every fall and spring semesters.

MAT 112 - Mathematics for Liberal Arts

(3) This course introduces some of the important ideas in mathematics and how they can be applied in everyday life situations, solving a wide range of practical problems. Topics include sets, logic, history of numeration, number systems and their properties, number patterns, counting principles, probability, statistics, graph theory, personal finance, and voting methods.

Notes: Students with higher level mathematics skills (i.e. ACT MAT above 20 and SAT MATH above 520) are discouraged from taking this class. Only students who do not place into MAT 111 - College Algebra should enroll in MAT 112 - Mathematics for Liberal Arts.

When Offered

Fall, spring and summer semesters.

PHY 103 - Physical Geology

(3) Physical/ chemical makeup of Earth and processes giving rise to its present form.

Corequisites: PHY 104.

Lab/Lecture Hours

Three credit lecture, one-credit lab, two required field trips.

When Offered

Every fall semester.

PHY 104 - Physical Geology Lab

(1) Lab.

Corequisites: PHY 103.

Lab/Lecture Hours

One credit lab.

Fee

Lab fees apply.

When Offered

Every fall semester.

POL 207 - Introduction to American Politics

(3) Introduction to political science and American government to prepare students to be effective citizens.

When Offered

Every fall and spring semester.

Special Education Generalist Professional Core (48 credit hours)

CLD 205 - Culturally Responsive Pedagogy

(3) This course focuses on theories, concepts, research and pedagogical techniques related to culturally-responsive teaching, English language learning, language and content acquisition, teacher-student relationships, and building school-community partnerships with culturally diverse populations.

Prerequisites: Sophomore standing.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

EDU 250 - Field 2 Elementary Classroom and Behavior Management

(3) Field 2 is the second of a four-semester, professional field-based experience within a CCU partnership school. The focus is on implementation of research-based methods related to classroom and behavior management under university and school-based teacher supervision. Teacher candidates complete hours toward the required clinical program hour minimum in addition to on-campus seminars.

Prerequisites: EDU 214 or SPD 213; Sophomore standing. School of Education major or minor students only.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

EDU 260 - Field 2 Secondary Classroom and Behavior Management

(3) Field 2 is the second of a four-semester, professional field-based experience within a CCU partnership school. The focus is on implementation of research-based methods related to classroom and behavior management under university and school-based teacher supervision. Teacher candidates complete hours toward the required clinical program hour minimum in addition to on-campus seminars.

Prerequisites: EDU 215 or SPD 213. School of Education major or minor students only.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

MAT 202 - Teaching Mathematics in the Elementary Classroom 1

(3) This course is the first of two mathematics courses focused on the instructional methods necessary to effectively teach numbers and operations, algebra, geometry and data analysis to K-6 culturally, linguistically and academically diverse

students.

Notes: This course does not meet general education requirements in Mathematics.

When Offered

Fall and spring semesters.

MAT 402 - Teaching Elementary Mathematics 2: Math Clinic

(3) This course is the second of two mathematics courses focused on the instructional methods necessary to effectively teach numbers and operations, algebra, geometry and data analysis to culturally, linguistically and academically diverse students. Teacher Candidates complete the clinical practice requirements of this course during their concurrent EDU 461 - Elementary Student Teaching and Seminar 1 or SPD 416 - Special Education Student Teaching and Seminar 1 school placement. In addition, this course includes a campus-based math clinic where teacher candidates teach mathematical concepts to upper elementary students from local partnership schools.

Prerequisites: EDU 250 or EDU 260; MAT 202.

Corequisites: EDU 461 or SPD 416.

Fee

Course fees apply.

When Offered

Every fall and spring semesters.

RDG 324 - Teaching Content Literacy and Writing

(3) This course is one in a suite of four required literacy courses in the Elementary and Special Education programs. The main focus of this course is on research-based methodologies to teach the structures and processes of writing to academically, culturally and linguistically diverse K-6 learners. Methodologies to effectively teach vocabulary, comprehension and content literacy are also explored.

Prerequisites: EDU 214 or SPD 213.

When Offered

Every fall and spring semester.

RDG 447 - Diverse Reader 1: Instruction for Developing Readers

(3) This course focuses on scientifically-based methods of teaching reading to culturally and linguistically diverse elementary students who are "at-risk" or who have a learning disability. Phonemic Awareness, Phonics, Reading Fluency, English language structures and Sheltered Instruction are analyzed. An intensive phonics unit is developed. Teacher candidates complete hours toward the 830 clinical hour minimum in addition to on-campus seminars.

Corequisites: RDG 457. (Except for Teaching and Learning majors; please see advisor for enrolling in this course.)

When Offered

Every fall and spring semester.

RDG 457 - Diverse Reader 2: Reading Clinic

(3) Teacher candidates will be trained in an evidence-based reading intervention program aligned to findings from today's reading neuroscientists, then implement the program with diverse 3rd, 4th, and 5th grade students from Denver Public Schools and Jefferson County Schools under the supervision of a CCU Supervisor.

Prerequisites: Junior Standing.

Fee

Course fees apply.

When Offered

Every fall and spring semester.

SPD 213 - Field 1 Theory and Practice in Special Education

(3) Field 1 is the first of a four-semester, professional field-based experience within a CCU partnership school. The focus is on Special Education theory, as well as the development and implementation of standards-based lessons under university and school-based teacher supervision. Teacher candidates complete hours toward the clinical program hour minimum in addition to on-campus seminars.

Fee

Course fees apply.

When Offered

Every spring semester.

SPD 250 - Assessment for Students with Disabilities

(3) Prepares special education generalists to develop an appropriate assessment plan including assessments and procedures; reporting results; and creating decision-making procedures for determining eligibility for services.

Prerequisites: SPD 210 or SPD 213.

Fee

Course fees apply.

When Offered

Every spring semester.

SPD 416 - Special Education Student Teaching and Seminar 1

(3) This course is the third of a four-semester, professional field-based experience within a CCU partnership school. The focus is on the implementation of research-based methods in a K-12 special education classroom under university and school-based teacher supervision. Teacher candidates implement lessons aligned to state professional standards. Teacher candidates complete hours toward the required clinical program hour minimum in addition to on-campus seminars.

Prerequisites: EDU 250 or EDU 260; EDU 340, RDG 447, RDG 457. Student must have a minimum cum GPA of 2.50.
Corequisites: MAT 402.

Fee

Course fees apply.

When Offered

Every fall semester.

SPD 420 - Intervention for Emotional/Behavioral Needs

(3) This class focuses on the social/emotional and behavioral needs of K-12 students, including identification, research-based strategies for individual students with challenging behaviors, legal mandates/requirements related to behavior, and techniques for creating a safe and productive learning environment.

When Offered

Every fall semester.

SPD 455 - Differentiation, IEPs, and Transition in Special Ed

(3) Methodologies of teaching oral language development and implementing differentiated instruction to K-12 students with mild or moderate special needs is explored. Students develop an Individualized Education Plan (IEP) and 504 Plan aligned to federal, state, and local regulations. A study of current trends, mandates, and best practices regarding the preparation of youth with disabilities for transition through secondary education, college, and post-graduation workforce readiness is also studied.

When Offered

Every fall semester.

SPD 470 - Special Education Student Teaching and Seminar 2

(12) This course is the culminating, professional experience within a CCU partnership school. Teacher candidates complete a full-time teaching experience under guidance of a licensed School-Based Teacher and CCU Supervisor. Teacher candidates implement lessons and complete action research via instruction aligned to state/professional standards. Teacher candidates complete the clinical program hour minimum in addition to on-campus seminars.

Prerequisites: All other degree program courses.

Fee

Fees apply.

When Offered

Every spring semester.

Electives (7 credit hours)**Dual Degree Track in Special Education: Generalist Licensure Program**

Students may choose to enroll in the Special Education Dual Degree Track which yields 9 graduate credits towards CCU's Master of Education in Special Education program in the College of Adult and Graduate Studies. Completing graduate credits in this program benefits students by engaging them in advanced studies, and saving time in completion of a graduate degree.

The Liberal Arts Major with Special Education (K-12 Generalist) Dual Degree Track requires completion of 120 credit hours:

General Education (27 credit hours)

Liberal Arts Major (38 credit hours)

Special Education Generalist Professional Core (51 credit hours)

General Electives (4 credit hours)

Special Education Generalist Dual-Degree Professional Core (51 credit hours)

In addition to the General Education and Liberal Arts core courses listed above, students in the Special Education Generalist Dual Degree track take the following Professional core classes.

CLD 205 - Culturally Responsive Pedagogy

(3) This course focuses on theories, concepts, research and pedagogical techniques related to culturally-responsive teaching, English language learning, language and content acquisition, teacher-student relationships, and building school-community partnerships with culturally diverse populations.

Prerequisites: Sophomore standing.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

EDU 250 - Field 2 Elementary Classroom and Behavior Management

(3) Field 2 is the second of a four-semester, professional field-based experience within a CCU partnership school. The focus is on implementation of research-based methods related to classroom and behavior management under university and school-based teacher supervision. Teacher candidates complete hours toward the required clinical program hour minimum in addition to on-campus seminars.

Prerequisites: EDU 214 or SPD 213; Sophomore standing. School of Education major or minor students only.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

EDU 260 - Field 2 Secondary Classroom and Behavior Management

(3) Field 2 is the second of a four-semester, professional field-based experience within a CCU partnership school. The focus is on implementation of research-based methods related to classroom and behavior management under university and school-based teacher supervision. Teacher candidates complete hours toward the required clinical program hour minimum in addition to on-campus seminars.

Prerequisites: EDU 215 or SPD 213. School of Education major or minor students only.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

MAT 402 - Teaching Elementary Mathematics 2: Math Clinic

(3) This course is the second of two mathematics courses focused on the instructional methods necessary to effectively teach numbers and operations, algebra, geometry and data analysis to culturally, linguistically and academically diverse students. Teacher Candidates complete the clinical practice requirements of this course during their concurrent EDU 461 - Elementary Student Teaching and Seminar 1 or SPD 416 - Special Education Student Teaching and Seminar 1 school placement. In addition, this course includes a campus-based math clinic where teacher candidates teach mathematical concepts to upper elementary students from local partnership schools.

Prerequisites: EDU 250 or EDU 260; MAT 202.

Corequisites: EDU 461 or SPD 416.

Fee

Course fees apply.

When Offered

Every fall and spring semesters.

RDG 324 - Teaching Content Literacy and Writing

(3) This course is one in a suite of four required literacy courses in the Elementary and Special Education programs. The main focus of this course is on research-based methodologies to teach the structures and processes of writing to academically, culturally and linguistically diverse K-6 learners. Methodologies to effectively teach vocabulary, comprehension and content literacy are also explored.

Prerequisites: EDU 214 or SPD 213.

When Offered

Every fall and spring semester.

RDG 457 - Diverse Reader 2: Reading Clinic

(3) Teacher candidates will be trained in an evidence-based reading intervention program aligned to findings from today's reading neuroscientists, then implement the program with diverse 3rd, 4th, and 5th grade students from Denver Public Schools and Jefferson County Schools under the supervision of a CCU Supervisor.

Prerequisites: Junior Standing.

Fee

Course fees apply.

When Offered

Every fall and spring semester.

SPD 213 - Field 1 Theory and Practice in Special Education

(3) Field 1 is the first of a four-semester, professional field-based experience within a CCU partnership school. The focus is on Special Education theory, as well as the development and implementation of standards-based lessons under university and school-based teacher supervision. Teacher candidates complete hours toward the clinical program hour minimum in addition to on-campus seminars.

Fee

Course fees apply.

When Offered

Every spring semester.

SPD 250 - Assessment for Students with Disabilities

(3) Prepares special education generalists to develop an appropriate assessment plan including assessments and procedures; reporting results; and creating decision-making procedures for determining eligibility for services.

Prerequisites: SPD 210 or SPD 213.

Fee

Course fees apply.

When Offered

Every spring semester.

SPD 416 - Special Education Student Teaching and Seminar 1

(3) This course is the third of a four-semester, professional field-based experience within a CCU partnership school. The focus is on the implementation of research-based methods in a K-12 special education classroom under university and school-based teacher supervision. Teacher candidates implement lessons aligned to state professional standards. Teacher candidates complete hours toward the required clinical program hour minimum in addition to on-campus seminars.

Prerequisites: EDU 250 or EDU 260; EDU 340, RDG 447, RDG 457. Student must have a minimum cum GPA of 2.50.

Corequisites: MAT 402.

Fee

Course fees apply.

When Offered

Every fall semester.

SPD 420 - Intervention for Emotional/Behavioral Needs

(3) This class focuses on the social/emotional and behavioral needs of K-12 students, including identification, research-based strategies for individual students with challenging behaviors, legal mandates/requirements related to behavior, and techniques for creating a safe and productive learning environment.

When Offered

Every fall semester.

SPD 455 - Differentiation, IEPs, and Transition in Special Ed

(3) Methodologies of teaching oral language development and implementing differentiated instruction to K-12 students with mild or moderate special needs is explored. Students develop an Individualized Education Plan (IEP) and 504 Plan aligned to federal, state, and local regulations. A study of current trends, mandates, and best practices regarding the preparation of youth with disabilities for transition through secondary education, college, and post-graduation workforce readiness is also studied.

When Offered

Every fall semester.

SPD 470 - Special Education Student Teaching and Seminar 2

(12) This course is the culminating, professional experience within a CCU partnership school. Teacher candidates complete a full-time teaching experience under guidance of a licensed School-Based Teacher and CCU Supervisor. Teacher candidates implement lessons and complete action research via instruction aligned to state/professional standards. Teacher candidates complete the clinical program hour minimum in addition to on-campus seminars.

Prerequisites: All other degree program courses.

Fee

Fees apply.

When Offered

Every spring semester.

These graduate-level courses are taken through the College of Adult and Graduate Studies. Students must have a total of 60 earned credit hours prior to registration in a graduate-level course.

RDG 546 - Reading Instruction K-12

(3) This course provides students with scientifically-based methods of teaching reading to all students. Methods and materials for children with perceptual learning disabilities, including dyslexia, and linguistically diverse learners are introduced. This course also introduces effective instructional techniques, such as pacing, corrective feedback, and distributed practice, that encourage reading mastery.

SED 500 - Introduction to Special Education

(3) This course is an introduction to the profession of special education and focuses on the foundations of special education (history, law, and finance), the special education teacher (ethics, professionalism and roles), and with knowledge about current trends (issues and research based). (Includes 20 field hours)

SED 517 - Advanced Math Strategies for Intervention

(3) This course focuses on developing competency in the implementation of explicit and systematic evidence-based instructional strategies to teach mathematics content to diverse learners. Scientifically, research-based methodology will be emphasized for effective diagnosis, instruction, progress monitoring, and collaborative support.

Electives (4 credit hours)**Special Education: Generalist Licensure Emphases**

CCU Graduates completing the Special Education: Generalist Licensure Program earn three CCU areas of emphasis:

- Biblical Studies
- Reading Literacy
- Social Studies

Special Education Generalist Courses with Prerequisites

CLD 205 - Culturally Responsive Pedagogy

(3) This course focuses on theories, concepts, research and pedagogical techniques related to culturally-responsive teaching, English language learning, language and content acquisition, teacher-student relationships, and building school-community partnerships with culturally diverse populations.

Prerequisites: Sophomore standing.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

EDU 250 - Field 2 Elementary Classroom and Behavior Management

(3) Field 2 is the second of a four-semester, professional field-based experience within a CCU partnership school. The focus is on implementation of research-based methods related to classroom and behavior management under university and school-based teacher supervision. Teacher candidates complete hours toward the required clinical program hour minimum in addition to on-campus seminars.

Prerequisites: EDU 214 or SPD 213; Sophomore standing. School of Education major or minor students only.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

EDU 260 - Field 2 Secondary Classroom and Behavior Management

(3) Field 2 is the second of a four-semester, professional field-based experience within a CCU partnership school. The focus is on implementation of research-based methods related to classroom and behavior management under university and school-based teacher supervision. Teacher candidates complete hours toward the required clinical program hour minimum in addition to on-campus seminars.

Prerequisites: EDU 215 or SPD 213. School of Education major or minor students only.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

MAT 402 - Teaching Elementary Mathematics 2: Math Clinic

(3) This course is the second of two mathematics courses focused on the instructional methods necessary to effectively teach numbers and operations, algebra, geometry and data analysis to culturally, linguistically and academically diverse students. Teacher Candidates complete the clinical practice requirements of this course during their concurrent EDU 461 - Elementary Student Teaching and Seminar 1 or SPD 416 - Special Education Student Teaching and Seminar 1 school placement. In addition, this course includes a campus-based math clinic where teacher candidates teach mathematical concepts to upper elementary students from local partnership schools.

Prerequisites: EDU 250 or EDU 260; MAT 202.

Corequisites: EDU 461 or SPD 416.

Fee

Course fees apply.

When Offered

Every fall and spring semesters.

RDG 324 - Teaching Content Literacy and Writing

(3) This course is one in a suite of four required literacy courses in the Elementary and Special Education programs. The main focus of this course is on research-based methodologies to teach the structures and processes of writing to academically, culturally and linguistically diverse K-6 learners. Methodologies to effectively teach vocabulary, comprehension and content literacy are also explored.

Prerequisites: EDU 214 or SPD 213.

When Offered

Every fall and spring semester.

RDG 447 - Diverse Reader 1: Instruction for Developing Readers

(3) This course focuses on scientifically-based methods of teaching reading to culturally and linguistically diverse elementary students who are "at-risk" or who have a learning disability. Phonemic Awareness, Phonics, Reading Fluency, English language structures and Sheltered Instruction are analyzed. An intensive phonics unit is developed. Teacher candidates complete hours toward the 830 clinical hour minimum in addition to on-campus seminars.

Corequisites: RDG 457. (Except for Teaching and Learning majors; please see advisor for enrolling in this course.)

When Offered

Every fall and spring semester.

RDG 457 - Diverse Reader 2: Reading Clinic

(3) Teacher candidates will be trained in an evidence-based reading intervention program aligned to findings from today's reading neuroscientists, then implement the program with diverse 3rd, 4th, and 5th grade students from Denver Public Schools and Jefferson County Schools under the supervision of a CCU Supervisor.

Prerequisites: Junior Standing.

Fee

Course fees apply.

When Offered

Every fall and spring semester.

SPD 250 - Assessment for Students with Disabilities

(3) Prepares special education generalists to develop an appropriate assessment plan including assessments and procedures; reporting results; and creating decision-making procedures for determining eligibility for services.

Prerequisites: SPD 210 or SPD 213.

Fee

Course fees apply.

When Offered

Every spring semester.

SPD 416 - Special Education Student Teaching and Seminar 1

(3) This course is the third of a four-semester, professional field-based experience within a CCU partnership school. The focus is on the implementation of research-based methods in a K-12 special education classroom under university and school-based teacher supervision. Teacher candidates implement lessons aligned to state professional standards. Teacher candidates complete hours toward the required clinical program hour minimum in addition to on-campus seminars.

Prerequisites: EDU 250 or EDU 260; EDU 340, RDG 447, RDG 457. Student must have a minimum cum GPA of 2.50.

Corequisites: MAT 402.

Fee

Course fees apply.

When Offered

Every fall semester.

SPD 470 - Special Education Student Teaching and Seminar 2

(12) This course is the culminating, professional experience within a CCU partnership school. Teacher candidates complete a full-time teaching experience under guidance of a licensed School-Based Teacher and CCU Supervisor. Teacher candidates implement lessons and complete action research via instruction aligned to state/professional standards. Teacher candidates complete the clinical program hour minimum in addition to on-campus seminars.

Prerequisites: All other degree program courses.

Fee

Fees apply.

When Offered

Every spring semester.

Professional Licensure Disclosure

Colorado Christian University offers several academic programs which lead to professional licensure in the state of Colorado and, in some programs, prepare students for a national exam. All students should be aware that states vary in their educational and professional requirements depending on the profession. Some states require specific educational requirements, clinical requirements, accreditation requirements, or exam requirements. See professional licensure disclosures for details.

Graduation Requirements for Bachelor of Arts in Liberal Arts with Special Education Licensure

The faculty recommends students in the B.A. in Liberal Arts with Special Education Licensure to the Board of Trustees as candidates for graduation when they have completed the following requirements.

1. Completion of a total of 120 credits, including all general education, elective, liberal arts major, and special education professional core requirements.
2. A cumulative GPA of 2.5 or better across all CCU coursework, and a C- or better in all major and professional education courses.
3. Completion of 180 hours of ministry/community service and 180 chapel credits. Transfer students are required to complete 45 hours of ministry/community service and 45 chapel credits each year of attendance at CCU. For further details on ministry/community service, see the Life Directions Center (LDC) section of this catalog. For further details on chapel credits, see the Student Life section of this catalog.
4. Meet the CCU Residency requirements.
5. Acceptable performance on exit exams (e.g., PRAXIS Exams), as required by the faculty.
6. Formal and timely application for graduation by the date specified by the University Registrar.
7. No outstanding financial obligation to the University.

Teaching and Learning Major

Teaching and Learning program graduates earn a B.A. in Teaching and Learning as well as a minor in an approved CCU program. With up to 21 elective credit hours, students have options for a second minor, or study abroad. In addition, students can earn 3-6 graduate-level credits in this program that can be applied to the Curriculum and Instruction Master of Arts program in the College of Adult and Graduate Studies.

This non-licensure program is 120 credit hours and offers supervised clinical practice experiences in a wide variety of school settings. Upon program completion, the student can apply their knowledge and skills to a variety of vocations such as: youth ministry, non-licensed teaching opportunities, non/for-profit K-12 business positions, and K-12 publishing positions.

CCU graduates of the Teaching and Learning Major earn a CCU Area of Emphasis in Biblical Studies.

The Bachelor of Arts major in Teaching and Learning requires completion of 120 credit hours, including 100+ clinical practice hours in a school:

General Education Core (51 credit hours)

Teaching and Learning Major Core (30 credit hours)

Minor Core (18 credit hours)

General Electives (21 credit hours)

General Education Requirements (51 credit hours)

Arts and Humanities (9 credit hours)

Take one course from each of the following three academic disciplines:

Fine Arts (3 credit hours)

Choose one course from the following:

HUM 120 - Introduction to the Arts

(3) Introduction to our humanity through hands-on experience in the arts (music, visual arts, poetry, story, play, and dance). Aesthetic and artistic values in the broader context of human cultural development, responsibility, and joy.

Notes: This course satisfies the general education fine arts requirement for most students, and is the required fine arts course for education majors. It is recommended for all students with a general interest in the fine arts. Students with a special interest in theatre should see THR 112. Students with a special interest in music should see MUS 110.

Note: HUM 120 does not satisfy the fine arts requirement for music majors or minors.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

MUS 110 - Musical Perspectives

(3) An exploration of music in the broader context of culture and the arts; personal musical experiences through listening and doing; and developing the ability to discern aesthetic excellence. Included is an introduction to the elements of music and how music works, the development of a Christian perspective on the arts, a broad survey of representative selections of Western music, and a focused overview of non-western/world music.

Notes: This course satisfies the general education fine arts requirement for most students. It is recommended for all students, especially those with an interest in music, and is the required fine arts course for all music majors and minors. Students with a special interest in Theatre should see THR 112.

Note: MUS 110 does not satisfy the fine arts requirement for education majors.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

THR 112 - Theatre Appreciation

(3) An introduction to the theatre world and all its aspects: the people who are active in that world, the many kinds of work that are created, the sensations and ideas we receive from those works, and the ways the life of theatre has transmitted across many times and place.

Notes: This course satisfies the general education fine arts requirement for most students. It is recommended for all students, especially those with an interest in theatre. Students with a special interest in music should see MUS 110.

Note: THR 112 does not satisfy the fine arts requirement for music majors or minors, or education majors.

When Offered

Fall and spring semesters.

Literature (3 credit hours)

Choose one course from the following:

ENG 201 - Introduction to Literature

(3) Understand, experience, and evaluate poetry, short fiction, essays, and drama genres, both American and multinational.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Fall and spring semesters.

ENG 202 - American Literature I

(3) Representative stories, poems, and documents in American literature from the Colonial era to the early Republic (1776-1830) through the Romantic-transcendentalist period (1830-1860). Includes readings from multiethnic and women writers.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every fall semester.

Philosophy (3 credit hours)**PHL 202 - Introduction to Philosophy**

(3) This course is a survey of many major issues raised over the two-and-a-half millennia of western philosophy. With an emphasis on historical context and development, as well as philosophy's relationship to Christian thought, this course challenges students to critically explore philosophical questions and introduce them to the great tradition of intellectual inquiry. Special attention will be given to the subjects of truth and knowledge, reality and appearance, mind and body, right and wrong, beauty and the existence of God.

When Offered

Fall and summer semesters.

Biblical Studies (12 credit hours)

Take the following four courses:

HIS 111 - Old Testament

(3) This course provides an introduction to the theological, historical, and literary features of the Old Testament, tracing God's covenant relationship with ancient Israel. Special consideration will be given to the divine covenants and Messianic prophecies of the Old Testament.

When Offered

Every spring semester.

Cross-listed BIB 111.

HUM 114 - New Testament

(3) This course provides an introduction to the theological, historical, and literary features of the New Testament, tracing the presentation of the gospel message through historical, epistolary, and apocalyptic genres. Special consideration will be given to the life of Christ and missionary journeys of the Apostle Paul.

When Offered

Every fall semester.

Cross-listed BIB 114.

PHL 315 - World Religions and Systems of Belief

(3) This course introduces an academic study of religion and what is called worldview, supplemented by an overview of some of the major tenets of Christianity; this is then followed by a survey of several other religious traditions and competing philosophies.

Prerequisites: PHL 202, THE 201.

When Offered

Winter and spring semesters.

THE 201 - Introduction to Theology

(3) This course covers basic issues, themes, and categories of Christian theology, including the doctrines of Scripture, God, humanity, Christ, salvation, the church, and last things. This course encourages students to better know, trust, love, and live by God's Word.

Prerequisites: BIB 111, BIB 114.

When Offered

Fall, winter, spring, and summer semesters.

Communication (6 credit hours)**COM 103 - Public Speaking**

(3) Introductory principles of communication emphasizing public speaking. Aspects of verbal and nonverbal delivery, speech organization, and the effective use of supporting material and presentational aids are addressed. Students give several speeches designed to better equip them for future speaking endeavors

When Offered

Fall and spring semesters.

ENG 102 - English Composition

(3) Effective use of the English language and exploration of rhetorical modes in written composition. Review of structure, purpose, and audience awareness in developing essays.

Prerequisites: ACT and/or SAT scores will be used to determine placement in either ENG 102 or ENG 102 (Basic).

Notes: Course must be completed first semester at CCU.

When Offered

Fall and spring semester.

ENG 105 - Advanced English Composition

(3) Advanced English composition, research methods, and literary study for invited exceptional students. Focus on both the study of literature and research writing.

Prerequisites: One of the following:

- AP English Language and Composition
 - A score of 4 is the minimum prerequisite for enrollment in ENG 105. A student who scores a 4 or 5 will automatically enroll a student in ENG 105 instead of ENG 102 and/or ENG 201.
- AP English Literature and Composition
 - A score of 4 is the minimum prerequisite for enrollment in ENG 105. A student who scores a 4 or 5 will automatically enroll a student in ENG 105 instead of ENG 102 and/or ENG 201.
- Score of 30 or above on the verbal section of the ACT exam.
- Score of 700 or above on the verbal section of the SAT exam.
- By invitation of the English department.

Notes: Fulfills general education requirements for both ENG 102 and ENG 201.

When Offered

Every fall semester.

Integrative Studies (3 credit hours)

* Please see the First-Year Integration (FYI) page for specific information about this required course.

INT 101 - First-Year Integration

(3) Think critically, grow spiritually, and change the world. Based on the premise that we as Christians are called to be rational creatures, relational creatures, and responsible creatures, FYI is an integrative study of foundational Christian principles with other disciplines. Examination and discussion of problems and contemporary issues - academic, personal, and social - facing students in their pursuit of success in college and life. Please see the First-Year Integration (FYI) page for specific information about this required course.

When Offered

Fall and spring semesters.

Mathematics (3 credit hours)

MAT 112 - Mathematics for Liberal Arts

(3) This course introduces some of the important ideas in mathematics and how they can be applied in everyday life situations, solving a wide range of practical problems. Topics include sets, logic, history of numeration, number systems and their properties, number patterns, counting principles, probability, statistics, graph theory, personal finance, and voting methods.

Notes: Students with higher level mathematics skills (i.e. ACT MAT above 20 and SAT MATH above 520) are discouraged from taking this class. Only students who do not place into MAT 111 - College Algebra should enroll in MAT 112 - Mathematics for Liberal Arts.

When Offered

Fall, spring and summer semesters.

Science (3 credit hours)

SCI 230 - Integrated Physical Science with Lab

(3) This is an integrated course presenting the major concepts, theoretical perspectives, historical trends, and empirical findings of the physical sciences. Laboratory exercises and lectures explore motion, the four forces, heat, energy, chemical reactions, the structure and development of matter, the types and nature of chemical bonding, and the nature and history of the universe, the solar system, and the Earth.

Lab/Lecture Hours

Laboratory investigations included in course.

Fee

Lab fees apply.

When Offered

Every semester.

Social Sciences (15 credit hours)

Take each of the following five courses:

ECO 215 - Economics

(3) Economics is about scarcity and choice. Students in this course study how people, firms, governments, and nations interact in alternative economic systems to make choices about allocating scarce resources. In addition, students learn to evaluate these systems, understand macroeconomic monetary and fiscal policies, and engage in policy debates.

When Offered

Fall and spring semesters.

GEO 270 - World Geography

(3) Introduces students to key concepts in geography and mapping: explores political, economic, and cultural geography, as well as physical geography and the environment.

When Offered

Every spring semester.

HIS 185 - Western Civilization

(3) The spiritual values and intellectual achievements of ancient Israel, Greece, Rome, the Middle Ages, the Renaissance, and Reformation that gave birth to the modern world.

When Offered

Every fall semester.

HIS 205 - American History

(3) Principles of the founding and the political, economic, intellectual, cultural, and religious traditions that have shaped America.

When Offered

Every spring semester.

POL 207 - Introduction to American Politics

(3) Introduction to political science and American government to prepare students to be effective citizens.

When Offered

Every fall and spring semester.

Teaching and Learning Major Courses (30 credit hours)

CLD 205 - Culturally Responsive Pedagogy

(3) This course focuses on theories, concepts, research and pedagogical techniques related to culturally-responsive teaching, English language learning, language and content acquisition, teacher-student relationships, and building school-community partnerships with culturally diverse populations.

Prerequisites: Sophomore standing.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

EDU 340 - Assessment of Learning and Critical Thinking

(3) The role of assessment and evaluation in critical thinking development and the instructional decision-making process is explored, with an emphasis on practical application to student learning outcomes, and increasing achievement for students from diverse backgrounds. Performance-based assessment, assessment procedures, protocols, and other assessment practices will be analyzed.

Prerequisites: Sophomore standing.

When Offered

Fall and spring semesters.

EDU 580 - Integrating Technology into Education

(3) Students review an overview of current educational technology. In addition, they explore the historical and philosophical underpinnings of technology and gives examples of integrating technology into teaching and training,

including software, hardware, and multimedia. Students develop instructional plans that effectively apply and integrate educational technology into curriculum development.

EDU 214 - Field 1 Theory and Practice in Elementary Education

(3) Field 1 is the first of a four-semester, professional field-based experience within a CCU partnership school. The focus is on educational theory, as well as the development and implementation of standards-based lessons under university and school-based teacher supervision. Teacher candidates complete hours toward the clinical program hour minimum in addition to on-campus seminars.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

EDU 215 - Field 1 Theory and Practice in Secondary Education

(3) Field 1 is the first of a four-semester, professional field-based experience within a CCU partnership secondary school. The focus is on education theory, as well as the development and implementation of standards-based lessons under university and school-based teacher supervision. Teacher candidates complete hours toward the clinical program hour minimum in addition to on-campus seminars.

Fee

Course fees apply.

When Offered

Every fall and spring semester.

EDU 250 - Field 2 Elementary Classroom and Behavior Management

(3) Field 2 is the second of a four-semester, professional field-based experience within a CCU partnership school. The focus is on implementation of research-based methods related to classroom and behavior management under university and school-based teacher supervision. Teacher candidates complete hours toward the required clinical program hour minimum in addition to on-campus seminars.

Prerequisites: EDU 214 or SPD 213; Sophomore standing. School of Education major or minor students only.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

EDU 260 - Field 2 Secondary Classroom and Behavior Management

(3) Field 2 is the second of a four-semester, professional field-based experience within a CCU partnership school. The focus is on implementation of research-based methods related to classroom and behavior management under university and school-based teacher supervision. Teacher candidates complete hours toward the required clinical program hour minimum in addition to on-campus seminars.

Prerequisites: EDU 215 or SPD 213. School of Education major or minor students only.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

EDU 334 - Teaching Science and Social Studies in the Elementary Classroom

(3) This course focuses on the instructional methods, curriculum and assessments necessary to effectively teach social studies and science to K-6 students. Emphasis is on the integration of curriculum, Colorado Academic Standards, and effective, research-based teaching practices in science and social studies. Teacher Candidates complete the clinical practice requirements of this course, concurrently, during their EDU 461 Field 3 school placement.

Prerequisites: EDU 250.

Corequisites: EDU 461.

When Offered

Every fall and spring semesters.

MAT 202 - Teaching Mathematics in the Elementary Classroom 1

(3) This course is the first of two mathematics courses focused on the instructional methods necessary to effectively teach numbers and operations, algebra, geometry and data analysis to K-6 culturally, linguistically and academically diverse students.

Notes: This course does not meet general education requirements in Mathematics.

When Offered

Fall and spring semesters.

EPS 340 - Educational Child Psychology and Development

(3) The educator's role in recognizing, evaluating and guiding the cognitive, physical, psychosocial and emotional growth patterns and characteristics from infants to early, middle and late childhood, as well as adolescence.

When Offered

Fall and spring semesters.

EPS 342 - Adolescent Development and Culture

(3) Biological, cognitive, psychological, social, and moral growth and development of early, middle and late adolescents. Explores theories of adolescent development in a family, peer, school, and community context. Explores personal, educational and career decision making, psychosocial problems during adolescence, and implications for teaching, youth ministry, counseling, and nonprofit organization work with youth.

Prerequisites: Sophomore standing (30+ Credit Hours).

When Offered

Every fall and spring semester.

HUM 305 - Children's Literature in Education

(3) Use of literary materials for children from preschool through middle school (4-14 years of age). History, genres, and classroom applications.

When Offered

Every fall and spring semesters.

Choose 1 300-level ENG course

RDG 324 - Teaching Content Literacy and Writing

(3) This course is one in a suite of four required literacy courses in the Elementary and Special Education programs. The main focus of this course is on research-based methodologies to teach the structures and processes of writing to academically, culturally and linguistically diverse K-6 learners. Methodologies to effectively teach vocabulary, comprehension and content literacy are also explored.

Prerequisites: EDU 214 or SPD 213.

When Offered

Every fall and spring semester.

RDG 447 - Diverse Reader 1: Instruction for Developing Readers

(3) This course focuses on scientifically-based methods of teaching reading to culturally and linguistically diverse elementary students who are "at-risk" or who have a learning disability. Phonemic Awareness, Phonics, Reading Fluency, English language structures and Sheltered Instruction are analyzed. An intensive phonics unit is developed. Teacher candidates complete hours toward the 830 clinical hour minimum in addition to on-campus seminars.

Corequisites: RDG 457. (Except for Teaching and Learning majors; please see advisor for enrolling in this course.)

When Offered

Every fall and spring semester.

CLD 577 - Foundations in English Language Education

(3) The course explores the historical, social, multicultural, legal, and political backgrounds of the education of culturally and linguistically diverse students in the United States with an emphasis on making connections between culture and learning, cross-cultural communication, and family.

SPD 210 - Introduction to Special Education

(3) Understanding of the integration of exceptional children and adolescents (K-12) into general educational environments. Development of an understanding of students with special needs. Designing a learning environment to include assessment and adaptation of instruction to maximize student learning potential.

When Offered

Every fall and spring semester.

SED 500 - Introduction to Special Education

(3) This course is an introduction to the profession of special education and focuses on the foundations of special education (history, law, and finance), the special education teacher (ethics, professionalism and roles), and with knowledge about current trends (issues and research based). (Includes 20 field hours)

Required Minor Core (18 credit hours)

Students must select a CCU Minor from the following options. Most minors require 18 credit hours, but some require 19-22 credit hours. General Elective requirements may be adjusted accordingly. A total of 120 credit hours is required for the B.A. Teaching and Learning major.

Biblical Studies Minor
Biology Minor
Business Minor
Communication Minor
Global Studies Minor
Intercultural Ministry Minor
Leadership Studies Minor
Management Minor
Music Minor
Outdoor Leadership Minor
Psychology Minor
Theatre Minor
Youth Ministry Minor

Teaching and Learning Program Courses With Corequisites and/or Prerequisites

CLD 205 - Culturally Responsive Pedagogy

(3) This course focuses on theories, concepts, research and pedagogical techniques related to culturally-responsive teaching, English language learning, language and content acquisition, teacher-student relationships, and building school-community partnerships with culturally diverse populations.

Prerequisites: Sophomore standing.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

EDU 250 - Field 2 Elementary Classroom and Behavior Management

(3) Field 2 is the second of a four-semester, professional field-based experience within a CCU partnership school. The focus is on implementation of research-based methods related to classroom and behavior management under university and school-based teacher supervision. Teacher candidates complete hours toward the required clinical program hour minimum in addition to on-campus seminars.

Prerequisites: EDU 214 or SPD 213; Sophomore standing. School of Education major or minor students only.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

EDU 260 - Field 2 Secondary Classroom and Behavior Management

(3) Field 2 is the second of a four-semester, professional field-based experience within a CCU partnership school. The focus is on implementation of research-based methods related to classroom and behavior management under university and school-based teacher supervision. Teacher candidates complete hours toward the required clinical program hour minimum in addition to on-campus seminars.

Prerequisites: EDU 215 or SPD 213. School of Education major or minor students only.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

EDU 340 - Assessment of Learning and Critical Thinking

(3) The role of assessment and evaluation in critical thinking development and the instructional decision-making process is explored, with an emphasis on practical application to student learning outcomes, and increasing achievement for students from diverse backgrounds. Performance-based assessment, assessment procedures, protocols, and other assessment practices will be analyzed.

Prerequisites: Sophomore standing.

When Offered

Fall and spring semesters.

RDG 447 - Diverse Reader 1: Instruction for Developing Readers

(3) This course focuses on scientifically-based methods of teaching reading to culturally and linguistically diverse elementary students who are "at-risk" or who have a learning disability. Phonemic Awareness, Phonics, Reading Fluency, English language structures and Sheltered Instruction are analyzed. An intensive phonics unit is developed. Teacher candidates complete hours toward the 830 clinical hour minimum in addition to on-campus seminars.

Corequisites: RDG 457. (Except for Teaching and Learning majors; please see advisor for enrolling in this course.)

When Offered

Every fall and spring semester.

Graduation Requirements for Bachelor of Arts in Teaching and Learning

The faculty recommends students in the B.A. in Teaching and Learning to the Board of Trustees as candidates for graduation when they have completed the following requirements.

1. Completion of a total of 120 credits, including all general education, electives, required minor, and major core requirements.
2. A letter grade of D or better and a cumulative GPA of 2.5 or better in all CCU coursework, and a C- or better in all major core courses.
3. Completion of 180 hours of ministry/community service and 180 chapel credits. Transfer students are required to complete 45 hours of ministry/community service and 45 chapel credits each year of attendance at CCU. For further details on ministry/community service, see the Life Directions Center (LDC) section of this catalog. For further details on chapel credits, see the Student Life section of this catalog.
4. Meet the CCU Residency requirements.
5. Acceptable performance on exit exams, as required by the faculty.
6. Formal and timely application for graduation by the date specified by the University Registrar.
7. No outstanding financial obligation to the University.

Minor

Education Minors/Emphasis

The School of Education provides a Reading Education Minor, an Education Minor, a Special Education Minor, and a Reading/Literacy Area of Emphasis.

The Reading Education Minor, which does not lead to Colorado teacher licensure, is available to screened elementary and special education students who do not plan to pursue teacher licensure and have selected a new major outside of the School of Education.

The Education Minor and the Special Education Minor, which do not lead to Colorado teacher licensure, are available to a wide range of majors on campus, including, but not limited to: youth ministry, business, psychology, and music students. These options are beneficial for CCU students who are enrolled in a major outside of the School of Education, and plan to work in settings where they will interact, counsel, lead, coach, or work on behalf of children and youth.

The Reading Literacy Emphasis is awarded to all Elementary Education and Special Education: Generalist program completers, and represents a strong and important focus for teachers in these fields.

Elementary Education graduates earn the English emphasis, and Elementary Education and Special Education: Generalist graduates also earn the Biblical Studies and Social Studies emphases as part of their bachelor degree programs.

Students may earn a Minor or Area of Emphasis by completing the following courses. All students are required to work directly with the Life Directions Center to ensure they are meeting all requirements for completion of a CCU Minor or Area of Emphasis.

Education Minor (18 credit hours) - Non-Licensure

CLD 205 - Culturally Responsive Pedagogy

(3) This course focuses on theories, concepts, research and pedagogical techniques related to culturally-responsive teaching, English language learning, language and content acquisition, teacher-student relationships, and building school-community partnerships with culturally diverse populations.

Prerequisites: Sophomore standing.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

EDU 340 - Assessment of Learning and Critical Thinking

(3) The role of assessment and evaluation in critical thinking development and the instructional decision-making process is explored, with an emphasis on practical application to student learning outcomes, and increasing achievement for students from diverse backgrounds. Performance-based assessment, assessment procedures, protocols, and other assessment practices will be analyzed.

Prerequisites: Sophomore standing.

When Offered

Fall and spring semesters.

EDU 214 - Field 1 Theory and Practice in Elementary Education

(3) Field 1 is the first of a four-semester, professional field-based experience within a CCU partnership school. The focus is on educational theory, as well as the development and implementation of standards-based lessons under university and school-based teacher supervision. Teacher candidates complete hours toward the clinical program hour minimum in addition to on-campus seminars.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

EDU 215 - Field 1 Theory and Practice in Secondary Education

(3) Field 1 is the first of a four-semester, professional field-based experience within a CCU partnership secondary school. The focus is on education theory, as well as the development and implementation of standards-based lessons under university and school-based teacher supervision. Teacher candidates complete hours toward the clinical program hour minimum in addition to on-campus seminars.

Fee

Course fees apply.

When Offered

Every fall and spring semester.

EDU 250 - Field 2 Elementary Classroom and Behavior Management

(3) Field 2 is the second of a four-semester, professional field-based experience within a CCU partnership school. The focus is on implementation of research-based methods related to classroom and behavior management under university and school-based teacher supervision. Teacher candidates complete hours toward the required clinical program hour minimum in addition to on-campus seminars.

Prerequisites: EDU 214 or SPD 213; Sophomore standing. School of Education major or minor students only.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

EDU 260 - Field 2 Secondary Classroom and Behavior Management

(3) Field 2 is the second of a four-semester, professional field-based experience within a CCU partnership school. The focus is on implementation of research-based methods related to classroom and behavior management under university and school-based teacher supervision. Teacher candidates complete hours toward the required clinical program hour minimum in addition to on-campus seminars.

Prerequisites: EDU 215 or SPD 213. School of Education major or minor students only.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

EPS 340 - Educational Child Psychology and Development

(3) The educator's role in recognizing, evaluating and guiding the cognitive, physical, psychosocial and emotional growth patterns and characteristics from infants to early, middle and late childhood, as well as adolescence.

When Offered

Fall and spring semesters.

EPS 342 - Adolescent Development and Culture

(3) Biological, cognitive, psychological, social, and moral growth and development of early, middle and late adolescents. Explores theories of adolescent development in a family, peer, school, and community context. Explores personal, educational and career decision making, psychosocial problems during adolescence, and implications for teaching, youth ministry, counseling, and nonprofit organization work with youth.

Prerequisites: Sophomore standing (30+ Credit Hours).

When Offered

Every fall and spring semester.

MAT 202 - Teaching Mathematics in the Elementary Classroom 1

(3) This course is the first of two mathematics courses focused on the instructional methods necessary to effectively teach numbers and operations, algebra, geometry and data analysis to K-6 culturally, linguistically and academically diverse students.

Notes: This course does not meet general education requirements in Mathematics.

When Offered

Fall and spring semesters.

RDG 324 - Teaching Content Literacy and Writing

(3) This course is one in a suite of four required literacy courses in the Elementary and Special Education programs. The main focus of this course is on research-based methodologies to teach the structures and processes of writing to academically, culturally and linguistically diverse K-6 learners. Methodologies to effectively teach vocabulary, comprehension and content literacy are also explored.

Prerequisites: EDU 214 or SPD 213.

When Offered

Every fall and spring semester.

RDG 447 - Diverse Reader 1: Instruction for Developing Readers

(3) This course focuses on scientifically-based methods of teaching reading to culturally and linguistically diverse elementary students who are "at-risk" or who have a learning disability. Phonemic Awareness, Phonics, Reading Fluency, English language structures and Sheltered Instruction are analyzed. An intensive phonics unit is developed. Teacher candidates complete hours toward the 830 clinical hour minimum in addition to on-campus seminars.

Corequisites: RDG 457. (Except for Teaching and Learning majors; please see advisor for enrolling in this course.)

When Offered

Every fall and spring semester.

SPD 210 - Introduction to Special Education

(3) Understanding of the integration of exceptional children and adolescents (K-12) into general educational environments. Development of an understanding of students with special needs. Designing a learning environment to include assessment and adaptation of instruction to maximize student learning potential.

When Offered

Every fall and spring semester.

Reading Education Minor (18 credit hours) - Non-licensure**EDU 340 - Assessment of Learning and Critical Thinking**

(3) The role of assessment and evaluation in critical thinking development and the instructional decision-making process is explored, with an emphasis on practical application to student learning outcomes, and increasing achievement for students from diverse backgrounds. Performance-based assessment, assessment procedures, protocols, and other assessment practices will be analyzed.

Prerequisites: Sophomore standing.

When Offered

Fall and spring semesters.

HUM 305 - Children's Literature in Education

(3) Use of literary materials for children from preschool through middle school (4-14 years of age). History, genres, and classroom applications.

When Offered

Every fall and spring semesters.

RDG 324 - Teaching Content Literacy and Writing

(3) This course is one in a suite of four required literacy courses in the Elementary and Special Education programs. The main focus of this course is on research-based methodologies to teach the structures and processes of writing to academically, culturally and linguistically diverse K-6 learners. Methodologies to effectively teach vocabulary, comprehension and content literacy are also explored.

Prerequisites: EDU 214 or SPD 213.

When Offered

Every fall and spring semester.

RDG 447 - Diverse Reader 1: Instruction for Developing Readers

(3) This course focuses on scientifically-based methods of teaching reading to culturally and linguistically diverse elementary students who are "at-risk" or who have a learning disability. Phonemic Awareness, Phonics, Reading Fluency, English language structures and Sheltered Instruction are analyzed. An intensive phonics unit is developed. Teacher candidates complete hours toward the 830 clinical hour minimum in addition to on-campus seminars.

Corequisites: RDG 457. (Except for Teaching and Learning majors; please see advisor for enrolling in this course.)

When Offered

Every fall and spring semester.

EDU 214 - Field 1 Theory and Practice in Elementary Education

(3) Field 1 is the first of a four-semester, professional field-based experience within a CCU partnership school. The focus is on educational theory, as well as the development and implementation of standards-based lessons under university and school-based teacher supervision. Teacher candidates complete hours toward the clinical program hour minimum in addition to on-campus seminars.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

SPD 213 - Field 1 Theory and Practice in Special Education

(3) Field 1 is the first of a four-semester, professional field-based experience within a CCU partnership school. The focus is on Special Education theory, as well as the development and implementation of standards-based lessons under university and school-based teacher supervision. Teacher candidates complete hours toward the clinical program hour minimum in addition to on-campus seminars.

Fee

Course fees apply.

When Offered

Every spring semester.

RDG 457 - Diverse Reader 2: Reading Clinic

(3) Teacher candidates will be trained in an evidence-based reading intervention program aligned to findings from today's reading neuroscientists, then implement the program with diverse 3rd, 4th, and 5th grade students from Denver Public Schools and Jefferson County Schools under the supervision of a CCU Supervisor.

Prerequisites: Junior Standing.

Fee

Course fees apply.

When Offered

Every fall and spring semester.

Choose any 300-level English literature course outside your major. Examples include:

ENG 305 - Poetry Seminar

(3) Interpretation and critical reading, structures, and conventions of poetry in English, past and present.

Prerequisites: One of the following: ENG 201, ENG 202, ENG 203, ENG 204, or ENG 205.

When Offered

Odd fall semesters.

ENG 330 - Shakespeare

(3) Analysis of literary and performance techniques for selected Shakespeare plays.

Prerequisites: One of the following: ENG 201, ENG 202, ENG 203, ENG 204 or ENG 205.

When Offered

Even spring semesters.

Cross-listed THR 330.

ENG 340 - American Ethnic Literatures

(3) Fiction, poetry, and nonfiction by major writers from American ethnic backgrounds (African, Asian, Jewish, Hispanic/Latino, and Native American, and others) are analyzed, and literary criticism on American ethnic literary concerns is integrated into analysis of primary texts.

Prerequisites: One of the following: ENG 201, ENG 202, ENG 203, ENG 204 or ENG 205.

When Offered

Even fall semesters.

ENG 360 - World Literature

(3) Multinational works of contemporary literature in English translation. Central human dilemmas and the role of literature in other societies.

Prerequisites: One of the following: ENG 201, ENG 202, ENG 203, ENG 204 or ENG 205.

When Offered

Odd fall semesters.

ENG 380 - Christian Writers

(3) Foundational literary works by Christian writers: their scriptural, historical, and cultural influences, from the medieval period to the present.

Prerequisites: One of the following: ENG 201, ENG 202, ENG 203, ENG 204 or ENG 205.

When Offered

Even spring semesters.

Special Education Minor (18 credit hours) - Non-Licensure**SPD 213 - Field 1 Theory and Practice in Special Education**

(3) Field 1 is the first of a four-semester, professional field-based experience within a CCU partnership school. The focus is on Special Education theory, as well as the development and implementation of standards-based lessons under university and school-based teacher supervision. Teacher candidates complete hours toward the clinical program hour minimum in addition to on-campus seminars.

Fee

Course fees apply.

When Offered

Every spring semester.

EDU 250 - Field 2 Elementary Classroom and Behavior Management

(3) Field 2 is the second of a four-semester, professional field-based experience within a CCU partnership school. The focus is on implementation of research-based methods related to classroom and behavior management under university and school-based teacher supervision. Teacher candidates complete hours toward the required clinical program hour minimum in addition to on-campus seminars.

Prerequisites: EDU 214 or SPD 213; Sophomore standing. School of Education major or minor students only.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

EDU 260 - Field 2 Secondary Classroom and Behavior Management

(3) Field 2 is the second of a four-semester, professional field-based experience within a CCU partnership school. The focus is on implementation of research-based methods related to classroom and behavior management under university and school-based teacher supervision. Teacher candidates complete hours toward the required clinical program hour minimum in addition to on-campus seminars.

Prerequisites: EDU 215 or SPD 213. School of Education major or minor students only.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

MAT 202 - Teaching Mathematics in the Elementary Classroom 1

(3) This course is the first of two mathematics courses focused on the instructional methods necessary to effectively teach numbers and operations, algebra, geometry and data analysis to K-6 culturally, linguistically and academically diverse students.

Notes: This course does not meet general education requirements in Mathematics.

When Offered

Fall and spring semesters.

RDG 447 - Diverse Reader 1: Instruction for Developing Readers

(3) This course focuses on scientifically-based methods of teaching reading to culturally and linguistically diverse elementary students who are "at-risk" or who have a learning disability. Phonemic Awareness, Phonics, Reading Fluency, English language structures and Sheltered Instruction are analyzed. An intensive phonics unit is developed. Teacher candidates complete hours toward the 830 clinical hour minimum in addition to on-campus seminars.

Corequisites: RDG 457. (Except for Teaching and Learning majors; please see advisor for enrolling in this course.)

When Offered

Every fall and spring semester.

RDG 457 - Diverse Reader 2: Reading Clinic

(3) Teacher candidates will be trained in an evidence-based reading intervention program aligned to findings from today's reading neuroscientists, then implement the program with diverse 3rd, 4th, and 5th grade students from Denver Public Schools and Jefferson County Schools under the supervision of a CCU Supervisor.

Prerequisites: Junior Standing.

Fee

Course fees apply.

When Offered

Every fall and spring semester.

SPD 250 - Assessment for Students with Disabilities

(3) Prepares special education generalists to develop an appropriate assessment plan including assessments and procedures; reporting results; and creating decision-making procedures for determining eligibility for services.

Prerequisites: SPD 210 or SPD 213.

Fee

Course fees apply.

When Offered

Every spring semester.

English Emphasis (12 credit hours)

ENG 102 - English Composition

(3) Effective use of the English language and exploration of rhetorical modes in written composition. Review of structure, purpose, and audience awareness in developing essays.

Prerequisites: ACT and/or SAT scores will be used to determine placement in either ENG 102 or ENG 102 (Basic).

Notes: Course must be completed first semester at CCU.

When Offered

Fall and spring semester.

ENG 105 - Advanced English Composition

(3) Advanced English composition, research methods, and literary study for invited exceptional students. Focus on both the study of literature and research writing.

Prerequisites: One of the following:

- AP English Language and Composition
 - A score of 4 is the minimum prerequisite for enrollment in ENG 105. A student who scores a 4 or 5 will automatically enroll a student in ENG 105 instead of ENG 102 and/or ENG 201.
- AP English Literature and Composition
 - A score of 4 is the minimum prerequisite for enrollment in ENG 105. A student who scores a 4 or 5 will automatically enroll a student in ENG 105 instead of ENG 102 and/or ENG 201.
- Score of 30 or above on the verbal section of the ACT exam.
- Score of 700 or above on the verbal section of the SAT exam.
- By invitation of the English department.

Notes: Fulfills general education requirements for both ENG 102 and ENG 201.

When Offered

Every fall semester.

ENG 201 - Introduction to Literature

(3) Understand, experience, and evaluate poetry, short fiction, essays, and drama genres, both American and multinational.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Fall and spring semesters.

ENG 203 - American Literature II

(3) Representative stories, poems, and drama in American literature from the Civil War to the present. Nontraditional ethnic and women's voices included. Emphasis on interpretation and criticism of American literature.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every spring semester.

ENG 340 - American Ethnic Literatures

(3) Fiction, poetry, and nonfiction by major writers from American ethnic backgrounds (African, Asian, Jewish, Hispanic/Latino, and Native American, and others) are analyzed, and literary criticism on American ethnic literary concerns is integrated into analysis of primary texts.

Prerequisites: One of the following: ENG 201, ENG 202, ENG 203, ENG 204 or ENG 205.

When Offered

Even fall semesters.

ENG 360 - World Literature

(3) Multinational works of contemporary literature in English translation. Central human dilemmas and the role of literature in other societies.

Prerequisites: One of the following: ENG 201, ENG 202, ENG 203, ENG 204 or ENG 205.

When Offered

Odd fall semesters.

ENG 410 - History and Structure of the English Language

(3) The course traces the development of English from its origins, with special emphasis on the relationship of language development to cultural background and environment; standard and non-standard dialect usage; and grammatical structure.

Prerequisites: Junior or Senior status.

Fee

Fees may apply.

When Offered

Every spring semester.

Reading Literacy Emphasis (12 credit hours)

HUM 305 - Children's Literature in Education

(3) Use of literary materials for children from preschool through middle school (4-14 years of age). History, genres, and classroom applications.

When Offered

Every fall and spring semesters.

RDG 324 - Teaching Content Literacy and Writing

(3) This course is one in a suite of four required literacy courses in the Elementary and Special Education programs. The main focus of this course is on research-based methodologies to teach the structures and processes of writing to academically, culturally and linguistically diverse K-6 learners. Methodologies to effectively teach vocabulary, comprehension and content literacy are also explored.

Prerequisites: EDU 214 or SPD 213.

When Offered

Every fall and spring semester.

RDG 447 - Diverse Reader 1: Instruction for Developing Readers

(3) This course focuses on scientifically-based methods of teaching reading to culturally and linguistically diverse elementary students who are "at-risk" or who have a learning disability. Phonemic Awareness, Phonics, Reading Fluency, English language structures and Sheltered Instruction are analyzed. An intensive phonics unit is developed. Teacher candidates complete hours toward the 830 clinical hour minimum in addition to on-campus seminars.

Corequisites: RDG 457. (Except for Teaching and Learning majors; please see advisor for enrolling in this course.)

When Offered

Every fall and spring semester.

RDG 457 - Diverse Reader 2: Reading Clinic

(3) Teacher candidates will be trained in an evidence-based reading intervention program aligned to findings from today's reading neuroscientists, then implement the program with diverse 3rd, 4th, and 5th grade students from Denver Public Schools and Jefferson County Schools under the supervision of a CCU Supervisor.

Prerequisites: Junior Standing.

Fee

Course fees apply.

When Offered

Every fall and spring semester.

Social Studies Emphasis (12 credit hours)

ECO 215 - Economics

(3) Economics is about scarcity and choice. Students in this course study how people, firms, governments, and nations interact in alternative economic systems to make choices about allocating scarce resources. In addition, students learn to evaluate these systems, understand macroeconomic monetary and fiscal policies, and engage in policy debates.

When Offered

Fall and spring semesters.

GEO 270 - World Geography

(3) Introduces students to key concepts in geography and mapping: explores political, economic, and cultural geography, as well as physical geography and the environment.

When Offered

Every spring semester.

HIS 205 - American History

(3) Principles of the founding and the political, economic, intellectual, cultural, and religious traditions that have shaped America.

When Offered

Every spring semester.

POL 207 - Introduction to American Politics

(3) Introduction to political science and American government to prepare students to be effective citizens.

When Offered

Every fall and spring semester.

School of Humanities and Social Sciences

The School of Humanities and Social Sciences offers Bachelor of Arts majors in the disciplines of Communication and Rhetoric, Criminal Justice Law and Practice, English, Global Studies, History, Liberal Arts, Politics, Psychology, Social Science, and Strategic Communication. These degree programs prepare students to enter the professional world or graduate school following graduation. All degree programs require a minimum of 120 credit hours to complete. Minors are also available in the disciplines of Augustine Honors, Communication, Creative Writing, Digital Media, English, Global Studies, History, Politics, Psychology, Public Relations, and Sacred Music and Literature.

Associate Degrees

Associate of Arts

The two-year Associate of Arts degree focuses on the university's General Education curriculum which includes Arts and Humanities, Biblical Studies, Communication, Integrative Studies, Mathematics, Science, Social Science. It offers a solid foundation for many careers, Christian service, and informed living. Students develop a Christian perspective and educational foundation that prepares them for additional study in a college or university, effective lay ministry and employment in a variety of fields. Applicants qualify for admission to the program by meeting the entrance requirements for regular students.

The Associate of Arts degree in the College of Undergraduate Studies requires completion of the following 60 credits:
General Education Core (36 hours)
Electives (24 hours)

General Education Core (36 credit hours)

Arts and Humanities (9 credit hours)

Choose one course from each of the following categories:

Fine Arts

HUM 120 - Introduction to the Arts

(3) Introduction to our humanity through hands-on experience in the arts (music, visual arts, poetry, story, play, and dance). Aesthetic and artistic values in the broader context of human cultural development, responsibility, and joy.

Notes: This course satisfies the general education fine arts requirement for most students, and is the required fine arts course for education majors. It is recommended for all students with a general interest in the fine arts. Students with a special interest in theatre should see THR 112. Students with a special interest in music should see MUS 110.

Note: HUM 120 does not satisfy the fine arts requirement for music majors or minors.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

MUS 110 - Musical Perspectives

(3) An exploration of music in the broader context of culture and the arts; personal musical experiences through listening and doing; and developing the ability to discern aesthetic excellence. Included is an introduction to the elements of music and how music works, the development of a Christian perspective on the arts, a broad survey of representative selections of Western music, and a focused overview of non-western/world music.

Notes: This course satisfies the general education fine arts requirement for most students. It is recommended for all students, especially those with an interest in music, and is the required fine arts course for all music majors and minors.

Students with a special interest in Theatre should see THR 112.

Note: MUS 110 does not satisfy the fine arts requirement for education majors.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

THR 112 - Theatre Appreciation

(3) An introduction to the theatre world and all its aspects: the people who are active in that world, the many kinds of work that are created, the sensations and ideas we receive from those works, and the ways the life of theatre has transmitted across many times and place.

Notes: This course satisfies the general education fine arts requirement for most students. It is recommended for all students, especially those with an interest in theatre. Students with a special interest in music should see MUS 110.

Note: THR 112 does not satisfy the fine arts requirement for music majors or minors, or education majors.

When Offered

Fall and spring semesters.

Literature

ENG 201 - Introduction to Literature

(3) Understand, experience, and evaluate poetry, short fiction, essays, and drama genres, both American and multinational.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Fall and spring semesters.

ENG 202 - American Literature I

(3) Representative stories, poems, and documents in American literature from the Colonial era to the early Republic (1776-1830) through the Romantic-transcendentalist period (1830-1860). Includes readings from multiethnic and women writers.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every fall semester.

ENG 203 - American Literature II

(3) Representative stories, poems, and drama in American literature from the Civil War to the present. Nontraditional ethnic and women's voices included. Emphasis on interpretation and criticism of American literature.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every spring semester.

ENG 204 - British Literature I

(3) Surveys the history of literature in Britain until 1800 and representative works by influential writers of the periods contained therein.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every fall semester.

ENG 205 - British Literature II

(3) Surveys the history of literature in Britain from 1800 to the present and representative works by influential writers.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every spring semester.

Philosophy

PHL 202 - Introduction to Philosophy

(3) This course is a survey of many major issues raised over the two-and-a-half millennia of western philosophy. With an emphasis on historical context and development, as well as philosophy's relationship to Christian thought, this course challenges students to critically explore philosophical questions and introduce them to the great tradition of intellectual inquiry. Special attention will be given to the subjects of truth and knowledge, reality and appearance, mind and body, right and wrong, beauty and the existence of God.

When Offered

Fall and summer semesters.

Biblical Studies (3 credits hours)

Choose 1 course:

BIB 111 - Old Testament

(3) This course provides an introduction to the theological, historical, and literary features of the Old Testament, tracing God's covenant relationship with ancient Israel. Special consideration will be given to the divine covenants and Messianic prophecies of the Old Testament.

When Offered

Every spring semester.

Cross-listed HIS 111

HIS 111 - Old Testament

(3) This course provides an introduction to the theological, historical, and literary features of the Old Testament, tracing God's covenant relationship with ancient Israel. Special consideration will be given to the divine covenants and Messianic prophecies of the Old Testament.

When Offered

Every spring semester.

Cross-listed BIB 111.

BIB 114 - New Testament

(3) This course provides an introduction to the theological, historical, and literary features of the New Testament, tracing the presentation of the gospel message through historical, epistolary, and apocalyptic genres. Special consideration will be given to the life of Christ and missionary journeys of the Apostle Paul.

When Offered

Every fall semester.

Cross-listed HUM 114

HUM 114 - New Testament

(3) This course provides an introduction to the theological, historical, and literary features of the New Testament, tracing the presentation of the gospel message through historical, epistolary, and apocalyptic genres. Special consideration will be given to the life of Christ and missionary journeys of the Apostle Paul.

When Offered

Every fall semester.

Cross-listed BIB 114.

Communication (6 credit hours)

ENG 102 - English Composition

(3) Effective use of the English language and exploration of rhetorical modes in written composition. Review of structure, purpose, and audience awareness in developing essays.

Prerequisites: ACT and/or SAT scores will be used to determine placement in either ENG 102 or ENG 102 (Basic).

Notes: Course must be completed first semester at CCU.

When Offered

Fall and spring semester.

ENG 105 - Advanced English Composition

(3) Advanced English composition, research methods, and literary study for invited exceptional students. Focus on both the study of literature and research writing.

Prerequisites: One of the following:

- AP English Language and Composition
 - A score of 4 is the minimum prerequisite for enrollment in ENG 105. A student who scores a 4 or 5 will automatically enroll a student in ENG 105 instead of ENG 102 and/or ENG 201.
- AP English Literature and Composition
 - A score of 4 is the minimum prerequisite for enrollment in ENG 105. A student who scores a 4 or 5 will automatically enroll a student in ENG 105 instead of ENG 102 and/or ENG 201.
- Score of 30 or above on the verbal section of the ACT exam.
- Score of 700 or above on the verbal section of the SAT exam.
- By invitation of the English department.

Notes: Fulfills general education requirements for both ENG 102 and ENG 201.

When Offered

Every fall semester.

COM 103 - Public Speaking

(3) Introductory principles of communication emphasizing public speaking. Aspects of verbal and nonverbal delivery, speech organization, and the effective use of supporting material and presentational aids are addressed. Students give several speeches designed to better equip them for future speaking endeavors

When Offered

Fall and spring semesters.

COM 210 - Interpersonal Communication

(3) Offers an examination of relational development, conflict management, self-concept, self-disclosure, and attraction within the context of one-on-one communication.

When Offered

Every spring semester.

Integrative Studies (3 credit hours)

Please see the First-Year Integration (FYI) page for specific information about this required course.

INT 101 - First-Year Integration

(3) Think critically, grow spiritually, and change the world. Based on the premise that we as Christians are called to be rational creatures, relational creatures, and responsible creatures, FYI is an integrative study of foundational Christian principles with other disciplines. Examination and discussion of problems and contemporary issues - academic, personal, and social - facing students in their pursuit of success in college and life. Please see the First-Year Integration (FYI) page for specific information about this required course.

When Offered

Fall and spring semesters.

Mathematics (3 credit hours)

MAT 112 - Mathematics for Liberal Arts

(3) This course introduces some of the important ideas in mathematics and how they can be applied in everyday life situations, solving a wide range of practical problems. Topics include sets, logic, history of numeration, number systems and their properties, number patterns, counting principles, probability, statistics, graph theory, personal finance, and voting methods.

Notes: Students with higher level mathematics skills (i.e. ACT MAT above 20 and SAT MATH above 520) are discouraged from taking this class. Only students who do not place into MAT 111 - College Algebra should enroll in MAT 112 - Mathematics for Liberal Arts.

When Offered

Fall, spring and summer semesters.

Science (3 credit hours)

SCI 230 - Integrated Physical Science with Lab

(3) This is an integrated course presenting the major concepts, theoretical perspectives, historical trends, and empirical findings of the physical sciences. Laboratory exercises and lectures explore motion, the four forces, heat, energy, chemical reactions, the structure and development of matter, the types and nature of chemical bonding, and the nature and history of the universe, the solar system, and the Earth.

Lab/Lecture Hours

Laboratory investigations included in course.

Fee

Lab fees apply.

When Offered

Every semester.

Social Sciences (9 credit hours)

Select three of the following four courses:

ECO 215 - Economics

(3) Economics is about scarcity and choice. Students in this course study how people, firms, governments, and nations interact in alternative economic systems to make choices about allocating scarce resources. In addition, students learn to evaluate these systems, understand macroeconomic monetary and fiscal policies, and engage in policy debates.

When Offered

Fall and spring semesters.

HIS 185 - Western Civilization

(3) The spiritual values and intellectual achievements of ancient Israel, Greece, Rome, the Middle Ages, the Renaissance, and Reformation that gave birth to the modern world.

When Offered

Every fall semester.

HIS 205 - American History

(3) Principles of the founding and the political, economic, intellectual, cultural, and religious traditions that have shaped America.

When Offered

Every spring semester.

POL 207 - Introduction to American Politics

(3) Introduction to political science and American government to prepare students to be effective citizens.

When Offered

Every fall and spring semester.

Graduation Requirements for the Associate of Arts Degree

The faculty recommends students in the Associate of Arts to the Board of Trustees as candidates for graduation when they have completed the following requirements.

1. Completion of at least 60 semester hours of courses, including general education and elective requirements.
2. A cumulative GPA of 2.0 or higher, and a letter grade of D or better on all CCU classes.
3. Completion of 45 hours of ministry/community service and 45 chapel credits for each year of attendance at CCU. For further details on ministry/community service, see the Life Directions Center (LDC) section of this catalog. For further details on chapel credits, see the Campus Ministry section of this catalog.
4. Meet the CCU Residency requirements.
5. Formal and timely application for graduation.
6. No outstanding financial obligations to the university.

Bachelor's Degrees

Communication Major

The Communication major equips students with skills in public speaking and persuasion, interpersonal and group communication, and media analysis and literacy. With a degree in Communication, students are able to:

- address communication challenges in both their professional and personal lives;
- apply communication theories and principles to build, maintain, and lead effective teams;
- interact well with others from diverse backgrounds;
- manage communication concerns and crises for profit and nonprofit organizations;
- discern messages in the media and popular culture; and,
- produce persuasive, creative, and attractive messages that impact our world for Christ.

Students are encouraged to sharpen their speaking, critical thinking, and writing skills by competing on our inter-collegiate speech and debate team, and joining the staff of our student publication, *Veritas*, and television production, *CCU.TV*.

The Bachelor of Arts in Communication requires completion of the following 120 credits:

General Education Core (48 credit hours)

Communication Core (39 credit hours)

Electives (33 credit hours)

General Education Requirements (48 credit hours)

Arts and Humanities (9 credit hours)

Take one course from each of the following three academic disciplines:

Fine Arts (3 credit hours)

Choose one course from the following:

HUM 120 - Introduction to the Arts

(3) Introduction to our humanity through hands-on experience in the arts (music, visual arts, poetry, story, play, and dance). Aesthetic and artistic values in the broader context of human cultural development, responsibility, and joy.

Notes: This course satisfies the general education fine arts requirement for most students, and is the required fine arts course for education majors. It is recommended for all students with a general interest in the fine arts. Students with a special interest in theatre should see THR 112. Students with a special interest in music should see MUS 110.

Note: HUM 120 does not satisfy the fine arts requirement for music majors or minors.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

MUS 110 - Musical Perspectives

(3) An exploration of music in the broader context of culture and the arts; personal musical experiences through listening and doing; and developing the ability to discern aesthetic excellence. Included is an introduction to the elements of music and how music works, the development of a Christian perspective on the arts, a broad survey of representative selections of Western music, and a focused overview of non-western/world music.

Notes: This course satisfies the general education fine arts requirement for most students. It is recommended for all students, especially those with an interest in music, and is the required fine arts course for all music majors and minors. Students with a special interest in Theatre should see THR 112.

Note: MUS 110 does not satisfy the fine arts requirement for education majors.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

THR 112 - Theatre Appreciation

(3) An introduction to the theatre world and all its aspects: the people who are active in that world, the many kinds of work that are created, the sensations and ideas we receive from those works, and the ways the life of theatre has transmitted across many times and place.

Notes: This course satisfies the general education fine arts requirement for most students. It is recommended for all students, especially those with an interest in theatre. Students with a special interest in music should see MUS 110.

Note: THR 112 does not satisfy the fine arts requirement for music majors or minors, or education majors.

When Offered

Fall and spring semesters.

Literature (3 credit hours)

Choose one course from the following:

ENG 201 - Introduction to Literature

(3) Understand, experience, and evaluate poetry, short fiction, essays, and drama genres, both American and multinational.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Fall and spring semesters.

ENG 202 - American Literature I

(3) Representative stories, poems, and documents in American literature from the Colonial era to the early Republic (1776-1830) through the Romantic-transcendentalist period (1830-1860). Includes readings from multiethnic and women writers.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every fall semester.

ENG 203 - American Literature II

(3) Representative stories, poems, and drama in American literature from the Civil War to the present. Nontraditional ethnic and women's voices included. Emphasis on interpretation and criticism of American literature.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every spring semester.

ENG 204 - British Literature I

(3) Surveys the history of literature in Britain until 1800 and representative works by influential writers of the periods contained therein.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every fall semester.

ENG 205 - British Literature II

(3) Surveys the history of literature in Britain from 1800 to the present and representative works by influential writers.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every spring semester.

Philosophy (3 credit hours)**PHL 202 - Introduction to Philosophy**

(3) This course is a survey of many major issues raised over the two-and-a-half millennia of western philosophy. With an emphasis on historical context and development, as well as philosophy's relationship to Christian thought, this course challenges students to critically explore philosophical questions and introduce them to the great tradition of intellectual inquiry. Special attention will be given to the subjects of truth and knowledge, reality and appearance, mind and body, right and wrong, beauty and the existence of God.

When Offered

Fall and summer semesters.

Biblical Studies (12 credit hours)

Take the following four courses (some courses are cross-listed and only one prefix needs to be taken):

BIB 111 - Old Testament

(3) This course provides an introduction to the theological, historical, and literary features of the Old Testament, tracing God's covenant relationship with ancient Israel. Special consideration will be given to the divine covenants and Messianic prophecies of the Old Testament.

When Offered

Every spring semester.
Cross-listed HIS 111

HIS 111 - Old Testament

(3) This course provides an introduction to the theological, historical, and literary features of the Old Testament, tracing God's covenant relationship with ancient Israel. Special consideration will be given to the divine covenants and Messianic prophecies of the Old Testament.

When Offered

Every spring semester.
Cross-listed BIB 111.

BIB 114 - New Testament

(3) This course provides an introduction to the theological, historical, and literary features of the New Testament, tracing the presentation of the gospel message through historical, epistolary, and apocalyptic genres. Special consideration will be given to the life of Christ and missionary journeys of the Apostle Paul.

When Offered

Every fall semester.
Cross-listed HUM 114

HUM 114 - New Testament

(3) This course provides an introduction to the theological, historical, and literary features of the New Testament, tracing the presentation of the gospel message through historical, epistolary, and apocalyptic genres. Special consideration will be given to the life of Christ and missionary journeys of the Apostle Paul.

When Offered

Every fall semester.
Cross-listed BIB 114.

PHL 315 - World Religions and Systems of Belief

(3) This course introduces an academic study of religion and what is called worldview, supplemented by an overview of some of the major tenets of Christianity; this is then followed by a survey of several other religious traditions and competing philosophies.

Prerequisites: PHL 202, THE 201.

When Offered

Winter and spring semesters.

THE 201 - Introduction to Theology

(3) This course covers basic issues, themes, and categories of Christian theology, including the doctrines of Scripture, God, humanity, Christ, salvation, the church, and last things. This course encourages students to better know, trust, love, and live by God's Word.

Prerequisites: BIB 111, BIB 114.

When Offered

Fall, winter, spring, and summer semesters.

Communication (6 credit hours)

COM 103 - Public Speaking

(3) Introductory principles of communication emphasizing public speaking. Aspects of verbal and nonverbal delivery, speech organization, and the effective use of supporting material and presentational aids are addressed. Students give several speeches designed to better equip them for future speaking endeavors

When Offered

Fall and spring semesters.

ENG 102 - English Composition

(3) Effective use of the English language and exploration of rhetorical modes in written composition. Review of structure, purpose, and audience awareness in developing essays.

Prerequisites: ACT and/or SAT scores will be used to determine placement in either ENG 102 or ENG 102 (Basic).

Notes: Course must be completed first semester at CCU.

When Offered

Fall and spring semester.

ENG 105 - Advanced English Composition

(3) Advanced English composition, research methods, and literary study for invited exceptional students. Focus on both the study of literature and research writing.

Prerequisites: One of the following:

- AP English Language and Composition
 - A score of 4 is the minimum prerequisite for enrollment in ENG 105. A student who scores a 4 or 5 will automatically enroll a student in ENG 105 instead of ENG 102 and/or ENG 201.
- AP English Literature and Composition
 - A score of 4 is the minimum prerequisite for enrollment in ENG 105. A student who scores a 4 or 5 will automatically enroll a student in ENG 105 instead of ENG 102 and/or ENG 201.
- Score of 30 or above on the verbal section of the ACT exam.
- Score of 700 or above on the verbal section of the SAT exam.
- By invitation of the English department.

Notes: Fulfills general education requirements for both ENG 102 and ENG 201.

When Offered

Every fall semester.

Integrative Studies (3 credit hours)

Please see the First-Year Integration (FYI) page for specific information about this required course.

INT 101 - First-Year Integration

(3) Think critically, grow spiritually, and change the world. Based on the premise that we as Christians are called to be rational creatures, relational creatures, and responsible creatures, FYI is an integrative study of foundational Christian principles with other disciplines. Examination and discussion of problems and contemporary issues - academic, personal, and social - facing students in their pursuit of success in college and life. Please see the First-Year Integration (FYI) page for specific information about this required course.

When Offered

Fall and spring semesters.

Mathematics (3 credit hours)**MAT 212 - Statistics and their Application**

(3) An introduction to statistical analysis as used in various liberal arts disciplines. Descriptive and inferential statistics and attendant research designs will be considered. Students will become familiar with SPSS and its use in analyzing data and decision making.

Prerequisites: Sophomore standing.

When Offered

Fall and spring semesters.

Science (3 credit hours)**SCI 230 - Integrated Physical Science with Lab**

(3) This is an integrated course presenting the major concepts, theoretical perspectives, historical trends, and empirical findings of the physical sciences. Laboratory exercises and lectures explore motion, the four forces, heat, energy, chemical reactions, the structure and development of matter, the types and nature of chemical bonding, and the nature and history of the universe, the solar system, and the Earth.

Lab/Lecture Hours

Laboratory investigations included in course.

Fee

Lab fees apply.

When Offered

Every semester.

Social Sciences (12 credit hours)

Take each of the following four courses:

ECO 215 - Economics

(3) Economics is about scarcity and choice. Students in this course study how people, firms, governments, and nations interact in alternative economic systems to make choices about allocating scarce resources. In addition, students learn to evaluate these systems, understand macroeconomic monetary and fiscal policies, and engage in policy debates.

When Offered

Fall and spring semesters.

HIS 185 - Western Civilization

(3) The spiritual values and intellectual achievements of ancient Israel, Greece, Rome, the Middle Ages, the Renaissance, and Reformation that gave birth to the modern world.

When Offered

Every fall semester.

HIS 205 - American History

(3) Principles of the founding and the political, economic, intellectual, cultural, and religious traditions that have shaped America.

When Offered

Every spring semester.

POL 207 - Introduction to American Politics

(3) Introduction to political science and American government to prepare students to be effective citizens.

When Offered

Every fall and spring semester.

Communication Major (39 credit hours)**Communication Core (33 credit hours)****COM 210 - Interpersonal Communication**

(3) Offers an examination of relational development, conflict management, self-concept, self-disclosure, and attraction within the context of one-on-one communication.

When Offered

Every spring semester.

COM 247 - Writing for Communication

(3) This course prepares students to write efficiently and creatively across different print and media platforms. Emphasis is on the diverse formats of writing in print, for broadcast, business, and online settings as well as the distinct styles, formats, and philosophies of those mediums. Students develop a portfolio with professional writing pieces for strategic communication, media, online platforms, and advanced study.

When Offered

Every fall and spring semesters.

COM 314 - Cross-Cultural Communication

(3) Examines Issues, theories, research, and strategies related to developing effective communication practices between diverse cultures. Consideration of biblical principles related to peoples and issues within various cultural backgrounds and experiences.

Prerequisites: COM 103.

When Offered

Every fall semester.

COM 320 - Small Group Communication

(3) Systematic study and practice of the principles of effective communication in groups; exploration of features unique to small group interaction including the exploration of public discussion formats.

Prerequisites: COM 103.

Notes: Junior or senior standing or permission of the instructor.

When Offered

Every spring semester.

COM 325 - Communication Research Methods

(3) This course examines the major theories and research paradigms in communication, with particular attention to evaluating the work from a Christian perspective. The course focuses on social scientific, interpretive and critical theories and research methodologies, and will cover the process of conducting research including basic inquiry, collecting/analyzing data, and reporting results.

Prerequisites: MAT 212; Junior or Senior standing.

When Offered

Every spring semester.

COM 360 - Persuasion and Attitude Change

(3) This course prepares students to understand the relationship between persuasion and social change, including theories of attitude and behavioral change, and contemporary theories of persuasion. Students will think critically about message strategies and tactics, and consider attitude formation and change through strategic communication.

Prerequisites: COM 103.

When Offered

Every spring semester.

COM 480 - Senior Seminar: Communication and Ethics

(3) Through the examination of various communication theories, students come to understand how communication defines, creates, maintains, and/or changes social reality and the ethical implications involved in each of these communication functions. Students learn to apply biblical and communication principles related to vocation and work, job searching, finances, and relationships, helping students transition from college to professional work life.

Prerequisites: Senior majors only.

When Offered

Every spring semester.

COM 206 - Visual Storytelling and Digital Media Production

(3) Through readings, lectures, demonstrations, and hands-on exercises, critical thinking and collaborative teamwork, students explore the art and business of visual storytelling. The course has an emphasis of storytelling through graphic design for print and online digital media, media pre-production, production and digital non-linear editing, and includes writing and photography to complement the general skills needed by a business professional working in the communication/media field.

Fee

Course Fees apply.

When Offered

Every fall and spring semesters.

COM 215 - Mass Media and Ethics

(3) This course is designed to explore the history and makeup of the various mediums that exist in our world, how they correlate, interact, and influence our culture, and how we as Christians are called to discern their value and impact on our

world. The course is a survey course of the various mediums with particular emphasis on the media that we use daily and the ethical principles and standards we use to communicate mediated messages.

Prerequisites: Sophomore standing.

When Offered

Every spring semester.

COM 451 - Communication Field Internship

(3-6) Field experience in applied communication. This course is especially valuable to those anticipating careers in the communication field.

Prerequisites: COM 103 and junior or senior status.

Notes: Pass/Fail; may be repeated for credit.

When Offered

Scheduled by School.

COM 452 - Communication Research Internship

(3-6) Research experience in designing and implementing a research study. Students will analyze the results of their study and write a formal research report. Professional presentation of the study will be encouraged. This course is especially valuable to those anticipating graduate studies and needing academic presentation and publication experience.

Prerequisites: COM 103, COM 325, and junior or senior status.

Notes: Pass/Fail; may be repeated for credit.

When Offered

Scheduled by School.

Choose two from the following:

COM 403 - Organizational Communication

(3) Integration of communication, management, and organizational theory; provides historical and contemporary vantage points of communication's role in organizational operation.

Prerequisites: Junior or Senior standing.

When Offered

Every fall semester.

COM 460 - Rhetorical Criticism

(3) Offers a look at the nature of persuasive communication including strategies, applications, techniques, and the use of propaganda, persuasive message construction, and audience adaptation are also examined.

Prerequisites: Junior or Senior standing.

When Offered

Every spring semester.

COM 485 - Advanced Interpersonal Relations

(3) Examination of a variety of communication variables related to issues of human interaction. Course content includes a discussion of the application of theory and faith to personal and professional relationships.

Prerequisites: COM 210, Junior or Senior standing.

When Offered

Every fall semester.

Communication Electives (6 credit hours)

Choose 6 credit hours from the following courses, provided none of the courses have been used to satisfy major core requirements:

COM 180 - University Media Workshop - Level I

(1) This lab course is designed for students to work individually and collaboratively in a media environment to develop basic skills through various creative tools to produce and create content for various CCU student media outlets.

Notes: Lab course; may be repeated for maximum of 3 credits.

Fee

Course fees apply.

When Offered

Every fall and spring semester.

COM 204 - Nonverbal Communication

(3) Discusses basic theories and research related to nonverbal communication. Also looks at the functions and types of nonverbal communication and their impact on relationships.

Prerequisites: COM 103.

When Offered

Every odd fall semester.

COM 206 - Visual Storytelling and Digital Media Production

(3) Through readings, lectures, demonstrations, and hands-on exercises, critical thinking and collaborative teamwork, students explore the art and business of visual storytelling. The course has an emphasis of storytelling through graphic design for print and online digital media, media pre-production, production and digital non-linear editing, and includes writing and photography to complement the general skills needed by a business professional working in the communication/media field.

Fee

Course Fees apply.

When Offered

Every fall and spring semesters.

COM 225 - Introduction to Strategic Communication

(3) This survey course introduces students to strategic communication practice in the 21st century, and immerses students in the strategic concepts necessary to understand how effective decisions are developed and executed in the field of strategic communication. Students will learn how to use critical and creative thinking to gather, organize, evaluate, and deliver information and influence others by developing relationships.

When Offered

Every fall semester.

COM 280 - University Media Workshop - Level II

(1) Students in this course progress to an advanced skill level in creating, writing, directing, editing, and producing media content using media equipment and software designed for these purposes.

Prerequisites: COM 180.

Lab/Lecture Hours

Lab course.

Notes: Lab course; may be repeated for a maximum of 3 credits.

Fee

Course fees apply.

When Offered

Every fall and spring semester.

COM 301 - Advanced Public Speaking

(3) Integrates theory and development of advanced skill sets related to effective oral communication. Uses a variety of speaking assignments designed to provide a broad context for skill development.

Prerequisites: COM 103.

Notes: Junior or senior standing or permission of instructor.

When Offered

Every spring semester.

COM 315 - Public Relations

(3) Introduces and develops a clear concept of public relations as a communication profession along with the necessary skills to become proficient in the field. Topics include the function of public relations in both public and private enterprises, the process of planning and implementing a public relations communication campaign, techniques for communicating with various publics, crisis communication, and the laws and ethics governing the practice of public relations.

Prerequisites: COM 103, COM 247.

When Offered

Every fall semester.

COM 445 - Strategic Communication Campaigns

(3) This course is an exploration of steps to produce creative campaigns for movement of organizations, products, and services toward growth. Students will engage in a multi-platform approach for the purpose of benefiting organizations or bringing about change with an emphasis on problem solving and instilling a professional work ethic.

Prerequisites: COM 206, COM 247, COM 315.

When Offered

Every spring semester.

COM 355 - Social Media, Audience Analysis, and Analytics

(3) This course is designed to help students identify, study, and analyze audiences on social media in order to prepare better strategic communication messages. Students will discuss both the benefits and limitations of relying on social media data compared to traditional methods of marketing research, and learn how to develop effective social media messages and campaigns.

Prerequisites: COM 206.

When Offered

Every fall semester.

COM 375 - Visual Culture and Graphic Design

(3) This course will teach students how to examine and appreciate elements of culture expressed through visual images, and to develop a visual eye. Students will learn how to design with specific audiences in mind, and edit images using Classic Adobe Suite: Photoshop, Illustrator, and InDesign.

Prerequisites: COM 206, Junior or Senior standing.

When Offered

Every fall semester.

COM 380 - University Media Workshop - Level III

(1) Students in this course have developed advanced skill level in creating, writing, directing, editing, and producing media content and service in various leadership roles (e.g., producers editors, designers) in student media productions.

Prerequisites: COM 280; Sophomore standing.

Notes: Lab course; may be repeated for maximum of 3 credits.

Fee

Course fees apply.

When Offered

Every fall and spring semester.

COM 397 - Special Topics

(1 to 3) Guided group investigation and discussion of a selected topic.

Notes: Graded; may be repeated for credit.

When Offered

Scheduled by School.

COM 403 - Organizational Communication

(3) Integration of communication, management, and organizational theory; provides historical and contemporary vantage points of communication's role in organizational operation.

Prerequisites: Junior or Senior standing.

When Offered

Every fall semester.

COM 451 - Communication Field Internship

(3-6) Field experience in applied communication. This course is especially valuable to those anticipating careers in the communication field.

Prerequisites: COM 103 and junior or senior status.

Notes: Pass/Fail; may be repeated for credit.

When Offered

Scheduled by School.

COM 452 - Communication Research Internship

(3-6) Research experience in designing and implementing a research study. Students will analyze the results of their study and write a formal research report. Professional presentation of the study will be encouraged. This course is especially valuable to those anticipating graduate studies and needing academic presentation and publication experience.

Prerequisites: COM 103, COM 325, and junior or senior status.

Notes: Pass/Fail; may be repeated for credit.

When Offered

Scheduled by School.

COM 460 - Rhetorical Criticism

(3) Offers a look at the nature of persuasive communication including strategies, applications, techniques, and the use of propaganda, persuasive message construction, and audience adaptation are also examined.

Prerequisites: Junior or Senior standing.

When Offered

Every spring semester.

COM 470 - Senior Thesis

(3) The Senior Thesis is a substantial body of work that may be research, expository, critical or creative work. It is original in subject matter, organization, or view. An interested student should begin discussions with a thesis advisor in the semester or summer before enrolling. The thesis typically will begin in the fall semester of the senior year and be completed in the following spring semester. Credits are awarded in the semester in which the thesis is completed.

Prerequisites: Seniors within the major, 3.5 GPA (minimum cumulative), and thesis advisor permission.

When Offered

Scheduled by school.

COM 485 - Advanced Interpersonal Relations

(3) Examination of a variety of communication variables related to issues of human interaction. Course content includes a discussion of the application of theory and faith to personal and professional relationships.

Prerequisites: COM 210, Junior or Senior standing.

When Offered

Every fall semester.

COM 497 - Special Topics

(1 to 3) Guided group investigation and discussion of a selected topic.

Prerequisites: COM 103.

Notes: Graded; may be repeated for credit.

When Offered

Scheduled by School.

PSY 404 - Family Dynamics

(3) This class investigates the field of family psychology. Topics include the family as a system, marriage and family issues, parenting, marital relationships, family communication, and conflict resolution. These psychological concepts are studied to help students learn how these issues can be understood in light of their own families with an emphasis on the integration of concepts into a Christian worldview.

Prerequisites: PSY 101.

When Offered

Every spring semester.

THR 220 - Acting

(3) An introduction to character development through theatre games, monologues, and scene work. Students will learn scene scoring techniques in the Stanislavski method, and gain exposure to a wide variety of theatrical literature and playwrights (studying both plays/playwrights in the classic American theatre canon, and contemporary plays/playwrights).

Notes: May be repeated for credit.

When Offered

Every spring semester.

THR 250 - Voice and Diction

(3) Voice production, articulation, and phonetic analysis of speech.

Prerequisites: COM 103.

When Offered

Even fall semesters.

Cross-listed COM 250.

THE 306 - Communication for Ministry

(3) This course provides an orientation to the principles and practice for the development and delivery of an expository teaching or sermon.

Prerequisites: BIB 230; Junior/Senior status.

When Offered

Fall and spring semesters.

Graduation Requirements for Bachelor of Arts in Communication

The faculty recommends students in the B.A. in Communication to the Board of Trustees as candidates for graduation when they have completed the following requirements.

1. Completion of a total of 120 credits, including all general education, electives and Communication major program requirements.
2. A letter grade of D or better and a cumulative GPA of 2.0 or better in all CCU coursework, and a GPA of 2.0 or higher for all courses specified for the major.
3. Completion of 180 hours of ministry/community service and 180 chapel credits. Transfer students are required to complete 45 hours of ministry/community service and 45 chapel credits each year of attendance at CCU. For further details on ministry/community service, see the Life Directions Center (LDC) section of this catalog. For further details on chapel credits, see the Student Life section of this catalog.
4. Meet the CCU Residency requirements.
5. Acceptable performance on exit exams, as required by the faculty.
6. Formal and timely application for graduation by the date specified by the University Registrar.
7. No outstanding financial obligation to the University.

Criminal Justice Law and Practice Major

The Criminal Justice Law and Practice Bachelor of Arts provides the student with a foundational understanding of the three major areas of the criminal justice system: law enforcement, courts, and corrections. "Justice" is a concept that has layers of theological and cultural meanings, and this program helps set a biblical foundation with a Christian worldview to the concepts and practice of justice. The program is designed to prepare students for careers in criminal justice and entering advanced programs in law enforcement and legal studies. The curriculum of the program provides students with a strong foundation for successful careers in various fields of the criminal justice profession. Such career fields include law enforcement, prosecution, criminal defense, courts, corrections, probation, parole and other governmental agencies as they relate to social order.

The program features extensive experiential learning opportunities with guest speakers from various criminal justice disciplines, field trips, law enforcement ride-alongs, shadow days, mock oral boards, and real life training opportunities. The internship program gives senior students on-site experience through placement in internships with local agencies including police departments, sheriff offices, probation departments, prosecutors' offices, and other agencies.

Students who enroll in the Criminal Justice Law and Practice program familiarize themselves with the experience and life history requirements of the law enforcement agencies in which they hope to one day work, and ensure they meet those standards.

The Bachelor of Arts in Criminal Justice Law and Practice requires completion of the following 120 credits:
General Education Core (48 credit hours)
Criminal Justice Law and Practice Major Core (48 credit hours)
Electives (24 credit hours)

General Education Requirements (48 credit hours)

Arts and Humanities (9 credit hours)

Take one course from each of the following three academic disciplines:

Fine Arts (3 credit hours)

Choose one course from the following:

HUM 120 - Introduction to the Arts

(3) Introduction to our humanity through hands-on experience in the arts (music, visual arts, poetry, story, play, and dance). Aesthetic and artistic values in the broader context of human cultural development, responsibility, and joy.

Notes: This course satisfies the general education fine arts requirement for most students, and is the required fine arts course for education majors. It is recommended for all students with a general interest in the fine arts. Students with a special interest in theatre should see THR 112. Students with a special interest in music should see MUS 110.

Note: HUM 120 does not satisfy the fine arts requirement for music majors or minors.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

MUS 110 - Musical Perspectives

(3) An exploration of music in the broader context of culture and the arts; personal musical experiences through listening and doing; and developing the ability to discern aesthetic excellence. Included is an introduction to the elements of music and how music works, the development of a Christian perspective on the arts, a broad survey of representative selections of Western music, and a focused overview of non-western/world music.

Notes: This course satisfies the general education fine arts requirement for most students. It is recommended for all students, especially those with an interest in music, and is the required fine arts course for all music majors and minors. Students with a special interest in Theatre should see THR 112.

Note: MUS 110 does not satisfy the fine arts requirement for education majors.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

THR 112 - Theatre Appreciation

(3) An introduction to the theatre world and all its aspects: the people who are active in that world, the many kinds of work that are created, the sensations and ideas we receive from those works, and the ways the life of theatre has transmitted across many times and place.

Notes: This course satisfies the general education fine arts requirement for most students. It is recommended for all students, especially those with an interest in theatre. Students with a special interest in music should see MUS 110.

Note: THR 112 does not satisfy the fine arts requirement for music majors or minors, or education majors.

When Offered

Fall and spring semesters.

Literature (3 credit hours)

Choose one course from the following:

ENG 201 - Introduction to Literature

(3) Understand, experience, and evaluate poetry, short fiction, essays, and drama genres, both American and multinational.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Fall and spring semesters.

ENG 202 - American Literature I

(3) Representative stories, poems, and documents in American literature from the Colonial era to the early Republic (1776-1830) through the Romantic-transcendentalist period (1830-1860). Includes readings from multiethnic and women writers.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every fall semester.

ENG 203 - American Literature II

(3) Representative stories, poems, and drama in American literature from the Civil War to the present. Nontraditional ethnic and women's voices included. Emphasis on interpretation and criticism of American literature.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every spring semester.

ENG 204 - British Literature I

(3) Surveys the history of literature in Britain until 1800 and representative works by influential writers of the periods contained therein.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every fall semester.

ENG 205 - British Literature II

(3) Surveys the history of literature in Britain from 1800 to the present and representative works by influential writers.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every spring semester.

Philosophy (3 credit hours)

PHL 202 - Introduction to Philosophy

(3) This course is a survey of many major issues raised over the two-and-a-half millennia of western philosophy. With an emphasis on historical context and development, as well as philosophy's relationship to Christian thought, this course challenges students to critically explore philosophical questions and introduce them to the great tradition of intellectual inquiry. Special attention will be given to the subjects of truth and knowledge, reality and appearance, mind and body, right and wrong, beauty and the existence of God.

When Offered

Fall and summer semesters.

Biblical Studies (12 credit hours)

Take the following four courses (some courses are cross-listed and only one prefix needs to be taken):

BIB 111 - Old Testament

(3) This course provides an introduction to the theological, historical, and literary features of the Old Testament, tracing God's covenant relationship with ancient Israel. Special consideration will be given to the divine covenants and Messianic prophecies of the Old Testament.

When Offered

Every spring semester.
Cross-listed HIS 111

HIS 111 - Old Testament

(3) This course provides an introduction to the theological, historical, and literary features of the Old Testament, tracing God's covenant relationship with ancient Israel. Special consideration will be given to the divine covenants and Messianic prophecies of the Old Testament.

When Offered

Every spring semester.
Cross-listed BIB 111.

BIB 114 - New Testament

(3) This course provides an introduction to the theological, historical, and literary features of the New Testament, tracing the presentation of the gospel message through historical, epistolary, and apocalyptic genres. Special consideration will be given to the life of Christ and missionary journeys of the Apostle Paul.

When Offered

Every fall semester.
Cross-listed HUM 114

HUM 114 - New Testament

(3) This course provides an introduction to the theological, historical, and literary features of the New Testament, tracing the presentation of the gospel message through historical, epistolary, and apocalyptic genres. Special consideration will be given to the life of Christ and missionary journeys of the Apostle Paul.

When Offered

Every fall semester.
Cross-listed BIB 114.

PHL 315 - World Religions and Systems of Belief

(3) This course introduces an academic study of religion and what is called worldview, supplemented by an overview of some of the major tenets of Christianity; this is then followed by a survey of several other religious traditions and competing philosophies.

Prerequisites: PHL 202, THE 201.

When Offered

Winter and spring semesters.

THE 201 - Introduction to Theology

(3) This course covers basic issues, themes, and categories of Christian theology, including the doctrines of Scripture, God, humanity, Christ, salvation, the church, and last things. This course encourages students to better know, trust, love, and live by God's Word.

Prerequisites: BIB 111, BIB 114.

When Offered

Fall, winter, spring, and summer semesters.

Communication (6 credit hours)

COM 103 - Public Speaking

(3) Introductory principles of communication emphasizing public speaking. Aspects of verbal and nonverbal delivery, speech organization, and the effective use of supporting material and presentational aids are addressed. Students give several speeches designed to better equip them for future speaking endeavors

When Offered

Fall and spring semesters.

ENG 102 - English Composition

(3) Effective use of the English language and exploration of rhetorical modes in written composition. Review of structure, purpose, and audience awareness in developing essays.

Prerequisites: ACT and/or SAT scores will be used to determine placement in either ENG 102 or ENG 102 (Basic).

Notes: Course must be completed first semester at CCU.

When Offered

Fall and spring semester.

ENG 105 - Advanced English Composition

(3) Advanced English composition, research methods, and literary study for invited exceptional students. Focus on both the study of literature and research writing.

Prerequisites: One of the following:

- AP English Language and Composition
 - A score of 4 is the minimum prerequisite for enrollment in ENG 105. A student who scores a 4 or 5 will automatically enroll a student in ENG 105 instead of ENG 102 and/or ENG 201.
- AP English Literature and Composition
 - A score of 4 is the minimum prerequisite for enrollment in ENG 105. A student who scores a 4 or 5 will automatically enroll a student in ENG 105 instead of ENG 102 and/or ENG 201.
- Score of 30 or above on the verbal section of the ACT exam.
- Score of 700 or above on the verbal section of the SAT exam.
- By invitation of the English department.

Notes: Fulfills general education requirements for both ENG 102 and ENG 201.

When Offered

Every fall semester.

Integrative Studies (3 credit hours)

* Please see the First-Year Integration (FYI) page for specific information about this required course.

INT 101 - First-Year Integration

(3) Think critically, grow spiritually, and change the world. Based on the premise that we as Christians are called to be rational creatures, relational creatures, and responsible creatures, FYI is an integrative study of foundational Christian principles with other disciplines. Examination and discussion of problems and contemporary issues - academic, personal, and social - facing students in their pursuit of success in college and life. Please see the First-Year Integration (FYI) page for specific information about this required course.

When Offered

Fall and spring semesters.

Mathematics (3 credit hours)

MAT 112 - Mathematics for Liberal Arts

(3) This course introduces some of the important ideas in mathematics and how they can be applied in everyday life situations, solving a wide range of practical problems. Topics include sets, logic, history of numeration, number systems and their properties, number patterns, counting principles, probability, statistics, graph theory, personal finance, and voting methods.

Notes: Students with higher level mathematics skills (i.e. ACT MAT above 20 and SAT MATH above 520) are discouraged from taking this class. Only students who do not place into MAT 111 - College Algebra should enroll in MAT 112 - Mathematics for Liberal Arts.

When Offered

Fall, spring and summer semesters.

(or higher except for MAT 202 or MAT 302 - Teaching Mathematics in the Elementary Classroom)

Science (3 credit hours)

SCI 230 - Integrated Physical Science with Lab

(3) This is an integrated course presenting the major concepts, theoretical perspectives, historical trends, and empirical findings of the physical sciences. Laboratory exercises and lectures explore motion, the four forces, heat, energy, chemical reactions, the structure and development of matter, the types and nature of chemical bonding, and the nature and history of the universe, the solar system, and the Earth.

Lab/Lecture Hours

Laboratory investigations included in course.

Fee

Lab fees apply.

When Offered

Every semester.

Social Sciences (12 credit hours)

Take each of the following four courses:

ECO 215 - Economics

(3) Economics is about scarcity and choice. Students in this course study how people, firms, governments, and nations interact in alternative economic systems to make choices about allocating scarce resources. In addition, students learn to evaluate these systems, understand macroeconomic monetary and fiscal policies, and engage in policy debates.

When Offered

Fall and spring semesters.

HIS 185 - Western Civilization

(3) The spiritual values and intellectual achievements of ancient Israel, Greece, Rome, the Middle Ages, the Renaissance, and Reformation that gave birth to the modern world.

When Offered

Every fall semester.

HIS 205 - American History

(3) Principles of the founding and the political, economic, intellectual, cultural, and religious traditions that have shaped America.

When Offered

Every spring semester.

POL 207 - Introduction to American Politics

(3) Introduction to political science and American government to prepare students to be effective citizens.

When Offered

Every fall and spring semester.

Criminal Justice Law and Practice Major Core Requirements (48 credit hours)**CRJ 101 - Introduction to Criminal Justice**

(3) A survey of the criminal justice system in the United States including a description of its social and political institutions and an overview of the major issues in the field from a distinctly Christian worldview.

Prerequisites: Criminal Justice majors only.

Corequisites: CRJ 225A, CRJ 430A.

When Offered

Every spring semester.

CRJ 201 - Philosophies of Criminal Justice

(3) This course affords the student a substantive understanding of how the criminal justice system is connected to its natural biblical foundations, and explore distinctly biblical perspectives of justice through a Christian worldview.

Prerequisites: CRJ 101, CRJ 225A, CRJ 430A. Criminal Justice majors only.

Corequisites: CRJ 310A, CRJ 320A.

When Offered

Every fall semester.

CRJ 225A - Introduction to Policing

(3) This course provides an overview of policing in our society and how policing is performed. It discusses the work of policing, the skills needed, ethics, history, organization, operations, and current critical issues.

Prerequisites: CAGS Criminal Justice majors must take CRJ 200A and CRJ 210A. CUS Criminal Justice Law and Practice majors must take ENG 102.

CRJ 301 - Criminal Law and Procedure

(3) This course focuses on the general classification of criminal offenses, burdens and degrees of proof, jurisdiction and venue, limitations to criminal prosecution, requirements for criminal liability, culpable mental states, defenses to criminal liability, and elements of criminal offenses.

Prerequisites: CRJ 201. Criminal Justice majors only.
Corequisites: CRJ 330A, CRJ 480A.

When Offered

Every fall semester.

CRJ 310A - Criminology

(3) This course introduces students to the study of crime and criminal behavior as well as to theories of crime causation. It reviews different types of crime and examines crime control policy.

Prerequisites: CAGS Criminal Justice majors must take CRJ 200A, CRJ 210A. CUS Criminal Justice Law and Practice majors must take CRJ 101.

CRJ 320A - Introduction to Corrections

(3) This course provides an overview of the field of corrections. It reviews prisons and jails, correctional policies, agencies, prison life, and challenges facing corrections.

Prerequisites: CAGS Criminal Justice majors must take CRJ 200A, CRJ 210A. CUS Criminal Justice Law and Practice majors must take CRJ 101.

CRJ 330A - Criminal Courts

(3) This course provides students with an overview of the criminal justice system and its processes. It examines the courtroom work group, the trial process, and challenges to the process. It also provides an overview of the juvenile court system.

Prerequisites: CAGS Criminal Justice majors must take CRJ 200A, CRJ 210A. CUS Criminal Justice Law and Practice majors must take CRJ 201.

CRJ 360A - Culture and Conflict

(3) This course examines the culture and subcultures of criminal justice professionals and their effect upon the professionals and their families. It also focuses on the role and impact of the criminal justice system in the challenging society of today.

Prerequisites: CAGS Criminal Justice majors must take CRJ 200A, CRJ 210A. CUS Criminal Justice Law and Practice majors must take CRJ 201.

CRJ 401 - Ethics and Philosophy of Criminal Justice

(3) This course examines the criminal justice system from an ethical perspective, comparing and contrasting teleological and deontological ethical systems and how they affect decision making in the criminal justice system.

Prerequisites: CRJ 301. Senior Criminal Justice majors only.

When Offered

Every spring semester.

CRJ 430A - Criminal Investigation

(3) This course teaches students the fundamentals of criminal investigation by examining the processes involved in identifying and arresting criminal suspects, identifying the types of crimes and offenses, and in preparing for court.

Prerequisites: CAGS Criminal Justice majors must take CRJ 210A, CRJ 330A, and CRJ 420A. CUS Criminal Justice Law and Practice majors must take ENG 102.

CRJ 455 - Practicum in Criminal Justice

(3) This course is designed to place the student with a criminal justice activity for a firsthand look at how the agency functions. Supervision is provided by the agency and department. Each student is vetted by the particular criminal justice system agency to determine fitness for placement with that agency. Vetting includes such things as interviews, a criminal history checks, polygraph exams, and the like. This course is especially valuable to those anticipating careers in the Criminal Justice field.

Prerequisites: CRJ 201. Senior Criminal Justice majors only.
Corequisites: CRJ 401.

When Offered

Every spring semester.

CRJ 480A - Introduction to Forensic Science

(3) This course provides an overview of forensics and how it is applied in the justice system by law enforcement agencies, prosecutors, defense attorneys, and others in the criminal justice system.

Prerequisites: CAGS Criminal Justice majors must take CRJ 210A, CRJ 330A, CRJ 420A, CRJ 430A. CUS Criminal Justice Law and Practice majors must take CRJ 201.

LAW 217 - Constitutional Law

(3) This course is a study of the U.S. Constitution as the foundational document for all law in the United States. The course is designed to prepare the student for law school. The course relies primarily on the legal case study method as a learning strategy for understanding key principles of constitutional law.

When Offered

Every fall semester.

MGT 500 - Management Problem Solving and Decision-Making

(3) Fundamental and advanced techniques for making decisions and solving problems at all leadership levels in business and in life. These systematic techniques, or processes, are designed to improve the student's ability to gather, organize, and evaluate information in the areas of problem solving, decision making and plan implementation.

Prerequisites: Juniors and Seniors only.

When Offered

Every fall and spring semester.

Electives - pick two courses (6 credit hours) from the following

CRJ 250 - Criminal Justice Colloquium

(1) The research colloquium consists of weekly talks by a variety of speakers including faculty, students, and guests on topics related to Criminal Justice. Student evaluation is based on attendance as well as an online journal with reflections on each of the presentations in regard to the student's future in the field of criminal justice.

Prerequisites: Criminal Justice majors only.

When Offered

Every fall and spring semester.

CRJ 472 - Seminar in Criminal Justice

(3) The course is designed to provide a more comprehensive understanding of the criminal justice system by examining the more intricate details of selected criminal justice issues. It provides a variety of criminal justice topics for analysis and discussion.

Prerequisites: CRJ 201. Senior Criminal Justice majors only.
Corequisites: CRJ 401, CRJ 455.

When Offered

Every spring semester.

POL 463 - Supreme Court and Constitutional Law

(3) A study of the historical development of the Supreme Court and select constitutional cases from the American founding to the present. Emphasis is placed on landmark court cases, as well as the evolving place of the Supreme Court

within the American political system.

Prerequisites: POL 207.

When Offered

Even fall semesters.

POL 472 - Seminar in Politics

(3) This seminar provides a variety of political topics for analysis and discussion, such as terrorism, human trafficking, or film and politics.

Prerequisites: POL 207; Junior or Senior standing.

Notes: May be repeated for credit with a maximum of six credit hours applied toward the major.

When Offered

Every spring semester.

PSY 323 - Forensic Psychology

(3) Forensic psychology examines the current research in areas of: patterns of criminal offending behaviors and antisocial personality, juror bias and jury selection, hypnosis and lie detection, criminal profiling, police selection, gangs, eyewitness testimony, and areas of conflict between psychology and the law. The course includes an examination of psychological interventions in law as well.

When Offered

Even fall semesters.

PSY 370 - Crisis and Trauma

(3) Conceptual framework for post-traumatic stress disorder and suicide; psychological and spiritual techniques to facilitate recovery.

When Offered

Odd spring semesters.

Graduation Requirements for Bachelor of Arts in Criminal Justice Law and Practice

The faculty recommends students in the B.A. in Criminal Justice Law and Practice to the Board of Trustees as candidates for graduation when they have completed the following requirements.

1. Completion of a total of 120 credits, including all general education, electives and Criminal Justice Law and Practice major program requirements.
2. A letter grade of D or better and a cumulative GPA of 2.0 or better in all CCU coursework, and a GPA of 2.0 or higher for all courses specified for the major.
3. Completion of 180 hours of ministry/community service and 180 chapel credits. Transfer students are required to complete 45 hours of ministry/community service and 45 chapel credits each year of attendance at CCU. For further details on ministry/community service, see the Life Directions Center (LDC) section of this catalog. For further details on chapel credits, see the Student Life section of this catalog.
4. Meet the CCU Residency requirements.
5. Acceptable performance on exit exams, as required by the faculty.
6. Formal and timely application for graduation by the date specified by the University Registrar.
7. No outstanding financial obligation to the University.

English Major

The English major provides excellent pre-professional preparation to pursue careers in writing and journalism and for graduate study. The major offers students an opportunity to explore the various genres and rich heritage of English literature, to develop advanced skills in creative and expository writing, interpretation and literary criticism, listening, and oral communication, and to understand the history and structure of the English language.

Students interested in teaching English may earn an endorsement for Secondary English/Language Arts Licensure Program: B.A. English by completing the English major and the appropriate requirements of the School of Education.

The Bachelor of Arts in English requires completion of the following 120 credits:

General Education Core (48 credit hours)

English Major Core (42 credit hours)

Electives (30 credit hours)

Please note: ENG 201 - Introduction to Literature is not an option for English majors within the General Education Requirements.

General Education Requirements (48 credit hours)

Arts and Humanities (9 credit hours)

Take one course from each of the following three academic disciplines:

Fine Arts (3 credit hours)

Choose one course from the following:

HUM 120 - Introduction to the Arts

(3) Introduction to our humanity through hands-on experience in the arts (music, visual arts, poetry, story, play, and dance). Aesthetic and artistic values in the broader context of human cultural development, responsibility, and joy.

Notes: This course satisfies the general education fine arts requirement for most students, and is the required fine arts course for education majors. It is recommended for all students with a general interest in the fine arts. Students with a special interest in theatre should see THR 112. Students with a special interest in music should see MUS 110.

Note: HUM 120 does not satisfy the fine arts requirement for music majors or minors.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

MUS 110 - Musical Perspectives

(3) An exploration of music in the broader context of culture and the arts; personal musical experiences through listening and doing; and developing the ability to discern aesthetic excellence. Included is an introduction to the elements of music and how music works, the development of a Christian perspective on the arts, a broad survey of representative selections of Western music, and a focused overview of non-western/world music.

Notes: This course satisfies the general education fine arts requirement for most students. It is recommended for all students, especially those with an interest in music, and is the required fine arts course for all music majors and minors. Students with a special interest in Theatre should see THR 112.

Note: MUS 110 does not satisfy the fine arts requirement for education majors.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

THR 112 - Theatre Appreciation

(3) An introduction to the theatre world and all its aspects: the people who are active in that world, the many kinds of work that are created, the sensations and ideas we receive from those works, and the ways the life of theatre has transmitted across many times and place.

Notes: This course satisfies the general education fine arts requirement for most students. It is recommended for all students, especially those with an interest in theatre. Students with a special interest in music should see MUS 110.

Note: THR 112 does not satisfy the fine arts requirement for music majors or minors, or education majors.

When Offered

Fall and spring semesters.

Literature (3 credit hours)

The General Education Literature requirement for English Majors:

ENG 202 - American Literature I

(3) Representative stories, poems, and documents in American literature from the Colonial era to the early Republic (1776-1830) through the Romantic-transcendentalist period (1830-1860). Includes readings from multiethnic and women writers.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every fall semester.

Philosophy (3 credit hours)**PHL 202 - Introduction to Philosophy**

(3) This course is a survey of many major issues raised over the two-and-a-half millennia of western philosophy. With an emphasis on historical context and development, as well as philosophy's relationship to Christian thought, this course challenges students to critically explore philosophical questions and introduce them to the great tradition of intellectual inquiry. Special attention will be given to the subjects of truth and knowledge, reality and appearance, mind and body, right and wrong, beauty and the existence of God.

When Offered

Fall and summer semesters.

Biblical Studies (12 credit hours)

Take the following four courses (some courses are cross-listed and only one prefix needs to be taken):

BIB 111 - Old Testament

(3) This course provides an introduction to the theological, historical, and literary features of the Old Testament, tracing God's covenant relationship with ancient Israel. Special consideration will be given to the divine covenants and Messianic prophecies of the Old Testament.

When Offered

Every spring semester.

Cross-listed HIS 111

HIS 111 - Old Testament

(3) This course provides an introduction to the theological, historical, and literary features of the Old Testament, tracing God's covenant relationship with ancient Israel. Special consideration will be given to the divine covenants and Messianic prophecies of the Old Testament.

When Offered

Every spring semester.

Cross-listed BIB 111.

BIB 114 - New Testament

(3) This course provides an introduction to the theological, historical, and literary features of the New Testament, tracing the presentation of the gospel message through historical, epistolary, and apocalyptic genres. Special consideration will be given to the life of Christ and missionary journeys of the Apostle Paul.

When Offered

Every fall semester.

Cross-listed HUM 114

HUM 114 - New Testament

(3) This course provides an introduction to the theological, historical, and literary features of the New Testament, tracing the presentation of the gospel message through historical, epistolary, and apocalyptic genres. Special consideration will be given to the life of Christ and missionary journeys of the Apostle Paul.

When Offered

Every fall semester.

Cross-listed BIB 114.

PHL 315 - World Religions and Systems of Belief

(3) This course introduces an academic study of religion and what is called worldview, supplemented by an overview of some of the major tenets of Christianity; this is then followed by a survey of several other religious traditions and competing philosophies.

Prerequisites: PHL 202, THE 201.

When Offered

Winter and spring semesters.

THE 201 - Introduction to Theology

(3) This course covers basic issues, themes, and categories of Christian theology, including the doctrines of Scripture, God, humanity, Christ, salvation, the church, and last things. This course encourages students to better know, trust, love, and live by God's Word.

Prerequisites: BIB 111, BIB 114.

When Offered

Fall, winter, spring, and summer semesters.

Communication (6 credit hours)**COM 103 - Public Speaking**

(3) Introductory principles of communication emphasizing public speaking. Aspects of verbal and nonverbal delivery, speech organization, and the effective use of supporting material and presentational aids are addressed. Students give several speeches designed to better equip them for future speaking endeavors

When Offered

Fall and spring semesters.

ENG 102 - English Composition

(3) Effective use of the English language and exploration of rhetorical modes in written composition. Review of structure, purpose, and audience awareness in developing essays.

Prerequisites: ACT and/or SAT scores will be used to determine placement in either ENG 102 or ENG 102 (Basic).

Notes: Course must be completed first semester at CCU.

When Offered

Fall and spring semester.

ENG 105 - Advanced English Composition

(3) Advanced English composition, research methods, and literary study for invited exceptional students. Focus on both the study of literature and research writing.

Prerequisites: One of the following:

- AP English Language and Composition
 - A score of 4 is the minimum prerequisite for enrollment in ENG 105. A student who scores a 4 or 5 will automatically enroll a student in ENG 105 instead of ENG 102 and/or ENG 201.
- AP English Literature and Composition
 - A score of 4 is the minimum prerequisite for enrollment in ENG 105. A student who scores a 4 or 5 will automatically enroll a student in ENG 105 instead of ENG 102 and/or ENG 201.
- Score of 30 or above on the verbal section of the ACT exam.
- Score of 700 or above on the verbal section of the SAT exam.
- By invitation of the English department.

Notes: Fulfills general education requirements for both ENG 102 and ENG 201.

When Offered

Every fall semester.

Integrative Studies (3 credit hours)

*Please see the First-Year Integration (FYI) page for specific information about this required course.

INT 101 - First-Year Integration

(3) Think critically, grow spiritually, and change the world. Based on the premise that we as Christians are called to be rational creatures, relational creatures, and responsible creatures, FYI is an integrative study of foundational Christian principles with other disciplines. Examination and discussion of problems and contemporary issues - academic, personal, and social - facing students in their pursuit of success in college and life. Please see the First-Year Integration (FYI) page for specific information about this required course.

When Offered

Fall and spring semesters.

Mathematics (3 credit hours)**MAT 112 - Mathematics for Liberal Arts**

(3) This course introduces some of the important ideas in mathematics and how they can be applied in everyday life situations, solving a wide range of practical problems. Topics include sets, logic, history of numeration, number systems and their properties, number patterns, counting principles, probability, statistics, graph theory, personal finance, and voting methods.

Notes: Students with higher level mathematics skills (i.e. ACT MAT above 20 and SAT MATH above 520) are discouraged from taking this class. Only students who do not place into MAT 111 - College Algebra should enroll in MAT 112 - Mathematics for Liberal Arts.

When Offered

Fall, spring and summer semesters.

(or higher except for MAT 202 or MAT 302 - Teaching Mathematics in the Elementary Classroom)

Science (3 credits)**SCI 230 - Integrated Physical Science with Lab**

(3) This is an integrated course presenting the major concepts, theoretical perspectives, historical trends, and empirical findings of the physical sciences. Laboratory exercises and lectures explore motion, the four forces, heat, energy, chemical reactions, the structure and development of matter, the types and nature of chemical bonding, and the nature and history of the universe, the solar system, and the Earth.

Lab/Lecture Hours

Laboratory investigations included in course.

Fee

Lab fees apply.

When Offered

Every semester.

Social Sciences (12 credit hours)

Take each of the following four courses:

ECO 215 - Economics

(3) Economics is about scarcity and choice. Students in this course study how people, firms, governments, and nations interact in alternative economic systems to make choices about allocating scarce resources. In addition, students learn to evaluate these systems, understand macroeconomic monetary and fiscal policies, and engage in policy debates.

When Offered

Fall and spring semesters.

HIS 185 - Western Civilization

(3) The spiritual values and intellectual achievements of ancient Israel, Greece, Rome, the Middle Ages, the Renaissance, and Reformation that gave birth to the modern world.

When Offered

Every fall semester.

HIS 205 - American History

(3) Principles of the founding and the political, economic, intellectual, cultural, and religious traditions that have shaped America.

When Offered

Every spring semester.

POL 207 - Introduction to American Politics

(3) Introduction to political science and American government to prepare students to be effective citizens.

When Offered

Every fall and spring semester.

English Major (42 credit hours)**English Core (30 credit hours)****ENG 203 - American Literature II**

(3) Representative stories, poems, and drama in American literature from the Civil War to the present. Nontraditional ethnic and women's voices included. Emphasis on interpretation and criticism of American literature.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every spring semester.

ENG 204 - British Literature I

(3) Surveys the history of literature in Britain until 1800 and representative works by influential writers of the periods contained therein.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every fall semester.

ENG 205 - British Literature II

(3) Surveys the history of literature in Britain from 1800 to the present and representative works by influential writers.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every spring semester.

ENG 230 - Introduction to Creative Writing

(3) Study and practice the methods, structures, and conventions of fiction, poetry, and other genres of creative writing.

Prerequisites: ENG 102 or permission of the instructor.

When Offered

Fall and spring semester.

ENG 305 - Poetry Seminar

(3) Interpretation and critical reading, structures, and conventions of poetry in English, past and present.

Prerequisites: One of the following: ENG 201, ENG 202, ENG 203, ENG 204, or ENG 205.

When Offered

Odd fall semesters.

ENG 310 - History of the British Novel

(3) Representative novels by British authors in various historical periods depicting human responses to differing economic, political, psychological, and social issues. Includes interpretation and criticism of the novel.

Prerequisites: Junior or Senior Status.

When Offered

Every fall semester.

ENG 312 - History of the American Novel

(3) This course explores the representative novels by American authors in various historical periods depicting human responses to differing economic, political, psychological, and social issues; includes interpretation and criticism of the novel genre.

When Offered

Every fall semester.

ENG 408 - Seminar in Literary Topics

(3) This seminar provides a variety of literary topics for analysis and discussion. Previous Seminars in Literary Topics have been on Detective Fiction, Tolkien, Russian Literature, the Romantics, Conversations with the Classics, Great Books, and others.

Prerequisites: Junior or Senior Status.

Notes: May be repeated for a maximum of 6 credit hours applied toward the English major.

When Offered

Scheduled by School.

ENG 410 - History and Structure of the English Language

(3) The course traces the development of English from its origins, with special emphasis on the relationship of language development to cultural background and environment; standard and non-standard dialect usage; and grammatical structure.

Prerequisites: Junior or Senior status.

Fee

Fees may apply.

When Offered

Every spring semester.

ENG 440 - Literary Criticism

(3) Identification and analysis of critical issues and key works in the history of literary criticism and literary theory.

Prerequisites: Junior or Senior status.

When Offered

Odd fall semesters.

English Emphases (12 credit hours)

Choose one of the three English Emphases below.

Creative Writing Emphasis (12 credit hours)

ENG 420 - Advanced Creative Writing: Poetry

(3) Technique, writing practice, and criticism.

Prerequisites: ENG 230 and junior/senior status or permission of the instructor.

When Offered

Even fall semesters.

ENG 430 - Advanced Creative Writing: Fiction

(3) Technique, writing practice, and criticism. Publishing guidelines.

Prerequisites: ENG 230 and junior/senior status or permission of the instructor.

When Offered

Odd spring semesters.

ENG 435 - Advanced Creative Writing: Special Topics

(3) Techniques of writing with particular attention paid to writing workshops and publishing guidelines. Topics may include Creative Nonfiction, Writing for Stage and Screen, Devotional Writing, Feature Writing, etc. Topics will vary based on student interest and faculty availability.

Prerequisites: ENG 230 and junior/senior status or permission of the instructor.

Notes: May be repeated for credit with a maximum of 6 credit hours applied toward the English major.

When Offered

Odd fall and even spring semesters.

Choose one literature course from the following:

ENG 330 - Shakespeare

(3) Analysis of literary and performance techniques for selected Shakespeare plays.

Prerequisites: One of the following: ENG 201, ENG 202, ENG 203, ENG 204 or ENG 205.

When Offered

Even spring semesters.

Cross-listed THR 330.

ENG 340 - American Ethnic Literatures

(3) Fiction, poetry, and nonfiction by major writers from American ethnic backgrounds (African, Asian, Jewish, Hispanic/Latino, and Native American, and others) are analyzed, and literary criticism on American ethnic literary concerns is integrated into analysis of primary texts.

Prerequisites: One of the following: ENG 201, ENG 202, ENG 203, ENG 204 or ENG 205.

When Offered

Even fall semesters.

ENG 360 - World Literature

(3) Multinational works of contemporary literature in English translation. Central human dilemmas and the role of literature in other societies.

Prerequisites: One of the following: ENG 201, ENG 202, ENG 203, ENG 204 or ENG 205.

When Offered

Odd fall semesters.

ENG 380 - Christian Writers

(3) Foundational literary works by Christian writers: their scriptural, historical, and cultural influences, from the medieval period to the present.

Prerequisites: One of the following: ENG 201, ENG 202, ENG 203, ENG 204 or ENG 205.

When Offered

Even spring semesters.

Graduate Studies Track (12 credit hours)

ENG 340 - American Ethnic Literatures

(3) Fiction, poetry, and nonfiction by major writers from American ethnic backgrounds (African, Asian, Jewish, Hispanic/Latino, and Native American, and others) are analyzed, and literary criticism on American ethnic literary concerns is integrated into analysis of primary texts.

Prerequisites: One of the following: ENG 201, ENG 202, ENG 203, ENG 204 or ENG 205.

When Offered

Even fall semesters.

ENG 360 - World Literature

(3) Multinational works of contemporary literature in English translation. Central human dilemmas and the role of literature in other societies.

Prerequisites: One of the following: ENG 201, ENG 202, ENG 203, ENG 204 or ENG 205.

When Offered

Odd fall semesters.

ENG 330 - Shakespeare

(3) Analysis of literary and performance techniques for selected Shakespeare plays.

Prerequisites: One of the following: ENG 201, ENG 202, ENG 203, ENG 204 or ENG 205.

When Offered

Even spring semesters.

Cross-listed THR 330.

ENG 380 - Christian Writers

(3) Foundational literary works by Christian writers: their scriptural, historical, and cultural influences, from the medieval period to the present.

Prerequisites: One of the following: ENG 201, ENG 202, ENG 203, ENG 204 or ENG 205.

When Offered

Even spring semesters.

ENG 470 - Senior Thesis

(3) The Senior Thesis is a substantial body of work that may be research, expository, critical, or creative work. It is original in subject matter, organization, or view. An interested student should begin discussions with a thesis advisor in the semester or summer before enrolling. The thesis typically will begin in the fall semester of the senior year and be completed in the following spring semester. Credits are awarded in the semester in which the thesis is completed.

Prerequisites: Seniors within the major, 3.5 GPA (minimum cumulative), and thesis advisor permission.

When Offered

Scheduled by School.

Guided Literary Studies Emphasis (12 credit hours)

Choose four courses from the list of courses that are included in the Creative Writing Emphasis and Graduate Studies Track.

Please consult with an English faculty member as well as your academic advisor to assist you in selecting courses appropriate for your career path.

Graduation Requirements for Bachelor of Arts in English

The faculty recommends students in the B.A. in English to the Board of Trustees as candidates for graduation when they have completed the following requirements.

1. Completion of a total of 120 credits, including all general education, electives and English major program requirements.
2. A letter grade of D or better and a cumulative GPA of 2.0 or better in all CCU coursework, and a GPA of 2.0 or higher for all courses specified for the major.
3. Completion of 180 hours of ministry/community service and 180 chapel credits. Transfer students are required to complete 45 hours of ministry/community service and 45 chapel credits each year of attendance at CCU. For further details on ministry/community service, see the Life Directions Center (LDC) section of this catalog. For further details on chapel credits, see the Student Life section of this catalog.
4. Meet the CCU Residency requirements.
5. Acceptable performance on exit exams, as required by the faculty.
6. Formal and timely application for graduation by the date specified by the University Registrar.
7. No outstanding financial obligation to the University.

Global Studies Major

The Global Studies major is a multi-disciplinary course of study for students intending to work or study in an international setting or as a background for involvement in ministries around the world. All students in this program complete a core curriculum that provides interdisciplinary background in business, economics, history, missions, and political science, as well as the culture of specific regions of the world. In addition to the required core, students will choose an Intercultural Ministries Emphasis, an International Business and Economic Development Emphasis, an International Relations and Diplomacy Emphasis, or a General Global Studies Emphasis.

All Global Studies majors are required to complete an international experience with CCU, consisting of one of the following, subject to approval by the Dean of the School of Humanities and Social Sciences:

- a Study Abroad semester,
- an international academic travel course,
- a GLS 325 international internship (a domestic internship would not normally count),
- or a CCU2theWorld international mission trip.

In addition, all students are required to meet a basic intermediate proficiency in a foreign language in one of the following ways:

- successfully completing two semesters of a foreign language offered at CCU.
- successfully completing three semesters of another modern language via AP or another accredited university, with credits recognized by CCU, or
- passing a proficiency test recognized by CCU as establishing the student's proficiency at a level equivalent to successfully completing three semesters of a modern language.

The Bachelor of Arts in Global Studies requires completion of the following 120 credits:
General Education Core (48 credit hours)
Global Studies Major Core (42-43 credit hours)
Electives (29-30 credit hours)

General Education Requirements (48 credit hours)

Arts and Humanities (9 credit hours)

Take one course from each of the following three academic disciplines:

Fine Arts (3 credit hours)

Choose one course from the following:

HUM 120 - Introduction to the Arts

(3) Introduction to our humanity through hands-on experience in the arts (music, visual arts, poetry, story, play, and dance). Aesthetic and artistic values in the broader context of human cultural development, responsibility, and joy.

Notes: This course satisfies the general education fine arts requirement for most students, and is the required fine arts course for education majors. It is recommended for all students with a general interest in the fine arts. Students with a special interest in theatre should see THR 112. Students with a special interest in music should see MUS 110.

Note: HUM 120 does not satisfy the fine arts requirement for music majors or minors.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

MUS 110 - Musical Perspectives

(3) An exploration of music in the broader context of culture and the arts; personal musical experiences through listening and doing; and developing the ability to discern aesthetic excellence. Included is an introduction to the elements of music and how music works, the development of a Christian perspective on the arts, a broad survey of representative selections of Western music, and a focused overview of non-western/world music.

Notes: This course satisfies the general education fine arts requirement for most students. It is recommended for all students, especially those with an interest in music, and is the required fine arts course for all music majors and minors. Students with a special interest in Theatre should see THR 112.

Note: MUS 110 does not satisfy the fine arts requirement for education majors.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

THR 112 - Theatre Appreciation

(3) An introduction to the theatre world and all its aspects: the people who are active in that world, the many kinds of work that are created, the sensations and ideas we receive from those works, and the ways the life of theatre has transmitted across many times and place.

Notes: This course satisfies the general education fine arts requirement for most students. It is recommended for all students, especially those with an interest in theatre. Students with a special interest in music should see MUS 110.

Note: THR 112 does not satisfy the fine arts requirement for music majors or minors, or education majors.

When Offered

Fall and spring semesters.

Literature (3 credit hours)

Choose one course from the following:

ENG 201 - Introduction to Literature

(3) Understand, experience, and evaluate poetry, short fiction, essays, and drama genres, both American and multinational.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Fall and spring semesters.

ENG 202 - American Literature I

(3) Representative stories, poems, and documents in American literature from the Colonial era to the early Republic (1776-1830) through the Romantic-transcendentalist period (1830-1860). Includes readings from multiethnic and women writers.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every fall semester.

ENG 203 - American Literature II

(3) Representative stories, poems, and drama in American literature from the Civil War to the present. Nontraditional ethnic and women's voices included. Emphasis on interpretation and criticism of American literature.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every spring semester.

ENG 204 - British Literature I

(3) Surveys the history of literature in Britain until 1800 and representative works by influential writers of the periods contained therein.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every fall semester.

ENG 205 - British Literature II

(3) Surveys the history of literature in Britain from 1800 to the present and representative works by influential writers.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every spring semester.

Philosophy (3 credit hours)**PHL 202 - Introduction to Philosophy**

(3) This course is a survey of many major issues raised over the two-and-a-half millennia of western philosophy. With an emphasis on historical context and development, as well as philosophy's relationship to Christian thought, this course challenges students to critically explore philosophical questions and introduce them to the great tradition of intellectual inquiry. Special attention will be given to the subjects of truth and knowledge, reality and appearance, mind and body, right and wrong, beauty and the existence of God.

When Offered

Fall and summer semesters.

Biblical Studies (12 credit hours)

Take the following four courses (some courses are cross-listed and only one prefix needs to be taken):

BIB 111 - Old Testament

(3) This course provides an introduction to the theological, historical, and literary features of the Old Testament, tracing God's covenant relationship with ancient Israel. Special consideration will be given to the divine covenants and Messianic prophecies of the Old Testament.

When Offered

Every spring semester.

Cross-listed HIS 111

HIS 111 - Old Testament

(3) This course provides an introduction to the theological, historical, and literary features of the Old Testament, tracing God's covenant relationship with ancient Israel. Special consideration will be given to the divine covenants and Messianic prophecies of the Old Testament.

When Offered

Every spring semester.
Cross-listed BIB 111.

BIB 114 - New Testament

(3) This course provides an introduction to the theological, historical, and literary features of the New Testament, tracing the presentation of the gospel message through historical, epistolary, and apocalyptic genres. Special consideration will be given to the life of Christ and missionary journeys of the Apostle Paul.

When Offered

Every fall semester.
Cross-listed HUM 114

HUM 114 - New Testament

(3) This course provides an introduction to the theological, historical, and literary features of the New Testament, tracing the presentation of the gospel message through historical, epistolary, and apocalyptic genres. Special consideration will be given to the life of Christ and missionary journeys of the Apostle Paul.

When Offered

Every fall semester.
Cross-listed BIB 114.

PHL 315 - World Religions and Systems of Belief

(3) This course introduces an academic study of religion and what is called worldview, supplemented by an overview of some of the major tenets of Christianity; this is then followed by a survey of several other religious traditions and competing philosophies.

Prerequisites: PHL 202, THE 201.

When Offered

Winter and spring semesters.

THE 201 - Introduction to Theology

(3) This course covers basic issues, themes, and categories of Christian theology, including the doctrines of Scripture, God, humanity, Christ, salvation, the church, and last things. This course encourages students to better know, trust, love, and live by God's Word.

Prerequisites: BIB 111, BIB 114.

When Offered

Fall, winter, spring, and summer semesters.

Communication (6 credit hours)

COM 103 - Public Speaking

(3) Introductory principles of communication emphasizing public speaking. Aspects of verbal and nonverbal delivery, speech organization, and the effective use of supporting material and presentational aids are addressed. Students give several speeches designed to better equip them for future speaking endeavors

When Offered

Fall and spring semesters.

ENG 102 - English Composition

(3) Effective use of the English language and exploration of rhetorical modes in written composition. Review of structure, purpose, and audience awareness in developing essays.

Prerequisites: ACT and/or SAT scores will be used to determine placement in either ENG 102 or ENG 102 (Basic).

Notes: Course must be completed first semester at CCU.

When Offered

Fall and spring semester.

ENG 105 - Advanced English Composition

(3) Advanced English composition, research methods, and literary study for invited exceptional students. Focus on both the study of literature and research writing.

Prerequisites: One of the following:

- AP English Language and Composition
 - A score of 4 is the minimum prerequisite for enrollment in ENG 105. A student who scores a 4 or 5 will automatically enroll a student in ENG 105 instead of ENG 102 and/or ENG 201.
- AP English Literature and Composition
 - A score of 4 is the minimum prerequisite for enrollment in ENG 105. A student who scores a 4 or 5 will automatically enroll a student in ENG 105 instead of ENG 102 and/or ENG 201.
- Score of 30 or above on the verbal section of the ACT exam.
- Score of 700 or above on the verbal section of the SAT exam.
- By invitation of the English department.

Notes: Fulfills general education requirements for both ENG 102 and ENG 201.

When Offered

Every fall semester.

Integrative Studies (3 credit hours)

* Please see the First-Year Integration (FYI) page for specific information about this required course.

INT 101 - First-Year Integration

(3) Think critically, grow spiritually, and change the world. Based on the premise that we as Christians are called to be rational creatures, relational creatures, and responsible creatures, FYI is an integrative study of foundational Christian principles with other disciplines. Examination and discussion of problems and contemporary issues - academic, personal, and social - facing students in their pursuit of success in college and life. Please see the First-Year Integration (FYI) page for specific information about this required course.

When Offered

Fall and spring semesters.

Mathematics (3 credit hours)

MAT 112 - Mathematics for Liberal Arts

(3) This course introduces some of the important ideas in mathematics and how they can be applied in everyday life situations, solving a wide range of practical problems. Topics include sets, logic, history of numeration, number systems and their properties, number patterns, counting principles, probability, statistics, graph theory, personal finance, and voting methods.

Notes: Students with higher level mathematics skills (i.e. ACT MAT above 20 and SAT MATH above 520) are discouraged from taking this class. Only students who do not place into MAT 111 - College Algebra should enroll in MAT 112 - Mathematics for Liberal Arts.

When Offered

Fall, spring and summer semesters.

(or higher except for MAT 202 or MAT 302 - Teaching Mathematics in the Elementary Classroom)

Science (3 credit hours)

SCI 230 - Integrated Physical Science with Lab

(3) This is an integrated course presenting the major concepts, theoretical perspectives, historical trends, and empirical findings of the physical sciences. Laboratory exercises and lectures explore motion, the four forces, heat, energy, chemical reactions, the structure and development of matter, the types and nature of chemical bonding, and the nature and history of the universe, the solar system, and the Earth.

Lab/Lecture Hours

Laboratory investigations included in course.

Fee

Lab fees apply.

When Offered

Every semester.

Social Sciences (12 credit hours)

Take each of the following four courses:

ECO 215 - Economics

(3) Economics is about scarcity and choice. Students in this course study how people, firms, governments, and nations interact in alternative economic systems to make choices about allocating scarce resources. In addition, students learn to evaluate these systems, understand macroeconomic monetary and fiscal policies, and engage in policy debates.

When Offered

Fall and spring semesters.

HIS 185 - Western Civilization

(3) The spiritual values and intellectual achievements of ancient Israel, Greece, Rome, the Middle Ages, the Renaissance, and Reformation that gave birth to the modern world.

When Offered

Every fall semester.

HIS 205 - American History

(3) Principles of the founding and the political, economic, intellectual, cultural, and religious traditions that have shaped America.

When Offered

Every spring semester.

POL 207 - Introduction to American Politics

(3) Introduction to political science and American government to prepare students to be effective citizens.

When Offered

Every fall and spring semester.

Global Studies Major (42-43 credit hours)

Global Studies Core (27 credit hours)

- All Global Studies majors are required to complete an international experience with CCU, consisting of either a Study Abroad semester, an academic travel course, a GLS 325 international internship, or a CCU2theWorld international missions trip, subject to approval by the Dean of Social Sciences and Humanities.
- All Global Studies majors are required to meet a basic intermediate proficiency in a foreign language by successfully completing two semesters of a foreign language offered at CCU, or successfully completing three semesters of another modern language via AP or another accredited university with credits recognized by CCU, or passing a proficiency test recognized by CCU establishing the student's proficiency at a level equivalent to successfully completing three semesters of a modern language.

BUS 101 - Introduction to Business, Management and Ethics

(3) Students learn fundamental business topics that prepares them to be successful in the exciting world of business and non-profit organizations. Students gain foundations in functional areas (accounting, finance, management, marketing, and technology) and operating environments common to every organization. This course is engaging and transformational, whether one is just starting out or already an avid student of business.

When Offered

Fall and spring semesters.

Cross-listed MGT 101

GLS 203 - Introduction to Global Studies

(3) Relationships between sovereign states in the global community; concepts of national interests, goals of foreign policies; interactions between nation-states and the resolution of international conflicts; geography and geopolitics; the first, second, and third worlds; and current affairs and controversial issues.

When Offered

Every fall semester.

GLS 465 - Senior Seminar

(3) The purpose of this capstone course is to provide a Christ-centered perspective on the social and economic issues that affect the global arena. This course is designed to integrate the material from political science, economics, history, and global studies into the concept of our responsibility for Christ's mandate to the Church. Theories of justice from secular as well as from a Christian perspective will be used as lenses through which to study social and economic issues facing the world today.

Prerequisites: Senior standing.

When Offered

Every spring semester.

HIS 186 - The Birth of the Modern World

(3) A study of the political, social, economic, intellectual, and religious developments in Europe from the 16th century and the impact of the West as it expanded its influence around the world.

When Offered

Every spring semester.

POL 233 - World Politics

(3) This course introduces students to the theories and key concepts of international relations and to comparative political and economic systems.

When Offered

Every fall semester.

THE 225 - Introduction to Intercultural Ministry

(3) To orient students to the fundamental issues in the field of missiology with a particular focus on the biblical theology of mission, the role of the sender/supporter, life on the mission field, and current issues in missiological debate.

Fee

Course fee applies.

When Offered

Every fall semester.

COM 314 - Cross-Cultural Communication

(3) Examines Issues, theories, research, and strategies related to developing effective communication practices between diverse cultures. Consideration of biblical principles related to peoples and issues within various cultural backgrounds and experiences.

Prerequisites: COM 103.

When Offered

Every fall semester.

LED 205 - Cross Cultural Leadership

(3) This century will be remembered for intense globalization. In this course students discover how multifarious cultures view the world and leadership by studying ways to categorize cultures, apply insights from the Hofstede value dimensions in leadership decisions, and better navigate differences in work habits, communication, and religion/philosophy. Students learn to stretch their own perspectives and gain a deeper knowledge of themselves.

Prerequisites: LED 101.

When Offered

Every spring semester.

Choose two courses from the following - may not be a duplicated course chosen in the emphasis:

GLS 322 - The World Since 1945

(3) Contemporary world history is vital to understanding the present world situation. We live in a vast network of political, social, economic, and religious beliefs that continuously affect our lives. To better understand this world as well as the perspectives of others we encounter, we must know the events of the last 50 years. These include: the Cold War, the disparity between rich and poor nations, and intellectual and spiritual issues of our present technological age.

Prerequisites: Junior standing.

When Offered

Every spring semester.

GLS 384 - History of the Middle East

(3) An in-depth examination of the historic development of the nations and people of the Middle East from the time of the birth of Islam to the 20th century. Special emphasis will be placed on the historic religious, political, and cultural developments that have led to the conflicts of the 20th century.

When Offered

Even fall semesters.

GLS 385 - Contemporary Latin America

(3) Historical and cultural development of modern Latin America, beginning with the pre-European period, the Spanish and Portuguese colonial period, the 19th century independence movement, and emphasizing 20th century issues and problems, including the relationships of these countries with the United States.

When Offered

Odd spring semesters.

GLS 386 - Contemporary Asia

(3) A comprehensive examination of the origin and development of the civilizations of China, India, and Japan, with emphasis on literature, religion, philosophy, anthropology, and history, and the interaction of these historic cultures with the West in general and the United States in particular.

When Offered

Odd fall semesters.

GLS 387 - Contemporary Africa

(3) The diverse cultural, political, and economic history of the people, societies, and nations of Africa from the pre-European conquest through European colonialism and imperialism to the emergence of Modern Africa.

When Offered

Even spring semesters.

GLS 388 - Contemporary Middle East

(3) This class explores the religion, politics, and culture of the contemporary Middle East, starting with the end of World War II and the birth of modern Israel. It tracks contemporary Islamic movements, political developments within the Islamic world, and the rise of radical ideologies and organizations.

When Offered

Odd fall semesters.

Global Studies Emphases (15-16 credit hours)

Choose one of the four Global Studies Emphases below.

General Emphasis (15 credit hours)

Choose five courses from the following - may not be a duplicated course chosen in the major core.

BUS 370 - International Business

(3) The Internet has made international business everyone's business. In this course students learn about international organizations, the global monetary system, regional trading blocs, and how politics and culture impact doing business abroad. This course surveys each of the functional areas of business (finance, marketing, organization, strategy, etc.) to help students assess opportunities, mitigate risk, and create and capture value.

When Offered

Every spring semester.

COM 314 - Cross-Cultural Communication

(3) Examines Issues, theories, research, and strategies related to developing effective communication practices between diverse cultures. Consideration of biblical principles related to peoples and issues within various cultural backgrounds and

experiences.

Prerequisites: COM 103.

When Offered

Every fall semester.

ECO 315 - Economic Development

(3) In this course students learn the significance of economic and political institutions and explore macroeconomic growth strategies. Since human nature is at the heart of every economy, students explore poverty as material and spiritual are equipped to exercise compassion without compromising human dignity.

Prerequisites: ECO 215.

When Offered

Every fall semester.

ENG 360 - World Literature

(3) Multinational works of contemporary literature in English translation. Central human dilemmas and the role of literature in other societies.

Prerequisites: One of the following: ENG 201, ENG 202, ENG 203, ENG 204 or ENG 205.

When Offered

Odd fall semesters.

GLS 301 - Cultural Anthropology

(3) Inter-disciplinary study of American and world cultures, social organization, technology, religion, socialization, enculturation, acculturation, and social change using the insights of anthropology combined, as relevant, with findings of sociology.

When Offered

Even spring semesters.

GLS 321 - The World at War (1900-1945)

(3) This course is designed for advanced students of history and global studies. Our modern culture is a product of the political, social, economic and ideological trends that developed in this period. This class begins with final days of the great European empires over 100 years ago and concludes with the end of World War II in 1945. The primary emphasis is to understand how democracy, individual freedom, human rights, and technological progress were nourished and propagated in spite of the resistance of traditional elites and the challenges of Communist and Fascist ideologies.

Prerequisites: Junior standing.

When Offered

Every fall semester.

GLS 322 - The World Since 1945

(3) Contemporary world history is vital to understanding the present world situation. We live in a vast network of political, social, economic, and religious beliefs that continuously affect our lives. To better understand this world as well as the perspectives of others we encounter, we must know the events of the last 50 years. These include: the Cold War, the disparity between rich and poor nations, and intellectual and spiritual issues of our present technological age.

Prerequisites: Junior standing.

When Offered

Every spring semester.

GLS 384 - History of the Middle East

(3) An in-depth examination of the historic development of the nations and people of the Middle East from the time of the birth of Islam to the 20th century. Special emphasis will be placed on the historic religious, political, and cultural developments that have led to the conflicts of the 20th century.

When Offered

Even fall semesters.

GLS 385 - Contemporary Latin America

(3) Historical and cultural development of modern Latin America, beginning with the pre-European period, the Spanish and Portuguese colonial period, the 19th century independence movement, and emphasizing 20th century issues and problems, including the relationships of these countries with the United States.

When Offered

Odd spring semesters.

GLS 386 - Contemporary Asia

(3) A comprehensive examination of the origin and development of the civilizations of China, India, and Japan, with emphasis on literature, religion, philosophy, anthropology, and history, and the interaction of these historic cultures with the West in general and the United States in particular.

When Offered

Odd fall semesters.

GLS 387 - Contemporary Africa

(3) The diverse cultural, political, and economic history of the people, societies, and nations of Africa from the pre-European conquest through European colonialism and imperialism to the emergence of Modern Africa.

When Offered

Even spring semesters.

GLS 388 - Contemporary Middle East

(3) This class explores the religion, politics, and culture of the contemporary Middle East, starting with the end of World War II and the birth of modern Israel. It tracks contemporary Islamic movements, political developments within the Islamic world, and the rise of radical ideologies and organizations.

When Offered

Odd fall semesters.

LED 205 - Cross Cultural Leadership

(3) This century will be remembered for intense globalization. In this course students discover how multifarious cultures view the world and leadership by studying ways to categorize cultures, apply insights from the Hofstede value dimensions in leadership decisions, and better navigate differences in work habits, communication, and religion/philosophy. Students learn to stretch their own perspectives and gain a deeper knowledge of themselves.

Prerequisites: LED 101.

When Offered

Every spring semester.

POL 301 - Political Economy

(3) This course provides an overview of the intersection of politics and economics, particularly in macroeconomics, fiscal and monetary policy; also explores comparative economic systems, free markets and trade. Students will also engage and integrate the subject matter themes with concepts of political theory, such as justice, freedom, property ownership, and stewardship.

Prerequisites: ECO 215; POL 207 or POL 233.

When Offered

Every fall semester.

POL 324 - Foreign Policy and Diplomacy

(3) This course examines the history of U.S. foreign policy; foreign policy processes and theories; key global organizations; and comparative foreign policies of world powers.

Prerequisites: POL 233.

When Offered

Every spring semester.

POL 472 - Seminar in Politics

(3) This seminar provides a variety of political topics for analysis and discussion, such as terrorism, human trafficking, or film and politics.

Prerequisites: POL 207; Junior or Senior standing.

Notes: May be repeated for credit with a maximum of six credit hours applied toward the major.

When Offered

Every spring semester.

Intercultural Ministry Emphasis (15 credit hours)

BIB 230 - Interpreting the Bible

(3) This course provides an orientation to the Bible, hermeneutics, and exegetical practices. Exploration in the field of biblical studies will include the formation, preservation, and translation of the Bible.

Prerequisites: BIB 111 or HIS 111, BIB 114 or HUM 114, (ENG 104 is recommended).

When Offered

Fall and spring semesters.

GLS 325 - Field Experience in Intercultural Ministry

(3) Students participate in a local or international field internship in conjunction with an external organization.

When Offered

Scheduled by School.

THE 325 - History and Theory of Christian Expansion

(3) A study of the background, origin, and expansion of the Christian church, focusing on personalities and methods which have contributed to the spread of the gospel to the ends of the earth. Attention will be given to comparing, contrasting and evaluating the differing methods of cross-cultural development in subsequent periods of history, drawing lessons for the modern missionary endeavor in light of current missiological philosophies and methods.

When Offered

Even spring semesters.

THE 411 - Mission Preparation

(3) This course guides students in evaluating mission experiences in light of life calling in addition to preparing them for entry into full-time mission partnerships after graduation.

Prerequisites: THE 225.

When Offered

Every fall semester.

THE 425 - Theological Foundations for Intercultural Ministry

(3) Students consider a biblical basis for world mission rooted in the *missio dei*. This course enhances capacity for sound theological reasoning and decision making within intercultural contexts through examination of missiological principles revealed in the Scriptures.

Prerequisites: BIB 230 and THE 225.

When Offered

Every odd spring semester.

International Business and Economic Development Emphasis (16 credit hours)

ACC 201 - Principles of Accounting I Financial Reporting

(4) This course provides an introduction to the financial accounting information role in business and society, focusing on the recording and reporting of business operations, including financing and investing events. It provides insights on business and enables students to become familiar with reporting of business operations using generally accepted accounting principles.

Prerequisites: BUS 101 or MGT 101.

When Offered

Fall and spring semesters.

BUS 370 - International Business

(3) The Internet has made international business everyone's business. In this course students learn about international organizations, the global monetary system, regional trading blocs, and how politics and culture impact doing business abroad. This course surveys each of the functional areas of business (finance, marketing, organization, strategy, etc.) to help students assess opportunities, mitigate risk, and create and capture value.

When Offered

Every spring semester.

ECO 315 - Economic Development

(3) In this course students learn the significance of economic and political institutions and explore macroeconomic growth strategies. Since human nature is at the heart of every economy, students explore poverty as material and spiritual are equipped to exercise compassion without compromising human dignity.

Prerequisites: ECO 215.

When Offered

Every fall semester.

POL 301 - Political Economy

(3) This course provides an overview of the intersection of politics and economics, particularly in macroeconomics, fiscal and monetary policy; also explores comparative economic systems, free markets and trade. Students will also engage and integrate the subject matter themes with concepts of political theory, such as justice, freedom, property ownership, and stewardship.

Prerequisites: ECO 215; POL 207 or POL 233.

When Offered

Every fall semester.

BUS 500 - International Business Practicum

(3) This applied International Business course building upon prior global knowledge is an intensive study abroad experience of 3.5 weeks in a foreign country. Students will visit many types of organizations and participate in a number of cultural site visits designed to develop a deep understanding of business/economic, political, social, technological, and theological issues, with extensive readings, presentations, and papers required.

Prerequisites: BUS 370, Juniors and Seniors only.

Fee

Course fee applies.

When Offered

Every spring semester.

ECO 500 - Micro-Economic Analysis and Policy

(3) Economics provides insights on how individuals, businesses, governments, and nations make choices. Often, incentives embodied in policies drive those choices, and choices have implications. This course equips students with the tools to be able to analyze microeconomic issues, the macro-economy, and economic development policies. Students engage in research to develop policies addressing current economic problems in their interest areas, write academic papers, and produce creative means to disseminate policy suggestions using modern media.

Prerequisites: ECO 215; Juniors and Seniors only.

When Offered

Every spring semester.

International Relations and Diplomacy Emphasis (15 credit hours)

POL 301 - Political Economy

(3) This course provides an overview of the intersection of politics and economics, particularly in macroeconomics, fiscal and monetary policy; also explores comparative economic systems, free markets and trade. Students will also engage and integrate the subject matter themes with concepts of political theory, such as justice, freedom, property ownership, and stewardship.

Prerequisites: ECO 215; POL 207 or POL 233.

When Offered

Every fall semester.

POL 324 - Foreign Policy and Diplomacy

(3) This course examines the history of U.S. foreign policy; foreign policy processes and theories; key global organizations; and comparative foreign policies of world powers.

Prerequisites: POL 233.

When Offered

Every spring semester.

POL 472 - Seminar in Politics

(3) This seminar provides a variety of political topics for analysis and discussion, such as terrorism, human trafficking, or film and politics.

Prerequisites: POL 207; Junior or Senior standing.

Notes: May be repeated for credit with a maximum of six credit hours applied toward the major.

When Offered

Every spring semester.

POL 462 - Congress and the Presidency

(3) This course examines executive power and the Constitutional design and purpose of the United States Presidency. Additionally, the nature of legislative power and its institutionalization in the House of Representatives and Senate under the Constitution is examined. Extensive consideration is given to the shift in power from Congress to the President and how this relates to the Constitution.

Prerequisites: POL 207.

When Offered

Even spring semesters.

POL 497 - Special Topics in Political Science

(3) In-depth studies of selected topics in Political Science.

Notes: May be repeated for credit under a different topic.

Graduation Requirements for Bachelor of Arts in Global Studies

The faculty recommends students in the B.A. in Global Studies to the Board of Trustees as candidates for graduation when they have completed the following requirements.

1. Completion of a total of 120 credits, including all general education, electives and Global Studies major program requirements.
2. A letter grade of D or better and a cumulative GPA of 2.0 or better in all CCU coursework, and a GPA of 2.0 or higher for all courses specified for the major.
3. Completion of 180 hours of ministry/community service and 180 chapel credits. Transfer students are required to complete 45 hours of ministry/community service and 45 chapel credits each year of attendance at CCU. For further details on ministry/community service, see the Life Directions Center (LDC) section of this catalog. For further details on chapel credits, see the Student Life section of this catalog.
4. Meet the CCU Residency requirements.
5. Acceptable performance on exit exams, as required by the faculty.
6. Formal and timely application for graduation by the date specified by the University Registrar.
7. No outstanding financial obligation to the University.

History Major

In the History major, students develop a broad understanding of religious, American, European and nonwestern history. Emphasis is also placed on historical inquiry - the art of doing history. The program is designed to assist students in developing a Christian perspective of history. Upon graduation, students are prepared to pursue graduate studies in history, law, ministry, as well as a variety of administrative and service careers in Christian social service agencies, relief ministries, civil service and government agencies, and public administration.

Students interested in teaching History may earn an endorsement for Secondary Social Studies Licensure Program: B.A. History by completing the History major and the appropriate requirements of the School of Education.

The Bachelor of Arts in History requires completion of the following 120 credits:
General Education Core (48 credit hours)
History Major Core (33 credit hours)
Electives (39 credit hours)

General Education Requirements (48 credit hours)

Arts and Humanities (9 credit hours)

Take one course from each of the following three academic disciplines:

Fine Arts (3 credit hours)

Choose one course from the following:

HUM 120 - Introduction to the Arts

(3) Introduction to our humanity through hands-on experience in the arts (music, visual arts, poetry, story, play, and dance). Aesthetic and artistic values in the broader context of human cultural development, responsibility, and joy.

Notes: This course satisfies the general education fine arts requirement for most students, and is the required fine arts course for education majors. It is recommended for all students with a general interest in the fine arts. Students with a special interest in theatre should see THR 112. Students with a special interest in music should see MUS 110.

Note: HUM 120 does not satisfy the fine arts requirement for music majors or minors.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

MUS 110 - Musical Perspectives

(3) An exploration of music in the broader context of culture and the arts; personal musical experiences through listening and doing; and developing the ability to discern aesthetic excellence. Included is an introduction to the elements of music and how music works, the development of a Christian perspective on the arts, a broad survey of representative selections of Western music, and a focused overview of non-western/world music.

Notes: This course satisfies the general education fine arts requirement for most students. It is recommended for all students, especially those with an interest in music, and is the required fine arts course for all music majors and minors. Students with a special interest in Theatre should see THR 112.

Note: MUS 110 does not satisfy the fine arts requirement for education majors.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

THR 112 - Theatre Appreciation

(3) An introduction to the theatre world and all its aspects: the people who are active in that world, the many kinds of work that are created, the sensations and ideas we receive from those works, and the ways the life of theatre has transmitted across many times and place.

Notes: This course satisfies the general education fine arts requirement for most students. It is recommended for all students, especially those with an interest in theatre. Students with a special interest in music should see MUS 110.

Note: THR 112 does not satisfy the fine arts requirement for music majors or minors, or education majors.

When Offered

Fall and spring semesters.

Literature (3 credit hours)

Choose one course from the following:

ENG 201 - Introduction to Literature

(3) Understand, experience, and evaluate poetry, short fiction, essays, and drama genres, both American and multinational.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Fall and spring semesters.

ENG 202 - American Literature I

(3) Representative stories, poems, and documents in American literature from the Colonial era to the early Republic (1776-1830) through the Romantic-transcendentalist period (1830-1860). Includes readings from multiethnic and women writers.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every fall semester.

ENG 203 - American Literature II

(3) Representative stories, poems, and drama in American literature from the Civil War to the present. Nontraditional ethnic and women's voices included. Emphasis on interpretation and criticism of American literature.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every spring semester.

ENG 204 - British Literature I

(3) Surveys the history of literature in Britain until 1800 and representative works by influential writers of the periods contained therein.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every fall semester.

ENG 205 - British Literature II

(3) Surveys the history of literature in Britain from 1800 to the present and representative works by influential writers.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every spring semester.

Philosophy (3 credit hours)**PHL 202 - Introduction to Philosophy**

(3) This course is a survey of many major issues raised over the two-and-a-half millennia of western philosophy. With an emphasis on historical context and development, as well as philosophy's relationship to Christian thought, this course challenges students to critically explore philosophical questions and introduce them to the great tradition of intellectual inquiry. Special attention will be given to the subjects of truth and knowledge, reality and appearance, mind and body, right and wrong, beauty and the existence of God.

When Offered

Fall and summer semesters.

Biblical Studies (12 credit hours)

Take the following four courses (some courses are cross-listed and only one prefix needs to be taken):

BIB 111 - Old Testament

(3) This course provides an introduction to the theological, historical, and literary features of the Old Testament, tracing God's covenant relationship with ancient Israel. Special consideration will be given to the divine covenants and Messianic prophecies of the Old Testament.

When Offered

Every spring semester.

Cross-listed HIS 111

HIS 111 - Old Testament

(3) This course provides an introduction to the theological, historical, and literary features of the Old Testament, tracing God's covenant relationship with ancient Israel. Special consideration will be given to the divine covenants and Messianic prophecies of the Old Testament.

When Offered

Every spring semester.
Cross-listed BIB 111.

BIB 114 - New Testament

(3) This course provides an introduction to the theological, historical, and literary features of the New Testament, tracing the presentation of the gospel message through historical, epistolary, and apocalyptic genres. Special consideration will be given to the life of Christ and missionary journeys of the Apostle Paul.

When Offered

Every fall semester.
Cross-listed HUM 114

HUM 114 - New Testament

(3) This course provides an introduction to the theological, historical, and literary features of the New Testament, tracing the presentation of the gospel message through historical, epistolary, and apocalyptic genres. Special consideration will be given to the life of Christ and missionary journeys of the Apostle Paul.

When Offered

Every fall semester.
Cross-listed BIB 114.

PHL 315 - World Religions and Systems of Belief

(3) This course introduces an academic study of religion and what is called worldview, supplemented by an overview of some of the major tenets of Christianity; this is then followed by a survey of several other religious traditions and competing philosophies.

Prerequisites: PHL 202, THE 201.

When Offered

Winter and spring semesters.

THE 201 - Introduction to Theology

(3) This course covers basic issues, themes, and categories of Christian theology, including the doctrines of Scripture, God, humanity, Christ, salvation, the church, and last things. This course encourages students to better know, trust, love, and live by God's Word.

Prerequisites: BIB 111, BIB 114.

When Offered

Fall, winter, spring, and summer semesters.

Communication (6 credit hours)

COM 103 - Public Speaking

(3) Introductory principles of communication emphasizing public speaking. Aspects of verbal and nonverbal delivery, speech organization, and the effective use of supporting material and presentational aids are addressed. Students give several speeches designed to better equip them for future speaking endeavors

When Offered

Fall and spring semesters.

ENG 102 - English Composition

(3) Effective use of the English language and exploration of rhetorical modes in written composition. Review of structure, purpose, and audience awareness in developing essays.

Prerequisites: ACT and/or SAT scores will be used to determine placement in either ENG 102 or ENG 102 (Basic).

Notes: Course must be completed first semester at CCU.

When Offered

Fall and spring semester.

ENG 105 - Advanced English Composition

(3) Advanced English composition, research methods, and literary study for invited exceptional students. Focus on both the study of literature and research writing.

Prerequisites: One of the following:

- AP English Language and Composition
 - A score of 4 is the minimum prerequisite for enrollment in ENG 105. A student who scores a 4 or 5 will automatically enroll a student in ENG 105 instead of ENG 102 and/or ENG 201.
- AP English Literature and Composition
 - A score of 4 is the minimum prerequisite for enrollment in ENG 105. A student who scores a 4 or 5 will automatically enroll a student in ENG 105 instead of ENG 102 and/or ENG 201.
- Score of 30 or above on the verbal section of the ACT exam.
- Score of 700 or above on the verbal section of the SAT exam.
- By invitation of the English department.

Notes: Fulfills general education requirements for both ENG 102 and ENG 201.

When Offered

Every fall semester.

Integrative Studies (3 credit hours)

* Please see the First-Year Integration (FYI) page for specific information about this required course.

INT 101 - First-Year Integration

(3) Think critically, grow spiritually, and change the world. Based on the premise that we as Christians are called to be rational creatures, relational creatures, and responsible creatures, FYI is an integrative study of foundational Christian principles with other disciplines. Examination and discussion of problems and contemporary issues - academic, personal, and social - facing students in their pursuit of success in college and life. Please see the First-Year Integration (FYI) page for specific information about this required course.

When Offered

Fall and spring semesters.

Mathematics (3 credit hours)

MAT 112 - Mathematics for Liberal Arts

(3) This course introduces some of the important ideas in mathematics and how they can be applied in everyday life situations, solving a wide range of practical problems. Topics include sets, logic, history of numeration, number systems and their properties, number patterns, counting principles, probability, statistics, graph theory, personal finance, and voting methods.

Notes: Students with higher level mathematics skills (i.e. ACT MAT above 20 and SAT MATH above 520) are discouraged from taking this class. Only students who do not place into MAT 111 - College Algebra should enroll in MAT 112 - Mathematics for Liberal Arts.

When Offered

Fall, spring and summer semesters.

(or higher except for MAT 202 or MAT 302 - Teaching Mathematics in the Elementary Classroom)

Science (3 credit hours)

SCI 230 - Integrated Physical Science with Lab

(3) This is an integrated course presenting the major concepts, theoretical perspectives, historical trends, and empirical findings of the physical sciences. Laboratory exercises and lectures explore motion, the four forces, heat, energy, chemical reactions, the structure and development of matter, the types and nature of chemical bonding, and the nature and history of the universe, the solar system, and the Earth.

Lab/Lecture Hours

Laboratory investigations included in course.

Fee

Lab fees apply.

When Offered

Every semester.

Social Sciences (12 credit hours)

Take each of the following four courses:

ECO 215 - Economics

(3) Economics is about scarcity and choice. Students in this course study how people, firms, governments, and nations interact in alternative economic systems to make choices about allocating scarce resources. In addition, students learn to evaluate these systems, understand macroeconomic monetary and fiscal policies, and engage in policy debates.

When Offered

Fall and spring semesters.

HIS 185 - Western Civilization

(3) The spiritual values and intellectual achievements of ancient Israel, Greece, Rome, the Middle Ages, the Renaissance, and Reformation that gave birth to the modern world.

When Offered

Every fall semester.

HIS 205 - American History

(3) Principles of the founding and the political, economic, intellectual, cultural, and religious traditions that have shaped America.

When Offered

Every spring semester.

POL 207 - Introduction to American Politics

(3) Introduction to political science and American government to prepare students to be effective citizens.

When Offered

Every fall and spring semester.

History Major (33 credit hours)

Major Core (27 credit hours)

Required Core (15 credit hours)

HIS 186 - The Birth of the Modern World

(3) A study of the political, social, economic, intellectual, and religious developments in Europe from the 16th century and the impact of the West as it expanded its influence around the world.

When Offered

Every spring semester.

HIS 206 - The Making of Modern America

(3) This course centers on the development of America politically, socially, economically, and religiously from the Civil War Era to the 20th century.

When Offered

Odd fall semesters.

HIS 466 - Historiography

(3) An introduction to the art and science of historical research and writing with an emphasis on the history of historical thought, the methodology of doing history, and the philosophy of history including a Christian perspective.

Prerequisites: Junior or senior standing.

When Offered

Even fall semesters.

GLS 321 - The World at War (1900-1945)

(3) This course is designed for advanced students of history and global studies. Our modern culture is a product of the political, social, economic and ideological trends that developed in this period. This class begins with final days of the great European empires over 100 years ago and concludes with the end of World War II in 1945. The primary emphasis is to understand how democracy, individual freedom, human rights, and technological progress were nourished and propagated in spite of the resistance of traditional elites and the challenges of Communist and Fascist ideologies.

Prerequisites: Junior standing.

When Offered

Every fall semester.

GLS 322 - The World Since 1945

(3) Contemporary world history is vital to understanding the present world situation. We live in a vast network of political, social, economic, and religious beliefs that continuously affect our lives. To better understand this world as well as the perspectives of others we encounter, we must know the events of the last 50 years. These include: the Cold War, the disparity between rich and poor nations, and intellectual and spiritual issues of our present technological age.

Prerequisites: Junior standing.

When Offered

Every spring semester.

European History (6 credit hours)

Choose two of the following courses (6 credits):

HIS 313 - Ancient Mediterranean World

(3) The extraordinary transformations of the ancient Mediterranean world are examined from 2000 B.C. through the onset of the first century A.D. The ways in which the Aegean, Greek, and Roman civilizations shaped their world are examined along with their multiple contributions to the shaping of our world.

Prerequisites: HIS 185.

When Offered

Even fall semesters.

HIS 314 - Roman Empire and Medieval Europe

(3) A study of the shaping of the western world from the first century to the fifteenth century. Special emphasis is on the development of the Christian Church during this time period.

When Offered

Odd spring semesters.

HIS 315 - Early Modern Europe

(3) This course explores the individuals, events, and trends in Europe beginning with the fifteenth-century Italian Renaissance and its expansion into the rest of Europe. The Protestant Reformation and the resultant era of religious warfare are covered in detail, culminating with the Thirty Years' War in the early seventeenth century.

When Offered

Odd fall semesters.

HIS 317 - Modern Europe

(3) This course surveys the individuals, events, intellectual developments, and cultural trends influencing 17th, 18th, and 19th century Europe, starting with the Thirty Years' War to the end of Victorian Britain. This course explores trends in British and continental history alike, with special emphasis given to the English Civil War, the Glorious Revolution, the Enlightenment, the French Revolution, and the Industrial Revolution in Victorian Britain.

When Offered

Even spring semesters.

American History (6 credit hours)

Choose two of the following courses (6 credits):

HIS 303 - American Church History

(3) History of the Christian experience in America from the Colonial era to the present. Examination of the differences in theology and polity among the major denominations.

When Offered

Odd spring semesters.

HIS 340 - The American Civil War and Reconstruction

(3) Study of the causes, main events, and significance of the American Civil War. Emphasis on the historiography of this central event in American history.

When Offered

Even spring semesters.

HIS 360 - The American West

(3) Concentrated study of the history of the Trans-Mississippi West. The settling and social, economic and political development of this region. Attention to the Native Americans, Hispanics, Asians, and other ethnic groups who played a significant role in the West.

When Offered

Odd fall semesters.

HIS 365 - The American Founding

(3) This course examines the birth of the United States of America in the late eighteenth century and the transition from the British colonial experience to that of a federated union of states. Besides the political, cultural, and ethical issues involved in this transition, this course also explores the role of the Christian religion in the founding and establishment of the United States. To that end, this course examines the role that Christianity played in forming the social, legal, and political structures of American society, as well as explores in what sense America is or is not to be considered a Christian nation.

When Offered

Even fall semesters.

History Electives (6 credit hours)

Choose 6 credit hours from upper level (300 or above) courses with an HIS/POL/GLS prefix not already applied to requirements for the major (not including any credits received for Teaching Assistantships).

Graduation Requirements for Bachelor of Arts in History

The faculty recommends students in the B.A. in History to the Board of Trustees as candidates for graduation when they have completed the following requirements.

1. Completion of a total of 120 credits, including all general education, electives and History major program requirements.
2. A letter grade of D or better and a cumulative GPA of 2.0 or better in all CCU coursework, and a GPA of 2.0 or higher for all courses specified for the major.
3. Completion of 180 hours of ministry/community service and 180 chapel credits. Transfer students are required to complete 45 hours of ministry/community service and 45 chapel credits each year of attendance at CCU. For further details on ministry/community service, see the Life Directions Center (LDC) section of this catalog. For further details on chapel credits, see the Student Life section of this catalog.
4. Meet the CCU Residency requirements.
5. Acceptable performance on exit exams, as required by the faculty.
6. Formal and timely application for graduation by the date specified by the University Registrar.
7. No outstanding financial obligation to the University.

Liberal Arts Major

The Liberal Arts major is an interdisciplinary program of study designed to provide a broad exploration of the ideas, values, issues, and heritage of civilization. Students develop a broad understanding of the arts and sciences, their interrelationships, and their integration with Christian thought. The Liberal Arts major for teachers is appropriate for students working toward Elementary Education licensure (please see the School of Education's Elementary Licensure Program: B.A. Liberal Arts (CUS) for details). Non-education liberal arts majors must select an emphasis in either Communication, English, Global Studies, History, Politics, or Psychology.

The Bachelor of Arts in Liberal Arts requires completion of the following 120 credits:
General Education Core (48 credit hours)
Major Core (37 credit hours)
Electives (35 credit hours)

General Education Requirements (48 credit hours)

Arts and Humanities (9 credit hours)

Take one course from each of the following three academic disciplines:

Fine Arts (3 credit hours)

Choose one course from the following:

HUM 120 - Introduction to the Arts

(3) Introduction to our humanity through hands-on experience in the arts (music, visual arts, poetry, story, play, and dance). Aesthetic and artistic values in the broader context of human cultural development, responsibility, and joy.

Notes: This course satisfies the general education fine arts requirement for most students, and is the required fine arts course for education majors. It is recommended for all students with a general interest in the fine arts. Students with a special interest in theatre should see THR 112. Students with a special interest in music should see MUS 110.

Note: HUM 120 does not satisfy the fine arts requirement for music majors or minors.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

MUS 110 - Musical Perspectives

(3) An exploration of music in the broader context of culture and the arts; personal musical experiences through listening and doing; and developing the ability to discern aesthetic excellence. Included is an introduction to the elements of music and how music works, the development of a Christian perspective on the arts, a broad survey of representative selections of Western music, and a focused overview of non-western/world music.

Notes: This course satisfies the general education fine arts requirement for most students. It is recommended for all students, especially those with an interest in music, and is the required fine arts course for all music majors and minors. Students with a special interest in Theatre should see THR 112.

Note: MUS 110 does not satisfy the fine arts requirement for education majors.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

THR 112 - Theatre Appreciation

(3) An introduction to the theatre world and all its aspects: the people who are active in that world, the many kinds of work that are created, the sensations and ideas we receive from those works, and the ways the life of theatre has transmitted across many times and place.

Notes: This course satisfies the general education fine arts requirement for most students. It is recommended for all students, especially those with an interest in theatre. Students with a special interest in music should see MUS 110.

Note: THR 112 does not satisfy the fine arts requirement for music majors or minors, or education majors.

When Offered

Fall and spring semesters.

Literature (3 credit hours)

Choose one course from the following:

ENG 201 - Introduction to Literature

(3) Understand, experience, and evaluate poetry, short fiction, essays, and drama genres, both American and multinational.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Fall and spring semesters.

ENG 202 - American Literature I

(3) Representative stories, poems, and documents in American literature from the Colonial era to the early Republic (1776-1830) through the Romantic-transcendentalist period (1830-1860). Includes readings from multiethnic and women writers.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every fall semester.

ENG 203 - American Literature II

(3) Representative stories, poems, and drama in American literature from the Civil War to the present. Nontraditional ethnic and women's voices included. Emphasis on interpretation and criticism of American literature.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every spring semester.

ENG 204 - British Literature I

(3) Surveys the history of literature in Britain until 1800 and representative works by influential writers of the periods contained therein.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every fall semester.

ENG 205 - British Literature II

(3) Surveys the history of literature in Britain from 1800 to the present and representative works by influential writers.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every spring semester.

Philosophy (3 credit hours)**PHL 202 - Introduction to Philosophy**

(3) This course is a survey of many major issues raised over the two-and-a-half millennia of western philosophy. With an emphasis on historical context and development, as well as philosophy's relationship to Christian thought, this course challenges students to critically explore philosophical questions and introduce them to the great tradition of intellectual inquiry. Special attention will be given to the subjects of truth and knowledge, reality and appearance, mind and body, right and wrong, beauty and the existence of God.

When Offered

Fall and summer semesters.

Biblical Studies (12 credit hours)

Take the following four courses (some courses are cross-listed and only one prefix needs to be taken):

BIB 111 - Old Testament

(3) This course provides an introduction to the theological, historical, and literary features of the Old Testament, tracing God's covenant relationship with ancient Israel. Special consideration will be given to the divine covenants and Messianic prophecies of the Old Testament.

When Offered

Every spring semester.

Cross-listed HIS 111

HIS 111 - Old Testament

(3) This course provides an introduction to the theological, historical, and literary features of the Old Testament, tracing God's covenant relationship with ancient Israel. Special consideration will be given to the divine covenants and Messianic prophecies of the Old Testament.

When Offered

Every spring semester.
Cross-listed BIB 111.

BIB 114 - New Testament

(3) This course provides an introduction to the theological, historical, and literary features of the New Testament, tracing the presentation of the gospel message through historical, epistolary, and apocalyptic genres. Special consideration will be given to the life of Christ and missionary journeys of the Apostle Paul.

When Offered

Every fall semester.
Cross-listed HUM 114

HUM 114 - New Testament

(3) This course provides an introduction to the theological, historical, and literary features of the New Testament, tracing the presentation of the gospel message through historical, epistolary, and apocalyptic genres. Special consideration will be given to the life of Christ and missionary journeys of the Apostle Paul.

When Offered

Every fall semester.
Cross-listed BIB 114.

PHL 315 - World Religions and Systems of Belief

(3) This course introduces an academic study of religion and what is called worldview, supplemented by an overview of some of the major tenets of Christianity; this is then followed by a survey of several other religious traditions and competing philosophies.

Prerequisites: PHL 202, THE 201.

When Offered

Winter and spring semesters.

THE 201 - Introduction to Theology

(3) This course covers basic issues, themes, and categories of Christian theology, including the doctrines of Scripture, God, humanity, Christ, salvation, the church, and last things. This course encourages students to better know, trust, love, and live by God's Word.

Prerequisites: BIB 111, BIB 114.

When Offered

Fall, winter, spring, and summer semesters.

Communication (6 credit hours)

COM 103 - Public Speaking

(3) Introductory principles of communication emphasizing public speaking. Aspects of verbal and nonverbal delivery, speech organization, and the effective use of supporting material and presentational aids are addressed. Students give several speeches designed to better equip them for future speaking endeavors

When Offered

Fall and spring semesters.

ENG 102 - English Composition

(3) Effective use of the English language and exploration of rhetorical modes in written composition. Review of structure, purpose, and audience awareness in developing essays.

Prerequisites: ACT and/or SAT scores will be used to determine placement in either ENG 102 or ENG 102 (Basic).

Notes: Course must be completed first semester at CCU.

When Offered

Fall and spring semester.

ENG 105 - Advanced English Composition

(3) Advanced English composition, research methods, and literary study for invited exceptional students. Focus on both the study of literature and research writing.

Prerequisites: One of the following:

- AP English Language and Composition
 - A score of 4 is the minimum prerequisite for enrollment in ENG 105. A student who scores a 4 or 5 will automatically enroll a student in ENG 105 instead of ENG 102 and/or ENG 201.
- AP English Literature and Composition
 - A score of 4 is the minimum prerequisite for enrollment in ENG 105. A student who scores a 4 or 5 will automatically enroll a student in ENG 105 instead of ENG 102 and/or ENG 201.
- Score of 30 or above on the verbal section of the ACT exam.
- Score of 700 or above on the verbal section of the SAT exam.
- By invitation of the English department.

Notes: Fulfills general education requirements for both ENG 102 and ENG 201.

When Offered

Every fall semester.

Integrative Studies (3 credit hours)

* Please see the First-Year Integration (FYI) page for specific information about this required course.

INT 101 - First-Year Integration

(3) Think critically, grow spiritually, and change the world. Based on the premise that we as Christians are called to be rational creatures, relational creatures, and responsible creatures, FYI is an integrative study of foundational Christian principles with other disciplines. Examination and discussion of problems and contemporary issues - academic, personal, and social - facing students in their pursuit of success in college and life. Please see the First-Year Integration (FYI) page for specific information about this required course.

When Offered

Fall and spring semesters.

Mathematics (3 credit hours)

MAT 112 - Mathematics for Liberal Arts

(3) This course introduces some of the important ideas in mathematics and how they can be applied in everyday life situations, solving a wide range of practical problems. Topics include sets, logic, history of numeration, number systems and their properties, number patterns, counting principles, probability, statistics, graph theory, personal finance, and voting methods.

Notes: Students with higher level mathematics skills (i.e. ACT MAT above 20 and SAT MATH above 520) are discouraged from taking this class. Only students who do not place into MAT 111 - College Algebra should enroll in MAT 112 - Mathematics for Liberal Arts.

When Offered

Fall, spring and summer semesters.

(or higher except for MAT 202 or MAT 302 - Teaching Mathematics in the Elementary Classroom)

Science (3 credit hours)

SCI 230 - Integrated Physical Science with Lab

(3) This is an integrated course presenting the major concepts, theoretical perspectives, historical trends, and empirical findings of the physical sciences. Laboratory exercises and lectures explore motion, the four forces, heat, energy, chemical reactions, the structure and development of matter, the types and nature of chemical bonding, and the nature and history of the universe, the solar system, and the Earth.

Lab/Lecture Hours

Laboratory investigations included in course.

Fee

Lab fees apply.

When Offered

Every semester.

Social Sciences (12 credit hours)

Take each of the following four courses:

ECO 215 - Economics

(3) Economics is about scarcity and choice. Students in this course study how people, firms, governments, and nations interact in alternative economic systems to make choices about allocating scarce resources. In addition, students learn to evaluate these systems, understand macroeconomic monetary and fiscal policies, and engage in policy debates.

When Offered

Fall and spring semesters.

HIS 185 - Western Civilization

(3) The spiritual values and intellectual achievements of ancient Israel, Greece, Rome, the Middle Ages, the Renaissance, and Reformation that gave birth to the modern world.

When Offered

Every fall semester.

HIS 205 - American History

(3) Principles of the founding and the political, economic, intellectual, cultural, and religious traditions that have shaped America.

When Offered

Every spring semester.

POL 207 - Introduction to American Politics

(3) Introduction to political science and American government to prepare students to be effective citizens.

When Offered

Every fall and spring semester.

Liberal Arts Major Core (37 credit hours)

Required Liberal Arts Core (18 credit hours)

BIB 230 - Interpreting the Bible

(3) This course provides an orientation to the Bible, hermeneutics, and exegetical practices. Exploration in the field of biblical studies will include the formation, preservation, and translation of the Bible.

Prerequisites: BIB 111 or HIS 111, BIB 114 or HUM 114, (ENG 104 is recommended).

When Offered

Fall and spring semesters.

BUS 101 - Introduction to Business, Management and Ethics

(3) Students learn fundamental business topics that prepares them to be successful in the exciting world of business and non-profit organizations. Students gain foundations in functional areas (accounting, finance, management, marketing, and technology) and operating environments common to every organization. This course is engaging and transformational, whether one is just starting out or already an avid student of business.

When Offered

Fall and spring semesters.

Cross-listed MGT 101

GLS 203 - Introduction to Global Studies

(3) Relationships between sovereign states in the global community; concepts of national interests, goals of foreign policies; interactions between nation-states and the resolution of international conflicts; geography and geopolitics; the first, second, and third worlds; and current affairs and controversial issues.

When Offered

Every fall semester.

POL 210 - Christian Political Thought

(3) This course examines contemporary expressions of Christian political thought as well as the thought of leading Christian thinkers from the Western Christian political tradition by comparing their respective claims with biblical revelation. Students will conclude the course by applying their own views to contemporary issues.

When Offered

Even spring semesters.

PSY 201 - Social Psychology

(3) An overarching theme for the CCU Psychology program is that we are, at our core, relational persons. No area of psychology exemplifies this more consistently than social psychology. This course focuses on the powerful influence that groups can have on individuals, as well as evidence that humans are strongly motivated to seek relationships with others.

When Offered

Every spring semester.

Choose one course (3 credit hours) from the following not already applied to the General Education Literature requirement:

ENG 202 - American Literature I

(3) Representative stories, poems, and documents in American literature from the Colonial era to the early Republic (1776-1830) through the Romantic-transcendentalist period (1830-1860). Includes readings from multiethnic and women writers.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every fall semester.

ENG 203 - American Literature II

(3) Representative stories, poems, and drama in American literature from the Civil War to the present. Nontraditional ethnic and women's voices included. Emphasis on interpretation and criticism of American literature.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every spring semester.

ENG 204 - British Literature I

(3) Surveys the history of literature in Britain until 1800 and representative works by influential writers of the periods contained therein.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every fall semester.

ENG 205 - British Literature II

(3) Surveys the history of literature in Britain from 1800 to the present and representative works by influential writers.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every spring semester.

Additional Upper level Course (3 credit hours)

Choose one three-credit upper level course (300 or above) from any subject area listed under the Required Liberal Arts Emphasis below. This upper level course prefix may or may not be in the chosen emphasis.

Lab Science Core (4 credit hours)

Choose any lab science with a BIO, CHM, or PHY prefix.

Required Liberal Arts Emphasis (12 credit hours)

Choose an emphasis in one of the following subject areas:

- Communication
- English
- Global Studies
- History
- Politics
- Psychology
- Reading (limited to former School of Education students)
- Science

Select 12 credit hours within the selected subject area. A minimum of 9 credit hours must be from upper level (300 or above) courses. Courses may not overlap course requirements listed under Required Liberal Arts Core or Lab Science Core. All courses within the emphasis must be from the same prefix (e.g. ENG for an emphasis in English). Courses in the Science emphasis may be a combination of BIO, CHM, or PHY prefixes. Credit received from Teaching Assistantships does not count toward the required liberal arts emphasis.

Graduation Requirements for Bachelor of Arts in Liberal Arts

The faculty recommends students in the B.A. in Liberal Arts to the Board of Trustees as candidates for graduation when they have completed the following requirements.

1. Completion of a total of 120 credits, including all general education, electives and Liberal Arts major program requirements.
2. A letter grade of D or better and a cumulative GPA of 2.0 or better in all CCU coursework, and a GPA of 2.0 or higher for all courses specified for the major.
3. Completion of 180 hours of ministry/community service and 180 chapel credits. Transfer students are required to complete 45 hours of ministry/community service and 45 chapel credits each year of attendance at CCU. For further details on ministry/community service, see the Life Directions Center (LDC) section of this catalog. For further details on chapel credits, see the Student Life section of this catalog.
4. Meet the CCU Residency requirements.
5. Acceptable performance on exit exams, as required by the faculty.
6. Formal and timely application for graduation by the date specified by the University Registrar.
7. No outstanding financial obligation to the University.

Politics Major

The vision of the Colorado Christian University Politics department is to form graduates who will think as free Christians, live as responsible citizens of our Republic, and embark on a lifetime task of statesmanship. To implement this vision, the Politics program educates Christian students in a broad understanding of the art and science of politics, based on a biblical foundation and worldview; trains them to apply biblical knowledge, Christian virtues, and ethical principles to politics; and helps them to develop entry-level professional skills necessary for success in politics and related fields.

The study of Politics at Colorado Christian University deliberately combines philosophic breadth and theological insight with practical relevance. Students explore human nature and ethics along with political and economic power and history. They are led to grapple with the meaning and significance of the American Founding, with the relation of virtue and liberty to the rule of law and human happiness, with America's role in the world, and with the current political landscape.

The Politics major at Colorado Christian University is designed to prepare students for a number of careers, including those of public service, justice, and political consulting. Students will also be prepared for graduate school or law school. The major doubles easily with other majors such as Business, Communications, Global Studies, History, or Psychology.

The Bachelor of Arts in Politics requires completion of the following 120 credits:

General Education Core (48 credit hours)

Politics Major Core (36 credit hours)

Electives (36 credit hours)

General Education Requirements (48 credit hours)

Arts and Humanities (9 credit hours)

Take one course from each of the following three academic disciplines:

Fine Arts (3 credit hours)

Choose one course from the following:

HUM 120 - Introduction to the Arts

(3) Introduction to our humanity through hands-on experience in the arts (music, visual arts, poetry, story, play, and dance). Aesthetic and artistic values in the broader context of human cultural development, responsibility, and joy.

Notes: This course satisfies the general education fine arts requirement for most students, and is the required fine arts course for education majors. It is recommended for all students with a general interest in the fine arts. Students with a special interest in theatre should see THR 112. Students with a special interest in music should see MUS 110.

Note: HUM 120 does not satisfy the fine arts requirement for music majors or minors.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

MUS 110 - Musical Perspectives

(3) An exploration of music in the broader context of culture and the arts; personal musical experiences through listening and doing; and developing the ability to discern aesthetic excellence. Included is an introduction to the elements of music and how music works, the development of a Christian perspective on the arts, a broad survey of representative selections of Western music, and a focused overview of non-western/world music.

Notes: This course satisfies the general education fine arts requirement for most students. It is recommended for all students, especially those with an interest in music, and is the required fine arts course for all music majors and minors. Students with a special interest in Theatre should see THR 112.

Note: MUS 110 does not satisfy the fine arts requirement for education majors.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

THR 112 - Theatre Appreciation

(3) An introduction to the theatre world and all its aspects: the people who are active in that world, the many kinds of work that are created, the sensations and ideas we receive from those works, and the ways the life of theatre has transmitted across many times and place.

Notes: This course satisfies the general education fine arts requirement for most students. It is recommended for all students, especially those with an interest in theatre. Students with a special interest in music should see MUS 110.

Note: THR 112 does not satisfy the fine arts requirement for music majors or minors, or education majors.

When Offered

Fall and spring semesters.

Literature (3 credit hours)

Choose one course from the following:

ENG 201 - Introduction to Literature

(3) Understand, experience, and evaluate poetry, short fiction, essays, and drama genres, both American and multinational.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Fall and spring semesters.

ENG 202 - American Literature I

(3) Representative stories, poems, and documents in American literature from the Colonial era to the early Republic (1776-1830) through the Romantic-transcendentalist period (1830-1860). Includes readings from multiethnic and women writers.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every fall semester.

ENG 203 - American Literature II

(3) Representative stories, poems, and drama in American literature from the Civil War to the present. Nontraditional ethnic and women's voices included. Emphasis on interpretation and criticism of American literature.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every spring semester.

ENG 204 - British Literature I

(3) Surveys the history of literature in Britain until 1800 and representative works by influential writers of the periods contained therein.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every fall semester.

ENG 205 - British Literature II

(3) Surveys the history of literature in Britain from 1800 to the present and representative works by influential writers.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every spring semester.

Philosophy (3 credit hours)

PHL 202 - Introduction to Philosophy

(3) This course is a survey of many major issues raised over the two-and-a-half millennia of western philosophy. With an emphasis on historical context and development, as well as philosophy's relationship to Christian thought, this course challenges students to critically explore philosophical questions and introduce them to the great tradition of intellectual inquiry. Special attention will be given to the subjects of truth and knowledge, reality and appearance, mind and body, right and wrong, beauty and the existence of God.

When Offered

Fall and summer semesters.

Biblical Studies (12 credit hours)

Take the following four courses (some courses are cross-listed and only one prefix needs to be taken):

BIB 111 - Old Testament

(3) This course provides an introduction to the theological, historical, and literary features of the Old Testament, tracing God's covenant relationship with ancient Israel. Special consideration will be given to the divine covenants and Messianic prophecies of the Old Testament.

When Offered

Every spring semester.

Cross-listed HIS 111

HIS 111 - Old Testament

(3) This course provides an introduction to the theological, historical, and literary features of the Old Testament, tracing God's covenant relationship with ancient Israel. Special consideration will be given to the divine covenants and Messianic prophecies of the Old Testament.

When Offered

Every spring semester.

Cross-listed BIB 111.

BIB 114 - New Testament

(3) This course provides an introduction to the theological, historical, and literary features of the New Testament, tracing the presentation of the gospel message through historical, epistolary, and apocalyptic genres. Special consideration will be given to the life of Christ and missionary journeys of the Apostle Paul.

When Offered

Every fall semester.

Cross-listed HUM 114

HUM 114 - New Testament

(3) This course provides an introduction to the theological, historical, and literary features of the New Testament, tracing the presentation of the gospel message through historical, epistolary, and apocalyptic genres. Special consideration will be given to the life of Christ and missionary journeys of the Apostle Paul.

When Offered

Every fall semester.
Cross-listed BIB 114.

PHL 315 - World Religions and Systems of Belief

(3) This course introduces an academic study of religion and what is called worldview, supplemented by an overview of some of the major tenets of Christianity; this is then followed by a survey of several other religious traditions and competing philosophies.

Prerequisites: PHL 202, THE 201.

When Offered

Winter and spring semesters.

THE 201 - Introduction to Theology

(3) This course covers basic issues, themes, and categories of Christian theology, including the doctrines of Scripture, God, humanity, Christ, salvation, the church, and last things. This course encourages students to better know, trust, love, and live by God's Word.

Prerequisites: BIB 111, BIB 114.

When Offered

Fall, winter, spring, and summer semesters.

Communication (6 credit hours)

COM 103 - Public Speaking

(3) Introductory principles of communication emphasizing public speaking. Aspects of verbal and nonverbal delivery, speech organization, and the effective use of supporting material and presentational aids are addressed. Students give several speeches designed to better equip them for future speaking endeavors

When Offered

Fall and spring semesters.

ENG 102 - English Composition

(3) Effective use of the English language and exploration of rhetorical modes in written composition. Review of structure, purpose, and audience awareness in developing essays.

Prerequisites: ACT and/or SAT scores will be used to determine placement in either ENG 102 or ENG 102 (Basic).

Notes: Course must be completed first semester at CCU.

When Offered

Fall and spring semester.

ENG 105 - Advanced English Composition

(3) Advanced English composition, research methods, and literary study for invited exceptional students. Focus on both the study of literature and research writing.

Prerequisites: One of the following:

- AP English Language and Composition
 - A score of 4 is the minimum prerequisite for enrollment in ENG 105. A student who scores a 4 or 5 will automatically enroll a student in ENG 105 instead of ENG 102 and/or ENG 201.
- AP English Literature and Composition
 - A score of 4 is the minimum prerequisite for enrollment in ENG 105. A student who scores a 4 or 5 will automatically enroll a student in ENG 105 instead of ENG 102 and/or ENG 201.
- Score of 30 or above on the verbal section of the ACT exam.
- Score of 700 or above on the verbal section of the SAT exam.
- By invitation of the English department.

Notes: Fulfills general education requirements for both ENG 102 and ENG 201.

When Offered

Every fall semester.

Integrative Studies (3 credit hours)

Please see the First-Year Integration (FYI) page for specific information about this required course.

INT 101 - First-Year Integration

(3) Think critically, grow spiritually, and change the world. Based on the premise that we as Christians are called to be rational creatures, relational creatures, and responsible creatures, FYI is an integrative study of foundational Christian principles with other disciplines. Examination and discussion of problems and contemporary issues - academic, personal, and social - facing students in their pursuit of success in college and life. Please see the First-Year Integration (FYI) page for specific information about this required course.

When Offered

Fall and spring semesters.

Mathematics (3 credit hours)

MAT 212 - Statistics and their Application

(3) An introduction to statistical analysis as used in various liberal arts disciplines. Descriptive and inferential statistics and attendant research designs will be considered. Students will become familiar with SPSS and its use in analyzing data and decision making.

Prerequisites: Sophomore standing.

When Offered

Fall and spring semesters.

Science (3 credit hours)

SCI 230 - Integrated Physical Science with Lab

(3) This is an integrated course presenting the major concepts, theoretical perspectives, historical trends, and empirical findings of the physical sciences. Laboratory exercises and lectures explore motion, the four forces, heat, energy, chemical reactions, the structure and development of matter, the types and nature of chemical bonding, and the nature and history of the universe, the solar system, and the Earth.

Lab/Lecture Hours

Laboratory investigations included in course.

Fee

Lab fees apply.

When Offered

Every semester.

Social Sciences (12 credit hours)

Take each of the following four courses:

ECO 215 - Economics

(3) Economics is about scarcity and choice. Students in this course study how people, firms, governments, and nations interact in alternative economic systems to make choices about allocating scarce resources. In addition, students learn to evaluate these systems, understand macroeconomic monetary and fiscal policies, and engage in policy debates.

When Offered

Fall and spring semesters.

HIS 185 - Western Civilization

(3) The spiritual values and intellectual achievements of ancient Israel, Greece, Rome, the Middle Ages, the Renaissance, and Reformation that gave birth to the modern world.

When Offered

Every fall semester.

HIS 205 - American History

(3) Principles of the founding and the political, economic, intellectual, cultural, and religious traditions that have shaped America.

When Offered

Every spring semester.

POL 207 - Introduction to American Politics

(3) Introduction to political science and American government to prepare students to be effective citizens.

When Offered

Every fall and spring semester.

Politics Major Courses (36 credit hours)

Politics Core (30 credit hours)

POL 210 - Christian Political Thought

(3) This course examines contemporary expressions of Christian political thought as well as the thought of leading Christian thinkers from the Western Christian political tradition by comparing their respective claims with biblical revelation. Students will conclude the course by applying their own views to contemporary issues.

When Offered

Even spring semesters.

POL 233 - World Politics

(3) This course introduces students to the theories and key concepts of international relations and to comparative political and economic systems.

When Offered

Every fall semester.

POL 301 - Political Economy

(3) This course provides an overview of the intersection of politics and economics, particularly in macroeconomics, fiscal and monetary policy; also explores comparative economic systems, free markets and trade. Students will also engage and integrate the subject matter themes with concepts of political theory, such as justice, freedom, property ownership, and stewardship.

Prerequisites: ECO 215; POL 207 or POL 233.

When Offered

Every fall semester.

POL 320 - Classical Political Philosophy

(3) This course presents the major themes in classical political philosophy, providing students a foundation upon which they can begin to understand the great divide (as well as the recurring problems) between classical and modern political thought. The course will focus on philosophic writings of Plato and Aristotle, as well as other select, significant writings of classical political philosophy.

Prerequisites: POL 207.

When Offered

Even fall semesters.

POL 321 - Modern Political Philosophy

(3) Students examine modern political philosophy, ranging from Machiavelli to social contract theorists such as Hobbes, Locke, and Rousseau. This course analyzes modern theorists who argue that political right is grounded in history, or will, such as Kant, Hegel, and Marx. The question of political legitimacy runs throughout the course, "Is any form of political rule legitimate, and if so, why?"

Prerequisites: POL 207.

When Offered

Odd fall semesters.

POL 324 - Foreign Policy and Diplomacy

(3) This course examines the history of U.S. foreign policy; foreign policy processes and theories; key global organizations; and comparative foreign policies of world powers.

Prerequisites: POL 233.

When Offered

Every spring semester.

POL 462 - Congress and the Presidency

(3) This course examines executive power and the Constitutional design and purpose of the United States Presidency. Additionally, the nature of legislative power and its institutionalization in the House of Representatives and Senate under the Constitution is examined. Extensive consideration is given to the shift in power from Congress to the President and how this relates to the Constitution.

Prerequisites: POL 207.

When Offered

Even spring semesters.

POL 463 - Supreme Court and Constitutional Law

(3) A study of the historical development of the Supreme Court and select constitutional cases from the American founding to the present. Emphasis is placed on landmark court cases, as well as the evolving place of the Supreme Court within the American political system.

Prerequisites: POL 207.

When Offered

Even fall semesters.

POL 472 - Seminar in Politics

(3) This seminar provides a variety of political topics for analysis and discussion, such as terrorism, human trafficking, or film and politics.

Prerequisites: POL 207; Junior or Senior standing.

Notes: May be repeated for credit with a maximum of six credit hours applied toward the major.

When Offered

Every spring semester.

POL 489 - Senior Seminar

(3) This course explores the political thought and actions of a number of prominent national and international statesmen. Students consider the meaning of statesmanship and the national and international implications attendant to proper governance.

Prerequisites: Junior or Senior Standing.

When Offered

Every odd spring semester.

Politics Electives (6 credit hours)

Choose 6 credit hours from the following courses:

POL 304 - Public Administration

(3) This course introduces and develops the concepts, nature and scope of public service in state and local government; examines the role of government in modern society, and practical and ethical issues in public service.

Prerequisites: POL 207.

When Offered

Odd spring semesters.

POL 378 - Washington Week

(3) Students from diverse majors spend a week in Washington, D.C. focused on the workings of the federal government, public policy think tanks, and current issues facing the nation. Students hear directly from some of the nation's most important experts in policy areas ranging from domestic concerns to international relations. This course may substitute for

a major course or general education course.

Fee

Travel fees apply.

When Offered

Even spring semesters.

POL 381 - American Political Rhetoric

(3) This course examines the history of American political thought with particular attention paid to the historical context and rhetorical dimension of each work in order to grasp the universal claims and historical particulars embedded within our American political tradition.

Prerequisites: POL 207 or POL 210.

When Offered

Odd fall semesters.

POL 401 - Political Parties and Elections

(3) This course analyzes the history, philosophy, organization and functioning of America's political parties. Explores the mechanics of the electoral process including issue formation and campaign strategy, organization development, redistricting, polling, and campaign financing.

Prerequisites: POL 207.

When Offered

Even fall semesters.

POL 472 - Seminar in Politics

(3) This seminar provides a variety of political topics for analysis and discussion, such as terrorism, human trafficking, or film and politics.

Prerequisites: POL 207; Junior or Senior standing.

Notes: May be repeated for credit with a maximum of six credit hours applied toward the major.

When Offered

Every spring semester.

Graduation Requirements for Bachelor of Arts in Politics

The faculty recommends students in the B.A. in Politics to the Board of Trustees as candidates for graduation when they have completed the following requirements.

1. Completion of a total of 120 credits, including all general education, electives and Politics major program requirements.
2. A letter grade of D or better and a cumulative GPA of 2.0 or better in all CCU coursework, and a GPA of 2.0 or higher for all courses specified for the major.
3. Completion of 180 hours of ministry/community service and 180 chapel credits. Transfer students are required to complete 45 hours of ministry/community service and 45 chapel credits each year of attendance at CCU. For further details on ministry/community service, see the Life Directions Center (LDC) section of this catalog. For further details on chapel credits, see the Student Life section of this catalog.
4. Meet the CCU Residency requirements.
5. Acceptable performance on exit exams, as required by the faculty.
6. Formal and timely application for graduation by the date specified by the University Registrar.
7. No outstanding financial obligation to the University.

Psychology Major

The Psychology major within the College of Undergraduate Studies (CUS) seeks to develop students who can live out their faith within the context of the discipline of psychology. Classroom instruction and experiences focus not only on the content of psychology (theoretical and experimental psychology), but also on the character development of our students challenging them to engage in personal spiritual formation which quite naturally impacts how they understand psychology. This mixture of classes allows our students to understand, test, and apply current psychological theories within their personal lives and real situations. The emphasis in the psychology major is to equip our students to think critically about current psychological theories, principles, and research through the lens of foundational Christian beliefs.

The Psychology major prepares students for careers in psychology and related fields. At the bachelor's level, several job options exist for graduates in psychology, such as paraprofessionals in clinics, hospitals and schools, case workers in social service, and staff in church and parachurch ministries. Those intending to practice psychology professionally, however, will need graduate-level training toward the master's degree or the doctorate. The undergraduate program develops a broad-based education that creates a deeper understanding of human functioning and equips students to succeed in graduate school. Elective courses allow students to "round out" their studies to prepare not only for graduate training but to enter life with key relational, spiritual, and emotional competencies.

In collaboration with the College of Adult and Graduate Studies (CAGS), students majoring in Psychology can opt for one of three emphases:

- B.A. Psychology with an Emphasis in Biblical Studies
- B.A. Psychology with an Emphasis in Clinical Counseling
- B.A. Psychology with an Emphasis in Criminal Justice

Students who choose one of the emphases above earn their Psychology major in their first three years in CCU's Dual Degree programs, and have 12 graduate-level credit hours that can be applied toward a master's degree in CAGS. Additional information on the Psychology Dual Degree program is below.

The Bachelor of Arts in Psychology (CUS) requires completion of the following 120 credits:

General Education Core (48 credit hours)

Psychology Major Required Core (30 credit hours)

Psychology Major Electives Core (6 credit hours)

General Electives (36 credit hours)

General Education Requirements (48 credit hours)

Arts and Humanities (9 credit hours)

Take one course from each of the following three academic disciplines:

Fine Arts (3 credit hours)

Choose one course from the following:

HUM 120 - Introduction to the Arts

(3) Introduction to our humanity through hands-on experience in the arts (music, visual arts, poetry, story, play, and dance). Aesthetic and artistic values in the broader context of human cultural development, responsibility, and joy.

Notes: This course satisfies the general education fine arts requirement for most students, and is the required fine arts course for education majors. It is recommended for all students with a general interest in the fine arts. Students with a special interest in theatre should see THR 112. Students with a special interest in music should see MUS 110.

Note: HUM 120 does not satisfy the fine arts requirement for music majors or minors.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

MUS 110 - Musical Perspectives

(3) An exploration of music in the broader context of culture and the arts; personal musical experiences through listening and doing; and developing the ability to discern aesthetic excellence. Included is an introduction to the elements of music and how music works, the development of a Christian perspective on the arts, a broad survey of representative selections of Western music, and a focused overview of non-western/world music.

Notes: This course satisfies the general education fine arts requirement for most students. It is recommended for all students, especially those with an interest in music, and is the required fine arts course for all music majors and minors. Students with a special interest in Theatre should see THR 112.

Note: MUS 110 does not satisfy the fine arts requirement for education majors.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

THR 112 - Theatre Appreciation

(3) An introduction to the theatre world and all its aspects: the people who are active in that world, the many kinds of work that are created, the sensations and ideas we receive from those works, and the ways the life of theatre has transmitted across many times and place.

Notes: This course satisfies the general education fine arts requirement for most students. It is recommended for all students, especially those with an interest in theatre. Students with a special interest in music should see MUS 110.

Note: THR 112 does not satisfy the fine arts requirement for music majors or minors, or education majors.

When Offered

Fall and spring semesters.

Literature (3 credit hours)

Choose one course from the following:

ENG 201 - Introduction to Literature

(3) Understand, experience, and evaluate poetry, short fiction, essays, and drama genres, both American and multinational.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Fall and spring semesters.

ENG 202 - American Literature I

(3) Representative stories, poems, and documents in American literature from the Colonial era to the early Republic (1776-1830) through the Romantic-transcendentalist period (1830-1860). Includes readings from multiethnic and women writers.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every fall semester.

ENG 203 - American Literature II

(3) Representative stories, poems, and drama in American literature from the Civil War to the present. Nontraditional ethnic and women's voices included. Emphasis on interpretation and criticism of American literature.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every spring semester.

ENG 204 - British Literature I

(3) Surveys the history of literature in Britain until 1800 and representative works by influential writers of the periods contained therein.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every fall semester.

ENG 205 - British Literature II

(3) Surveys the history of literature in Britain from 1800 to the present and representative works by influential writers.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every spring semester.

Philosophy (3 credit hours)

PHL 202 - Introduction to Philosophy

(3) This course is a survey of many major issues raised over the two-and-a-half millennia of western philosophy. With an emphasis on historical context and development, as well as philosophy's relationship to Christian thought, this course challenges students to critically explore philosophical questions and introduce them to the great tradition of intellectual inquiry. Special attention will be given to the subjects of truth and knowledge, reality and appearance, mind and body, right and wrong, beauty and the existence of God.

When Offered

Fall and summer semesters.

Biblical Studies (12 credit hours)

Take the following four courses (some courses are cross-listed and only one prefix needs to be taken):

BIB 111 - Old Testament

(3) This course provides an introduction to the theological, historical, and literary features of the Old Testament, tracing God's covenant relationship with ancient Israel. Special consideration will be given to the divine covenants and Messianic prophecies of the Old Testament.

When Offered

Every spring semester.

Cross-listed HIS 111

HIS 111 - Old Testament

(3) This course provides an introduction to the theological, historical, and literary features of the Old Testament, tracing God's covenant relationship with ancient Israel. Special consideration will be given to the divine covenants and Messianic prophecies of the Old Testament.

When Offered

Every spring semester.

Cross-listed BIB 111.

BIB 114 - New Testament

(3) This course provides an introduction to the theological, historical, and literary features of the New Testament, tracing the presentation of the gospel message through historical, epistolary, and apocalyptic genres. Special consideration will be given to the life of Christ and missionary journeys of the Apostle Paul.

When Offered

Every fall semester.

Cross-listed HUM 114

HUM 114 - New Testament

(3) This course provides an introduction to the theological, historical, and literary features of the New Testament, tracing the presentation of the gospel message through historical, epistolary, and apocalyptic genres. Special consideration will be given to the life of Christ and missionary journeys of the Apostle Paul.

When Offered

Every fall semester.

Cross-listed BIB 114.

PHL 315 - World Religions and Systems of Belief

(3) This course introduces an academic study of religion and what is called worldview, supplemented by an overview of some of the major tenets of Christianity; this is then followed by a survey of several other religious traditions and competing philosophies.

Prerequisites: PHL 202, THE 201.

When Offered

Winter and spring semesters.

THE 201 - Introduction to Theology

(3) This course covers basic issues, themes, and categories of Christian theology, including the doctrines of Scripture, God, humanity, Christ, salvation, the church, and last things. This course encourages students to better know, trust, love, and live by God's Word.

Prerequisites: BIB 111, BIB 114.

When Offered

Fall, winter, spring, and summer semesters.

Communication (6 credit hours)

COM 103 - Public Speaking

(3) Introductory principles of communication emphasizing public speaking. Aspects of verbal and nonverbal delivery, speech organization, and the effective use of supporting material and presentational aids are addressed. Students give several speeches designed to better equip them for future speaking endeavors

When Offered

Fall and spring semesters.

ENG 102 - English Composition

(3) Effective use of the English language and exploration of rhetorical modes in written composition. Review of structure, purpose, and audience awareness in developing essays.

Prerequisites: ACT and/or SAT scores will be used to determine placement in either ENG 102 or ENG 102 (Basic).

Notes: Course must be completed first semester at CCU.

When Offered

Fall and spring semester.

ENG 105 - Advanced English Composition

(3) Advanced English composition, research methods, and literary study for invited exceptional students. Focus on both the study of literature and research writing.

Prerequisites: One of the following:

- AP English Language and Composition
 - A score of 4 is the minimum prerequisite for enrollment in ENG 105. A student who scores a 4 or 5 will automatically enroll a student in ENG 105 instead of ENG 102 and/or ENG 201.
- AP English Literature and Composition
 - A score of 4 is the minimum prerequisite for enrollment in ENG 105. A student who scores a 4 or 5 will automatically enroll a student in ENG 105 instead of ENG 102 and/or ENG 201.
- Score of 30 or above on the verbal section of the ACT exam.
- Score of 700 or above on the verbal section of the SAT exam.
- By invitation of the English department.

Notes: Fulfills general education requirements for both ENG 102 and ENG 201.

When Offered

Every fall semester.

Integrative Studies (3 credit hours)

Please see the First-Year Integration (FYI) page for specific information about this required course.

INT 101 - First-Year Integration

(3) Think critically, grow spiritually, and change the world. Based on the premise that we as Christians are called to be rational creatures, relational creatures, and responsible creatures, FYI is an integrative study of foundational Christian principles with other disciplines. Examination and discussion of problems and contemporary issues - academic, personal, and social - facing students in their pursuit of success in college and life. Please see the First-Year Integration (FYI) page for specific information about this required course.

When Offered

Fall and spring semesters.

Mathematics (3 credit hours)

MAT 212 - Statistics and their Application

(3) An introduction to statistical analysis as used in various liberal arts disciplines. Descriptive and inferential statistics and attendant research designs will be considered. Students will become familiar with SPSS and its use in analyzing data and decision making.

Prerequisites: Sophomore standing.

When Offered

Fall and spring semesters.

Science (3 credit hours)

SCI 230 - Integrated Physical Science with Lab

(3) This is an integrated course presenting the major concepts, theoretical perspectives, historical trends, and empirical findings of the physical sciences. Laboratory exercises and lectures explore motion, the four forces, heat, energy, chemical reactions, the structure and development of matter, the types and nature of chemical bonding, and the nature and history of the universe, the solar system, and the Earth.

Lab/Lecture Hours

Laboratory investigations included in course.

Fee

Lab fees apply.

When Offered

Every semester.

Social Sciences (12 credit hours)

Take each of the following four courses:

ECO 215 - Economics

(3) Economics is about scarcity and choice. Students in this course study how people, firms, governments, and nations interact in alternative economic systems to make choices about allocating scarce resources. In addition, students learn to evaluate these systems, understand macroeconomic monetary and fiscal policies, and engage in policy debates.

When Offered

Fall and spring semesters.

HIS 185 - Western Civilization

(3) The spiritual values and intellectual achievements of ancient Israel, Greece, Rome, the Middle Ages, the Renaissance, and Reformation that gave birth to the modern world.

When Offered

Every fall semester.

HIS 205 - American History

(3) Principles of the founding and the political, economic, intellectual, cultural, and religious traditions that have shaped America.

When Offered

Every spring semester.

POL 207 - Introduction to American Politics

(3) Introduction to political science and American government to prepare students to be effective citizens.

When Offered

Every fall and spring semester.

Psychology Major (36 credit hours)

Required Core (30 credit hours)

PSY 101 - Introduction to Psychology

(3) This course provides an overview of the field of psychology, including psychological principles, methods, theories, and research broadly applied to various domains within the discipline. This course will equip students to understand the theoretical and philosophical foundations of contemporary psychology in light of a Christian worldview, and proposes an integrated framework from which to approach psychology and their Christian faith.

When Offered

Every fall and spring semesters.

PSY 201 - Social Psychology

(3) An overarching theme for the CCU Psychology program is that we are, at our core, relational persons. No area of psychology exemplifies this more consistently than social psychology. This course focuses on the powerful influence that groups can have on individuals, as well as evidence that humans are strongly motivated to seek relationships with others.

When Offered

Every spring semester.

PSY 245 - Life-Span Psychology

(3) The pattern of human development shows certain goals and tasks that are almost universal across persons, yet each of us is differently shaped by our experiences and our genetics. In this course, we explore how much and in what ways people change and compare the various theories with a Christian understanding of the direction of development.

When Offered

Every fall semester.

PSY 231 - Transformational Psychology

(3) Transformational psychology seeks to develop the kind of person-scientist by the spiritual disciplines, which encourages and protects the methodology of doing science in God in order to produce a body of knowledge of the person, leading to the fruit of praxis of soul care and the transformation and training of the scientist/therapist/psychologist in the love of God and neighbor.

Prerequisites: PSY 101.

When Offered

Every fall and spring semesters.

PSY 301 - Theories of Personality

(3) This course provides a critique of personality theories based on the key themes of the psychology program and provides some direction for Christians grappling with alternatives to the "standard" personality models in psychology.

Prerequisites: PSY 101; PSY 201 or PSY 245.

When Offered

Every fall semester.

PSY 302 - Abnormal Psychology

(3) This course focuses on the difficulty in defining both normality and psychological disorder, and on how God views individuals with such conditions. We also explore how we can determine whether mental disorders should be considered spiritual, biological, social, or willful problems of living.

Prerequisites: PSY 101, PSY 201 or PSY 245.

When Offered

Every fall semester.

PSY 330 - Human Sexuality and Personhood

(3) This course examines the major developments regarding human sexuality and the plethora of issues surrounding humans and their sexuality. We address both healthy and unhealthy practices from a Christian worldview, and firmly place human sexuality within the context and understanding of personhood.

When Offered

Every fall and spring semesters.

PSY 404 - Family Dynamics

(3) This class investigates the field of family psychology. Topics include the family as a system, marriage and family issues, parenting, marital relationships, family communication, and conflict resolution. These psychological concepts are studied to help students learn how these issues can be understood in light of their own families with an emphasis on the integration of concepts into a Christian worldview.

Prerequisites: PSY 101.

When Offered

Every spring semester.

PSY 406 - Clinical Neuroscience

(3) Memory and remembering are mentioned many times in the Bible in the context of relationships. Being relational persons requires memory. The fundamental concepts and current issues in the psychology of learning and memory are examined. Emphasis is placed on theoretical and experimental treatment of the learning and cognitive processes of normal humans.

Prerequisites: PSY 101. Junior or Senior status.

When Offered

Every spring semester.

PSY 412 - Clinical Counseling Methods

(3) This course gives students the opportunity to bring together their knowledge of the relationship between Christianity and psychology into the applied setting of counseling. It will examine the prevailing secular theories of psychotherapy and also present an overview of the five different models of counseling and soul care within the Christian context.

Prerequisites: PSY 301 and PSY 302.

When Offered

Every spring semester.

PSY 416 - Seminar in Psychology

(3) This seminar provides a variety of topics pertinent to psychology and the human condition for analysis and discussion.

Prerequisites: PSY 101; Sophomore standing or above.

Notes: May be repeated for credit with a maximum of six credit hours applied toward the major. Additional registration will be applied to the student's general elective requirement.

When Offered

Every fall and spring semester.

Electives Core (6 credit hours)

Complete two of the following (6 credit hours):

PSY 315 - Group Processing and Community

(3) Christians are called to be in community, thus various types of groups become a foundational part of our faith experience. This course investigates group process principles and the nature of groups. Practical application of the theoretical concepts and the development of group-related skills are emphasized.

Prerequisites: PSY 101.

When Offered

Odd fall semesters.

PSY 323 - Forensic Psychology

(3) Forensic psychology examines the current research in areas of: patterns of criminal offending behaviors and antisocial personality, juror bias and jury selection, hypnosis and lie detection, criminal profiling, police selection, gangs, eyewitness testimony, and areas of conflict between psychology and the law. The course includes an examination of psychological interventions in law as well.

When Offered

Even fall semesters.

PSY 370 - Crisis and Trauma

(3) Conceptual framework for post-traumatic stress disorder and suicide; psychological and spiritual techniques to facilitate recovery.

When Offered

Odd spring semesters.

PSY 380 - Addictions

(3) Causes and treatments of addictive behaviors, including a focus on physiological, emotional, and spiritual components.

When Offered

Every fall semester.

PSY 408 - Research Methodology

(3) Various research designs used in psychological research, assessing and choosing researchable topics, gathering pertinent literature for review, designing protocol for experiments and surveys, conducting research, and reporting findings in American Psychological Association format are discussed and applied to a student project.

Prerequisites: PSY 101, MAT 212.

When Offered

Scheduled by School.

PSY 416 - Seminar in Psychology

(3) This seminar provides a variety of topics pertinent to psychology and the human condition for analysis and discussion.

Prerequisites: PSY 101; Sophomore standing or above.

Notes: May be repeated for credit with a maximum of six credit hours applied toward the major. Additional registration will be applied to the student's general elective requirement.

When Offered

Every fall and spring semester.

Dual Degree with Emphasis in Biblical Studies

Students accepted in the Dual Degree program complete their Bachelor of Arts in Psychology degree with an Emphasis in Biblical Studies, then complete their Master of Arts in Biblical Studies through the College of Adult and Graduate Studies (CAGS). Included in the bachelor's degree course requirements are 12 master's level credit hours that satisfy both undergraduate and graduate degree requirements. To satisfy CCU graduate program course requirements, students must earn a letter grade of B- or better in the master's level courses taken in their undergraduate degree. (Cum GPA and letter grade requirements for the undergraduate degree remain the same.) All admissions requirements of the Master of Arts in Biblical Studies must be fulfilled. Information on admissions can be found on the CAGS admissions page.

The Bachelor of Arts in Psychology with Emphasis in Biblical Studies requires completion of the following 120 credits:

General Education (48 credit hours)

Psychology Major Required Core (30 credit hours)

Biblical Studies Emphasis (12 credit hours)

General Electives (30 credit hours)

After successful completion of the B.A. in Psychology with emphasis in Biblical Studies, only 27 credit hours of the required 39 credit hours remain to complete a Master of Arts in Biblical Studies.

Required Courses for the Emphasis in Biblical Studies (12 credit hours)

In addition to the General Education and Psychology Major Required Core courses listed above, students take the following master's level courses in the College of Adult and Graduate Studies for the Biblical Studies emphasis.

BIB 507 - The Bible and Progressive Revelation

(3) This course unites the many parts of the Bible into unified storylines such as redemption, Jesus Christ, the Holy Spirit, and Biblical Covenants as God revealed them to His people.

BIB 522 - Interpreting the Bible I

(3) This course will introduce students to biblical hermeneutics, the science of the interpretation of Holy Scripture. The task of hermeneutics, goal of the interpreter, and realities of understanding literature will be considered. This is part one of a two-course sequence on how to interpret the Bible, using English translations.

Prerequisites: BIB 507.

BIB 523 - Interpreting the Bible II

(3) This course will complete the process of teaching students about biblical hermeneutics. Subject matter covered will include genres of biblical literature and the fruit of the interpretive task. This is part two of a two-course sequence on how to interpret the Bible, using English translations.

Prerequisites: BIB 522.

BIB 558 - The Biblical Canon and Textual Criticism

(3) This course traces the development of the Biblical Canon from its inception to its close, and investigates the text of the Canon by comparing manuscript with manuscript in order to discern its canonicity.

Prerequisites: BIB 507 or THE 530.

Students must have a total of 60 earned credit hours prior to registration in a graduate-level course.

Dual Degree with Emphasis in Clinical Counseling

Students accepted in the Dual Degree program complete their Bachelor of Arts in Psychology degree with an Emphasis in Clinical Counseling, then complete their Master of Arts in Clinical Mental Health Counseling through the College of Adult and Graduate Studies (CAGS). Included in the bachelor's degree course requirements are 12 master's level credit hours that satisfy both undergraduate and graduate degree requirements. To satisfy CCU graduate program course requirements, students must earn a letter grade of B- or better in the master's level courses taken in their undergraduate degree. (Cum GPA and letter grade requirements for the undergraduate degree remain the same.) All admissions requirements of the Master of Arts in Clinical Mental Health Counseling must be fulfilled. Information on admissions can be found on the CAGS admissions page.

The Bachelor of Arts in Psychology with Emphasis in Clinical Counseling requires completion of the following 120 credits:

General Education (48 credit hours)

Psychology Major Required Core (30 credit hours)

Clinical Counseling Emphasis (12 credit hours)

General Electives (30 credit hours)

With successful completion of the B.A. in Psychology with emphasis in Clinical Counseling, only 48 credit hours of the 60 required credit hours remain to complete a Master of Arts in Clinical Mental Health Counseling.

Required Courses for the Emphasis in Clinical Counseling (12 credit hours)

In addition to the General Education and Psychology Major Required Core courses listed above, students take the following master's level courses in the College of Adult and Graduate Studies for the Clinical Counseling emphasis.

CMH 515 - Spiritual Formation for Counseling

(2) This course covers professional methods and techniques of assisting clients with spiritual formation and growth as part of a client-centered psychotherapeutic process. It explores the parallel but intersecting process of the counselor's spiritual formation and growth.

Cross-listed CSL 515. Undergraduate students majoring in Psychology/Applied Psychology with an emphasis in Counseling must take CMH 515.

CMH 613 - Empathy Training

(2) A conceptual and practical understanding of empathy, to help develop basic empathy skills, and a process for continued improvement of empathic skills, as well as the spiritual quality of empathy.

Cross-listed CSL 613. Undergraduate students majoring in Psychology/Applied Psychology with an emphasis in Counseling must take CMH 613.

CMH 620 - Counseling Services and Methods

(3) An overview of basic counseling methods, including prevention and intervention strategies, supported by an introduction to counseling theories. Ethical standards, and professional identity and development will also be introduced. Professional development includes an awareness of the structure and function of the American Counseling Association and its state branches and divisions along with mental health professions that interact with counseling services.

Notes: Course required by the State of Colorado for Licensure.

When Offered

This course requires online students to attend weekly synchronous class meetings. The times and days of the meetings will be determined by the course instructor.

Cross-listed CSL 620. Undergraduate students majoring in Psychology/Applied Psychology with an emphasis in Counseling must take CMH 620.

CMH 630 - Neuroscience and Clinical Counseling

(2) This course will explore the application of neuroscience to clinical counseling and the clinician's own psychospiritual development. Interpersonal neurobiology constructs such as presence, attunement, resonance, integration, neuroplasticity, and mind sight will be explored in depth in order to provide the emerging practitioner with insights on how

to counsel with the brain in mind.

Cross-listed CSL 630. Undergraduate students majoring in Psychology/Applied Psychology with an emphasis in Counseling must take CMH 630.

CMH 641 - Human Growth and Development

(3) A survey of the major theories, issues, and data of developmental psychology covering early childhood through late adulthood. This course provides an opportunity for the counselor to look at the importance of development in the lives of their clients and themselves. Many factors influence one's development including aspects of physical, cognitive, psychosocial, cultural and spiritual development.

Notes: Course required by the State of Colorado for Licensure.

Cross-listed CSL 641. Undergraduate students majoring in Psychology/Applied Psychology with an emphasis in Counseling must take CMH 641.

Students must have a total of 60 earned credit hours prior to registration in a graduate-level course.

Dual Degree with Emphasis in Criminal Justice

Students accepted in the Dual Degree program complete their Bachelor of Arts in Psychology degree with an Emphasis in Criminal Justice, then complete their Master of Science in Criminal Justice through the College of Adult and Graduate Studies (CAGS). Included in the bachelor's degree course requirements are 12 master's level credit hours that satisfy both undergraduate and graduate degree requirements. To satisfy CCU graduate program course requirements, students must earn a letter grade of B- or better in the master's level courses taken in their undergraduate degree. (Cum GPA and letter grade requirements for the undergraduate degree remain the same.) All admissions requirements of the Master of Science in Criminal Justice must be fulfilled. Information on admissions can be found on the CAGS admissions page.

The Bachelor of Arts in Psychology with Emphasis in Criminal Justice requires completion of the following 120 credits:

General Education (48 credit hours)

Psychology Major Required Core (30 credit hours)

Criminal Justice Emphasis (12 credit hours)

General Electives (30 credit hours)

With successful completion of the B.A. in Psychology with emphasis in Criminal Justice, only 24 graduate credit hours of 36 credit hours remain to complete a Master of Science in Criminal Justice.

Required Courses for the Emphasis in Criminal Justice (12 credit hours)

In addition to the General Education and Psychology Major Required Core courses listed above, students take the following master's level courses in the College of Adult and Graduate Studies for the Criminal Justice emphasis.

CRJ 501 - Leadership in Criminal Justice

(3) This course explores the application of contemporary management practices in the field of criminal justice. Students will study mission, discipline, safety, community and race relations, integrity and ethics, professional standards, public trust, and other issues confronting those in command positions in criminal justice. Students will also improve their research and policy development skills for criminal justice policy formation and evaluation.

CRJ 505 - Criminal Law and Procedure

(3) This course covers topics including fundamentals of criminal law and procedure, organization of the criminal justice system, and contemporary practices within the system with the goal of manifesting knowledge and case law into practical application. The course explores criminal statutes, court procedures, evidentiary matters, and other constitutional issues pertaining to arrest in addition to limitations on governmental authority.

Prerequisites: CRJ 501.

CRJ 510 - Values Aligned Leadership in Criminal Justice

(3) This course looks at traditional ethical theories and ethical issues in the information age and the modern management era. It is designed to give the leader an overview of the historical philosophical views of ethics, introduce a variety of organizational ethics/value models, and encourage the evaluation of best methods for insuring that leaders act and inspire others to act ethically.

Prerequisites: CRJ 501.

CRJ 511 - Leadership Theory and Practice in Criminal Justice

(3) This course introduces students to leadership theory and integrates theory to practice. The course introduces the learner to the realities of the leader/manager within an organization of diverse followers, emphasizing the biblical principles of selflessness and sacrifice as they relate to leading within an organization.

Prerequisites: CRJ 501.

Students must have a total of 60 earned credit hours prior to registration in a graduate-level course.

Graduation Requirements for Bachelor of Arts in Psychology

The faculty recommends students in the B.A. in Psychology to the Board of Trustees as candidates for graduation when they have completed the following requirements.

1. Completion of a total of 120 credits, including all general education, electives and Psychology major program requirements.
2. A letter grade of D or better and a cumulative GPA of 2.0 or better in all CCU coursework, and a GPA of 2.0 or higher for all courses specified for the major.
3. Completion of 180 hours of ministry/community service and 180 chapel credits. Transfer students are required to complete 45 hours of ministry/community service and 45 chapel credits each year of attendance at CCU. For further details on ministry/community service, see the Life Directions Center (LDC) section of this catalog. For further details on chapel credits, see the Student Life section of this catalog.
4. Meet the CCU Residency requirements.
5. Acceptable performance on exit exams, as required by the faculty.
6. Formal and timely application for graduation by the date specified by the University Registrar.
7. No outstanding financial obligation to the University.

Social Science Major

The Social Science major is designed to develop knowledge and skills in history, politics, economics, sociology, psychology, anthropology, international studies, and geography; provide interdisciplinary study in the social sciences; and study current affairs and handling of controversial issues. The major is excellent preparation for law school, government service, graduate school, and secondary school teaching in social studies. Four social science emphases are available: Global Studies, History, Politics, and Psychology.

The Bachelor of Arts in Social Science requires completion of the following 120 credits:

General Education Core (48 credit hours)

Social Science Major Core (33 credit hours)

Electives (39 credit hours)

General Education Requirements (48 credit hours)

Arts and Humanities (9 credit hours)

Take one course from each of the following three academic disciplines:

Fine Arts (3 credit hours)

Choose one course from the following:

HUM 120 - Introduction to the Arts

(3) Introduction to our humanity through hands-on experience in the arts (music, visual arts, poetry, story, play, and dance). Aesthetic and artistic values in the broader context of human cultural development, responsibility, and joy.

Notes: This course satisfies the general education fine arts requirement for most students, and is the required fine arts course for education majors. It is recommended for all students with a general interest in the fine arts. Students with a special interest in theatre should see THR 112. Students with a special interest in music should see MUS 110.

Note: HUM 120 does not satisfy the fine arts requirement for music majors or minors.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

MUS 110 - Musical Perspectives

(3) An exploration of music in the broader context of culture and the arts; personal musical experiences through listening and doing; and developing the ability to discern aesthetic excellence. Included is an introduction to the elements of music

and how music works, the development of a Christian perspective on the arts, a broad survey of representative selections of Western music, and a focused overview of non-western/world music.

Notes: This course satisfies the general education fine arts requirement for most students. It is recommended for all students, especially those with an interest in music, and is the required fine arts course for all music majors and minors. Students with a special interest in Theatre should see THR 112.

Note: MUS 110 does not satisfy the fine arts requirement for education majors.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

THR 112 - Theatre Appreciation

(3) An introduction to the theatre world and all its aspects: the people who are active in that world, the many kinds of work that are created, the sensations and ideas we receive from those works, and the ways the life of theatre has transmitted across many times and place.

Notes: This course satisfies the general education fine arts requirement for most students. It is recommended for all students, especially those with an interest in theatre. Students with a special interest in music should see MUS 110.

Note: THR 112 does not satisfy the fine arts requirement for music majors or minors, or education majors.

When Offered

Fall and spring semesters.

Literature (3 credit hours)

Choose one course from the following:

ENG 201 - Introduction to Literature

(3) Understand, experience, and evaluate poetry, short fiction, essays, and drama genres, both American and multinational.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Fall and spring semesters.

ENG 202 - American Literature I

(3) Representative stories, poems, and documents in American literature from the Colonial era to the early Republic (1776-1830) through the Romantic-transcendentalist period (1830-1860). Includes readings from multiethnic and women writers.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every fall semester.

ENG 203 - American Literature II

(3) Representative stories, poems, and drama in American literature from the Civil War to the present. Nontraditional ethnic and women's voices included. Emphasis on interpretation and criticism of American literature.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every spring semester.

ENG 204 - British Literature I

(3) Surveys the history of literature in Britain until 1800 and representative works by influential writers of the periods contained therein.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every fall semester.

ENG 205 - British Literature II

(3) Surveys the history of literature in Britain from 1800 to the present and representative works by influential writers.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every spring semester.

Philosophy (3 credit hours)

PHL 202 - Introduction to Philosophy

(3) This course is a survey of many major issues raised over the two-and-a-half millennia of western philosophy. With an emphasis on historical context and development, as well as philosophy's relationship to Christian thought, this course challenges students to critically explore philosophical questions and introduce them to the great tradition of intellectual inquiry. Special attention will be given to the subjects of truth and knowledge, reality and appearance, mind and body, right and wrong, beauty and the existence of God.

When Offered

Fall and summer semesters.

Biblical Studies (12 credit hours)

Take the following four courses (some courses are cross-listed and only one prefix needs to be taken):

BIB 111 - Old Testament

(3) This course provides an introduction to the theological, historical, and literary features of the Old Testament, tracing God's covenant relationship with ancient Israel. Special consideration will be given to the divine covenants and Messianic prophecies of the Old Testament.

When Offered

Every spring semester.

Cross-listed HIS 111

HIS 111 - Old Testament

(3) This course provides an introduction to the theological, historical, and literary features of the Old Testament, tracing God's covenant relationship with ancient Israel. Special consideration will be given to the divine covenants and Messianic prophecies of the Old Testament.

When Offered

Every spring semester.

Cross-listed BIB 111.

BIB 114 - New Testament

(3) This course provides an introduction to the theological, historical, and literary features of the New Testament, tracing the presentation of the gospel message through historical, epistolary, and apocalyptic genres. Special consideration will be given to the life of Christ and missionary journeys of the Apostle Paul.

When Offered

Every fall semester.

Cross-listed HUM 114

HUM 114 - New Testament

(3) This course provides an introduction to the theological, historical, and literary features of the New Testament, tracing the presentation of the gospel message through historical, epistolary, and apocalyptic genres. Special consideration will be given to the life of Christ and missionary journeys of the Apostle Paul.

When Offered

Every fall semester.

Cross-listed BIB 114.

PHL 315 - World Religions and Systems of Belief

(3) This course introduces an academic study of religion and what is called worldview, supplemented by an overview of some of the major tenets of Christianity; this is then followed by a survey of several other religious traditions and competing philosophies.

Prerequisites: PHL 202, THE 201.

When Offered

Winter and spring semesters.

THE 201 - Introduction to Theology

(3) This course covers basic issues, themes, and categories of Christian theology, including the doctrines of Scripture, God, humanity, Christ, salvation, the church, and last things. This course encourages students to better know, trust, love, and live by God's Word.

Prerequisites: BIB 111, BIB 114.

When Offered

Fall, winter, spring, and summer semesters.

Communication (6 credit hours)

COM 103 - Public Speaking

(3) Introductory principles of communication emphasizing public speaking. Aspects of verbal and nonverbal delivery, speech organization, and the effective use of supporting material and presentational aids are addressed. Students give several speeches designed to better equip them for future speaking endeavors

When Offered

Fall and spring semesters.

ENG 102 - English Composition

(3) Effective use of the English language and exploration of rhetorical modes in written composition. Review of structure, purpose, and audience awareness in developing essays.

Prerequisites: ACT and/or SAT scores will be used to determine placement in either ENG 102 or ENG 102 (Basic).

Notes: Course must be completed first semester at CCU.

When Offered

Fall and spring semester.

ENG 105 - Advanced English Composition

(3) Advanced English composition, research methods, and literary study for invited exceptional students. Focus on both the study of literature and research writing.

Prerequisites: One of the following:

- AP English Language and Composition
 - A score of 4 is the minimum prerequisite for enrollment in ENG 105. A student who scores a 4 or 5 will automatically enroll a student in ENG 105 instead of ENG 102 and/or ENG 201.
- AP English Literature and Composition
 - A score of 4 is the minimum prerequisite for enrollment in ENG 105. A student who scores a 4 or 5 will automatically enroll a student in ENG 105 instead of ENG 102 and/or ENG 201.
- Score of 30 or above on the verbal section of the ACT exam.
- Score of 700 or above on the verbal section of the SAT exam.
- By invitation of the English department.

Notes: Fulfills general education requirements for both ENG 102 and ENG 201.

When Offered

Every fall semester.

Integrative Studies (3 credit hours)

* Please see the First-Year Integration (FYI) page for specific information about this required course.

INT 101 - First-Year Integration

(3) Think critically, grow spiritually, and change the world. Based on the premise that we as Christians are called to be rational creatures, relational creatures, and responsible creatures, FYI is an integrative study of foundational Christian principles with other disciplines. Examination and discussion of problems and contemporary issues - academic, personal, and social - facing students in their pursuit of success in college and life. Please see the First-Year Integration (FYI) page for specific information about this required course.

When Offered

Fall and spring semesters.

Mathematics (3 credit hours)**MAT 112 - Mathematics for Liberal Arts**

(3) This course introduces some of the important ideas in mathematics and how they can be applied in everyday life situations, solving a wide range of practical problems. Topics include sets, logic, history of numeration, number systems and their properties, number patterns, counting principles, probability, statistics, graph theory, personal finance, and voting methods.

Notes: Students with higher level mathematics skills (i.e. ACT MAT above 20 and SAT MATH above 520) are discouraged from taking this class. Only students who do not place into MAT 111 - College Algebra should enroll in MAT 112 - Mathematics for Liberal Arts.

When Offered

Fall, spring and summer semesters.

(or higher except for MAT 202 or MAT 302 - Teaching Mathematics in the Elementary Classroom)

Science (3 credit hours)**SCI 230 - Integrated Physical Science with Lab**

(3) This is an integrated course presenting the major concepts, theoretical perspectives, historical trends, and empirical findings of the physical sciences. Laboratory exercises and lectures explore motion, the four forces, heat, energy, chemical reactions, the structure and development of matter, the types and nature of chemical bonding, and the nature and history of the universe, the solar system, and the Earth.

Lab/Lecture Hours

Laboratory investigations included in course.

Fee

Lab fees apply.

When Offered

Every semester.

Social Sciences (12 credit hours)

Take each of the following four courses:

ECO 215 - Economics

(3) Economics is about scarcity and choice. Students in this course study how people, firms, governments, and nations interact in alternative economic systems to make choices about allocating scarce resources. In addition, students learn to evaluate these systems, understand macroeconomic monetary and fiscal policies, and engage in policy debates.

When Offered

Fall and spring semesters.

HIS 185 - Western Civilization

(3) The spiritual values and intellectual achievements of ancient Israel, Greece, Rome, the Middle Ages, the Renaissance, and Reformation that gave birth to the modern world.

When Offered

Every fall semester.

HIS 205 - American History

(3) Principles of the founding and the political, economic, intellectual, cultural, and religious traditions that have shaped America.

When Offered

Every spring semester.

POL 207 - Introduction to American Politics

(3) Introduction to political science and American government to prepare students to be effective citizens.

When Offered

Every fall and spring semester.

Social Science Major (33 credit hours)**Required Core (15 credit hours)****GEO 270 - World Geography**

(3) Introduces students to key concepts in geography and mapping: explores political, economic, and cultural geography, as well as physical geography and the environment.

When Offered

Every spring semester.

HIS 186 - The Birth of the Modern World

(3) A study of the political, social, economic, intellectual, and religious developments in Europe from the 16th century and the impact of the West as it expanded its influence around the world.

When Offered

Every spring semester.

HIS 206 - The Making of Modern America

(3) This course centers on the development of America politically, socially, economically, and religiously from the Civil War Era to the 20th century.

When Offered

Odd fall semesters.

PSY 101 - Introduction to Psychology

(3) This course provides an overview of the field of psychology, including psychological principles, methods, theories, and research broadly applied to various domains within the discipline. This course will equip students to understand the theoretical and philosophical foundations of contemporary psychology in light of a Christian worldview, and proposes an integrated framework from which to approach psychology and their Christian faith.

When Offered

Every fall and spring semesters.

PSY 201 - Social Psychology

(3) An overarching theme for the CCU Psychology program is that we are, at our core, relational persons. No area of psychology exemplifies this more consistently than social psychology. This course focuses on the powerful influence that groups can have on individuals, as well as evidence that humans are strongly motivated to seek relationships with others.

When Offered

Every spring semester.

POL 210 - Christian Political Thought

(3) This course examines contemporary expressions of Christian political thought as well as the thought of leading Christian thinkers from the Western Christian political tradition by comparing their respective claims with biblical revelation. Students will conclude the course by applying their own views to contemporary issues.

When Offered

Even spring semesters.

POL 472 - Seminar in Politics

(3) This seminar provides a variety of political topics for analysis and discussion, such as terrorism, human trafficking, or film and politics.

Prerequisites: POL 207; Junior or Senior standing.

Notes: May be repeated for credit with a maximum of six credit hours applied toward the major.

When Offered

Every spring semester.

Field-Related Electives (6 credit hours)

The Field-Related Electives can be done from the same or a different prefix as that of the Required Emphasis (below). Credit received from Teaching Assistantships does not count towards field-related elective credits.

Choose 6 credit hours of upper level (300 or above) courses not already part of the Required Emphasis Core from the following prefixes:

- ECO - Economics
- GLS - Global Studies
- HIS - History
- POL - Politics
- PSY - Psychology

Required Emphasis Core (12 credit hours)

Choose an emphasis in one of the following subject areas:

- Global Studies
- History
- Politics
- Psychology

Select 12 credit hours within the selected subject area (not including any credits received for Teaching Assistantships). A minimum of 9 credit hours must be from upper level (300 or above) courses. All courses within the emphasis must be from the same prefix (e.g. GLS for an emphasis in Global Studies).

Graduation Requirements for Bachelor of Arts in Social Science

The faculty recommends students in the B.A. in Social Science to the Board of Trustees as candidates for graduation when they have completed the following requirements.

1. Completion of a total of 120 credits, including all general education, electives and Social Science major program requirements.
2. A letter grade of D or better and a cumulative GPA of 2.0 or better in all CCU coursework, and a GPA of 2.0 or higher for all courses specified for the major.
3. Completion of 180 hours of ministry/community service and 180 chapel credits. Transfer students are required to complete 45 hours of ministry/community service and 45 chapel credits each year of attendance at CCU. For further details on ministry/community service, see the Life Directions Center (LDC) section of this catalog. For further details on chapel credits, see the Student Life section of this catalog.
4. Meet the CCU Residency requirements.
5. Acceptable performance on exit exams, as required by the faculty.
6. Formal and timely application for graduation by the date specified by the University Registrar.
7. No outstanding financial obligation to the University.

Strategic Communication Major

The Bachelor of Arts in Strategic Communication prepares students with the professional skills they will need for public relations, strategic communication, marketing, and digital media vocations. The Strategic Communication major is unique, offering a broad educational framework for professional and career roles in churches, nonprofits, and for-profit organizations wishing to communicate effectively in the new digital environment. A degree in CCU's Strategic Communication enables graduates to be digitally-savvy and able to think creatively and critically, with solid writing, visual and technical skills, and the capacity to think strategically about the role of communication in society.

Graduates of the Strategic Communication major will:

- Understand the theoretical foundations underlying persuasive messaging;
- Conduct detailed, extensive, and accurate audience analysis and market segmentation;
- Develop core skills in digital storytelling, writing, editing, and design across multiple communication platforms, using relevant software applications;
- Design and implement communication campaigns for products, services, and ideas;
- Apply the strategic communication theories and concepts to social media platforms;
- Apply communication concepts and theories to address everyday dilemmas within the dimensions of ethics, society, law, technology, relationships, and culture;
- Demonstrate presentational communication skills;
- Demonstrate skills in group deliberation, decision-making, negotiation, and collaboration;

- Be equipped to share the Gospel in a compelling and relevant manner.

The B.A. in Strategic Communication has two specific emphases, Public Relations and Digital Media, as well as a general emphasis, each of which positions graduates to be on the leading edge of the changes occurring in the communication industry.

The Bachelor of Arts in Strategic Communication requires completion of the following 120 credits:

General Education Core (48 credit hours)

Strategic Communication Core (39 credit hours)

Electives (33 credit hours)

General Education Requirements (48 credit hours)

Arts and Humanities (9 credit hours)

Take one course from each of the following three academic disciplines:

Fine Arts (3 credit hours)

Choose one course from the following:

HUM 120 - Introduction to the Arts

(3) Introduction to our humanity through hands-on experience in the arts (music, visual arts, poetry, story, play, and dance). Aesthetic and artistic values in the broader context of human cultural development, responsibility, and joy.

Notes: This course satisfies the general education fine arts requirement for most students, and is the required fine arts course for education majors. It is recommended for all students with a general interest in the fine arts. Students with a special interest in theatre should see THR 112. Students with a special interest in music should see MUS 110.

Note: HUM 120 does not satisfy the fine arts requirement for music majors or minors.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

MUS 110 - Musical Perspectives

(3) An exploration of music in the broader context of culture and the arts; personal musical experiences through listening and doing; and developing the ability to discern aesthetic excellence. Included is an introduction to the elements of music and how music works, the development of a Christian perspective on the arts, a broad survey of representative selections of Western music, and a focused overview of non-western/world music.

Notes: This course satisfies the general education fine arts requirement for most students. It is recommended for all students, especially those with an interest in music, and is the required fine arts course for all music majors and minors. Students with a special interest in Theatre should see THR 112.

Note: MUS 110 does not satisfy the fine arts requirement for education majors.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

THR 112 - Theatre Appreciation

(3) An introduction to the theatre world and all its aspects: the people who are active in that world, the many kinds of work that are created, the sensations and ideas we receive from those works, and the ways the life of theatre has transmitted across many times and place.

Notes: This course satisfies the general education fine arts requirement for most students. It is recommended for all students, especially those with an interest in theatre. Students with a special interest in music should see MUS 110.

Note: THR 112 does not satisfy the fine arts requirement for music majors or minors, or education majors.

When Offered

Fall and spring semesters.

Literature (3 credit hours)

Choose one course from the following:

ENG 201 - Introduction to Literature

(3) Understand, experience, and evaluate poetry, short fiction, essays, and drama genres, both American and multinational.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Fall and spring semesters.

ENG 202 - American Literature I

(3) Representative stories, poems, and documents in American literature from the Colonial era to the early Republic (1776-1830) through the Romantic-transcendentalist period (1830-1860). Includes readings from multiethnic and women writers.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every fall semester.

ENG 203 - American Literature II

(3) Representative stories, poems, and drama in American literature from the Civil War to the present. Nontraditional ethnic and women's voices included. Emphasis on interpretation and criticism of American literature.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every spring semester.

ENG 204 - British Literature I

(3) Surveys the history of literature in Britain until 1800 and representative works by influential writers of the periods contained therein.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every fall semester.

ENG 205 - British Literature II

(3) Surveys the history of literature in Britain from 1800 to the present and representative works by influential writers.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every spring semester.

Philosophy (3 credit hours)

PHL 202 - Introduction to Philosophy

(3) This course is a survey of many major issues raised over the two-and-a-half millennia of western philosophy. With an emphasis on historical context and development, as well as philosophy's relationship to Christian thought, this course challenges students to critically explore philosophical questions and introduce them to the great tradition of intellectual inquiry. Special attention will be given to the subjects of truth and knowledge, reality and appearance, mind and body, right and wrong, beauty and the existence of God.

When Offered

Fall and summer semesters.

Biblical Studies (12 credit hours)

Take the following four courses (some courses are cross-listed and only one prefix needs to be taken):

BIB 111 - Old Testament

(3) This course provides an introduction to the theological, historical, and literary features of the Old Testament, tracing God's covenant relationship with ancient Israel. Special consideration will be given to the divine covenants and Messianic prophecies of the Old Testament.

When Offered

Every spring semester.
Cross-listed HIS 111

HIS 111 - Old Testament

(3) This course provides an introduction to the theological, historical, and literary features of the Old Testament, tracing God's covenant relationship with ancient Israel. Special consideration will be given to the divine covenants and Messianic prophecies of the Old Testament.

When Offered

Every spring semester.
Cross-listed BIB 111.

BIB 114 - New Testament

(3) This course provides an introduction to the theological, historical, and literary features of the New Testament, tracing the presentation of the gospel message through historical, epistolary, and apocalyptic genres. Special consideration will be given to the life of Christ and missionary journeys of the Apostle Paul.

When Offered

Every fall semester.
Cross-listed HUM 114

HUM 114 - New Testament

(3) This course provides an introduction to the theological, historical, and literary features of the New Testament, tracing the presentation of the gospel message through historical, epistolary, and apocalyptic genres. Special consideration will be given to the life of Christ and missionary journeys of the Apostle Paul.

When Offered

Every fall semester.
Cross-listed BIB 114.

PHL 315 - World Religions and Systems of Belief

(3) This course introduces an academic study of religion and what is called worldview, supplemented by an overview of some of the major tenets of Christianity; this is then followed by a survey of several other religious traditions and competing philosophies.

Prerequisites: PHL 202, THE 201.

When Offered

Winter and spring semesters.

THE 201 - Introduction to Theology

(3) This course covers basic issues, themes, and categories of Christian theology, including the doctrines of Scripture, God, humanity, Christ, salvation, the church, and last things. This course encourages students to better know, trust, love, and live by God's Word.

Prerequisites: BIB 111, BIB 114.

When Offered

Fall, winter, spring, and summer semesters.

Communication (6 credit hours)**COM 103 - Public Speaking**

(3) Introductory principles of communication emphasizing public speaking. Aspects of verbal and nonverbal delivery, speech organization, and the effective use of supporting material and presentational aids are addressed. Students give several speeches designed to better equip them for future speaking endeavors

When Offered

Fall and spring semesters.

ENG 102 - English Composition

(3) Effective use of the English language and exploration of rhetorical modes in written composition. Review of structure, purpose, and audience awareness in developing essays.

Prerequisites: ACT and/or SAT scores will be used to determine placement in either ENG 102 or ENG 102 (Basic).

Notes: Course must be completed first semester at CCU.

When Offered

Fall and spring semester.

ENG 105 - Advanced English Composition

(3) Advanced English composition, research methods, and literary study for invited exceptional students. Focus on both the study of literature and research writing.

Prerequisites: One of the following:

- AP English Language and Composition
 - A score of 4 is the minimum prerequisite for enrollment in ENG 105. A student who scores a 4 or 5 will automatically enroll a student in ENG 105 instead of ENG 102 and/or ENG 201.
- AP English Literature and Composition
 - A score of 4 is the minimum prerequisite for enrollment in ENG 105. A student who scores a 4 or 5 will automatically enroll a student in ENG 105 instead of ENG 102 and/or ENG 201.
- Score of 30 or above on the verbal section of the ACT exam.
- Score of 700 or above on the verbal section of the SAT exam.
- By invitation of the English department.

Notes: Fulfills general education requirements for both ENG 102 and ENG 201.

When Offered

Every fall semester.

Integrative Studies (3 credit hours)

Please see the First-Year Integration (FYI) page for specific information about this required course.

INT 101 - First-Year Integration

(3) Think critically, grow spiritually, and change the world. Based on the premise that we as Christians are called to be rational creatures, relational creatures, and responsible creatures, FYI is an integrative study of foundational Christian principles with other disciplines. Examination and discussion of problems and contemporary issues - academic, personal, and social - facing students in their pursuit of success in college and life. Please see the First-Year Integration (FYI) page for specific information about this required course.

When Offered

Fall and spring semesters.

Mathematics (3 credit hours)

MAT 212 - Statistics and their Application

(3) An introduction to statistical analysis as used in various liberal arts disciplines. Descriptive and inferential statistics and attendant research designs will be considered. Students will become familiar with SPSS and its use in analyzing data and decision making.

Prerequisites: Sophomore standing.

When Offered

Fall and spring semesters.

Science (3 credit hours)

SCI 230 - Integrated Physical Science with Lab

(3) This is an integrated course presenting the major concepts, theoretical perspectives, historical trends, and empirical findings of the physical sciences. Laboratory exercises and lectures explore motion, the four forces, heat, energy, chemical reactions, the structure and development of matter, the types and nature of chemical bonding, and the nature and history of the universe, the solar system, and the Earth.

Lab/Lecture Hours

Laboratory investigations included in course.

Fee

Lab fees apply.

When Offered

Every semester.

Social Sciences (12 credit hours)

Take each of the following four courses:

ECO 215 - Economics

(3) Economics is about scarcity and choice. Students in this course study how people, firms, governments, and nations interact in alternative economic systems to make choices about allocating scarce resources. In addition, students learn to evaluate these systems, understand macroeconomic monetary and fiscal policies, and engage in policy debates.

When Offered

Fall and spring semesters.

HIS 185 - Western Civilization

(3) The spiritual values and intellectual achievements of ancient Israel, Greece, Rome, the Middle Ages, the Renaissance, and Reformation that gave birth to the modern world.

When Offered

Every fall semester.

HIS 205 - American History

(3) Principles of the founding and the political, economic, intellectual, cultural, and religious traditions that have shaped America.

When Offered

Every spring semester.

POL 207 - Introduction to American Politics

(3) Introduction to political science and American government to prepare students to be effective citizens.

When Offered

Every fall and spring semester.

Strategic Communication Major (39 credit hours)**Strategic Communication Core (27 credit hours)****COM 206 - Visual Storytelling and Digital Media Production**

(3) Through readings, lectures, demonstrations, and hands-on exercises, critical thinking and collaborative teamwork, students explore the art and business of visual storytelling. The course has an emphasis of storytelling through graphic design for print and online digital media, media pre-production, production and digital non-linear editing, and includes writing and photography to complement the general skills needed by a business professional working in the communication/media field.

Fee

Course Fees apply.

When Offered

Every fall and spring semesters.

COM 225 - Introduction to Strategic Communication

(3) This survey course introduces students to strategic communication practice in the 21st century, and immerses students in the strategic concepts necessary to understand how effective decisions are developed and executed in the field of strategic communication. Students will learn how to use critical and creative thinking to gather, organize, evaluate, and deliver information and influence others by developing relationships.

When Offered

Every fall semester.

COM 247 - Writing for Communication

(3) This course prepares students to write efficiently and creatively across different print and media platforms. Emphasis is on the diverse formats of writing in print, for broadcast, business, and online settings as well as the distinct styles, formats, and philosophies of those mediums. Students develop a portfolio with professional writing pieces for strategic communication, media, online platforms, and advanced study.

When Offered

Every fall and spring semesters.

COM 320 - Small Group Communication

(3) Systematic study and practice of the principles of effective communication in groups; exploration of features unique to small group interaction including the exploration of public discussion formats.

Prerequisites: COM 103.

Notes: Junior or senior standing or permission of the instructor.

When Offered

Every spring semester.

COM 360 - Persuasion and Attitude Change

(3) This course prepares students to understand the relationship between persuasion and social change, including theories of attitude and behavioral change, and contemporary theories of persuasion. Students will think critically about message strategies and tactics, and consider attitude formation and change through strategic communication.

Prerequisites: COM 103.

When Offered

Every spring semester.

COM 451 - Communication Field Internship

(3-6) Field experience in applied communication. This course is especially valuable to those anticipating careers in the communication field.

Prerequisites: COM 103 and junior or senior status.

Notes: Pass/Fail; may be repeated for credit.

When Offered

Scheduled by School.

COM 475 - Senior Seminar: Innovation, Creativity, and Change

(3) This capstone course explores the antecedents, processes, and constraints of creativity, and how creativity is cultivated for innovation, especially applied to the field of strategic communication. In addition, students will assemble a portfolio of their strategic communication work, and explore vocation and work, job searching, finances, and relationships, helping them transition from college to professional work life.

Prerequisites: COM 206; Senior standing.

When Offered

Every spring semester.

MKT 202 - Principles of Marketing

(3) Marketing is not tricking people into buying something, but rather involves creating genuine value for customers. Students learn how to use the marketing mix (product, price, promotion, and place) and STP (segmenting, targeting, and positioning) as well as better understand advertising, logistics, data analytics, online marketing, pricing, and ethics. The final group project includes a real-world application to rebrand and market a company.

When Offered

Every fall semester.

Three credit hours from the following - may not be a duplicated course chosen in the emphasis.

COM 180 - University Media Workshop - Level I

(1) This lab course is designed for students to work individually and collaboratively in a media environment to develop basic skills through various creative tools to produce and create content for various CCU student media outlets.

Notes: Lab course; may be repeated for maximum of 3 credits.

Fee

Course fees apply.

When Offered

Every fall and spring semester.

COM 280 - University Media Workshop - Level II

(1) Students in this course progress to an advanced skill level in creating, writing, directing, editing, and producing media content using media equipment and software designed for these purposes.

Prerequisites: COM 180.

Lab/Lecture Hours

Lab course.

Notes: Lab course; may be repeated for a maximum of 3 credits.

Fee

Course fees apply.

When Offered

Every fall and spring semester.

COM 285 - Public Relations Agency

(1) In this active learning experience which recreates the daily life of a public relations creative agency, students work as a public relations team to address clients' needs, develop public relations materials, and manage strategic communication campaigns.

Notes: May be repeated for credit.

When Offered

Every fall and spring semester.

COM 380 - University Media Workshop - Level III

(1) Students in this course have developed advanced skill level in creating, writing, directing, editing, and producing media content and service in various leadership roles (e.g., producers editors, designers) in student media productions.

Prerequisites: COM 280; Sophomore standing.

Notes: Lab course; may be repeated for maximum of 3 credits.

Fee

Course fees apply.

When Offered

Every fall and spring semester.

Strategic Communication Emphases (12 credit hours)

Choose one of the three Strategic Communication Emphases below.

General Emphasis (12 credit hours)

Choose 12 credit hours from the following:

CIS 137 - Web Design Fundamentals

(3) A company's website serves as the front door for customers. The site's appeal, ease of use, and quality of interaction will determine profits. This course covers the computer languages of HTML, CSS, and JavaScript, allowing students to produce web pages that can be intuitively understood by users. Students learn to design with many forms of data, including hypertext, graphics, audio, and video to create superior interactive web pages.

Prerequisites: CIS 130.

When Offered

Every spring semester.

COM 215 - Mass Media and Ethics

(3) This course is designed to explore the history and makeup of the various mediums that exist in our world, how they correlate, interact, and influence our culture, and how we as Christians are called to discern their value and impact on our world. The course is a survey course of the various mediums with particular emphasis on the media that we use daily and the ethical principles and standards we use to communicate mediated messages.

Prerequisites: Sophomore standing.

When Offered

Every spring semester.

COM 315 - Public Relations

(3) Introduces and develops a clear concept of public relations as a communication profession along with the necessary skills to become proficient in the field. Topics include the function of public relations in both public and private enterprises, the process of planning and implementing a public relations communication campaign, techniques for communicating with various publics, crisis communication, and the laws and ethics governing the practice of public relations.

Prerequisites: COM 103, COM 247.

When Offered

Every fall semester.

COM 445 - Strategic Communication Campaigns

(3) This course is an exploration of steps to produce creative campaigns for movement of organizations, products, and services toward growth. Students will engage in a multi-platform approach for the purpose of benefiting organizations or bringing about change with an emphasis on problem solving and instilling a professional work ethic.

Prerequisites: COM 206, COM 247, COM 315.

When Offered

Every spring semester.

COM 355 - Social Media, Audience Analysis, and Analytics

(3) This course is designed to help students identify, study, and analyze audiences on social media in order to prepare better strategic communication messages. Students will discuss both the benefits and limitations of relying on social media data compared to traditional methods of marketing research, and learn how to develop effective social media messages and campaigns.

Prerequisites: COM 206.

When Offered

Every fall semester.

COM 375 - Visual Culture and Graphic Design

(3) This course will teach students how to examine and appreciate elements of culture expressed through visual images, and to develop a visual eye. Students will learn how to design with specific audiences in mind, and edit images using Classic Adobe Suite: Photoshop, Illustrator, and InDesign.

Prerequisites: COM 206, Junior or Senior standing.

When Offered

Every fall semester.

COM 398 - Special Topics: Advanced Skill Development

(1) This course allows students to learn essential skills in strategic communication and digital media on specific topics. Various aspects of web and graphic design and audio and video production are some of the topics that may be taught in this course.

Prerequisites: COM 206 or instructor permission.

Notes: Graded; may be repeated for credit, but only 3 total credit hours count toward the major (Strategic Communication with Digital Media emphasis) or minor (Digital Media).

When Offered

Scheduled by School.

- Advanced video production
- Advanced podcast production
- Advanced graphic design
- Advanced web design

MUS 271 - Music Production and Engineering I

(3) This course serves as an introduction to music production and recording software. Students gain an understanding regarding the strengths of various software options including Pro Tools and Ableton. Students learn to edit audio files in Pro Tools, keyboard shortcuts, and general understanding of the software. They work with MIDI, virtual instruments and

related topics.

Prerequisites: Music, StratCom, or Digital Media Majors only.

When Offered

Every fall semester.

Digital Media Emphasis (12 credit hours)

CIS 137 - Web Design Fundamentals

(3) A company's website serves as the front door for customers. The site's appeal, ease of use, and quality of interaction will determine profits. This course covers the computer languages of HTML, CSS, and JavaScript, allowing students to produce web pages that can be intuitively understood by users. Students learn to design with many forms of data, including hypertext, graphics, audio, and video to create superior interactive web pages.

Prerequisites: CIS 130.

When Offered

Every spring semester.

COM 355 - Social Media, Audience Analysis, and Analytics

(3) This course is designed to help students identify, study, and analyze audiences on social media in order to prepare better strategic communication messages. Students will discuss both the benefits and limitations of relying on social media data compared to traditional methods of marketing research, and learn how to develop effective social media messages and campaigns.

Prerequisites: COM 206.

COM 403 - Organizational Communication

(3) Integration of communication, management, and organizational theory; provides historical and contemporary vantage points of communication's role in organizational operation.

Prerequisites: Junior or Senior standing.

When Offered

Every fall semester.

COM 445 - Strategic Communication Campaigns

(3) This course is an exploration of steps to produce creative campaigns for movement of organizations, products, and services toward growth. Students will engage in a multi-platform approach for the purpose of benefiting organizations or bringing about change with an emphasis on problem solving and instilling a professional work ethic.

Prerequisites: COM 206, COM 247, COM 315.

When Offered

Every spring semester.

Graduation Requirements for Bachelor of Arts in Strategic Communication

The faculty recommends students in the B.A. in Strategic Communication to the Board of Trustees as candidates for graduation when they have completed the following requirements.

1. Completion of a total of 120 credits, including all general education, electives and Strategic Communication major program requirements.
2. A letter grade of D or better and a cumulative GPA of 2.0 or better in all CCU coursework, and a GPA of 2.0 or higher for all courses specified for the major.
3. Completion of 180 hours of ministry/community service and 180 chapel credits. Transfer students are required to complete 45 hours of ministry/community service and 45 chapel credits each year of attendance at CCU. For further details on ministry/community service, see the Life Directions Center (LDC) section of this catalog. For further details on chapel credits, see the Student Life section of this catalog.
4. Meet the CCU Residency requirements.
5. Acceptable performance on exit exams, as required by the faculty.
6. Formal and timely application for graduation by the date specified by the University Registrar.
7. No outstanding financial obligation to the University.

Minor

Augustine Honors Minor/Emphasis

The Augustine Honors Minor and Augustine Honor Emphasis are designed to work within the framework of CCU's existing General Education curriculum, enabling students to satisfy general education requirements through Great Books courses while earning the minor or emphasis in the Augustine Honors program.

The Augustine Honors Minor and Emphasis are academically rigorous programs that fosters interdisciplinary learning and research scholarship. The heart of the Augustine Honors program is the experience of intense communal learning centered on the reading and discussion of Great Books. The liberal arts curriculum explores the disciplines of History, Literature, Politics, and Rhetoric, with a view to developing students' liberal arts skills and integrating their observations and insights into their character and personal beliefs. The core courses fulfill some requirements for the General Education curriculum and provide a minor or emphasis. The Augustine Honors program as a whole is only available to Distinguished Scholarship recipients who attend World Changers Weekend.

Because of the distinctive curriculum that comprises the Augustine Honors program, students are limited in the coursework that can be transferred in to satisfy program requirements. To earn the Augustine Honors Minor, students must complete at least four of the required courses at CCU, and may transfer in a three or four credit hour course to satisfy the final requirement. To earn the Augustine Honors Emphasis, students must complete all of the required courses at CCU.

Augustine Honors Minor (20 credit hours)

COM 455 - Rhetoric and Power

(4) This interdisciplinary great books course examines the elements of the art of rhetoric, some of the arguments for and against its use, and some of its greatest examples. Students will use this knowledge to develop their rhetorical skills.

Prerequisites: Augustine Honors students only.

When Offered

Every spring semester.

ENG 460 - Tragedy, Comedy, and the Human Imagination

(4) This interdisciplinary great books course examines the human imagination and its power to nourish and transform individuals and communities. The texts considered constitute a literary dialogue extending through history that echoes to the present day.

Prerequisites: Augustine Honors students only.

When Offered

Every spring semester.

HIS 310 - Great Ideas of the Western World

(4) This interdisciplinary great books course considers some of the greatest ideas and seminal texts of the Western World in the light of their respective historical contexts. From the ancient civilizations of the Hebrews, Greeks, and Romans, through the middle ages, to the dawn of Modernity, key texts have proved the power to create and shape the peoples of the Western world.

Prerequisites: Augustine Honors students only.

When Offered

Every fall semester.

HIS 465 - History and the American Experience

(4) This interdisciplinary great books course analyzes the discipline of history in order to explore the prominent events and fundamental beliefs that have shaped the American peoples in their mutual influence on each other and the world.

Prerequisites: Augustine Honors students only.

When Offered

Every fall semester.

POL 460 - Liberty, Justice, and American Politics

(4) This interdisciplinary great books course examines the longing for liberty and justice and the American political system in their intellectual, moral, and theological dimensions. It considers American government, its place in the world, and one's place in it.

Prerequisites: Augustine Honors students only.

When Offered

Every fall semester.

Augustine Honors Emphasis (12 credit hours)

For the Augustine Honors Emphasis, students choose any three Honors courses included in the Honors Minor, for a total of 12 credit hours.

Communication Minor

Students may earn a minor in the field by completing the following 18 credit hours. There can be no overlap of credits between a minor and a major, a minor and an emphasis, or a minor and a cross-disciplinary study.

Communication Minor (18 credit hours)**Communication Minor Core (15 credit hours)****COM 210 - Interpersonal Communication**

(3) Offers an examination of relational development, conflict management, self-concept, self-disclosure, and attraction within the context of one-on-one communication.

When Offered

Every spring semester.

COM 215 - Mass Media and Ethics

(3) This course is designed to explore the history and makeup of the various mediums that exist in our world, how they correlate, interact, and influence our culture, and how we as Christians are called to discern their value and impact on our world. The course is a survey course of the various mediums with particular emphasis on the media that we use daily and the ethical principles and standards we use to communicate mediated messages.

Prerequisites: Sophomore standing.

When Offered

Every spring semester.

COM 314 - Cross-Cultural Communication

(3) Examines Issues, theories, research, and strategies related to developing effective communication practices between diverse cultures. Consideration of biblical principles related to peoples and issues within various cultural backgrounds and experiences.

Prerequisites: COM 103.

When Offered

Every fall semester.

COM 320 - Small Group Communication

(3) Systematic study and practice of the principles of effective communication in groups; exploration of features unique to small group interaction including the exploration of public discussion formats.

Prerequisites: COM 103.

Notes: Junior or senior standing or permission of the instructor.

When Offered

Every spring semester.

COM 360 - Persuasion and Attitude Change

(3) This course prepares students to understand the relationship between persuasion and social change, including theories of attitude and behavioral change, and contemporary theories of persuasion. Students will think critically about message strategies and tactics, and consider attitude formation and change through strategic communication.

Prerequisites: COM 103.

When Offered

Every spring semester.

Communication Minor Elective (3 credit hours)

Choose one course (3 credit hours) from the following:

COM 301 - Advanced Public Speaking

(3) Integrates theory and development of advanced skill sets related to effective oral communication. Uses a variety of speaking assignments designed to provide a broad context for skill development.

Prerequisites: COM 103.

Notes: Junior or senior standing or permission of instructor.

When Offered

Every spring semester.

COM 403 - Organizational Communication

(3) Integration of communication, management, and organizational theory; provides historical and contemporary vantage points of communication's role in organizational operation.

Prerequisites: Junior or Senior standing.

When Offered

Every fall semester.

COM 485 - Advanced Interpersonal Relations

(3) Examination of a variety of communication variables related to issues of human interaction. Course content includes a discussion of the application of theory and faith to personal and professional relationships.

Prerequisites: COM 210, Junior or Senior standing.

When Offered

Every fall semester.

Creative Writing Minor

Students of any major may minor in Creative Writing. The minor will provide a better working knowledge of creative literary production and significant practice in creative output for multiple genres, including fiction, poetry, and creative nonfiction.

Students may earn a minor in the field by completing the following 18 credit hours and all corresponding prerequisites provided none of the courses is required in the student's major.

Required Courses (18 credit hours)

Required Core (3 credit hours)

ENG 230 - Introduction to Creative Writing

(3) Study and practice the methods, structures, and conventions of fiction, poetry, and other genres of creative writing.

Prerequisites: ENG 102 or permission of the instructor.

When Offered

Fall and spring semester.

Advanced Creative Writing Core (6-9 credit hours)

Choose two or three of the courses listed below:

ENG 420 - Advanced Creative Writing: Poetry

(3) Technique, writing practice, and criticism.

Prerequisites: ENG 230 and junior/senior status or permission of the instructor.

When Offered

Even fall semesters.

ENG 430 - Advanced Creative Writing: Fiction

(3) Technique, writing practice, and criticism. Publishing guidelines.

Prerequisites: ENG 230 and junior/senior status or permission of the instructor.

When Offered

Odd spring semesters.

ENG 435 - Advanced Creative Writing: Special Topics

(3) Techniques of writing with particular attention paid to writing workshops and publishing guidelines. Topics may include Creative Nonfiction, Writing for Stage and Screen, Devotional Writing, Feature Writing, etc. Topics will vary based on student interest and faculty availability.

Prerequisites: ENG 230 and junior/senior status or permission of the instructor.

Notes: May be repeated for credit with a maximum of 6 credit hours applied toward the English major.

When Offered

Odd fall and even spring semesters.

Literature Core (6-9 credit hours)

Choose two or three of the courses listed below:

ENG 305 - Poetry Seminar

(3) Interpretation and critical reading, structures, and conventions of poetry in English, past and present.

Prerequisites: One of the following: ENG 201, ENG 202, ENG 203, ENG 204, or ENG 205.

When Offered

Odd fall semesters.

ENG 310 - History of the British Novel

(3) Representative novels by British authors in various historical periods depicting human responses to differing economic, political, psychological, and social issues. Includes interpretation and criticism of the novel.

Prerequisites: Junior or Senior Status.

When Offered

Every fall semester.

ENG 340 - American Ethnic Literatures

(3) Fiction, poetry, and nonfiction by major writers from American ethnic backgrounds (African, Asian, Jewish, Hispanic/Latino, and Native American, and others) are analyzed, and literary criticism on American ethnic literary concerns is integrated into analysis of primary texts.

Prerequisites: One of the following: ENG 201, ENG 202, ENG 203, ENG 204 or ENG 205.

When Offered

Even fall semesters.

ENG 360 - World Literature

(3) Multinational works of contemporary literature in English translation. Central human dilemmas and the role of literature in other societies.

Prerequisites: One of the following: ENG 201, ENG 202, ENG 203, ENG 204 or ENG 205.

When Offered

Odd fall semesters.

ENG 380 - Christian Writers

(3) Foundational literary works by Christian writers: their scriptural, historical, and cultural influences, from the medieval period to the present.

Prerequisites: One of the following: ENG 201, ENG 202, ENG 203, ENG 204 or ENG 205.

When Offered

Even spring semesters.

ENG 408 - Seminar in Literary Topics

(3) This seminar provides a variety of literary topics for analysis and discussion. Previous Seminars in Literary Topics have been on Detective Fiction, Tolkien, Russian Literature, the Romantics, Conversations with the Classics, Great Books, and others.

Prerequisites: Junior or Senior Status.

Notes: May be repeated for a maximum of 6 credit hours applied toward the English major.

When Offered

Scheduled by School.

Digital Media Minor

The Digital Media minor introduces students to the field of social media, digital communication, and technology. It is designed to provide students with the visual and technical skills to understand the impact of social media in society, acquire technical skills in web and graphic design, produce digital content and embrace the idea of innovation. The minor is an ideal complement for students from all majors looking for more effective and creative communication tools in the digital world.

Students may earn a minor in Digital Media by completing the following 18 credit hours. There can be no overlap of credits between a minor and a major, a minor and an emphasis, or a minor and a cross-disciplinary study. Students may not earn a major in Strategic Communication and a minor in Digital Media.

Digital Media Minor (18 credit hours)

Digital Media Minor Core (12 credit hours)

COM 206 - Visual Storytelling and Digital Media Production

(3) Through readings, lectures, demonstrations, and hands-on exercises, critical thinking and collaborative teamwork, students explore the art and business of visual storytelling. The course has an emphasis of storytelling through graphic design for print and online digital media, media pre-production, production and digital non-linear editing, and includes writing and photography to complement the general skills needed by a business professional working in the communication/media field.

Fee

Course Fees apply.

When Offered

Every fall and spring semesters.

COM 355 - Social Media, Audience Analysis, and Analytics

(3) This course is designed to help students identify, study, and analyze audiences on social media in order to prepare better strategic communication messages. Students will discuss both the benefits and limitations of relying on social media data compared to traditional methods of marketing research, and learn how to develop effective social media messages and campaigns.

Prerequisites: COM 206.

When Offered

Every fall semester.

COM 375 - Visual Culture and Graphic Design

(3) This course will teach students how to examine and appreciate elements of culture expressed through visual images, and to develop a visual eye. Students will learn how to design with specific audiences in mind, and edit images using Classic Adobe Suite: Photoshop, Illustrator, and InDesign.

Prerequisites: COM 206, Junior or Senior standing.

When Offered

Every fall semester.

COM 475 - Senior Seminar: Innovation, Creativity, and Change

(3) This capstone course explores the antecedents, processes, and constraints of creativity, and how creativity is cultivated for innovation, especially applied to the field of strategic communication. In addition, students will assemble a portfolio of their strategic communication work, and explore vocation and work, job searching, finances, and relationships, helping them transition from college to professional work life.

Prerequisites: COM 206; Senior standing.

When Offered

Every spring semester.

Digital Media Minor Elective (6 credit hours)

Choose 6 credit hours from the following:

CIS 137 - Web Design Fundamentals

(3) A company's website serves as the front door for customers. The site's appeal, ease of use, and quality of interaction will determine profits. This course covers the computer languages of HTML, CSS, and JavaScript, allowing students to produce web pages that can be intuitively understood by users. Students learn to design with many forms of data, including hypertext, graphics, audio, and video to create superior interactive web pages.

Prerequisites: CIS 130.

When Offered

Every spring semester.

COM 180 - University Media Workshop - Level I

(1) This lab course is designed for students to work individually and collaboratively in a media environment to develop basic skills through various creative tools to produce and create content for various CCU student media outlets.

Notes: Lab course; may be repeated for maximum of 3 credits.

Fee

Course fees apply.

When Offered

Every fall and spring semester.

COM 280 - University Media Workshop - Level II

(1) Students in this course progress to an advanced skill level in creating, writing, directing, editing, and producing media content using media equipment and software designed for these purposes.

Prerequisites: COM 180.

Lab/Lecture Hours

Lab course.

Notes: Lab course; may be repeated for a maximum of 3 credits.

Fee

Course fees apply.

When Offered

Every fall and spring semester.

COM 380 - University Media Workshop - Level III

(1) Students in this course have developed advanced skill level in creating, writing, directing, editing, and producing media content and service in various leadership roles (e.g., producers editors, designers) in student media productions.

Prerequisites: COM 280; Sophomore standing.

Notes: Lab course; may be repeated for maximum of 3 credits.

Fee

Course fees apply.

When Offered

Every fall and spring semester.

COM 398 - Special Topics: Advanced Skill Development

(1) This course allows students to learn essential skills in strategic communication and digital media on specific topics. Various aspects of web and graphic design and audio and video production are some of the topics that may be taught in this course.

Prerequisites: COM 206 or instructor permission.

Notes: Graded; may be repeated for credit, but only 3 total credit hours count toward the major (Strategic Communication with Digital Media emphasis) or minor (Digital Media).

When Offered

Scheduled by School.

Advanced video production

Advanced podcast production

Advanced graphic design

Advanced web design

MUS 271 - Music Production and Engineering I

(3) This course serves as an introduction to music production and recording software. Students gain an understanding regarding the strengths of various software options including Pro Tools and Ableton. Students learn to edit audio files in Pro Tools, keyboard shortcuts, and general understanding of the software. They work with MIDI, virtual instruments and

related topics.

Prerequisites: Music, StratCom, or Digital Media Majors only.

When Offered

Every fall semester.

English Minor

Students may earn a minor in the field by completing the following 18 credit hours provided none of the courses is required in the student's major.

Required Courses (18 credit hours)

Required Core (12 credit hours)

ENG 202 - American Literature I

(3) Representative stories, poems, and documents in American literature from the Colonial era to the early Republic (1776-1830) through the Romantic-transcendentalist period (1830-1860). Includes readings from multiethnic and women writers.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every fall semester.

ENG 203 - American Literature II

(3) Representative stories, poems, and drama in American literature from the Civil War to the present. Nontraditional ethnic and women's voices included. Emphasis on interpretation and criticism of American literature.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every spring semester.

ENG 204 - British Literature I

(3) Surveys the history of literature in Britain until 1800 and representative works by influential writers of the periods contained therein.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every fall semester.

ENG 205 - British Literature II

(3) Surveys the history of literature in Britain from 1800 to the present and representative works by influential writers.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every spring semester.

ENG 230 - Introduction to Creative Writing

(3) Study and practice the methods, structures, and conventions of fiction, poetry, and other genres of creative writing.

Prerequisites: ENG 102 or permission of the instructor.

When Offered

Fall and spring semester.

Elective Core (6 credit hours)

Choose two courses (6 credit hours) of upper level (300 or above) English courses.

Global Studies Minor

Students may earn a minor in the field by completing the following 18 credit hours and corresponding prerequisites provided none of the courses is required in the student's major.

Required Courses (18 credit hours)

GLS 203 - Introduction to Global Studies

(3) Relationships between sovereign states in the global community; concepts of national interests, goals of foreign policies; interactions between nation-states and the resolution of international conflicts; geography and geopolitics; the first, second, and third worlds; and current affairs and controversial issues.

When Offered

Every fall semester.

GLS 465 - Senior Seminar

(3) The purpose of this capstone course is to provide a Christ-centered perspective on the social and economic issues that affect the global arena. This course is designed to integrate the material from political science, economics, history, and global studies into the concept of our responsibility for Christ's mandate to the Church. Theories of justice from secular as well as from a Christian perspective will be used as lenses through which to study social and economic issues facing the world today.

Prerequisites: Senior standing.

When Offered

Every spring semester.

HIS 186 - The Birth of the Modern World

(3) A study of the political, social, economic, intellectual, and religious developments in Europe from the 16th century and the impact of the West as it expanded its influence around the world.

When Offered

Every spring semester.

POL 233 - World Politics

(3) This course introduces students to the theories and key concepts of international relations and to comparative political and economic systems.

When Offered

Every fall semester.

COM 314 - Cross-Cultural Communication

(3) Examines Issues, theories, research, and strategies related to developing effective communication practices between diverse cultures. Consideration of biblical principles related to peoples and issues within various cultural backgrounds and experiences.

Prerequisites: COM 103.

When Offered

Every fall semester.

LED 205 - Cross Cultural Leadership

(3) This century will be remembered for intense globalization. In this course students discover how multifarious cultures view the world and leadership by studying ways to categorize cultures, apply insights from the Hofstede value dimensions in leadership decisions, and better navigate differences in work habits, communication, and religion/philosophy. Students learn to stretch their own perspectives and gain a deeper knowledge of themselves.

Prerequisites: LED 101.

When Offered

Every spring semester.

Choose one of the following:

BUS 370 - International Business

(3) The Internet has made international business everyone's business. In this course students learn about international organizations, the global monetary system, regional trading blocs, and how politics and culture impact doing business abroad. This course surveys each of the functional areas of business (finance, marketing, organization, strategy, etc.) to help students assess opportunities, mitigate risk, and create and capture value.

When Offered

Every spring semester.

ECO 315 - Economic Development

(3) In this course students learn the significance of economic and political institutions and explore macroeconomic growth strategies. Since human nature is at the heart of every economy, students explore poverty as material and spiritual are equipped to exercise compassion without compromising human dignity.

Prerequisites: ECO 215.

When Offered

Every fall semester.

GLS 322 - The World Since 1945

(3) Contemporary world history is vital to understanding the present world situation. We live in a vast network of political, social, economic, and religious beliefs that continuously affect our lives. To better understand this world as well as the perspectives of others we encounter, we must know the events of the last 50 years. These include: the Cold War, the disparity between rich and poor nations, and intellectual and spiritual issues of our present technological age.

Prerequisites: Junior standing.

When Offered

Every spring semester.

GLS 384 - History of the Middle East

(3) An in-depth examination of the historic development of the nations and people of the Middle East from the time of the birth of Islam to the 20th century. Special emphasis will be placed on the historic religious, political, and cultural developments that have led to the conflicts of the 20th century.

When Offered

Even fall semesters.

GLS 385 - Contemporary Latin America

(3) Historical and cultural development of modern Latin America, beginning with the pre-European period, the Spanish and Portuguese colonial period, the 19th century independence movement, and emphasizing 20th century issues and problems, including the relationships of these countries with the United States.

When Offered

Odd spring semesters.

GLS 386 - Contemporary Asia

(3) A comprehensive examination of the origin and development of the civilizations of China, India, and Japan, with emphasis on literature, religion, philosophy, anthropology, and history, and the interaction of these historic cultures with the West in general and the United States in particular.

When Offered

Odd fall semesters.

GLS 387 - Contemporary Africa

(3) The diverse cultural, political, and economic history of the people, societies, and nations of Africa from the pre-European conquest through European colonialism and imperialism to the emergence of Modern Africa.

When Offered

Even spring semesters.

GLS 388 - Contemporary Middle East

(3) This class explores the religion, politics, and culture of the contemporary Middle East, starting with the end of World War II and the birth of modern Israel. It tracks contemporary Islamic movements, political developments within the Islamic

world, and the rise of radical ideologies and organizations.

When Offered

Odd fall semesters.

POL 301 - Political Economy

(3) This course provides an overview of the intersection of politics and economics, particularly in macroeconomics, fiscal and monetary policy; also explores comparative economic systems, free markets and trade. Students will also engage and integrate the subject matter themes with concepts of political theory, such as justice, freedom, property ownership, and stewardship.

Prerequisites: ECO 215; POL 207 or POL 233.

When Offered

Every fall semester.

POL 324 - Foreign Policy and Diplomacy

(3) This course examines the history of U.S. foreign policy; foreign policy processes and theories; key global organizations; and comparative foreign policies of world powers.

Prerequisites: POL 233.

When Offered

Every spring semester.

POL 472 - Seminar in Politics

(3) This seminar provides a variety of political topics for analysis and discussion, such as terrorism, human trafficking, or film and politics.

Prerequisites: POL 207; Junior or Senior standing.

Notes: May be repeated for credit with a maximum of six credit hours applied toward the major.

When Offered

Every spring semester.

History Minor

Students may earn a minor in the field by completing the following 18 credit hours and corresponding prerequisites provided none of the courses is required in the student's major.

Required Courses (18 credit hours)

Required Core (12 credit hours)

GLS 321 - The World at War (1900-1945)

(3) This course is designed for advanced students of history and global studies. Our modern culture is a product of the political, social, economic and ideological trends that developed in this period. This class begins with final days of the great European empires over 100 years ago and concludes with the end of World War II in 1945. The primary emphasis is to understand how democracy, individual freedom, human rights, and technological progress were nourished and propagated in spite of the resistance of traditional elites and the challenges of Communist and Fascist ideologies.

Prerequisites: Junior standing.

When Offered

Every fall semester.

GLS 322 - The World Since 1945

(3) Contemporary world history is vital to understanding the present world situation. We live in a vast network of political, social, economic, and religious beliefs that continuously affect our lives. To better understand this world as well as the perspectives of others we encounter, we must know the events of the last 50 years. These include: the Cold War, the disparity between rich and poor nations, and intellectual and spiritual issues of our present technological age.

Prerequisites: Junior standing.

When Offered

Every spring semester.

HIS 186 - The Birth of the Modern World

(3) A study of the political, social, economic, intellectual, and religious developments in Europe from the 16th century and the impact of the West as it expanded its influence around the world.

When Offered

Every spring semester.

HIS 206 - The Making of Modern America

(3) This course centers on the development of America politically, socially, economically, and religiously from the Civil War Era to the 20th century.

When Offered

Odd fall semesters.

Elective Core (6 credit hours)

Choose one course from the following (3 credit hours)

HIS 313 - Ancient Mediterranean World

(3) The extraordinary transformations of the ancient Mediterranean world are examined from 2000 B.C. through the onset of the first century A.D. The ways in which the Aegean, Greek, and Roman civilizations shaped their world are examined along with their multiple contributions to the shaping of our world.

Prerequisites: HIS 185.

When Offered

Even fall semesters.

HIS 314 - Roman Empire and Medieval Europe

(3) A study of the shaping of the western world from the first century to the fifteenth century. Special emphasis is on the development of the Christian Church during this time period.

When Offered

Odd spring semesters.

HIS 315 - Early Modern Europe

(3) This course explores the individuals, events, and trends in Europe beginning with the fifteenth-century Italian Renaissance and its expansion into the rest of Europe. The Protestant Reformation and the resultant era of religious warfare are covered in detail, culminating with the Thirty Years' War in the early seventeenth century.

When Offered

Odd fall semesters.

HIS 317 - Modern Europe

(3) This course surveys the individuals, events, intellectual developments, and cultural trends influencing 17th, 18th, and 19th century Europe, starting with the Thirty Years' War to the end of Victorian Britain. This course explores trends in British and continental history alike, with special emphasis given to the English Civil War, the Glorious Revolution, the Enlightenment, the French Revolution, and the Industrial Revolution in Victorian Britain.

When Offered

Even spring semesters.

Choose one course from the following (3 credit hours)

HIS 303 - American Church History

(3) History of the Christian experience in America from the Colonial era to the present. Examination of the differences in theology and polity among the major denominations.

When Offered

Odd spring semesters.

HIS 340 - The American Civil War and Reconstruction

(3) Study of the causes, main events, and significance of the American Civil War. Emphasis on the historiography of this central event in American history.

When Offered

Even spring semesters.

HIS 360 - The American West

(3) Concentrated study of the history of the Trans-Mississippi West. The settling and social, economic and political development of this region. Attention to the Native Americans, Hispanics, Asians, and other ethnic groups who played a significant role in the West.

When Offered

Odd fall semesters.

HIS 365 - The American Founding

(3) This course examines the birth of the United States of America in the late eighteenth century and the transition from the British colonial experience to that of a federated union of states. Besides the political, cultural, and ethical issues involved in this transition, this course also explores the role of the Christian religion in the founding and establishment of the United States. To that end, this course examines the role that Christianity played in forming the social, legal, and political structures of American society, as well as explores in what sense America is or is not to be considered a Christian nation.

When Offered

Even fall semesters.

Politics Minor

Students may earn a minor in the field by completing the following 18 credit hours provided none of the courses is required in the student's major.

Required Courses (18 credit hours)

Required Core (9 credit hours)**POL 210 - Christian Political Thought**

(3) This course examines contemporary expressions of Christian political thought as well as the thought of leading Christian thinkers from the Western Christian political tradition by comparing their respective claims with biblical revelation. Students will conclude the course by applying their own views to contemporary issues.

When Offered

Even spring semesters.

POL 233 - World Politics

(3) This course introduces students to the theories and key concepts of international relations and to comparative political and economic systems.

When Offered

Every fall semester.

POL 472 - Seminar in Politics

(3) This seminar provides a variety of political topics for analysis and discussion, such as terrorism, human trafficking, or film and politics.

Prerequisites: POL 207; Junior or Senior standing.

Notes: May be repeated for credit with a maximum of six credit hours applied toward the major.

When Offered

Every spring semester.

Elective Core (9 credit hours)

Choose three courses from the following (9 credit hours):

POL 301 - Political Economy

(3) This course provides an overview of the intersection of politics and economics, particularly in macroeconomics, fiscal and monetary policy; also explores comparative economic systems, free markets and trade. Students will also engage and integrate the subject matter themes with concepts of political theory, such as justice, freedom, property ownership, and stewardship.

Prerequisites: ECO 215; POL 207 or POL 233.

When Offered

Every fall semester.

POL 304 - Public Administration

(3) This course introduces and develops the concepts, nature and scope of public service in state and local government; examines the role of government in modern society, and practical and ethical issues in public service.

Prerequisites: POL 207.

When Offered

Odd spring semesters.

POL 324 - Foreign Policy and Diplomacy

(3) This course examines the history of U.S. foreign policy; foreign policy processes and theories; key global organizations; and comparative foreign policies of world powers.

Prerequisites: POL 233.

When Offered

Every spring semester.

POL 378 - Washington Week

(3) Students from diverse majors spend a week in Washington, D.C. focused on the workings of the federal government, public policy think tanks, and current issues facing the nation. Students hear directly from some of the nation's most important experts in policy areas ranging from domestic concerns to international relations. This course may substitute for a major course or general education course.

Fee

Travel fees apply.

When Offered

Even spring semesters.

POL 381 - American Political Rhetoric

(3) This course examines the history of American political thought with particular attention paid to the historical context and rhetorical dimension of each work in order to grasp the universal claims and historical particulars embedded within our American political tradition.

Prerequisites: POL 207 or POL 210.

When Offered

Odd fall semesters.

POL 401 - Political Parties and Elections

(3) This course analyzes the history, philosophy, organization and functioning of America's political parties. Explores the mechanics of the electoral process including issue formation and campaign strategy, organization development, redistricting, polling, and campaign financing.

Prerequisites: POL 207.

When Offered

Even fall semesters.

POL 462 - Congress and the Presidency

(3) This course examines executive power and the Constitutional design and purpose of the United States Presidency. Additionally, the nature of legislative power and its institutionalization in the House of Representatives and Senate under the Constitution is examined. Extensive consideration is given to the shift in power from Congress to the President and how this relates to the Constitution.

Prerequisites: POL 207.

When Offered

Even spring semesters.

POL 463 - Supreme Court and Constitutional Law

(3) A study of the historical development of the Supreme Court and select constitutional cases from the American founding to the present. Emphasis is placed on landmark court cases, as well as the evolving place of the Supreme Court within the American political system.

Prerequisites: POL 207.

When Offered

Even fall semesters.

Psychology Minor (CUS)

Students may earn a minor in the field by completing the following 18 hours and any required prerequisites, provided none of the courses is required in the student's major:

Required Courses (18 credit hours)

Required Core (12 credit hours)

PSY 101 - Introduction to Psychology

(3) This course provides an overview of the field of psychology, including psychological principles, methods, theories, and research broadly applied to various domains within the discipline. This course will equip students to understand the theoretical and philosophical foundations of contemporary psychology in light of a Christian worldview, and proposes an integrated framework from which to approach psychology and their Christian faith.

When Offered

Every fall and spring semesters.

PSY 201 - Social Psychology

(3) An overarching theme for the CCU Psychology program is that we are, at our core, relational persons. No area of psychology exemplifies this more consistently than social psychology. This course focuses on the powerful influence that groups can have on individuals, as well as evidence that humans are strongly motivated to seek relationships with others.

When Offered

Every spring semester.

PSY 245 - Life-Span Psychology

(3) The pattern of human development shows certain goals and tasks that are almost universal across persons, yet each of us is differently shaped by our experiences and our genetics. In this course, we explore how much and in what ways people change and compare the various theories with a Christian understanding of the direction of development.

When Offered

Every fall semester.

PSY 231 - Transformational Psychology

(3) Transformational psychology seeks to develop the kind of person-scientist by the spiritual disciplines, which encourages and protects the methodology of doing science in God in order to produce a body of knowledge of the person, leading to the fruit of praxis of soul care and the transformation and training of the scientist/therapist/psychologist in the love of God and neighbor.

Prerequisites: PSY 101.

When Offered

Every fall and spring semesters.

PSY 301 - Theories of Personality

(3) This course provides a critique of personality theories based on the key themes of the psychology program and provides some direction for Christians grappling with alternatives to the "standard" personality models in psychology.

Prerequisites: PSY 101; PSY 201 or PSY 245.

When Offered

Every fall semester.

PSY 302 - Abnormal Psychology

(3) This course focuses on the difficulty in defining both normality and psychological disorder, and on how God views individuals with such conditions. We also explore how we can determine whether mental disorders should be considered spiritual, biological, social, or willful problems of living.

Prerequisites: PSY 101, PSY 201 or PSY 245.

When Offered

Every fall semester.

Elective Core (6 credit hours)

Choose two courses from the following:

PSY 315 - Group Processing and Community

(3) Christians are called to be in community, thus various types of groups become a foundational part of our faith experience. This course investigates group process principles and the nature of groups. Practical application of the theoretical concepts and the development of group-related skills are emphasized.

Prerequisites: PSY 101.

When Offered

Odd fall semesters.

PSY 323 - Forensic Psychology

(3) Forensic psychology examines the current research in areas of: patterns of criminal offending behaviors and antisocial personality, juror bias and jury selection, hypnosis and lie detection, criminal profiling, police selection, gangs, eyewitness testimony, and areas of conflict between psychology and the law. The course includes an examination of psychological interventions in law as well.

When Offered

Even fall semesters.

PSY 330 - Human Sexuality and Personhood

(3) This course examines the major developments regarding human sexuality and the plethora of issues surrounding humans and their sexuality. We address both healthy and unhealthy practices from a Christian worldview, and firmly place human sexuality within the context and understanding of personhood.

When Offered

Every fall and spring semesters.

PSY 370 - Crisis and Trauma

(3) Conceptual framework for post-traumatic stress disorder and suicide; psychological and spiritual techniques to facilitate recovery.

When Offered

Odd spring semesters.

PSY 380 - Addictions

(3) Causes and treatments of addictive behaviors, including a focus on physiological, emotional, and spiritual components.

When Offered

Every fall semester.

PSY 404 - Family Dynamics

(3) This class investigates the field of family psychology. Topics include the family as a system, marriage and family issues, parenting, marital relationships, family communication, and conflict resolution. These psychological concepts are studied to help students learn how these issues can be understood in light of their own families with an emphasis on the integration of concepts into a Christian worldview.

Prerequisites: PSY 101.

When Offered

Every spring semester.

PSY 406 - Clinical Neuroscience

(3) Memory and remembering are mentioned many times in the Bible in the context of relationships. Being relational persons requires memory. The fundamental concepts and current issues in the psychology of learning and memory are examined. Emphasis is placed on theoretical and experimental treatment of the learning and cognitive processes of normal humans.

Prerequisites: PSY 101. Junior or Senior status.

When Offered

Every spring semester.

PSY 408 - Research Methodology

(3) Various research designs used in psychological research, assessing and choosing researchable topics, gathering pertinent literature for review, designing protocol for experiments and surveys, conducting research, and reporting findings in American Psychological Association format are discussed and applied to a student project.

Prerequisites: PSY 101, MAT 212.

When Offered

Scheduled by School.

PSY 412 - Clinical Counseling Methods

(3) This course gives students the opportunity to bring together their knowledge of the relationship between Christianity and psychology into the applied setting of counseling. It will examine the prevailing secular theories of psychotherapy and also present an overview of the five different models of counseling and soul care within the Christian context.

Prerequisites: PSY 301 and PSY 302.

When Offered

Every spring semester.

PSY 416 - Seminar in Psychology

(3) This seminar provides a variety of topics pertinent to psychology and the human condition for analysis and discussion.

Prerequisites: PSY 101; Sophomore standing or above.

Notes: May be repeated for credit with a maximum of six credit hours applied toward the major. Additional registration will be applied to the student's general elective requirement.

When Offered

Every fall and spring semester.

- Either PSY 301 or PSY 302 can be chosen if not included in the Required Core.

Public Relations Minor

The Public Relations minor is a great complement to students in academic programs such as Business, Biblical Studies, Music Education, Management, Marketing, Theatre, Leadership, and others who want to learn how to communicate effectively, practically, and creatively within their fields.

Students may earn a minor in Public Relations by completing the following 18 credit hours. There can be no overlap of credits between a minor and a major, a minor and an emphasis, or a minor and a cross-disciplinary study. Students may not earn a major in Strategic Communication and a minor in Public Relations.

Public Relations Minor (18 credit hours)

Public Relations Minor Core (15 credit hours)

COM 206 - Visual Storytelling and Digital Media Production

(3) Through readings, lectures, demonstrations, and hands-on exercises, critical thinking and collaborative teamwork, students explore the art and business of visual storytelling. The course has an emphasis of storytelling through graphic design for print and online digital media, media pre-production, production and digital non-linear editing, and includes writing and photography to complement the general skills needed by a business professional working in the communication/media field.

Fee

Course Fees apply.

When Offered

Every fall and spring semesters.

COM 247 - Writing for Communication

(3) This course prepares students to write efficiently and creatively across different print and media platforms. Emphasis is on the diverse formats of writing in print, for broadcast, business, and online settings as well as the distinct styles, formats, and philosophies of those mediums. Students develop a portfolio with professional writing pieces for strategic communication, media, online platforms, and advanced study.

When Offered

Every fall and spring semesters.

COM 315 - Public Relations

(3) Introduces and develops a clear concept of public relations as a communication profession along with the necessary skills to become proficient in the field. Topics include the function of public relations in both public and private enterprises, the process of planning and implementing a public relations communication campaign, techniques for communicating with various publics, crisis communication, and the laws and ethics governing the practice of public relations.

Prerequisites: COM 103, COM 247.

When Offered

Every fall semester.

COM 445 - Strategic Communication Campaigns

(3) This course is an exploration of steps to produce creative campaigns for movement of organizations, products, and services toward growth. Students will engage in a multi-platform approach for the purpose of benefiting organizations or bringing about change with an emphasis on problem solving and instilling a professional work ethic.

Prerequisites: COM 206, COM 247, COM 315.

When Offered

Every spring semester.

COM 355 - Social Media, Audience Analysis, and Analytics

(3) This course is designed to help students identify, study, and analyze audiences on social media in order to prepare better strategic communication messages. Students will discuss both the benefits and limitations of relying on social media data compared to traditional methods of marketing research, and learn how to develop effective social media messages and campaigns.

Prerequisites: COM 206.

When Offered

Every fall semester.

Public Relations Minor Elective (3 credit hours)

Choose one course (3 credit hours) from the following:

COM 375 - Visual Culture and Graphic Design

(3) This course will teach students how to examine and appreciate elements of culture expressed through visual images, and to develop a visual eye. Students will learn how to design with specific audiences in mind, and edit images using Classic Adobe Suite: Photoshop, Illustrator, and InDesign.

Prerequisites: COM 206, Junior or Senior standing.

When Offered

Every fall semester.

COM 475 - Senior Seminar: Innovation, Creativity, and Change

(3) This capstone course explores the antecedents, processes, and constraints of creativity, and how creativity is cultivated for innovation, especially applied to the field of strategic communication. In addition, students will assemble a portfolio of their strategic communication work, and explore vocation and work, job searching, finances, and relationships, helping them transition from college to professional work life.

Prerequisites: COM 206; Senior standing.

When Offered

Every spring semester.

MKT 202 - Principles of Marketing

(3) Marketing is not tricking people into buying something, but rather involves creating genuine value for customers. Students learn how to use the marketing mix (product, price, promotion, and place) and STP (segmenting, targeting, and positioning) as well as better understand advertising, logistics, data analytics, online marketing, pricing, and ethics. The final group project includes a real-world application to rebrand and market a company.

When Offered

Every fall semester.

Sacred Music and Literature Minor

The Minor in Sacred Music and Literature constitutes an interdisciplinary course of study in Christian aesthetics, art and music history, poetry, and liturgical practice. The program provides students with the opportunity to integrate their studies in theology, history, music, art, and literature with broader aspects and trends in the church and the world. Through a carefully selected series of classes from various schools in the college, and culminating in two semesters of unique interdisciplinary seminars, students will go beyond their initial exposure through the general education core, studying each art form and its history in the context of the church in-depth. The minor culminates in a publicly presented research project, demonstrating students' readiness to serve the church, pursue graduate study if desired, and communicate effectively with the world.

Students may earn a minor in the field by completing 18 credit hours (courses vary depending on area of major study).

Sacred Music and Literature Minor Required Courses (18 credit hours)

MUS 340 - Seminar in Sacred Music and Literature is taken for two semesters (6 credit hours), and includes a thesis or research project supervised by seminar faculty.

Required Courses for Biblical Studies, Ministry Management, Theology, Youth Ministry Majors**ENG 305 - Poetry Seminar**

(3) Interpretation and critical reading, structures, and conventions of poetry in English, past and present.

Prerequisites: One of the following: ENG 201, ENG 202, ENG 203, ENG 204, or ENG 205.

When Offered

Odd fall semesters.

ENG 420 - Advanced Creative Writing: Poetry

(3) Technique, writing practice, and criticism.

Prerequisites: ENG 230 and junior/senior status or permission of the instructor.

When Offered

Even fall semesters.

MUS 323 - History of Music I

(2) Historical study of the music of the Medieval, Renaissance, and Baroque periods of music history through readings, study of scores, listening, and analysis of stylistic characteristics of representative compositions. The study of the music is integrated with concurrent historical developments in government, politics, economics, geography, science, literature, painting, and philosophy,

When Offered

Every fall semester.

MUS 340 - Seminar in Sacred Music and Literature

(3) This is a team-taught interdisciplinary seminar in sacred music, literature, and the related arts. The course focuses on the arts in the context of the Christian life and the liturgy of the church. Students investigate primary sources, prepare for discussion, and have multiple opportunities for presentation to the class.

Prerequisites: Students with Junior or Senior standing.

When Offered

Every spring semester.

MUS 341 - Foundations of Worship and Worship Arts

(3) This course serves as an introductory study of the history, theology, and practice of biblical worship and worship arts. Course content will focus on the biblical, theological, historical, and practical foundations of worship and worship arts from Old Testament times to the present.

When Offered

Even fall semesters.

PHL 340 - Beauty, Desire, and Wisdom

(3) Why is there beauty in the world? What compels us to pursue it in the forms of art, relationships, and the things of the world around us? This course helps students understand the important but troubled relationship between beauty, desire, and the need for guiding wisdom.

Prerequisites: PHL 202.

When Offered

Every even fall semesters.

- One (1) additional credit hour. Choose from MUA 101-126, MUA 133, or MUE 100-117.

Required Courses for English Majors**MUS 323 - History of Music I**

(2) Historical study of the music of the Medieval, Renaissance, and Baroque periods of music history through readings, study of scores, listening, and analysis of stylistic characteristics of representative compositions. The study of the music is integrated with concurrent historical developments in government, politics, economics, geography, science, literature, painting, and philosophy.

When Offered

Every fall semester.

MUS 340 - Seminar in Sacred Music and Literature

(3) This is a team-taught interdisciplinary seminar in sacred music, literature, and the related arts. The course focuses on the arts in the context of the Christian life and the liturgy of the church. Students investigate primary sources, prepare for discussion, and have multiple opportunities for presentation to the class.

Prerequisites: Students with Junior or Senior standing.

When Offered

Every spring semester.

MUS 341 - Foundations of Worship and Worship Arts

(3) This course serves as an introductory study of the history, theology, and practice of biblical worship and worship arts. Course content will focus on the biblical, theological, historical, and practical foundations of worship and worship arts from Old Testament times to the present.

When Offered

Even fall semesters.

PHL 340 - Beauty, Desire, and Wisdom

(3) Why is there beauty in the world? What compels us to pursue it in the forms of art, relationships, and the things of the world around us? This course helps students understand the important but troubled relationship between beauty, desire, and the need for guiding wisdom.

Prerequisites: PHL 202.

When Offered

Every even fall semesters.

THE 309 - History of Christianity

(3) This course provides an overview of the history of Christianity from the post-apostolic era up to the present day. Focus is given to benchmark events, persons, trends in worship practice and spirituality, doctrinal developments and emphases, and interaction between Christianity and culture over the course of two millennia.

Prerequisites: BIB 111 or HIS 111; BIB 114 or HUM 114.

When Offered

Every fall and spring semesters.

- One (1) additional credit hour. Choose from MUA 101-126, MUA 133, or MUE 100-117.

Required Courses for Music Education, Music, and Music with emphases in Performance, Production and Engineering, Music Media and Marketing, and Composition Majors

ENG 305 - Poetry Seminar

(3) Interpretation and critical reading, structures, and conventions of poetry in English, past and present.

Prerequisites: One of the following: ENG 201, ENG 202, ENG 203, ENG 204, or ENG 205.

When Offered

Odd fall semesters.

ENG 420 - Advanced Creative Writing: Poetry

(3) Technique, writing practice, and criticism.

Prerequisites: ENG 230 and junior/senior status or permission of the instructor.

When Offered

Even fall semesters.

MUS 340 - Seminar in Sacred Music and Literature

(3) This is a team-taught interdisciplinary seminar in sacred music, literature, and the related arts. The course focuses on the arts in the context of the Christian life and the liturgy of the church. Students investigate primary sources, prepare for discussion, and have multiple opportunities for presentation to the class.

Prerequisites: Students with Junior or Senior standing.

When Offered

Every spring semester.

- One (1) additional credit hour. Choose from MUA 101-126, MUA 133, or MUE 100-117.

School of Music

Passionately Pursuing Excellence to the Glory of God

"Not that I have already obtained this, or have already been made perfect, but I press on to take hold of that for which Christ Jesus took hold of me. Brothers, I do not consider myself yet to have taken hold of it. But one thing I do: Forgetting what is behind and straining toward what is ahead, I press on toward the goal to win the prize for which God has called me heavenward in Christ Jesus." Philippians 3:12-14

Passion

The study of music requires great passion. Only those who are truly passionate are able to develop the disciplines necessary to be successful in music - to practice, study, perform, and teach others to do the same. There must be a passion, a fire that drives us to live out our calling in Christ. That passion will also fuel a desire for excellence.

Pursuit of Excellence

The pursuit of excellence is integral to music study. We who are believers have an even higher calling toward excellence as we bring our gifts of music performances not only for the enjoyment of our audiences, but also as an offering before the Lord. Just as our Creator God does all things well, we who are created in His image are to pursue that same excellence in all that we are called to do - pursuing excellence with the same passion that God pursues us.

Praise and Glory to God

Just as J.S. Bach signed his compositions with "Soli Deo Gloria" (to the glory of God alone), the School of Music at Colorado Christian University remains committed to providing world-class preparation for a life of service to the Lord through the Arts - a complete integration of our Christian faith into every aspect of music study and the performing arts to the praise and glory of God.

Performing Arts

The School of Music at Colorado Christian University currently offers five emphases in Music - performance, composition, music production and engineering, music education, and worship arts; as well as minors in Music, Theatre, and Music Theatre, including three main stage productions annually.

Majors

- Music Major - Music Composition
- Music Education K-12 Licensure (School of Music)
- Music Major
- Music Major - Music Media and Marketing
- Music Major - Music Performance
- Music Major - Music Production and Engineering
- Worship Arts Major

Minors

- Dance Minor
- Music Minor
- Music Theatre Minor
- Sacred Music and Literature Minor
- Theatre Minor

Certificates

- Conducting Certificate

Admission, Continuation, and Scholarships

Along with being accepted by the University, students who desire to major or minor in music must complete a personal audition on their primary instrument or voice for the music faculty. This audition serves both for preliminary acceptance into the School of Music and for music scholarship consideration. Priority scholarship consideration is given to students auditioning before March 1 of each year. For formal acceptance to any music degree program, a Mid-Degree Screening takes place at the end of the sophomore year. Students must meet the following requirements:

- Completion of all lower-division courses specified for the major
- Achievement of junior status at the university
- Satisfactory performance on the piano proficiency examination
- Recommendation by the music faculty
- Students pursuing the Bachelor of Music - Music Education degree must also meet the admission and normal progress requirements of the School of Education.

Credit Hours for Music Courses

All courses follow the standard Carnegie credit hour assignments except for:

Applied Studies:

½ hour lesson = 1 credit

One-hour lesson = 2 credits

Ensembles:

Major Ensembles: Three 75-minute rehearsals per week = 1 credit hour

Secondary Ensembles: Two 75-minute rehearsals per week = 1 credit hour

Sightsinging and EarTraining & Methods Courses:

Lab: Two one-hour meetings per week = 1 credit hour

Bachelor's Degrees

Music Education K-12 Licensure (School of Music)

The Bachelor of Music degree with Music Education prepares students for Colorado Teacher Licensure in K-12 Music. Completion of the degree requires four years of study and includes 800 hours of practicum in elementary and secondary school settings.

CCU's School of Music shares the music education program with CCU's School of Education, which has been recognized by the state of Colorado as a program of excellence. The distinct focus on developing students who are servant-leaders as well as excellent practitioners has earned CCU graduates in music education teaching positions in both public and private schools throughout the state. The program also offers excellent preparation for graduate school.

The Bachelor of Music with Music Education requires completion of the following 128 credits:

General Education (42 credit hours)

Professional Education Core (18 credit hours)

Professional Music Education Core (16 credit hours)

Music Core (46 credit hours)

Primary Instrument (4 credit hours)

Electives (2 credit hours)

Music Education K-12 Licensure Program

General Education Requirements (42 credit hours)

Arts and Humanities (6 credit hours)

Take one course from each of the following two academic disciplines:

Philosophy (3 credit hours)

PHL 202 - Introduction to Philosophy

(3) This course is a survey of many major issues raised over the two-and-a-half millennia of western philosophy. With an emphasis on historical context and development, as well as philosophy's relationship to Christian thought, this course challenges students to critically explore philosophical questions and introduce them to the great tradition of intellectual inquiry. Special attention will be given to the subjects of truth and knowledge, reality and appearance, mind and body, right and wrong, beauty and the existence of God.

When Offered

Fall and summer semesters.

Fine Arts (3 credit hours)

MUS 110 - Musical Perspectives

(3) An exploration of music in the broader context of culture and the arts; personal musical experiences through listening and doing; and developing the ability to discern aesthetic excellence. Included is an introduction to the elements of music and how music works, the development of a Christian perspective on the arts, a broad survey of representative selections of Western music, and a focused overview of non-western/world music.

Notes: This course satisfies the general education fine arts requirement for most students. It is recommended for all students, especially those with an interest in music, and is the required fine arts course for all music majors and minors. Students with a special interest in Theatre should see THR 112.

Note: MUS 110 does not satisfy the fine arts requirement for education majors.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

Biblical Studies (12 credit hours)

Take the following four courses:

HIS 111 - Old Testament

(3) This course provides an introduction to the theological, historical, and literary features of the Old Testament, tracing God's covenant relationship with ancient Israel. Special consideration will be given to the divine covenants and Messianic prophecies of the Old Testament.

When Offered

Every spring semester.

Cross-listed BIB 111.

HUM 114 - New Testament

(3) This course provides an introduction to the theological, historical, and literary features of the New Testament, tracing the presentation of the gospel message through historical, epistolary, and apocalyptic genres. Special consideration will be given to the life of Christ and missionary journeys of the Apostle Paul.

When Offered

Every fall semester.

Cross-listed BIB 114.

THE 201 - Introduction to Theology

(3) This course covers basic issues, themes, and categories of Christian theology, including the doctrines of Scripture, God, humanity, Christ, salvation, the church, and last things. This course encourages students to better know, trust, love, and live by God's Word.

Prerequisites: BIB 111, BIB 114.

When Offered

Fall, winter, spring, and summer semesters.

PHL 315 - World Religions and Systems of Belief

(3) This course introduces an academic study of religion and what is called worldview, supplemented by an overview of some of the major tenets of Christianity; this is then followed by a survey of several other religious traditions and competing philosophies.

Prerequisites: PHL 202, THE 201.

When Offered

Winter and spring semesters.

Communication (6 credit hours)

COM 103 - Public Speaking

(3) Introductory principles of communication emphasizing public speaking. Aspects of verbal and nonverbal delivery, speech organization, and the effective use of supporting material and presentational aids are addressed. Students give

several speeches designed to better equip them for future speaking endeavors

When Offered

Fall and spring semesters.

ENG 102 - English Composition

(3) Effective use of the English language and exploration of rhetorical modes in written composition. Review of structure, purpose, and audience awareness in developing essays.

Prerequisites: ACT and/or SAT scores will be used to determine placement in either ENG 102 or ENG 102 (Basic).

Notes: Course must be completed first semester at CCU.

When Offered

Fall and spring semester.

ENG 105 - Advanced English Composition

(3) Advanced English composition, research methods, and literary study for invited exceptional students. Focus on both the study of literature and research writing.

Prerequisites: One of the following:

- AP English Language and Composition
 - A score of 4 is the minimum prerequisite for enrollment in ENG 105. A student who scores a 4 or 5 will automatically enroll a student in ENG 105 instead of ENG 102 and/or ENG 201.
- AP English Literature and Composition
 - A score of 4 is the minimum prerequisite for enrollment in ENG 105. A student who scores a 4 or 5 will automatically enroll a student in ENG 105 instead of ENG 102 and/or ENG 201.
- Score of 30 or above on the verbal section of the ACT exam.
- Score of 700 or above on the verbal section of the SAT exam.
- By invitation of the English department.

Notes: Fulfills general education requirements for both ENG 102 and ENG 201.

When Offered

Every fall semester.

Integrative Studies (3 credit hours)

* Please see the First-Year Integration (FYI) page for specific information information about this required course.

INT 101 - First-Year Integration

(3) Think critically, grow spiritually, and change the world. Based on the premise that we as Christians are called to be rational creatures, relational creatures, and responsible creatures, FYI is an integrative study of foundational Christian principles with other disciplines. Examination and discussion of problems and contemporary issues - academic, personal, and social - facing students in their pursuit of success in college and life. Please see the First-Year Integration (FYI) page for specific information about this required course.

When Offered

Fall and spring semesters.

Mathematics (3 credit hours)

MAT 112 - Mathematics for Liberal Arts

(3) This course introduces some of the important ideas in mathematics and how they can be applied in everyday life situations, solving a wide range of practical problems. Topics include sets, logic, history of numeration, number systems and their properties, number patterns, counting principles, probability, statistics, graph theory, personal finance, and voting methods.

Notes: Students with higher level mathematics skills (i.e. ACT MAT above 20 and SAT MATH above 520) are discouraged from taking this class. Only students who do not place into MAT 111 - College Algebra should enroll in MAT 112 - Mathematics for Liberal Arts.

When Offered

Fall, spring and summer semesters.

Or higher - While Statistics is a valuable course for educators, MAT 212 cannot be used to fulfill General Education requirements.

Science (3 credit hours)

SCI 230 - Integrated Physical Science with Lab

(3) This is an integrated course presenting the major concepts, theoretical perspectives, historical trends, and empirical findings of the physical sciences. Laboratory exercises and lectures explore motion, the four forces, heat, energy, chemical reactions, the structure and development of matter, the types and nature of chemical bonding, and the nature and history of the universe, the solar system, and the Earth.

Lab/Lecture Hours

Laboratory investigations included in course.

Fee

Lab fees apply.

When Offered

Every semester.

Social Sciences (9 credit hours)

Take each of the following three courses:

HIS 185 - Western Civilization

(3) The spiritual values and intellectual achievements of ancient Israel, Greece, Rome, the Middle Ages, the Renaissance, and Reformation that gave birth to the modern world.

When Offered

Every fall semester.

HIS 205 - American History

(3) Principles of the founding and the political, economic, intellectual, cultural, and religious traditions that have shaped America.

When Offered

Every spring semester.

ECO 215 - Economics

(3) Economics is about scarcity and choice. Students in this course study how people, firms, governments, and nations interact in alternative economic systems to make choices about allocating scarce resources. In addition, students learn to evaluate these systems, understand macroeconomic monetary and fiscal policies, and engage in policy debates.

When Offered

Fall and spring semesters.

Professional Education Core (18 credit hours)

CLD 205 - Culturally Responsive Pedagogy

(3) This course focuses on theories, concepts, research and pedagogical techniques related to culturally-responsive teaching, English language learning, language and content acquisition, teacher-student relationships, and building school-community partnerships with culturally diverse populations.

Prerequisites: Sophomore standing.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

EDU 472 - Music Student Teaching and Seminar

(12) This course is the culminating, professional experience within a CCU partnership school. Teacher candidates complete a full-time teaching experience under guidance of a licensed School-Based Teacher and CCU Supervisor. Teacher candidates implement lessons and complete action research via instruction aligned to state/professional standards. Teacher candidates complete 640 hours of the 800 clinical hour minimum in addition to on-campus seminars.

Prerequisites: All other degree program courses.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

EPS 340 - Educational Child Psychology and Development

(3) The educator's role in recognizing, evaluating and guiding the cognitive, physical, psychosocial and emotional growth patterns and characteristics from infants to early, middle and late childhood, as well as adolescence.

When Offered

Fall and spring semesters.

EPS 342 - Adolescent Development and Culture

(3) Biological, cognitive, psychological, social, and moral growth and development of early, middle and late adolescents. Explores theories of adolescent development in a family, peer, school, and community context. Explores personal, educational and career decision making, psychosocial problems during adolescence, and implications for teaching, youth ministry, counseling, and nonprofit organization work with youth.

Prerequisites: Sophomore standing (30+ Credit Hours).

When Offered

Every fall and spring semester.

Professional Music Education Core (16 credit hours)

MUA 176 - Music Education Colloquium

(0) This course will provide future music educators with the opportunity to experience self-reflection and peer review as important tools for professional development, while increasing their ability to analyze instructional strategies and problem solve instructional dilemmas for the purpose of increasing student learning and classroom success. The course format is inquiry and discussion.

Prerequisites: Music Education majors only.

Notes: Pass/Fail course.

When Offered

Every fall semester.

MUS 120 - Introduction to Music Education

(2) This course introduces the historical roots of music education, influences of and upon contemporary practices in music education, with classroom observations of expert teachers. The expectations of today's music educator within the framework of content standards, instructional design and accountability, classroom success while addressing individual learning needs, and the importance of conveying the societal value of music will be investigated.

When Offered

Every spring semester.

MUS 328 - Choral Methods and Literature

(2) The course focus is on developing skills and a knowledge base for successfully organizing, leading and building all musical aspects of the effective choral ensemble. Topics will include: warm-ups, rudiments of voice and sound production, development of choral tone, vocal auditions and voice classification, children's voices, group vocal training, verbal and nonverbal techniques of communication to increase teaching effectiveness, survey of choral musical styles and repertoire diverse choral groups, techniques for addressing varied learning styles in a choral context, administration of the choral program and communication, literature sources, organization of the choir, analysis of the choral experience, rehearsal techniques, and introduction to diction and language (IPA), teaching comprehensive musicianship in the choir.

When Offered

Odd spring semesters.

MUS 329 - Instrumental Methods and Literature

(2) Administration, organization, curriculum selection, and teaching of instrumental music programs in churches and schools. Analysis of the instrumental experience, rehearsal techniques, basic musicianship, and performance practices. Verbal and nonverbal techniques of communication to increase teaching effectiveness. Survey of instrumental musical styles and repertoire.

When Offered

Even fall semesters.

MUS 330 - General Music Methods and Literature

(2) Course content includes methods and techniques for the administration, organization, and teaching of general music programs in schools. The analysis of experiences, curricula, methods and literature for teaching young voices and for using classroom instruments to build comprehensive musicianship is introduced. Curriculums studied include an introduction to Orff, Kodaly, Dalcroze, and combined approaches, as well as primary curriculums provided by major publishers. All are introduced while studying and implementing standards-based education.

When Offered

Even spring semesters.

MUS 380 - Pedagogical Models for Effective Learning in Music

(3) This course addresses the design and implementation of successful standards-based instructional models and pedagogies to foster effective and authentic learning in music. Topics include research and collaborative discussion of how students learn, how to organize differentiated delivery options based on student interests, linguistic diversity, learning profiles and individual student needs, and assessment alternatives for effective student demonstration of learning.

When Offered

Every spring semester.

MUS 404 - Music K-12 Curriculum and Instruction

(3) Musical education within aesthetic, extra-aesthetic, and artistic dimensions as it relates to the entire school music curriculum K-12, including school music performances. Special emphasis is given to managing a musical organization, classroom management, and lesson planning. Additionally, methods and curricula used for middle school/secondary instruction (vocal, instrumental, and general) are discussed. Students will develop an articulate philosophy of music education, discuss appropriate advocacy procedures, and study and implement standards-based education.

When Offered

Odd fall semesters.

MUS 426 - Music Business

(2) An in-depth study of Christian and secular music industries; careers in the music business, including music director, choral directing and instrumental accompaniment, small business development, music publishing, recording industry, film and television industry, teaching, and performance. The objective is to give students a greater understanding of music as an industry. Studies include: getting an agent, marketing, finance, understanding ASCAP/BMI, cue sheets, royalties, IMDB credits, talking with record companies, contract negotiations, creating a CV, building a website, music placement for film and television, budgeting for projects and worship arts, dealing with criticism, making a profit.

When Offered

Every fall semester.

Music Core (46 credit hours)**MUA 130 - Piano Class I**

(1) Piano Class I is for Music majors with little or no background in piano study. Technique will cover five-finger patterns, two octave scales (white keys only), cross-hand arpeggios, root position triads and inversions, seventh chords in closed position, and root chord progressions in all major and minor keys. Students will learn a variety of repertoire from different styles and periods, developing sight-reading, transposition, improvisation, and harmonization skills.

Notes: For Music Majors or Minors this class (or MUA 115 - Piano (1 or 2)) is required until MUA 230 - Piano Proficiency (0) is passed. May be repeated for credit.

When Offered

Fall and spring semesters.

MUA 132 - Piano Class II

(1) Piano Class II is for Music Majors who have passed or have been exempted from Piano Class I. Technique will cover two octave scales (white and black keys), one-hand arpeggios, seventh chords in closed, small, and large open positions, root and inverted chord progressions in all major and minor keys. Students will learn a variety of repertoire from different styles and periods, developing sight-reading, transposition, improvisation, and harmonization skills. The completion of the Piano Class sequence along with the passing of the Piano Class II Final Exam will fulfill the piano proficiency requirement.

Prerequisites: MUA 130.

When Offered

Every semester.

OR

MUA 115 - Piano

(1-2) Private lessons in piano are customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals and technique as well as improving musical performance and artistry.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester. May be repeated for credit.

When Offered

Fall and spring semesters.

Students may take either (or a combination of) MUA 130 - Piano Class I and MUA 132 Piano Class II or MUA 115 - Piano until they pass MUA 230 - Piano Proficiency . Required number of semesters vary per student.

MUA 175 - Music Convocation

(0) Includes weekly performance class, all School of Music concerts and recitals, and special guest artists and speakers.

Notes: Required of all music majors each semester and of music minors for four semesters. Pass/Fail.

When Offered

Fall and spring semesters.

MUA 230 - Piano Proficiency

(0) The piano proficiency course covers areas of basic piano skills, including scales, chords, arpeggios, and cadences in major and minor keys. Students will be required to use these skills for harmonization, playing by ear, and transposing. Students will also be required to perform pieces at the piano in a variety of styles, including church, school, and community music, popular music, and classical music.

Corequisites: MUA 130 or MUA 115.

When Offered

Fall and spring semesters.

MUA 231 - Performance Proficiency

(0) Student must demonstrate basic levels of proficiency on their primary instrument at the end of their required applied lesson study.

Corequisites: Primary Instrument (MUA 102-126).

When Offered

Every fall and spring semester.

MUA 327 - Advanced Conducting

(2) Individual applied lessons in conducting. The primary emphasis is developing a philosophy of conducting and the practical application of conducting skills through ensemble directing in the student's area of concentration. Course content includes advanced conducting techniques, score analysis, conducting terms. Other topics include developing an ideal choral, orchestral, or band sound, leadership, non-verbal communication, historical performance practice, score preparation, and pre-rehearsal activities. Student must be enrolled in applicable choral or instrumental ensemble.

Prerequisites: MUS 326.

When Offered

Fall and spring semesters.

MUS 351 - Brass Techniques and Pedagogy

(1) Instruction in methods of playing and teaching the various instruments of the brass family. Exploration of various pedagogical techniques and literature used in current public and private instruction (including techniques and information

useful for church instruction and ensembles). Discussion of important topics related to effective brass playing and teaching in school and church settings.

Fee

Music instrument fee.

When Offered

Odd fall semesters.

MUS 352 - Woodwind Techniques and Pedagogy

(1) Instruction in both the methods of playing and in teaching others to play the various instruments of the woodwind family. Exploration of various pedagogical techniques and literature used in current public and private instruction. Discussion of important topics related to effective woodwind playing and teaching techniques in school settings.

Fee

Music instrument fee.

When Offered

Even spring semesters.

MUS 353 - String Techniques and Pedagogy

(1) Instruction in both the methods of playing and in teaching others to play the various instruments of the string family. Exploration of various pedagogical techniques and literature used in current public and private instruction. Discussion of important topics related to effective string playing and teaching techniques in school settings.

Fee

Music instrument fee.

When Offered

Even fall semesters.

MUS 354 - Percussion Techniques and Pedagogy

(1) Instruction in both the methods of playing and in teaching others to play the various instruments of the percussion family. Exploration of various pedagogical techniques and literature used in current public and private instruction. Discussion of important topics related to effective percussion playing and teaching techniques in school settings.

Fee

Course fees apply.

When Offered

Odd spring semesters.

MUS 356 - Vocal Methods

(1) A study of how the vocal mechanism works and pedagogical techniques for instructing others in singing. Objectives include developing an understanding of the acoustical and physiological make-up of the vocal apparatus, gaining an aural perception and understanding of specific vocal problems - their causes and possible solutions, and fostering the development of the student's ability to teach sound vocal technique.

When Offered

Odd fall semesters.

MUS 357 - Fretted Techniques

(1) Instruction in methods of playing and teaching fretted instruments. Studies of various pedagogical techniques and literature used in current public and private instruction including techniques and information useful for church instruction and ensembles. Studies also include physical control of the sound, and learning the various approaches to the guitar - jazz, classical, rock, and praise and worship styles.

Fee

Music instrument fee.

When Offered

Even fall semesters.

MUS 111 - From Sight to Sound - Music Fundamentals

(2) A course exploring the fundamentals of written music and its practical application to sound and vice versa. Students will gain a basic understanding of music including notation, rhythm, scales, key signatures, intervals, and chords, with an

introduction to keyboard and improvisation.

When Offered

Every fall semester.

MUS 112 - Music Theory I: Elements of Music

(3) This course is the first semester of a four-semester sequence required of all music majors. Comprehensive musicianship through hearing, analyzing, and composing. Musical elements covered include melody, rhythm (including simple and compound meter), major and minor modes, chord structure, phrase structure, realization of figured bass, and basic counterpoint.

Prerequisites: MUS 111 or passing grade on the Music Theory Entrance Exam.

Corequisites: MUS 113.

When Offered

Every spring semester.

MUS 113 - Sight-Singing and Ear Training I

(1) This course is the first semester of a four-semester sequence required of all music majors. It is assumed that students will be enrolled in the corequisite Music Theory class when enrolled in a Sight Singing and Ear Training course. In this sequence, students will develop aural skills and competency with sight singing and ear training using solfege in the areas of melody, harmony, and rhythm in a systematic pedagogy.

Prerequisites: MUS 111 or a passing grade on the Music Theory Entrance Exam.

Corequisites: MUS 112.

When Offered

Every spring semester.

MUS 212 - Music Theory II: Diatonic Harmony and Tonicization

(3) Continuation of MUS 112. Topics covered include phrase structure (forms) and motivic analysis, cadences, embellishing tones, introduction to voice-leading, secondary dominants and leading-tone chords, and modulation. Also included in an introduction to music writing software (Finale) as applicable to continued study in Music Theory.

Prerequisites: MUS 110, MUS 112, MUS 113.

Corequisites: MUS 213.

When Offered

Every fall semester.

MUS 213 - Sight-Singing and Ear Training II

(1) This course is the second semester of a four-semester sequence required of all music majors. It is assumed that students will be enrolled in the co-requisite Music Theory class when enrolled in a Sight Singing and Ear Training course. In this sequence, students will develop aural skills and competency with sight singing and ear training using solfege in the areas of melody, harmony, and rhythm in a systematic pedagogy.

Prerequisites: MUS 112, MUS 113.

Corequisites: MUS 212.

When Offered

Every fall semester.

MUS 214 - Music Theory III: Chromatic Harmony and Forms

(3) Continuation of MUS 212. Comprehensive emphasis of 18th century common-practice musical techniques, including melodic and contrapuntal writing, as well as analysis of modal mixture, Neapolitan and augmented sixth chords. An examination of chromatic harmony and modulation. Analysis of vocal forms, and harmony and melody in popular music.

Prerequisites: MUS 212, MUS 213.

Corequisites: MUS 215.

When Offered

Every spring semester.

MUS 215 - Sight-Singing and Ear Training III

(1) A continuation of MUS 213. Aural skills including sight singing using solfege and numbers; harmonic, melodic and rhythmic dictation, modes, and jazz scales.

Prerequisites: MUS 212, MUS 213.

Corequisites: MUS 214.

When Offered

Every spring semester.

MUS 312 - Music Theory IV: The Twentieth Century and Beyond

(3) Continuation of MUS 214. Study of modern and recent musical styles. Survey of advanced harmonic developments in 19th century music, as well as 20th/21st century compositional and improvisational techniques.

Prerequisites: MUS 214, MUS 215.

Corequisites: MUS 313.

When Offered

Every fall semester.

MUS 313 - Sight-Singing and Ear Training IV

(1) Continuation of MUS 215. Aural skills including sight singing using solfege and numbers; harmonic, melodic and rhythmic dictation, modes, and jazz scales.

Prerequisites: MUS 214, MUS 215.

Corequisites: MUS 312.

When Offered

Every fall semester.

MUS 323 - History of Music I

(2) Historical study of the music of the Medieval, Renaissance, and Baroque periods of music history through readings, study of scores, listening, and analysis of stylistic characteristics of representative compositions. The study of the music is integrated with concurrent historical developments in government, politics, economics, geography, science, literature, painting, and philosophy.

When Offered

Every fall semester.

MUS 324 - History of Music II

(2) Historical study of the music from ca. 1700 to the present through readings, study of scores, listening, and analysis of stylistic characteristics of representative compositions. Emphasis is given to the development of music in Europe, with reference to concurrent historical development in non-Western cultures throughout the world.

Prerequisites: MUS 212, MUS 213.

When Offered

Every spring semester.

MUS 326 - Conducting

(2) This introductory conducting course addresses conducting gestures and technique, musical terminology and markings, language pronunciation, basic rehearsal procedures for choral and instrumental groups, developing leadership skills, and verbal and non-verbal communication. Special emphasis is placed on developing a relationship between conducting gestures and sound.

Prerequisites: MUS 212.

When Offered

Every spring semester.

MUS 410 - World Music

(2) World Music is an exploration of musical styles as the reflection of world cultures, with an introduction to ethnomusicology. This survey course begins in the eastern hemisphere and moves west, including studies from Oceania,

Asia, the Middle East, Africa, Europe, the Caribbean, South America, and North America. The interaction of music, culture, and religion provides additional insight into diverse cultural traditions throughout the world.

When Offered

Every fall semester.

MUS 411 - Scoring and Arranging

(2) The study of technical capabilities and orchestration for instruments and voices, individually and in ensembles, including full orchestra, choir, and jazz instruments. Emphasis is given to developing technical mastery for transcribing, arranging, and score preparation using current music technology tools.

Prerequisites: MUS 212.

When Offered

Every spring semester.

MUS 362 - Music Education Performance Project

(0) Music Education students collaborate with the Coordinator of Music Education to identify appropriate vocal or instrumental concert literature selections and a volunteer ensemble of students. Students plan and schedule rehearsals with the ensemble, and direct the ensemble from the initial sight-reading of the selected work to rehearsal in preparation for a scheduled performance during Convocation.

When Offered

Every semester.

MUE 100 - University Women's Choir

(1) The University Women's Choir is a select large ensemble dedicated to the performance of vocal masterworks from all musical styles and periods. University Women's Choir is an opportunity for students to grow in stewardship of God-given gifts and musical talents. Musical excellence and well-prepared performances are stressed. The University Women's Choir tours and records annually and presents multiple concerts each year. Auditions for University Women's Choir are held at the beginning of the fall semester.

Notes: May be repeated for credit.

Fee

Music ensemble fee.

When Offered

Fall and spring semesters.

MUE 101 - University Choir

(1) The University Choir is a select large ensemble dedicated to the performance of vocal masterworks from all musical styles and periods. University Choir is an opportunity for students to grow in stewardship of God-given gifts and musical talents. Musical excellence and well-prepared performances are stressed. The University Choir tours and records annually and presents multiple concerts each year. Auditions for University Choir are held at the beginning of the fall semester.

Notes: May be repeated for credit.

Fee

Music ensemble fee.

When Offered

Fall and spring semesters.

MUE 102 - University Symphonic Band

(1) The University Symphonic Band is a select large ensemble for woodwinds, brass and percussion, oriented towards the performance of a wide range of music for the modern wind band, including transcriptions, standard literature, popular music, and sacred music for band. Symphonic Band is an opportunity for students to grow in stewardship of God-given gifts and musical talents. Musical excellence and well-prepared performances are stressed. The University Symphonic Band tours and records annually and presents multiple concerts each year. Auditions for University Symphonic Band are held at the beginning of the fall semester.

Notes: May be repeated for credit.

Fee

Music ensemble fee.

When Offered

Fall and spring semesters.

MUE 103 - Chamber Orchestra

(1) A select instrumental ensemble in conjunction with the Lakewood Symphony Orchestra featuring string and wind instruments that performs a variety of traditional and contemporary literature for community audiences.

Prerequisites: Instructor permission required.

Notes: May be repeated for credit.

When Offered

Fall and spring semesters.

MUE 109 - Chamber Strings

(1) The University Chamber Strings ensemble is comprised of violinists, violists, cellists, and double bassists performing varied music for small groups; including works from the standard chamber music literature, jazz and popular music, as well as sacred music for strings. Chamber Strings provides an opportunity for students to develop and express their God-given gifts and musical talents. Musical excellence, collaboration, and engaging and varied performances are stressed. The Chamber Strings do a number of outreach performances annually.

Notes: May be repeated for credit.

When Offered

Fall and spring semesters.

Each student will take three semesters of secondary ensembles to get specific music education experiences.

One semester will focus on handbells, one semester will focus on jazz, and one semester will focus on the area opposite of the usual one (choral for instrumentalists, instrumental for vocalists).

MUE 104 - Peak Harmony Vocal Ensemble

(1) Peak Harmony Vocal Ensemble is a select small ensemble that studies and performs a wide variety of pop and jazz styles including contemporary a cappella, CCM, jazz standards, rock, pop, blues and more. Participation in the Peak Harmony Vocal Ensemble is an opportunity to grow in the stewardship of God-given gifts and musical talents. Auditions for Peak harmony Vocal Ensemble are held at the beginning of the fall semester.

Corequisites: MUE 100, MUE 101, MUE 102, MUE 103, MUE 109, or MUE 114.

Notes: May be repeated for credit.

When Offered

Fall and spring semesters.

MUE 105 - Mainstream (Instrumental Jazz)

(1) Mainstream is a select small ensemble that is oriented toward the study and performance of a wide variety of jazz styles, including traditional big band, contemporary jazz, the blues, bebop, interpretation of jazz standards, and more. Participation in Mainstream is an opportunity to grow in the stewardship of God-given gifts and musical talents. Auditions for Mainstream are held at the beginning of the fall semester.

Corequisites: MUE 100, MUE 101, MUE 102, MUE 103, MUE 109, or MUE 114.

Notes: May be repeated for credit.

When Offered

Fall and spring semesters.

MUE 110 - Jazz Combo

(1) This ensemble exists as student interest dictates. Performance opportunities vary.

Corequisites: MUE 100, MUE 101, MUE 102, MUE 103, MUE 109, or MUE 114.

When Offered

Every fall and spring semester.

MUE 114 - Handbell Ensemble

(1) A performing ensemble that also focuses on developing rehearsal, conducting, and performance skills. Along with concert performance, students work in the areas of ringing technique development and pedagogy, instrument care and

maintenance, rhythm reading, score reading, and conducting. Musical excellence, collaboration, and engaging and varied performances are stressed. The Handbell Ensemble does a number of outreach performances annually.

Notes: May be repeated for credit.

When Offered

Fall and spring semesters.

MUE 106 - Instrumental Chamber Ensemble

(1) This ensemble exists as student interest dictates. Performance opportunities vary.

Corequisites: MUE 100, MUE 101, MUE 102, MUE 103, MUE 109, or MUE 114.

Notes: May be repeated for credit.

When Offered

Fall and spring semesters.

MUE 108 - Vocal Chamber Ensemble

(1) This ensemble exists as student interest dictates. Performance opportunities vary.

Corequisites: MUE 100, MUE 101, MUE 102, MUE 103 , MUE 109, or MUE 114.

Notes: May be repeated for credit.

When Offered

Fall and spring semesters.

MUE 116 - Drumline

(1) Drumline offers students wanting to pursue field percussion an opportunity to develop their talent and perform at various CCU athletic events.

Notes: May be repeated for credit.

When Offered

Fall and spring semesters.

Primary Instrument (4 credit hours)

Each student will take 4 credit hours on the instrument on which they have auditioned and been accepted.

MUA 102 - Baritone/Euphonium

(1-2) Private lessons in baritone and euphonium are customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals of tone production and technique as well as improving musical performance and artistry.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester.

May be repeated for credit.

Fee

Music instrument fee.

When Offered

Fall and spring semesters.

MUA 103 - Bassoon

(1-2) Private lessons in bassoon are customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals and technique as well as improving musical performance and artistry.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester.

May be repeated for credit.

Fee

Music instrument fee.

When Offered

Fall and spring semesters.

MUA 104 - Clarinet

(1-2) Private lessons in clarinet are customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals and technique as well as improving musical performance and artistry.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester. May be repeated for credit.

Fee

Music instrument fee.

When Offered

Fall and spring semesters.

MUA 108 - Flute

(1-2) Private lessons in flute are customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals and technique as well as improving musical performance and artistry.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester. May be repeated for credit.

Fee

Music instrument fee.

When Offered

Fall and spring semesters.

MUA 109 - French Horn

(1-2) Private lessons in French horn are customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals and technique as well as improving musical performance and artistry.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester. May be repeated for credit.

Fee

Music instrument fee.

When Offered

Fall and spring semesters.

MUA 110 - Guitar

(1-2) Private lessons in guitar are customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals and technique as well as improving musical performance and artistry.

Prerequisites: Music Majors and Minors only.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester. May be repeated for credit.

When Offered

Fall and spring semesters.

MUA 111 - Harp

(1-2) Private lessons in harp are customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals and technique as well as improving musical performance and artistry.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester. May be repeated for credit.

When Offered

Fall and spring semesters.

MUA 112 - Oboe

(1-2) Private lessons in oboe are customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals and technique as well as improving musical performance and artistry.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester. May be repeated for credit.

Fee

Music instrument fee.

When Offered

Fall and spring semesters.

MUA 113 - Organ

(1-2) Private lessons in organ are customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals and technique as well as improving musical performance and artistry.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester. May be repeated for credit.

When Offered

Fall and spring semesters.

MUA 114 - Percussion

(1-2) Private lessons in percussion are customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals and technique as well as improving musical performance and artistry.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester. May be repeated for credit.

When Offered

Fall and spring semesters.

MUA 115 - Piano

(1-2) Private lessons in piano are customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals and technique as well as improving musical performance and artistry.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester. May be repeated for credit.

When Offered

Fall and spring semesters.

MUA 116 - Saxophone

(1-2) Private lessons in saxophone are customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals of tone production and technique as well as improving musical performance and artistry.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester. May be repeated for credit.

Fee

Music instrument fee.

When Offered

Fall and spring semesters.

MUA 117 - String/Electric Bass

(1-2) Private lessons in string or electric bass are customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals of tone production and technique as well as improving musical performance and artistry.

Lab/Lecture Hours

Course fees apply.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester.

May be repeated for credit.

When Offered

Fall and spring semesters.

MUA 120 - Trombone

(1-2) Private lessons in trombone are customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals of tone production and technique as well as improving musical performance and artistry.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester.

May be repeated for credit.

Fee

Music instrument fee.

When Offered

Fall and spring semesters.

MUA 121 - Trumpet

(1-2) Private lessons in trumpet are customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals of tone production and technique as well as improving musical performance and artistry.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester.

May be repeated for credit.

Fee

Music instrument fee.

When Offered

Fall and spring semesters.

MUA 122 - Tuba

(1-2) Private lessons in tuba are customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals of tone production and technique as well as improving musical performance and artistry.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester.

May be repeated for credit.

Fee

Music instrument fee.

When Offered

Fall and spring semesters.

MUA 123 - Viola

(1-2) Private lessons in viola are customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals of tone production and technique as well as improving musical performance and artistry.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester.

May be repeated for credit.

Fee

Music instrument fee.

When Offered

Fall and spring semesters.

MUA 124 - Violin

(1-2) Private lessons in violin are customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals of tone production and technique as well as improving musical performance and artistry.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester. May be repeated for credit.

Fee

Music instrument fee.

When Offered

Fall and spring semesters.

MUA 125 - Cello

(1-2) Private lessons in cello are customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals of tone production and technique as well as improving musical performance and artistry.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester. May be repeated for credit.

Fee

Music instrument fee.

When Offered

Fall and spring semesters.

MUA 126 - Voice

(1-2) Individual applied lessons in singing with the goals of the development of individual vocal talent; the personal and musical growth of each student; providing the student with the opportunity to study and perform a wide variety of vocal repertoire indicative of, and sympathetic to, the multi-cultural society in which we live; such vocal study as is consistent with the ideals of sound vocal technique.

Notes: the one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester. May be repeated for credit.

Fee

Fees may apply.

When Offered

Fall and spring semesters.

MUA 133 - Drumset

(1-2) Private lessons in drumset customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals and technique as well as improving musical performance and artistry.

Notes: The one-credit section involves one half-hour lesson per week; the two-credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester. May be repeated for credit.

When Offered

Every fall and spring semesters.

Electives Core (2 credits)

Students will take two (2) elective credits.

Additional Information

Those selecting the music major must take MUS 110 - Musical Perspectives as part of the general education requirements.

MUS 111 - From Sight to Sound - Music Fundamentals or a passing grade on the Theory Entrance Exam is a prerequisite for entrance into MUS 112 - Music Theory I: Elements of Music .

MUA 175 - Music Convocation is required for all music majors each semester at CCU (up to 7 semesters).

Piano and Piano Class requirements vary in order to pass Piano Proficiency. Students must take MUA 130 - Piano Class I and MUA 132 Piano Class II OR MUA 115 - Piano in consecutive semesters until MUA 230 - Piano Proficiency is passed.

Only one ensemble credit each semester counts toward the requirements for the major.

Additional information concerning attendance, appeals, recitals, applied music, and proficiency examinations is found in the Teacher Portfolio and the Music Handbook.

Suggested Electives to include with the B.M. Music Education degree:

MUS 271 Music Production and Engineering I

MUS 272 Music Production and Engineering II

MUS 325 Singer's Diction and Literature

Professional Licensure Disclosure

Colorado Christian University offers several academic programs which lead to professional licensure in the state of Colorado and, in some programs, prepare students for a national exam. All students should be aware that states vary in their educational and professional requirements depending on the profession. Some states require specific educational requirements, clinical requirements, accreditation requirements, or exam requirements. See professional licensure disclosures for details.

Graduation Requirements for Bachelor of Music in Music with K-12 Education Licensure

The faculty recommends students in the B.M. in Music with K-12 Education Licensure to the Board of Trustees as candidates for graduation when they have completed the following requirements.

1. Completion of a total of 128 credits, including all general education, music major, and education professional core requirements.
2. A letter grade of D or better and a cumulative GPA of 2.5 or better in all CCU coursework, and a C- or better in all professional education and music courses.
3. Completion of 180 hours of ministry/community service and 180 chapel credits. Transfer students are required to complete 45 hours of ministry/community service and 45 chapel credits each year of attendance at CCU. For further details on ministry/community service, see the Life Directions Center (LDC) section of this catalog. For further details on chapel credits, see the Student Life section of this catalog.
4. Meet the CCU Residency requirements.
5. Completion of seven semesters of MUA 175 - Music Convocation.
6. Acceptable performance on exit exams, as required by the faculty.
7. Formal and timely application for graduation by the date specified by the University Registrar.
8. No outstanding financial obligation to the University.

Music Major

The Bachelor of Arts in Music is designed to help musicians grow in their understanding and knowledge of music. This broad-based music degree prepares students for a wide range of careers in music and beyond, including preparing students for further graduate study in music. Out of all the music degrees, the Bachelor of Arts in Music offers the most flexibility, and is ideal for partnering with a secondary emphasis as either a double major or minor.

The Bachelor of Arts in Music requires completion of the following 120 credit hours:

General Education (48 credit hours)

Music Core (43 credit hours)

Primary Instrument Core (5 credit hours)

Electives Core (24 credit hours)

General Education Requirements (48 credit hours)

Arts and Humanities (9 credit hours)

Take one course from each of the following three academic disciplines:

Philosophy (3 credit hours)

PHL 202 - Introduction to Philosophy

(3) This course is a survey of many major issues raised over the two-and-a-half millennia of western philosophy. With an emphasis on historical context and development, as well as philosophy's relationship to Christian thought, this course challenges students to critically explore philosophical questions and introduce them to the great tradition of intellectual inquiry. Special attention will be given to the subjects of truth and knowledge, reality and appearance, mind and body, right and wrong, beauty and the existence of God.

When Offered

Fall and summer semesters.

Fine Arts (3 credit hours)

MUS 110 - Musical Perspectives

(3) An exploration of music in the broader context of culture and the arts; personal musical experiences through listening and doing; and developing the ability to discern aesthetic excellence. Included is an introduction to the elements of music and how music works, the development of a Christian perspective on the arts, a broad survey of representative selections of Western music, and a focused overview of non-western/world music.

Notes: This course satisfies the general education fine arts requirement for most students. It is recommended for all students, especially those with an interest in music, and is the required fine arts course for all music majors and minors. Students with a special interest in Theatre should see THR 112.

Note: MUS 110 does not satisfy the fine arts requirement for education majors.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

Literature (3 credit hours)

Choose one course from the following:

ENG 201 - Introduction to Literature

(3) Understand, experience, and evaluate poetry, short fiction, essays, and drama genres, both American and multinational.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Fall and spring semesters.

ENG 202 - American Literature I

(3) Representative stories, poems, and documents in American literature from the Colonial era to the early Republic (1776-1830) through the Romantic-transcendentalist period (1830-1860). Includes readings from multiethnic and women writers.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every fall semester.

ENG 203 - American Literature II

(3) Representative stories, poems, and drama in American literature from the Civil War to the present. Nontraditional ethnic and women's voices included. Emphasis on interpretation and criticism of American literature.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every spring semester.

ENG 204 - British Literature I

(3) Surveys the history of literature in Britain until 1800 and representative works by influential writers of the periods contained therein.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every fall semester.

ENG 205 - British Literature II

(3) Surveys the history of literature in Britain from 1800 to the present and representative works by influential writers.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every spring semester.

Biblical Studies (12 credit hours)

Take the following four courses (some courses are cross-listed and only one prefix needs to be taken):

BIB 111 - Old Testament

(3) This course provides an introduction to the theological, historical, and literary features of the Old Testament, tracing God's covenant relationship with ancient Israel. Special consideration will be given to the divine covenants and Messianic prophecies of the Old Testament.

When Offered

Every spring semester.

Cross-listed HIS 111

HIS 111 - Old Testament

(3) This course provides an introduction to the theological, historical, and literary features of the Old Testament, tracing God's covenant relationship with ancient Israel. Special consideration will be given to the divine covenants and Messianic prophecies of the Old Testament.

When Offered

Every spring semester.

Cross-listed BIB 111.

BIB 114 - New Testament

(3) This course provides an introduction to the theological, historical, and literary features of the New Testament, tracing the presentation of the gospel message through historical, epistolary, and apocalyptic genres. Special consideration will be given to the life of Christ and missionary journeys of the Apostle Paul.

When Offered

Every fall semester.

Cross-listed HUM 114

HUM 114 - New Testament

(3) This course provides an introduction to the theological, historical, and literary features of the New Testament, tracing the presentation of the gospel message through historical, epistolary, and apocalyptic genres. Special consideration will be given to the life of Christ and missionary journeys of the Apostle Paul.

When Offered

Every fall semester.

Cross-listed BIB 114.

PHL 315 - World Religions and Systems of Belief

(3) This course introduces an academic study of religion and what is called worldview, supplemented by an overview of some of the major tenets of Christianity; this is then followed by a survey of several other religious traditions and competing philosophies.

Prerequisites: PHL 202, THE 201.

When Offered

Winter and spring semesters.

THE 201 - Introduction to Theology

(3) This course covers basic issues, themes, and categories of Christian theology, including the doctrines of Scripture, God, humanity, Christ, salvation, the church, and last things. This course encourages students to better know, trust, love, and live by God's Word.

Prerequisites: BIB 111, BIB 114.

When Offered

Fall, winter, spring, and summer semesters.

Communication (6 credit hours)

COM 103 - Public Speaking

(3) Introductory principles of communication emphasizing public speaking. Aspects of verbal and nonverbal delivery, speech organization, and the effective use of supporting material and presentational aids are addressed. Students give several speeches designed to better equip them for future speaking endeavors

When Offered

Fall and spring semesters.

ENG 102 - English Composition

(3) Effective use of the English language and exploration of rhetorical modes in written composition. Review of structure, purpose, and audience awareness in developing essays.

Prerequisites: ACT and/or SAT scores will be used to determine placement in either ENG 102 or ENG 102 (Basic).

Notes: Course must be completed first semester at CCU.

When Offered

Fall and spring semester.

ENG 105 - Advanced English Composition

(3) Advanced English composition, research methods, and literary study for invited exceptional students. Focus on both the study of literature and research writing.

Prerequisites: One of the following:

- AP English Language and Composition
 - A score of 4 is the minimum prerequisite for enrollment in ENG 105. A student who scores a 4 or 5 will automatically enroll a student in ENG 105 instead of ENG 102 and/or ENG 201.
- AP English Literature and Composition
 - A score of 4 is the minimum prerequisite for enrollment in ENG 105. A student who scores a 4 or 5 will automatically enroll a student in ENG 105 instead of ENG 102 and/or ENG 201.
- Score of 30 or above on the verbal section of the ACT exam.
- Score of 700 or above on the verbal section of the SAT exam.
- By invitation of the English department.

Notes: Fulfills general education requirements for both ENG 102 and ENG 201.

When Offered

Every fall semester.

Integrative Studies (3 credit hours)

* Please see the First-Year Integration (FYI) page for specific information information about this required course.

INT 101 - First-Year Integration

(3) Think critically, grow spiritually, and change the world. Based on the premise that we as Christians are called to be rational creatures, relational creatures, and responsible creatures, FYI is an integrative study of foundational Christian principles with other disciplines. Examination and discussion of problems and contemporary issues - academic, personal, and social - facing students in their pursuit of success in college and life. Please see the First-Year Integration (FYI) page for specific information about this required course.

When Offered

Fall and spring semesters.

Mathematics (3 credit hours)

MAT 112 - Mathematics for Liberal Arts

(3) This course introduces some of the important ideas in mathematics and how they can be applied in everyday life situations, solving a wide range of practical problems. Topics include sets, logic, history of numeration, number systems and their properties, number patterns, counting principles, probability, statistics, graph theory, personal finance, and voting methods.

Notes: Students with higher level mathematics skills (i.e. ACT MAT above 20 and SAT MATH above 520) are discouraged from taking this class. Only students who do not place into MAT 111 - College Algebra should enroll in MAT 112 - Mathematics for Liberal Arts.

When Offered

Fall, spring and summer semesters.

Science (3 credit hours)

SCI 230 - Integrated Physical Science with Lab

(3) This is an integrated course presenting the major concepts, theoretical perspectives, historical trends, and empirical findings of the physical sciences. Laboratory exercises and lectures explore motion, the four forces, heat, energy, chemical reactions, the structure and development of matter, the types and nature of chemical bonding, and the nature and history of the universe, the solar system, and the Earth.

Lab/Lecture Hours

Laboratory investigations included in course.

Fee

Lab fees apply.

When Offered

Every semester.

Social Sciences (12 credit hours)

Take each of the following four courses:

ECO 215 - Economics

(3) Economics is about scarcity and choice. Students in this course study how people, firms, governments, and nations interact in alternative economic systems to make choices about allocating scarce resources. In addition, students learn to evaluate these systems, understand macroeconomic monetary and fiscal policies, and engage in policy debates.

When Offered

Fall and spring semesters.

HIS 185 - Western Civilization

(3) The spiritual values and intellectual achievements of ancient Israel, Greece, Rome, the Middle Ages, the Renaissance, and Reformation that gave birth to the modern world.

When Offered

Every fall semester.

HIS 205 - American History

(3) Principles of the founding and the political, economic, intellectual, cultural, and religious traditions that have shaped America.

When Offered

Every spring semester.

POL 207 - Introduction to American Politics

(3) Introduction to political science and American government to prepare students to be effective citizens.

When Offered

Every fall and spring semester.

Music Major (48 credit hours)

Music Core (43 credit hours)

MUA 130 - Piano Class I

(1) Piano Class I is for Music majors with little or no background in piano study. Technique will cover five-finger patterns, two octave scales (white keys only), cross-hand arpeggios, root position triads and inversions, seventh chords in closed position, and root chord progressions in all major and minor keys. Students will learn a variety of repertoire from different styles and periods, developing sight-reading, transposition, improvisation, and harmonization skills.

Notes: For Music Majors or Minors this class (or MUA 115 - Piano (1 or 2)) is required until MUA 230 - Piano Proficiency (0) is passed. May be repeated for credit.

When Offered

Fall and spring semesters.

MUA 132 - Piano Class II

(1) Piano Class II is for Music Majors who have passed or have been exempted from Piano Class I. Technique will cover two octave scales (white and black keys), one-hand arpeggios, seventh chords in closed, small, and large open positions, root and inverted chord progressions in all major and minor keys. Students will learn a variety of repertoire from different styles and periods, developing sight-reading, transposition, improvisation, and harmonization skills. The completion of the Piano Class sequence along with the passing of the Piano Class II Final Exam will fulfill the piano proficiency requirement.

Prerequisites: MUA 130.

When Offered

Every semester.

OR

MUA 115 - Piano

(1-2) Private lessons in piano are customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals and technique as well as improving musical performance and artistry.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester. May be repeated for credit.

When Offered

Fall and spring semesters.

Students may take either (or a combination of) MUA 130 - Piano Class I and MUA 132 Piano Class II or MUA 115 - Piano until they pass MUA 230 - Piano Proficiency . Required number of semesters varies per student.

MUA 175 - Music Convocation

(0) Includes weekly performance class, all School of Music concerts and recitals, and special guest artists and speakers.

Notes: Required of all music majors each semester and of music minors for four semesters. Pass/Fail.

When Offered

Fall and spring semesters.

MUA 230 - Piano Proficiency

(0) The piano proficiency course covers areas of basic piano skills, including scales, chords, arpeggios, and cadences in major and minor keys. Students will be required to use these skills for harmonization, playing by ear, and transposing. Students will also be required to perform pieces at the piano in a variety of styles, including church, school, and community music, popular music, and classical music.

Corequisites: MUA 130 or MUA 115.

When Offered

Fall and spring semesters.

MUA 231 - Performance Proficiency

(0) Student must demonstrate basic levels of proficiency on their primary instrument at the end of their required applied lesson study.

Corequisites: Primary Instrument (MUA 102-126).

When Offered

Every fall and spring semester.

MUE 100 - University Women's Choir

(1) The University Women's Choir is a select large ensemble dedicated to the performance of vocal masterworks from all musical styles and periods. University Women's Choir is an opportunity for students to grow in stewardship of God-given gifts and musical talents. Musical excellence and well-prepared performances are stressed. The University Women's Choir tours and records annually and presents multiple concerts each year. Auditions for University Women's Choir are held at the beginning of the fall semester.

Notes: May be repeated for credit.

Fee

Music ensemble fee.

When Offered

Fall and spring semesters.

MUE 101 - University Choir

(1) The University Choir is a select large ensemble dedicated to the performance of vocal masterworks from all musical styles and periods. University Choir is an opportunity for students to grow in stewardship of God-given gifts and musical talents. Musical excellence and well-prepared performances are stressed. The University Choir tours and records annually and presents multiple concerts each year. Auditions for University Choir are held at the beginning of the fall semester.

Notes: May be repeated for credit.

Fee

Music ensemble fee.

When Offered

Fall and spring semesters.

MUE 102 - University Symphonic Band

(1) The University Symphonic Band is a select large ensemble for woodwinds, brass and percussion, oriented towards the performance of a wide range of music for the modern wind band, including transcriptions, standard literature, popular music, and sacred music for band. Symphonic Band is an opportunity for students to grow in stewardship of God-given gifts and musical talents. Musical excellence and well-prepared performances are stressed. The University Symphonic Band tours and records annually and presents multiple concerts each year. Auditions for University Symphonic Band are held at the beginning of the fall semester.

Notes: May be repeated for credit.

Fee

Music ensemble fee.

When Offered

Fall and spring semesters.

MUE 103 - Chamber Orchestra

(1) A select instrumental ensemble in conjunction with the Lakewood Symphony Orchestra featuring string and wind instruments that performs a variety of traditional and contemporary literature for community audiences.

Prerequisites: Instructor permission required.

Notes: May be repeated for credit.

When Offered

Fall and spring semesters.

MUE 109 - Chamber Strings

(1) The University Chamber Strings ensemble is comprised of violinists, violists, cellists, and double bassists performing varied music for small groups; including works from the standard chamber music literature, jazz and popular music, as well as sacred music for strings. Chamber Strings provides an opportunity for students to develop and express their God-given gifts and musical talents. Musical excellence, collaboration, and engaging and varied performances are stressed. The Chamber Strings do a number of outreach performances annually.

Notes: May be repeated for credit.

When Offered

Fall and spring semesters.

MUE 114 - Handbell Ensemble

(1) A performing ensemble that also focuses on developing rehearsal, conducting, and performance skills. Along with concert performance, students work in the areas of ringing technique development and pedagogy, instrument care and maintenance, rhythm reading, score reading, and conducting. Musical excellence, collaboration, and engaging and varied performances are stressed. The Handbell Ensemble does a number of outreach performances annually.

Notes: May be repeated for credit.

When Offered

Fall and spring semesters.

MUS 111 - From Sight to Sound - Music Fundamentals

(2) A course exploring the fundamentals of written music and its practical application to sound and vice versa. Students will gain a basic understanding of music including notation, rhythm, scales, key signatures, intervals, and chords, with an introduction to keyboard and improvisation.

When Offered

Every fall semester.

MUS 112 - Music Theory I: Elements of Music

(3) This course is the first semester of a four-semester sequence required of all music majors. Comprehensive musicianship through hearing, analyzing, and composing. Musical elements covered include melody, rhythm (including simple and compound meter), major and minor modes, chord structure, phrase structure, realization of figured bass, and basic counterpoint.

Prerequisites: MUS 111 or passing grade on the Music Theory Entrance Exam.

Corequisites: MUS 113.

When Offered

Every spring semester.

MUS 113 - Sight-Singing and Ear Training I

(1) This course is the first semester of a four-semester sequence required of all music majors. It is assumed that students will be enrolled in the corequisite Music Theory class when enrolled in a Sight Singing and Ear Training course. In this sequence, students will develop aural skills and competency with sight singing and ear training using solfege in the areas of melody, harmony, and rhythm in a systematic pedagogy.

Prerequisites: MUS 111 or a passing grade on the Music Theory Entrance Exam.

Corequisites: MUS 112.

When Offered

Every spring semester.

MUS 212 - Music Theory II: Diatonic Harmony and Tonicization

(3) Continuation of MUS 112. Topics covered include phrase structure (forms) and motivic analysis, cadences, embellishing tones, introduction to voice-leading, secondary dominants and leading-tone chords, and modulation. Also included in an introduction to music writing software (Finale) as applicable to continued study in Music Theory.

Prerequisites: MUS 110, MUS 112, MUS 113.

Corequisites: MUS 213.

When Offered

Every fall semester.

MUS 213 - Sight-Singing and Ear Training II

(1) This course is the second semester of a four-semester sequence required of all music majors. It is assumed that students will be enrolled in the co-requisite Music Theory class when enrolled in a Sight Singing and Ear Training course. In this sequence, students will develop aural skills and competency with sight singing and ear training using solfege in the areas of melody, harmony, and rhythm in a systematic pedagogy.

Prerequisites: MUS 112, MUS 113.

Corequisites: MUS 212.

When Offered

Every fall semester.

MUS 214 - Music Theory III: Chromatic Harmony and Forms

(3) Continuation of MUS 212. Comprehensive emphasis of 18th century common-practice musical techniques, including melodic and contrapuntal writing, as well as analysis of modal mixture, Neapolitan and augmented sixth chords. An examination of chromatic harmony and modulation. Analysis of vocal forms, and harmony and melody in popular music.

Prerequisites: MUS 212, MUS 213.

Corequisites: MUS 215.

When Offered

Every spring semester.

MUS 215 - Sight-Singing and Ear Training III

(1) A continuation of MUS 213. Aural skills including sight singing using solfege and numbers; harmonic, melodic and rhythmic dictation, modes, and jazz scales.

Prerequisites: MUS 212, MUS 213.

Corequisites: MUS 214.

When Offered

Every spring semester.

MUS 312 - Music Theory IV: The Twentieth Century and Beyond

(3) Continuation of MUS 214. Study of modern and recent musical styles. Survey of advanced harmonic developments in 19th century music, as well as 20th/21st century compositional and improvisational techniques.

Prerequisites: MUS 214, MUS 215.

Corequisites: MUS 313.

When Offered

Every fall semester.

MUS 313 - Sight-Singing and Ear Training IV

(1) Continuation of MUS 215. Aural skills including sight singing using solfege and numbers; harmonic, melodic and rhythmic dictation, modes, and jazz scales.

Prerequisites: MUS 214, MUS 215.

Corequisites: MUS 312.

When Offered

Every fall semester.

MUS 323 - History of Music I

(2) Historical study of the music of the Medieval, Renaissance, and Baroque periods of music history through readings, study of scores, listening, and analysis of stylistic characteristics of representative compositions. The study of the music is integrated with concurrent historical developments in government, politics, economics, geography, science, literature, painting, and philosophy.

When Offered

Every fall semester.

MUS 324 - History of Music II

(2) Historical study of the music from ca. 1700 to the present through readings, study of scores, listening, and analysis of stylistic characteristics of representative compositions. Emphasis is given to the development of music in Europe, with reference to concurrent historical development in non-Western cultures throughout the world.

Prerequisites: MUS 212, MUS 213.

When Offered

Every spring semester.

MUS 410 - World Music

(2) World Music is an exploration of musical styles as the reflection of world cultures, with an introduction to ethnomusicology. This survey course begins in the eastern hemisphere and moves west, including studies from Oceania, Asia, the Middle East, Africa, Europe, the Caribbean, South America, and North America. The interaction of music, culture, and religion provides additional insight into diverse cultural traditions throughout the world.

When Offered

Every fall semester.

MUS 326 - Conducting

(2) This introductory conducting course addresses conducting gestures and technique, musical terminology and markings, language pronunciation, basic rehearsal procedures for choral and instrumental groups, developing leadership skills, and verbal and non-verbal communication. Special emphasis is placed on developing a relationship between conducting gestures and sound.

Prerequisites: MUS 212.

When Offered

Every spring semester.

MUS 426 - Music Business

(2) An in-depth study of Christian and secular music industries; careers in the music business, including music director, choral directing and instrumental accompaniment, small business development, music publishing, recording industry, film and television industry, teaching, and performance. The objective is to give students a greater understanding of music as an industry. Studies include: getting an agent, marketing, finance, understanding ASCAP/BMI, cue sheets, royalties, IMDB credits, talking with record companies, contract negotiations, creating a CV, building a website, music placement for film and television, budgeting for projects and worship arts, dealing with criticism, making a profit.

When Offered

Every fall semester.

MUS 470 - Senior Thesis

(2) A capstone academic research paper covering the aesthetic, historical, and/or psychological bases of music and their integration with the Christian faith.

Prerequisites: Senior standing.

Notes: Minimum of 25 pages with oral defense.

Fee

Fees may apply.

When Offered

Fall and spring semesters.

Music Electives (3) Instrumental Majors only

OR

Vocal Majors only

MUS 325 - Singer's Diction and Literature

(2) This course serves as an introduction to and the development of a working knowledge of the International Phonetic Alphabet, and its direct application to the English, Italian, German and French languages for the purpose of correct pronunciation and articulation in singing. Students will apply this knowledge in transcribing English, Italian, German, and French into the IPA; developing the ability to accurately and clearly enunciate and articulate sounds and inflections in English, Italian, German, and French. Attention will also be given to song literature materials, and effective vocal repertoire selection for studio and recital use.

When Offered

Even spring semesters.

MUS 356 - Vocal Methods

(1) A study of how the vocal mechanism works and pedagogical techniques for instructing others in singing. Objectives include developing an understanding of the acoustical and physiological make-up of the vocal apparatus, gaining an aural perception and understanding of specific vocal problems - their causes and possible solutions, and fostering the development of the student's ability to teach sound vocal technique.

When Offered

Odd fall semesters.

Primary Instrument Core (5 credit hours)

Each student will take 5 credit hours in the instrument on which they auditioned and have been accepted.

MUA 102 - Baritone/Euphonium

(1-2) Private lessons in baritone and euphonium are customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals of tone production and technique as well as improving musical performance and artistry.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester. May be repeated for credit.

Fee

Music instrument fee.

When Offered

Fall and spring semesters.

MUA 103 - Bassoon

(1-2) Private lessons in bassoon are customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals and technique as well as improving musical performance and artistry.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester. May be repeated for credit.

Fee

Music instrument fee.

When Offered

Fall and spring semesters.

MUA 104 - Clarinet

(1-2) Private lessons in clarinet are customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals and technique as well as improving musical performance and artistry.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester. May be repeated for credit.

Fee

Music instrument fee.

When Offered

Fall and spring semesters.

MUA 108 - Flute

(1-2) Private lessons in flute are customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals and technique as well as improving musical performance and artistry.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester. May be repeated for credit.

Fee

Music instrument fee.

When Offered

Fall and spring semesters.

MUA 109 - French Horn

(1-2) Private lessons in French horn are customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals and technique as well as improving musical performance and artistry.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester. May be repeated for credit.

Fee

Music instrument fee.

When Offered

Fall and spring semesters.

MUA 110 - Guitar

(1-2) Private lessons in guitar are customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals and technique as well as improving musical performance and artistry.

Prerequisites: Music Majors and Minors only.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester. May be repeated for credit.

When Offered

Fall and spring semesters.

MUA 111 - Harp

(1-2) Private lessons in harp are customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals and technique as well as improving musical performance and artistry.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester. May be repeated for credit.

When Offered

Fall and spring semesters.

MUA 112 - Oboe

(1-2) Private lessons in oboe are customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals and technique as well as improving musical performance and artistry.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester. May be repeated for credit.

Fee

Music instrument fee.

When Offered

Fall and spring semesters.

MUA 113 - Organ

(1-2) Private lessons in organ are customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals and technique as well as improving musical performance and artistry.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester. May be repeated for credit.

When Offered

Fall and spring semesters.

MUA 114 - Percussion

(1-2) Private lessons in percussion are customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals and technique as well as improving musical performance and artistry.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester. May be repeated for credit.

When Offered

Fall and spring semesters.

MUA 115 - Piano

(1-2) Private lessons in piano are customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals and technique as well as improving musical performance and artistry.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester. May be repeated for credit.

When Offered

Fall and spring semesters.

MUA 116 - Saxophone

(1-2) Private lessons in saxophone are customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals of tone production and technique as well as improving musical performance and artistry.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester. May be repeated for credit.

Fee

Music instrument fee.

When Offered

Fall and spring semesters.

MUA 117 - String/Electric Bass

(1-2) Private lessons in string or electric bass are customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals of tone production and technique as well as improving musical performance and artistry.

Lab/Lecture Hours

Course fees apply.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester. May be repeated for credit.

When Offered

Fall and spring semesters.

MUA 120 - Trombone

(1-2) Private lessons in trombone are customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals of tone production and technique as well as improving musical performance and artistry.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester. May be repeated for credit.

Fee

Music instrument fee.

When Offered

Fall and spring semesters.

MUA 121 - Trumpet

(1-2) Private lessons in trumpet are customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals of tone production and technique as well as improving musical performance and artistry.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester. May be repeated for credit.

Fee

Music instrument fee.

When Offered

Fall and spring semesters.

MUA 122 - Tuba

(1-2) Private lessons in tuba are customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals of tone production and technique as well as improving musical performance and artistry.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester. May be repeated for credit.

Fee

Music instrument fee.

When Offered

Fall and spring semesters.

MUA 123 - Viola

(1-2) Private lessons in viola are customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals of tone production and technique as well as improving musical performance and artistry.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester. May be repeated for credit.

Fee

Music instrument fee.

When Offered

Fall and spring semesters.

MUA 124 - Violin

(1-2) Private lessons in violin are customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals of tone production and technique as well as improving musical performance and artistry.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester. May be repeated for credit.

Fee

Music instrument fee.

When Offered

Fall and spring semesters.

MUA 125 - Cello

(1-2) Private lessons in cello are customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals of tone production and technique as well as improving musical performance and artistry.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester. May be repeated for credit.

Fee

Music instrument fee.

When Offered

Fall and spring semesters.

MUA 126 - Voice

(1-2) Individual applied lessons in singing with the goals of the development of individual vocal talent; the personal and musical growth of each student; providing the student with the opportunity to study and perform a wide variety of vocal repertoire indicative of, and sympathetic to, the multi-cultural society in which we live; such vocal study as is consistent with the ideals of sound vocal technique.

Notes: the one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester. May be repeated for credit.

Fee

Fees may apply.

When Offered

Fall and spring semesters.

MUA 133 - Drumset

(1-2) Private lessons in drumset customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals and technique as well as improving musical performance and artistry.

Notes: The one-credit section involves one half-hour lesson per week; the two-credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester. May be repeated for credit.

When Offered

Every fall and spring semesters.

Electives Core (24 credit hours)

General Electives - 24 credit hours

Additional Information

- Those selecting the music major must take MUS 110 - Musical Perspectives as part of the general education requirements.
- MUS 111 - From Sight to Sound - Music Fundamentals is a prerequisite for entrance into MUS 112 - Music Theory I: Elements of Music
- MUA 175 - Music Convocation is required for all music majors each semester at CCU (up to 8 semesters).
- Piano and Piano Class requirements vary in order to pass Piano Proficiency. Students must take MUA 130 - Piano Class I AND MUA 132 Piano Class II OR MUA 115 - Piano in consecutive semesters until MUA 230 - Piano Proficiency is passed.
- Only one ensemble credit each semester counts toward the requirements for the major.

Graduation Requirements for Bachelor of Arts in Music

The faculty recommends students in the B.A. in Music to the Board of Trustees as candidates for graduation when they have completed the following requirements.

1. Completion of a total of 120 credits, including all general education, electives and Music major program requirements.
2. A letter grade of D or better and a cumulative GPA of 2.0 or better in all CCU coursework, and a GPA of 2.0 or higher for all courses specified for the major.
3. Completion of 180 hours of ministry/community service and 180 chapel credits. Transfer students are required to complete 45 hours of ministry/community service and 45 chapel credits each year of attendance at CCU. For further details on ministry/community service, see the Life Directions Center (LDC) section of this catalog. For further details on chapel credits, see the Student Life section of this catalog.
4. Meet the CCU Residency requirements.
5. Completion of eight semesters of MUA 175 - Music Convocation.
6. Acceptable performance on exit exams, as required by the faculty.
7. Formal and timely application for graduation by the date specified by the University Registrar.
8. No outstanding financial obligation to the University.

Music Major - Music Composition

The Bachelor of Arts in Music with Music Composition emphasis is tailored to help the individual composer develop their career within the context of the professional marketplace. Areas of focus include modern scoring and arranging technology, contemporary sensibilities with a strong foundation in time-tested compositional methodology, music for media, and scoring for the concert hall and the symphony orchestra.

The Bachelor of Arts in Music with Music Composition emphasis requires completion of the following 120 credit hours:

General Education (48 credit hours)

Music Core (53 credit hours)

Electives Core (19 credit hours)

General Education Requirements (48 credit hours)

Arts and Humanities (9 credit hours)

Take one course from each of the following three academic disciplines:

Fine Arts (3 credit hours)

MUS 110 - Musical Perspectives

(3) An exploration of music in the broader context of culture and the arts; personal musical experiences through listening and doing; and developing the ability to discern aesthetic excellence. Included is an introduction to the elements of music and how music works, the development of a Christian perspective on the arts, a broad survey of representative selections of Western music, and a focused overview of non-western/world music.

Notes: This course satisfies the general education fine arts requirement for most students. It is recommended for all students, especially those with an interest in music, and is the required fine arts course for all music majors and minors. Students with a special interest in Theatre should see THR 112.

Note: MUS 110 does not satisfy the fine arts requirement for education majors.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

Literature (3 credit hours)

Choose one course from the following:

ENG 201 - Introduction to Literature

(3) Understand, experience, and evaluate poetry, short fiction, essays, and drama genres, both American and multinational.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Fall and spring semesters.

ENG 202 - American Literature I

(3) Representative stories, poems, and documents in American literature from the Colonial era to the early Republic (1776-1830) through the Romantic-transcendentalist period (1830-1860). Includes readings from multiethnic and women writers.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every fall semester.

ENG 203 - American Literature II

(3) Representative stories, poems, and drama in American literature from the Civil War to the present. Nontraditional ethnic and women's voices included. Emphasis on interpretation and criticism of American literature.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every spring semester.

ENG 204 - British Literature I

(3) Surveys the history of literature in Britain until 1800 and representative works by influential writers of the periods contained therein.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every fall semester.

ENG 205 - British Literature II

(3) Surveys the history of literature in Britain from 1800 to the present and representative works by influential writers.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every spring semester.

Philosophy (3 credit hours)

PHL 202 - Introduction to Philosophy

(3) This course is a survey of many major issues raised over the two-and-a-half millennia of western philosophy. With an emphasis on historical context and development, as well as philosophy's relationship to Christian thought, this course challenges students to critically explore philosophical questions and introduce them to the great tradition of intellectual inquiry. Special attention will be given to the subjects of truth and knowledge, reality and appearance, mind and body, right and wrong, beauty and the existence of God.

When Offered

Fall and summer semesters.

Biblical Studies (12 credit hours)

Take the following four courses (some courses are cross-listed and only one prefix needs to be taken):

BIB 111 - Old Testament

(3) This course provides an introduction to the theological, historical, and literary features of the Old Testament, tracing God's covenant relationship with ancient Israel. Special consideration will be given to the divine covenants and Messianic prophecies of the Old Testament.

When Offered

Every spring semester.

Cross-listed HIS 111

HIS 111 - Old Testament

(3) This course provides an introduction to the theological, historical, and literary features of the Old Testament, tracing God's covenant relationship with ancient Israel. Special consideration will be given to the divine covenants and Messianic prophecies of the Old Testament.

When Offered

Every spring semester.

Cross-listed BIB 111.

BIB 114 - New Testament

(3) This course provides an introduction to the theological, historical, and literary features of the New Testament, tracing the presentation of the gospel message through historical, epistolary, and apocalyptic genres. Special consideration will be given to the life of Christ and missionary journeys of the Apostle Paul.

When Offered

Every fall semester.

Cross-listed HUM 114

HUM 114 - New Testament

(3) This course provides an introduction to the theological, historical, and literary features of the New Testament, tracing the presentation of the gospel message through historical, epistolary, and apocalyptic genres. Special consideration will

be given to the life of Christ and missionary journeys of the Apostle Paul.

When Offered

Every fall semester.
Cross-listed BIB 114.

PHL 315 - World Religions and Systems of Belief

(3) This course introduces an academic study of religion and what is called worldview, supplemented by an overview of some of the major tenets of Christianity; this is then followed by a survey of several other religious traditions and competing philosophies.

Prerequisites: PHL 202, THE 201.

When Offered

Winter and spring semesters.

THE 201 - Introduction to Theology

(3) This course covers basic issues, themes, and categories of Christian theology, including the doctrines of Scripture, God, humanity, Christ, salvation, the church, and last things. This course encourages students to better know, trust, love, and live by God's Word.

Prerequisites: BIB 111, BIB 114.

When Offered

Fall, winter, spring, and summer semesters.

Communication (6 credit hours)

COM 103 - Public Speaking

(3) Introductory principles of communication emphasizing public speaking. Aspects of verbal and nonverbal delivery, speech organization, and the effective use of supporting material and presentational aids are addressed. Students give several speeches designed to better equip them for future speaking endeavors

When Offered

Fall and spring semesters.

ENG 102 - English Composition

(3) Effective use of the English language and exploration of rhetorical modes in written composition. Review of structure, purpose, and audience awareness in developing essays.

Prerequisites: ACT and/or SAT scores will be used to determine placement in either ENG 102 or ENG 102 (Basic).

Notes: Course must be completed first semester at CCU.

When Offered

Fall and spring semester.

ENG 105 - Advanced English Composition

(3) Advanced English composition, research methods, and literary study for invited exceptional students. Focus on both the study of literature and research writing.

Prerequisites: One of the following:

- AP English Language and Composition
 - A score of 4 is the minimum prerequisite for enrollment in ENG 105. A student who scores a 4 or 5 will automatically enroll a student in ENG 105 instead of ENG 102 and/or ENG 201.
- AP English Literature and Composition
 - A score of 4 is the minimum prerequisite for enrollment in ENG 105. A student who scores a 4 or 5 will automatically enroll a student in ENG 105 instead of ENG 102 and/or ENG 201.
- Score of 30 or above on the verbal section of the ACT exam.
- Score of 700 or above on the verbal section of the SAT exam.
- By invitation of the English department.

Notes: Fulfills general education requirements for both ENG 102 and ENG 201.

When Offered

Every fall semester.

Integrative Studies (3 credit hours)

* Please see the First-Year Integration (FYI) page for specific information about this required course.

INT 101 - First-Year Integration

(3) Think critically, grow spiritually, and change the world. Based on the premise that we as Christians are called to be rational creatures, relational creatures, and responsible creatures, FYI is an integrative study of foundational Christian principles with other disciplines. Examination and discussion of problems and contemporary issues - academic, personal, and social - facing students in their pursuit of success in college and life. Please see the First-Year Integration (FYI) page for specific information about this required course.

When Offered

Fall and spring semesters.

Mathematics (3 credit hours)

MAT 112 - Mathematics for Liberal Arts

(3) This course introduces some of the important ideas in mathematics and how they can be applied in everyday life situations, solving a wide range of practical problems. Topics include sets, logic, history of numeration, number systems and their properties, number patterns, counting principles, probability, statistics, graph theory, personal finance, and voting methods.

Notes: Students with higher level mathematics skills (i.e. ACT MAT above 20 and SAT MATH above 520) are discouraged from taking this class. Only students who do not place into MAT 111 - College Algebra should enroll in MAT 112 - Mathematics for Liberal Arts.

When Offered

Fall, spring and summer semesters.

Students majoring in Music Media and Marketing should take MAT-212 as a prerequisite for the Business and Media core.

Science (3 credit hours)

SCI 230 - Integrated Physical Science with Lab

(3) This is an integrated course presenting the major concepts, theoretical perspectives, historical trends, and empirical findings of the physical sciences. Laboratory exercises and lectures explore motion, the four forces, heat, energy, chemical reactions, the structure and development of matter, the types and nature of chemical bonding, and the nature and history of the universe, the solar system, and the Earth.

Lab/Lecture Hours

Laboratory investigations included in course.

Fee

Lab fees apply.

When Offered

Every semester.

Social Sciences (12 credit hours)

Take each of the following four courses:

ECO 215 - Economics

(3) Economics is about scarcity and choice. Students in this course study how people, firms, governments, and nations interact in alternative economic systems to make choices about allocating scarce resources. In addition, students learn to evaluate these systems, understand macroeconomic monetary and fiscal policies, and engage in policy debates.

When Offered

Fall and spring semesters.

HIS 185 - Western Civilization

(3) The spiritual values and intellectual achievements of ancient Israel, Greece, Rome, the Middle Ages, the Renaissance, and Reformation that gave birth to the modern world.

When Offered

Every fall semester.

HIS 205 - American History

(3) Principles of the founding and the political, economic, intellectual, cultural, and religious traditions that have shaped America.

When Offered

Every spring semester.

POL 207 - Introduction to American Politics

(3) Introduction to political science and American government to prepare students to be effective citizens.

When Offered

Every fall and spring semester.

Music Major Core (53 credit hours)

MUA 130 - Piano Class I

(1) Piano Class I is for Music majors with little or no background in piano study. Technique will cover five-finger patterns, two octave scales (white keys only), cross-hand arpeggios, root position triads and inversions, seventh chords in closed position, and root chord progressions in all major and minor keys. Students will learn a variety of repertoire from different styles and periods, developing sight-reading, transposition, improvisation, and harmonization skills.

Notes: For Music Majors or Minors this class (or MUA 115 - Piano (1 or 2)) is required until MUA 230 - Piano Proficiency (0) is passed. May be repeated for credit.

When Offered

Fall and spring semesters.

MUA 132 - Piano Class II

(1) Piano Class II is for Music Majors who have passed or have been exempted from Piano Class I. Technique will cover two octave scales (white and black keys), one-hand arpeggios, seventh chords in closed, small, and large open positions, root and inverted chord progressions in all major and minor keys. Students will learn a variety of repertoire from different styles and periods, developing sight-reading, transposition, improvisation, and harmonization skills. The completion of the Piano Class sequence along with the passing of the Piano Class II Final Exam will fulfill the piano proficiency requirement.

Prerequisites: MUA 130.

When Offered

Every semester.

OR

MUA 115 - Piano

(1-2) Private lessons in piano are customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals and technique as well as improving musical performance and artistry.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester. May be repeated for credit.

When Offered

Fall and spring semesters.

Students may take either (or a combination of) MUA 130 Piano Class I and MUA 132 Piano Class II or MUA 115 Piano until they pass MUA 230 Piano Proficiency. Required number of semesters varies per student.

MUA 175 - Music Convocation

(0) Includes weekly performance class, all School of Music concerts and recitals, and special guest artists and speakers.

Notes: Required of all music majors each semester and of music minors for four semesters. Pass/Fail.

When Offered

Fall and spring semesters.

MUA 230 - Piano Proficiency

(0) The piano proficiency course covers areas of basic piano skills, including scales, chords, arpeggios, and cadences in major and minor keys. Students will be required to use these skills for harmonization, playing by ear, and transposing. Students will also be required to perform pieces at the piano in a variety of styles, including church, school, and community music, popular music, and classical music.

Corequisites: MUA 130 or MUA 115.

When Offered

Fall and spring semesters.

MUE 100 - University Women's Choir

(1) The University Women's Choir is a select large ensemble dedicated to the performance of vocal masterworks from all musical styles and periods. University Women's Choir is an opportunity for students to grow in stewardship of God-given gifts and musical talents. Musical excellence and well-prepared performances are stressed. The University Women's Choir tours and records annually and presents multiple concerts each year. Auditions for University Women's Choir are held at the beginning of the fall semester.

Notes: May be repeated for credit.

Fee

Music ensemble fee.

When Offered

Fall and spring semesters.

MUE 101 - University Choir

(1) The University Choir is a select large ensemble dedicated to the performance of vocal masterworks from all musical styles and periods. University Choir is an opportunity for students to grow in stewardship of God-given gifts and musical talents. Musical excellence and well-prepared performances are stressed. The University Choir tours and records annually and presents multiple concerts each year. Auditions for University Choir are held at the beginning of the fall semester.

Notes: May be repeated for credit.

Fee

Music ensemble fee.

When Offered

Fall and spring semesters.

MUE 102 - University Symphonic Band

(1) The University Symphonic Band is a select large ensemble for woodwinds, brass and percussion, oriented towards the performance of a wide range of music for the modern wind band, including transcriptions, standard literature, popular music, and sacred music for band. Symphonic Band is an opportunity for students to grow in stewardship of God-given gifts and musical talents. Musical excellence and well-prepared performances are stressed. The University Symphonic Band tours and records annually and presents multiple concerts each year. Auditions for University Symphonic Band are held at the beginning of the fall semester.

Notes: May be repeated for credit.

Fee

Music ensemble fee.

When Offered

Fall and spring semesters.

MUE 103 - Chamber Orchestra

(1) A select instrumental ensemble in conjunction with the Lakewood Symphony Orchestra featuring string and wind instruments that performs a variety of traditional and contemporary literature for community audiences.

Prerequisites: Instructor permission required.

Notes: May be repeated for credit.

When Offered

Fall and spring semesters.

MUE 109 - Chamber Strings

(1) The University Chamber Strings ensemble is comprised of violinists, violists, cellists, and double bassists performing varied music for small groups; including works from the standard chamber music literature, jazz and popular music, as

well as sacred music for strings. Chamber Strings provides an opportunity for students to develop and express their God-given gifts and musical talents. Musical excellence, collaboration, and engaging and varied performances are stressed. The Chamber Strings do a number of outreach performances annually.

Notes: May be repeated for credit.

When Offered

Fall and spring semesters.

MUE 114 - Handbell Ensemble

(1) A performing ensemble that also focuses on developing rehearsal, conducting, and performance skills. Along with concert performance, students work in the areas of ringing technique development and pedagogy, instrument care and maintenance, rhythm reading, score reading, and conducting. Musical excellence, collaboration, and engaging and varied performances are stressed. The Handbell Ensemble does a number of outreach performances annually.

Notes: May be repeated for credit.

When Offered

Fall and spring semesters.

MUS 111 - From Sight to Sound - Music Fundamentals

(2) A course exploring the fundamentals of written music and its practical application to sound and vice versa. Students will gain a basic understanding of music including notation, rhythm, scales, key signatures, intervals, and chords, with an introduction to keyboard and improvisation.

When Offered

Every fall semester.

MUS 112 - Music Theory I: Elements of Music

(3) This course is the first semester of a four-semester sequence required of all music majors. Comprehensive musicianship through hearing, analyzing, and composing. Musical elements covered include melody, rhythm (including simple and compound meter), major and minor modes, chord structure, phrase structure, realization of figured bass, and basic counterpoint.

Prerequisites: MUS 111 or passing grade on the Music Theory Entrance Exam.

Corequisites: MUS 113.

When Offered

Every spring semester.

MUS 113 - Sight-Singing and Ear Training I

(1) This course is the first semester of a four-semester sequence required of all music majors. It is assumed that students will be enrolled in the corequisite Music Theory class when enrolled in a Sight Singing and Ear Training course. In this sequence, students will develop aural skills and competency with sight singing and ear training using solfege in the areas of melody, harmony, and rhythm in a systematic pedagogy.

Prerequisites: MUS 111 or a passing grade on the Music Theory Entrance Exam.

Corequisites: MUS 112.

When Offered

Every spring semester.

MUS 212 - Music Theory II: Diatonic Harmony and Tonicization

(3) Continuation of MUS 112. Topics covered include phrase structure (forms) and motivic analysis, cadences, embellishing tones, introduction to voice-leading, secondary dominants and leading-tone chords, and modulation. Also included in an introduction to music writing software (Finale) as applicable to continued study in Music Theory.

Prerequisites: MUS 110, MUS 112, MUS 113.

Corequisites: MUS 213.

When Offered

Every fall semester.

MUS 213 - Sight-Singing and Ear Training II

(1) This course is the second semester of a four-semester sequence required of all music majors. It is assumed that students will be enrolled in the co-requisite Music Theory class when enrolled in a Sight Singing and Ear Training course. In this sequence, students will develop aural skills and competency with sight singing and ear training using solfege in the areas of melody, harmony, and rhythm in a systematic pedagogy.

Prerequisites: MUS 112, MUS 113.
Corequisites: MUS 212.

When Offered

Every fall semester.

MUS 214 - Music Theory III: Chromatic Harmony and Forms

(3) Continuation of MUS 212. Comprehensive emphasis of 18th century common-practice musical techniques, including melodic and contrapuntal writing, as well as analysis of modal mixture, Neapolitan and augmented sixth chords. An examination of chromatic harmony and modulation. Analysis of vocal forms, and harmony and melody in popular music.

Prerequisites: MUS 212, MUS 213.
Corequisites: MUS 215.

When Offered

Every spring semester.

MUS 215 - Sight-Singing and Ear Training III

(1) A continuation of MUS 213. Aural skills including sight singing using solfege and numbers; harmonic, melodic and rhythmic dictation, modes, and jazz scales.

Prerequisites: MUS 212, MUS 213.
Corequisites: MUS 214.

When Offered

Every spring semester.

MUS 312 - Music Theory IV: The Twentieth Century and Beyond

(3) Continuation of MUS 214. Study of modern and recent musical styles. Survey of advanced harmonic developments in 19th century music, as well as 20th/21st century compositional and improvisational techniques.

Prerequisites: MUS 214, MUS 215.
Corequisites: MUS 313.

When Offered

Every fall semester.

MUS 313 - Sight-Singing and Ear Training IV

(1) Continuation of MUS 215. Aural skills including sight singing using solfege and numbers; harmonic, melodic and rhythmic dictation, modes, and jazz scales.

Prerequisites: MUS 214, MUS 215.
Corequisites: MUS 312.

When Offered

Every fall semester.

MUS 323 - History of Music I

(2) Historical study of the music of the Medieval, Renaissance, and Baroque periods of music history through readings, study of scores, listening, and analysis of stylistic characteristics of representative compositions. The study of the music is integrated with concurrent historical developments in government, politics, economics, geography, science, literature, painting, and philosophy.

When Offered

Every fall semester.

MUS 324 - History of Music II

(2) Historical study of the music from ca. 1700 to the present through readings, study of scores, listening, and analysis of stylistic characteristics of representative compositions. Emphasis is given to the development of music in Europe, with reference to concurrent historical development in non-Western cultures throughout the world.

Prerequisites: MUS 212, MUS 213.

When Offered

Every spring semester.

MUS 326 - Conducting

(2) This introductory conducting course addresses conducting gestures and technique, musical terminology and markings, language pronunciation, basic rehearsal procedures for choral and instrumental groups, developing leadership skills, and verbal and non-verbal communication. Special emphasis is placed on developing a relationship between conducting gestures and sound.

Prerequisites: MUS 212.

When Offered

Every spring semester.

MUS 355 - Improvisational Techniques

(1) An introduction to improvisation (keyboard-based) with a focus on the development of improvisational melodies, harmonic progressions and re-harmonization of chord progressions, left and right-hand voicing, and modulations. Particular emphasis is given to improvisation in pop, jazz, traditional, and contemporary worship settings.

Prerequisites: MUS 212.

When Offered

Even spring semesters.

MUS 410 - World Music

(2) World Music is an exploration of musical styles as the reflection of world cultures, with an introduction to ethnomusicology. This survey course begins in the eastern hemisphere and moves west, including studies from Oceania, Asia, the Middle East, Africa, Europe, the Caribbean, South America, and North America. The interaction of music, culture, and religion provides additional insight into diverse cultural traditions throughout the world.

When Offered

Every fall semester.

MUS 411 - Scoring and Arranging

(2) The study of technical capabilities and orchestration for instruments and voices, individually and in ensembles, including full orchestra, choir, and jazz instruments. Emphasis is given to developing technical mastery for transcribing, arranging, and score preparation using current music technology tools.

Prerequisites: MUS 212.

When Offered

Every spring semester.

MUS 426 - Music Business

(2) An in-depth study of Christian and secular music industries; careers in the music business, including music director, choral directing and instrumental accompaniment, small business development, music publishing, recording industry, film and television industry, teaching, and performance. The objective is to give students a greater understanding of music as an industry. Studies include: getting an agent, marketing, finance, understanding ASCAP/BMI, cue sheets, royalties, IMDB credits, talking with record companies, contract negotiations, creating a CV, building a website, music placement for film and television, budgeting for projects and worship arts, dealing with criticism, making a profit.

When Offered

Every fall semester.

MUS 470 - Senior Thesis

(2) A capstone academic research paper covering the aesthetic, historical, and/or psychological bases of music and their integration with the Christian faith.

Prerequisites: Senior standing.

Notes: Minimum of 25 pages with oral defense.

Fee

Fees may apply.

When Offered

Fall and spring semesters.

MUS 360 - Half Recital

(0) A half-hour recital demonstrating a proficiency and basic level of mastery of performance skill on a primary instrument or voice. The recital should include appropriate performance practice covering a range of important musical styles and periods.

When Offered

Fall and spring semesters.

MUS 460 - Full Recital

(0) One-hour instrumental or vocal recital demonstrating mastery of performance skill. The recital should include appropriate performance practice covering a range of important musical styles and periods.

When Offered

Fall and spring semesters.

MUA 119 - Songwriting

(1-2) Private lessons in songwriting are customized to meet the musical needs, interests, academic requirements, and goals of individual students.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester. May be repeated for credit.

When Offered

Fall and spring semesters.

MUA 105 - Composition

(1-2) Private lessons in composition are customized to meet the musical needs, interests, academic requirements, and goals of individual students.

Prerequisites: MUS 112. Music majors with a Composition emphasis only.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester. May be repeated for credit.

When Offered

Fall and spring semesters.

Electives Core (19 credit hours)

General Electives - 19 credit hours

Additional Information

- Those selecting the music composition major must take MUS 110 Musical Perspectives as part of the general education requirements.
- MUS 111 From Sight to Sound - Music Fundamentals is a prerequisite for entrance into MUS 112 Music Theory I: Elements of Music
- MUA 175 Music Convocation is required for all music majors each semester at CCU (up to 8 semesters).
- Piano and Piano Class requirements vary in order to pass Piano Proficiency. Students must take MUA 130 Piano Class I AND MUA 132 Piano Class II OR MUA 115 Piano in consecutive semesters until MUA 230 Piano Proficiency is passed.
- Only one ensemble credit each semester counts toward the requirements for the major.
- Suggested electives to include with the B.A. Music Composition: MUS 271 Music Production and Engineering I, MUS 272 Music Production and Engineering II

Graduation Requirements for Bachelor of Arts in Music with Music Composition Emphasis

The faculty recommends students in the B.A. in Music with Music Composition emphasis to the Board of Trustees as candidates for graduation when they have completed the following requirements.

1. Completion of a total of 120 credits, including all general education, electives, and Music major program requirements.
2. A letter grade of D or better and a cumulative GPA of 2.0 or better in all CCU coursework, and a GPA of 2.0 or higher for all courses specified for the major.
3. Completion of 180 hours of ministry/community service and 180 chapel credits. Transfer students are required to complete 45 hours of ministry/community service and 45 chapel credits each year of attendance at CCU. For further details on ministry/community service, see the Life Directions Center (LDC) section of this catalog. For further details on chapel credits, see the Student Life section of this catalog.
4. Meet the CCU Residency requirements.
5. Completion of eight semesters of MUA 175 Music Convocation.
6. Acceptable performance on exit exams, as required by the faculty.
7. Formal and timely application for graduation by the date specified by the University Registrar.
8. No outstanding financial obligation to the University.

Music Major - Music Media and Marketing

The Bachelor of Arts in Music with Music Media and Marketing emphasis degree is designed to help musicians gain the skillsets needed to become competitive and remain competitive in the music marketplace. Areas of study include the fundamentals of the music industry; addressing the marketing, legal, ethical, financial, and artistic issues confronting modern musicians; along with the University's core music curriculum.

The Bachelor of Arts in Music with Music Media and Marketing emphasis requires completion of the following 120 credit hours:

General Education (48 credit hours)

Music Business and Media Core (25 credit hours)

Music Core (47 credit hours)

General Education Requirements (48 credit hours)

Arts and Humanities (9 credit hours)

Take one course from each of the following three academic disciplines:

Fine Arts (3 credit hours)

MUS 110 - Musical Perspectives

(3) An exploration of music in the broader context of culture and the arts; personal musical experiences through listening and doing; and developing the ability to discern aesthetic excellence. Included is an introduction to the elements of music and how music works, the development of a Christian perspective on the arts, a broad survey of representative selections of Western music, and a focused overview of non-western/world music.

Notes: This course satisfies the general education fine arts requirement for most students. It is recommended for all students, especially those with an interest in music, and is the required fine arts course for all music majors and minors. Students with a special interest in Theatre should see THR 112.

Note: MUS 110 does not satisfy the fine arts requirement for education majors.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

Literature (3 credit hours)

Choose one course from the following:

ENG 201 - Introduction to Literature

(3) Understand, experience, and evaluate poetry, short fiction, essays, and drama genres, both American and multinational.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Fall and spring semesters.

ENG 202 - American Literature I

(3) Representative stories, poems, and documents in American literature from the Colonial era to the early Republic (1776-1830) through the Romantic-transcendentalist period (1830-1860). Includes readings from multiethnic and women writers.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every fall semester.

ENG 203 - American Literature II

(3) Representative stories, poems, and drama in American literature from the Civil War to the present. Nontraditional ethnic and women's voices included. Emphasis on interpretation and criticism of American literature.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every spring semester.

ENG 204 - British Literature I

(3) Surveys the history of literature in Britain until 1800 and representative works by influential writers of the periods contained therein.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every fall semester.

ENG 205 - British Literature II

(3) Surveys the history of literature in Britain from 1800 to the present and representative works by influential writers.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every spring semester.

Philosophy (3 credit hours)

PHL 202 - Introduction to Philosophy

(3) This course is a survey of many major issues raised over the two-and-a-half millennia of western philosophy. With an emphasis on historical context and development, as well as philosophy's relationship to Christian thought, this course challenges students to critically explore philosophical questions and introduce them to the great tradition of intellectual inquiry. Special attention will be given to the subjects of truth and knowledge, reality and appearance, mind and body, right and wrong, beauty and the existence of God.

When Offered

Fall and summer semesters.

Biblical Studies (12 credit hours)

Take the following four courses (some courses are cross-listed and only one prefix needs to be taken):

BIB 111 - Old Testament

(3) This course provides an introduction to the theological, historical, and literary features of the Old Testament, tracing God's covenant relationship with ancient Israel. Special consideration will be given to the divine covenants and Messianic prophecies of the Old Testament.

When Offered

Every spring semester.

Cross-listed HIS 111

HIS 111 - Old Testament

(3) This course provides an introduction to the theological, historical, and literary features of the Old Testament, tracing God's covenant relationship with ancient Israel. Special consideration will be given to the divine covenants and Messianic prophecies of the Old Testament.

When Offered

Every spring semester.
Cross-listed BIB 111.

BIB 114 - New Testament

(3) This course provides an introduction to the theological, historical, and literary features of the New Testament, tracing the presentation of the gospel message through historical, epistolary, and apocalyptic genres. Special consideration will be given to the life of Christ and missionary journeys of the Apostle Paul.

When Offered

Every fall semester.
Cross-listed HUM 114

HUM 114 - New Testament

(3) This course provides an introduction to the theological, historical, and literary features of the New Testament, tracing the presentation of the gospel message through historical, epistolary, and apocalyptic genres. Special consideration will be given to the life of Christ and missionary journeys of the Apostle Paul.

When Offered

Every fall semester.
Cross-listed BIB 114.

PHL 315 - World Religions and Systems of Belief

(3) This course introduces an academic study of religion and what is called worldview, supplemented by an overview of some of the major tenets of Christianity; this is then followed by a survey of several other religious traditions and competing philosophies.

Prerequisites: PHL 202, THE 201.

When Offered

Winter and spring semesters.

THE 201 - Introduction to Theology

(3) This course covers basic issues, themes, and categories of Christian theology, including the doctrines of Scripture, God, humanity, Christ, salvation, the church, and last things. This course encourages students to better know, trust, love, and live by God's Word.

Prerequisites: BIB 111, BIB 114.

When Offered

Fall, winter, spring, and summer semesters.

Communication (6 credit hours)**COM 103 - Public Speaking**

(3) Introductory principles of communication emphasizing public speaking. Aspects of verbal and nonverbal delivery, speech organization, and the effective use of supporting material and presentational aids are addressed. Students give several speeches designed to better equip them for future speaking endeavors

When Offered

Fall and spring semesters.

ENG 102 - English Composition

(3) Effective use of the English language and exploration of rhetorical modes in written composition. Review of structure, purpose, and audience awareness in developing essays.

Prerequisites: ACT and/or SAT scores will be used to determine placement in either ENG 102 or ENG 102 (Basic).

Notes: Course must be completed first semester at CCU.

When Offered

Fall and spring semester.

ENG 105 - Advanced English Composition

(3) Advanced English composition, research methods, and literary study for invited exceptional students. Focus on both the study of literature and research writing.

Prerequisites: One of the following:

- AP English Language and Composition
 - A score of 4 is the minimum prerequisite for enrollment in ENG 105. A student who scores a 4 or 5 will automatically enroll a student in ENG 105 instead of ENG 102 and/or ENG 201.
- AP English Literature and Composition
 - A score of 4 is the minimum prerequisite for enrollment in ENG 105. A student who scores a 4 or 5 will automatically enroll a student in ENG 105 instead of ENG 102 and/or ENG 201.
- Score of 30 or above on the verbal section of the ACT exam.
- Score of 700 or above on the verbal section of the SAT exam.
- By invitation of the English department.

Notes: Fulfills general education requirements for both ENG 102 and ENG 201.

When Offered

Every fall semester.

Integrative Studies (3 credit hours)

* Please see the First-Year Integration (FYI) page for specific information about this required course.

INT 101 - First-Year Integration

(3) Think critically, grow spiritually, and change the world. Based on the premise that we as Christians are called to be rational creatures, relational creatures, and responsible creatures, FYI is an integrative study of foundational Christian principles with other disciplines. Examination and discussion of problems and contemporary issues - academic, personal, and social - facing students in their pursuit of success in college and life. Please see the First-Year Integration (FYI) page for specific information about this required course.

When Offered

Fall and spring semesters.

Mathematics (3 credit hours)

MAT 112 - Mathematics for Liberal Arts

(3) This course introduces some of the important ideas in mathematics and how they can be applied in everyday life situations, solving a wide range of practical problems. Topics include sets, logic, history of numeration, number systems and their properties, number patterns, counting principles, probability, statistics, graph theory, personal finance, and voting methods.

Notes: Students with higher level mathematics skills (i.e. ACT MAT above 20 and SAT MATH above 520) are discouraged from taking this class. Only students who do not place into MAT 111 - College Algebra should enroll in MAT 112 - Mathematics for Liberal Arts.

When Offered

Fall, spring and summer semesters.

Students majoring in Music Media and Marketing should take MAT-212 as a prerequisite for the Business and Media core.

Science (3 credit hours)

SCI 230 - Integrated Physical Science with Lab

(3) This is an integrated course presenting the major concepts, theoretical perspectives, historical trends, and empirical findings of the physical sciences. Laboratory exercises and lectures explore motion, the four forces, heat, energy, chemical reactions, the structure and development of matter, the types and nature of chemical bonding, and the nature and history of the universe, the solar system, and the Earth.

Lab/Lecture Hours

Laboratory investigations included in course.

Fee

Lab fees apply.

When Offered

Every semester.

Social Sciences (12 credit hours)

Take each of the following four courses:

ECO 215 - Economics

(3) Economics is about scarcity and choice. Students in this course study how people, firms, governments, and nations interact in alternative economic systems to make choices about allocating scarce resources. In addition, students learn to evaluate these systems, understand macroeconomic monetary and fiscal policies, and engage in policy debates.

When Offered

Fall and spring semesters.

HIS 185 - Western Civilization

(3) The spiritual values and intellectual achievements of ancient Israel, Greece, Rome, the Middle Ages, the Renaissance, and Reformation that gave birth to the modern world.

When Offered

Every fall semester.

HIS 205 - American History

(3) Principles of the founding and the political, economic, intellectual, cultural, and religious traditions that have shaped America.

When Offered

Every spring semester.

POL 207 - Introduction to American Politics

(3) Introduction to political science and American government to prepare students to be effective citizens.

When Offered

Every fall and spring semester.

Music Business and Media Emphasis Core (25 credit hours)

ACC 201 - Principles of Accounting I Financial Reporting

(4) This course provides an introduction to the financial accounting information role in business and society, focusing on the recording and reporting of business operations, including financing and investing events. It provides insights on business and enables students to become familiar with reporting of business operations using generally accepted accounting principles.

Prerequisites: BUS 101 or MGT 101.

When Offered

Fall and spring semesters.

BUS 101 - Introduction to Business, Management and Ethics

(3) Students learn fundamental business topics that prepares them to be successful in the exciting world of business and non-profit organizations. Students gain foundations in functional areas (accounting, finance, management, marketing, and technology) and operating environments common to every organization. This course is engaging and transformational, whether one is just starting out or already an avid student of business.

When Offered

Fall and spring semesters.

Cross-listed MGT 101

COM 206 - Visual Storytelling and Digital Media Production

(3) Through readings, lectures, demonstrations, and hands-on exercises, critical thinking and collaborative teamwork, students explore the art and business of visual storytelling. The course has an emphasis of storytelling through graphic design for print and online digital media, media pre-production, production and digital non-linear editing, and includes writing and photography to complement the general skills needed by a business professional working in the communication/media field.

Fee

Course Fees apply.

When Offered

Every fall and spring semesters.

COM 355 - Social Media, Audience Analysis, and Analytics

(3) This course is designed to help students identify, study, and analyze audiences on social media in order to prepare better strategic communication messages. Students will discuss both the benefits and limitations of relying on social media data compared to traditional methods of marketing research, and learn how to develop effective social media messages and campaigns.

Prerequisites: COM 206.

When Offered

Every fall semester.

COM 375 - Visual Culture and Graphic Design

(3) This course will teach students how to examine and appreciate elements of culture expressed through visual images, and to develop a visual eye. Students will learn how to design with specific audiences in mind, and edit images using Classic Adobe Suite: Photoshop, Illustrator, and InDesign.

Prerequisites: COM 206, Junior or Senior standing.

When Offered

Every fall semester.

FIN 307 - Personal Financial Planning

(3) Wealth comes in many forms. In this course, students explore various aspects of money management and the Christian concept of stewardship. In addition to learning about investments, insurance, taxes, and the basics of budgeting, students discover what the Bible says about contentment, generosity, living within our means, and much more.

When Offered

Every fall and spring semesters.

MKT 202 - Principles of Marketing

(3) Marketing is not tricking people into buying something, but rather involves creating genuine value for customers. Students learn how to use the marketing mix (product, price, promotion, and place) and STP (segmenting, targeting, and positioning) as well as better understand advertising, logistics, data analytics, online marketing, pricing, and ethics. The final group project includes a real-world application to rebrand and market a company.

When Offered

Every fall semester.

MKT 310 - Marketing Research and Consumer Behavior

(3) Marketers must know the customer so well that the product or service sells itself. This course teaches the basics of marketing research and the cultural, social, personal, and psychological factors influencing buyer behavior. Students learn how to do marketing research and scrutinize research literature.

Prerequisites: MAT 212, MKT 202.

When Offered

Every spring semester.

Music Core (47 credit hours)**MUA 130 - Piano Class I**

(1) Piano Class I is for Music majors with little or no background in piano study. Technique will cover five-finger patterns, two octave scales (white keys only), cross-hand arpeggios, root position triads and inversions, seventh chords in closed position, and root chord progressions in all major and minor keys. Students will learn a variety of repertoire from different styles and periods, developing sight-reading, transposition, improvisation, and harmonization skills.

Notes: For Music Majors or Minors this class (or MUA 115 - Piano (1 or 2)) is required until MUA 230 - Piano Proficiency (0) is passed. May be repeated for credit.

When Offered

Fall and spring semesters.

MUA 132 - Piano Class II

(1) Piano Class II is for Music Majors who have passed or have been exempted from Piano Class I. Technique will cover two octave scales (white and black keys), one-hand arpeggios, seventh chords in closed, small, and large open positions, root and inverted chord progressions in all major and minor keys. Students will learn a variety of repertoire from different styles and periods, developing sight-reading, transposition, improvisation, and harmonization skills. The completion of the Piano Class sequence along with the passing of the Piano Class II Final Exam will fulfill the piano proficiency requirement.

Prerequisites: MUA 130.

When Offered

Every semester.

OR

MUA 115 - Piano

(1-2) Private lessons in piano are customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals and technique as well as improving musical performance and artistry.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester. May be repeated for credit.

When Offered

Fall and spring semesters.

Students may take either (or a combination of) MUA 130 Piano Class I and MUA 132 Piano Class II or MUA 115 Piano until they pass MUA 230 Piano Proficiency. Required number of semesters varies per student.

MUA 175 - Music Convocation

(0) Includes weekly performance class, all School of Music concerts and recitals, and special guest artists and speakers.

Notes: Required of all music majors each semester and of music minors for four semesters. Pass/Fail.

When Offered

Fall and spring semesters.

MUA 230 - Piano Proficiency

(0) The piano proficiency course covers areas of basic piano skills, including scales, chords, arpeggios, and cadences in major and minor keys. Students will be required to use these skills for harmonization, playing by ear, and transposing. Students will also be required to perform pieces at the piano in a variety of styles, including church, school, and community music, popular music, and classical music.

Corequisites: MUA 130 or MUA 115.

When Offered

Fall and spring semesters.

MUE 100 - University Women's Choir

(1) The University Women's Choir is a select large ensemble dedicated to the performance of vocal masterworks from all musical styles and periods. University Women's Choir is an opportunity for students to grow in stewardship of God-given gifts and musical talents. Musical excellence and well-prepared performances are stressed. The University Women's Choir tours and records annually and presents multiple concerts each year. Auditions for University Women's Choir are held at the beginning of the fall semester.

Notes: May be repeated for credit.

Fee

Music ensemble fee.

When Offered

Fall and spring semesters.

MUE 101 - University Choir

(1) The University Choir is a select large ensemble dedicated to the performance of vocal masterworks from all musical styles and periods. University Choir is an opportunity for students to grow in stewardship of God-given gifts and musical talents. Musical excellence and well-prepared performances are stressed. The University Choir tours and records annually and presents multiple concerts each year. Auditions for University Choir are held at the beginning of the fall semester.

Notes: May be repeated for credit.

Fee

Music ensemble fee.

When Offered

Fall and spring semesters.

MUE 102 - University Symphonic Band

(1) The University Symphonic Band is a select large ensemble for woodwinds, brass and percussion, oriented towards the performance of a wide range of music for the modern wind band, including transcriptions, standard literature, popular music, and sacred music for band. Symphonic Band is an opportunity for students to grow in stewardship of God-given gifts and musical talents. Musical excellence and well-prepared performances are stressed. The University Symphonic Band tours and records annually and presents multiple concerts each year. Auditions for University Symphonic Band are held at the beginning of the fall semester.

Notes: May be repeated for credit.

Fee

Music ensemble fee.

When Offered

Fall and spring semesters.

MUE 103 - Chamber Orchestra

(1) A select instrumental ensemble in conjunction with the Lakewood Symphony Orchestra featuring string and wind instruments that performs a variety of traditional and contemporary literature for community audiences.

Prerequisites: Instructor permission required.

Notes: May be repeated for credit.

When Offered

Fall and spring semesters.

MUE 109 - Chamber Strings

(1) The University Chamber Strings ensemble is comprised of violinists, violists, cellists, and double bassists performing varied music for small groups; including works from the standard chamber music literature, jazz and popular music, as well as sacred music for strings. Chamber Strings provides an opportunity for students to develop and express their God-given gifts and musical talents. Musical excellence, collaboration, and engaging and varied performances are stressed. The Chamber Strings do a number of outreach performances annually.

Notes: May be repeated for credit.

When Offered

Fall and spring semesters.

MUE 114 - Handbell Ensemble

(1) A performing ensemble that also focuses on developing rehearsal, conducting, and performance skills. Along with concert performance, students work in the areas of ringing technique development and pedagogy, instrument care and maintenance, rhythm reading, score reading, and conducting. Musical excellence, collaboration, and engaging and varied performances are stressed. The Handbell Ensemble does a number of outreach performances annually.

Notes: May be repeated for credit.

When Offered

Fall and spring semesters.

MUS 111 - From Sight to Sound - Music Fundamentals

(2) A course exploring the fundamentals of written music and its practical application to sound and vice versa. Students will gain a basic understanding of music including notation, rhythm, scales, key signatures, intervals, and chords, with an introduction to keyboard and improvisation.

When Offered

Every fall semester.

MUS 112 - Music Theory I: Elements of Music

(3) This course is the first semester of a four-semester sequence required of all music majors. Comprehensive musicianship through hearing, analyzing, and composing. Musical elements covered include melody, rhythm (including simple and compound meter), major and minor modes, chord structure, phrase structure, realization of figured bass, and basic counterpoint.

Prerequisites: MUS 111 or passing grade on the Music Theory Entrance Exam.
Corequisites: MUS 113.

When Offered

Every spring semester.

MUS 113 - Sight-Singing and Ear Training I

(1) This course is the first semester of a four-semester sequence required of all music majors. It is assumed that students will be enrolled in the corequisite Music Theory class when enrolled in a Sight Singing and Ear Training course. In this sequence, students will develop aural skills and competency with sight singing and ear training using solfege in the areas of melody, harmony, and rhythm in a systematic pedagogy.

Prerequisites: MUS 111 or a passing grade on the Music Theory Entrance Exam.
Corequisites: MUS 112.

When Offered

Every spring semester.

MUS 212 - Music Theory II: Diatonic Harmony and Tonicization

(3) Continuation of MUS 112. Topics covered include phrase structure (forms) and motivic analysis, cadences, embellishing tones, introduction to voice-leading, secondary dominants and leading-tone chords, and modulation. Also included in an introduction to music writing software (Finale) as applicable to continued study in Music Theory.

Prerequisites: MUS 110, MUS 112, MUS 113.
Corequisites: MUS 213.

When Offered

Every fall semester.

MUS 213 - Sight-Singing and Ear Training II

(1) This course is the second semester of a four-semester sequence required of all music majors. It is assumed that students will be enrolled in the co-requisite Music Theory class when enrolled in a Sight Singing and Ear Training course. In this sequence, students will develop aural skills and competency with sight singing and ear training using solfege in the areas of melody, harmony, and rhythm in a systematic pedagogy.

Prerequisites: MUS 112, MUS 113.
Corequisites: MUS 212.

When Offered

Every fall semester.

MUS 214 - Music Theory III: Chromatic Harmony and Forms

(3) Continuation of MUS 212. Comprehensive emphasis of 18th century common-practice musical techniques, including melodic and contrapuntal writing, as well as analysis of modal mixture, Neapolitan and augmented sixth chords. An examination of chromatic harmony and modulation. Analysis of vocal forms, and harmony and melody in popular music.

Prerequisites: MUS 212, MUS 213.
Corequisites: MUS 215.

When Offered

Every spring semester.

MUS 215 - Sight-Singing and Ear Training III

(1) A continuation of MUS 213. Aural skills including sight singing using solfege and numbers; harmonic, melodic and rhythmic dictation, modes, and jazz scales.

Prerequisites: MUS 212, MUS 213.

Corequisites: MUS 214.

When Offered

Every spring semester.

MUS 312 - Music Theory IV: The Twentieth Century and Beyond

(3) Continuation of MUS 214. Study of modern and recent musical styles. Survey of advanced harmonic developments in 19th century music, as well as 20th/21st century compositional and improvisational techniques.

Prerequisites: MUS 214, MUS 215.

Corequisites: MUS 313.

When Offered

Every fall semester.

MUS 313 - Sight-Singing and Ear Training IV

(1) Continuation of MUS 215. Aural skills including sight singing using solfege and numbers; harmonic, melodic and rhythmic dictation, modes, and jazz scales.

Prerequisites: MUS 214, MUS 215.

Corequisites: MUS 312.

When Offered

Every fall semester.

MUS 323 - History of Music I

(2) Historical study of the music of the Medieval, Renaissance, and Baroque periods of music history through readings, study of scores, listening, and analysis of stylistic characteristics of representative compositions. The study of the music is integrated with concurrent historical developments in government, politics, economics, geography, science, literature, painting, and philosophy.

When Offered

Every fall semester.

MUS 324 - History of Music II

(2) Historical study of the music from ca. 1700 to the present through readings, study of scores, listening, and analysis of stylistic characteristics of representative compositions. Emphasis is given to the development of music in Europe, with reference to concurrent historical development in non-Western cultures throughout the world.

Prerequisites: MUS 212, MUS 213.

When Offered

Every spring semester.

MUS 326 - Conducting

(2) This introductory conducting course addresses conducting gestures and technique, musical terminology and markings, language pronunciation, basic rehearsal procedures for choral and instrumental groups, developing leadership skills, and verbal and non-verbal communication. Special emphasis is placed on developing a relationship between conducting gestures and sound.

Prerequisites: MUS 212.

When Offered

Every spring semester.

MUS 410 - World Music

(2) World Music is an exploration of musical styles as the reflection of world cultures, with an introduction to ethnomusicology. This survey course begins in the eastern hemisphere and moves west, including studies from Oceania, Asia, the Middle East, Africa, Europe, the Caribbean, South America, and North America. The interaction of music, culture, and religion provides additional insight into diverse cultural traditions throughout the world.

When Offered

Every fall semester.

MUS 411 - Scoring and Arranging

(2) The study of technical capabilities and orchestration for instruments and voices, individually and in ensembles, including full orchestra, choir, and jazz instruments. Emphasis is given to developing technical mastery for transcribing, arranging, and score preparation using current music technology tools.

Prerequisites: MUS 212.

When Offered

Every spring semester.

MUS 271 - Music Production and Engineering I

(3) This course serves as an introduction to music production and recording software. Students gain an understanding regarding the strengths of various software options including Pro Tools and Ableton. Students learn to edit audio files in Pro Tools, keyboard shortcuts, and general understanding of the software. They work with MIDI, virtual instruments and related topics.

Prerequisites: Music, StratCom, or Digital Media Majors only.

When Offered

Every fall semester.

MUS 426 - Music Business

(2) An in-depth study of Christian and secular music industries; careers in the music business, including music director, choral directing and instrumental accompaniment, small business development, music publishing, recording industry, film and television industry, teaching, and performance. The objective is to give students a greater understanding of music as an industry. Studies include: getting an agent, marketing, finance, understanding ASCAP/BMI, cue sheets, royalties, IMDB credits, talking with record companies, contract negotiations, creating a CV, building a website, music placement for film and television, budgeting for projects and worship arts, dealing with criticism, making a profit.

When Offered

Every fall semester.

MUS 470 - Senior Thesis

(2) A capstone academic research paper covering the aesthetic, historical, and/or psychological bases of music and their integration with the Christian faith.

Prerequisites: Senior standing.

Notes: Minimum of 25 pages with oral defense.

Fee

Fees may apply.

When Offered

Fall and spring semesters.

Primary Instrument Core (2 credit hours)

Each student will take 2 credit hours in the instrument on which they auditioned and have been accepted.

MUA 102 - Baritone/Euphonium

(1-2) Private lessons in baritone and euphonium are customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals of tone production and technique as well as improving musical performance and artistry.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester. May be repeated for credit.

Fee

Music instrument fee.

When Offered

Fall and spring semesters.

MUA 103 - Bassoon

(1-2) Private lessons in bassoon are customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals and technique as well as improving musical

performance and artistry.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester. May be repeated for credit.

Fee

Music instrument fee.

When Offered

Fall and spring semesters.

MUA 104 - Clarinet

(1-2) Private lessons in clarinet are customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals and technique as well as improving musical performance and artistry.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester. May be repeated for credit.

Fee

Music instrument fee.

When Offered

Fall and spring semesters.

MUA 108 - Flute

(1-2) Private lessons in flute are customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals and technique as well as improving musical performance and artistry.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester. May be repeated for credit.

Fee

Music instrument fee.

When Offered

Fall and spring semesters.

MUA 109 - French Horn

(1-2) Private lessons in French horn are customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals and technique as well as improving musical performance and artistry.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester. May be repeated for credit.

Fee

Music instrument fee.

When Offered

Fall and spring semesters.

MUA 110 - Guitar

(1-2) Private lessons in guitar are customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals and technique as well as improving musical performance and artistry.

Prerequisites: Music Majors and Minors only.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester. May be repeated for credit.

When Offered

Fall and spring semesters.

MUA 111 - Harp

(1-2) Private lessons in harp are customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals and technique as well as improving musical performance and artistry.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester. May be repeated for credit.

When Offered

Fall and spring semesters.

MUA 112 - Oboe

(1-2) Private lessons in oboe are customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals and technique as well as improving musical performance and artistry.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester. May be repeated for credit.

Fee

Music instrument fee.

When Offered

Fall and spring semesters.

MUA 113 - Organ

(1-2) Private lessons in organ are customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals and technique as well as improving musical performance and artistry.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester. May be repeated for credit.

When Offered

Fall and spring semesters.

MUA 114 - Percussion

(1-2) Private lessons in percussion are customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals and technique as well as improving musical performance and artistry.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester. May be repeated for credit.

When Offered

Fall and spring semesters.

MUA 115 - Piano

(1-2) Private lessons in piano are customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals and technique as well as improving musical performance and artistry.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester. May be repeated for credit.

When Offered

Fall and spring semesters.

MUA 116 - Saxophone

(1-2) Private lessons in saxophone are customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals of tone production and technique as well as improving musical performance and artistry.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson

per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester. May be repeated for credit.

Fee

Music instrument fee.

When Offered

Fall and spring semesters.

MUA 117 - String/Electric Bass

(1-2) Private lessons in string or electric bass are customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals of tone production and technique as well as improving musical performance and artistry.

Lab/Lecture Hours

Course fees apply.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester.

May be repeated for credit.

When Offered

Fall and spring semesters.

MUA 120 - Trombone

(1-2) Private lessons in trombone are customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals of tone production and technique as well as improving musical performance and artistry.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester.

May be repeated for credit.

Fee

Music instrument fee.

When Offered

Fall and spring semesters.

MUA 121 - Trumpet

(1-2) Private lessons in trumpet are customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals of tone production and technique as well as improving musical performance and artistry.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester.

May be repeated for credit.

Fee

Music instrument fee.

When Offered

Fall and spring semesters.

MUA 122 - Tuba

(1-2) Private lessons in tuba are customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals of tone production and technique as well as improving musical performance and artistry.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester.

May be repeated for credit.

Fee

Music instrument fee.

When Offered

Fall and spring semesters.

MUA 123 - Viola

(1-2) Private lessons in viola are customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals of tone production and technique as well as

improving musical performance and artistry.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester. May be repeated for credit.

Fee

Music instrument fee.

When Offered

Fall and spring semesters.

MUA 124 - Violin

(1-2) Private lessons in violin are customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals of tone production and technique as well as improving musical performance and artistry.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester. May be repeated for credit.

Fee

Music instrument fee.

When Offered

Fall and spring semesters.

MUA 125 - Cello

(1-2) Private lessons in cello are customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals of tone production and technique as well as improving musical performance and artistry.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester. May be repeated for credit.

Fee

Music instrument fee.

When Offered

Fall and spring semesters.

MUA 126 - Voice

(1-2) Individual applied lessons in singing with the goals of the development of individual vocal talent; the personal and musical growth of each student; providing the student with the opportunity to study and perform a wide variety of vocal repertoire indicative of, and sympathetic to, the multi-cultural society in which we live; such vocal study as is consistent with the ideals of sound vocal technique.

Notes: the one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester. May be repeated for credit.

Fee

Fees may apply.

When Offered

Fall and spring semesters.

MUA 133 - Drumset

(1-2) Private lessons in drumset customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals and technique as well as improving musical performance and artistry.

Notes: The one-credit section involves one half-hour lesson per week; the two-credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester. May be repeated for credit.

When Offered

Every fall and spring semesters.

Additional Information

- Those selecting the music major must take MUS 110 Musical Perspectives as part of the general education requirements.
- MUS 111 From Sight to Sound - Music Fundamentals is a prerequisite for entrance into MUS 112 Music Theory I: Elements of Music
- MUA 175 Music Convocation is required for all music majors each semester at CCU (up to 8 semesters).
- Piano and Piano Class requirements vary in order to pass Piano Proficiency. Students must take MUA 130 Piano Class I AND MUA 132 Piano Class II OR MUA 115 Piano in consecutive semesters until MUA 230 Piano Proficiency is passed.
- Only one ensemble credit each semester counts toward the requirements for the major.

Graduation Requirements for Bachelor of Arts in Music with Music Media & Marketing Emphasis

The faculty recommends students in the B.A. in Music with Music Media & Marketing emphasis to the Board of Trustees as candidates for graduation when they have completed the following requirements.

1. Completion of a total of 120 credits, including all general education, electives and Music major program requirements.
2. A letter grade of D or better and a cumulative GPA of 2.0 or better in all CCU coursework, and a GPA of 2.0 or higher for all courses specified for the major.
3. Completion of 180 hours of ministry/community service and 180 chapel credits. Transfer students are required to complete 45 hours of ministry/community service and 45 chapel credits each year of attendance at CCU. For further details on ministry/community service, see the Life Directions Center (LDC) section of this catalog. For further details on chapel credits, see the Student Life section of this catalog.
4. Meet the CCU Residency requirements.
5. Completion of eight semesters of MUA 175 Music Convocation.
6. Acceptable performance on exit exams, as required by the faculty.
7. Formal and timely application for graduation by the date specified by the University Registrar.
8. No outstanding financial obligation to the University.

Music Major - Music Performance

The Bachelor of Arts in Music with Music Performance emphasis degree is focused on developing the artist musician. Additional performances and recitals are required along with increased hours in applied studies and pedagogies. Though based on developing solid technique, studies are tailored to the individual students' area of interest, with preparation for further graduate level study as a goal.

The Bachelor of Arts in Music with Music Performance emphasis requires completion of the following 120 credit hours:

General Education (48 credit hours)

Music Core (43 credit hours)

Primary Instrument Core (10 credit hours)

Electives Core (19 credit hours)

General Education Requirements (48 credit hours)

Arts and Humanities (9 credit hours)

Take one course from each of the following three academic disciplines:

Fine Arts (3 credit hours)

MUS 110 - Musical Perspectives

(3) An exploration of music in the broader context of culture and the arts; personal musical experiences through listening and doing; and developing the ability to discern aesthetic excellence. Included is an introduction to the elements of music and how music works, the development of a Christian perspective on the arts, a broad survey of representative selections of Western music, and a focused overview of non-western/world music.

Notes: This course satisfies the general education fine arts requirement for most students. It is recommended for all students, especially those with an interest in music, and is the required fine arts course for all music majors and minors. Students with a special interest in Theatre should see THR 112.

Note: MUS 110 does not satisfy the fine arts requirement for education majors.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

Literature (3 credit hours)

Choose one course from the following:

ENG 201 - Introduction to Literature

(3) Understand, experience, and evaluate poetry, short fiction, essays, and drama genres, both American and multinational.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Fall and spring semesters.

ENG 202 - American Literature I

(3) Representative stories, poems, and documents in American literature from the Colonial era to the early Republic (1776-1830) through the Romantic-transcendentalist period (1830-1860). Includes readings from multiethnic and women writers.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every fall semester.

ENG 203 - American Literature II

(3) Representative stories, poems, and drama in American literature from the Civil War to the present. Nontraditional ethnic and women's voices included. Emphasis on interpretation and criticism of American literature.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every spring semester.

ENG 204 - British Literature I

(3) Surveys the history of literature in Britain until 1800 and representative works by influential writers of the periods contained therein.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every fall semester.

ENG 205 - British Literature II

(3) Surveys the history of literature in Britain from 1800 to the present and representative works by influential writers.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every spring semester.

Philosophy (3 credit hours)**PHL 202 - Introduction to Philosophy**

(3) This course is a survey of many major issues raised over the two-and-a-half millennia of western philosophy. With an emphasis on historical context and development, as well as philosophy's relationship to Christian thought, this course challenges students to critically explore philosophical questions and introduce them to the great tradition of intellectual inquiry. Special attention will be given to the subjects of truth and knowledge, reality and appearance, mind and body, right and wrong, beauty and the existence of God.

When Offered

Fall and summer semesters.

Biblical Studies (12 credit hours)

Take the following four courses (some courses are cross-listed and only one prefix needs to be taken):

BIB 111 - Old Testament

(3) This course provides an introduction to the theological, historical, and literary features of the Old Testament, tracing God's covenant relationship with ancient Israel. Special consideration will be given to the divine covenants and Messianic prophecies of the Old Testament.

When Offered

Every spring semester.
Cross-listed HIS 111

HIS 111 - Old Testament

(3) This course provides an introduction to the theological, historical, and literary features of the Old Testament, tracing God's covenant relationship with ancient Israel. Special consideration will be given to the divine covenants and Messianic prophecies of the Old Testament.

When Offered

Every spring semester.
Cross-listed BIB 111.

BIB 114 - New Testament

(3) This course provides an introduction to the theological, historical, and literary features of the New Testament, tracing the presentation of the gospel message through historical, epistolary, and apocalyptic genres. Special consideration will be given to the life of Christ and missionary journeys of the Apostle Paul.

When Offered

Every fall semester.
Cross-listed HUM 114

HUM 114 - New Testament

(3) This course provides an introduction to the theological, historical, and literary features of the New Testament, tracing the presentation of the gospel message through historical, epistolary, and apocalyptic genres. Special consideration will be given to the life of Christ and missionary journeys of the Apostle Paul.

When Offered

Every fall semester.
Cross-listed BIB 114.

PHL 315 - World Religions and Systems of Belief

(3) This course introduces an academic study of religion and what is called worldview, supplemented by an overview of some of the major tenets of Christianity; this is then followed by a survey of several other religious traditions and competing philosophies.

Prerequisites: PHL 202, THE 201.

When Offered

Winter and spring semesters.

THE 201 - Introduction to Theology

(3) This course covers basic issues, themes, and categories of Christian theology, including the doctrines of Scripture, God, humanity, Christ, salvation, the church, and last things. This course encourages students to better know, trust, love, and live by God's Word.

Prerequisites: BIB 111, BIB 114.

When Offered

Fall, winter, spring, and summer semesters.

Communication (6 credit hours)

COM 103 - Public Speaking

(3) Introductory principles of communication emphasizing public speaking. Aspects of verbal and nonverbal delivery, speech organization, and the effective use of supporting material and presentational aids are addressed. Students give several speeches designed to better equip them for future speaking endeavors

When Offered

Fall and spring semesters.

ENG 102 - English Composition

(3) Effective use of the English language and exploration of rhetorical modes in written composition. Review of structure, purpose, and audience awareness in developing essays.

Prerequisites: ACT and/or SAT scores will be used to determine placement in either ENG 102 or ENG 102 (Basic).

Notes: Course must be completed first semester at CCU.

When Offered

Fall and spring semester.

ENG 105 - Advanced English Composition

(3) Advanced English composition, research methods, and literary study for invited exceptional students. Focus on both the study of literature and research writing.

Prerequisites: One of the following:

- AP English Language and Composition
 - A score of 4 is the minimum prerequisite for enrollment in ENG 105. A student who scores a 4 or 5 will automatically enroll a student in ENG 105 instead of ENG 102 and/or ENG 201.
- AP English Literature and Composition
 - A score of 4 is the minimum prerequisite for enrollment in ENG 105. A student who scores a 4 or 5 will automatically enroll a student in ENG 105 instead of ENG 102 and/or ENG 201.
- Score of 30 or above on the verbal section of the ACT exam.
- Score of 700 or above on the verbal section of the SAT exam.
- By invitation of the English department.

Notes: Fulfills general education requirements for both ENG 102 and ENG 201.

When Offered

Every fall semester.

Integrative Studies (3 credit hours)

* Please see the First-Year Integration (FYI) page for specific information about this required course.

INT 101 - First-Year Integration

(3) Think critically, grow spiritually, and change the world. Based on the premise that we as Christians are called to be rational creatures, relational creatures, and responsible creatures, FYI is an integrative study of foundational Christian principles with other disciplines. Examination and discussion of problems and contemporary issues - academic, personal, and social - facing students in their pursuit of success in college and life. Please see the First-Year Integration (FYI) page for specific information about this required course.

When Offered

Fall and spring semesters.

Mathematics (3 credit hours)**MAT 112 - Mathematics for Liberal Arts**

(3) This course introduces some of the important ideas in mathematics and how they can be applied in everyday life situations, solving a wide range of practical problems. Topics include sets, logic, history of numeration, number systems and their properties, number patterns, counting principles, probability, statistics, graph theory, personal finance, and voting methods.

Notes: Students with higher level mathematics skills (i.e. ACT MAT above 20 and SAT MATH above 520) are discouraged from taking this class. Only students who do not place into MAT 111 - College Algebra should enroll in MAT 112 - Mathematics for Liberal Arts.

When Offered

Fall, spring and summer semesters.

Students majoring in Music Media and Marketing should take MAT-212 as a prerequisite for the Business and Media core.

Science (3 credit hours)

SCI 230 - Integrated Physical Science with Lab

(3) This is an integrated course presenting the major concepts, theoretical perspectives, historical trends, and empirical findings of the physical sciences. Laboratory exercises and lectures explore motion, the four forces, heat, energy, chemical reactions, the structure and development of matter, the types and nature of chemical bonding, and the nature and history of the universe, the solar system, and the Earth.

Lab/Lecture Hours

Laboratory investigations included in course.

Fee

Lab fees apply.

When Offered

Every semester.

Social Sciences (12 credit hours)

Take each of the following four courses:

ECO 215 - Economics

(3) Economics is about scarcity and choice. Students in this course study how people, firms, governments, and nations interact in alternative economic systems to make choices about allocating scarce resources. In addition, students learn to evaluate these systems, understand macroeconomic monetary and fiscal policies, and engage in policy debates.

When Offered

Fall and spring semesters.

HIS 185 - Western Civilization

(3) The spiritual values and intellectual achievements of ancient Israel, Greece, Rome, the Middle Ages, the Renaissance, and Reformation that gave birth to the modern world.

When Offered

Every fall semester.

HIS 205 - American History

(3) Principles of the founding and the political, economic, intellectual, cultural, and religious traditions that have shaped America.

When Offered

Every spring semester.

POL 207 - Introduction to American Politics

(3) Introduction to political science and American government to prepare students to be effective citizens.

When Offered

Every fall and spring semester.

Music Major with Music Performance Emphasis Core (53 credit hours)

Music Core (43 credit hours)

MUA 130 - Piano Class I

(1) Piano Class I is for Music majors with little or no background in piano study. Technique will cover five-finger patterns, two octave scales (white keys only), cross-hand arpeggios, root position triads and inversions, seventh chords in closed position, and root chord progressions in all major and minor keys. Students will learn a variety of repertoire from different styles and periods, developing sight-reading, transposition, improvisation, and harmonization skills.

Notes: For Music Majors or Minors this class (or MUA 115 - Piano (1 or 2)) is required until MUA 230 - Piano Proficiency (0) is passed. May be repeated for credit.

When Offered

Fall and spring semesters.

MUA 132 - Piano Class II

(1) Piano Class II is for Music Majors who have passed or have been exempted from Piano Class I. Technique will cover two octave scales (white and black keys), one-hand arpeggios, seventh chords in closed, small, and large open positions, root and inverted chord progressions in all major and minor keys. Students will learn a variety of repertoire from different styles and periods, developing sight-reading, transposition, improvisation, and harmonization skills. The completion of the Piano Class sequence along with the passing of the Piano Class II Final Exam will fulfill the piano proficiency requirement.

Prerequisites: MUA 130.

When Offered

Every semester.

OR

MUA 115 - Piano

(1-2) Private lessons in piano are customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals and technique as well as improving musical performance and artistry.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester. May be repeated for credit.

When Offered

Fall and spring semesters.

Students may take either (or a combination of) MUA 130 - Piano Class I and MUA 132 - Piano Class II or MUA 115 - Piano until they pass MUA 230 - Piano Proficiency. Required number of semesters varies per student.

MUA 175 - Music Convocation

(0) Includes weekly performance class, all School of Music concerts and recitals, and special guest artists and speakers.

Notes: Required of all music majors each semester and of music minors for four semesters. Pass/Fail.

When Offered

Fall and spring semesters.

MUA 230 - Piano Proficiency

(0) The piano proficiency course covers areas of basic piano skills, including scales, chords, arpeggios, and cadences in major and minor keys. Students will be required to use these skills for harmonization, playing by ear, and transposing. Students will also be required to perform pieces at the piano in a variety of styles, including church, school, and community music, popular music, and classical music.

Corequisites: MUA 130 or MUA 115.

When Offered

Fall and spring semesters.

MUE 100 - University Women's Choir

(1) The University Women's Choir is a select large ensemble dedicated to the performance of vocal masterworks from all musical styles and periods. University Women's Choir is an opportunity for students to grow in stewardship of God-given gifts and musical talents. Musical excellence and well-prepared performances are stressed. The University Women's Choir tours and records annually and presents multiple concerts each year. Auditions for University Women's Choir are held at the beginning of the fall semester.

Notes: May be repeated for credit.

Fee

Music ensemble fee.

When Offered

Fall and spring semesters.

MUE 101 - University Choir

(1) The University Choir is a select large ensemble dedicated to the performance of vocal masterworks from all musical styles and periods. University Choir is an opportunity for students to grow in stewardship of God-given gifts and musical talents. Musical excellence and well-prepared performances are stressed. The University Choir tours and records annually and presents multiple concerts each year. Auditions for University Choir are held at the beginning of the fall semester.

Notes: May be repeated for credit.

Fee

Music ensemble fee.

When Offered

Fall and spring semesters.

MUE 102 - University Symphonic Band

(1) The University Symphonic Band is a select large ensemble for woodwinds, brass and percussion, oriented towards the performance of a wide range of music for the modern wind band, including transcriptions, standard literature, popular music, and sacred music for band. Symphonic Band is an opportunity for students to grow in stewardship of God-given gifts and musical talents. Musical excellence and well-prepared performances are stressed. The University Symphonic Band tours and records annually and presents multiple concerts each year. Auditions for University Symphonic Band are held at the beginning of the fall semester.

Notes: May be repeated for credit.

Fee

Music ensemble fee.

When Offered

Fall and spring semesters.

MUE 103 - Chamber Orchestra

(1) A select instrumental ensemble in conjunction with the Lakewood Symphony Orchestra featuring string and wind instruments that performs a variety of traditional and contemporary literature for community audiences.

Prerequisites: Instructor permission required.

Notes: May be repeated for credit.

When Offered

Fall and spring semesters.

MUE 109 - Chamber Strings

(1) The University Chamber Strings ensemble is comprised of violinists, violists, cellists, and double bassists performing varied music for small groups; including works from the standard chamber music literature, jazz and popular music, as well as sacred music for strings. Chamber Strings provides an opportunity for students to develop and express their God-given gifts and musical talents. Musical excellence, collaboration, and engaging and varied performances are stressed. The Chamber Strings do a number of outreach performances annually.

Notes: May be repeated for credit.

When Offered

Fall and spring semesters.

MUE 114 - Handbell Ensemble

(1) A performing ensemble that also focuses on developing rehearsal, conducting, and performance skills. Along with concert performance, students work in the areas of ringing technique development and pedagogy, instrument care and maintenance, rhythm reading, score reading, and conducting. Musical excellence, collaboration, and engaging and varied performances are stressed. The Handbell Ensemble does a number of outreach performances annually.

Notes: May be repeated for credit.

When Offered

Fall and spring semesters.

- For Piano Performance Majors, replace two (2) semesters of Primary Ensemble with MUE 301. It will be taken for two (2) semesters.
- MUE 301 - Collaborative Piano (1)

MUS 111 - From Sight to Sound - Music Fundamentals

(2) A course exploring the fundamentals of written music and its practical application to sound and vice versa. Students will gain a basic understanding of music including notation, rhythm, scales, key signatures, intervals, and chords, with an introduction to keyboard and improvisation.

When Offered

Every fall semester.

MUS 112 - Music Theory I: Elements of Music

(3) This course is the first semester of a four-semester sequence required of all music majors. Comprehensive musicianship through hearing, analyzing, and composing. Musical elements covered include melody, rhythm (including simple and compound meter), major and minor modes, chord structure, phrase structure, realization of figured bass, and basic counterpoint.

Prerequisites: MUS 111 or passing grade on the Music Theory Entrance Exam.

Corequisites: MUS 113.

When Offered

Every spring semester.

MUS 113 - Sight-Singing and Ear Training I

(1) This course is the first semester of a four-semester sequence required of all music majors. It is assumed that students will be enrolled in the corequisite Music Theory class when enrolled in a Sight Singing and Ear Training course. In this sequence, students will develop aural skills and competency with sight singing and ear training using solfege in the areas of melody, harmony, and rhythm in a systematic pedagogy.

Prerequisites: MUS 111 or a passing grade on the Music Theory Entrance Exam.

Corequisites: MUS 112.

When Offered

Every spring semester.

MUS 212 - Music Theory II: Diatonic Harmony and Tonicization

(3) Continuation of MUS 112. Topics covered include phrase structure (forms) and motivic analysis, cadences, embellishing tones, introduction to voice-leading, secondary dominants and leading-tone chords, and modulation. Also included in an introduction to music writing software (Finale) as applicable to continued study in Music Theory.

Prerequisites: MUS 110, MUS 112, MUS 113.

Corequisites: MUS 213.

When Offered

Every fall semester.

MUS 213 - Sight-Singing and Ear Training II

(1) This course is the second semester of a four-semester sequence required of all music majors. It is assumed that students will be enrolled in the co-requisite Music Theory class when enrolled in a Sight Singing and Ear Training course. In this sequence, students will develop aural skills and competency with sight singing and ear training using solfege in the areas of melody, harmony, and rhythm in a systematic pedagogy.

Prerequisites: MUS 112, MUS 113.

Corequisites: MUS 212.

When Offered

Every fall semester.

MUS 214 - Music Theory III: Chromatic Harmony and Forms

(3) Continuation of MUS 212. Comprehensive emphasis of 18th century common-practice musical techniques, including melodic and contrapuntal writing, as well as analysis of modal mixture, Neapolitan and augmented sixth chords. An examination of chromatic harmony and modulation. Analysis of vocal forms, and harmony and melody in popular music.

Prerequisites: MUS 212, MUS 213.

Corequisites: MUS 215.

When Offered

Every spring semester.

MUS 215 - Sight-Singing and Ear Training III

(1) A continuation of MUS 213. Aural skills including sight singing using solfege and numbers; harmonic, melodic and rhythmic dictation, modes, and jazz scales.

Prerequisites: MUS 212, MUS 213.
Corequisites: MUS 214.

When Offered

Every spring semester.

MUS 312 - Music Theory IV: The Twentieth Century and Beyond

(3) Continuation of MUS 214. Study of modern and recent musical styles. Survey of advanced harmonic developments in 19th century music, as well as 20th/21st century compositional and improvisational techniques.

Prerequisites: MUS 214, MUS 215.
Corequisites: MUS 313.

When Offered

Every fall semester.

MUS 313 - Sight-Singing and Ear Training IV

(1) Continuation of MUS 215. Aural skills including sight singing using solfege and numbers; harmonic, melodic and rhythmic dictation, modes, and jazz scales.

Prerequisites: MUS 214, MUS 215.
Corequisites: MUS 312.

When Offered

Every fall semester.

MUS 323 - History of Music I

(2) Historical study of the music of the Medieval, Renaissance, and Baroque periods of music history through readings, study of scores, listening, and analysis of stylistic characteristics of representative compositions. The study of the music is integrated with concurrent historical developments in government, politics, economics, geography, science, literature, painting, and philosophy,

When Offered

Every fall semester.

MUS 324 - History of Music II

(2) Historical study of the music from ca. 1700 to the present through readings, study of scores, listening, and analysis of stylistic characteristics of representative compositions. Emphasis is given to the development of music in Europe, with reference to concurrent historical development in non-Western cultures throughout the world.

Prerequisites: MUS 212, MUS 213.

When Offered

Every spring semester.

MUS 326 - Conducting

(2) This introductory conducting course addresses conducting gestures and technique, musical terminology and markings, language pronunciation, basic rehearsal procedures for choral and instrumental groups, developing leadership skills, and verbal and non-verbal communication. Special emphasis is placed on developing a relationship between conducting gestures and sound.

Prerequisites: MUS 212.

When Offered

Every spring semester.

MUS 410 - World Music

(2) World Music is an exploration of musical styles as the reflection of world cultures, with an introduction to ethnomusicology. This survey course begins in the eastern hemisphere and moves west, including studies from Oceania, Asia, the Middle East, Africa, Europe, the Caribbean, South America, and North America. The interaction of music, culture, and religion provides additional insight into diverse cultural traditions throughout the world.

When Offered

Every fall semester.

MUS 426 - Music Business

(2) An in-depth study of Christian and secular music industries; careers in the music business, including music director, choral directing and instrumental accompaniment, small business development, music publishing, recording industry, film and television industry, teaching, and performance. The objective is to give students a greater understanding of music as an industry. Studies include: getting an agent, marketing, finance, understanding ASCAP/BMI, cue sheets, royalties, IMDB credits, talking with record companies, contract negotiations, creating a CV, building a website, music placement for film and television, budgeting for projects and worship arts, dealing with criticism, making a profit.

When Offered

Every fall semester.

MUS 470 - Senior Thesis

(2) A capstone academic research paper covering the aesthetic, historical, and/or psychological bases of music and their integration with the Christian faith.

Prerequisites: Senior standing.

Notes: Minimum of 25 pages with oral defense.

Fee

Fees may apply.

When Offered

Fall and spring semesters.

MUA 325 - Literature of Primary Instrument

(2) This course introduces students to the literature of their instrument from the renaissance to the present day. Practical knowledge of applications of performing works of the great composers for the instrument are studied.

Notes: Required of all music performance majors with exception of vocal emphasis majors, who should take MUS 325.

When Offered

Fall and spring semesters.

MUS 325 - Singer's Diction and Literature

(2) This course serves as an introduction to and the development of a working knowledge of the International Phonetic Alphabet, and its direct application to the English, Italian, German and French languages for the purpose of correct pronunciation and articulation in singing. Students will apply this knowledge in transcribing English, Italian, German, and French into the IPA; developing the ability to accurately and clearly enunciate and articulate sounds and inflections in English, Italian, German, and French. Attention will also be given to song literature materials, and effective vocal repertoire selection for studio and recital use.

When Offered

Even spring semesters.

MUS 360 - Half Recital

(0) A half-hour recital demonstrating a proficiency and basic level of mastery of performance skill on a primary instrument or voice. The recital should include appropriate performance practice covering a range of important musical styles and periods.

When Offered

Fall and spring semesters.

MUS 460 - Full Recital

(0) One-hour instrumental or vocal recital demonstrating mastery of performance skill. The recital should include appropriate performance practice covering a range of important musical styles and periods.

When Offered

Fall and spring semesters.

Take one course in area of applied study:

MUS 351 - Brass Techniques and Pedagogy

(1) Instruction in methods of playing and teaching the various instruments of the brass family. Exploration of various pedagogical techniques and literature used in current public and private instruction (including techniques and information useful for church instruction and ensembles). Discussion of important topics related to effective brass playing and teaching in school and church settings.

Fee

Music instrument fee.

When Offered

Odd fall semesters.

MUS 352 - Woodwind Techniques and Pedagogy

(1) Instruction in both the methods of playing and in teaching others to play the various instruments of the woodwind family. Exploration of various pedagogical techniques and literature used in current public and private instruction. Discussion of important topics related to effective woodwind playing and teaching techniques in school settings.

Fee

Music instrument fee.

When Offered

Even spring semesters.

MUS 353 - String Techniques and Pedagogy

(1) Instruction in both the methods of playing and in teaching others to play the various instruments of the string family. Exploration of various pedagogical techniques and literature used in current public and private instruction. Discussion of important topics related to effective string playing and teaching techniques in school settings.

Fee

Music instrument fee.

When Offered

Even fall semesters.

MUS 354 - Percussion Techniques and Pedagogy

(1) Instruction in both the methods of playing and in teaching others to play the various instruments of the percussion family. Exploration of various pedagogical techniques and literature used in current public and private instruction. Discussion of important topics related to effective percussion playing and teaching techniques in school settings.

Fee

Course fees apply.

When Offered

Odd spring semesters.

MUS 356 - Vocal Methods

(1) A study of how the vocal mechanism works and pedagogical techniques for instructing others in singing. Objectives include developing an understanding of the acoustical and physiological make-up of the vocal apparatus, gaining an aural perception and understanding of specific vocal problems - their causes and possible solutions, and fostering the development of the student's ability to teach sound vocal technique.

When Offered

Odd fall semesters.

MUS 357 - Fretted Techniques

(1) Instruction in methods of playing and teaching fretted instruments. Studies of various pedagogical techniques and literature used in current public and private instruction including techniques and information useful for church instruction and ensembles. Studies also include physical control of the sound, and learning the various approaches to the guitar - jazz, classical, rock, and praise and worship styles.

Fee

Music instrument fee.

When Offered

Even fall semesters.

MUS 358 - Piano Pedagogy

(1) This course is the study of methods and materials for teaching piano. The course examines various philosophies for teaching the beginning piano student, reviews a variety of beginning piano method books, and gives guidelines for the establishment of a private piano teaching studio.

When Offered

Every even spring semester.

Primary Instrument Core (10 credit hours)

Each student will take 10 credit hours in the instrument on which they auditioned and have been accepted.

MUA 102 - Baritone/Euphonium

(1-2) Private lessons in baritone and euphonium are customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals of tone production and technique as well as improving musical performance and artistry.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester. May be repeated for credit.

Fee

Music instrument fee.

When Offered

Fall and spring semesters.

MUA 103 - Bassoon

(1-2) Private lessons in bassoon are customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals and technique as well as improving musical performance and artistry.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester. May be repeated for credit.

Fee

Music instrument fee.

When Offered

Fall and spring semesters.

MUA 104 - Clarinet

(1-2) Private lessons in clarinet are customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals and technique as well as improving musical performance and artistry.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester. May be repeated for credit.

Fee

Music instrument fee.

When Offered

Fall and spring semesters.

MUA 108 - Flute

(1-2) Private lessons in flute are customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals and technique as well as improving musical performance and artistry.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester. May be repeated for credit.

Fee

Music instrument fee.

When Offered

Fall and spring semesters.

MUA 109 - French Horn

(1-2) Private lessons in French horn are customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals and technique as well as improving musical performance and artistry.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester. May be repeated for credit.

Fee

Music instrument fee.

When Offered

Fall and spring semesters.

MUA 110 - Guitar

(1-2) Private lessons in guitar are customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals and technique as well as improving musical performance and artistry.

Prerequisites: Music Majors and Minors only.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester. May be repeated for credit.

When Offered

Fall and spring semesters.

MUA 111 - Harp

(1-2) Private lessons in harp are customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals and technique as well as improving musical performance and artistry.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester. May be repeated for credit.

When Offered

Fall and spring semesters.

MUA 112 - Oboe

(1-2) Private lessons in oboe are customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals and technique as well as improving musical performance and artistry.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester. May be repeated for credit.

Fee

Music instrument fee.

When Offered

Fall and spring semesters.

MUA 113 - Organ

(1-2) Private lessons in organ are customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals and technique as well as improving musical performance and artistry.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester. May be repeated for credit.

When Offered

Fall and spring semesters.

MUA 114 - Percussion

(1-2) Private lessons in percussion are customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals and technique as well as improving musical performance and artistry.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester. May be repeated for credit.

When Offered

Fall and spring semesters.

MUA 115 - Piano

(1-2) Private lessons in piano are customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals and technique as well as improving musical performance and artistry.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester. May be repeated for credit.

When Offered

Fall and spring semesters.

MUA 116 - Saxophone

(1-2) Private lessons in saxophone are customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals of tone production and technique as well as improving musical performance and artistry.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester. May be repeated for credit.

Fee

Music instrument fee.

When Offered

Fall and spring semesters.

MUA 117 - String/Electric Bass

(1-2) Private lessons in string or electric bass are customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals of tone production and technique as well as improving musical performance and artistry.

Lab/Lecture Hours

Course fees apply.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester. May be repeated for credit.

When Offered

Fall and spring semesters.

MUA 120 - Trombone

(1-2) Private lessons in trombone are customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals of tone production and technique as well as improving musical performance and artistry.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester. May be repeated for credit.

Fee

Music instrument fee.

When Offered

Fall and spring semesters.

MUA 121 - Trumpet

(1-2) Private lessons in trumpet are customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals of tone production and technique as well as improving musical performance and artistry.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester. May be repeated for credit.

Fee

Music instrument fee.

When Offered

Fall and spring semesters.

MUA 122 - Tuba

(1-2) Private lessons in tuba are customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals of tone production and technique as well as improving musical performance and artistry.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester. May be repeated for credit.

Fee

Music instrument fee.

When Offered

Fall and spring semesters.

MUA 123 - Viola

(1-2) Private lessons in viola are customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals of tone production and technique as well as improving musical performance and artistry.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester. May be repeated for credit.

Fee

Music instrument fee.

When Offered

Fall and spring semesters.

MUA 124 - Violin

(1-2) Private lessons in violin are customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals of tone production and technique as well as improving musical performance and artistry.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester. May be repeated for credit.

Fee

Music instrument fee.

When Offered

Fall and spring semesters.

MUA 125 - Cello

(1-2) Private lessons in cello are customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals of tone production and technique as well as improving musical performance and artistry.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester. May be repeated for credit.

Fee

Music instrument fee.

When Offered

Fall and spring semesters.

MUA 126 - Voice

(1-2) Individual applied lessons in singing with the goals of the development of individual vocal talent; the personal and musical growth of each student; providing the student with the opportunity to study and perform a wide variety of vocal repertoire indicative of, and sympathetic to, the multi-cultural society in which we live; such vocal study as is consistent with the ideals of sound vocal technique.

Notes: the one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester. May be repeated for credit.

Fee

Fees may apply.

When Offered

Fall and spring semesters.

MUA 133 - Drumset

(1-2) Private lessons in drumset customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals and technique as well as improving musical performance and artistry.

Notes: The one-credit section involves one half-hour lesson per week; the two-credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester. May be repeated for credit.

When Offered

Every fall and spring semesters.

Electives Core (19 credit hours)

General Electives - 19 credit hours

Additional Information

- Those selecting the music major must take MUS 110 Musical Perspectives as part of the general education requirements.
- MUS 111 From Sight to Sound - Music Fundamentals is a prerequisite for entrance into MUS 112 Music Theory I: Elements of Music
- MUA 175 Music Convocation is required for all music majors each semester at CCU (up to 8 semesters).
- Piano and Piano Class requirements vary in order to pass Piano Proficiency. Students must take MUA 130 Piano Class I AND MUA 132 Piano Class II OR MUA 115 Piano in consecutive semesters until MUA 230 Piano Proficiency is passed.
- Only one ensemble credit each semester counts toward the requirements for the major.
- Suggested electives to include with the B.A. Music Performance: THR 220 Acting, MUE 132 Stage Movement/ Dance, Multiple Languages.

Graduation Requirements for Bachelor of Arts in Music with Music Performance Emphasis

The faculty recommends students in the B.A. in Music with Music Performance emphasis to the Board of Trustees as candidates for graduation when they have completed the following requirements.

1. Completion of a total of 120 credits, including all general education, electives and Music major program requirements.
2. A letter grade of D or better and a cumulative GPA of 2.0 or better in all CCU coursework, and a GPA of 2.0 or higher for all courses specified for the major.
3. Completion of 180 hours of ministry/community service and 180 chapel credits. Transfer students are required to complete 45 hours of ministry/community service and 45 chapel credits each year of attendance at CCU. For further details on ministry/community service, see the Life Directions Center (LDC) section of this catalog. For further details on chapel credits, see the Student Life section of this catalog.
4. Meet the CCU Residency requirements.
5. Completion of eight semesters of MUA 175 Music Convocation.
6. Acceptable performance on exit exams, as required by the faculty.
7. Formal and timely application for graduation by the date specified by the University Registrar.
8. No outstanding financial obligation to the University.

Music Major - Music Production and Engineering

The Bachelor of Arts in Music with Music Production and Engineering emphasis is designed to give music students a competitive edge in the field of music engineering. The basics include digital audio workstations, mic techniques, studio design, live sound and systems design, video and lighting, as well as album production.

The Bachelor of Arts in Music with Music Production and Engineering emphasis requires completion of the following 120 credit hours:

General Education (48 credit hours)

Music Core (58 credit hours)

Electives Core (14 credit hours)

General Education Requirements (48 credit hours)

Arts and Humanities (9 credit hours)

Take one course from each of the following three academic disciplines:

Fine Arts (3 credit hours)

MUS 110 - Musical Perspectives

(3) An exploration of music in the broader context of culture and the arts; personal musical experiences through listening and doing; and developing the ability to discern aesthetic excellence. Included is an introduction to the elements of music and how music works, the development of a Christian perspective on the arts, a broad survey of representative selections of Western music, and a focused overview of non-western/world music.

Notes: This course satisfies the general education fine arts requirement for most students. It is recommended for all students, especially those with an interest in music, and is the required fine arts course for all music majors and minors. Students with a special interest in Theatre should see THR 112.

Note: MUS 110 does not satisfy the fine arts requirement for education majors.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

Literature (3 credit hours)

Choose one course from the following:

ENG 201 - Introduction to Literature

(3) Understand, experience, and evaluate poetry, short fiction, essays, and drama genres, both American and multinational.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Fall and spring semesters.

ENG 202 - American Literature I

(3) Representative stories, poems, and documents in American literature from the Colonial era to the early Republic (1776-1830) through the Romantic-transcendentalist period (1830-1860). Includes readings from multiethnic and women writers.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every fall semester.

ENG 203 - American Literature II

(3) Representative stories, poems, and drama in American literature from the Civil War to the present. Nontraditional ethnic and women's voices included. Emphasis on interpretation and criticism of American literature.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every spring semester.

ENG 204 - British Literature I

(3) Surveys the history of literature in Britain until 1800 and representative works by influential writers of the periods contained therein.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every fall semester.

ENG 205 - British Literature II

(3) Surveys the history of literature in Britain from 1800 to the present and representative works by influential writers.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every spring semester.

Philosophy (3 credit hours)

PHL 202 - Introduction to Philosophy

(3) This course is a survey of many major issues raised over the two-and-a-half millennia of western philosophy. With an emphasis on historical context and development, as well as philosophy's relationship to Christian thought, this course challenges students to critically explore philosophical questions and introduce them to the great tradition of intellectual inquiry. Special attention will be given to the subjects of truth and knowledge, reality and appearance, mind and body, right and wrong, beauty and the existence of God.

When Offered

Fall and summer semesters.

Biblical Studies (12 credit hours)

Take the following four courses (some courses are cross-listed and only one prefix needs to be taken):

BIB 111 - Old Testament

(3) This course provides an introduction to the theological, historical, and literary features of the Old Testament, tracing God's covenant relationship with ancient Israel. Special consideration will be given to the divine covenants and Messianic prophecies of the Old Testament.

When Offered

Every spring semester.

Cross-listed HIS 111

HIS 111 - Old Testament

(3) This course provides an introduction to the theological, historical, and literary features of the Old Testament, tracing God's covenant relationship with ancient Israel. Special consideration will be given to the divine covenants and Messianic prophecies of the Old Testament.

When Offered

Every spring semester.

Cross-listed BIB 111.

BIB 114 - New Testament

(3) This course provides an introduction to the theological, historical, and literary features of the New Testament, tracing the presentation of the gospel message through historical, epistolary, and apocalyptic genres. Special consideration will be given to the life of Christ and missionary journeys of the Apostle Paul.

When Offered

Every fall semester.

Cross-listed HUM 114

HUM 114 - New Testament

(3) This course provides an introduction to the theological, historical, and literary features of the New Testament, tracing the presentation of the gospel message through historical, epistolary, and apocalyptic genres. Special consideration will

be given to the life of Christ and missionary journeys of the Apostle Paul.

When Offered

Every fall semester.
Cross-listed BIB 114.

PHL 315 - World Religions and Systems of Belief

(3) This course introduces an academic study of religion and what is called worldview, supplemented by an overview of some of the major tenets of Christianity; this is then followed by a survey of several other religious traditions and competing philosophies.

Prerequisites: PHL 202, THE 201.

When Offered

Winter and spring semesters.

THE 201 - Introduction to Theology

(3) This course covers basic issues, themes, and categories of Christian theology, including the doctrines of Scripture, God, humanity, Christ, salvation, the church, and last things. This course encourages students to better know, trust, love, and live by God's Word.

Prerequisites: BIB 111, BIB 114.

When Offered

Fall, winter, spring, and summer semesters.

Communication (6 credit hours)

COM 103 - Public Speaking

(3) Introductory principles of communication emphasizing public speaking. Aspects of verbal and nonverbal delivery, speech organization, and the effective use of supporting material and presentational aids are addressed. Students give several speeches designed to better equip them for future speaking endeavors

When Offered

Fall and spring semesters.

ENG 102 - English Composition

(3) Effective use of the English language and exploration of rhetorical modes in written composition. Review of structure, purpose, and audience awareness in developing essays.

Prerequisites: ACT and/or SAT scores will be used to determine placement in either ENG 102 or ENG 102 (Basic).

Notes: Course must be completed first semester at CCU.

When Offered

Fall and spring semester.

ENG 105 - Advanced English Composition

(3) Advanced English composition, research methods, and literary study for invited exceptional students. Focus on both the study of literature and research writing.

Prerequisites: One of the following:

- AP English Language and Composition
 - A score of 4 is the minimum prerequisite for enrollment in ENG 105. A student who scores a 4 or 5 will automatically enroll a student in ENG 105 instead of ENG 102 and/or ENG 201.
- AP English Literature and Composition
 - A score of 4 is the minimum prerequisite for enrollment in ENG 105. A student who scores a 4 or 5 will automatically enroll a student in ENG 105 instead of ENG 102 and/or ENG 201.
- Score of 30 or above on the verbal section of the ACT exam.
- Score of 700 or above on the verbal section of the SAT exam.
- By invitation of the English department.

Notes: Fulfills general education requirements for both ENG 102 and ENG 201.

When Offered

Every fall semester.

Integrative Studies (3 credit hours)

* Please see the First-Year Integration (FYI) page for specific information about this required course.

INT 101 - First-Year Integration

(3) Think critically, grow spiritually, and change the world. Based on the premise that we as Christians are called to be rational creatures, relational creatures, and responsible creatures, FYI is an integrative study of foundational Christian principles with other disciplines. Examination and discussion of problems and contemporary issues - academic, personal, and social - facing students in their pursuit of success in college and life. Please see the First-Year Integration (FYI) page for specific information about this required course.

When Offered

Fall and spring semesters.

Mathematics (3 credit hours)

MAT 112 - Mathematics for Liberal Arts

(3) This course introduces some of the important ideas in mathematics and how they can be applied in everyday life situations, solving a wide range of practical problems. Topics include sets, logic, history of numeration, number systems and their properties, number patterns, counting principles, probability, statistics, graph theory, personal finance, and voting methods.

Notes: Students with higher level mathematics skills (i.e. ACT MAT above 20 and SAT MATH above 520) are discouraged from taking this class. Only students who do not place into MAT 111 - College Algebra should enroll in MAT 112 - Mathematics for Liberal Arts.

When Offered

Fall, spring and summer semesters.

Students majoring in Music Media and Marketing should take MAT-212 as a prerequisite for the Business and Media core.

Science (3 credit hours)

SCI 230 - Integrated Physical Science with Lab

(3) This is an integrated course presenting the major concepts, theoretical perspectives, historical trends, and empirical findings of the physical sciences. Laboratory exercises and lectures explore motion, the four forces, heat, energy, chemical reactions, the structure and development of matter, the types and nature of chemical bonding, and the nature and history of the universe, the solar system, and the Earth.

Lab/Lecture Hours

Laboratory investigations included in course.

Fee

Lab fees apply.

When Offered

Every semester.

Social Sciences (12 credit hours)

Take each of the following four courses:

ECO 215 - Economics

(3) Economics is about scarcity and choice. Students in this course study how people, firms, governments, and nations interact in alternative economic systems to make choices about allocating scarce resources. In addition, students learn to evaluate these systems, understand macroeconomic monetary and fiscal policies, and engage in policy debates.

When Offered

Fall and spring semesters.

HIS 185 - Western Civilization

(3) The spiritual values and intellectual achievements of ancient Israel, Greece, Rome, the Middle Ages, the Renaissance, and Reformation that gave birth to the modern world.

When Offered

Every fall semester.

HIS 205 - American History

(3) Principles of the founding and the political, economic, intellectual, cultural, and religious traditions that have shaped America.

When Offered

Every spring semester.

POL 207 - Introduction to American Politics

(3) Introduction to political science and American government to prepare students to be effective citizens.

When Offered

Every fall and spring semester.

Music Major Core (58 credit hours)

MUA 130 - Piano Class I

(1) Piano Class I is for Music majors with little or no background in piano study. Technique will cover five-finger patterns, two octave scales (white keys only), cross-hand arpeggios, root position triads and inversions, seventh chords in closed position, and root chord progressions in all major and minor keys. Students will learn a variety of repertoire from different styles and periods, developing sight-reading, transposition, improvisation, and harmonization skills.

Notes: For Music Majors or Minors this class (or MUA 115 - Piano (1 or 2)) is required until MUA 230 - Piano Proficiency (0) is passed. May be repeated for credit.

When Offered

Fall and spring semesters.

MUA 132 - Piano Class II

(1) Piano Class II is for Music Majors who have passed or have been exempted from Piano Class I. Technique will cover two octave scales (white and black keys), one-hand arpeggios, seventh chords in closed, small, and large open positions, root and inverted chord progressions in all major and minor keys. Students will learn a variety of repertoire from different styles and periods, developing sight-reading, transposition, improvisation, and harmonization skills. The completion of the Piano Class sequence along with the passing of the Piano Class II Final Exam will fulfill the piano proficiency requirement.

Prerequisites: MUA 130.

When Offered

Every semester.

OR

MUA 115 - Piano

(1-2) Private lessons in piano are customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals and technique as well as improving musical performance and artistry.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester. May be repeated for credit.

When Offered

Fall and spring semesters.

Students may take either (or a combination of) MUA 130 Piano Class I and MUA 132 Piano Class II or MUA 115 Piano until they pass MUA 230 Piano Proficiency. Required number of semesters varies per student.

MUA 175 - Music Convocation

(0) Includes weekly performance class, all School of Music concerts and recitals, and special guest artists and speakers.

Notes: Required of all music majors each semester and of music minors for four semesters. Pass/Fail.

When Offered

Fall and spring semesters.

MUA 230 - Piano Proficiency

(0) The piano proficiency course covers areas of basic piano skills, including scales, chords, arpeggios, and cadences in major and minor keys. Students will be required to use these skills for harmonization, playing by ear, and transposing. Students will also be required to perform pieces at the piano in a variety of styles, including church, school, and community music, popular music, and classical music.

Corequisites: MUA 130 or MUA 115.

When Offered

Fall and spring semesters.

MUE 100 - University Women's Choir

(1) The University Women's Choir is a select large ensemble dedicated to the performance of vocal masterworks from all musical styles and periods. University Women's Choir is an opportunity for students to grow in stewardship of God-given gifts and musical talents. Musical excellence and well-prepared performances are stressed. The University Women's Choir tours and records annually and presents multiple concerts each year. Auditions for University Women's Choir are held at the beginning of the fall semester.

Notes: May be repeated for credit.

Fee

Music ensemble fee.

When Offered

Fall and spring semesters.

MUE 101 - University Choir

(1) The University Choir is a select large ensemble dedicated to the performance of vocal masterworks from all musical styles and periods. University Choir is an opportunity for students to grow in stewardship of God-given gifts and musical talents. Musical excellence and well-prepared performances are stressed. The University Choir tours and records annually and presents multiple concerts each year. Auditions for University Choir are held at the beginning of the fall semester.

Notes: May be repeated for credit.

Fee

Music ensemble fee.

When Offered

Fall and spring semesters.

MUE 102 - University Symphonic Band

(1) The University Symphonic Band is a select large ensemble for woodwinds, brass and percussion, oriented towards the performance of a wide range of music for the modern wind band, including transcriptions, standard literature, popular music, and sacred music for band. Symphonic Band is an opportunity for students to grow in stewardship of God-given gifts and musical talents. Musical excellence and well-prepared performances are stressed. The University Symphonic Band tours and records annually and presents multiple concerts each year. Auditions for University Symphonic Band are held at the beginning of the fall semester.

Notes: May be repeated for credit.

Fee

Music ensemble fee.

When Offered

Fall and spring semesters.

MUE 103 - Chamber Orchestra

(1) A select instrumental ensemble in conjunction with the Lakewood Symphony Orchestra featuring string and wind instruments that performs a variety of traditional and contemporary literature for community audiences.

Prerequisites: Instructor permission required.

Notes: May be repeated for credit.

When Offered

Fall and spring semesters.

MUE 109 - Chamber Strings

(1) The University Chamber Strings ensemble is comprised of violinists, violists, cellists, and double bassists performing varied music for small groups; including works from the standard chamber music literature, jazz and popular music, as

well as sacred music for strings. Chamber Strings provides an opportunity for students to develop and express their God-given gifts and musical talents. Musical excellence, collaboration, and engaging and varied performances are stressed. The Chamber Strings do a number of outreach performances annually.

Notes: May be repeated for credit.

When Offered

Fall and spring semesters.

MUE 114 - Handbell Ensemble

(1) A performing ensemble that also focuses on developing rehearsal, conducting, and performance skills. Along with concert performance, students work in the areas of ringing technique development and pedagogy, instrument care and maintenance, rhythm reading, score reading, and conducting. Musical excellence, collaboration, and engaging and varied performances are stressed. The Handbell Ensemble does a number of outreach performances annually.

Notes: May be repeated for credit.

When Offered

Fall and spring semesters.

MUS 111 - From Sight to Sound - Music Fundamentals

(2) A course exploring the fundamentals of written music and its practical application to sound and vice versa. Students will gain a basic understanding of music including notation, rhythm, scales, key signatures, intervals, and chords, with an introduction to keyboard and improvisation.

When Offered

Every fall semester.

MUS 112 - Music Theory I: Elements of Music

(3) This course is the first semester of a four-semester sequence required of all music majors. Comprehensive musicianship through hearing, analyzing, and composing. Musical elements covered include melody, rhythm (including simple and compound meter), major and minor modes, chord structure, phrase structure, realization of figured bass, and basic counterpoint.

Prerequisites: MUS 111 or passing grade on the Music Theory Entrance Exam.

Corequisites: MUS 113.

When Offered

Every spring semester.

MUS 113 - Sight-Singing and Ear Training I

(1) This course is the first semester of a four-semester sequence required of all music majors. It is assumed that students will be enrolled in the corequisite Music Theory class when enrolled in a Sight Singing and Ear Training course. In this sequence, students will develop aural skills and competency with sight singing and ear training using solfege in the areas of melody, harmony, and rhythm in a systematic pedagogy.

Prerequisites: MUS 111 or a passing grade on the Music Theory Entrance Exam.

Corequisites: MUS 112.

When Offered

Every spring semester.

MUS 212 - Music Theory II: Diatonic Harmony and Tonicization

(3) Continuation of MUS 112. Topics covered include phrase structure (forms) and motivic analysis, cadences, embellishing tones, introduction to voice-leading, secondary dominants and leading-tone chords, and modulation. Also included in an introduction to music writing software (Finale) as applicable to continued study in Music Theory.

Prerequisites: MUS 110, MUS 112, MUS 113.

Corequisites: MUS 213.

When Offered

Every fall semester.

MUS 213 - Sight-Singing and Ear Training II

(1) This course is the second semester of a four-semester sequence required of all music majors. It is assumed that students will be enrolled in the co-requisite Music Theory class when enrolled in a Sight Singing and Ear Training course. In this sequence, students will develop aural skills and competency with sight singing and ear training using solfege in the areas of melody, harmony, and rhythm in a systematic pedagogy.

Prerequisites: MUS 112, MUS 113.
Corequisites: MUS 212.

When Offered

Every fall semester.

MUS 214 - Music Theory III: Chromatic Harmony and Forms

(3) Continuation of MUS 212. Comprehensive emphasis of 18th century common-practice musical techniques, including melodic and contrapuntal writing, as well as analysis of modal mixture, Neapolitan and augmented sixth chords. An examination of chromatic harmony and modulation. Analysis of vocal forms, and harmony and melody in popular music.

Prerequisites: MUS 212, MUS 213.
Corequisites: MUS 215.

When Offered

Every spring semester.

MUS 215 - Sight-Singing and Ear Training III

(1) A continuation of MUS 213. Aural skills including sight singing using solfege and numbers; harmonic, melodic and rhythmic dictation, modes, and jazz scales.

Prerequisites: MUS 212, MUS 213.
Corequisites: MUS 214.

When Offered

Every spring semester.

MUS 312 - Music Theory IV: The Twentieth Century and Beyond

(3) Continuation of MUS 214. Study of modern and recent musical styles. Survey of advanced harmonic developments in 19th century music, as well as 20th/21st century compositional and improvisational techniques.

Prerequisites: MUS 214, MUS 215.
Corequisites: MUS 313.

When Offered

Every fall semester.

MUS 313 - Sight-Singing and Ear Training IV

(1) Continuation of MUS 215. Aural skills including sight singing using solfege and numbers; harmonic, melodic and rhythmic dictation, modes, and jazz scales.

Prerequisites: MUS 214, MUS 215.
Corequisites: MUS 312.

When Offered

Every fall semester.

MUS 323 - History of Music I

(2) Historical study of the music of the Medieval, Renaissance, and Baroque periods of music history through readings, study of scores, listening, and analysis of stylistic characteristics of representative compositions. The study of the music is integrated with concurrent historical developments in government, politics, economics, geography, science, literature, painting, and philosophy.

When Offered

Every fall semester.

MUS 324 - History of Music II

(2) Historical study of the music from ca. 1700 to the present through readings, study of scores, listening, and analysis of stylistic characteristics of representative compositions. Emphasis is given to the development of music in Europe, with reference to concurrent historical development in non-Western cultures throughout the world.

Prerequisites: MUS 212, MUS 213.

When Offered

Every spring semester.

MUS 326 - Conducting

(2) This introductory conducting course addresses conducting gestures and technique, musical terminology and markings, language pronunciation, basic rehearsal procedures for choral and instrumental groups, developing leadership skills, and verbal and non-verbal communication. Special emphasis is placed on developing a relationship between conducting gestures and sound.

Prerequisites: MUS 212.

When Offered

Every spring semester.

MUS 410 - World Music

(2) World Music is an exploration of musical styles as the reflection of world cultures, with an introduction to ethnomusicology. This survey course begins in the eastern hemisphere and moves west, including studies from Oceania, Asia, the Middle East, Africa, Europe, the Caribbean, South America, and North America. The interaction of music, culture, and religion provides additional insight into diverse cultural traditions throughout the world.

When Offered

Every fall semester.

MUS 426 - Music Business

(2) An in-depth study of Christian and secular music industries; careers in the music business, including music director, choral directing and instrumental accompaniment, small business development, music publishing, recording industry, film and television industry, teaching, and performance. The objective is to give students a greater understanding of music as an industry. Studies include: getting an agent, marketing, finance, understanding ASCAP/BMI, cue sheets, royalties, IMDB credits, talking with record companies, contract negotiations, creating a CV, building a website, music placement for film and television, budgeting for projects and worship arts, dealing with criticism, making a profit.

When Offered

Every fall semester.

MUS 470 - Senior Thesis

(2) A capstone academic research paper covering the aesthetic, historical, and/or psychological bases of music and their integration with the Christian faith.

Prerequisites: Senior standing.

Notes: Minimum of 25 pages with oral defense.

Fee

Fees may apply.

When Offered

Fall and spring semesters.

MUS 271 - Music Production and Engineering I

(3) This course serves as an introduction to music production and recording software. Students gain an understanding regarding the strengths of various software options including Pro Tools and Ableton. Students learn to edit audio files in Pro Tools, keyboard shortcuts, and general understanding of the software. They work with MIDI, virtual instruments and related topics.

Prerequisites: Music, StratCom, or Digital Media Majors only.

When Offered

Every fall semester.

MUS 272 - Music Production and Engineering II

(3) Building on their first semester knowledge of Pro Tools, students use the software to record acoustic instruments and voices. They learn about basic studio acoustics, microphones, microphone technique, signal flow, mixing consoles, computer audio concepts, effects, and mixing audio. Some projects may be hybrid audio and MIDI production. Students gain more knowledge into various DAWs (digital audio workstations).

Prerequisites: MUS 271.

When Offered

Every spring semester.

MUS 371 - Music Production and Engineering III

(3) This course is a detailed introduction to live production with an emphasis in sound reinforcement. It includes acoustics, system component analysis, system design, and hands-on training with state-of-the-art best practices guiding the entirety of the semester.

Prerequisites: MAT 112, MUS 272.

When Offered

Every fall semester.

MUS 372 - Music Production and Engineering IV

(3) Expanding on the foundational principles in Level III, this course combines current engineering design principles with practical live production practices. Skills are taught that target audio, video, lighting (AVL) system theory and, whether permanently installed or used on tour. An emphasis will be placed on live production best practices with hands-on experience. Students learn how to produce a live technical event from concept to design to show management. This includes in-depth elements of concert sound, lighting and broadcast video.

Prerequisites: MUS 371.

When Offered

Every spring semester.

MUS 471 - Music Production and Engineering V

(3) This course is an in-depth study of studio audio engineering skills in the area of mixing for feature films/television, including: voice-over recording and production, commercial audio, sound design and sound effects, and mix to picture.

Prerequisites: MUS 372.

When Offered

Every fall semester.

MUS 472 - Music Production and Engineering VI

(3) This course is designed to complete the skills and knowledge level of the audio engineer student. It provides an emphasis in the production and recording of albums, individual artist relations, and small business management. In this class students learn how to work with recording artists and be responsible for the recording of an album project.

Prerequisites: MUS 471.

When Offered

Every spring semester.

Electives Core (14 credit hours)

General Electives - 14 credit hours

Additional Information

- Those selecting the music major must take MUS 110 Musical Perspectives as part of the general education requirements.
- MUS 111 From Sight to Sound - Music Fundamentals is a prerequisite for entrance into MUS 112 Music Theory I: Elements of Music
- MUA 175 Music Convocation is required for all music majors each semester at CCU (up to 8 semesters).
- Piano and Piano Class requirements vary in order to pass Piano Proficiency. Students must take MUA 130 Piano Class I AND MUA 132 Piano Class II OR MUA 115 Piano in consecutive semesters until MUA 230 Piano Proficiency is passed.
- Only one ensemble credit each semester counts toward the requirements for the major.

Graduation Requirements for Bachelor of Arts in Music with Music Production and Engineering Emphasis

The faculty recommends students in the B.A. in Music with Music Production and Engineering emphasis to the Board of Trustees as candidates for graduation when they have completed the following requirements.

1. Completion of a total of 120 credits, including all general education, electives and Music major program requirements.
2. A letter grade of D or better and a cumulative GPA of 2.0 or better in all CCU coursework, and a GPA of 2.0 or higher for all courses specified for the major.
3. Completion of 180 hours of ministry/community service and 180 chapel credits. Transfer students are required to complete 45 hours of ministry/community service and 45 chapel credits each year of attendance at CCU. For further details on ministry/community service, see the Life Directions Center (LDC) section of this catalog. For further details on chapel credits, see the Student Life section of this catalog.
4. Meet the CCU Residency requirements.
5. Completion of eight semesters of MUA 175 Music Convocation.
6. Acceptable performance on exit exams, as required by the faculty.
7. Formal and timely application for graduation by the date specified by the University Registrar.
8. No outstanding financial obligation to the University.

Worship Arts Major

For students who are interested in pursuing a career that will allow them to use their musical gifts and talents in ministry, CCU offers the Bachelor of Music - Worship Arts degree. This degree combines elements of Biblical principles of leadership and music production and engineering with a true music degree program, so that students are philosophically, practically, and spiritually equipped for effective leadership and administration of a music/worship ministry within the Body of Christ. The Worship Arts degree also offers excellent preparation for graduate school or seminary.

The Worship Arts program focuses on the development and practice of worship throughout history and of the contemporary church. While not promoting a particular style of worship, it equips students to be knowledgeable and capable in most forms of Protestant worship. Particular attention is paid to working with all instruments including voices, along with a distinct performance and internship requirement.

The Bachelor of Music - Worship Arts requires completion of the following 128 credits:
General Education Core (45 credit hours)
Music Core (38 credit hours)
Worship Arts Core (38 credit hours)
Electives Core (7 credit hours)

General Education Requirements (45 credit hours)

Arts and Humanities (9 credit hours)

Take one course from each of the following three academic disciplines:

Fine Arts (3 credit hours)

MUS 110 - Musical Perspectives

(3) An exploration of music in the broader context of culture and the arts; personal musical experiences through listening and doing; and developing the ability to discern aesthetic excellence. Included is an introduction to the elements of music and how music works, the development of a Christian perspective on the arts, a broad survey of representative selections of Western music, and a focused overview of non-western/world music.

Notes: This course satisfies the general education fine arts requirement for most students. It is recommended for all students, especially those with an interest in music, and is the required fine arts course for all music majors and minors. Students with a special interest in Theatre should see THR 112.

Note: MUS 110 does not satisfy the fine arts requirement for education majors.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

Literature (3 credit hours)

Choose one course from the following:

ENG 201 - Introduction to Literature

(3) Understand, experience, and evaluate poetry, short fiction, essays, and drama genres, both American and multinational.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Fall and spring semesters.

ENG 202 - American Literature I

(3) Representative stories, poems, and documents in American literature from the Colonial era to the early Republic (1776-1830) through the Romantic-transcendentalist period (1830-1860). Includes readings from multiethnic and women writers.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every fall semester.

ENG 203 - American Literature II

(3) Representative stories, poems, and drama in American literature from the Civil War to the present. Nontraditional ethnic and women's voices included. Emphasis on interpretation and criticism of American literature.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every spring semester.

ENG 204 - British Literature I

(3) Surveys the history of literature in Britain until 1800 and representative works by influential writers of the periods contained therein.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every fall semester.

ENG 205 - British Literature II

(3) Surveys the history of literature in Britain from 1800 to the present and representative works by influential writers.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every spring semester.

Philosophy (3 credit hours)

PHL 202 - Introduction to Philosophy

(3) This course is a survey of many major issues raised over the two-and-a-half millennia of western philosophy. With an emphasis on historical context and development, as well as philosophy's relationship to Christian thought, this course challenges students to critically explore philosophical questions and introduce them to the great tradition of intellectual inquiry. Special attention will be given to the subjects of truth and knowledge, reality and appearance, mind and body, right and wrong, beauty and the existence of God.

When Offered

Fall and summer semesters.

Biblical Studies (12 credit hours)

Take the following four courses (some courses are cross-listed and only one prefix needs to be taken):

BIB 111 - Old Testament

(3) This course provides an introduction to the theological, historical, and literary features of the Old Testament, tracing God's covenant relationship with ancient Israel. Special consideration will be given to the divine covenants and Messianic prophecies of the Old Testament.

When Offered

Every spring semester.
Cross-listed HIS 111

HIS 111 - Old Testament

(3) This course provides an introduction to the theological, historical, and literary features of the Old Testament, tracing God's covenant relationship with ancient Israel. Special consideration will be given to the divine covenants and Messianic prophecies of the Old Testament.

When Offered

Every spring semester.
Cross-listed BIB 111.

BIB 114 - New Testament

(3) This course provides an introduction to the theological, historical, and literary features of the New Testament, tracing the presentation of the gospel message through historical, epistolary, and apocalyptic genres. Special consideration will be given to the life of Christ and missionary journeys of the Apostle Paul.

When Offered

Every fall semester.
Cross-listed HUM 114

HUM 114 - New Testament

(3) This course provides an introduction to the theological, historical, and literary features of the New Testament, tracing the presentation of the gospel message through historical, epistolary, and apocalyptic genres. Special consideration will be given to the life of Christ and missionary journeys of the Apostle Paul.

When Offered

Every fall semester.
Cross-listed BIB 114.

PHL 315 - World Religions and Systems of Belief

(3) This course introduces an academic study of religion and what is called worldview, supplemented by an overview of some of the major tenets of Christianity; this is then followed by a survey of several other religious traditions and competing philosophies.

Prerequisites: PHL 202, THE 201.

When Offered

Winter and spring semesters.

THE 201 - Introduction to Theology

(3) This course covers basic issues, themes, and categories of Christian theology, including the doctrines of Scripture, God, humanity, Christ, salvation, the church, and last things. This course encourages students to better know, trust, love, and live by God's Word.

Prerequisites: BIB 111, BIB 114.

When Offered

Fall, winter, spring, and summer semesters.

Communication (6 credit hours)**COM 103 - Public Speaking**

(3) Introductory principles of communication emphasizing public speaking. Aspects of verbal and nonverbal delivery, speech organization, and the effective use of supporting material and presentational aids are addressed. Students give several speeches designed to better equip them for future speaking endeavors

When Offered

Fall and spring semesters.

ENG 102 - English Composition

(3) Effective use of the English language and exploration of rhetorical modes in written composition. Review of structure, purpose, and audience awareness in developing essays.

Prerequisites: ACT and/or SAT scores will be used to determine placement in either ENG 102 or ENG 102 (Basic).

Notes: Course must be completed first semester at CCU.

When Offered

Fall and spring semester.

ENG 105 - Advanced English Composition

(3) Advanced English composition, research methods, and literary study for invited exceptional students. Focus on both the study of literature and research writing.

Prerequisites: One of the following:

- AP English Language and Composition
 - A score of 4 is the minimum prerequisite for enrollment in ENG 105. A student who scores a 4 or 5 will automatically enroll a student in ENG 105 instead of ENG 102 and/or ENG 201.
- AP English Literature and Composition
 - A score of 4 is the minimum prerequisite for enrollment in ENG 105. A student who scores a 4 or 5 will automatically enroll a student in ENG 105 instead of ENG 102 and/or ENG 201.
- Score of 30 or above on the verbal section of the ACT exam.
- Score of 700 or above on the verbal section of the SAT exam.
- By invitation of the English department.

Notes: Fulfills general education requirements for both ENG 102 and ENG 201.

When Offered

Every fall semester.

Integrative Studies (3 credit hours)

* Please see the First-Year Integration (FYI) page for specific information information about this required course.

INT 101 - First-Year Integration

(3) Think critically, grow spiritually, and change the world. Based on the premise that we as Christians are called to be rational creatures, relational creatures, and responsible creatures, FYI is an integrative study of foundational Christian principles with other disciplines. Examination and discussion of problems and contemporary issues - academic, personal, and social - facing students in their pursuit of success in college and life. Please see the First-Year Integration (FYI) page for specific information about this required course.

When Offered

Fall and spring semesters.

Mathematics (3 credit hours)

MAT 112 - Mathematics for Liberal Arts

(3) This course introduces some of the important ideas in mathematics and how they can be applied in everyday life situations, solving a wide range of practical problems. Topics include sets, logic, history of numeration, number systems and their properties, number patterns, counting principles, probability, statistics, graph theory, personal finance, and voting methods.

Notes: Students with higher level mathematics skills (i.e. ACT MAT above 20 and SAT MATH above 520) are discouraged from taking this class. Only students who do not place into MAT 111 - College Algebra should enroll in MAT 112 - Mathematics for Liberal Arts.

When Offered

Fall, spring and summer semesters.

Social Sciences (12 credit hours)

Take each of the following four courses:

ECO 215 - Economics

(3) Economics is about scarcity and choice. Students in this course study how people, firms, governments, and nations interact in alternative economic systems to make choices about allocating scarce resources. In addition, students learn to evaluate these systems, understand macroeconomic monetary and fiscal policies, and engage in policy debates.

When Offered

Fall and spring semesters.

HIS 185 - Western Civilization

(3) The spiritual values and intellectual achievements of ancient Israel, Greece, Rome, the Middle Ages, the Renaissance, and Reformation that gave birth to the modern world.

When Offered

Every fall semester.

HIS 205 - American History

(3) Principles of the founding and the political, economic, intellectual, cultural, and religious traditions that have shaped America.

When Offered

Every spring semester.

POL 207 - Introduction to American Politics

(3) Introduction to political science and American government to prepare students to be effective citizens.

When Offered

Every fall and spring semester.

Music Core (38 credit hours)**MUA 130 - Piano Class I**

(1) Piano Class I is for Music majors with little or no background in piano study. Technique will cover five-finger patterns, two octave scales (white keys only), cross-hand arpeggios, root position triads and inversions, seventh chords in closed position, and root chord progressions in all major and minor keys. Students will learn a variety of repertoire from different styles and periods, developing sight-reading, transposition, improvisation, and harmonization skills.

Notes: For Music Majors or Minors this class (or MUA 115 - Piano (1 or 2)) is required until MUA 230 - Piano Proficiency (0) is passed. May be repeated for credit.

When Offered

Fall and spring semesters.

MUA 132 - Piano Class II

(1) Piano Class II is for Music Majors who have passed or have been exempted from Piano Class I. Technique will cover two octave scales (white and black keys), one-hand arpeggios, seventh chords in closed, small, and large open positions, root and inverted chord progressions in all major and minor keys. Students will learn a variety of repertoire from different styles and periods, developing sight-reading, transposition, improvisation, and harmonization skills. The completion of the Piano Class sequence along with the passing of the Piano Class II Final Exam will fulfill the piano proficiency requirement.

Prerequisites: MUA 130.

When Offered

Every semester.

OR

MUA 115 - Piano

(1-2) Private lessons in piano are customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals and technique as well as improving musical performance and artistry.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester.

May be repeated for credit.

When Offered

Fall and spring semesters.

Students may take either (or a combination of) MUA 130 - Piano Class I and MUA 132 Piano Class II or MUA 115 - Piano until they pass MUA 230 - Piano Proficiency. Required number of semesters vary per student.

MUA 175 - Music Convocation

(0) Includes weekly performance class, all School of Music concerts and recitals, and special guest artists and speakers.

Notes: Required of all music majors each semester and of music minors for four semesters. Pass/Fail.

When Offered

Fall and spring semesters.

MUA 230 - Piano Proficiency

(0) The piano proficiency course covers areas of basic piano skills, including scales, chords, arpeggios, and cadences in major and minor keys. Students will be required to use these skills for harmonization, playing by ear, and transposing. Students will also be required to perform pieces at the piano in a variety of styles, including church, school, and community music, popular music, and classical music.

Corequisites: MUA 130 or MUA 115.

When Offered

Fall and spring semesters.

MUA 231 - Performance Proficiency

(0) Student must demonstrate basic levels of proficiency on their primary instrument at the end of their required applied lesson study.

Corequisites: Primary Instrument (MUA 102-126).

When Offered

Every fall and spring semester.

MUE 100 - University Women's Choir

(1) The University Women's Choir is a select large ensemble dedicated to the performance of vocal masterworks from all musical styles and periods. University Women's Choir is an opportunity for students to grow in stewardship of God-given gifts and musical talents. Musical excellence and well-prepared performances are stressed. The University Women's Choir tours and records annually and presents multiple concerts each year. Auditions for University Women's Choir are held at the beginning of the fall semester.

Notes: May be repeated for credit.

Fee

Music ensemble fee.

When Offered

Fall and spring semesters.

MUE 101 - University Choir

(1) The University Choir is a select large ensemble dedicated to the performance of vocal masterworks from all musical styles and periods. University Choir is an opportunity for students to grow in stewardship of God-given gifts and musical talents. Musical excellence and well-prepared performances are stressed. The University Choir tours and records annually and presents multiple concerts each year. Auditions for University Choir are held at the beginning of the fall semester.

Notes: May be repeated for credit.

Fee

Music ensemble fee.

When Offered

Fall and spring semesters.

MUE 102 - University Symphonic Band

(1) The University Symphonic Band is a select large ensemble for woodwinds, brass and percussion, oriented towards the performance of a wide range of music for the modern wind band, including transcriptions, standard literature, popular music, and sacred music for band. Symphonic Band is an opportunity for students to grow in stewardship of God-given gifts and musical talents. Musical excellence and well-prepared performances are stressed. The University Symphonic Band tours and records annually and presents multiple concerts each year. Auditions for University Symphonic Band are held at the beginning of the fall semester.

Notes: May be repeated for credit.

Fee

Music ensemble fee.

When Offered

Fall and spring semesters.

MUE 103 - Chamber Orchestra

(1) A select instrumental ensemble in conjunction with the Lakewood Symphony Orchestra featuring string and wind instruments that performs a variety of traditional and contemporary literature for community audiences.

Prerequisites: Instructor permission required.

Notes: May be repeated for credit.

When Offered

Fall and spring semesters.

MUE 109 - Chamber Strings

(1) The University Chamber Strings ensemble is comprised of violinists, violists, cellists, and double bassists performing varied music for small groups; including works from the standard chamber music literature, jazz and popular music, as well as sacred music for strings. Chamber Strings provides an opportunity for students to develop and express their God-given gifts and musical talents. Musical excellence, collaboration, and engaging and varied performances are stressed. The Chamber Strings do a number of outreach performances annually.

Notes: May be repeated for credit.

When Offered

Fall and spring semesters.

MUE 114 - Handbell Ensemble

(1) A performing ensemble that also focuses on developing rehearsal, conducting, and performance skills. Along with concert performance, students work in the areas of ringing technique development and pedagogy, instrument care and maintenance, rhythm reading, score reading, and conducting. Musical excellence, collaboration, and engaging and varied performances are stressed. The Handbell Ensemble does a number of outreach performances annually.

Notes: May be repeated for credit.

When Offered

Fall and spring semesters.

MUS 111 - From Sight to Sound - Music Fundamentals

(2) A course exploring the fundamentals of written music and its practical application to sound and vice versa. Students will gain a basic understanding of music including notation, rhythm, scales, key signatures, intervals, and chords, with an introduction to keyboard and improvisation.

When Offered

Every fall semester.

MUS 112 - Music Theory I: Elements of Music

(3) This course is the first semester of a four-semester sequence required of all music majors. Comprehensive musicianship through hearing, analyzing, and composing. Musical elements covered include melody, rhythm (including simple and compound meter), major and minor modes, chord structure, phrase structure, realization of figured bass, and basic counterpoint.

Prerequisites: MUS 111 or passing grade on the Music Theory Entrance Exam.

Corequisites: MUS 113.

When Offered

Every spring semester.

MUS 113 - Sight-Singing and Ear Training I

(1) This course is the first semester of a four-semester sequence required of all music majors. It is assumed that students will be enrolled in the corequisite Music Theory class when enrolled in a Sight Singing and Ear Training course. In this sequence, students will develop aural skills and competency with sight singing and ear training using solfege in the areas of melody, harmony, and rhythm in a systematic pedagogy.

Prerequisites: MUS 111 or a passing grade on the Music Theory Entrance Exam.
Corequisites: MUS 112.

When Offered

Every spring semester.

MUS 212 - Music Theory II: Diatonic Harmony and Tonicization

(3) Continuation of MUS 112. Topics covered include phrase structure (forms) and motivic analysis, cadences, embellishing tones, introduction to voice-leading, secondary dominants and leading-tone chords, and modulation. Also included in an introduction to music writing software (Finale) as applicable to continued study in Music Theory.

Prerequisites: MUS 110, MUS 112, MUS 113.
Corequisites: MUS 213.

When Offered

Every fall semester.

MUS 213 - Sight-Singing and Ear Training II

(1) This course is the second semester of a four-semester sequence required of all music majors. It is assumed that students will be enrolled in the co-requisite Music Theory class when enrolled in a Sight Singing and Ear Training course. In this sequence, students will develop aural skills and competency with sight singing and ear training using solfege in the areas of melody, harmony, and rhythm in a systematic pedagogy.

Prerequisites: MUS 112, MUS 113.
Corequisites: MUS 212.

When Offered

Every fall semester.

MUS 214 - Music Theory III: Chromatic Harmony and Forms

(3) Continuation of MUS 212. Comprehensive emphasis of 18th century common-practice musical techniques, including melodic and contrapuntal writing, as well as analysis of modal mixture, Neapolitan and augmented sixth chords. An examination of chromatic harmony and modulation. Analysis of vocal forms, and harmony and melody in popular music.

Prerequisites: MUS 212, MUS 213.
Corequisites: MUS 215.

When Offered

Every spring semester.

MUS 215 - Sight-Singing and Ear Training III

(1) A continuation of MUS 213. Aural skills including sight singing using solfege and numbers; harmonic, melodic and rhythmic dictation, modes, and jazz scales.

Prerequisites: MUS 212, MUS 213.
Corequisites: MUS 214.

When Offered

Every spring semester.

MUS 312 - Music Theory IV: The Twentieth Century and Beyond

(3) Continuation of MUS 214. Study of modern and recent musical styles. Survey of advanced harmonic developments in 19th century music, as well as 20th/21st century compositional and improvisational techniques.

Prerequisites: MUS 214, MUS 215.
Corequisites: MUS 313.

When Offered

Every fall semester.

MUS 313 - Sight-Singing and Ear Training IV

(1) Continuation of MUS 215. Aural skills including sight singing using solfege and numbers; harmonic, melodic and rhythmic dictation, modes, and jazz scales.

Prerequisites: MUS 214, MUS 215.

Corequisites: MUS 312.

When Offered

Every fall semester.

MUS 323 - History of Music I

(2) Historical study of the music of the Medieval, Renaissance, and Baroque periods of music history through readings, study of scores, listening, and analysis of stylistic characteristics of representative compositions. The study of the music is integrated with concurrent historical developments in government, politics, economics, geography, science, literature, painting, and philosophy.

When Offered

Every fall semester.

MUS 324 - History of Music II

(2) Historical study of the music from ca. 1700 to the present through readings, study of scores, listening, and analysis of stylistic characteristics of representative compositions. Emphasis is given to the development of music in Europe, with reference to concurrent historical development in non-Western cultures throughout the world.

Prerequisites: MUS 212, MUS 213.

When Offered

Every spring semester.

MUS 326 - Conducting

(2) This introductory conducting course addresses conducting gestures and technique, musical terminology and markings, language pronunciation, basic rehearsal procedures for choral and instrumental groups, developing leadership skills, and verbal and non-verbal communication. Special emphasis is placed on developing a relationship between conducting gestures and sound.

Prerequisites: MUS 212.

When Offered

Every spring semester.

MUS 410 - World Music

(2) World Music is an exploration of musical styles as the reflection of world cultures, with an introduction to ethnomusicology. This survey course begins in the eastern hemisphere and moves west, including studies from Oceania, Asia, the Middle East, Africa, Europe, the Caribbean, South America, and North America. The interaction of music, culture, and religion provides additional insight into diverse cultural traditions throughout the world.

When Offered

Every fall semester.

MUS 426 - Music Business

(2) An in-depth study of Christian and secular music industries; careers in the music business, including music director, choral directing and instrumental accompaniment, small business development, music publishing, recording industry, film and television industry, teaching, and performance. The objective is to give students a greater understanding of music as an industry. Studies include: getting an agent, marketing, finance, understanding ASCAP/BMI, cue sheets, royalties, IMDB credits, talking with record companies, contract negotiations, creating a CV, building a website, music placement for film and television, budgeting for projects and worship arts, dealing with criticism, making a profit.

When Offered

Every fall semester.

Worship Arts Core (38 credit hours)

MUE 115 - Worship Practicum

(1) The Worship Practicum series is dedicated to training students in the art of leading worship and the craft of leading a worship ensemble. Special emphases are given to developing a lifestyle of personal worship; balancing musical

excellence and spiritual formation; and practical experience leading worship, working with teams, and planning worship services.

Prerequisites: MUS 111.

When Offered

Every spring semester.

MUA 119 - Songwriting

(1-2) Private lessons in songwriting are customized to meet the musical needs, interests, academic requirements, and goals of individual students.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester. May be repeated for credit.

When Offered

Fall and spring semesters.

MUS 271 - Music Production and Engineering I

(3) This course serves as an introduction to music production and recording software. Students gain an understanding regarding the strengths of various software options including Pro Tools and Ableton. Students learn to edit audio files in Pro Tools, keyboard shortcuts, and general understanding of the software. They work with MIDI, virtual instruments and related topics.

Prerequisites: Music, StratCom, or Digital Media Majors only.

When Offered

Every fall semester.

MUS 272 - Music Production and Engineering II

(3) Building on their first semester knowledge of Pro Tools, students use the software to record acoustic instruments and voices. They learn about basic studio acoustics, microphones, microphone technique, signal flow, mixing consoles, computer audio concepts, effects, and mixing audio. Some projects may be hybrid audio and MIDI production. Students gain more knowledge into various DAWs (digital audio workstations).

Prerequisites: MUS 271.

When Offered

Every spring semester.

MUS 371 - Music Production and Engineering III

(3) This course is a detailed introduction to live production with an emphasis in sound reinforcement. It includes acoustics, system component analysis, system design, and hands-on training with state-of-the-art best practices guiding the entirety of the semester.

Prerequisites: MAT 112, MUS 272.

When Offered

Every fall semester.

MUS 372 - Music Production and Engineering IV

(3) Expanding on the foundational principles in Level III, this course combines current engineering design principles with practical live production practices. Skills are taught that target audio, video, lighting (AVL) system theory and, whether permanently installed or used on tour. An emphasis will be placed on live production best practices with hands-on experience. Students learn how to produce a live technical event from concept to design to show management. This includes in-depth elements of concert sound, lighting and broadcast video.

Prerequisites: MUS 371.

When Offered

Every spring semester.

MUS 355 - Improvisational Techniques

(1) An introduction to improvisation (keyboard-based) with a focus on the development of improvisational melodies, harmonic progressions and re-harmonization of chord progressions, left and right-hand voicing, and modulations. Particular emphasis is given to improvisation in pop, jazz, traditional, and contemporary worship settings.

Prerequisites: MUS 212.

When Offered

Even spring semesters.

MUS 356 - Vocal Methods

(1) A study of how the vocal mechanism works and pedagogical techniques for instructing others in singing. Objectives include developing an understanding of the acoustical and physiological make-up of the vocal apparatus, gaining an aural perception and understanding of specific vocal problems - their causes and possible solutions, and fostering the development of the student's ability to teach sound vocal technique.

When Offered

Odd fall semesters.

MUS 357 - Fretted Techniques

(1) Instruction in methods of playing and teaching fretted instruments. Studies of various pedagogical techniques and literature used in current public and private instruction including techniques and information useful for church instruction and ensembles. Studies also include physical control of the sound, and learning the various approaches to the guitar - jazz, classical, rock, and praise and worship styles.

Fee

Music instrument fee.

When Offered

Even fall semesters.

MUS 341 - Foundations of Worship and Worship Arts

(3) This course serves as an introductory study of the history, theology, and practice of biblical worship and worship arts. Course content will focus on the biblical, theological, historical, and practical foundations of worship and worship arts from Old Testament times to the present.

When Offered

Even fall semesters.

MUS 342 - Philosophical and Practical Development of Worship

(3) Worship Ministry integrates music and the Christian faith by developing thoughtful Christian perspectives accompanied by the development of practical skills and tools necessary for worship ministry. This course builds on the biblical and historical perspectives provided in MUS 341, with a particular emphasis on developing a solid philosophical and theological basis for the use of music in worship and worship planning through the myriad expressions of worship extant in the church today.

Prerequisites: MUS 341

Notes: MUS 450 should not be taken before MUS 342. It can be taken concurrently or after MUS 342.

When Offered

Odd spring semesters.

MUS 360 - Half Recital

(0) A half-hour recital demonstrating a proficiency and basic level of mastery of performance skill on a primary instrument or voice. The recital should include appropriate performance practice covering a range of important musical styles and periods.

When Offered

Fall and spring semesters.

MUS 361 - Worship Arts Performance Project

(0) A 45-minute performance project demonstrating a proficiency and basic level of mastery of skills required for a career as a worship director/leader/coordinator. This project could include coordinating/directing a worship band, and/or elements of a recital on the student's primary instrument.

Prerequisites: Junior Standing.

If taking MUS 361, take MUA 127 - Applied Worship in place of one credit of primary instrument.

MUS 411 - Scoring and Arranging

(2) The study of technical capabilities and orchestration for instruments and voices, individually and in ensembles, including full orchestra, choir, and jazz instruments. Emphasis is given to developing technical mastery for transcribing, arranging, and score preparation using current music technology tools.

Prerequisites: MUS 212.

When Offered

Every spring semester.

MUS 420 - Leadership Issues in Ministry

(3) Training volunteers and working with staff members in the local church setting.

When Offered

Scheduled by school.

Cross-listed YTM 420.

MUS 450 - Music Ministry Internship

(1) A practical observation, study, and application of the use of music in worship, and the ministry of music through the local church and/or mission outreach organizations. The internship will be guided by the instructor and mentored by a staff member of the sponsoring church or organization. Work will include observation and participation in an ongoing worship ministry; development of the student's ministry skills in preparation for the student's own worship ministry; and application of Biblical precepts to worship, worship planning, and worship ministry.

Prerequisites: MUS 341.

When Offered

Fall and spring semesters.

MUS 470 - Senior Thesis

(2) A capstone academic research paper covering the aesthetic, historical, and/or psychological bases of music and their integration with the Christian faith.

Prerequisites: Senior standing.

Notes: Minimum of 25 pages with oral defense.

Fee

Fees may apply.

When Offered

Fall and spring semesters.

Primary Instrument (7 credit hours)

Each student will take 6 credit hours in the instrument on which they auditioned and have been accepted. Each student will take 1 credit hour on a secondary instrument in order to prepare them for leading worship or helping others to participate in leading worship. If students select MUS 361 - Performance Project, then they will take MUA 127 - Applied Worship in place of 1 credit hour of primary instrument.

MUA 102 - Baritone/Euphonium

(1-2) Private lessons in baritone and euphonium are customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals of tone production and technique as well as improving musical performance and artistry.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester. May be repeated for credit.

Fee

Music instrument fee.

When Offered

Fall and spring semesters.

MUA 103 - Bassoon

(1-2) Private lessons in bassoon are customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals and technique as well as improving musical

performance and artistry.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester. May be repeated for credit.

Fee

Music instrument fee.

When Offered

Fall and spring semesters.

MUA 104 - Clarinet

(1-2) Private lessons in clarinet are customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals and technique as well as improving musical performance and artistry.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester. May be repeated for credit.

Fee

Music instrument fee.

When Offered

Fall and spring semesters.

MUA 108 - Flute

(1-2) Private lessons in flute are customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals and technique as well as improving musical performance and artistry.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester. May be repeated for credit.

Fee

Music instrument fee.

When Offered

Fall and spring semesters.

MUA 109 - French Horn

(1-2) Private lessons in French horn are customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals and technique as well as improving musical performance and artistry.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester. May be repeated for credit.

Fee

Music instrument fee.

When Offered

Fall and spring semesters.

MUA 110 - Guitar

(1-2) Private lessons in guitar are customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals and technique as well as improving musical performance and artistry.

Prerequisites: Music Majors and Minors only.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester. May be repeated for credit.

When Offered

Fall and spring semesters.

MUA 111 - Harp

(1-2) Private lessons in harp are customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals and technique as well as improving musical performance and artistry.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester. May be repeated for credit.

When Offered

Fall and spring semesters.

MUA 112 - Oboe

(1-2) Private lessons in oboe are customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals and technique as well as improving musical performance and artistry.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester. May be repeated for credit.

Fee

Music instrument fee.

When Offered

Fall and spring semesters.

MUA 113 - Organ

(1-2) Private lessons in organ are customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals and technique as well as improving musical performance and artistry.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester. May be repeated for credit.

When Offered

Fall and spring semesters.

MUA 114 - Percussion

(1-2) Private lessons in percussion are customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals and technique as well as improving musical performance and artistry.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester. May be repeated for credit.

When Offered

Fall and spring semesters.

MUA 115 - Piano

(1-2) Private lessons in piano are customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals and technique as well as improving musical performance and artistry.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester. May be repeated for credit.

When Offered

Fall and spring semesters.

MUA 116 - Saxophone

(1-2) Private lessons in saxophone are customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals of tone production and technique as well as improving musical performance and artistry.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson

per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester. May be repeated for credit.

Fee

Music instrument fee.

When Offered

Fall and spring semesters.

MUA 117 - String/Electric Bass

(1-2) Private lessons in string or electric bass are customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals of tone production and technique as well as improving musical performance and artistry.

Lab/Lecture Hours

Course fees apply.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester.

May be repeated for credit.

When Offered

Fall and spring semesters.

MUA 120 - Trombone

(1-2) Private lessons in trombone are customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals of tone production and technique as well as improving musical performance and artistry.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester.

May be repeated for credit.

Fee

Music instrument fee.

When Offered

Fall and spring semesters.

MUA 121 - Trumpet

(1-2) Private lessons in trumpet are customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals of tone production and technique as well as improving musical performance and artistry.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester.

May be repeated for credit.

Fee

Music instrument fee.

When Offered

Fall and spring semesters.

MUA 122 - Tuba

(1-2) Private lessons in tuba are customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals of tone production and technique as well as improving musical performance and artistry.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester.

May be repeated for credit.

Fee

Music instrument fee.

When Offered

Fall and spring semesters.

MUA 123 - Viola

(1-2) Private lessons in viola are customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals of tone production and technique as well as

improving musical performance and artistry.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester. May be repeated for credit.

Fee

Music instrument fee.

When Offered

Fall and spring semesters.

MUA 124 - Violin

(1-2) Private lessons in violin are customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals of tone production and technique as well as improving musical performance and artistry.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester. May be repeated for credit.

Fee

Music instrument fee.

When Offered

Fall and spring semesters.

MUA 125 - Cello

(1-2) Private lessons in cello are customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals of tone production and technique as well as improving musical performance and artistry.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester. May be repeated for credit.

Fee

Music instrument fee.

When Offered

Fall and spring semesters.

MUA 126 - Voice

(1-2) Individual applied lessons in singing with the goals of the development of individual vocal talent; the personal and musical growth of each student; providing the student with the opportunity to study and perform a wide variety of vocal repertoire indicative of, and sympathetic to, the multi-cultural society in which we live; such vocal study as is consistent with the ideals of sound vocal technique.

Notes: the one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester. May be repeated for credit.

Fee

Fees may apply.

When Offered

Fall and spring semesters.

MUA 127 - Applied Worship

(1) This course is an intense study in the area of worship leading and worship production in preparation for the final worship performance project as part of the Bachelor of Music in Worship Arts degree.

When Offered

Every fall and spring semester.

MUA 133 - Drumset

(1-2) Private lessons in drumset customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals and technique as well as improving musical performance and artistry.

Notes: The one-credit section involves one half-hour lesson per week; the two-credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester. May be repeated for credit.

When Offered

Every fall and spring semesters.

Electives Core (7 credit hours)

General Electives - seven credit hours.

Additional Information

- Those selecting the music major must take MUS 110 - Musical Perspectives as part of the general education requirements.
- MUS 111 - From Sight to Sound - Music Fundamentals is a prerequisite for entrance into MUS 112 - Music Theory I: Elements of Music
- MUA 175 - Music Convocation is required for all music majors each semester at CCU (up to 8 semesters).
- Piano and Piano Class requirements vary in order to pass Piano Proficiency. Students must take MUA 130 - Piano Class I OR MUA 115 - Piano in consecutive semesters until MUA 230 - Piano Proficiency is passed .
- Only one ensemble credit each semester counts toward the requirements for the major.

Graduation Requirements for Bachelor of Music in Worship Arts

The faculty recommends students in the B.M. in Worship Arts to the Board of Trustees as candidates for graduation when they have completed the following requirements.

1. Completion of a total of 120 credits, including all general education, electives and Worship Arts major program requirements.
2. A letter grade of D or better and a cumulative GPA of 2.0 or better in all CCU coursework, and a GPA of 2.0 or higher for all courses specified for the major.
3. Completion of 180 hours of ministry/community service and 180 chapel credits. Transfer students are required to complete 45 hours of ministry/community service and 45 chapel credits each year of attendance at CCU. For further details on ministry/community service, see the Life Directions Center (LDC) section of this catalog. For further details on chapel credits, see the Student Life section of this catalog.
4. Meet the CCU Residency requirements.
5. Completion of eight semesters of MUA 175 - Music Convocation.
6. Acceptable performance on exit exams, as required by the faculty.
7. Formal and timely application for graduation by the date specified by the University Registrar.
8. No outstanding financial obligation to the University.

Minor

Dance Minor

The minor in Dance offers students interested in studying dance at CCU to complement their career major or to enrich their college experience by providing a Christ-centered course of well-rounded dance study. The minor consists primarily of technique and performance-based classes giving new dancers a foundation in multiple styles, and experienced dancers the chance to continue their training at their current proficiency level. Courses include ballet, jazz, contemporary, tap, choreography, and performing ensembles. No audition is required for admission to the minor; an audition for placement in certain courses is arranged upon enrollment in the minor.

Students may earn the minor by completing the following 20 hours and any required prerequisites:

Required Core (20 credit hours)

DNC 323 - Dance History

(3) An overview of the history of dance and its changing role in society from ancient times to modern day. The most significant forms of western dance are traced from their global roots to their applications today, with an emphasis on the cultural, historical, and social significance of various dance forms, including social dance, ballet, modern, jazz, and musical theatre.

When Offered

Every even spring semester.

DNC 351 - Intermediate Jazz Dance

(1) Designed for students with an elementary knowledge of jazz concepts and vocabulary (either from MUE 132 or other previous dance experience, by instructor permission), this course explores various elements of jazz dance at an intermediate level, including vocabulary, technique, concepts, and important figures and pieces from jazz dance history.

Prerequisites: MUE 132 or MUE 232, or instructor permission.

Notes: May be repeated for credit.

Fee

Course fee applies.

When Offered

Every fall semester.

DNC 352 - Intermediate Tap Dance

(1) Accessible for both beginning students and those with previous dance experience, this intermediate-level course explores various elements of tap dance, including vocabulary, technique, concepts, and important figures and pieces from tap dance history. A strong emphasis on choreography and repertoire to develop students' performance ability, especially for musical theatre applications.

Prerequisites: MUE 132 or MUE 232, or instructor permission.

Notes: May be repeated for credit.

Fee

Course fee applies.

When Offered

Every fall semester.

DNC 353 - Contemporary Dance

(1) Designed for students with previous dance experience to continue to develop their athleticism and creative voice through the medium of contemporary dance. Explores contemporary dance forms that include Afro-modern, floor work, inversions, classical modern, and improvisation. Classwork focuses on developing students' alignment, strength, flexibility, proprioception, and rhythm.

Prerequisites: MUE 132 or MUE 232, or instructor permission.

Notes: May be repeated for credit.

Fee

Course fee applies.

When Offered

Every fall semester.

DNC 354 - Choreography and Improvisation

(1) This course is a study and exploration of principles of choreography and dance design. The course focuses on developing choreographic principles and devices, building upon body, space, time, energy, and relationship as the core conceptual elements of choreography. Improvisation as a choreographic tool is also explored, as well as improvisational concepts and practices that enhance and further develop choreographic skills.

Prerequisites: MUE 132 or MUE 232, or instructor permission.

Notes: May be repeated for credit.

Fee

Course fee applies.

When Offered

Every spring semester.

KIN 210 - Foundations in Kinesiology

(3) Foundations in Kinesiology introduces the study of kinesiology and provides the foundations of anatomy, physiology, biomechanics, and sports psychology for students to continue their kinesiology degree.

When Offered

Every fall semester.

MUS 111 - From Sight to Sound - Music Fundamentals

(2) A course exploring the fundamentals of written music and its practical application to sound and vice versa. Students will gain a basic understanding of music including notation, rhythm, scales, key signatures, intervals, and chords, with an introduction to keyboard and improvisation.

When Offered

Every fall semester.

4 semesters of either or a combination of these courses:

MUE 132 - Stage Movement/Dance

(1) Group lessons in stage movement and dance customized to meet the needs, interests, and goals of individual students as well as those of the theatre program. Emphasis is placed on developing strong fundamentals and technique as well as improving performance and artistry.

Notes: May be repeated for credit.

When Offered

Every fall and spring semester.

MUE 232 - Stage Movement/Dance II

(1) A continuation of MUE 132 - Stage Movement/Dance for intermediate students.

Prerequisites: MUE 132 or permission of the instructor.

When Offered

Every fall and spring semester.

4 credits from the following courses (must take DNC 401 Advanced Ballet at least once; DNC 402 Pointe is optional):

DNC 401 - Advanced Ballet

(2) One-on-one intensive study in ballet for advanced students. The focus in the private lessons is two-fold: to address personal weaknesses and further develop personal strengths while continuing to grow a comprehensive knowledge and ability. Additional aspects of dance explored in the course may include audition techniques, audition portfolio development, and choreography skills.

Prerequisites: MUE 132 or MUE 232; or instructor permission.

Notes: May be repeated for credit.

When Offered

Every fall and spring semesters.

DNC 402 - Pointe

(2) One-on-one intensive study in pointe for advanced students. The focus in the private lessons is two-fold: to address personal weaknesses and further develop personal strengths while continuing to grow a comprehensive knowledge and ability. Additional aspects of dance explored in the course may include audition techniques, audition portfolio development, and choreography skills.

Prerequisites: MUE 132 or MUE 232; or instructor permission.

Notes: May be repeated for credit.

When Offered

Every fall and spring semesters.

Music Minor

The Music Minor, as an addition to a major field of study, offers serious musical training for anyone passionate about music. The three semesters of music theory and the piano requirement are music cornerstones which enable the student to become an effective musician in a variety of settings, including ministry.

Students may earn a minor in the field by completing the following 18 credit hours provided none of the courses are required in the student's major.

Required Courses (18 credit hours)

Students may earn a Music Minor by completing the following:

Required Core (16 credit hours)**MUA 130 - Piano Class I**

(1) Piano Class I is for Music majors with little or no background in piano study. Technique will cover five-finger patterns, two octave scales (white keys only), cross-hand arpeggios, root position triads and inversions, seventh chords in closed position, and root chord progressions in all major and minor keys. Students will learn a variety of repertoire from different

styles and periods, developing sight-reading, transposition, improvisation, and harmonization skills.

Notes: For Music Majors or Minors this class (or MUA 115 - Piano (1 or 2)) is required until MUA 230 - Piano Proficiency (0) is passed. May be repeated for credit.

When Offered

Fall and spring semesters.

MUA 132 - Piano Class II

(1) Piano Class II is for Music Majors who have passed or have been exempted from Piano Class I. Technique will cover two octave scales (white and black keys), one-hand arpeggios, seventh chords in closed, small, and large open positions, root and inverted chord progressions in all major and minor keys. Students will learn a variety of repertoire from different styles and periods, developing sight-reading, transposition, improvisation, and harmonization skills. The completion of the Piano Class sequence along with the passing of the Piano Class II Final Exam will fulfill the piano proficiency requirement.

Prerequisites: MUA 130.

When Offered

Every semester.

OR

MUA 115 - Piano

(1-2) Private lessons in piano are customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals and technique as well as improving musical performance and artistry.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester. May be repeated for credit.

When Offered

Fall and spring semesters.

MUA 175 - Music Convocation

(0) Includes weekly performance class, all School of Music concerts and recitals, and special guest artists and speakers.

Notes: Required of all music majors each semester and of music minors for four semesters. Pass/Fail.

When Offered

Fall and spring semesters.

MUE 100 - University Women's Choir

(1) The University Women's Choir is a select large ensemble dedicated to the performance of vocal masterworks from all musical styles and periods. University Women's Choir is an opportunity for students to grow in stewardship of God-given gifts and musical talents. Musical excellence and well-prepared performances are stressed. The University Women's Choir tours and records annually and presents multiple concerts each year. Auditions for University Women's Choir are held at the beginning of the fall semester.

Notes: May be repeated for credit.

Fee

Music ensemble fee.

When Offered

Fall and spring semesters.

MUE 101 - University Choir

(1) The University Choir is a select large ensemble dedicated to the performance of vocal masterworks from all musical styles and periods. University Choir is an opportunity for students to grow in stewardship of God-given gifts and musical talents. Musical excellence and well-prepared performances are stressed. The University Choir tours and records annually and presents multiple concerts each year. Auditions for University Choir are held at the beginning of the fall semester.

Notes: May be repeated for credit.

Fee

Music ensemble fee.

When Offered

Fall and spring semesters.

MUE 102 - University Symphonic Band

(1) The University Symphonic Band is a select large ensemble for woodwinds, brass and percussion, oriented towards the performance of a wide range of music for the modern wind band, including transcriptions, standard literature, popular music, and sacred music for band. Symphonic Band is an opportunity for students to grow in stewardship of God-given gifts and musical talents. Musical excellence and well-prepared performances are stressed. The University Symphonic Band tours and records annually and presents multiple concerts each year. Auditions for University Symphonic Band are held at the beginning of the fall semester.

Notes: May be repeated for credit.

Fee

Music ensemble fee.

When Offered

Fall and spring semesters.

MUE 103 - Chamber Orchestra

(1) A select instrumental ensemble in conjunction with the Lakewood Symphony Orchestra featuring string and wind instruments that performs a variety of traditional and contemporary literature for community audiences.

Prerequisites: Instructor permission required.

Notes: May be repeated for credit.

When Offered

Fall and spring semesters.

MUE 109 - Chamber Strings

(1) The University Chamber Strings ensemble is comprised of violinists, violists, cellists, and double bassists performing varied music for small groups; including works from the standard chamber music literature, jazz and popular music, as well as sacred music for strings. Chamber Strings provides an opportunity for students to develop and express their God-given gifts and musical talents. Musical excellence, collaboration, and engaging and varied performances are stressed. The Chamber Strings do a number of outreach performances annually.

Notes: May be repeated for credit.

When Offered

Fall and spring semesters.

MUE 114 - Handbell Ensemble

(1) A performing ensemble that also focuses on developing rehearsal, conducting, and performance skills. Along with concert performance, students work in the areas of ringing technique development and pedagogy, instrument care and maintenance, rhythm reading, score reading, and conducting. Musical excellence, collaboration, and engaging and varied performances are stressed. The Handbell Ensemble does a number of outreach performances annually.

Notes: May be repeated for credit.

When Offered

Fall and spring semesters.

MUS 111 - From Sight to Sound - Music Fundamentals

(2) A course exploring the fundamentals of written music and its practical application to sound and vice versa. Students will gain a basic understanding of music including notation, rhythm, scales, key signatures, intervals, and chords, with an introduction to keyboard and improvisation.

When Offered

Every fall semester.

MUS 112 - Music Theory I: Elements of Music

(3) This course is the first semester of a four-semester sequence required of all music majors. Comprehensive musicianship through hearing, analyzing, and composing. Musical elements covered include melody, rhythm (including simple and compound meter), major and minor modes, chord structure, phrase structure, realization of figured bass, and basic counterpoint.

Prerequisites: MUS 111 or passing grade on the Music Theory Entrance Exam.

Corequisites: MUS 113.

When Offered

Every spring semester.

MUS 113 - Sight-Singing and Ear Training I

(1) This course is the first semester of a four-semester sequence required of all music majors. It is assumed that students will be enrolled in the corequisite Music Theory class when enrolled in a Sight Singing and Ear Training course. In this sequence, students will develop aural skills and competency with sight singing and ear training using solfege in the areas of melody, harmony, and rhythm in a systematic pedagogy.

Prerequisites: MUS 111 or a passing grade on the Music Theory Entrance Exam.

Corequisites: MUS 112.

When Offered

Every spring semester.

MUS 212 - Music Theory II: Diatonic Harmony and Tonicization

(3) Continuation of MUS 112. Topics covered include phrase structure (forms) and motivic analysis, cadences, embellishing tones, introduction to voice-leading, secondary dominants and leading-tone chords, and modulation. Also included in an introduction to music writing software (Finale) as applicable to continued study in Music Theory.

Prerequisites: MUS 110, MUS 112, MUS 113.

Corequisites: MUS 213.

When Offered

Every fall semester.

MUS 213 - Sight-Singing and Ear Training II

(1) This course is the second semester of a four-semester sequence required of all music majors. It is assumed that students will be enrolled in the co-requisite Music Theory class when enrolled in a Sight Singing and Ear Training course. In this sequence, students will develop aural skills and competency with sight singing and ear training using solfege in the areas of melody, harmony, and rhythm in a systematic pedagogy.

Prerequisites: MUS 112, MUS 113.

Corequisites: MUS 212.

When Offered

Every fall semester.

Primary Instrument Core (2 credit hours)

Each student will take 2 credit hours in the instrument on which they auditioned and have been accepted.

MUA 102 - Baritone/Euphonium

(1-2) Private lessons in baritone and euphonium are customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals of tone production and technique as well as improving musical performance and artistry.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester. May be repeated for credit.

Fee

Music instrument fee.

When Offered

Fall and spring semesters.

MUA 103 - Bassoon

(1-2) Private lessons in bassoon are customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals and technique as well as improving musical performance and artistry.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester.

May be repeated for credit.

Fee

Music instrument fee.

When Offered

Fall and spring semesters.

MUA 104 - Clarinet

(1-2) Private lessons in clarinet are customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals and technique as well as improving musical performance and artistry.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester. May be repeated for credit.

Fee

Music instrument fee.

When Offered

Fall and spring semesters.

MUA 108 - Flute

(1-2) Private lessons in flute are customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals and technique as well as improving musical performance and artistry.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester. May be repeated for credit.

Fee

Music instrument fee.

When Offered

Fall and spring semesters.

MUA 109 - French Horn

(1-2) Private lessons in French horn are customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals and technique as well as improving musical performance and artistry.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester. May be repeated for credit.

Fee

Music instrument fee.

When Offered

Fall and spring semesters.

MUA 110 - Guitar

(1-2) Private lessons in guitar are customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals and technique as well as improving musical performance and artistry.

Prerequisites: Music Majors and Minors only.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester. May be repeated for credit.

When Offered

Fall and spring semesters.

MUA 111 - Harp

(1-2) Private lessons in harp are customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals and technique as well as improving musical performance and artistry.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester. May be repeated for credit.

When Offered

Fall and spring semesters.

MUA 112 - Oboe

(1-2) Private lessons in oboe are customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals and technique as well as improving musical performance and artistry.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester. May be repeated for credit.

Fee

Music instrument fee.

When Offered

Fall and spring semesters.

MUA 113 - Organ

(1-2) Private lessons in organ are customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals and technique as well as improving musical performance and artistry.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester. May be repeated for credit.

When Offered

Fall and spring semesters.

MUA 114 - Percussion

(1-2) Private lessons in percussion are customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals and technique as well as improving musical performance and artistry.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester. May be repeated for credit.

When Offered

Fall and spring semesters.

MUA 115 - Piano

(1-2) Private lessons in piano are customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals and technique as well as improving musical performance and artistry.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester. May be repeated for credit.

When Offered

Fall and spring semesters.

MUA 116 - Saxophone

(1-2) Private lessons in saxophone are customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals of tone production and technique as well as improving musical performance and artistry.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester. May be repeated for credit.

Fee

Music instrument fee.

When Offered

Fall and spring semesters.

MUA 117 - String/Electric Bass

(1-2) Private lessons in string or electric bass are customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals of tone production and technique as well as improving musical performance and artistry.

Lab/Lecture Hours

Course fees apply.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester. May be repeated for credit.

When Offered

Fall and spring semesters.

MUA 120 - Trombone

(1-2) Private lessons in trombone are customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals of tone production and technique as well as improving musical performance and artistry.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester. May be repeated for credit.

Fee

Music instrument fee.

When Offered

Fall and spring semesters.

MUA 121 - Trumpet

(1-2) Private lessons in trumpet are customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals of tone production and technique as well as improving musical performance and artistry.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester. May be repeated for credit.

Fee

Music instrument fee.

When Offered

Fall and spring semesters.

MUA 122 - Tuba

(1-2) Private lessons in tuba are customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals of tone production and technique as well as improving musical performance and artistry.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester. May be repeated for credit.

Fee

Music instrument fee.

When Offered

Fall and spring semesters.

MUA 123 - Viola

(1-2) Private lessons in viola are customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals of tone production and technique as well as improving musical performance and artistry.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester.

May be repeated for credit.

Fee

Music instrument fee.

When Offered

Fall and spring semesters.

MUA 124 - Violin

(1-2) Private lessons in violin are customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals of tone production and technique as well as improving musical performance and artistry.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester. May be repeated for credit.

Fee

Music instrument fee.

When Offered

Fall and spring semesters.

MUA 125 - Cello

(1-2) Private lessons in cello are customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals of tone production and technique as well as improving musical performance and artistry.

Notes: The one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester. May be repeated for credit.

Fee

Music instrument fee.

When Offered

Fall and spring semesters.

MUA 126 - Voice

(1-2) Individual applied lessons in singing with the goals of the development of individual vocal talent; the personal and musical growth of each student; providing the student with the opportunity to study and perform a wide variety of vocal repertoire indicative of, and sympathetic to, the multi-cultural society in which we live; such vocal study as is consistent with the ideals of sound vocal technique.

Notes: the one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester. May be repeated for credit.

Fee

Fees may apply.

When Offered

Fall and spring semesters.

MUA 133 - Drumset

(1-2) Private lessons in drumset customized to meet the musical needs, interests, academic requirements, and goals of individual students. Emphasis is placed on developing strong fundamentals and technique as well as improving musical performance and artistry.

Notes: The one-credit section involves one half-hour lesson per week; the two-credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester. May be repeated for credit.

When Offered

Every fall and spring semesters.

Additional Information

- Those selecting the music minor must take MUS 110 - Musical Perspectives (3) as part of the general education requirements.
- MUA 175 - Music Convocation (0) is required for all music minors for four semesters.
- Only one ensemble credit each semester counts toward the requirements for the minor.

- MUS 111 From Sight to Sound - Music Fundamentals is pre-requisite for MUS 112 Music Theory I: Elements of Music .

Music Theatre Minor

The Music Theatre Minor, as an addition to a major field of study, offers students interested in musical theatre an opportunity to develop the unique skill set required for musical theatre performance. Required courses include dance/ stage movement, voice, and acting, along with basic music requirements.

Students may earn a minor in the field by completing the following 20 credit hours provided none of the courses is required in the student's major.

Required Courses (20 credit hours)

MUA 126 - Voice

(1-2) Individual applied lessons in singing with the goals of the development of individual vocal talent; the personal and musical growth of each student; providing the student with the opportunity to study and perform a wide variety of vocal repertoire indicative of, and sympathetic to, the multi-cultural society in which we live; such vocal study as is consistent with the ideals of sound vocal technique.

Notes: the one credit section involves one half-hour lesson per week; the two credit section involves one one-hour lesson per week. Students are required to participate in sectionals in Music Convocation and juries at the end of the semester. May be repeated for credit.

Fee

Fees may apply.

When Offered

Fall and spring semesters.

MUA 175 - Music Convocation

(0) Includes weekly performance class, all School of Music concerts and recitals, and special guest artists and speakers.

Notes: Required of all music majors each semester and of music minors for four semesters. Pass/Fail.

When Offered

Fall and spring semesters.

MUE 107 - Music Theatre Ensemble

(1) A performing ensemble, class sessions are predominantly preparations for auditions and performance of solo and ensemble scene excerpts from musical theatre. Class sessions will include music rehearsal, vocal coaching, basic acting, stage movement, and auditioning techniques and portfolio.

Notes: May be repeated for credit.

When Offered

Every fall semester.

MUE 132 - Stage Movement/Dance

(1) Group lessons in stage movement and dance customized to meet the needs, interests, and goals of individual students as well as those of the theatre program. Emphasis is placed on developing strong fundamentals and technique as well as improving performance and artistry.

Notes: May be repeated for credit.

When Offered

Every fall and spring semester.

MUS 110 - Musical Perspectives

(3) An exploration of music in the broader context of culture and the arts; personal musical experiences through listening and doing; and developing the ability to discern aesthetic excellence. Included is an introduction to the elements of music and how music works, the development of a Christian perspective on the arts, a broad survey of representative selections of Western music, and a focused overview of non-western/world music.

Notes: This course satisfies the general education fine arts requirement for most students. It is recommended for all students, especially those with an interest in music, and is the required fine arts course for all music majors and minors.

Students with a special interest in Theatre should see THR 112.

Note: MUS 110 does not satisfy the fine arts requirement for education majors.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

MUS 111 - From Sight to Sound - Music Fundamentals

(2) A course exploring the fundamentals of written music and its practical application to sound and vice versa. Students will gain a basic understanding of music including notation, rhythm, scales, key signatures, intervals, and chords, with an introduction to keyboard and improvisation.

When Offered

Every fall semester.

THR 220 - Acting

(3) An introduction to character development through theatre games, monologues, and scene work. Students will learn scene scoring techniques in the Stanislavski method, and gain exposure to a wide variety of theatrical literature and playwrights (studying both plays/playwrights in the classic American theatre canon, and contemporary plays/playwrights).

Notes: May be repeated for credit.

When Offered

Every spring semester.

THR 250 - Voice and Diction

(3) Voice production, articulation, and phonetic analysis of speech.

Prerequisites: COM 103.

When Offered

Even fall semesters.

Cross-listed COM 250.

THR 320 - Acting II

(3) An in-depth study of character development, building on the skills acquired in THR 220 - Acting. Emphasis on scene scoring and the Stanislavski technique, while building skills through advanced theatre games, monologues, and scene work.

Prerequisites: THR 220.

When Offered

Every spring semester.

Sacred Music and Literature Minor

The Minor in Sacred Music and Literature constitutes an interdisciplinary course of study in Christian aesthetics, art and music history, poetry, and liturgical practice. The program provides students with the opportunity to integrate their studies in theology, history, music, art, and literature with broader aspects and trends in the church and the world. Through a carefully selected series of classes from various schools in the college, and culminating in two semesters of unique interdisciplinary seminars, students will go beyond their initial exposure through the general education core, studying each art form and its history in the context of the church in-depth. The minor culminates in a publicly presented research project, demonstrating students' readiness to serve the church, pursue graduate study if desired, and communicate effectively with the world.

Students may earn a minor in the field by completing 18 credit hours (courses vary depending on area of major study).

Sacred Music and Literature Minor Required Courses (18 credit hours)

MUS 340 - Seminar in Sacred Music and Literature is taken for two semesters (6 credit hours), and includes a thesis or research project supervised by seminar faculty.

Required Courses for Biblical Studies, Ministry Management, Theology, Youth Ministry Majors

ENG 305 - Poetry Seminar

(3) Interpretation and critical reading, structures, and conventions of poetry in English, past and present.

Prerequisites: One of the following: ENG 201, ENG 202, ENG 203, ENG 204, or ENG 205.

When Offered

Odd fall semesters.

ENG 420 - Advanced Creative Writing: Poetry

(3) Technique, writing practice, and criticism.

Prerequisites: ENG 230 and junior/senior status or permission of the instructor.

When Offered

Even fall semesters.

MUS 323 - History of Music I

(2) Historical study of the music of the Medieval, Renaissance, and Baroque periods of music history through readings, study of scores, listening, and analysis of stylistic characteristics of representative compositions. The study of the music is integrated with concurrent historical developments in government, politics, economics, geography, science, literature, painting, and philosophy,

When Offered

Every fall semester.

MUS 340 - Seminar in Sacred Music and Literature

(3) This is a team-taught interdisciplinary seminar in sacred music, literature, and the related arts. The course focuses on the arts in the context of the Christian life and the liturgy of the church. Students investigate primary sources, prepare for discussion, and have multiple opportunities for presentation to the class.

Prerequisites: Students with Junior or Senior standing.

When Offered

Every spring semester.

MUS 341 - Foundations of Worship and Worship Arts

(3) This course serves as an introductory study of the history, theology, and practice of biblical worship and worship arts. Course content will focus on the biblical, theological, historical, and practical foundations of worship and worship arts from Old Testament times to the present.

When Offered

Even fall semesters.

PHL 340 - Beauty, Desire, and Wisdom

(3) Why is there beauty in the world? What compels us to pursue it in the forms of art, relationships, and the things of the world around us? This course helps students understand the important but troubled relationship between beauty, desire, and the need for guiding wisdom.

Prerequisites: PHL 202.

When Offered

Every even fall semesters.

- One (1) additional credit hour. Choose from MUA 101-126, MUA 133, or MUE 100-117.

Required Courses for English Majors

MUS 323 - History of Music I

(2) Historical study of the music of the Medieval, Renaissance, and Baroque periods of music history through readings, study of scores, listening, and analysis of stylistic characteristics of representative compositions. The study of the music is integrated with concurrent historical developments in government, politics, economics, geography, science, literature, painting, and philosophy,

When Offered

Every fall semester.

MUS 340 - Seminar in Sacred Music and Literature

(3) This is a team-taught interdisciplinary seminar in sacred music, literature, and the related arts. The course focuses on the arts in the context of the Christian life and the liturgy of the church. Students investigate primary sources, prepare for discussion, and have multiple opportunities for presentation to the class.

Prerequisites: Students with Junior or Senior standing.

When Offered

Every spring semester.

MUS 341 - Foundations of Worship and Worship Arts

(3) This course serves as an introductory study of the history, theology, and practice of biblical worship and worship arts. Course content will focus on the biblical, theological, historical, and practical foundations of worship and worship arts from Old Testament times to the present.

When Offered

Even fall semesters.

PHL 340 - Beauty, Desire, and Wisdom

(3) Why is there beauty in the world? What compels us to pursue it in the forms of art, relationships, and the things of the world around us? This course helps students understand the important but troubled relationship between beauty, desire, and the need for guiding wisdom.

Prerequisites: PHL 202.

When Offered

Every even fall semesters.

THE 309 - History of Christianity

(3) This course provides an overview of the history of Christianity from the post-apostolic era up to the present day. Focus is given to benchmark events, persons, trends in worship practice and spirituality, doctrinal developments and emphases, and interaction between Christianity and culture over the course of two millennia.

Prerequisites: BIB 111 or HIS 111; BIB 114 or HUM 114.

When Offered

Every fall and spring semesters.

- One (1) additional credit hour. Choose from MUA 101-126, MUA 133, or MUE 100-117.

Required Courses for Music Education, Music, and Music with emphases in Performance, Production and Engineering, Music Media and Marketing, and Composition Majors

ENG 305 - Poetry Seminar

(3) Interpretation and critical reading, structures, and conventions of poetry in English, past and present.

Prerequisites: One of the following: ENG 201, ENG 202, ENG 203, ENG 204, or ENG 205.

When Offered

Odd fall semesters.

ENG 420 - Advanced Creative Writing: Poetry

(3) Technique, writing practice, and criticism.

Prerequisites: ENG 230 and junior/senior status or permission of the instructor.

When Offered

Even fall semesters.

MUS 340 - Seminar in Sacred Music and Literature

(3) This is a team-taught interdisciplinary seminar in sacred music, literature, and the related arts. The course focuses on the arts in the context of the Christian life and the liturgy of the church. Students investigate primary sources, prepare for discussion, and have multiple opportunities for presentation to the class.

Prerequisites: Students with Junior or Senior standing.

When Offered

Every spring semester.

MUS 341 - Foundations of Worship and Worship Arts

(3) This course serves as an introductory study of the history, theology, and practice of biblical worship and worship arts. Course content will focus on the biblical, theological, historical, and practical foundations of worship and worship arts from Old Testament times to the present.

When Offered

Even fall semesters.

PHL 340 - Beauty, Desire, and Wisdom

(3) Why is there beauty in the world? What compels us to pursue it in the forms of art, relationships, and the things of the world around us? This course helps students understand the important but troubled relationship between beauty, desire, and the need for guiding wisdom.

Prerequisites: PHL 202.

When Offered

Every even fall semesters.

THE 309 - History of Christianity

(3) This course provides an overview of the history of Christianity from the post-apostolic era up to the present day. Focus is given to benchmark events, persons, trends in worship practice and spirituality, doctrinal developments and emphases, and interaction between Christianity and culture over the course of two millennia.

Prerequisites: BIB 111 or HIS 111; BIB 114 or HUM 114.

When Offered

Every fall and spring semesters.

Required Courses for Worship Arts Majors

ENG 305 - Poetry Seminar

(3) Interpretation and critical reading, structures, and conventions of poetry in English, past and present.

Prerequisites: One of the following: ENG 201, ENG 202, ENG 203, ENG 204, or ENG 205.

When Offered

Odd fall semesters.

ENG 420 - Advanced Creative Writing: Poetry

(3) Technique, writing practice, and criticism.

Prerequisites: ENG 230 and junior/senior status or permission of the instructor.

When Offered

Even fall semesters.

HUM 221 - Experiencing Creative Arts and Culture

(3) A guided experience of the arts (visual, literary, theatre and music) within a selected urban cultural setting.

Notes: Additional fees apply for travel/lodging and event tickets. Class size will be limited.

When Offered

Scheduled by School, winter or summer semesters.

LAT 301 - Latin I

(3) This course introduces students to the basics of classical Latin, including grammar, vocabulary, and syntax. Students also receive instruction in translation tools and techniques as they develop proficiency in reading, translating, and using the Latin language within various disciplines.

When Offered

Every odd fall semesters.

PHL 340 - Beauty, Desire, and Wisdom

(3) Why is there beauty in the world? What compels us to pursue it in the forms of art, relationships, and the things of the world around us? This course helps students understand the important but troubled relationship between beauty, desire, and the need for guiding wisdom.

Prerequisites: PHL 202.

When Offered

Every even fall semesters.

MUS 340 - Seminar in Sacred Music and Literature

(3) This is a team-taught interdisciplinary seminar in sacred music, literature, and the related arts. The course focuses on the arts in the context of the Christian life and the liturgy of the church. Students investigate primary sources, prepare for discussion, and have multiple opportunities for presentation to the class.

Prerequisites: Students with Junior or Senior standing.

When Offered

Every spring semester.

Theatre Minor

The Theatre Minor, as an addition to a major field of study, offers students interested in theatre an opportunity to develop the unique skill set required for theatre performance. In addition to practical work in acting and theatre production, the students' academic understanding of theatre history and dramatic literature will be benefited by a solidly Christ-centered world view. A major focus of the program is to help young Christian artists develop excellence in their field and a personal Christian ethic from within which to pursue their artistry.

Students may earn a minor in the field by completing the following 19 credit hours provided none of the courses is required in the student's major.

Required Courses (19 credit hours)**MUE 132 - Stage Movement/Dance**

(1) Group lessons in stage movement and dance customized to meet the needs, interests, and goals of individual students as well as those of the theatre program. Emphasis is placed on developing strong fundamentals and technique as well as improving performance and artistry.

Notes: May be repeated for credit.

When Offered

Every fall and spring semester.

THR 112 - Theatre Appreciation

(3) An introduction to the theatre world and all its aspects: the people who are active in that world, the many kinds of work that are created, the sensations and ideas we receive from those works, and the ways the life of theatre has transmitted across many times and place.

Notes: This course satisfies the general education fine arts requirement for most students. It is recommended for all students, especially those with an interest in theatre. Students with a special interest in music should see MUS 110.

Note: THR 112 does not satisfy the fine arts requirement for music majors or minors, or education majors.

When Offered

Fall and spring semesters.

THR 151 - Theatre Production

(2) Participation as crew or cast on university Mainstage, Summer Stage, or touring productions. Students taking this class will be expected to work crew for a show (including helping with set construction), and participate in hands-on workshops with experts in set design, costume design, lighting design, and stage makeup.

When Offered

Fall and spring semesters.

THR 220 - Acting

(3) An introduction to character development through theatre games, monologues, and scene work. Students will learn scene scoring techniques in the Stanislavski method, and gain exposure to a wide variety of theatrical literature and playwrights (studying both plays/playwrights in the classic American theatre canon, and contemporary plays/playwrights).

Notes: May be repeated for credit.

When Offered

Every spring semester.

THR 250 - Voice and Diction

(3) Voice production, articulation, and phonetic analysis of speech.

Prerequisites: COM 103.

When Offered

Even fall semesters.

Cross-listed COM 250.

THR 320 - Acting II

(3) An in-depth study of character development, building on the skills acquired in THR 220 - Acting. Emphasis on scene scoring and the Stanislavski technique, while building skills through advanced theatre games, monologues, and scene work.

Prerequisites: THR 220.

When Offered

Every spring semester.

THR 330 - Shakespeare

(3) Analysis of literary and performance techniques for selected Shakespeare plays.

Prerequisites: One of the following: ENG 201, ENG 202, ENG 203, ENG 204, ENG 205.

When Offered

Even spring semesters.

Cross-listed ENG 330.

Suggested Electives

Suggested Electives to take with the Theatre Minor:

- PSY 101 Introduction to Psychology
- HUM 240 Film Appreciation and Analysis

Certificate

Conducting Certificate

The certificate in Conducting provides a course of study including four semesters of advanced conducting lessons and two adjudicated recitals. Recitals take place during the student's Junior and Senior years as performances with the student's major ensemble(s).

Students may earn the certificate by completing the following 12 hours and any required prerequisites:

Required Core (12 credit hours)

Students take MUA-327 for four semesters (2 credits per semester, 8 credits in total) during the student's Junior and Senior years. Two of those semesters the student enrolls in MUA-465 (2 credits per semester, 4 credits total).

MUA 327 - Advanced Conducting

(2) Individual applied lessons in conducting. The primary emphasis is developing a philosophy of conducting and the practical application of conducting skills through ensemble directing in the student's area of concentration. Course content includes advanced conducting techniques, score analysis, conducting terms. Other topics include developing an ideal choral, orchestral, or band sound, leadership, non-verbal communication, historical performance practice, score preparation, and pre-rehearsal activities. Student must be enrolled in applicable choral or instrumental ensemble.

Prerequisites: MUS 326.

When Offered

Fall and spring semesters.

MUS 465 - Conducting Recital

(2) The conducting recital fulfills the performance requirement of the Certificate in Conducting. Students enroll concurrently with Advanced Conducting lessons. Under the guidance of their conducting teacher, students select, prepare, and perform repertoire with one of the CCU's major ensembles for adjudication by a faculty panel from the School of Music.

Prerequisites: MUS 326.

Corequisites: MUA 327.

Notes: May be repeated for credit.

When Offered

Scheduled by school.

School of Nursing and Health Professions

The School of Nursing and Health Professions provides CUS students the opportunity to earn a degree in Nursing. In today's world, healthcare is exciting and challenging, providing students with many opportunities to impact lives when people are vulnerable and in need of hope.

The vision of the Nursing program is to empower nurses to practice nursing as ministry. As a Christ-centered community of learners and scholars who focus on academic excellence and spiritual formation, the mission of the nursing education programs at CCU is to prepare competent, compassionate moral leaders who excel as servants, shepherds, stewards and scholars to impact the profession and the world. We challenge students to be exceptional nurses and to transform healthcare through the uniqueness of Christ-inspired nursing practice.

Nursing is an exciting and challenging profession. The art and science of nursing blend intellectual inquiry, evidence-based practice, and advanced technology with the heart and essence of care. Nursing is a sacred profession. No other healthcare provider has the opportunity to care for the physical, emotional, and spiritual needs of people when they are suffering and in need.

C Compassionate in care

H Humility of spirit

R Respect for life and human dignity

I Integrity in word and action

S Scholarly in academics

T Trustworthy in professional practice

Bachelor's Degrees

Bachelor of Science in Nursing

The Bachelor of Science in Nursing program is a traditional four-year nursing degree with an upper-division nursing major (junior-senior year) that prepares graduates for RN licensure and professional practice. Students enter the College of Undergraduate Studies (CUS) as a nursing major during freshman or sophomore year. Students entering at the start of freshman year may apply for direct admit status allowing them seamless progression into the nursing major core provided progression criteria are met. This program is comprised of general education, behavioral, and biological science pre-requisite coursework totaling 60 credit hours. The nursing major includes theory (in-seat), laboratory (skills/simulation), and clinical components. Nursing courses are delivered in a blended format for greater flexibility. The nursing major core courses in CUS are offered over four semesters in a traditional academic format with summers off.

The general education and biological science curriculum, grounded in biblical truth, is intended to provide a broad-based knowledge of the arts and sciences required for students to understand the complex world of healthcare and to be prepared for success in the nursing major courses. As is consistent with the University's mission, there is an emphasis on spiritual formation leading to the integration of learning, faith, and practice as students provide compassionate care.

This practice discipline degree emphasizes clinical judgment, professionalism, moral leadership, evidence-based nursing practice, technology management, and interprofessional communication within healthcare delivery. Competency, character, and calling are fostered in an effort to prepare nurses to practice nursing as ministry. CCU challenges students to become exceptionally competent knowledgeable nurse leaders who think critically to impact their world and transform healthcare through the uniqueness of Christ-inspired practice. Nursing at CCU is a scientific discipline and a sacred calling.

Progression Requirements to Nursing Major Core

Direct admission to the BSN program is available only for incoming freshmen students to the College of Undergraduate Studies. CUS Nursing students with direct admission to the BSN program may progress to BSN nursing major coursework in their junior year as long as they meet the following BSN progression requirements:

- Have completed BSN prerequisites during their freshman and sophomore years in the College of Undergraduate Studies
- Have a cumulative collegiate GPA of 3.0 or higher
- Have a cumulative GPA in science prerequisite courses of 3.0
- All science prerequisite courses must have been completed within the last 5 years
- Receive a grade of "C" or better in all prerequisite courses. Retakes of CCU science courses are limited to one per course
- Have all prerequisite courses completed by the end of sophomore year.
- Grade attainment in science and prerequisite courses is evaluated spring semester sophomore year at mid-term with final grade analysis validated at the end of spring semester (by May 15).
- Not on probation and no behavioral issues or disqualifying offenses
- Successfully pass the ATI TEAS exam with the following proficiency levels: English - 66.7%, math - 71.9%, reading - 74.5%, science - 57.4%, and an overall TEAS score of 68%. These are established national benchmarks. The TEAS exam may be retaken multiple times at students' expense.
- Have attained 90 chapel credits and completed 90 ministry hours by the fall semester of their junior year
- Successfully complete an interview with BSN Admissions and Progressions Committee in the spring of their sophomore year

Upon progression students must:

- Successfully pass a background check
- Pass a drug screen
- Complete the Physical Exam Form

The Bachelor of Science in Nursing degree requires completion of the following 120 credit hours:

General Education/Behavioral Science: (39 credit hours)

Biological Sciences: (21 credit hours)

Nursing Major Core: BSN (60 credit hours)

General Education Requirements (39 credit hours)

Arts and Humanities (6 credit hours)

HIS 185 - Western Civilization

(3) The spiritual values and intellectual achievements of ancient Israel, Greece, Rome, the Middle Ages, the Renaissance, and Reformation that gave birth to the modern world.

When Offered

Every fall semester.

PHL 202 - Introduction to Philosophy

(3) This course is a survey of many major issues raised over the two-and-a-half millennia of western philosophy. With an emphasis on historical context and development, as well as philosophy's relationship to Christian thought, this course challenges students to critically explore philosophical questions and introduce them to the great tradition of intellectual inquiry. Special attention will be given to the subjects of truth and knowledge, reality and appearance, mind and body, right and wrong, beauty and the existence of God.

When Offered

Fall and summer semesters.

Biblical Studies (12 credit hours)

HIS 111 - Old Testament

(3) This course provides an introduction to the theological, historical, and literary features of the Old Testament, tracing God's covenant relationship with ancient Israel. Special consideration will be given to the divine covenants and Messianic prophecies of the Old Testament.

When Offered

Every spring semester.

Cross-listed BIB 111.

HUM 114 - New Testament

(3) This course provides an introduction to the theological, historical, and literary features of the New Testament, tracing the presentation of the gospel message through historical, epistolary, and apocalyptic genres. Special consideration will

be given to the life of Christ and missionary journeys of the Apostle Paul.

When Offered

Every fall semester.
Cross-listed BIB 114.

PHL 315 - World Religions and Systems of Belief

(3) This course introduces an academic study of religion and what is called worldview, supplemented by an overview of some of the major tenets of Christianity; this is then followed by a survey of several other religious traditions and competing philosophies.

Prerequisites: PHL 202, THE 201.

When Offered

Winter and spring semesters.

THE 201 - Introduction to Theology

(3) This course covers basic issues, themes, and categories of Christian theology, including the doctrines of Scripture, God, humanity, Christ, salvation, the church, and last things. This course encourages students to better know, trust, love, and live by God's Word.

Prerequisites: BIB 111, BIB 114.

When Offered

Fall, winter, spring, and summer semesters.

Communications (6 credit hours)

English Composition

Choose one course from the following:

ENG 102 - English Composition

(3) Effective use of the English language and exploration of rhetorical modes in written composition. Review of structure, purpose, and audience awareness in developing essays.

Prerequisites: ACT and/or SAT scores will be used to determine placement in either ENG 102 or ENG 102 (Basic).

Notes: Course must be completed first semester at CCU.

When Offered

Fall and spring semester.

ENG 105 - Advanced English Composition

(3) Advanced English composition, research methods, and literary study for invited exceptional students. Focus on both the study of literature and research writing.

Prerequisites: One of the following:

- AP English Language and Composition
 - A score of 4 is the minimum prerequisite for enrollment in ENG 105. A student who scores a 4 or 5 will automatically enroll a student in ENG 105 instead of ENG 102 and/or ENG 201.
- AP English Literature and Composition
 - A score of 4 is the minimum prerequisite for enrollment in ENG 105. A student who scores a 4 or 5 will automatically enroll a student in ENG 105 instead of ENG 102 and/or ENG 201.
- Score of 30 or above on the verbal section of the ACT exam.
- Score of 700 or above on the verbal section of the SAT exam.
- By invitation of the English department.

Notes: Fulfills general education requirements for both ENG 102 and ENG 201.

When Offered

Every fall semester.

Literature

Choose one course from the following:

ENG 201 - Introduction to Literature

(3) Understand, experience, and evaluate poetry, short fiction, essays, and drama genres, both American and multinational.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Fall and spring semesters.

ENG 202 - American Literature I

(3) Representative stories, poems, and documents in American literature from the Colonial era to the early Republic (1776-1830) through the Romantic-transcendentalist period (1830-1860). Includes readings from multiethnic and women writers.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every fall semester.

ENG 203 - American Literature II

(3) Representative stories, poems, and drama in American literature from the Civil War to the present. Nontraditional ethnic and women's voices included. Emphasis on interpretation and criticism of American literature.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every spring semester.

ENG 204 - British Literature I

(3) Surveys the history of literature in Britain until 1800 and representative works by influential writers of the periods contained therein.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every fall semester.

ENG 205 - British Literature II

(3) Surveys the history of literature in Britain from 1800 to the present and representative works by influential writers.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every spring semester.

Integrative Studies (3 credit hours)

INT 101 - First-Year Integration

(3) Think critically, grow spiritually, and change the world. Based on the premise that we as Christians are called to be rational creatures, relational creatures, and responsible creatures, FYI is an integrative study of foundational Christian principles with other disciplines. Examination and discussion of problems and contemporary issues - academic, personal, and social - facing students in their pursuit of success in college and life. Please see the First-Year Integration (FYI) page for specific information about this required course.

When Offered

Fall and spring semesters.

Mathematics (3 credit hours)

MAT 212 - Statistics and their Application

(3) An introduction to statistical analysis as used in various liberal arts disciplines. Descriptive and inferential statistics and attendant research designs will be considered. Students will become familiar with SPSS and its use in analyzing data and decision making.

Prerequisites: Sophomore standing.

When Offered

Fall and spring semesters.

Social Science (9 credit hours)

ECO 215 - Economics

(3) Economics is about scarcity and choice. Students in this course study how people, firms, governments, and nations interact in alternative economic systems to make choices about allocating scarce resources. In addition, students learn to evaluate these systems, understand macroeconomic monetary and fiscal policies, and engage in policy debates.

When Offered

Fall and spring semesters.

PSY 245 - Life-Span Psychology

(3) The pattern of human development shows certain goals and tasks that are almost universal across persons, yet each of us is differently shaped by our experiences and our genetics. In this course, we explore how much and in what ways people change and compare the various theories with a Christian understanding of the direction of development.

When Offered

Every fall semester.

HIS 205 - American History

(3) Principles of the founding and the political, economic, intellectual, cultural, and religious traditions that have shaped America.

When Offered

Every spring semester.

POL 207 - Introduction to American Politics

(3) Introduction to political science and American government to prepare students to be effective citizens.

When Offered

Every fall and spring semester.

Biological Sciences (21 credit hours)

BIO 201 - Human Anatomy and Physiology I

(3) Structure and function of the skeletal, muscular, and nervous systems.

Prerequisites: BIO 120 or BIO 209.

Corequisites: BIO 211 (Lab).

When Offered

Every fall and spring semester.

BIO 211 - Human Anatomy and Physiology I Lab

(1)

Corequisites: BIO 201.

Lab/Lecture Hours

Three-hour lab.

Fee

Lab fees apply.

When Offered

Every fall and spring semester.

BIO 202 - Human Anatomy and Physiology II

(3) Human respiratory, circulatory, digestive, excretory, endocrine, and reproductive systems.

Prerequisites: BIO 201.

Corequisites: BIO 212 (Lab).

When Offered

Every fall and spring semester.

BIO 212 - Human Anatomy and Physiology II Lab

(1)

Corequisites: BIO 202.

Lab/Lecture Hours

Three-hour lab.

Fee

Lab fees apply.

When Offered

Every fall and spring semester.

BIO 209 - Foundations in Genetics

(3) An introduction to heredity, the nature of genetic material, and the mechanisms of gene organization, control, and action.

When Offered

Every fall semester.

BIO 308 - Microbiology

(3) Microbiology is a survey of microorganisms including bacteria, fungi, parasites, and viruses. A taxonomic investigation of pathogenic microorganisms is a major focus of the course. Other topics include structure, nutrition, development, metabolism, genetics, control, drugs, infection, disease, immunity, and environmental microbiology.

Prerequisites: BIO 201, BIO 202.

Corequisites: BIO 318 (Lab)

When Offered

Every spring semester.

BIO 318 - Microbiology Lab

(1)

Corequisites: BIO 308.

Lab/Lecture Hours

Three-hour lab.

Fee

Lab fees apply.

When Offered

Every spring semester.

BIO 345 - Foundations in Pathophysiology

(3) Pathophysiology is a detailed investigation into the physiology of abnormal functions in humans due to diseased states. Fundamental concepts in cellular biology, genetics, and immunology will be initially established to create a foundation for the systematic investigation of abnormal functions according to organ systems.

Prerequisites: BIO 201, BIO 211, BIO 202 and BIO 212.

When Offered

Every fall semester.

CHM 111 - Nutrition

(3) Nutrients and their functions in the body. Nutrition and health, clinical applications of nutrition, and facts and fallacies of diet. Meets nutrition prerequisites for students planning to enter various advanced programs for health science-oriented professions.

When Offered

Every spring semester.

Nursing Major Core: BSN (60 credit hours)

NUR 309 - Transforming Care: Christian Perspectives

(3) This course examines nursing theory, research and practice from a biblical perspective. The historical and theological basis of the nursing profession is explored including worldview perspectives on persons, nursing and health. Baccalaureate Degree Essentials, professional role development, and issues and trends in healthcare are explored. Values, beliefs and professional "calling" are examined within a framework of reflective practice with a goal of empowering baccalaureate nurses to practice nursing as ministry.

Prerequisites: Nursing majors only.

When Offered

Every spring semester.

NUR 310 - Foundations of Professional Practice

(5) This theory, lab and clinical course focuses on the art, science and soul of nursing practice from a Biblical perspective emphasizing care across the life span. Students are socialized into professional roles, values, the nursing process, quality, and safety as foundational to practice. Relationship based care, clinical reasoning and care of the older adult are emphasized. Fundamental skills provide a foundation for more advanced study in professional practice.

Prerequisites: NUR 311; Nursing majors only.

When Offered

Every fall semester.

NUR 311 - Health Assessment

(3) This theory and lab course addresses assessment of the whole person from a Biblical worldview. Focus is on health histories, effective communication, systematic data gathering, and the physical assessment of adult and older adults. Concepts surrounding safety, risk assessment screening, spiritual assessment, cultural assessment, psychosocial assessment, ethical and legal parameters, and documentation via an electronic medical record are emphasized.

Prerequisites: Nursing majors only.

Fee

Course fees apply.

When Offered

Every fall semester.

NUR 314 - Pharmacology in Nursing

(3) This theory and laboratory course provides an introduction to the principles of pharmacodynamics, pharmacokinetics, and pharmacogenetics. Drug classifications, basic mechanisms of drug action and interactions, safe medication administration, and patient teaching are addressed. Lab content builds upon previous medication administration principles in Foundations of Professional Practice. Additional content focuses on venipuncture techniques, IV therapies, IV fluid tonicity, and IV site maintenance.

Prerequisites: NUR 310; Nursing majors only.

When Offered

Every fall semester.

NUR 315 - Adult Health Nursing I

(6) This theory, lab and clinical course focuses on the wholistic care of adult and older adult patients and their families with common health conditions. There is a focus on providing compassionate and spiritual care from a Biblical worldview while applying professional standards of practice. Students use the nursing process in patient situations with emphasis on safe, evidence-based practice to promote high quality and culturally sensitive healthcare.

Prerequisites: NUR 310; Nursing majors only.

When Offered

Every fall semester.

NUR 324 - Caring for Children and Families

(6) This theory, lab and clinical course focuses on nursing care of children and their families. Family dynamics, developmental stages, health assessment, effective communication, health promotion, risk reduction, safety medication administration and disease management specific to children are emphasized. Professional standards, ethical and legal parameters, and the use of information technology are priorities in safe family-centered care. A Biblical worldview of traditional family values is discussed.

Prerequisites: NUR 315; Nursing majors only.

When Offered

Every fall and spring semester.

NUR 325 - Maternal Newborn Nursing

(6) This theory, lab and clinical course focuses on the professional nursing care of the childbearing family throughout the perinatal experience. Maternal newborn nursing, family dynamics, and women's health issues are emphasized. Focus is on interprofessional communication, patient teaching, safety and clinical reasoning to promote family-centered care. Professional standards, ethical and legal parameters, and quality outcome measures are priorities. A Biblical worldview of the sanctity of life is discussed.

Prerequisites: NUR 315; Nursing majors only.

When Offered

Every fall and spring semester.

NUR 326 - Mental Health Nursing

(6) This theory, lab and clinical course focuses on the therapeutic use of self by the nurse using a Biblical framework in caring for patients with acute and chronic mental illness. Emphasis is on the interpersonal process in promoting wholistic care focusing on bio-psychosocial-spiritual-cultural integrity of individuals, families, and groups throughout the lifespan. Professional standards, ethical and legal parameters, safety and quality outcome measures are priorities.

Prerequisites: NUR 314; Nursing majors only.

When Offered

Every fall and spring semester.

NUR 415 - Adult Health Nursing II

(6) This theory, lab, and clinical course builds on knowledge gained in Adult Health Nursing I to care for adults and older adults with complex health conditions. Evidence-based practice provides the foundation for clinical decision making as students provide safe and high quality nursing care to complex patients. Interprofessional communication/collaboration, healthcare informatics, patient technology, and ethical and legal issues are emphasized.

Prerequisites: NUR 315; Nursing majors only.

When Offered

Every spring semester.

NUR 456 - Evidence Based Practice in Nursing

(3) This theory course provides an understanding of the basic elements of the research process and models for applying evidence to clinical practice. Identification of practice issues, appraisal and integration of evidence and evaluation of outcomes are emphasized. Students critique both qualitative and quantitative research.

Prerequisites: MAT 212; Nursing majors only.

When Offered

Every fall semester.

NUR 472 - Population Health and Health Promotion

(6) This theory and clinical course provides an overview of community based care and community oriented nursing. Knowledge will be acquired in the areas of health promotion, disease prevention, epidemiology, environmental health, emergency/disaster preparedness, health policy, and the care of vulnerable populations. Levels of prevention, risk factors, and major determinants of health are explored from a Biblical perspective. Health agencies, policy, global health issues, and mass casualty disasters are included. Health care coordination, quality, and access are emphasized. Skills will be acquired in the areas of community assessment, program planning, implementation, and evaluation of population based interventions. A practicum experience in a population focused setting is required.

Prerequisites: NUR 315; Nursing majors only.

When Offered

Every fall and spring semester.

NUR 481 - Christian Leadership in Nursing

(3) This course explores leadership and management in professional nursing practice. Quality improvement concepts, financial and regulatory management, and system processes and outcome measures are examined in relation to patient safety principles and standards. Biblical servant leadership principles serve as a framework for organizational,

professional and personal leadership analysis.

Prerequisites: NUR 315; Nursing majors only.

When Offered

Every spring semester.

NUR 482 - Capstone Integration: Caring in Practice

(4) This course focuses on integration of the knowledge and competencies needed for transition to the professional baccalaureate nursing role. Compassionate care, character and calling are emphasized and guided by a biblical world view. Clinical experience provides opportunities to synthesize theory, research, and practice, and to collaborate in interprofessional teams and engage in self-evaluation.

Prerequisites: All BSN course completion is required prior to enrollment. Nursing majors only.

Fee

Course fees apply.

When Offered

Every spring semester.

Professional Licensure Disclosure

Colorado Christian University offers several academic programs which lead to professional licensure in the state of Colorado and, in some programs, prepare students for a national exam. All students should be aware that states vary in their educational and professional requirements depending on the profession. Some states require specific educational requirements, clinical requirements, accreditation requirements, or exam requirements. See professional licensure disclosures for details.

Graduation Requirements for the Bachelor of Science Degree in Nursing

The faculty recommends students in the B.S. in Nursing to the Board of Trustees as candidates for graduation when they have completed the following requirements.

1. Completion of 120 credit hours of courses, including all general education, biological sciences, and Nursing major core courses.
2. A grade of C or better in all CCU courses and a cumulative GPA of 3.0 or higher.
3. Completion of 90 hours of ministry/community service and 90 chapel credits. For further details on ministry/community service, see the Life Directions Center (LDC) section of this catalog. For further details on chapel credits, see the Student Life section of this catalog.
4. Meet the CUS residency requirements.
5. Acceptable performance on exit exams, as required by the faculty.
6. Formal and timely application for graduation by the date specified by the University Registrar.
7. No outstanding financial obligation to the University.

School of Science and Engineering

Colorado Christian University's School of Science and Engineering seeks to educate and equip thoughtful, caring, and ethical scientists, health care professionals, and engineers. We will provide students with a purposeful and practical education that prepares them for some of the most in-demand careers in today's society. Faculty in this school will help students uncover the common ground where science and faith integrate. Students will be challenged to think critically as they become equipped with the tools to pioneer new medical and engineering discoveries, partake in groundbreaking research, and provide care for those in need. Colorado Christian University views science and engineering as a way to know the creativity, ingenuity, and vastness of God's Creation and Personhood in a deeper way. Programs in the school will invite students to enter into the world of science, mathematics, and engineering as they learn how to integrate their personal faith into their lives as future scientists, doctors, engineers, and researchers. The School of Science and Engineering at Colorado Christian University is a top choice for those who want to make faith a priority in their fields, all while maintaining the technical and medical excellence required for their future careers.

The programs in this school will be largely delivered through in-seat and laboratory instruction. Some math courses will be offered online, or in a hybrid format, but the School's desire is to make most courses in-seat allowing students to have active engagement in the learning process, social interactions, and hands-on learning experiences. Technology will be used heavily in several courses, as the medical and engineering fields use highly specified technology and we need to prepare students to interact with technology common to the field. Our goal is to prepare students to not only succeed, but also excel.

Associate Degrees

Associate of Science in Pre-Engineering

The Associate of Science in Pre-Engineering provides a foundation in the CCU distinctives, combined with a solid foundation in science, engineering, and mathematics, to prepare students to complete a degree in mechanical, electrical, or another engineering discipline at a second institution during their junior and senior years. Students select one of two CCU distinctives emphases: Biblical Studies or Liberal Arts.

The Associate of Science in Pre-Engineering degree in the College of Undergraduate Studies requires completion of the following 60 credits:

CCU Distinctives Emphasis (21 credit hours)

Pre-Engineering Core (37 credit hours)

Electives (2 credit hours)

CCU Distinctives Emphasis Core (21 credit hours)

Choose one of the following two CCU distinctive emphases:

- Biblical Studies
- Liberal Arts

Biblical Studies Emphasis (21 credit hours)

Biblical Studies Required Core (12 credit hours)

BIB 111 - Old Testament

(3) This course provides an introduction to the theological, historical, and literary features of the Old Testament, tracing God's covenant relationship with ancient Israel. Special consideration will be given to the divine covenants and Messianic prophecies of the Old Testament.

When Offered

Every spring semester.

Cross-listed HIS 111

HIS 111 - Old Testament

(3) This course provides an introduction to the theological, historical, and literary features of the Old Testament, tracing God's covenant relationship with ancient Israel. Special consideration will be given to the divine covenants and Messianic prophecies of the Old Testament.

When Offered

Every spring semester.

Cross-listed BIB 111.

BIB 114 - New Testament

(3) This course provides an introduction to the theological, historical, and literary features of the New Testament, tracing the presentation of the gospel message through historical, epistolary, and apocalyptic genres. Special consideration will be given to the life of Christ and missionary journeys of the Apostle Paul.

When Offered

Every fall semester.

Cross-listed HUM 114

HUM 114 - New Testament

(3) This course provides an introduction to the theological, historical, and literary features of the New Testament, tracing the presentation of the gospel message through historical, epistolary, and apocalyptic genres. Special consideration will be given to the life of Christ and missionary journeys of the Apostle Paul.

When Offered

Every fall semester.

Cross-listed BIB 114.

PHL 202 - Introduction to Philosophy

(3) This course is a survey of many major issues raised over the two-and-a-half millennia of western philosophy. With an emphasis on historical context and development, as well as philosophy's relationship to Christian thought, this course

challenges students to critically explore philosophical questions and introduce them to the great tradition of intellectual inquiry. Special attention will be given to the subjects of truth and knowledge, reality and appearance, mind and body, right and wrong, beauty and the existence of God.

When Offered

Fall and summer semesters.

THE 201 - Introduction to Theology

(3) This course covers basic issues, themes, and categories of Christian theology, including the doctrines of Scripture, God, humanity, Christ, salvation, the church, and last things. This course encourages students to better know, trust, love, and live by God's Word.

Prerequisites: BIB 111, BIB 114.

When Offered

Fall, winter, spring, and summer semesters.

Biblical Studies Elective Core (9 credit hours)

Choose 9 credit hours from the selection below:

COM 103 - Public Speaking

(3) Introductory principles of communication emphasizing public speaking. Aspects of verbal and nonverbal delivery, speech organization, and the effective use of supporting material and presentational aids are addressed. Students give several speeches designed to better equip them for future speaking endeavors

When Offered

Fall and spring semesters.

COM 210 - Interpersonal Communication

(3) Offers an examination of relational development, conflict management, self-concept, self-disclosure, and attraction within the context of one-on-one communication.

When Offered

Every spring semester.

ECO 215 - Economics

(3) Economics is about scarcity and choice. Students in this course study how people, firms, governments, and nations interact in alternative economic systems to make choices about allocating scarce resources. In addition, students learn to evaluate these systems, understand macroeconomic monetary and fiscal policies, and engage in policy debates.

When Offered

Fall and spring semesters.

ENG 102 - English Composition

(3) Effective use of the English language and exploration of rhetorical modes in written composition. Review of structure, purpose, and audience awareness in developing essays.

Prerequisites: ACT and/or SAT scores will be used to determine placement in either ENG 102 or ENG 102 (Basic).

Notes: Course must be completed first semester at CCU.

When Offered

Fall and spring semester.

ENG 105 - Advanced English Composition

(3) Advanced English composition, research methods, and literary study for invited exceptional students. Focus on both the study of literature and research writing.

Prerequisites: One of the following:

- AP English Language and Composition
 - A score of 4 is the minimum prerequisite for enrollment in ENG 105. A student who scores a 4 or 5 will automatically enroll a student in ENG 105 instead of ENG 102 and/or ENG 201.
- AP English Literature and Composition

- A score of 4 is the minimum prerequisite for enrollment in ENG 105. A student who scores a 4 or 5 will automatically enroll a student in ENG 105 instead of ENG 102 and/or ENG 201.
- Score of 30 or above on the verbal section of the ACT exam.
- Score of 700 or above on the verbal section of the SAT exam.
- By invitation of the English department.

Notes: Fulfills general education requirements for both ENG 102 and ENG 201.

When Offered

Every fall semester.

ENG 201 - Introduction to Literature

(3) Understand, experience, and evaluate poetry, short fiction, essays, and drama genres, both American and multinational.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Fall and spring semesters.

ENG 202 - American Literature I

(3) Representative stories, poems, and documents in American literature from the Colonial era to the early Republic (1776-1830) through the Romantic-transcendentalist period (1830-1860). Includes readings from multiethnic and women writers.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every fall semester.

ENG 203 - American Literature II

(3) Representative stories, poems, and drama in American literature from the Civil War to the present. Nontraditional ethnic and women's voices included. Emphasis on interpretation and criticism of American literature.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every spring semester.

ENG 204 - British Literature I

(3) Surveys the history of literature in Britain until 1800 and representative works by influential writers of the periods contained therein.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every fall semester.

ENG 205 - British Literature II

(3) Surveys the history of literature in Britain from 1800 to the present and representative works by influential writers.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every spring semester.

HIS 185 - Western Civilization

(3) The spiritual values and intellectual achievements of ancient Israel, Greece, Rome, the Middle Ages, the Renaissance, and Reformation that gave birth to the modern world.

When Offered

Every fall semester.

HIS 205 - American History

(3) Principles of the founding and the political, economic, intellectual, cultural, and religious traditions that have shaped America.

When Offered

Every spring semester.

PHL 315 - World Religions and Systems of Belief

(3) This course introduces an academic study of religion and what is called worldview, supplemented by an overview of some of the major tenets of Christianity; this is then followed by a survey of several other religious traditions and competing philosophies.

Prerequisites: PHL 202, THE 201.

When Offered

Winter and spring semesters.

POL 207 - Introduction to American Politics

(3) Introduction to political science and American government to prepare students to be effective citizens.

When Offered

Every fall and spring semester.

Liberal Arts Emphasis (21 credit hours)**Liberal Arts Required Core (12 credit hours)****HIS 111 - Old Testament**

(3) This course provides an introduction to the theological, historical, and literary features of the Old Testament, tracing God's covenant relationship with ancient Israel. Special consideration will be given to the divine covenants and Messianic prophecies of the Old Testament.

When Offered

Every spring semester.

Cross-listed BIB 111.

HUM 114 - New Testament

(3) This course provides an introduction to the theological, historical, and literary features of the New Testament, tracing the presentation of the gospel message through historical, epistolary, and apocalyptic genres. Special consideration will be given to the life of Christ and missionary journeys of the Apostle Paul.

When Offered

Every fall semester.

Cross-listed BIB 114.

HUM 120 - Introduction to the Arts

(3) Introduction to our humanity through hands-on experience in the arts (music, visual arts, poetry, story, play, and dance). Aesthetic and artistic values in the broader context of human cultural development, responsibility, and joy.

Notes: This course satisfies the general education fine arts requirement for most students, and is the required fine arts course for education majors. It is recommended for all students with a general interest in the fine arts. Students with a special interest in theatre should see THR 112. Students with a special interest in music should see MUS 110.

Note: HUM 120 does not satisfy the fine arts requirement for music majors or minors.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

MUS 110 - Musical Perspectives

(3) An exploration of music in the broader context of culture and the arts; personal musical experiences through listening and doing; and developing the ability to discern aesthetic excellence. Included is an introduction to the elements of music and how music works, the development of a Christian perspective on the arts, a broad survey of representative selections of Western music, and a focused overview of non-western/world music.

Notes: This course satisfies the general education fine arts requirement for most students. It is recommended for all students, especially those with an interest in music, and is the required fine arts course for all music majors and minors. Students with a special interest in Theatre should see THR 112.

Note: MUS 110 does not satisfy the fine arts requirement for education majors.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

THR 112 - Theatre Appreciation

(3) An introduction to the theatre world and all its aspects: the people who are active in that world, the many kinds of work that are created, the sensations and ideas we receive from those works, and the ways the life of theatre has transmitted across many times and place.

Notes: This course satisfies the general education fine arts requirement for most students. It is recommended for all students, especially those with an interest in theatre. Students with a special interest in music should see MUS 110.

Note: THR 112 does not satisfy the fine arts requirement for music majors or minors, or education majors.

When Offered

Fall and spring semesters.

ENG 201 - Introduction to Literature

(3) Understand, experience, and evaluate poetry, short fiction, essays, and drama genres, both American and multinational.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Fall and spring semesters.

ENG 202 - American Literature I

(3) Representative stories, poems, and documents in American literature from the Colonial era to the early Republic (1776-1830) through the Romantic-transcendentalist period (1830-1860). Includes readings from multiethnic and women writers.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every fall semester.

ENG 203 - American Literature II

(3) Representative stories, poems, and drama in American literature from the Civil War to the present. Nontraditional ethnic and women's voices included. Emphasis on interpretation and criticism of American literature.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every spring semester.

ENG 204 - British Literature I

(3) Surveys the history of literature in Britain until 1800 and representative works by influential writers of the periods contained therein.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every fall semester.

ENG 205 - British Literature II

(3) Surveys the history of literature in Britain from 1800 to the present and representative works by influential writers.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every spring semester.

Liberal Arts Elective Core (9 credit hours)

Choose 9 credit hours from the selection below:

ENG 102 - English Composition

(3) Effective use of the English language and exploration of rhetorical modes in written composition. Review of structure, purpose, and audience awareness in developing essays.

Prerequisites: ACT and/or SAT scores will be used to determine placement in either ENG 102 or ENG 102 (Basic).

Notes: Course must be completed first semester at CCU.

When Offered

Fall and spring semester.

ENG 105 - Advanced English Composition

(3) Advanced English composition, research methods, and literary study for invited exceptional students. Focus on both the study of literature and research writing.

Prerequisites: One of the following:

- AP English Language and Composition
 - A score of 4 is the minimum prerequisite for enrollment in ENG 105. A student who scores a 4 or 5 will automatically enroll a student in ENG 105 instead of ENG 102 and/or ENG 201.
- AP English Literature and Composition
 - A score of 4 is the minimum prerequisite for enrollment in ENG 105. A student who scores a 4 or 5 will automatically enroll a student in ENG 105 instead of ENG 102 and/or ENG 201.
- Score of 30 or above on the verbal section of the ACT exam.
- Score of 700 or above on the verbal section of the SAT exam.
- By invitation of the English department.

Notes: Fulfills general education requirements for both ENG 102 and ENG 201.

When Offered

Every fall semester.

COM 103 - Public Speaking

(3) Introductory principles of communication emphasizing public speaking. Aspects of verbal and nonverbal delivery, speech organization, and the effective use of supporting material and presentational aids are addressed. Students give several speeches designed to better equip them for future speaking endeavors

When Offered

Fall and spring semesters.

COM 210 - Interpersonal Communication

(3) Offers an examination of relational development, conflict management, self-concept, self-disclosure, and attraction within the context of one-on-one communication.

When Offered

Every spring semester.

ECO 215 - Economics

(3) Economics is about scarcity and choice. Students in this course study how people, firms, governments, and nations interact in alternative economic systems to make choices about allocating scarce resources. In addition, students learn to evaluate these systems, understand macroeconomic monetary and fiscal policies, and engage in policy debates.

When Offered

Fall and spring semesters.

HIS 185 - Western Civilization

(3) The spiritual values and intellectual achievements of ancient Israel, Greece, Rome, the Middle Ages, the Renaissance, and Reformation that gave birth to the modern world.

When Offered

Every fall semester.

HIS 205 - American History

(3) Principles of the founding and the political, economic, intellectual, cultural, and religious traditions that have shaped America.

When Offered

Every spring semester.

PHL 202 - Introduction to Philosophy

(3) This course is a survey of many major issues raised over the two-and-a-half millennia of western philosophy. With an emphasis on historical context and development, as well as philosophy's relationship to Christian thought, this course challenges students to critically explore philosophical questions and introduce them to the great tradition of intellectual inquiry. Special attention will be given to the subjects of truth and knowledge, reality and appearance, mind and body, right and wrong, beauty and the existence of God.

When Offered

Fall and summer semesters.

POL 207 - Introduction to American Politics

(3) Introduction to political science and American government to prepare students to be effective citizens.

When Offered

Every fall and spring semester.

Pre-Engineering Core (37 credit hours)**Engineering (7 credit hours)****EGI 101 - Introduction for Engineering**

(4) Introduction to the field of engineering along with review of essential mathematics topics in applied contexts.

Prerequisites: Acceptance into the A.S. Pre-Engineering or B.S. Industrial Engineering program.

When Offered

Every fall semester.

EGI 201 - Computer Aided Design and Engineering Applications

(3) Use of computer systems to aid in creation, modification, analysis and optimization of design. Draw mechanical parts, architectural plans, and engineering diagrams. 2D drawings, simple 3D objects.

Prerequisites: Acceptance into the A.S. Pre-Engineering or B.S. Industrial Engineering program.

Fee

Course fees apply.

When Offered

Every spring semester.

Mathematics (12 credit hours)**MAT 141 - Calculus I**

(4) First semester single-variable calculus and analytic geometry: Limits, continuity, differentiation and its applications, Fundamental Theorem of Calculus, basic integration techniques.

Prerequisites: MAT 115 or high school pre-calculus completed with a grade of B- or better, or instructor permission.

Corequisites: MAT 142.

When Offered

Fall, spring and summer semesters.

MAT 142 - Calculus I Recitation

(0) Co-requisite for MAT 141.

Prerequisites: MAT 115 or high school pre-calculus completed with a grade of B- or better, or instructor permission.

Corequisites: MAT 141.

When Offered

Fall, spring and summer semesters.

MAT 241 - Calculus II

(4) Second semester single-variable calculus and analytic geometry: Advanced techniques of integration, polar equations, parametric equations, introduction to differential equations, infinite sequences and series, convergence, power series, and Taylor polynomials. Limits, continuity, derivatives, applications of the derivative, integrals, applications of integrals, techniques of integration, infinite sequences and series including Taylor's series.

Prerequisites: MAT 141, MAT 142 with a grade of B- or better, or AP Calculus AB with a score of 4 or 5, or instructor permission.

Corequisites: MAT 242.

When Offered

Every spring semester.

MAT 242 - Calculus II Recitation

(0) Recitation section to accompany MAT 241.

Prerequisites: MAT 141, MAT 142 with a grade of B- or better, or AP Calculus AB with a score of 4 or 5, or instructor permission.

Corequisites: MAT 241.

When Offered

Every spring semester.

MAT 341 - Calculus III

(4) Multi-dimensional calculus, study of functions of several variables, partial derivatives, and optimization problems in multi-dimensional spaces. Vectors, vector-valued functions, parametric curves and three dimensional surfaces.

Prerequisites: MAT 241, MAT 242 with a grade of C- or better; or instructor approval.

Corequisites: MAT 342.

When Offered

Every fall semester.

MAT 342 - Calculus III Recitation

(0) Recitation section to accompany MAT 341 .

Prerequisites: MAT 241, MAT 242 with a grade of C- or better; or instructor approval.

Corequisites: MAT 341.

When Offered

Every fall semester.

Science (18 credit hours)

CHM 161 - Chemistry for Engineers

(4) General chemistry requirement for engineering students. Stoichiometry; thermodynamics; gases, liquids, and solids; equilibrium; acids and bases; bonding concepts; kinetics; reactions; and materials science.

Prerequisites: Acceptance into the A.S. Pre-Engineering or B.S. Industrial Engineering program, or instructor permission.

Corequisites: CHM 171, CHM 181.

When Offered

Every spring semester.

CHM 171 - Chemistry for Engineers Laboratory

(1) Laboratory studies to accompany CHM 161 Chemistry for Engineers.

Prerequisites: Acceptance into the A.S. Pre-Engineering or B.S. Industrial Engineering program, or instructor permission.

Corequisites: CHM 161, CHM 181.

Lab/Lecture Hours

Lab course.

Fee

Lab fees apply.

When Offered

Every spring semester.

CHM 181 - Chemistry for Engineers Recitation

(0) Recitation section to accompany CHM 161 Chemistry for Engineers.

Prerequisites: Acceptance into the A.S. Pre-Engineering or B.S. Industrial Engineering program, or instructor permission.

Corequisites: CHM 161, CHM 171.

When Offered

Every spring semester.

CIS 130 - Programming Foundations I

(3) Programming teaches people logical thought progression. In this course students learn how to organize a problem into a series of steps and then write code in Python for a computer to implement the steps. Some of the modern software programming principles studied include object-oriented design, decomposition, encapsulation, abstraction, prototyping, testing, and the implementation of event-driven logic to solve real-world problems.

When Offered

Every fall semester.

PHY 250 - Physics I Calculus-Based

(4) First semester physics for engineering students. Kinematics, dynamics, momenta, work and energy, gravitation, simple harmonic motion, and basic thermodynamics.

Prerequisites: MAT 241.

Corequisites: PHY 251, PHY 252.

When Offered

Every fall semester.

PHY 251 - Physics I Calculus-Based Recitation

(0) Recitation section to accompany PHY 250 Physics I.

Corequisites: PHY 250, PHY 252.

When Offered

Every fall semester.

PHY 252 - Physics I Calculus-Based Laboratory

(1) Laboratory section to accompany PHY 250 Physics I.

Corequisites: PHY 250, PHY 251.

Lab/Lecture Hours

Lab course.

Fee

Lab fees apply.

When Offered

Every fall semester.

PHY 350 - Physics II Calculus-Based

(4) Second semester calculus-based physics: Electricity and magnetism, wave motion, optics.

Prerequisites: PHY 250, PHY 251, PHY 252.

Corequisites: PHY 351, PHY 352.

When Offered

Every spring semester.

PHY 351 - Physics II Calculus-Based Recitation

(0) Recitation section to accompany PHY 350 Physics II.

Corequisites: PHY 350, PHY 352.

When Offered

Every spring semester.

PHY 352 - Physics II Calculus-Based Laboratory

(1) Laboratory section to accompany PHY 350 Physics I.

Corequisites: PHY 350, PHY 351.

Lab/Lecture Hours

Lab course.

Fee

Lab fees apply.

When Offered

Every spring semester.

Graduation Requirements for the Associate of Science in Pre-Engineering

The faculty recommends students in the Associate of Science in Pre-Engineering to the Board of Trustees as candidates for graduation when they have completed the following requirements.

1. Completion of at least 60 semester hours of courses, including CCU distinctives emphasis and pre-engineering core requirements.
2. A cumulative GPA of 2.0 or higher, and a letter grade of D or better on all CCU classes.
3. Completion of 45 hours of ministry/community service and 45 chapel credits for each year of attendance at CCU. For further details on ministry/community service, see the Life Directions Center (LDC) section of this catalog. For further details on chapel credits, see the Campus Ministry section of this catalog.
4. Meet the CCU Residency requirements.
5. Formal and timely application for graduation.
6. No outstanding financial obligations to the university.

Bachelor's Degrees

Biology Major

Students interested in the biological sciences who desire to pursue professional or graduate work in those disciplines need a broad background in biology. This degree prepares students for work within the biological sciences at the bachelor's level. It also fulfills the requirements of most graduate programs leading to a master's degree or doctorate.

There can be no double major within the Biological Science Majors, i.e., you may not declare a double major with Health Sciences and Biology or with Biology and Pre-Medical Profession or with Health Sciences and Pre-Medical Profession.

The Bachelor of Science in Biology requires completion of the following 120 credits:

General Education Core (45 credit hours)

Biology Core (49 credit hours)

Electives (26 credit hours)

General Education Requirements (45 credit hours)

Arts and Humanities (9 credit hours)

Take one course from each of the following three academic disciplines:

Fine Arts (3 credit hours)

Choose one course from the following:

HUM 120 - Introduction to the Arts

(3) Introduction to our humanity through hands-on experience in the arts (music, visual arts, poetry, story, play, and dance). Aesthetic and artistic values in the broader context of human cultural development, responsibility, and joy.

Notes: This course satisfies the general education fine arts requirement for most students, and is the required fine arts

course for education majors. It is recommended for all students with a general interest in the fine arts. Students with a special interest in theatre should see THR 112. Students with a special interest in music should see MUS 110.

Note: HUM 120 does not satisfy the fine arts requirement for music majors or minors.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

MUS 110 - Musical Perspectives

(3) An exploration of music in the broader context of culture and the arts; personal musical experiences through listening and doing; and developing the ability to discern aesthetic excellence. Included is an introduction to the elements of music and how music works, the development of a Christian perspective on the arts, a broad survey of representative selections of Western music, and a focused overview of non-western/world music.

Notes: This course satisfies the general education fine arts requirement for most students. It is recommended for all students, especially those with an interest in music, and is the required fine arts course for all music majors and minors. Students with a special interest in Theatre should see THR 112.

Note: MUS 110 does not satisfy the fine arts requirement for education majors.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

THR 112 - Theatre Appreciation

(3) An introduction to the theatre world and all its aspects: the people who are active in that world, the many kinds of work that are created, the sensations and ideas we receive from those works, and the ways the life of theatre has transmitted across many times and place.

Notes: This course satisfies the general education fine arts requirement for most students. It is recommended for all students, especially those with an interest in theatre. Students with a special interest in music should see MUS 110.

Note: THR 112 does not satisfy the fine arts requirement for music majors or minors, or education majors.

When Offered

Fall and spring semesters.

Literature (3 credit hours)

Choose one course from the following:

ENG 201 - Introduction to Literature

(3) Understand, experience, and evaluate poetry, short fiction, essays, and drama genres, both American and multinational.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Fall and spring semesters.

ENG 202 - American Literature I

(3) Representative stories, poems, and documents in American literature from the Colonial era to the early Republic (1776-1830) through the Romantic-transcendentalist period (1830-1860). Includes readings from multiethnic and women writers.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every fall semester.

ENG 203 - American Literature II

(3) Representative stories, poems, and drama in American literature from the Civil War to the present. Nontraditional ethnic and women's voices included. Emphasis on interpretation and criticism of American literature.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every spring semester.

ENG 204 - British Literature I

(3) Surveys the history of literature in Britain until 1800 and representative works by influential writers of the periods contained therein.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every fall semester.

ENG 205 - British Literature II

(3) Surveys the history of literature in Britain from 1800 to the present and representative works by influential writers.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every spring semester.

Philosophy (3 credit hours)

PHL 202 - Introduction to Philosophy

(3) This course is a survey of many major issues raised over the two-and-a-half millennia of western philosophy. With an emphasis on historical context and development, as well as philosophy's relationship to Christian thought, this course challenges students to critically explore philosophical questions and introduce them to the great tradition of intellectual inquiry. Special attention will be given to the subjects of truth and knowledge, reality and appearance, mind and body, right and wrong, beauty and the existence of God.

When Offered

Fall and summer semesters.

Biblical Studies (12 credit hours)

Take the following four courses (some courses are cross-listed and only one prefix needs to be taken):

BIB 111 - Old Testament

(3) This course provides an introduction to the theological, historical, and literary features of the Old Testament, tracing God's covenant relationship with ancient Israel. Special consideration will be given to the divine covenants and Messianic prophecies of the Old Testament.

When Offered

Every spring semester.

Cross-listed HIS 111

HIS 111 - Old Testament

(3) This course provides an introduction to the theological, historical, and literary features of the Old Testament, tracing God's covenant relationship with ancient Israel. Special consideration will be given to the divine covenants and Messianic prophecies of the Old Testament.

When Offered

Every spring semester.

Cross-listed BIB 111.

BIB 114 - New Testament

(3) This course provides an introduction to the theological, historical, and literary features of the New Testament, tracing the presentation of the gospel message through historical, epistolary, and apocalyptic genres. Special consideration will be given to the life of Christ and missionary journeys of the Apostle Paul.

When Offered

Every fall semester.

Cross-listed HUM 114

HUM 114 - New Testament

(3) This course provides an introduction to the theological, historical, and literary features of the New Testament, tracing the presentation of the gospel message through historical, epistolary, and apocalyptic genres. Special consideration will

be given to the life of Christ and missionary journeys of the Apostle Paul.

When Offered

Every fall semester.
Cross-listed BIB 114.

PHL 315 - World Religions and Systems of Belief

(3) This course introduces an academic study of religion and what is called worldview, supplemented by an overview of some of the major tenets of Christianity; this is then followed by a survey of several other religious traditions and competing philosophies.

Prerequisites: PHL 202, THE 201.

When Offered

Winter and spring semesters.

THE 201 - Introduction to Theology

(3) This course covers basic issues, themes, and categories of Christian theology, including the doctrines of Scripture, God, humanity, Christ, salvation, the church, and last things. This course encourages students to better know, trust, love, and live by God's Word.

Prerequisites: BIB 111, BIB 114.

When Offered

Fall, winter, spring, and summer semesters.

Communication (6 credit hours)

COM 103 - Public Speaking

(3) Introductory principles of communication emphasizing public speaking. Aspects of verbal and nonverbal delivery, speech organization, and the effective use of supporting material and presentational aids are addressed. Students give several speeches designed to better equip them for future speaking endeavors

When Offered

Fall and spring semesters.

ENG 102 - English Composition

(3) Effective use of the English language and exploration of rhetorical modes in written composition. Review of structure, purpose, and audience awareness in developing essays.

Prerequisites: ACT and/or SAT scores will be used to determine placement in either ENG 102 or ENG 102 (Basic).

Notes: Course must be completed first semester at CCU.

When Offered

Fall and spring semester.

ENG 105 - Advanced English Composition

(3) Advanced English composition, research methods, and literary study for invited exceptional students. Focus on both the study of literature and research writing.

Prerequisites: One of the following:

- AP English Language and Composition
 - A score of 4 is the minimum prerequisite for enrollment in ENG 105. A student who scores a 4 or 5 will automatically enroll a student in ENG 105 instead of ENG 102 and/or ENG 201.
- AP English Literature and Composition
 - A score of 4 is the minimum prerequisite for enrollment in ENG 105. A student who scores a 4 or 5 will automatically enroll a student in ENG 105 instead of ENG 102 and/or ENG 201.
- Score of 30 or above on the verbal section of the ACT exam.
- Score of 700 or above on the verbal section of the SAT exam.
- By invitation of the English department.

Notes: Fulfills general education requirements for both ENG 102 and ENG 201.

When Offered

Every fall semester.

Integrative Studies (3 credit hours)

* Please see the First-Year Integration (FYI) page for specific information about this required course.

INT 101 - First-Year Integration

(3) Think critically, grow spiritually, and change the world. Based on the premise that we as Christians are called to be rational creatures, relational creatures, and responsible creatures, FYI is an integrative study of foundational Christian principles with other disciplines. Examination and discussion of problems and contemporary issues - academic, personal, and social - facing students in their pursuit of success in college and life. Please see the First-Year Integration (FYI) page for specific information about this required course.

When Offered

Fall and spring semesters.

Mathematics (3 credit hours)

MAT 111 - College Algebra

(3) Study of equations, inequalities, functions, graphs, exponents, logarithms.

Prerequisites: SAT mathematics score of 520 or an ACT mathematics score of 20. OR a B- or better in high school algebra II. Meets general education requirements for mathematics for health science majors.

When Offered

Fall, spring and summer semesters.

Social Sciences (12 credit hours)

Take each of the following four courses:

HIS 185 - Western Civilization

(3) The spiritual values and intellectual achievements of ancient Israel, Greece, Rome, the Middle Ages, the Renaissance, and Reformation that gave birth to the modern world.

When Offered

Every fall semester.

HIS 205 - American History

(3) Principles of the founding and the political, economic, intellectual, cultural, and religious traditions that have shaped America.

When Offered

Every spring semester.

POL 207 - Introduction to American Politics

(3) Introduction to political science and American government to prepare students to be effective citizens.

When Offered

Every fall and spring semester.

ECO 215 - Economics

(3) Economics is about scarcity and choice. Students in this course study how people, firms, governments, and nations interact in alternative economic systems to make choices about allocating scarce resources. In addition, students learn to evaluate these systems, understand macroeconomic monetary and fiscal policies, and engage in policy debates.

When Offered

Fall and spring semesters.

Biology Major Core (49 credit hours)

BIO 120 - Biological Principles

(3) Life processes common to plants and animals, cell structure and function. Introduction to genetics, biochemistry, and development.

Prerequisites: For Biological and General Sciences majors only.
Corequisites: BIO 121.

When Offered

Every fall semester.

BIO 121 - Biological Principles Lab

(1) Corequisite Lab for BIO 120 Biological Principles.

Corequisites: BIO 120.

Lab/Lecture Hours

Three-hour lab.

Fee

Course fees apply.

When Offered

Every fall semester.

BIO 130 - Biological Diversity

(3) Continuation of BIO 120 Biological Principles. Introduction to human physiology, animal and plant kingdom, plant structure and function, ecology, and creation and evolution.

Prerequisites: For Biological and General Sciences majors only.
Corequisites: BIO 131.

When Offered

Every spring semester.

BIO 131 - Biological Diversity Lab

(1) Co-requisite lab for BIO 130 Biological Diversity.

Corequisites: BIO 130.

Lab/Lecture Hours

3-hour lab.

Fee

Course fees apply.

When Offered

Every spring semester.

BIO 201 - Human Anatomy and Physiology I

(3) Structure and function of the skeletal, muscular, and nervous systems.

Prerequisites: BIO 120 or BIO 209.
Corequisites: BIO 211 (Lab).

When Offered

Every fall and spring semester.

BIO 211 - Human Anatomy and Physiology I Lab

(1)

Corequisites: BIO 201.

Lab/Lecture Hours

Three-hour lab.

Fee

Lab fees apply.

When Offered

Every fall and spring semester.

BIO 202 - Human Anatomy and Physiology II

(3) Human respiratory, circulatory, digestive, excretory, endocrine, and reproductive systems.

Prerequisites: BIO 201.

Corequisites: BIO 212 (Lab).

When Offered

Every fall and spring semester.

BIO 212 - Human Anatomy and Physiology II Lab

(1)

Corequisites: BIO 202.

Lab/Lecture Hours

Three-hour lab.

Fee

Lab fees apply.

When Offered

Every fall and spring semester.

BIO 206 - Molecular Biology

(3) The purpose of this course is to provide an introduction to the functioning of cells at the molecular level and an in-depth analysis of the central dogma of biology that occurs at the cellular level, i.e., DNA, RNA, and Protein formation. This will include organization of the genome, replication, transcription, translation, and regulation of gene expression.

Prerequisites: BIO 120, BIO 121, BIO 130, BIO 131; Sophomore standing.

When Offered

Every spring semester.

BIO 306 - Cell Biology

(3) Cell Biology is an advanced course designed to provide students with an in-depth understanding of the most fundamental and basic unit of life, the cell. Topics will include cellular macromolecules, cellular organelles and cell function including membrane dynamics, vesicle transport, the cytoskeleton, the cell cycle, cell signaling, apoptosis, and cancer.

Prerequisites: BIO 206, one year of college chemistry, and junior or senior standing.

When Offered

Every fall semester.

BIO 216 - Molecular Biology Lab

(1) Laboratory training in basic Molecular Biology Techniques including; DNA Purification, Restriction Digestion, PCR Amplification, Ligation, Transformation, Protein Expression and Purification, and experimental Analysis.

Prerequisites: BIO 120. Sophomore standing.

Corequisites: BIO 206.

Fee

Course fee applies.

When Offered

Every spring semester.

BIO 316 - Cell Biology Lab

(1)

Prerequisites: BIO 206, one year of college chemistry, and junior or senior standing.

Corequisites: BIO 306.

Fee

Lab fees apply.

When Offered

Every fall semester.

BIO 308 - Microbiology

(3) Microbiology is a survey of microorganisms including bacteria, fungi, parasites, and viruses. A taxonomic investigation of pathogenic microorganisms is a major focus of the course. Other topics include structure, nutrition, development, metabolism, genetics, control, drugs, infection, disease, immunity, and environmental microbiology.

Prerequisites: BIO 201, BIO 202.

Corequisites: BIO 318 (Lab)

When Offered

Every spring semester.

BIO 318 - Microbiology Lab

(1)

Corequisites: BIO 308.

Lab/Lecture Hours

Three-hour lab.

Fee

Lab fees apply.

When Offered

Every spring semester.

BIO 309 - Genetics

(3) Laws of heredity, chemical nature of genetic material, and biochemical patterns of gene action.

Prerequisites: BIO 201, BIO 202.

When Offered

Every fall semester.

BIO 401 - Developmental Biology

(3) Development of the vertebrate animal before birth through adulthood.

Prerequisites: BIO 201, BIO 202, BIO 306, BIO 316, or BIO 345.

When Offered

Every fall semester.

BIO 403 - Neurobiology

(3) An introduction to neuroscience. The course covers the structure and function of the nervous system, with attention given to sensory structure, and muscles. The structure and function of the human brain and the cellular basis of neuronal activity will be emphasized.

Prerequisites: BIO 201 and BIO 202.

When Offered

Every spring semester.

BIO 460 - Bioethics

(3) The biological revolution and its ethical impact; genetic engineering, reproductive technology, advanced prolongation of life, biblical principles of medical and biotechnological decision-making, secular alternatives; political dynamics.

Prerequisites: Senior Standing; final semester at CCU. Instructor permission required.

Fee

Fees may apply.

When Offered

Every semester.

CHM 121 - General Chemistry I

(4) Atomic structure, stoichiometry, chemical bonding, and gas and solution chemistry.

Prerequisites: MAT 111 or MAT 115 or MAT 141.

Corequisites: CHM 131 (Lab), CHM 141 (Recitation).

When Offered

Every fall semester.

CHM 131 - General Chemistry I Lab

(1)

Corequisites: CHM 121.

Lab/Lecture Hours

Three-hour lab.

Fee

Lab fees apply.

When Offered

Every fall semester.

CHM 141 - General Chemistry I Recitation

(0)

Corequisites: CHM 121.

When Offered

Every fall semester.

CHM 122 - General Chemistry II

(4) Major concepts in four areas of chemistry: physical chemistry (kinetics and equilibrium), analytical chemistry (acids, base, redox), inorganic chemistry (atmospheric chemistry and metals), organic chemistry (alkanes and function groups).

Prerequisites: Grade of C- or higher in CHM 121.

Corequisites: CHM 132 (Lab), CHM 142 (Recitation).

When Offered

Every spring semester.

CHM 132 - General Chemistry II Lab

(1)

Corequisites: CHM 122.

Lab/Lecture Hours

Three-hour lab.

Fee

Lab fees apply.

When Offered

Every spring semester.

CHM 142 - General Chemistry II Recitation

(0)

Corequisites: CHM 122.

When Offered

Every spring semester.

Graduation Requirements for Bachelor of Science in Biology

The faculty recommends students in the B.S. in Biology to the Board of Trustees as candidates for graduation when they have completed the following requirements.

1. Completion of a total of 120 credits, including all general education, electives and Biology major program requirements.

2. A letter grade of D or better and a cumulative GPA of 2.0 or better in all CCU coursework, and a GPA of 2.0 or higher for all courses specified for the major.
3. Completion of 180 hours of ministry/community service and 180 chapel credits. Transfer students are required to complete 45 hours of ministry/community service and 45 chapel credits each year of attendance at CCU. For further details on ministry/community service, see the Life Directions Center (LDC) section of this catalog. For further details on chapel credits, see the Student Life section of this catalog.
4. Meet the CCU Residency requirements.
5. Acceptable performance on exit exams, as required by the faculty.
6. Formal and timely application for graduation by the date specified by the University Registrar.
7. No outstanding financial obligation to the University.

Engineering Project Management Major

The Bachelor of Science in Engineering Project Management trains students in the fundamentals of engineering knowledge and practice while providing the highly sought after skillset of project management. The degree incorporates mathematics, natural sciences, economics, and other social and engineering sciences to produce highly competent engineers who can manage projects and teams through the entire project lifecycle; that is, ideation, research and development, implementation, assessment, and end of life. The concepts are integrated with CCU's biblical and liberal arts core, making it a degree program for technically-minded individuals who want to lead projects and teams in a Christ-centered manner.

The Bachelor of Science in Engineering Project Management requires completion of the following 126 credit hours:

General Education (39 credit hours)

Math/Science Core (30 credit hours)

Engineering Core (42 credit hours)

Project Management Core (15 credit hours)

General Education Requirements (39 credit hours)

Arts and Humanities (9 credit hours)

Take one course from each of the following three academic disciplines:

Fine Arts (3 credit hours)

Choose one course from the following:

HUM 120 - Introduction to the Arts

(3) Introduction to our humanity through hands-on experience in the arts (music, visual arts, poetry, story, play, and dance). Aesthetic and artistic values in the broader context of human cultural development, responsibility, and joy.

Notes: This course satisfies the general education fine arts requirement for most students, and is the required fine arts course for education majors. It is recommended for all students with a general interest in the fine arts. Students with a special interest in theatre should see THR 112. Students with a special interest in music should see MUS 110.

Note: HUM 120 does not satisfy the fine arts requirement for music majors or minors.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

MUS 110 - Musical Perspectives

(3) An exploration of music in the broader context of culture and the arts; personal musical experiences through listening and doing; and developing the ability to discern aesthetic excellence. Included is an introduction to the elements of music and how music works, the development of a Christian perspective on the arts, a broad survey of representative selections of Western music, and a focused overview of non-western/world music.

Notes: This course satisfies the general education fine arts requirement for most students. It is recommended for all students, especially those with an interest in music, and is the required fine arts course for all music majors and minors. Students with a special interest in Theatre should see THR 112.

Note: MUS 110 does not satisfy the fine arts requirement for education majors.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

THR 112 - Theatre Appreciation

(3) An introduction to the theatre world and all its aspects: the people who are active in that world, the many kinds of work that are created, the sensations and ideas we receive from those works, and the ways the life of theatre has transmitted across many times and place.

Notes: This course satisfies the general education fine arts requirement for most students. It is recommended for all students, especially those with an interest in theatre. Students with a special interest in music should see MUS 110.

Note: THR 112 does not satisfy the fine arts requirement for music majors or minors, or education majors.

When Offered

Fall and spring semesters.

Literature (3 credit hours)

Choose one course from the following:

ENG 201 - Introduction to Literature

(3) Understand, experience, and evaluate poetry, short fiction, essays, and drama genres, both American and multinational.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Fall and spring semesters.

ENG 202 - American Literature I

(3) Representative stories, poems, and documents in American literature from the Colonial era to the early Republic (1776-1830) through the Romantic-transcendentalist period (1830-1860). Includes readings from multiethnic and women writers.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every fall semester.

ENG 203 - American Literature II

(3) Representative stories, poems, and drama in American literature from the Civil War to the present. Nontraditional ethnic and women's voices included. Emphasis on interpretation and criticism of American literature.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every spring semester.

ENG 204 - British Literature I

(3) Surveys the history of literature in Britain until 1800 and representative works by influential writers of the periods contained therein.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every fall semester.

ENG 205 - British Literature II

(3) Surveys the history of literature in Britain from 1800 to the present and representative works by influential writers.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every spring semester.

Philosophy (3 credit hours)

PHL 202 - Introduction to Philosophy

(3) This course is a survey of many major issues raised over the two-and-a-half millennia of western philosophy. With an emphasis on historical context and development, as well as philosophy's relationship to Christian thought, this course challenges students to critically explore philosophical questions and introduce them to the great tradition of intellectual

inquiry. Special attention will be given to the subjects of truth and knowledge, reality and appearance, mind and body, right and wrong, beauty and the existence of God.

When Offered

Fall and summer semesters.

Biblical Studies (12 credit hours)

Take the following four courses (some courses are cross-listed and only one prefix needs to be taken):

BIB 111 - Old Testament

(3) This course provides an introduction to the theological, historical, and literary features of the Old Testament, tracing God's covenant relationship with ancient Israel. Special consideration will be given to the divine covenants and Messianic prophecies of the Old Testament.

When Offered

Every spring semester.

Cross-listed HIS 111

HIS 111 - Old Testament

(3) This course provides an introduction to the theological, historical, and literary features of the Old Testament, tracing God's covenant relationship with ancient Israel. Special consideration will be given to the divine covenants and Messianic prophecies of the Old Testament.

When Offered

Every spring semester.

Cross-listed BIB 111.

BIB 114 - New Testament

(3) This course provides an introduction to the theological, historical, and literary features of the New Testament, tracing the presentation of the gospel message through historical, epistolary, and apocalyptic genres. Special consideration will be given to the life of Christ and missionary journeys of the Apostle Paul.

When Offered

Every fall semester.

Cross-listed HUM 114

HUM 114 - New Testament

(3) This course provides an introduction to the theological, historical, and literary features of the New Testament, tracing the presentation of the gospel message through historical, epistolary, and apocalyptic genres. Special consideration will be given to the life of Christ and missionary journeys of the Apostle Paul.

When Offered

Every fall semester.

Cross-listed BIB 114.

PHL 315 - World Religions and Systems of Belief

(3) This course introduces an academic study of religion and what is called worldview, supplemented by an overview of some of the major tenets of Christianity; this is then followed by a survey of several other religious traditions and competing philosophies.

Prerequisites: PHL 202, THE 201.

When Offered

Winter and spring semesters.

THE 201 - Introduction to Theology

(3) This course covers basic issues, themes, and categories of Christian theology, including the doctrines of Scripture, God, humanity, Christ, salvation, the church, and last things. This course encourages students to better know, trust, love, and live by God's Word.

Prerequisites: BIB 111, BIB 114.

When Offered

Fall, winter, spring, and summer semesters.

Communication (6 credit hours)**COM 103 - Public Speaking**

(3) Introductory principles of communication emphasizing public speaking. Aspects of verbal and nonverbal delivery, speech organization, and the effective use of supporting material and presentational aids are addressed. Students give several speeches designed to better equip them for future speaking endeavors

When Offered

Fall and spring semesters.

ENG 102 - English Composition

(3) Effective use of the English language and exploration of rhetorical modes in written composition. Review of structure, purpose, and audience awareness in developing essays.

Prerequisites: ACT and/or SAT scores will be used to determine placement in either ENG 102 or ENG 102 (Basic).

Notes: Course must be completed first semester at CCU.

When Offered

Fall and spring semester.

ENG 105 - Advanced English Composition

(3) Advanced English composition, research methods, and literary study for invited exceptional students. Focus on both the study of literature and research writing.

Prerequisites: One of the following:

- AP English Language and Composition
 - A score of 4 is the minimum prerequisite for enrollment in ENG 105. A student who scores a 4 or 5 will automatically enroll a student in ENG 105 instead of ENG 102 and/or ENG 201.
- AP English Literature and Composition
 - A score of 4 is the minimum prerequisite for enrollment in ENG 105. A student who scores a 4 or 5 will automatically enroll a student in ENG 105 instead of ENG 102 and/or ENG 201.
- Score of 30 or above on the verbal section of the ACT exam.
- Score of 700 or above on the verbal section of the SAT exam.
- By invitation of the English department.

Notes: Fulfills general education requirements for both ENG 102 and ENG 201.

When Offered

Every fall semester.

Integrative Studies (3 credit hours)

* Please see the First-Year Integration (FYI) page for specific information about this required course.

INT 101 - First-Year Integration

(3) Think critically, grow spiritually, and change the world. Based on the premise that we as Christians are called to be rational creatures, relational creatures, and responsible creatures, FYI is an integrative study of foundational Christian principles with other disciplines. Examination and discussion of problems and contemporary issues - academic, personal, and social - facing students in their pursuit of success in college and life. Please see the First-Year Integration (FYI) page for specific information about this required course.

When Offered

Fall and spring semesters.

Social Sciences (9 credit hours)

Take each of the following three courses:

HIS 185 - Western Civilization

(3) The spiritual values and intellectual achievements of ancient Israel, Greece, Rome, the Middle Ages, the Renaissance, and Reformation that gave birth to the modern world.

When Offered

Every fall semester.

HIS 205 - American History

(3) Principles of the founding and the political, economic, intellectual, cultural, and religious traditions that have shaped America.

When Offered

Every spring semester.

POL 207 - Introduction to American Politics

(3) Introduction to political science and American government to prepare students to be effective citizens.

When Offered

Every fall and spring semester.

Engineering Project Management Required Courses (87 credit hours)**Math/Science Core (30 credit hours)****CHM 161 - Chemistry for Engineers**

(4) General chemistry requirement for engineering students. Stoichiometry; thermodynamics; gases, liquids, and solids; equilibrium; acids and bases; bonding concepts; kinetics; reactions; and materials science.

Prerequisites: Acceptance into the A.S. Pre-Engineering or B.S. Industrial Engineering program, or instructor permission.

Corequisites: CHM 171, CHM 181.

When Offered

Every spring semester.

CHM 171 - Chemistry for Engineers Laboratory

(1) Laboratory studies to accompany CHM 161 Chemistry for Engineers.

Prerequisites: Acceptance into the A.S. Pre-Engineering or B.S. Industrial Engineering program, or instructor permission.

Corequisites: CHM 161, CHM 181.

Lab/Lecture Hours

Lab course.

Fee

Lab fees apply.

When Offered

Every spring semester.

CHM 181 - Chemistry for Engineers Recitation

(0) Recitation section to accompany CHM 161 Chemistry for Engineers.

Prerequisites: Acceptance into the A.S. Pre-Engineering or B.S. Industrial Engineering program, or instructor permission.

Corequisites: CHM 161, CHM 171.

When Offered

Every spring semester.

MAT 141 - Calculus I

(4) First semester single-variable calculus and analytic geometry: Limits, continuity, differentiation and its applications, Fundamental Theorem of Calculus, basic integration techniques.

Prerequisites: MAT 115 or high school pre-calculus completed with a grade of B- or better, or instructor permission.

Corequisites: MAT 142.

When Offered

Fall, spring and summer semesters.

MAT 142 - Calculus I Recitation

(0) Co-requisite for MAT 141.

Prerequisites: MAT 115 or high school pre-calculus completed with a grade of B- or better, or instructor permission.
Corequisites: MAT 141.

When Offered

Fall, spring and summer semesters.

MAT 241 - Calculus II

(4) Second semester single-variable calculus and analytic geometry: Advanced techniques of integration, polar equations, parametric equations, introduction to differential equations, infinite sequences and series, convergence, power series, and Taylor polynomials. Limits, continuity, derivatives, applications of the derivative, integrals, applications of integrals, techniques of integration, infinite sequences and series including Taylor's series.

Prerequisites: MAT 141, MAT 142 with a grade of B- or better, or AP Calculus AB with a score of 4 or 5, or instructor permission.
Corequisites: MAT 242.

When Offered

Every spring semester.

MAT 242 - Calculus II Recitation

(0) Recitation section to accompany MAT 241.

Prerequisites: MAT 141, MAT 142 with a grade of B- or better, or AP Calculus AB with a score of 4 or 5, or instructor permission.
Corequisites: MAT 241.

When Offered

Every spring semester.

MAT 261 - Linear Algebra

(4) Matrix theory and linear algebra: Systems of linear equations, matrix operations, linear dependence and independence, orthogonal bases and projections, determinants, eigenvalues and eigenvectors, linear transformations.

Prerequisites: MAT 141, MAT 142 with a grade of C- or better.
Corequisites: MAT 262.

When Offered

Every spring semester.

MAT 262 - Linear Algebra Recitation

(0) Recitation section to accompany MAT 261.

Prerequisites: MAT 141, MAT 142 with a grade of C- or better.
Corequisites: MAT 261.

When Offered

Every spring semester.

MAT 313 - Statistics and Probability for Engineers

(3) Basic probability, probability distributions, descriptive statistics, linear regression, design and analysis of single and multiple factor experiments, and statistical quality control.

Prerequisites: MAT 141, MAT 142 with a grade of C+ or better, and sophomore status.

When Offered

Every spring semester.

PHY 250 - Physics I Calculus-Based

(4) First semester physics for engineering students. Kinematics, dynamics, momenta, work and energy, gravitation, simple harmonic motion, and basic thermodynamics.

Prerequisites: MAT 241.

Corequisites: PHY 251, PHY 252.

When Offered

Every fall semester.

PHY 251 - Physics I Calculus-Based Recitation

(0) Recitation section to accompany PHY 250 Physics I.

Corequisites: PHY 250, PHY 252.

When Offered

Every fall semester.

PHY 252 - Physics I Calculus-Based Laboratory

(1) Laboratory section to accompany PHY 250 Physics I.

Corequisites: PHY 250, PHY 251.

Lab/Lecture Hours

Lab course.

Fee

Lab fees apply.

When Offered

Every fall semester.

PHY 350 - Physics II Calculus-Based

(4) Second semester calculus-based physics: Electricity and magnetism, wave motion, optics.

Prerequisites: PHY 250, PHY 251, PHY 252.

Corequisites: PHY 351, PHY 352.

When Offered

Every spring semester.

PHY 351 - Physics II Calculus-Based Recitation

(0) Recitation section to accompany PHY 350 Physics II.

Corequisites: PHY 350, PHY 352.

When Offered

Every spring semester.

PHY 352 - Physics II Calculus-Based Laboratory

(1) Laboratory section to accompany PHY 350 Physics I.

Corequisites: PHY 350, PHY 351.

Lab/Lecture Hours

Lab course.

Fee

Lab fees apply.

When Offered

Every spring semester.

Engineering Core (42 credit hours)

CIS 130 - Programming Foundations I

(3) Programming teaches people logical thought progression. In this course students learn how to organize a problem into a series of steps and then write code in Python for a computer to implement the steps. Some of the modern software programming principles studied include object-oriented design, decomposition, encapsulation, abstraction, prototyping, testing, and the implementation of event-driven logic to solve real-world problems.

When Offered

Every fall semester.

EGI 101 - Introduction for Engineering

(4) Introduction to the field of engineering along with review of essential mathematics topics in applied contexts.

Prerequisites: Acceptance into the A.S. Pre-Engineering or B.S. Industrial Engineering program.

When Offered

Every fall semester.

EGI 201 - Computer Aided Design and Engineering Applications

(3) Use of computer systems to aid in creation, modification, analysis and optimization of design. Draw mechanical parts, architectural plans, and engineering diagrams. 2D drawings, simple 3D objects.

Prerequisites: Acceptance into the A.S. Pre-Engineering or B.S. Industrial Engineering program.

Fee

Course fees apply.

When Offered

Every spring semester.

EGI 215 - Engineering Ethics

(3) This course explores ethical and moral reasoning from both the Christian worldview and an engineering/technical perspective, focusing on the integration of the two. The course will use a variety of methods (e.g., case studies, role playing, incident research and analysis, etc.) to challenge students to think critically and reflect on their personal and professional beliefs. In addition to Biblical ethics, students will be introduced to National Society of Professional Engineers Code of Ethics as well as the Institute of Industrial and Systems Engineers Engineering Code of Ethics.

Prerequisites: EGI 101.

When Offered

Every fall semester.

EGI 220 - Systems Engineering

(3) This course introduces students to systems thinking and systems engineering; including topics such as defining systems, developing systems, deploying systems, system life cycles, socio-technical systems, complex systems, and applications in the technical/engineering workplace.

Prerequisites: EGI 101, or instructor permission; Industrial/Systems Engineering Majors only.

When Offered

Every fall semester.

EGI 225 - Human Factors

(3) Interactions between humans and the various parts of an industrial system: theory, principles, data and methods are studied to optimize both human comfort and system performance. Includes ergonomics, engineering psychology, human-machine relations, and laboratory exercises.

Prerequisites: Acceptance into the B.S. Industrial Engineering program.

When Offered

Every spring semester.

EGI 320 - Operations Research I - Deterministic Models

(3) Scientific approaches to decision making, first semester: Deterministic operations research: quantitative modeling of linear, integer, network flow problems by use of computer optimization software.

Prerequisites: MAT 261, MAT 313.

When Offered

Every fall semester.

EGI 321 - Operations Research II - Stochastic Models

(3) Scientific approaches to decision making, second semester: Stochastic models. Powerful modeling and solution techniques to maximize the cost/benefit ratio. Markov processes and queuing theory and applications.

Prerequisites: EGI 320, MAT 341.

When Offered

Every spring semester.

EGI 391 - Manufacturing Systems

(3) Analyze manufacturing systems. Principles, practices, and methods of effective design and implementation of operations, production, control, quality and automation of systems. Includes probability, inventory and queuing models, forecasting, optimization, process analysis, as well as linear and dynamic systems.

Prerequisites: MAT 313.

Corequisites: EGI 310

When Offered

Every spring semester.

EGI 414 - Statistical Quality Control

(3) Methods for modern quality control techniques, design of statistical process control systems, acceptance sampling, and process improvement.

Prerequisites: MAT 313 and EGI 321.

When Offered

Every fall semester.

EGI 435 - Engineering Economy and Capital Investments

(3) Comparisons of different economic systems, systematic evaluation of the costs and benefits associated with proposed technical projects, as well as ethical and other non-economic issues related to professional financial and economic decisions. Interpretation and use of accounting reports, cost-volume-profit analyses, as well as relevant cash flow techniques associated with a proposed capital investment in either the public or private sector. Three major decision models: Net Present Value; Equivalent Uniform Benefit/Cost; and Internal Rate of Return. Also included are considerations of income taxes, inflation, risk, and capital rationing.

Prerequisites: Senior status only; instructor permission required.

When Offered

Every spring semester.

EGI 460 - In-Depth Analysis of Engineering Subdisciplines

(3) This course teaches the essential technical aspects of the major engineering fields including Mechanical Engineering, Civil Engineering, Chemical Engineering, and more. Through this course, students not only gain technical familiarity with a broad range of engineering fields, but more importantly will be challenged to consider how these fields approach particular skill sets (e.g., project management, data analytics, etc.).

Prerequisites: B.S. Engineering Project Management majors only. Junior or Seniors only, or by instructor permission.

When Offered

Every fall semester.

EGI 475 - Engineering Capstone I

(2) This course is the first of the two-course sequence in the Industrial & Systems Engineering capstone design sequence. Students will explore transitioning into the profession and will have the opportunity to dialog with professionals in the field. Throughout the semester, teams of students will identify real-world problems/opportunities, interact with potential clients, learn critical teamwork/communications skills, and begin to develop real solutions to real world engineering problems. Off-site trips to local companies and supplementary evening sessions may also be required.

Prerequisites: Senior status only; instructor permission required.

When Offered

Every fall semester.

EGI 476 - Engineering Capstone II

(3) This course is a continuation of EGI 475 and the second course of the two-course sequence in the Industrial & Systems Engineering capstone design sequence. Having identified a real-world engineering project, students will draw on learning from previous engineering courses to develop value related to their project. Team-work/communication skills and independence of thought is expected. An ethical and economic justification for the project and its feasibility, as well as an understanding of the contemporary issues surrounding their product's sustainability, socio-political implications, and environmental impacts are required. Off-site trips to local companies and supplementary evening sessions may also be required.

Prerequisites: EGI 475; Industrial/Systems Engineering Majors only; Instructor Permission required.

When Offered

Every spring semester.

Project Management Core (15 credit hours)

MGT 101 - Introduction to Business, Management and Ethics

(3) Students learn fundamental business topics that prepare them to be successful in the exciting world of business and non-profit organizations. Students gain foundations in functional areas (accounting, finance, management, marketing, and technology) and operating environments common to every organization. This course is engaging and transformational, whether one is just starting out or already an avid student of business.

When Offered

Fall and spring semesters.

Cross-listed BUS 101

MGT 201 - Organizational Behavior and Design

(3) This course is oriented toward developing a better understanding of organizational culture and the role human behavior has in forming culture; using this knowledge to help people be more productive and satisfied in various organizational settings, i.e. large publicly owned corporations, and small privately-owned companies and nonprofit organizations. It provides you with an understanding of the field of organizational behavior and the implications it has in the management of a rapidly evolving workforce.

Prerequisites: LED 101 or BUS 101 or MGT 101.

When Offered

Fall and spring semesters.

MGT 435 - Strategic Foresight and Change Management

(3) Great managers know how to navigate change. In this course, students learn to identify and anticipate relevant changes, mobilize and manage resources efficiently, and make appropriate decisions to avoid failure and exploit innovation. Topics covered include contingency leadership, change dynamics, the impact of globalization, tools to detect approaching disruptions and innovations, and how to optimally interact with governments, industries, corporations, and the third sector to seek mutually beneficial ways to prosper from change.

Prerequisites: BUS 101 or LED 101 or MGT 101.

When Offered

Every spring semester.

MGT 500 - Management Problem Solving and Decision-Making

(3) Fundamental and advanced techniques for making decisions and solving problems at all leadership levels in business and in life. These systematic techniques, or processes, are designed to improve the student's ability to gather, organize, and evaluate information in the areas of problem solving, decision making and plan implementation.

Prerequisites: Juniors and Seniors only.

When Offered

Every fall and spring semester.

MGT 561 - Business Project Planning, Scheduling, and Controlling

(3) To be successful, project managers must analyze alternative project decisions by relying heavily on project planning, scheduling, estimating, control, and risk management tools and techniques. This course provides students with the skills required to plan, baseline, monitor, analyze, and evaluate project performance and associated risks.

Prerequisites: Juniors and Seniors only.

Fee

Course fees apply.

When Offered

Every spring semester.

Graduation Requirements for Bachelor of Science in Engineering Project Management

The faculty recommends students in the B.A. in Strategic Communication to the Board of Trustees as candidates for graduation when they have completed the following requirements.

1. Completion of a total of 126 credits, including all general education and major program requirements.
2. A letter grade of D or better and a cumulative GPA of 2.0 or better in all CCU coursework, and a GPA of 2.0 or higher for all courses specified for the major.
3. Completion of 180 hours of ministry/community service and 180 chapel credits. Transfer students are required to complete 45 hours of ministry/community service and 45 chapel credits each year of attendance at CCU. For further details on ministry/community service, see the Life Directions Center (LDC) section of this catalog. For further details on chapel credits, see the Student Life section of this catalog.
4. Meet the CCU Residency requirements.
5. Acceptable performance on exit exams, as required by the faculty.
6. Formal and timely application for graduation by the date specified by the University Registrar.
7. No outstanding financial obligation to the University.

Health Sciences Major

The Health Sciences Major provides a foundation for professional study in several health related fields such as nursing, physical therapy, physician's assistant, and pharmacy among others.

There can be no double major within the Biological Science Majors, i.e., you may not declare a double major with Health Sciences and Biology or with Biology and Pre-Medical Profession or with Health Sciences and Pre-Medical Profession.

The Bachelor of Science in Health Sciences requires completion of the following 120 credits:

General Education Core (45 credit hours)

Health Sciences Core (48 credit hours)

Electives (27 credit hours)

General Education Requirements (45 credit hours)

Arts and Humanities (9 credit hours)

Take one course from each of the following three academic disciplines:

Fine Arts (3 credit hours)

Choose one course from the following:

HUM 120 - Introduction to the Arts

(3) Introduction to our humanity through hands-on experience in the arts (music, visual arts, poetry, story, play, and dance). Aesthetic and artistic values in the broader context of human cultural development, responsibility, and joy.

Notes: This course satisfies the general education fine arts requirement for most students, and is the required fine arts course for education majors. It is recommended for all students with a general interest in the fine arts. Students with a special interest in theatre should see THR 112. Students with a special interest in music should see MUS 110.

Note: HUM 120 does not satisfy the fine arts requirement for music majors or minors.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

MUS 110 - Musical Perspectives

(3) An exploration of music in the broader context of culture and the arts; personal musical experiences through listening and doing; and developing the ability to discern aesthetic excellence. Included is an introduction to the elements of music and how music works, the development of a Christian perspective on the arts, a broad survey of representative selections of Western music, and a focused overview of non-western/world music.

Notes: This course satisfies the general education fine arts requirement for most students. It is recommended for all

students, especially those with an interest in music, and is the required fine arts course for all music majors and minors. Students with a special interest in Theatre should see THR 112.

Note: MUS 110 does not satisfy the fine arts requirement for education majors.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

THR 112 - Theatre Appreciation

(3) An introduction to the theatre world and all its aspects: the people who are active in that world, the many kinds of work that are created, the sensations and ideas we receive from those works, and the ways the life of theatre has transmitted across many times and place.

Notes: This course satisfies the general education fine arts requirement for most students. It is recommended for all students, especially those with an interest in theatre. Students with a special interest in music should see MUS 110.

Note: THR 112 does not satisfy the fine arts requirement for music majors or minors, or education majors.

When Offered

Fall and spring semesters.

Literature (3 credit hours)

Choose one course from the following:

ENG 201 - Introduction to Literature

(3) Understand, experience, and evaluate poetry, short fiction, essays, and drama genres, both American and multinational.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Fall and spring semesters.

ENG 202 - American Literature I

(3) Representative stories, poems, and documents in American literature from the Colonial era to the early Republic (1776-1830) through the Romantic-transcendentalist period (1830-1860). Includes readings from multiethnic and women writers.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every fall semester.

ENG 203 - American Literature II

(3) Representative stories, poems, and drama in American literature from the Civil War to the present. Nontraditional ethnic and women's voices included. Emphasis on interpretation and criticism of American literature.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every spring semester.

ENG 204 - British Literature I

(3) Surveys the history of literature in Britain until 1800 and representative works by influential writers of the periods contained therein.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every fall semester.

ENG 205 - British Literature II

(3) Surveys the history of literature in Britain from 1800 to the present and representative works by influential writers.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every spring semester.

Philosophy (3 credit hours)

PHL 202 - Introduction to Philosophy

(3) This course is a survey of many major issues raised over the two-and-a-half millennia of western philosophy. With an emphasis on historical context and development, as well as philosophy's relationship to Christian thought, this course challenges students to critically explore philosophical questions and introduce them to the great tradition of intellectual inquiry. Special attention will be given to the subjects of truth and knowledge, reality and appearance, mind and body, right and wrong, beauty and the existence of God.

When Offered

Fall and summer semesters.

Biblical Studies (12 credit hours)

Take the following four courses (some courses are cross-listed and only one prefix needs to be taken):

BIB 111 - Old Testament

(3) This course provides an introduction to the theological, historical, and literary features of the Old Testament, tracing God's covenant relationship with ancient Israel. Special consideration will be given to the divine covenants and Messianic prophecies of the Old Testament.

When Offered

Every spring semester.

Cross-listed HIS 111

HIS 111 - Old Testament

(3) This course provides an introduction to the theological, historical, and literary features of the Old Testament, tracing God's covenant relationship with ancient Israel. Special consideration will be given to the divine covenants and Messianic prophecies of the Old Testament.

When Offered

Every spring semester.

Cross-listed BIB 111.

BIB 114 - New Testament

(3) This course provides an introduction to the theological, historical, and literary features of the New Testament, tracing the presentation of the gospel message through historical, epistolary, and apocalyptic genres. Special consideration will be given to the life of Christ and missionary journeys of the Apostle Paul.

When Offered

Every fall semester.

Cross-listed HUM 114

HUM 114 - New Testament

(3) This course provides an introduction to the theological, historical, and literary features of the New Testament, tracing the presentation of the gospel message through historical, epistolary, and apocalyptic genres. Special consideration will be given to the life of Christ and missionary journeys of the Apostle Paul.

When Offered

Every fall semester.

Cross-listed BIB 114.

PHL 315 - World Religions and Systems of Belief

(3) This course introduces an academic study of religion and what is called worldview, supplemented by an overview of some of the major tenets of Christianity; this is then followed by a survey of several other religious traditions and competing philosophies.

Prerequisites: PHL 202, THE 201.

When Offered

Winter and spring semesters.

THE 201 - Introduction to Theology

(3) This course covers basic issues, themes, and categories of Christian theology, including the doctrines of Scripture, God, humanity, Christ, salvation, the church, and last things. This course encourages students to better know, trust, love, and live by God's Word.

Prerequisites: BIB 111, BIB 114.

When Offered

Fall, winter, spring, and summer semesters.

Communication (6 credit hours)

COM 103 - Public Speaking

(3) Introductory principles of communication emphasizing public speaking. Aspects of verbal and nonverbal delivery, speech organization, and the effective use of supporting material and presentational aids are addressed. Students give several speeches designed to better equip them for future speaking endeavors

When Offered

Fall and spring semesters.

ENG 102 - English Composition

(3) Effective use of the English language and exploration of rhetorical modes in written composition. Review of structure, purpose, and audience awareness in developing essays.

Prerequisites: ACT and/or SAT scores will be used to determine placement in either ENG 102 or ENG 102 (Basic).

Notes: Course must be completed first semester at CCU.

When Offered

Fall and spring semester.

ENG 105 - Advanced English Composition

(3) Advanced English composition, research methods, and literary study for invited exceptional students. Focus on both the study of literature and research writing.

Prerequisites: One of the following:

- AP English Language and Composition
 - A score of 4 is the minimum prerequisite for enrollment in ENG 105. A student who scores a 4 or 5 will automatically enroll a student in ENG 105 instead of ENG 102 and/or ENG 201.
- AP English Literature and Composition
 - A score of 4 is the minimum prerequisite for enrollment in ENG 105. A student who scores a 4 or 5 will automatically enroll a student in ENG 105 instead of ENG 102 and/or ENG 201.
- Score of 30 or above on the verbal section of the ACT exam.
- Score of 700 or above on the verbal section of the SAT exam.
- By invitation of the English department.

Notes: Fulfills general education requirements for both ENG 102 and ENG 201.

When Offered

Every fall semester.

Integrative Studies (3 credit hours)

* Please see the First-Year Integration (FYI) page for specific information about this required course.

INT 101 - First-Year Integration

(3) Think critically, grow spiritually, and change the world. Based on the premise that we as Christians are called to be rational creatures, relational creatures, and responsible creatures, FYI is an integrative study of foundational Christian principles with other disciplines. Examination and discussion of problems and contemporary issues - academic, personal, and social - facing students in their pursuit of success in college and life. Please see the First-Year Integration (FYI) page for specific information about this required course.

When Offered

Fall and spring semesters.

Mathematics (3 credit hours)

MAT 111 - College Algebra

(3) Study of equations, inequalities, functions, graphs, exponents, logarithms.

Prerequisites: SAT mathematics score of 520 or an ACT mathematics score of 20. OR a B- or better in high school algebra II. Meets general education requirements for mathematics for health science majors.

When Offered

Fall, spring and summer semesters.

Social Sciences (12 credit hours)

Take each of the following four courses:

HIS 185 - Western Civilization

(3) The spiritual values and intellectual achievements of ancient Israel, Greece, Rome, the Middle Ages, the Renaissance, and Reformation that gave birth to the modern world.

When Offered

Every fall semester.

HIS 205 - American History

(3) Principles of the founding and the political, economic, intellectual, cultural, and religious traditions that have shaped America.

When Offered

Every spring semester.

POL 207 - Introduction to American Politics

(3) Introduction to political science and American government to prepare students to be effective citizens.

When Offered

Every fall and spring semester.

ECO 215 - Economics

(3) Economics is about scarcity and choice. Students in this course study how people, firms, governments, and nations interact in alternative economic systems to make choices about allocating scarce resources. In addition, students learn to evaluate these systems, understand macroeconomic monetary and fiscal policies, and engage in policy debates.

When Offered

Fall and spring semesters.

Health Sciences Major Core (48 credit hours)

BIO 120 - Biological Principles

(3) Life processes common to plants and animals, cell structure and function. Introduction to genetics, biochemistry, and development.

Prerequisites: For Biological and General Sciences majors only.

Corequisites: BIO 121.

When Offered

Every fall semester.

BIO 121 - Biological Principles Lab

(1) Corequisite Lab for BIO 120 Biological Principles.

Corequisites: BIO 120.

Lab/Lecture Hours

Three-hour lab.

Fee

Course fees apply.

When Offered

Every fall semester.

BIO 130 - Biological Diversity

(3) Continuation of BIO 120 Biological Principles. Introduction to human physiology, animal and plant kingdom, plant structure and function, ecology, and creation and evolution.

Prerequisites: For Biological and General Sciences majors only.

Corequisites: BIO 131.

When Offered

Every spring semester.

BIO 131 - Biological Diversity Lab

(1) Co-requisite lab for BIO 130 Biological Diversity.

Corequisites: BIO 130.

Lab/Lecture Hours

3-hour lab.

Fee

Course fees apply.

When Offered

Every spring semester.

BIO 201 - Human Anatomy and Physiology I

(3) Structure and function of the skeletal, muscular, and nervous systems.

Prerequisites: BIO 120 or BIO 209.

Corequisites: BIO 211 (Lab).

When Offered

Every fall and spring semester.

BIO 211 - Human Anatomy and Physiology I Lab

(1)

Corequisites: BIO 201.

Lab/Lecture Hours

Three-hour lab.

Fee

Lab fees apply.

When Offered

Every fall and spring semester.

BIO 202 - Human Anatomy and Physiology II

(3) Human respiratory, circulatory, digestive, excretory, endocrine, and reproductive systems.

Prerequisites: BIO 201.

Corequisites: BIO 212 (Lab).

When Offered

Every fall and spring semester.

BIO 212 - Human Anatomy and Physiology II Lab

(1)

Corequisites: BIO 202.

Lab/Lecture Hours

Three-hour lab.

Fee

Lab fees apply.

When Offered

Every fall and spring semester.

BIO 308 - Microbiology

(3) Microbiology is a survey of microorganisms including bacteria, fungi, parasites, and viruses. A taxonomic investigation of pathogenic microorganisms is a major focus of the course. Other topics include structure, nutrition, development, metabolism, genetics, control, drugs, infection, disease, immunity, and environmental microbiology.

Prerequisites: BIO 201, BIO 202.

Corequisites: BIO 318 (Lab)

When Offered

Every spring semester.

BIO 318 - Microbiology Lab

(1)

Corequisites: BIO 308.

Lab/Lecture Hours

Three-hour lab.

Fee

Lab fees apply.

When Offered

Every spring semester.

BIO 309 - Genetics

(3) Laws of heredity, chemical nature of genetic material, and biochemical patterns of gene action.

Prerequisites: BIO 201, BIO 202.

When Offered

Every fall semester.

BIO 345 - Foundations in Pathophysiology

(3) Pathophysiology is a detailed investigation into the physiology of abnormal functions in humans due to diseased states. Fundamental concepts in cellular biology, genetics, and immunology will be initially established to create a foundation for the systematic investigation of abnormal functions according to organ systems.

Prerequisites: BIO 201, BIO 211, BIO 202 and BIO 212.

When Offered

Every fall semester.

BIO 460 - Bioethics

(3) The biological revolution and its ethical impact; genetic engineering, reproductive technology, advanced prolongation of life, biblical principles of medical and biotechnological decision-making, secular alternatives; political dynamics.

Prerequisites: Senior Standing; final semester at CCU. Instructor permission required.

Fee

Fees may apply.

When Offered

Every semester.

CHM 121 - General Chemistry I

(4) Atomic structure, stoichiometry, chemical bonding, and gas and solution chemistry.

Prerequisites: MAT 111 or MAT 115 or MAT 141.

Corequisites: CHM 131 (Lab), CHM 141 (Recitation).

When Offered

Every fall semester.

CHM 131 - General Chemistry I Lab

(1)

Corequisites: CHM 121.

Lab/Lecture Hours

Three-hour lab.

Fee

Lab fees apply.

When Offered

Every fall semester.

CHM 141 - General Chemistry I Recitation

(0)

Corequisites: CHM 121.

When Offered

Every fall semester.

CHM 122 - General Chemistry II

(4) Major concepts in four areas of chemistry: physical chemistry (kinetics and equilibrium), analytical chemistry (acids, base, redox), inorganic chemistry (atmospheric chemistry and metals), organic chemistry (alkanes and function groups).

Prerequisites: Grade of C- or higher in CHM 121.

Corequisites: CHM 132 (Lab), CHM 142 (Recitation).

When Offered

Every spring semester.

CHM 132 - General Chemistry II Lab

(1)

Corequisites: CHM 122.

Lab/Lecture Hours

Three-hour lab.

Fee

Lab fees apply.

When Offered

Every spring semester.

CHM 142 - General Chemistry II Recitation

(0)

Corequisites: CHM 122.

When Offered

Every spring semester.

MAT 212 - Statistics and their Application

(3) An introduction to statistical analysis as used in various liberal arts disciplines. Descriptive and inferential statistics and attendant research designs will be considered. Students will become familiar with SPSS and its use in analyzing data and decision making.

Prerequisites: Sophomore standing.

When Offered

Fall and spring semesters.

PSY 245 - Life-Span Psychology

(3) The pattern of human development shows certain goals and tasks that are almost universal across persons, yet each of us is differently shaped by our experiences and our genetics. In this course, we explore how much and in what ways

people change and compare the various theories with a Christian understanding of the direction of development.

When Offered

Every fall semester.

Choose one of the following.

BIO 401 - Developmental Biology

(3) Development of the vertebrate animal before birth through adulthood.

Prerequisites: BIO 201, BIO 202, BIO 306, BIO 316, or BIO 345.

When Offered

Every fall semester.

BIO 403 - Neurobiology

(3) An introduction to neuroscience. The course covers the structure and function of the nervous system, with attention given to sensory structure, and muscles. The structure and function of the human brain and the cellular basis of neuronal activity will be emphasized.

Prerequisites: BIO 201 and BIO 202.

When Offered

Every spring semester.

Graduation Requirements for Bachelor of Science in Health Sciences

The faculty recommends students in the B.S. in Health Sciences to the Board of Trustees as candidates for graduation when they have completed the following requirements.

1. Completion of a total of 120 credits, including all general education, electives and Health Sciences major program requirements.
2. A letter grade of D or better and a cumulative GPA of 2.0 or better in all CCU coursework, and a GPA of 2.0 or higher for all courses specified for the major.
3. Completion of 180 hours of ministry/community service and 180 chapel credits. Transfer students are required to complete 45 hours of ministry/community service and 45 chapel credits each year of attendance at CCU. For further details on ministry/community service, see the Life Directions Center (LDC) section of this catalog. For further details on chapel credits, see the Student Life section of this catalog.
4. Meet the CCU Residency requirements.
5. Acceptable performance on exit exams, as required by the faculty.
6. Formal and timely application for graduation by the date specified by the University Registrar.
7. No outstanding financial obligation to the University.

Industrial and Systems Engineering Major

The Bachelor of Science in Industrial and Systems Engineering incorporates mathematics, natural sciences, economics and other social and engineering sciences to optimize complex processes or systems. Industrial and systems engineering is concerned with the development, improvement, and implementation of integrated systems of people, economics, knowledge, information, equipment, energy, materials. Analysis and synthesis of information acquired from these disciplines increases productivity and decreases wasted resources.

After admission to the University, students may enroll in the B.S. Industrial and Systems Engineering program with:

1. Recommended high school or transfer cumulative GPA of 3.5
2. Recommended composite ACT of 28 or composite SAT of 1310-1340 (post 2016 version)
3. Recommended mathematics ACT of 26 or mathematics SAT of 620 (post 2016 version)

The B.S. Industrial and Systems Engineering requires completion of the following 127 credits:

General Education (39 credit hours)

Essential Engineering Core (37 credit hours)

Industrial and Systems Engineering Core (51 credit hours)

General Education Requirements (39 credit hours)

Arts and Humanities (9 credit hours)

Take one course from each of the following three academic disciplines:

Fine Arts (3 credit hours)

Choose one course from the following:

HUM 120 - Introduction to the Arts

(3) Introduction to our humanity through hands-on experience in the arts (music, visual arts, poetry, story, play, and dance). Aesthetic and artistic values in the broader context of human cultural development, responsibility, and joy.

Notes: This course satisfies the general education fine arts requirement for most students, and is the required fine arts course for education majors. It is recommended for all students with a general interest in the fine arts. Students with a special interest in theatre should see THR 112. Students with a special interest in music should see MUS 110.

Note: HUM 120 does not satisfy the fine arts requirement for music majors or minors.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

MUS 110 - Musical Perspectives

(3) An exploration of music in the broader context of culture and the arts; personal musical experiences through listening and doing; and developing the ability to discern aesthetic excellence. Included is an introduction to the elements of music and how music works, the development of a Christian perspective on the arts, a broad survey of representative selections of Western music, and a focused overview of non-western/world music.

Notes: This course satisfies the general education fine arts requirement for most students. It is recommended for all students, especially those with an interest in music, and is the required fine arts course for all music majors and minors. Students with a special interest in Theatre should see THR 112.

Note: MUS 110 does not satisfy the fine arts requirement for education majors.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

THR 112 - Theatre Appreciation

(3) An introduction to the theatre world and all its aspects: the people who are active in that world, the many kinds of work that are created, the sensations and ideas we receive from those works, and the ways the life of theatre has transmitted across many times and place.

Notes: This course satisfies the general education fine arts requirement for most students. It is recommended for all students, especially those with an interest in theatre. Students with a special interest in music should see MUS 110.

Note: THR 112 does not satisfy the fine arts requirement for music majors or minors, or education majors.

When Offered

Fall and spring semesters.

Literature (3 credit hours)

Choose one course from the following:

ENG 201 - Introduction to Literature

(3) Understand, experience, and evaluate poetry, short fiction, essays, and drama genres, both American and multinational.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Fall and spring semesters.

ENG 202 - American Literature I

(3) Representative stories, poems, and documents in American literature from the Colonial era to the early Republic (1776-1830) through the Romantic-transcendentalist period (1830-1860). Includes readings from multiethnic and women writers.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every fall semester.

ENG 203 - American Literature II

(3) Representative stories, poems, and drama in American literature from the Civil War to the present. Nontraditional ethnic and women's voices included. Emphasis on interpretation and criticism of American literature.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every spring semester.

ENG 204 - British Literature I

(3) Surveys the history of literature in Britain until 1800 and representative works by influential writers of the periods contained therein.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every fall semester.

ENG 205 - British Literature II

(3) Surveys the history of literature in Britain from 1800 to the present and representative works by influential writers.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every spring semester.

Philosophy (3 credit hours)**PHL 202 - Introduction to Philosophy**

(3) This course is a survey of many major issues raised over the two-and-a-half millennia of western philosophy. With an emphasis on historical context and development, as well as philosophy's relationship to Christian thought, this course challenges students to critically explore philosophical questions and introduce them to the great tradition of intellectual inquiry. Special attention will be given to the subjects of truth and knowledge, reality and appearance, mind and body, right and wrong, beauty and the existence of God.

When Offered

Fall and summer semesters.

Biblical Studies (12 credit hours)

Take the following four courses (some courses are cross-listed and only one prefix needs to be taken):

BIB 111 - Old Testament

(3) This course provides an introduction to the theological, historical, and literary features of the Old Testament, tracing God's covenant relationship with ancient Israel. Special consideration will be given to the divine covenants and Messianic prophecies of the Old Testament.

When Offered

Every spring semester.

Cross-listed HIS 111

HIS 111 - Old Testament

(3) This course provides an introduction to the theological, historical, and literary features of the Old Testament, tracing God's covenant relationship with ancient Israel. Special consideration will be given to the divine covenants and Messianic prophecies of the Old Testament.

When Offered

Every spring semester.

Cross-listed BIB 111.

BIB 114 - New Testament

(3) This course provides an introduction to the theological, historical, and literary features of the New Testament, tracing the presentation of the gospel message through historical, epistolary, and apocalyptic genres. Special consideration will be given to the life of Christ and missionary journeys of the Apostle Paul.

When Offered

Every fall semester.
Cross-listed HUM 114

HUM 114 - New Testament

(3) This course provides an introduction to the theological, historical, and literary features of the New Testament, tracing the presentation of the gospel message through historical, epistolary, and apocalyptic genres. Special consideration will be given to the life of Christ and missionary journeys of the Apostle Paul.

When Offered

Every fall semester.
Cross-listed BIB 114.

PHL 315 - World Religions and Systems of Belief

(3) This course introduces an academic study of religion and what is called worldview, supplemented by an overview of some of the major tenets of Christianity; this is then followed by a survey of several other religious traditions and competing philosophies.

Prerequisites: PHL 202, THE 201.

When Offered

Winter and spring semesters.

THE 201 - Introduction to Theology

(3) This course covers basic issues, themes, and categories of Christian theology, including the doctrines of Scripture, God, humanity, Christ, salvation, the church, and last things. This course encourages students to better know, trust, love, and live by God's Word.

Prerequisites: BIB 111, BIB 114.

When Offered

Fall, winter, spring, and summer semesters.

Communication (6 credit hours)

COM 103 - Public Speaking

(3) Introductory principles of communication emphasizing public speaking. Aspects of verbal and nonverbal delivery, speech organization, and the effective use of supporting material and presentational aids are addressed. Students give several speeches designed to better equip them for future speaking endeavors

When Offered

Fall and spring semesters.

ENG 102 - English Composition

(3) Effective use of the English language and exploration of rhetorical modes in written composition. Review of structure, purpose, and audience awareness in developing essays.

Prerequisites: ACT and/or SAT scores will be used to determine placement in either ENG 102 or ENG 102 (Basic).

Notes: Course must be completed first semester at CCU.

When Offered

Fall and spring semester.

ENG 105 - Advanced English Composition

(3) Advanced English composition, research methods, and literary study for invited exceptional students. Focus on both the study of literature and research writing.

Prerequisites: One of the following:

- AP English Language and Composition
 - A score of 4 is the minimum prerequisite for enrollment in ENG 105. A student who scores a 4 or 5 will automatically enroll a student in ENG 105 instead of ENG 102 and/or ENG 201.

- AP English Literature and Composition
 - A score of 4 is the minimum prerequisite for enrollment in ENG 105. A student who scores a 4 or 5 will automatically enroll a student in ENG 105 instead of ENG 102 and/or ENG 201.
- Score of 30 or above on the verbal section of the ACT exam.
- Score of 700 or above on the verbal section of the SAT exam.
- By invitation of the English department.

Notes: Fulfills general education requirements for both ENG 102 and ENG 201.

When Offered

Every fall semester.

Integrative Studies (3 credit hours)

* Please see the First-Year Integration (FYI) page for specific information about this required course.

INT 101 - First-Year Integration

(3) Think critically, grow spiritually, and change the world. Based on the premise that we as Christians are called to be rational creatures, relational creatures, and responsible creatures, FYI is an integrative study of foundational Christian principles with other disciplines. Examination and discussion of problems and contemporary issues - academic, personal, and social - facing students in their pursuit of success in college and life. Please see the First-Year Integration (FYI) page for specific information about this required course.

When Offered

Fall and spring semesters.

Social Sciences (9 credit hours)

Take each of the following three courses:

HIS 185 - Western Civilization

(3) The spiritual values and intellectual achievements of ancient Israel, Greece, Rome, the Middle Ages, the Renaissance, and Reformation that gave birth to the modern world.

When Offered

Every fall semester.

HIS 205 - American History

(3) Principles of the founding and the political, economic, intellectual, cultural, and religious traditions that have shaped America.

When Offered

Every spring semester.

POL 207 - Introduction to American Politics

(3) Introduction to political science and American government to prepare students to be effective citizens.

When Offered

Every fall and spring semester.

Essential Engineering Core (37 credit hours)

CHM 161 - Chemistry for Engineers

(4) General chemistry requirement for engineering students. Stoichiometry; thermodynamics; gases, liquids, and solids; equilibrium; acids and bases; bonding concepts; kinetics; reactions; and materials science.

Prerequisites: Acceptance into the A.S. Pre-Engineering or B.S. Industrial Engineering program, or instructor permission.
Corequisites: CHM 171, CHM 181.

When Offered

Every spring semester.

CHM 171 - Chemistry for Engineers Laboratory

(1) Laboratory studies to accompany CHM 161 Chemistry for Engineers.

Prerequisites: Acceptance into the A.S. Pre-Engineering or B.S. Industrial Engineering program, or instructor permission.
Corequisites: CHM 161, CHM 181.

Lab/Lecture Hours

Lab course.

Fee

Lab fees apply.

When Offered

Every spring semester.

CHM 181 - Chemistry for Engineers Recitation

(0) Recitation section to accompany CHM 161 Chemistry for Engineers.

Prerequisites: Acceptance into the A.S. Pre-Engineering or B.S. Industrial Engineering program, or instructor permission.
Corequisites: CHM 161, CHM 171.

When Offered

Every spring semester.

MAT 141 - Calculus I

(4) First semester single-variable calculus and analytic geometry: Limits, continuity, differentiation and its applications, Fundamental Theorem of Calculus, basic integration techniques.

Prerequisites: MAT 115 or high school pre-calculus completed with a grade of B- or better, or instructor permission.
Corequisites: MAT 142.

When Offered

Fall, spring and summer semesters.

MAT 142 - Calculus I Recitation

(0) Co-requisite for MAT 141.

Prerequisites: MAT 115 or high school pre-calculus completed with a grade of B- or better, or instructor permission.
Corequisites: MAT 141.

When Offered

Fall, spring and summer semesters.

MAT 241 - Calculus II

(4) Second semester single-variable calculus and analytic geometry: Advanced techniques of integration, polar equations, parametric equations, introduction to differential equations, infinite sequences and series, convergence, power series, and Taylor polynomials. Limits, continuity, derivatives, applications of the derivative, integrals, applications of integrals, techniques of integration, infinite sequences and series including Taylor's series.

Prerequisites: MAT 141, MAT 142 with a grade of B- or better, or AP Calculus AB with a score of 4 or 5, or instructor permission.
Corequisites: MAT 242.

When Offered

Every spring semester.

MAT 242 - Calculus II Recitation

(0) Recitation section to accompany MAT 241.

Prerequisites: MAT 141, MAT 142 with a grade of B- or better, or AP Calculus AB with a score of 4 or 5, or instructor permission.
Corequisites: MAT 241.

When Offered

Every spring semester.

MAT 261 - Linear Algebra

(4) Matrix theory and linear algebra: Systems of linear equations, matrix operations, linear dependence and independence, orthogonal bases and projections, determinants, eigenvalues and eigenvectors, linear transformations.

Prerequisites: MAT 141 , MAT 142 with a grade of C- or better.

Corequisites: MAT 262.

When Offered

Every spring semester.

MAT 262 - Linear Algebra Recitation

(0) Recitation section to accompany MAT 261.

Prerequisites: MAT 141, MAT 142 with a grade of C- or better.

Corequisites: MAT 261.

When Offered

Every spring semester.

MAT 313 - Statistics and Probability for Engineers

(3) Basic probability, probability distributions, descriptive statistics, linear regression, design and analysis of single and multiple factor experiments, and statistical quality control.

Prerequisites: MAT 141, MAT 142 with a grade of C+ or better, and sophomore status.

When Offered

Every spring semester.

MAT 341 - Calculus III

(4) Multi-dimensional calculus, study of functions of several variables, partial derivatives, and optimization problems in multi-dimensional spaces. Vectors, vector-valued functions, parametric curves and three dimensional surfaces.

Prerequisites: MAT 241, MAT 242 with a grade of C- or better; or instructor approval.

Corequisites: MAT 342.

When Offered

Every fall semester.

MAT 342 - Calculus III Recitation

(0) Recitation section to accompany MAT 341 .

Prerequisites: MAT 241, MAT 242 with a grade of C- or better; or instructor approval.

Corequisites: MAT 341.

When Offered

Every fall semester.

MAT 352 - Differential Equations

(3) Ordinary differential equations, analytical, graphical, and numerical analyses, methods, and techniques. First and second order equations, Laplace Transformations, matrices, non-linear systems.

Prerequisites: MAT 241 and sophomore status.

When Offered

Every fall semester.

PHY 250 - Physics I Calculus-Based

(4) First semester physics for engineering students. Kinematics, dynamics, momenta, work and energy, gravitation, simple harmonic motion, and basic thermodynamics.

Prerequisites: MAT 241.

Corequisites: PHY 251, PHY 252.

When Offered

Every fall semester.

PHY 251 - Physics I Calculus-Based Recitation

(0) Recitation section to accompany PHY 250 Physics I.

Corequisites: PHY 250, PHY 252.

When Offered

Every fall semester.

PHY 252 - Physics I Calculus-Based Laboratory

(1) Laboratory section to accompany PHY 250 Physics I.

Corequisites: PHY 250, PHY 251.

Lab/Lecture Hours

Lab course.

Fee

Lab fees apply.

When Offered

Every fall semester.

PHY 350 - Physics II Calculus-Based

(4) Second semester calculus-based physics: Electricity and magnetism, wave motion, optics.

Prerequisites: PHY 250, PHY 251, PHY 252.

Corequisites: PHY 351, PHY 352.

When Offered

Every spring semester.

PHY 351 - Physics II Calculus-Based Recitation

(0) Recitation section to accompany PHY 350 Physics II.

Corequisites: PHY 350, PHY 352.

When Offered

Every spring semester.

PHY 352 - Physics II Calculus-Based Laboratory

(1) Laboratory section to accompany PHY 350 Physics I.

Corequisites: PHY 350, PHY 351.

Lab/Lecture Hours

Lab course.

Fee

Lab fees apply.

When Offered

Every spring semester.

Industrial and Systems Engineering Core (51 credit hours)**CIS 130 - Programming Foundations I**

(3) Programming teaches people logical thought progression. In this course students learn how to organize a problem into a series of steps and then write code in Python for a computer to implement the steps. Some of the modern software programming principles studied include object-oriented design, decomposition, encapsulation, abstraction, prototyping, testing, and the implementation of event-driven logic to solve real-world problems.

When Offered

Every fall semester.

EGI 101 - Introduction for Engineering

(4) Introduction to the field of engineering along with review of essential mathematics topics in applied contexts.

Prerequisites: Acceptance into the A.S. Pre-Engineering or B.S. Industrial Engineering program.

When Offered

Every fall semester.

EGI 201 - Computer Aided Design and Engineering Applications

(3) Use of computer systems to aid in creation, modification, analysis and optimization of design. Draw mechanical parts, architectural plans, and engineering diagrams. 2D drawings, simple 3D objects.

Prerequisites: Acceptance into the A.S. Pre-Engineering or B.S. Industrial Engineering program.

Fee

Course fees apply.

When Offered

Every spring semester.

EGI 215 - Engineering Ethics

(3) This course explores ethical and moral reasoning from both the Christian worldview and an engineering/technical perspective, focusing on the integration of the two. The course will use a variety of methods (e.g., case studies, role playing, incident research and analysis, etc.) to challenge students to think critically and reflect on their personal and professional beliefs. In addition to Biblical ethics, students will be introduced to National Society of Professional Engineers Code of Ethics as well as the Institute of Industrial and Systems Engineers Engineering Code of Ethics.

Prerequisites: EGI 101.

When Offered

Every fall semester.

EGI 220 - Systems Engineering

(3) This course introduces students to systems thinking and systems engineering; including topics such as defining systems, developing systems, deploying systems, system life cycles, socio-technical systems, complex systems, and applications in the technical/engineering workplace.

Prerequisites: EGI 101, or instructor permission; Industrial/Systems Engineering Majors only.

When Offered

Every fall semester.

EGI 225 - Human Factors

(3) Interactions between humans and the various parts of an industrial system: theory, principles, data and methods are studied to optimize both human comfort and system performance. Includes ergonomics, engineering psychology, human-machine relations, and laboratory exercises.

Prerequisites: Acceptance into the B.S. Industrial Engineering program.

When Offered

Every spring semester.

EGI 310 - Work Methods

(3) This course introduces students to the principles and techniques associated with observing, measuring, planning, and optimizing how employees work. Students will explore work from perspectives such as: time and motion, human information processing, physical and psychological impacts, etc.

Prerequisites: EGI 225 or Instructor Permission.

When Offered

Every spring semester.

EGI 320 - Operations Research I - Deterministic Models

(3) Scientific approaches to decision making, first semester: Deterministic operations research: quantitative modeling of linear, integer, network flow problems by use of computer optimization software.

Prerequisites: MAT 261, MAT 313.

When Offered

Every fall semester.

EGI 321 - Operations Research II - Stochastic Models

(3) Scientific approaches to decision making, second semester: Stochastic models. Powerful modeling and solution techniques to maximize the cost/benefit ratio. Markov processes and queuing theory and applications.

Prerequisites: EGI 320, MAT 341.

When Offered

Every spring semester.

EGI 391 - Manufacturing Systems

(3) Analyze manufacturing systems. Principles, practices, and methods of effective design and implementation of operations, production, control, quality and automation of systems. Includes probability, inventory and queuing models, forecasting, optimization, process analysis, as well as linear and dynamic systems.

Prerequisites: MAT 313.

Corequisites: EGI 310

When Offered

Every spring semester.

EGI 410 - Industrial Simulation

(3) Computer simulations to industrial engineering problems. System structure, system analysis, model construction, data collection, mathematical and computer models for planning and control of industrial facilities, human resources, projects, products, material, and information.

Prerequisites: EGI 391.

When Offered

Every fall semester.

EGI 414 - Statistical Quality Control

(3) Methods for modern quality control techniques, design of statistical process control systems, acceptance sampling, and process improvement.

Prerequisites: MAT 313 and EGI 321.

When Offered

Every fall semester.

EGI 420 - Logistics Management

(3) Practical management perspectives on analytic tools, approaches, and techniques for supply chain management. Planning, implementing, and controlling the flow and storage of goods and services via logistics systems and integrated supply chains. Probability and linear programming experience required.

Prerequisites: EGI 321.

When Offered

Every fall semester.

EGI 425 - ISE Advanced Technical Topics

(3) This course will cover special topics in advanced Industrial & Systems Engineering (ISE) as determined by trends in the field of Industrial & Systems Engineering, the CCU ISE faculty, and the CCU Engineering Advisory Board.

Prerequisites: EGI 420.

When Offered

Every spring semester.

EGI 435 - Engineering Economy and Capital Investments

(3) Comparisons of different economic systems, systematic evaluation of the costs and benefits associated with proposed technical projects, as well as ethical and other non-economic issues related to professional financial and economic decisions. Interpretation and use of accounting reports, cost-volume-profit analyses, as well as relevant cash flow techniques associated with a proposed capital investment in either the public or private sector. Three major decision

models: Net Present Value; Equivalent Uniform Benefit/Cost; and Internal Rate of Return. Also included are considerations of income taxes, inflation, risk, and capital rationing.

Prerequisites: Senior status only; instructor permission required.

When Offered

Every spring semester.

EGI 475 - Engineering Capstone I

(2) This course is the first of the two-course sequence in the Industrial & Systems Engineering capstone design sequence. Students will explore transitioning into the profession and will have the opportunity to dialog with professionals in the field. Throughout the semester, teams of students will identify real-world problems/opportunities, interact with potential clients, learn critical teamwork/communications skills, and begin to develop real solutions to real world engineering problems. Off-site trips to local companies and supplementary evening sessions may also be required.

Prerequisites: Senior status only; instructor permission required.

When Offered

Every fall semester.

EGI 476 - Engineering Capstone II

(3) This course is a continuation of EGI 475 and the second course of the two-course sequence in the Industrial & Systems Engineering capstone design sequence. Having identified a real-world engineering project, students will draw on learning from previous engineering courses to develop value related to their project. Team-work/communication skills and independence of thought is expected. An ethical and economic justification for the project and its feasibility, as well as an understanding of the contemporary issues surrounding their product's sustainability, socio-political implications, and environmental impacts are required. Off-site trips to local companies and supplementary evening sessions may also be required.

Prerequisites: EGI 475; Industrial/Systems Engineering Majors only; Instructor Permission required.

When Offered

Every spring semester.

Graduation Requirements for Bachelor of Science in Industrial and Systems Engineering

The faculty recommends students in the B.S. in Industrial and Systems Engineering to the Board of Trustees as candidates for graduation when they have completed the following requirements.

1. Completion of a total of 127 credits, including all general education and Engineering major program requirements.
2. A letter grade of D or better and a cumulative GPA of 2.0 or better in all CCU coursework, and a GPA of 2.0 or higher for all courses specified for the major.
3. Completion of 180 hours of ministry/community service and 180 chapel credits. Transfer students are required to complete 45 hours of ministry/community service and 45 chapel credits each year of attendance at CCU. For further details on ministry/community service, see the Life Directions Center (LDC) section of this catalog. For further details on chapel credits, see the Student Life section of this catalog.
4. Meet the CCU Residency requirements.
5. Acceptable performance on exit exams, as required by the faculty.
6. Formal and timely application for graduation by the date specified by the University Registrar.
7. No outstanding financial obligation to the University.

K-12 Physical Education Licensure (School of Science and Engineering)

Graduates in the K-12 Physical Education Licensure program earn a Bachelor of Science in two majors: Kinesiology and Physical Health Education, and K-12 Physical Education Teaching. This program is 120 credit hours and offers supervised clinical practice experiences in elementary, middle, and high school settings. Upon program completion, the candidate has met all requirements for an institutional recommendation for an Initial Colorado Teacher License with an Endorsement in K-12 Physical Education.

The Physical Education Licensure program requires a major in Kinesiology and Physical Health Education, a major in K-12 Physical Education Teaching, and completion of the following 120 credit hours.

General Education Core (45 credit hours)

Kinesiology and Physical Health Education Major Core (39 credit hours)

K-12 Physical Education Teaching Major Core (36 credit hours)

K-12 Physical Education Licensure

General Education Requirements (45 credit hours)

Arts and Humanities (9 credit hours)

Fine Arts (3 credit hours)

Choose one course from the following:

HUM 120 - Introduction to the Arts

(3) Introduction to our humanity through hands-on experience in the arts (music, visual arts, poetry, story, play, and dance). Aesthetic and artistic values in the broader context of human cultural development, responsibility, and joy.

Notes: This course satisfies the general education fine arts requirement for most students, and is the required fine arts course for education majors. It is recommended for all students with a general interest in the fine arts. Students with a special interest in theatre should see THR 112. Students with a special interest in music should see MUS 110.

Note: HUM 120 does not satisfy the fine arts requirement for music majors or minors.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

MUS 110 - Musical Perspectives

(3) An exploration of music in the broader context of culture and the arts; personal musical experiences through listening and doing; and developing the ability to discern aesthetic excellence. Included is an introduction to the elements of music and how music works, the development of a Christian perspective on the arts, a broad survey of representative selections of Western music, and a focused overview of non-western/world music.

Notes: This course satisfies the general education fine arts requirement for most students. It is recommended for all students, especially those with an interest in music, and is the required fine arts course for all music majors and minors. Students with a special interest in Theatre should see THR 112.

Note: MUS 110 does not satisfy the fine arts requirement for education majors.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

THR 112 - Theatre Appreciation

(3) An introduction to the theatre world and all its aspects: the people who are active in that world, the many kinds of work that are created, the sensations and ideas we receive from those works, and the ways the life of theatre has transmitted across many times and place.

Notes: This course satisfies the general education fine arts requirement for most students. It is recommended for all students, especially those with an interest in theatre. Students with a special interest in music should see MUS 110.

Note: THR 112 does not satisfy the fine arts requirement for music majors or minors, or education majors.

When Offered

Fall and spring semesters.

Literature (3 credit hours)

Choose one course from the following:

ENG 201 - Introduction to Literature

(3) Understand, experience, and evaluate poetry, short fiction, essays, and drama genres, both American and multinational.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Fall and spring semesters.

ENG 202 - American Literature I

(3) Representative stories, poems, and documents in American literature from the Colonial era to the early Republic (1776-1830) through the Romantic-transcendentalist period (1830-1860). Includes readings from multiethnic and women writers.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every fall semester.

ENG 203 - American Literature II

(3) Representative stories, poems, and drama in American literature from the Civil War to the present. Nontraditional ethnic and women's voices included. Emphasis on interpretation and criticism of American literature.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every spring semester.

ENG 204 - British Literature I

(3) Surveys the history of literature in Britain until 1800 and representative works by influential writers of the periods contained therein.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every fall semester.

ENG 205 - British Literature II

(3) Surveys the history of literature in Britain from 1800 to the present and representative works by influential writers.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every spring semester.

Philosophy (3 credit hours)

PHL 202 - Introduction to Philosophy

(3) This course is a survey of many major issues raised over the two-and-a-half millennia of western philosophy. With an emphasis on historical context and development, as well as philosophy's relationship to Christian thought, this course challenges students to critically explore philosophical questions and introduce them to the great tradition of intellectual inquiry. Special attention will be given to the subjects of truth and knowledge, reality and appearance, mind and body, right and wrong, beauty and the existence of God.

When Offered

Fall and summer semesters.

Biblical Studies (12 credit hours)

HUM 114 - New Testament

(3) This course provides an introduction to the theological, historical, and literary features of the New Testament, tracing the presentation of the gospel message through historical, epistolary, and apocalyptic genres. Special consideration will be given to the life of Christ and missionary journeys of the Apostle Paul.

When Offered

Every fall semester.

Cross-listed BIB 114.

HIS 111 - Old Testament

(3) This course provides an introduction to the theological, historical, and literary features of the Old Testament, tracing God's covenant relationship with ancient Israel. Special consideration will be given to the divine covenants and Messianic prophecies of the Old Testament.

When Offered

Every spring semester.

Cross-listed BIB 111.

PHL 315 - World Religions and Systems of Belief

(3) This course introduces an academic study of religion and what is called worldview, supplemented by an overview of some of the major tenets of Christianity; this is then followed by a survey of several other religious traditions and competing philosophies.

Prerequisites: PHL 202, THE 201.

When Offered

Winter and spring semesters.

THE 201 - Introduction to Theology

(3) This course covers basic issues, themes, and categories of Christian theology, including the doctrines of Scripture, God, humanity, Christ, salvation, the church, and last things. This course encourages students to better know, trust, love, and live by God's Word.

Prerequisites: BIB 111, BIB 114.

When Offered

Fall, winter, spring, and summer semesters.

Communication (6 credit hours)

COM 103 - Public Speaking

(3) Introductory principles of communication emphasizing public speaking. Aspects of verbal and nonverbal delivery, speech organization, and the effective use of supporting material and presentational aids are addressed. Students give several speeches designed to better equip them for future speaking endeavors

When Offered

Fall and spring semesters.

ENG 102 - English Composition

(3) Effective use of the English language and exploration of rhetorical modes in written composition. Review of structure, purpose, and audience awareness in developing essays.

Prerequisites: ACT and/or SAT scores will be used to determine placement in either ENG 102 or ENG 102 (Basic).

Notes: Course must be completed first semester at CCU.

When Offered

Fall and spring semester.

ENG 105 - Advanced English Composition

(3) Advanced English composition, research methods, and literary study for invited exceptional students. Focus on both the study of literature and research writing.

Prerequisites: One of the following:

- AP English Language and Composition
 - A score of 4 is the minimum prerequisite for enrollment in ENG 105. A student who scores a 4 or 5 will automatically enroll a student in ENG 105 instead of ENG 102 and/or ENG 201.
- AP English Literature and Composition
 - A score of 4 is the minimum prerequisite for enrollment in ENG 105. A student who scores a 4 or 5 will automatically enroll a student in ENG 105 instead of ENG 102 and/or ENG 201.
- Score of 30 or above on the verbal section of the ACT exam.
- Score of 700 or above on the verbal section of the SAT exam.
- By invitation of the English department.

Notes: Fulfills general education requirements for both ENG 102 and ENG 201.

When Offered

Every fall semester.

Integrative Studies (3 credit hours)

* Please see the First-Year Integration (FYI) page for specific information about this required course.

INT 101 - First-Year Integration

(3) Think critically, grow spiritually, and change the world. Based on the premise that we as Christians are called to be rational creatures, relational creatures, and responsible creatures, FYI is an integrative study of foundational Christian

principles with other disciplines. Examination and discussion of problems and contemporary issues - academic, personal, and social - facing students in their pursuit of success in college and life. Please see the First-Year Integration (FYI) page for specific information about this required course.

When Offered

Fall and spring semesters.

Mathematics (3 credit hours)

MAT 112 - Mathematics for Liberal Arts

(3) This course introduces some of the important ideas in mathematics and how they can be applied in everyday life situations, solving a wide range of practical problems. Topics include sets, logic, history of numeration, number systems and their properties, number patterns, counting principles, probability, statistics, graph theory, personal finance, and voting methods.

Notes: Students with higher level mathematics skills (i.e. ACT MAT above 20 and SAT MATH above 520) are discouraged from taking this class. Only students who do not place into MAT 111 - College Algebra should enroll in MAT 112 - Mathematics for Liberal Arts.

When Offered

Fall, spring and summer semesters.

MAT 212 - Statistics and their Application

(3) An introduction to statistical analysis as used in various liberal arts disciplines. Descriptive and inferential statistics and attendant research designs will be considered. Students will become familiar with SPSS and its use in analyzing data and decision making.

Prerequisites: Sophomore standing.

When Offered

Fall and spring semesters.

Social Sciences (12 credit hours)

Take each of the following four courses:

ECO 215 - Economics

(3) Economics is about scarcity and choice. Students in this course study how people, firms, governments, and nations interact in alternative economic systems to make choices about allocating scarce resources. In addition, students learn to evaluate these systems, understand macroeconomic monetary and fiscal policies, and engage in policy debates.

When Offered

Fall and spring semesters.

HIS 185 - Western Civilization

(3) The spiritual values and intellectual achievements of ancient Israel, Greece, Rome, the Middle Ages, the Renaissance, and Reformation that gave birth to the modern world.

When Offered

Every fall semester.

HIS 205 - American History

(3) Principles of the founding and the political, economic, intellectual, cultural, and religious traditions that have shaped America.

When Offered

Every spring semester.

POL 207 - Introduction to American Politics

(3) Introduction to political science and American government to prepare students to be effective citizens.

When Offered

Every fall and spring semester.

Kinesiology and Physical Health Education Major Core (39 credit hours)

BIO 120 - Biological Principles

(3) Life processes common to plants and animals, cell structure and function. Introduction to genetics, biochemistry, and development.

Prerequisites: For Biological and General Sciences majors only.

Corequisites: BIO 121.

When Offered

Every fall semester.

BIO 121 - Biological Principles Lab

(1) Corequisite Lab for BIO 120 Biological Principles.

Corequisites: BIO 120.

Lab/Lecture Hours

Three-hour lab.

Fee

Course fees apply.

When Offered

Every fall semester.

BIO 201 - Human Anatomy and Physiology I

(3) Structure and function of the skeletal, muscular, and nervous systems.

Prerequisites: BIO 120 or BIO 209.

Corequisites: BIO 211 (Lab).

When Offered

Every fall and spring semester.

BIO 211 - Human Anatomy and Physiology I Lab

(1)

Corequisites: BIO 201.

Lab/Lecture Hours

Three-hour lab.

Fee

Lab fees apply.

When Offered

Every fall and spring semester.

BIO 202 - Human Anatomy and Physiology II

(3) Human respiratory, circulatory, digestive, excretory, endocrine, and reproductive systems.

Prerequisites: BIO 201.

Corequisites: BIO 212 (Lab).

When Offered

Every fall and spring semester.

BIO 212 - Human Anatomy and Physiology II Lab

(1)

Corequisites: BIO 202.

Lab/Lecture Hours

Three-hour lab.

Fee

Lab fees apply.

When Offered

Every fall and spring semester.

CHM 111 - Nutrition

(3) Nutrients and their functions in the body. Nutrition and health, clinical applications of nutrition, and facts and fallacies of diet. Meets nutrition prerequisites for students planning to enter various advanced programs for health science-oriented professions.

When Offered

Every spring semester.

KIN 210 - Foundations in Kinesiology

(3) Foundations in Kinesiology introduces the study of kinesiology and provides the foundations of anatomy, physiology, biomechanics, and sports psychology for students to continue their kinesiology degree.

When Offered

Every fall semester.

KIN 220 - Introduction to Sports Medicine

(3) Introduce students to sports medicine and how athletes are treated in contrast to other medical practices.

Fee

Course fees apply.

When Offered

Every spring semester.

KIN 225 - Individual and Dual Physical Activities

(3) This course examines the key factors related to proper instruction and participation for individual sports, team sports, and lifetime physical activities. Emphasis is placed on rules, strategies, organization, and the development of skills.

Prerequisites: KIN 210. Student must be a declared major in Kinesiology, Physical Education, Pre-Physical Therapy, or Sports Management.

Fee

Course fee applies.

When Offered

Every spring semester.

KIN 235 - Motor Learning and Performance

(3) This course introduces students to the physiological, neurological, and psychological mechanisms of motor behavior, control, and learning within the context of skill development.

Prerequisites: KIN 210. Student must be a declared major in Kinesiology, Physical Education, Pre-Physical Therapy, or Sports Management.

Fee

Course fee applies.

When Offered

Every fall semester.

KIN 245 - Team Sports and Games

(3) This course examines the key fundamentals in teaching and implementing team sports and games for K-12 physical education programs.

Prerequisites: KIN 210. Student must be a declared major in Kinesiology, Physical Education, Pre-Physical Therapy, or Sports Management.

Fee

Course fee applies.

When Offered

Every spring semester.

KIN 310 - Mental Aspects of Sports Performance

(3) Offers overview of basic concepts and principles essential to understanding the psychological and behavioral aspects of sport and exercise. Emphasis is given to the conceptual frameworks and the applied aspects of sport performance enhancement and mental skills, exercise behavior and motivation, and health and well being. Applications are made to future practitioners of coaching, teaching, sports medicine, counseling, sport management, and fitness instruction.

Prerequisites: PSY 101 or PSY 201 or PSY 245.

When Offered

Every spring semester.

KIN 320 - Physiology of Exercise

(3) Educate students how exercise affects the anatomy and physiology of the human body.

Prerequisites: BIO 202, BIO 212. Student must be a declared major in Kinesiology, Physical Education, Pre-Physical Therapy, or Sports Management.

When Offered

Every fall semester.

KIN 340 - Anatomical Kinesiology

(3) This course is designed to help students integrate the knowledge of anatomy and biomechanics to understand functional movement in sport and physical activity.

Prerequisites: BIO 201, BIO 211, KIN 210. Student must be a declared major in Kinesiology, Physical Education, Pre-Physical Therapy, or Sports Management.

Fee

Course fee applies.

When Offered

Every spring semester.

K-12 Physical Education Teaching Major Core (36 credit hours)

CLD 205 - Culturally Responsive Pedagogy

(3) This course focuses on theories, concepts, research and pedagogical techniques related to culturally-responsive teaching, English language learning, language and content acquisition, teacher-student relationships, and building school-community partnerships with culturally diverse populations.

Prerequisites: Sophomore standing.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

EDU 214 - Field 1 Theory and Practice in Elementary Education

(3) Field 1 is the first of a four-semester, professional field-based experience within a CCU partnership school. The focus is on educational theory, as well as the development and implementation of standards-based lessons under university and school-based teacher supervision. Teacher candidates complete hours toward the clinical program hour minimum in addition to on-campus seminars.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

EDU 215 - Field 1 Theory and Practice in Secondary Education

(3) Field 1 is the first of a four-semester, professional field-based experience within a CCU partnership secondary school. The focus is on education theory, as well as the development and implementation of standards-based lessons under university and school-based teacher supervision. Teacher candidates complete hours toward the clinical program hour minimum in addition to on-campus seminars.

Fee

Course fees apply.

When Offered

Every fall and spring semester.

EDU 250 - Field 2 Elementary Classroom and Behavior Management

(3) Field 2 is the second of a four-semester, professional field-based experience within a CCU partnership school. The focus is on implementation of research-based methods related to classroom and behavior management under university and school-based teacher supervision. Teacher candidates complete hours toward the required clinical program hour minimum in addition to on-campus seminars.

Prerequisites: EDU 214 or SPD 213; Sophomore standing. School of Education major or minor students only.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

EDU 260 - Field 2 Secondary Classroom and Behavior Management

(3) Field 2 is the second of a four-semester, professional field-based experience within a CCU partnership school. The focus is on implementation of research-based methods related to classroom and behavior management under university and school-based teacher supervision. Teacher candidates complete hours toward the required clinical program hour minimum in addition to on-campus seminars.

Prerequisites: EDU 215 or SPD 213. School of Education major or minor students only.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

EDU 340 - Assessment of Learning and Critical Thinking

(3) The role of assessment and evaluation in critical thinking development and the instructional decision-making process is explored, with an emphasis on practical application to student learning outcomes, and increasing achievement for students from diverse backgrounds. Performance-based assessment, assessment procedures, protocols, and other assessment practices will be analyzed.

Prerequisites: Sophomore standing.

When Offered

Fall and spring semesters.

EDU 380 - Foundations of K-12 Physical Education

(3) This course provides an overview of both historical and contemporary foundations for K-12 Physical Education in the United States, including the study of philosophical, cultural, and scientific influences in physical education programs.

Prerequisites: EDU 214 or EDU 215.

When Offered

Every spring semester.

EDU 445 - K-12 Physical Education Student Teaching and Seminar 1

(3) This course is the third of a four-semester, field-based experience within a CCU partnership school. Focus is on the implementation of research-based methods in a K-12 physical education classroom under university and school-based teacher supervision. Teacher candidates implement K-12 physical education lessons aligned to state/professional standards. Candidates complete hours toward the required clinical program hour minimum in addition to on-campus seminars.

Prerequisites: EDU 250 or EDU 260; EDU 340.

Fee

Course fee applies.

When Offered

Every fall semester.

EDU 475 - K-12 Physical Education Student Teaching and Seminar 2

(12) This course is the culminating, professional experience within a CCU partnership school. Teacher candidates complete a full-time teaching experience under the guidance of a licensed School-Based Teacher and CCU Supervisor. Teacher candidates implement lessons and complete action research via instruction aligned to state/professional standards. Teacher candidates complete the clinical program hour minimum in addition to on-campus seminars.

Prerequisites: EDU 445.

Fee

Course fee applies.

When Offered

Every spring semester.

EPS 340 - Educational Child Psychology and Development

(3) The educator's role in recognizing, evaluating and guiding the cognitive, physical, psychosocial and emotional growth patterns and characteristics from infants to early, middle and late childhood, as well as adolescence.

When Offered

Fall and spring semesters.

EPS 342 - Adolescent Development and Culture

(3) Biological, cognitive, psychological, social, and moral growth and development of early, middle and late adolescents. Explores theories of adolescent development in a family, peer, school, and community context. Explores personal, educational and career decision making, psychosocial problems during adolescence, and implications for teaching, youth ministry, counseling, and nonprofit organization work with youth.

Prerequisites: Sophomore standing (30+ Credit Hours).

When Offered

Every fall and spring semester.

SPD 210 - Introduction to Special Education

(3) Understanding of the integration of exceptional children and adolescents (K-12) into general educational environments. Development of an understanding of students with special needs. Designing a learning environment to include assessment and adaptation of instruction to maximize student learning potential.

When Offered

Every fall and spring semester.

SED 500 - Introduction to Special Education

(3) This course is an introduction to the profession of special education and focuses on the foundations of special education (history, law, and finance), the special education teacher (ethics, professionalism and roles), and with knowledge about current trends (issues and research based). (Includes 20 field hours)

Graduation Requirements for Bachelor of Science in Physical Education Licensure

The faculty recommends students in the B.S. in Physical Education Licensure to the Board of Trustees as candidates for graduation when they have completed the following requirements.

1. Completion of a total of 120 credits, including all general education, Kinesiology and Physical Health Education major, and K-12 Physical Education Teaching major core requirements.
2. A letter grade of D or better and a cumulative GPA of 2.5 or better in all CCU coursework, and a C- or better in all Kinesiology and Physical Health Education and K-12 Physical Education Teaching courses.
3. Completion of 180 hours of ministry/community service and 180 chapel credits. Transfer students are required to complete 45 hours of ministry/community service and 45 chapel credits each year of attendance at CCU. For further details on ministry/community service, see the Life Directions Center (LDC) section of this catalog. For further details on chapel credits, see the Student Life section of this catalog.
4. Meet the CCU Residency requirements.
5. Acceptable performance on exit exams, as required by the faculty.
6. Formal and timely application for graduation by the date specified by the University Registrar.
7. No outstanding financial obligation to the University.

Kinesiology and Exercise Science Major

The Bachelor of Science in Kinesiology and Exercise Science prepares students for a career in multiple fields including activity, athletics or camp directors; coaching; and preparation for further education or certifications in areas such as athletic training, personal training, occupational therapy, and physical therapy.

The Kinesiology and Exercise Science major focuses on the anatomical, physiological, biochemical, and biophysical basis for human movement along with their applications to exercise and rehabilitation.

The B.S. Kinesiology and Exercise Science requires completion of the following 120 credits:
General Education (49 credit hours)
Kinesiology and Exercise Science Core (57 credit hours)
Electives (14 credit hours)

General Education Requirements (49 credit hours)

Arts and Humanities (9 credit hours)

Take one course from each of the following three academic disciplines:

Fine Arts (3 credit hours)

Choose one course from the following:

HUM 120 - Introduction to the Arts

(3) Introduction to our humanity through hands-on experience in the arts (music, visual arts, poetry, story, play, and dance). Aesthetic and artistic values in the broader context of human cultural development, responsibility, and joy.

Notes: This course satisfies the general education fine arts requirement for most students, and is the required fine arts course for education majors. It is recommended for all students with a general interest in the fine arts. Students with a special interest in theatre should see THR 112. Students with a special interest in music should see MUS 110.

Note: HUM 120 does not satisfy the fine arts requirement for music majors or minors.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

MUS 110 - Musical Perspectives

(3) An exploration of music in the broader context of culture and the arts; personal musical experiences through listening and doing; and developing the ability to discern aesthetic excellence. Included is an introduction to the elements of music and how music works, the development of a Christian perspective on the arts, a broad survey of representative selections of Western music, and a focused overview of non-western/world music.

Notes: This course satisfies the general education fine arts requirement for most students. It is recommended for all students, especially those with an interest in music, and is the required fine arts course for all music majors and minors. Students with a special interest in Theatre should see THR 112.

Note: MUS 110 does not satisfy the fine arts requirement for education majors.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

THR 112 - Theatre Appreciation

(3) An introduction to the theatre world and all its aspects: the people who are active in that world, the many kinds of work that are created, the sensations and ideas we receive from those works, and the ways the life of theatre has transmitted across many times and place.

Notes: This course satisfies the general education fine arts requirement for most students. It is recommended for all students, especially those with an interest in theatre. Students with a special interest in music should see MUS 110.

Note: THR 112 does not satisfy the fine arts requirement for music majors or minors, or education majors.

When Offered

Fall and spring semesters.

Literature (3 credit hours)

Choose one course from the following:

ENG 201 - Introduction to Literature

(3) Understand, experience, and evaluate poetry, short fiction, essays, and drama genres, both American and multinational.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Fall and spring semesters.

ENG 202 - American Literature I

(3) Representative stories, poems, and documents in American literature from the Colonial era to the early Republic (1776-1830) through the Romantic-transcendentalist period (1830-1860). Includes readings from multiethnic and women writers.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every fall semester.

ENG 203 - American Literature II

(3) Representative stories, poems, and drama in American literature from the Civil War to the present. Nontraditional ethnic and women's voices included. Emphasis on interpretation and criticism of American literature.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every spring semester.

ENG 204 - British Literature I

(3) Surveys the history of literature in Britain until 1800 and representative works by influential writers of the periods contained therein.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every fall semester.

ENG 205 - British Literature II

(3) Surveys the history of literature in Britain from 1800 to the present and representative works by influential writers.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every spring semester.

Philosophy (3 credit hours)**PHL 202 - Introduction to Philosophy**

(3) This course is a survey of many major issues raised over the two-and-a-half millennia of western philosophy. With an emphasis on historical context and development, as well as philosophy's relationship to Christian thought, this course challenges students to critically explore philosophical questions and introduce them to the great tradition of intellectual inquiry. Special attention will be given to the subjects of truth and knowledge, reality and appearance, mind and body, right and wrong, beauty and the existence of God.

When Offered

Fall and summer semesters.

Biblical Studies (12 credit hours)

Take the following four courses (some courses are cross-listed and only one prefix needs to be taken):

BIB 111 - Old Testament

(3) This course provides an introduction to the theological, historical, and literary features of the Old Testament, tracing God's covenant relationship with ancient Israel. Special consideration will be given to the divine covenants and Messianic prophecies of the Old Testament.

When Offered

Every spring semester.

Cross-listed HIS 111

HIS 111 - Old Testament

(3) This course provides an introduction to the theological, historical, and literary features of the Old Testament, tracing God's covenant relationship with ancient Israel. Special consideration will be given to the divine covenants and Messianic prophecies of the Old Testament.

When Offered

Every spring semester.
Cross-listed BIB 111.

BIB 114 - New Testament

(3) This course provides an introduction to the theological, historical, and literary features of the New Testament, tracing the presentation of the gospel message through historical, epistolary, and apocalyptic genres. Special consideration will be given to the life of Christ and missionary journeys of the Apostle Paul.

When Offered

Every fall semester.
Cross-listed HUM 114

HUM 114 - New Testament

(3) This course provides an introduction to the theological, historical, and literary features of the New Testament, tracing the presentation of the gospel message through historical, epistolary, and apocalyptic genres. Special consideration will be given to the life of Christ and missionary journeys of the Apostle Paul.

When Offered

Every fall semester.
Cross-listed BIB 114.

PHL 315 - World Religions and Systems of Belief

(3) This course introduces an academic study of religion and what is called worldview, supplemented by an overview of some of the major tenets of Christianity; this is then followed by a survey of several other religious traditions and competing philosophies.

Prerequisites: PHL 202, THE 201.

When Offered

Winter and spring semesters.

THE 201 - Introduction to Theology

(3) This course covers basic issues, themes, and categories of Christian theology, including the doctrines of Scripture, God, humanity, Christ, salvation, the church, and last things. This course encourages students to better know, trust, love, and live by God's Word.

Prerequisites: BIB 111, BIB 114.

When Offered

Fall, winter, spring, and summer semesters.

Communication (6 credit hours)

COM 103 - Public Speaking

(3) Introductory principles of communication emphasizing public speaking. Aspects of verbal and nonverbal delivery, speech organization, and the effective use of supporting material and presentational aids are addressed. Students give several speeches designed to better equip them for future speaking endeavors

When Offered

Fall and spring semesters.

ENG 102 - English Composition

(3) Effective use of the English language and exploration of rhetorical modes in written composition. Review of structure, purpose, and audience awareness in developing essays.

Prerequisites: ACT and/or SAT scores will be used to determine placement in either ENG 102 or ENG 102 (Basic).

Notes: Course must be completed first semester at CCU.

When Offered

Fall and spring semester.

ENG 105 - Advanced English Composition

(3) Advanced English composition, research methods, and literary study for invited exceptional students. Focus on both the study of literature and research writing.

Prerequisites: One of the following:

- AP English Language and Composition
 - A score of 4 is the minimum prerequisite for enrollment in ENG 105. A student who scores a 4 or 5 will automatically enroll a student in ENG 105 instead of ENG 102 and/or ENG 201.
- AP English Literature and Composition
 - A score of 4 is the minimum prerequisite for enrollment in ENG 105. A student who scores a 4 or 5 will automatically enroll a student in ENG 105 instead of ENG 102 and/or ENG 201.
- Score of 30 or above on the verbal section of the ACT exam.
- Score of 700 or above on the verbal section of the SAT exam.
- By invitation of the English department.

Notes: Fulfills general education requirements for both ENG 102 and ENG 201.

When Offered

Every fall semester.

Integrative Studies (3 credit hours)

* Please see the First-Year Integration (FYI) page for specific information about this required course.

INT 101 - First-Year Integration

(3) Think critically, grow spiritually, and change the world. Based on the premise that we as Christians are called to be rational creatures, relational creatures, and responsible creatures, FYI is an integrative study of foundational Christian principles with other disciplines. Examination and discussion of problems and contemporary issues - academic, personal, and social - facing students in their pursuit of success in college and life. Please see the First-Year Integration (FYI) page for specific information about this required course.

When Offered

Fall and spring semesters.

Mathematics (3 credit hours)

MAT 212 - Statistics and their Application

(3) An introduction to statistical analysis as used in various liberal arts disciplines. Descriptive and inferential statistics and attendant research designs will be considered. Students will become familiar with SPSS and its use in analyzing data and decision making.

Prerequisites: Sophomore standing.

When Offered

Fall and spring semesters.

Science (4 credit hours)

BIO 120 - Biological Principles

(3) Life processes common to plants and animals, cell structure and function. Introduction to genetics, biochemistry, and development.

Prerequisites: For Biological and General Sciences majors only.

Corequisites: BIO 121.

When Offered

Every fall semester.

BIO 121 - Biological Principles Lab

(1) Corequisite Lab for BIO 120 Biological Principles.

Corequisites: BIO 120.

Lab/Lecture Hours

Three-hour lab.

Fee

Course fees apply.

When Offered

Every fall semester.

Social Sciences (12 credit hours)

Take each of the following four courses:

HIS 185 - Western Civilization

(3) The spiritual values and intellectual achievements of ancient Israel, Greece, Rome, the Middle Ages, the Renaissance, and Reformation that gave birth to the modern world.

When Offered

Every fall semester.

HIS 205 - American History

(3) Principles of the founding and the political, economic, intellectual, cultural, and religious traditions that have shaped America.

When Offered

Every spring semester.

POL 207 - Introduction to American Politics

(3) Introduction to political science and American government to prepare students to be effective citizens.

When Offered

Every fall and spring semester.

ECO 215 - Economics

(3) Economics is about scarcity and choice. Students in this course study how people, firms, governments, and nations interact in alternative economic systems to make choices about allocating scarce resources. In addition, students learn to evaluate these systems, understand macroeconomic monetary and fiscal policies, and engage in policy debates.

When Offered

Fall and spring semesters.

Kinesiology and Exercise Science Major Core (57 credit hours)

BIO 201 - Human Anatomy and Physiology I

(3) Structure and function of the skeletal, muscular, and nervous systems.

Prerequisites: BIO 120 or BIO 209.

Corequisites: BIO 211 (Lab).

When Offered

Every fall and spring semester.

BIO 211 - Human Anatomy and Physiology I Lab

(1)

Corequisites: BIO 201.

Lab/Lecture Hours

Three-hour lab.

Fee

Lab fees apply.

When Offered

Every fall and spring semester.

BIO 202 - Human Anatomy and Physiology II

(3) Human respiratory, circulatory, digestive, excretory, endocrine, and reproductive systems.

Prerequisites: BIO 201.

Corequisites: BIO 212 (Lab).

When Offered

Every fall and spring semester.

BIO 212 - Human Anatomy and Physiology II Lab

(1)

Corequisites: BIO 202.

Lab/Lecture Hours

Three-hour lab.

Fee

Lab fees apply.

When Offered

Every fall and spring semester.

CHM 111 - Nutrition

(3) Nutrients and their functions in the body. Nutrition and health, clinical applications of nutrition, and facts and fallacies of diet. Meets nutrition prerequisites for students planning to enter various advanced programs for health science-oriented professions.

When Offered

Every spring semester.

KIN 210 - Foundations in Kinesiology

(3) Foundations in Kinesiology introduces the study of kinesiology and provides the foundations of anatomy, physiology, biomechanics, and sports psychology for students to continue their kinesiology degree.

When Offered

Every fall semester.

KIN 220 - Introduction to Sports Medicine

(3) Introduce students to sports medicine and how athletes are treated in contrast to other medical practices.

Fee

Course fees apply.

When Offered

Every spring semester.

KIN 235 - Motor Learning and Performance

(3) This course introduces students to the physiological, neurological, and psychological mechanisms of motor behavior, control, and learning within the context of skill development.

Prerequisites: KIN 210. Student must be a declared major in Kinesiology, Physical Education, Pre-Physical Therapy, or Sports Management.

Fee

Course fee applies.

When Offered

Every fall semester.

KIN 240 - Sports Nutrition

(3) This course examines the empirically-based evidence behind proper nutritional habits and programming among an athletic population.

Prerequisites: CHM 111, KIN 210. Student must be a declared major in Kinesiology, Physical Education, Pre-Physical Therapy, or Sports Management.

Fee

Course fee applies.

When Offered

Every fall semester.

KIN 310 - Mental Aspects of Sports Performance

(3) Offers overview of basic concepts and principles essential to understanding the psychological and behavioral aspects of sport and exercise. Emphasis is given to the conceptual frameworks and the applied aspects of sport performance enhancement and mental skills, exercise behavior and motivation, and health and well being. Applications are made to future practitioners of coaching, teaching, sports medicine, counseling, sport management, and fitness instruction.

Prerequisites: PSY 101 or PSY 201 or PSY 245.

When Offered

Every spring semester.

KIN 320 - Physiology of Exercise

(3) Educate students how exercise affects the anatomy and physiology of the human body.

Prerequisites: BIO 202, BIO 212. Student must be a declared major in Kinesiology, Physical Education, Pre-Physical Therapy, or Sports Management.

When Offered

Every fall semester.

KIN 330 - Therapeutic Exercise and Rehabilitation

(3) An introduction to the science behind therapeutic exercise and how it may be used in recovery and rehabilitation.

Prerequisites: KIN 320. Student must be a declared major in Kinesiology, Physical Education, Pre-Physical Therapy, or Sports Management.

When Offered

Every spring semester.

KIN 340 - Anatomical Kinesiology

(3) This course is designed to help students integrate the knowledge of anatomy and biomechanics to understand functional movement in sport and physical activity.

Prerequisites: BIO 201, BIO 211, KIN 210. Student must be a declared major in Kinesiology, Physical Education, Pre-Physical Therapy, or Sports Management.

Fee

Course fee applies.

When Offered

Every spring semester.

KIN 410 - Testing and Prescription

(3) This course is designed to provide the student with an understanding of techniques necessary for exercise test administration, evaluation, and prescription for varying ages, athletic, and physical activity participation levels, and special populations.

Prerequisites: KIN 320. Student must be a declared major in Kinesiology, Physical Education, Pre-Physical Therapy, or Sports Management.

When Offered

Every spring semester.

KIN 430 - Kinesiology Senior Seminar

(3) This course is designed to integrate anatomy and physiology, kinesiology, biometrics, and sports psychology in an applied setting.

Prerequisites: Senior standing. Student must be a declared major in Kinesiology, Physical Education, Pre-Physical Therapy, or Sports Management.

When Offered

Every fall semester.

KIN 450 - Kinesiology Senior Internship

(5) Supervised field experience in a professional setting.

Prerequisites: KIN 430. Student must be a declared major in Kinesiology, Physical Education, Pre-Physical Therapy, or Sports Management.

Notes: Pass/Fail.

When Offered

Scheduled by school.

KIN 460 - Biomechanics

(3) This course is designed to examine the key mechanical principles related to human movement. Emphasis is placed on the kinetic and kinematic concepts of various functional movement patterns.

Prerequisites: KIN 340. Student must be a declared major in Kinesiology, Physical Education, Pre-Physical Therapy, or Sports Management.

Fee

Course fee applies.

When Offered

Every spring semester.

PHY 210 - General Physics I

(4) Basic principles of physics; classical mechanics, electricity and magnetism, thermodynamics, other selected topics.

Prerequisites: MAT 111 or MAT 115 or MAT 141.

Corequisites: PHY 211, PHY 212.

When Offered

Every fall semester.

PHY 211 - General Physics I Recitation

(0) Recitation.

Corequisites: PHY 210.

When Offered

Every fall semester.

PHY 212 - General Physics I Lab

(1) Lab.

Corequisites: PHY 210.

Lab/Lecture Hours

One-credit lab.

Fee

Lab fees apply.

When Offered

Every fall semester.

PSY 101 - Introduction to Psychology

(3) This course provides an overview of the field of psychology, including psychological principles, methods, theories, and research broadly applied to various domains within the discipline. This course will equip students to understand the theoretical and philosophical foundations of contemporary psychology in light of a Christian worldview, and proposes an integrated framework from which to approach psychology and their Christian faith.

When Offered

Every fall and spring semesters.

PSY 201 - Social Psychology

(3) An overarching theme for the CCU Psychology program is that we are, at our core, relational persons. No area of psychology exemplifies this more consistently than social psychology. This course focuses on the powerful influence that

groups can have on individuals, as well as evidence that humans are strongly motivated to seek relationships with others.

When Offered

Every spring semester.

PSY 245 - Life-Span Psychology

(3) The pattern of human development shows certain goals and tasks that are almost universal across persons, yet each of us is differently shaped by our experiences and our genetics. In this course, we explore how much and in what ways people change and compare the various theories with a Christian understanding of the direction of development.

When Offered

Every fall semester.

Graduation Requirements for Bachelor of Science in Kinesiology and Exercise Science

The faculty recommends students in the B.S. in Kinesiology and Exercise Science to the Board of Trustees as candidates for graduation when they have completed the following requirements.

1. Completion of a total of 120 credits, including all general education, electives and Kinesiology and Exercise Science major program requirements.
2. A letter grade of D or better and a cumulative GPA of 2.0 or better in all CCU coursework, and a GPA of 2.0 or higher for all courses specified for the major.
3. Completion of 180 hours of ministry/community service and 180 chapel credits. Transfer students are required to complete 45 hours of ministry/community service and 45 chapel credits each year of attendance at CCU. For further details on ministry/community service, see the Life Directions Center (LDC) section of this catalog. For further details on chapel credits, see the Student Life section of this catalog.
4. Meet the CCU Residency requirements.
5. Acceptable performance on exit exams, as required by the faculty.
6. Formal and timely application for graduation by the date specified by the University Registrar.
7. No outstanding financial obligation to the University.

Pre-Medical Profession Major

The Pre-Medical Profession Major provides a foundation for professional or graduate study in medicine, osteopathic, chiropractic, podiatric, dentistry, veterinary medicine, optometry, and other graduate programs in the allied health fields.

There can be no double major within the Biological Science Majors, i.e., you may not declare a double major with Health Sciences and Biology or with Biology and Pre-Medical Profession or with Health Sciences and Pre-Medical Profession.

The Bachelor of Science in Pre-Medical Profession requires completion of the following 120 credits:

General Education Core (45 credit hours)

Pre-Medical Profession Core (72 credit hours)

General Electives (3 credit hours)

General Education Requirements (45 credit hours)

Arts and Humanities (9 credit hours)

Take one course from each of the following three academic disciplines:

Fine Arts (3 credit hours)

Choose one course from the following:

HUM 120 - Introduction to the Arts

(3) Introduction to our humanity through hands-on experience in the arts (music, visual arts, poetry, story, play, and dance). Aesthetic and artistic values in the broader context of human cultural development, responsibility, and joy.

Notes: This course satisfies the general education fine arts requirement for most students, and is the required fine arts course for education majors. It is recommended for all students with a general interest in the fine arts. Students with a special interest in theatre should see THR 112. Students with a special interest in music should see MUS 110.

Note: HUM 120 does not satisfy the fine arts requirement for music majors or minors.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

MUS 110 - Musical Perspectives

(3) An exploration of music in the broader context of culture and the arts; personal musical experiences through listening and doing; and developing the ability to discern aesthetic excellence. Included is an introduction to the elements of music and how music works, the development of a Christian perspective on the arts, a broad survey of representative selections of Western music, and a focused overview of non-western/world music.

Notes: This course satisfies the general education fine arts requirement for most students. It is recommended for all students, especially those with an interest in music, and is the required fine arts course for all music majors and minors. Students with a special interest in Theatre should see THR 112.

Note: MUS 110 does not satisfy the fine arts requirement for education majors.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

THR 112 - Theatre Appreciation

(3) An introduction to the theatre world and all its aspects: the people who are active in that world, the many kinds of work that are created, the sensations and ideas we receive from those works, and the ways the life of theatre has transmitted across many times and place.

Notes: This course satisfies the general education fine arts requirement for most students. It is recommended for all students, especially those with an interest in theatre. Students with a special interest in music should see MUS 110.

Note: THR 112 does not satisfy the fine arts requirement for music majors or minors, or education majors.

When Offered

Fall and spring semesters.

Literature (3 credit hours)

Choose one course from the following:

ENG 201 - Introduction to Literature

(3) Understand, experience, and evaluate poetry, short fiction, essays, and drama genres, both American and multinational.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Fall and spring semesters.

ENG 202 - American Literature I

(3) Representative stories, poems, and documents in American literature from the Colonial era to the early Republic (1776-1830) through the Romantic-transcendentalist period (1830-1860). Includes readings from multiethnic and women writers.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every fall semester.

ENG 203 - American Literature II

(3) Representative stories, poems, and drama in American literature from the Civil War to the present. Nontraditional ethnic and women's voices included. Emphasis on interpretation and criticism of American literature.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every spring semester.

ENG 204 - British Literature I

(3) Surveys the history of literature in Britain until 1800 and representative works by influential writers of the periods contained therein.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every fall semester.

ENG 205 - British Literature II

(3) Surveys the history of literature in Britain from 1800 to the present and representative works by influential writers.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every spring semester.

Philosophy (3 credit hours)

PHL 202 - Introduction to Philosophy

(3) This course is a survey of many major issues raised over the two-and-a-half millennia of western philosophy. With an emphasis on historical context and development, as well as philosophy's relationship to Christian thought, this course challenges students to critically explore philosophical questions and introduce them to the great tradition of intellectual inquiry. Special attention will be given to the subjects of truth and knowledge, reality and appearance, mind and body, right and wrong, beauty and the existence of God.

When Offered

Fall and summer semesters.

Biblical Studies (12 credit hours)

Take the following four courses (some courses are cross-listed and only one prefix needs to be taken):

BIB 111 - Old Testament

(3) This course provides an introduction to the theological, historical, and literary features of the Old Testament, tracing God's covenant relationship with ancient Israel. Special consideration will be given to the divine covenants and Messianic prophecies of the Old Testament.

When Offered

Every spring semester.

Cross-listed HIS 111

HIS 111 - Old Testament

(3) This course provides an introduction to the theological, historical, and literary features of the Old Testament, tracing God's covenant relationship with ancient Israel. Special consideration will be given to the divine covenants and Messianic prophecies of the Old Testament.

When Offered

Every spring semester.

Cross-listed BIB 111.

BIB 114 - New Testament

(3) This course provides an introduction to the theological, historical, and literary features of the New Testament, tracing the presentation of the gospel message through historical, epistolary, and apocalyptic genres. Special consideration will be given to the life of Christ and missionary journeys of the Apostle Paul.

When Offered

Every fall semester.

Cross-listed HUM 114

HUM 114 - New Testament

(3) This course provides an introduction to the theological, historical, and literary features of the New Testament, tracing the presentation of the gospel message through historical, epistolary, and apocalyptic genres. Special consideration will be given to the life of Christ and missionary journeys of the Apostle Paul.

When Offered

Every fall semester.

Cross-listed BIB 114.

PHL 315 - World Religions and Systems of Belief

(3) This course introduces an academic study of religion and what is called worldview, supplemented by an overview of some of the major tenets of Christianity; this is then followed by a survey of several other religious traditions and competing philosophies.

Prerequisites: PHL 202, THE 201.

When Offered

Winter and spring semesters.

THE 201 - Introduction to Theology

(3) This course covers basic issues, themes, and categories of Christian theology, including the doctrines of Scripture, God, humanity, Christ, salvation, the church, and last things. This course encourages students to better know, trust, love, and live by God's Word.

Prerequisites: BIB 111, BIB 114.

When Offered

Fall, winter, spring, and summer semesters.

Communication (6 credit hours)

COM 103 - Public Speaking

(3) Introductory principles of communication emphasizing public speaking. Aspects of verbal and nonverbal delivery, speech organization, and the effective use of supporting material and presentational aids are addressed. Students give several speeches designed to better equip them for future speaking endeavors

When Offered

Fall and spring semesters.

ENG 102 - English Composition

(3) Effective use of the English language and exploration of rhetorical modes in written composition. Review of structure, purpose, and audience awareness in developing essays.

Prerequisites: ACT and/or SAT scores will be used to determine placement in either ENG 102 or ENG 102 (Basic).

Notes: Course must be completed first semester at CCU.

When Offered

Fall and spring semester.

ENG 105 - Advanced English Composition

(3) Advanced English composition, research methods, and literary study for invited exceptional students. Focus on both the study of literature and research writing.

Prerequisites: One of the following:

- AP English Language and Composition
 - A score of 4 is the minimum prerequisite for enrollment in ENG 105. A student who scores a 4 or 5 will automatically enroll a student in ENG 105 instead of ENG 102 and/or ENG 201.
- AP English Literature and Composition
 - A score of 4 is the minimum prerequisite for enrollment in ENG 105. A student who scores a 4 or 5 will automatically enroll a student in ENG 105 instead of ENG 102 and/or ENG 201.
- Score of 30 or above on the verbal section of the ACT exam.
- Score of 700 or above on the verbal section of the SAT exam.
- By invitation of the English department.

Notes: Fulfills general education requirements for both ENG 102 and ENG 201.

When Offered

Every fall semester.

Integrative Studies (3 credit hours)

* Please see the First-Year Integration (FYI) page for specific information about this required course.

INT 101 - First-Year Integration

(3) Think critically, grow spiritually, and change the world. Based on the premise that we as Christians are called to be rational creatures, relational creatures, and responsible creatures, FYI is an integrative study of foundational Christian principles with other disciplines. Examination and discussion of problems and contemporary issues - academic, personal, and social - facing students in their pursuit of success in college and life. Please see the First-Year Integration (FYI) page for specific information about this required course.

When Offered

Fall and spring semesters.

Mathematics (3 credit hours)

MAT 111 - College Algebra

(3) Study of equations, inequalities, functions, graphs, exponents, logarithms.

Prerequisites: SAT mathematics score of 520 or an ACT mathematics score of 20. OR a B- or better in high school algebra II. Meets general education requirements for mathematics for health science majors.

When Offered

Fall, spring and summer semesters.

Social Sciences (12 credit hours)

Take each of the following four courses:

HIS 185 - Western Civilization

(3) The spiritual values and intellectual achievements of ancient Israel, Greece, Rome, the Middle Ages, the Renaissance, and Reformation that gave birth to the modern world.

When Offered

Every fall semester.

HIS 205 - American History

(3) Principles of the founding and the political, economic, intellectual, cultural, and religious traditions that have shaped America.

When Offered

Every spring semester.

POL 207 - Introduction to American Politics

(3) Introduction to political science and American government to prepare students to be effective citizens.

When Offered

Every fall and spring semester.

ECO 215 - Economics

(3) Economics is about scarcity and choice. Students in this course study how people, firms, governments, and nations interact in alternative economic systems to make choices about allocating scarce resources. In addition, students learn to evaluate these systems, understand macroeconomic monetary and fiscal policies, and engage in policy debates.

When Offered

Fall and spring semesters.

Pre-Medical Profession Major Core (72 credit hours)

BIO 120 - Biological Principles

(3) Life processes common to plants and animals, cell structure and function. Introduction to genetics, biochemistry, and development.

Prerequisites: For Biological and General Sciences majors only.

Corequisites: BIO 121.

When Offered

Every fall semester.

BIO 121 - Biological Principles Lab

(1) Corequisite Lab for BIO 120 Biological Principles.

Corequisites: BIO 120.

Lab/Lecture Hours

Three-hour lab.

Fee

Course fees apply.

When Offered

Every fall semester.

BIO 130 - Biological Diversity

(3) Continuation of BIO 120 Biological Principles. Introduction to human physiology, animal and plant kingdom, plant structure and function, ecology, and creation and evolution.

Prerequisites: For Biological and General Sciences majors only.

Corequisites: BIO 131.

When Offered

Every spring semester.

BIO 131 - Biological Diversity Lab

(1) Co-requisite lab for BIO 130 Biological Diversity.

Corequisites: BIO 130.

Lab/Lecture Hours

3-hour lab.

Fee

Course fees apply.

When Offered

Every spring semester.

BIO 201 - Human Anatomy and Physiology I

(3) Structure and function of the skeletal, muscular, and nervous systems.

Prerequisites: BIO 120 or BIO 209.

Corequisites: BIO 211 (Lab).

When Offered

Every fall and spring semester.

BIO 211 - Human Anatomy and Physiology I Lab

(1)

Corequisites: BIO 201.

Lab/Lecture Hours

Three-hour lab.

Fee

Lab fees apply.

When Offered

Every fall and spring semester.

BIO 202 - Human Anatomy and Physiology II

(3) Human respiratory, circulatory, digestive, excretory, endocrine, and reproductive systems.

Prerequisites: BIO 201.

Corequisites: BIO 212 (Lab).

When Offered

Every fall and spring semester.

BIO 212 - Human Anatomy and Physiology II Lab

(1)

Corequisites: BIO 202.

Lab/Lecture Hours

Three-hour lab.

Fee

Lab fees apply.

When Offered

Every fall and spring semester.

BIO 206 - Molecular Biology

(3) The purpose of this course is to provide an introduction to the functioning of cells at the molecular level and an in-depth analysis of the central dogma of biology that occurs at the cellular level, i.e., DNA, RNA, and Protein formation. This will include organization of the genome, replication, transcription, translation, and regulation of gene expression.

Prerequisites: BIO 120, BIO 121, BIO 130, BIO 131; Sophomore standing.

When Offered

Every spring semester.

BIO 306 - Cell Biology

(3) Cell Biology is an advanced course designed to provide students with an in-depth understanding of the most fundamental and basic unit of life, the cell. Topics will include cellular macromolecules, cellular organelles and cell function including membrane dynamics, vesicle transport, the cytoskeleton, the cell cycle, cell signaling, apoptosis, and cancer.

Prerequisites: BIO 206, one year of college chemistry, and junior or senior standing.

When Offered

Every fall semester.

BIO 216 - Molecular Biology Lab

(1) Laboratory training in basic Molecular Biology Techniques including; DNA Purification, Restriction Digestion, PCR Amplification, Ligation, Transformation, Protein Expression and Purification, and experimental Analysis.

Prerequisites: BIO 120. Sophomore standing.

Corequisites: BIO 206.

Fee

Course fee applies.

When Offered

Every spring semester.

BIO 316 - Cell Biology Lab

(1)

Prerequisites: BIO 206, one year of college chemistry, and junior or senior standing.

Corequisites: BIO 306.

Fee

Lab fees apply.

When Offered

Every fall semester.

BIO 309 - Genetics

(3) Laws of heredity, chemical nature of genetic material, and biochemical patterns of gene action.

Prerequisites: BIO 201, BIO 202.

When Offered

Every fall semester.

BIO 401 - Developmental Biology

(3) Development of the vertebrate animal before birth through adulthood.

Prerequisites: BIO 201, BIO 202, BIO 306, BIO 316, or BIO 345.

When Offered

Every fall semester.

BIO 403 - Neurobiology

(3) An introduction to neuroscience. The course covers the structure and function of the nervous system, with attention given to sensory structure, and muscles. The structure and function of the human brain and the cellular basis of neuronal activity will be emphasized.

Prerequisites: BIO 201 and BIO 202.

When Offered

Every spring semester.

BIO 460 - Bioethics

(3) The biological revolution and its ethical impact; genetic engineering, reproductive technology, advanced prolongation of life, biblical principles of medical and biotechnological decision-making, secular alternatives; political dynamics.

Prerequisites: Senior Standing; final semester at CCU. Instructor permission required.

Fee

Fees may apply.

When Offered

Every semester.

CHM 121 - General Chemistry I

(4) Atomic structure, stoichiometry, chemical bonding, and gas and solution chemistry.

Prerequisites: MAT 111 or MAT 115 or MAT 141.

Corequisites: CHM 131 (Lab), CHM 141 (Recitation).

When Offered

Every fall semester.

CHM 131 - General Chemistry I Lab

(1)

Corequisites: CHM 121.

Lab/Lecture Hours

Three-hour lab.

Fee

Lab fees apply.

When Offered

Every fall semester.

CHM 141 - General Chemistry I Recitation

(0)

Corequisites: CHM 121.

When Offered

Every fall semester.

CHM 122 - General Chemistry II

(4) Major concepts in four areas of chemistry: physical chemistry (kinetics and equilibrium), analytical chemistry (acids, base, redox), inorganic chemistry (atmospheric chemistry and metals), organic chemistry (alkanes and function groups).

Prerequisites: Grade of C- or higher in CHM 121.
Corequisites: CHM 132 (Lab), CHM 142 (Recitation).

When Offered

Every spring semester.

CHM 132 - General Chemistry II Lab

(1)

Corequisites: CHM 122.

Lab/Lecture Hours

Three-hour lab.

Fee

Lab fees apply.

When Offered

Every spring semester.

CHM 142 - General Chemistry II Recitation

(0)

Corequisites: CHM 122.

When Offered

Every spring semester.

CHM 221 - Organic Chemistry I

(4) Introduction to the study of structure, reactions, properties, and mechanisms of organic molecules.

Prerequisites: CHM 122.

Corequisites: CHM 231 (Lab), CHM 241 (Recitation).

When Offered

Every fall semester.

CHM 231 - Organic Chemistry I Lab

(1) Basic organic procedures using microscale lab techniques, computer simulation, and data acquisition.

Corequisites: CHM 221.

Lab/Lecture Hours

Three-hour lab.

Fee

Lab fees apply.

When Offered

Every fall semester.

CHM 241 - Organic Chemistry I Recitation

(0)

Corequisites: CHM 221.

When Offered

Every fall semester.

CHM 222 - Organic Chemistry II

(4) Continuation of CHM 221. Emphasis on organic synthesis and reaction mechanisms. Chemistry of heterocycles and biologically related compounds introduced.

Prerequisites: CHM 221.

Corequisites: CHM 232 (Lab), CHM 242 (Recitation).

When Offered

Every spring semester.

CHM 232 - Organic Chemistry II Laboratory

(1) Continuation of CHM 231.

Corequisites: CHM 222.

Lab/Lecture Hours

Three-hour lab.

Fee

Lab fees apply.

When Offered

Every spring semester.

CHM 242 - Organic Chemistry II Recitation

(0)

Corequisites: CHM 222.

When Offered

Every spring semester.

CHM 331 - Biochemistry

(3) Introduction to principles of biochemistry for science and health science-oriented majors. Topics include protein structure, enzyme kinetics, intermediary metabolism and metabolic control, and the molecular biology of gene expression. Special topics include metabolic disorders, the biochemistry of cancer, and the human genome project.

Prerequisites: CHM 222.

When Offered

Every spring semester.

MAT 141 - Calculus I

(4) First semester single-variable calculus and analytic geometry: Limits, continuity, differentiation and its applications, Fundamental Theorem of Calculus, basic integration techniques.

Prerequisites: MAT 115 or high school pre-calculus completed with a grade of B- or better, or instructor permission.

Corequisites: MAT 142.

When Offered

Fall, spring and summer semesters.

MAT 142 - Calculus I Recitation

(0) Co-requisite for MAT 141.

Prerequisites: MAT 115 or high school pre-calculus completed with a grade of B- or better, or instructor permission.

Corequisites: MAT 141.

When Offered

Fall, spring and summer semesters.

PHY 210 - General Physics I

(4) Basic principles of physics; classical mechanics, electricity and magnetism, thermodynamics, other selected topics.

Prerequisites: MAT 111 or MAT 115 or MAT 141.

Corequisites: PHY 211, PHY 212.

When Offered

Every fall semester.

PHY 211 - General Physics I Recitation

(0) Recitation.

Corequisites: PHY 210.

When Offered

Every fall semester.

PHY 212 - General Physics I Lab

(1) Lab.

Corequisites: PHY 210.

Lab/Lecture Hours

One-credit lab.

Fee

Lab fees apply.

When Offered

Every fall semester.

PHY 310 - General Physics II

(4) Thorough, systematic study of the foundations of classical and modern physics. Intended primarily for students preparing for careers in medicine, physical therapy, science education, and graduate work in other sciences. Sequence begins with kinematics and dynamics, explores the theories of gravitation and electricity, and ends with a study of nuclear physics, cosmology, and other selected topics.

Prerequisites: PHY 210.

Corequisites: PHY 311, PHY 312.

When Offered

Every spring semester.

PHY 311 - General Physics II Recitation

(0) Recitation.

Corequisites: PHY 310.

When Offered

Every spring semester.

PHY 312 - General Physics II Lab

(1) Lab.

Corequisites: PHY 310.

Lab/Lecture Hours

One credit lab.

Fee

Lab fees apply.

When Offered

Every spring semester.

Graduation Requirements for Bachelor of Science in Pre-Medical Profession

The faculty recommends students in the B.S. in Pre-Medical Profession to the Board of Trustees as candidates for graduation when they have completed the following requirements.

1. Completion of a total of 120 credits, including all general education, electives and Pre-Medical Profession major program requirements.
2. A letter grade of D or better and a cumulative GPA of 2.0 or better in all CCU coursework, and a GPA of 2.0 or higher for all courses specified for the major.

3. Completion of 180 hours of ministry/community service and 180 chapel credits. Transfer students are required to complete 45 hours of ministry/community service and 45 chapel credits each year of attendance at CCU. For further details on ministry/community service, see the Life Directions Center (LDC) section of this catalog. For further details on chapel credits, see the Student Life section of this catalog.
4. Meet the CCU Residency requirements.
5. Acceptable performance on exit exams, as required by the faculty.
6. Formal and timely application for graduation by the date specified by the University Registrar.
7. No outstanding financial obligation to the University.

Pre-Physical Therapy Major

The Bachelor of Science in Pre-Physical Therapy provides robust preparation for doctoral programs in physical therapy, fulfilling all recommended prerequisites for the majority of PT programs. The program produces students well versed in the field of Kinesiology with the additional scientific training to be prepared for the rigors of a doctoral-level program. Students graduating from this program are prepared for further education and a career which allows them to mirror Christ in their profession.

The Bachelor of Science in Pre-Physical Therapy requires completion of the following 120 credits:

General Education Core (49 credit hours)

Major Core (70 credit hours)

General Electives (1 credit hour)

General Education Requirements (49 credit hours)

Arts and Humanities (9 credit hours)

Take one course from each of the following three academic disciplines:

Fine Arts (3 credit hours)

Choose one course from the following:

HUM 120 - Introduction to the Arts

(3) Introduction to our humanity through hands-on experience in the arts (music, visual arts, poetry, story, play, and dance). Aesthetic and artistic values in the broader context of human cultural development, responsibility, and joy.

Notes: This course satisfies the general education fine arts requirement for most students, and is the required fine arts course for education majors. It is recommended for all students with a general interest in the fine arts. Students with a special interest in theatre should see THR 112. Students with a special interest in music should see MUS 110.

Note: HUM 120 does not satisfy the fine arts requirement for music majors or minors.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

MUS 110 - Musical Perspectives

(3) An exploration of music in the broader context of culture and the arts; personal musical experiences through listening and doing; and developing the ability to discern aesthetic excellence. Included is an introduction to the elements of music and how music works, the development of a Christian perspective on the arts, a broad survey of representative selections of Western music, and a focused overview of non-western/world music.

Notes: This course satisfies the general education fine arts requirement for most students. It is recommended for all students, especially those with an interest in music, and is the required fine arts course for all music majors and minors. Students with a special interest in Theatre should see THR 112.

Note: MUS 110 does not satisfy the fine arts requirement for education majors.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

THR 112 - Theatre Appreciation

(3) An introduction to the theatre world and all its aspects: the people who are active in that world, the many kinds of work that are created, the sensations and ideas we receive from those works, and the ways the life of theatre has transmitted

across many times and place.

Notes: This course satisfies the general education fine arts requirement for most students. It is recommended for all students, especially those with an interest in theatre. Students with a special interest in music should see MUS 110. Note: THR 112 does not satisfy the fine arts requirement for music majors or minors, or education majors.

When Offered

Fall and spring semesters.

Literature (3 credit hours)

Choose one course from the following:

ENG 201 - Introduction to Literature

(3) Understand, experience, and evaluate poetry, short fiction, essays, and drama genres, both American and multinational.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Fall and spring semesters.

ENG 202 - American Literature I

(3) Representative stories, poems, and documents in American literature from the Colonial era to the early Republic (1776-1830) through the Romantic-transcendentalist period (1830-1860). Includes readings from multiethnic and women writers.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every fall semester.

ENG 203 - American Literature II

(3) Representative stories, poems, and drama in American literature from the Civil War to the present. Nontraditional ethnic and women's voices included. Emphasis on interpretation and criticism of American literature.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every spring semester.

ENG 204 - British Literature I

(3) Surveys the history of literature in Britain until 1800 and representative works by influential writers of the periods contained therein.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every fall semester.

ENG 205 - British Literature II

(3) Surveys the history of literature in Britain from 1800 to the present and representative works by influential writers.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every spring semester.

Philosophy (3 credit hours)

PHL 202 - Introduction to Philosophy

(3) This course is a survey of many major issues raised over the two-and-a-half millennia of western philosophy. With an emphasis on historical context and development, as well as philosophy's relationship to Christian thought, this course challenges students to critically explore philosophical questions and introduce them to the great tradition of intellectual inquiry. Special attention will be given to the subjects of truth and knowledge, reality and appearance, mind and body, right and wrong, beauty and the existence of God.

When Offered

Fall and summer semesters.

Biblical Studies (12 credit hours)

Take the following four courses (some courses are cross-listed and only one prefix needs to be taken):

BIB 111 - Old Testament

(3) This course provides an introduction to the theological, historical, and literary features of the Old Testament, tracing God's covenant relationship with ancient Israel. Special consideration will be given to the divine covenants and Messianic prophecies of the Old Testament.

When Offered

Every spring semester.

Cross-listed HIS 111

HIS 111 - Old Testament

(3) This course provides an introduction to the theological, historical, and literary features of the Old Testament, tracing God's covenant relationship with ancient Israel. Special consideration will be given to the divine covenants and Messianic prophecies of the Old Testament.

When Offered

Every spring semester.

Cross-listed BIB 111.

BIB 114 - New Testament

(3) This course provides an introduction to the theological, historical, and literary features of the New Testament, tracing the presentation of the gospel message through historical, epistolary, and apocalyptic genres. Special consideration will be given to the life of Christ and missionary journeys of the Apostle Paul.

When Offered

Every fall semester.

Cross-listed HUM 114

HUM 114 - New Testament

(3) This course provides an introduction to the theological, historical, and literary features of the New Testament, tracing the presentation of the gospel message through historical, epistolary, and apocalyptic genres. Special consideration will be given to the life of Christ and missionary journeys of the Apostle Paul.

When Offered

Every fall semester.

Cross-listed BIB 114.

PHL 315 - World Religions and Systems of Belief

(3) This course introduces an academic study of religion and what is called worldview, supplemented by an overview of some of the major tenets of Christianity; this is then followed by a survey of several other religious traditions and competing philosophies.

Prerequisites: PHL 202, THE 201.

When Offered

Winter and spring semesters.

THE 201 - Introduction to Theology

(3) This course covers basic issues, themes, and categories of Christian theology, including the doctrines of Scripture, God, humanity, Christ, salvation, the church, and last things. This course encourages students to better know, trust, love, and live by God's Word.

Prerequisites: BIB 111, BIB 114.

When Offered

Fall, winter, spring, and summer semesters.

Communication (6 credit hours)

COM 103 - Public Speaking

(3) Introductory principles of communication emphasizing public speaking. Aspects of verbal and nonverbal delivery, speech organization, and the effective use of supporting material and presentational aids are addressed. Students give several speeches designed to better equip them for future speaking endeavors

When Offered

Fall and spring semesters.

ENG 102 - English Composition

(3) Effective use of the English language and exploration of rhetorical modes in written composition. Review of structure, purpose, and audience awareness in developing essays.

Prerequisites: ACT and/or SAT scores will be used to determine placement in either ENG 102 or ENG 102 (Basic).

Notes: Course must be completed first semester at CCU.

When Offered

Fall and spring semester.

ENG 105 - Advanced English Composition

(3) Advanced English composition, research methods, and literary study for invited exceptional students. Focus on both the study of literature and research writing.

Prerequisites: One of the following:

- AP English Language and Composition
 - A score of 4 is the minimum prerequisite for enrollment in ENG 105. A student who scores a 4 or 5 will automatically enroll a student in ENG 105 instead of ENG 102 and/or ENG 201.
- AP English Literature and Composition
 - A score of 4 is the minimum prerequisite for enrollment in ENG 105. A student who scores a 4 or 5 will automatically enroll a student in ENG 105 instead of ENG 102 and/or ENG 201.
- Score of 30 or above on the verbal section of the ACT exam.
- Score of 700 or above on the verbal section of the SAT exam.
- By invitation of the English department.

Notes: Fulfills general education requirements for both ENG 102 and ENG 201.

When Offered

Every fall semester.

Integrative Studies (3 credit hours)

* Please see the First-Year Integration (FYI) page for specific information about this required course.

INT 101 - First-Year Integration

(3) Think critically, grow spiritually, and change the world. Based on the premise that we as Christians are called to be rational creatures, relational creatures, and responsible creatures, FYI is an integrative study of foundational Christian principles with other disciplines. Examination and discussion of problems and contemporary issues - academic, personal, and social - facing students in their pursuit of success in college and life. Please see the First-Year Integration (FYI) page for specific information about this required course.

When Offered

Fall and spring semesters.

Mathematics (3 credit hours)

MAT 212 - Statistics and their Application

(3) An introduction to statistical analysis as used in various liberal arts disciplines. Descriptive and inferential statistics and attendant research designs will be considered. Students will become familiar with SPSS and its use in analyzing data and decision making.

Prerequisites: Sophomore standing.

When Offered

Fall and spring semesters.

Science (4 credit hours)

BIO 120 - Biological Principles

(3) Life processes common to plants and animals, cell structure and function. Introduction to genetics, biochemistry, and development.

Prerequisites: For Biological and General Sciences majors only.

Corequisites: BIO 121.

When Offered

Every fall semester.

BIO 121 - Biological Principles Lab

(1) Corequisite Lab for BIO 120 Biological Principles.

Corequisites: BIO 120.

Lab/Lecture Hours

Three-hour lab.

Fee

Course fees apply.

When Offered

Every fall semester.

Social Sciences (12 credit hours)

Take each of the following four courses:

ECO 215 - Economics

(3) Economics is about scarcity and choice. Students in this course study how people, firms, governments, and nations interact in alternative economic systems to make choices about allocating scarce resources. In addition, students learn to evaluate these systems, understand macroeconomic monetary and fiscal policies, and engage in policy debates.

When Offered

Fall and spring semesters.

HIS 185 - Western Civilization

(3) The spiritual values and intellectual achievements of ancient Israel, Greece, Rome, the Middle Ages, the Renaissance, and Reformation that gave birth to the modern world.

When Offered

Every fall semester.

HIS 205 - American History

(3) Principles of the founding and the political, economic, intellectual, cultural, and religious traditions that have shaped America.

When Offered

Every spring semester.

POL 207 - Introduction to American Politics

(3) Introduction to political science and American government to prepare students to be effective citizens.

When Offered

Every fall and spring semester.

Pre-Physical Therapy Major Core (70 credit hours)

BIO 130 - Biological Diversity

(3) Continuation of BIO 120 Biological Principles. Introduction to human physiology, animal and plant kingdom, plant structure and function, ecology, and creation and evolution.

Prerequisites: For Biological and General Sciences majors only.

Corequisites: BIO 131.

When Offered

Every spring semester.

BIO 131 - Biological Diversity Lab

(1) Co-requisite lab for BIO 130 Biological Diversity.

Corequisites: BIO 130.

Lab/Lecture Hours

3-hour lab.

Fee

Course fees apply.

When Offered

Every spring semester.

BIO 201 - Human Anatomy and Physiology I

(3) Structure and function of the skeletal, muscular, and nervous systems.

Prerequisites: BIO 120 or BIO 209.

Corequisites: BIO 211 (Lab).

When Offered

Every fall and spring semester.

BIO 211 - Human Anatomy and Physiology I Lab

(1)

Corequisites: BIO 201.

Lab/Lecture Hours

Three-hour lab.

Fee

Lab fees apply.

When Offered

Every fall and spring semester.

BIO 202 - Human Anatomy and Physiology II

(3) Human respiratory, circulatory, digestive, excretory, endocrine, and reproductive systems.

Prerequisites: BIO 201.

Corequisites: BIO 212 (Lab).

When Offered

Every fall and spring semester.

BIO 212 - Human Anatomy and Physiology II Lab

(1)

Corequisites: BIO 202.

Lab/Lecture Hours

Three-hour lab.

Fee

Lab fees apply.

When Offered

Every fall and spring semester.

CHM 111 - Nutrition

(3) Nutrients and their functions in the body. Nutrition and health, clinical applications of nutrition, and facts and fallacies of diet. Meets nutrition prerequisites for students planning to enter various advanced programs for health science-oriented professions.

When Offered

Every spring semester.

CHM 121 - General Chemistry I

(4) Atomic structure, stoichiometry, chemical bonding, and gas and solution chemistry.

Prerequisites: MAT 111 or MAT 115 or MAT 141.

Corequisites: CHM 131 (Lab), CHM 141 (Recitation).

When Offered

Every fall semester.

CHM 131 - General Chemistry I Lab

(1)

Corequisites: CHM 121.

Lab/Lecture Hours

Three-hour lab.

Fee

Lab fees apply.

When Offered

Every fall semester.

CHM 141 - General Chemistry I Recitation

(0)

Corequisites: CHM 121.

When Offered

Every fall semester.

CHM 122 - General Chemistry II

(4) Major concepts in four areas of chemistry: physical chemistry (kinetics and equilibrium), analytical chemistry (acids, base, redox), inorganic chemistry (atmospheric chemistry and metals), organic chemistry (alkanes and function groups).

Prerequisites: Grade of C- or higher in CHM 121.

Corequisites: CHM 132 (Lab), CHM 142 (Recitation).

When Offered

Every spring semester.

CHM 132 - General Chemistry II Lab

(1)

Corequisites: CHM 122.

Lab/Lecture Hours

Three-hour lab.

Fee

Lab fees apply.

When Offered

Every spring semester.

CHM 142 - General Chemistry II Recitation

(0)

Corequisites: CHM 122.

When Offered

Every spring semester.

KIN 210 - Foundations in Kinesiology

(3) Foundations in Kinesiology introduces the study of kinesiology and provides the foundations of anatomy, physiology, biomechanics, and sports psychology for students to continue their kinesiology degree.

When Offered

Every fall semester.

KIN 220 - Introduction to Sports Medicine

(3) Introduce students to sports medicine and how athletes are treated in contrast to other medical practices.

Fee

Course fees apply.

When Offered

Every spring semester.

KIN 240 - Sports Nutrition

(3) This course examines the empirically-based evidence behind proper nutritional habits and programming among an athletic population.

Prerequisites: CHM 111, KIN 210. Student must be a declared major in Kinesiology, Physical Education, Pre-Physical Therapy, or Sports Management.

Fee

Course fee applies.

When Offered

Every fall semester.

KIN 320 - Physiology of Exercise

(3) Educate students how exercise affects the anatomy and physiology of the human body.

Prerequisites: BIO 202, BIO 212. Student must be a declared major in Kinesiology, Physical Education, Pre-Physical Therapy, or Sports Management.

When Offered

Every fall semester.

KIN 330 - Therapeutic Exercise and Rehabilitation

(3) An introduction to the science behind therapeutic exercise and how it may be used in recovery and rehabilitation.

Prerequisites: KIN 320. Student must be a declared major in Kinesiology, Physical Education, Pre-Physical Therapy, or Sports Management.

When Offered

Every spring semester.

KIN 340 - Anatomical Kinesiology

(3) This course is designed to help students integrate the knowledge of anatomy and biomechanics to understand functional movement in sport and physical activity.

Prerequisites: BIO 201, BIO 211, KIN 210. Student must be a declared major in Kinesiology, Physical Education, Pre-Physical Therapy, or Sports Management.

Fee

Course fee applies.

When Offered

Every spring semester.

KIN 430 - Kinesiology Senior Seminar

(3) This course is designed to integrate anatomy and physiology, kinesiology, biometrics, and sports psychology in an applied setting.

Prerequisites: Senior standing. Student must be a declared major in Kinesiology, Physical Education, Pre-Physical Therapy, or Sports Management.

When Offered

Every fall semester.

KIN 450 - Kinesiology Senior Internship

(5) Supervised field experience in a professional setting.

Prerequisites: KIN 430. Student must be a declared major in Kinesiology, Physical Education, Pre-Physical Therapy, or Sports Management.

Notes: Pass/Fail.

When Offered

Scheduled by school.

KIN 460 - Biomechanics

(3) This course is designed to examine the key mechanical principles related to human movement. Emphasis is placed on the kinetic and kinematic concepts of various functional movement patterns.

Prerequisites: KIN 340. Student must be a declared major in Kinesiology, Physical Education, Pre-Physical Therapy, or Sports Management.

Fee

Course fee applies.

When Offered

Every spring semester.

MAT 111 - College Algebra

(3) Study of equations, inequalities, functions, graphs, exponents, logarithms.

Prerequisites: SAT mathematics score of 520 or an ACT mathematics score of 20. OR a B- or better in high school algebra II. Meets general education requirements for mathematics for health science majors.

When Offered

Fall, spring and summer semesters.

PHY 210 - General Physics I

(4) Basic principles of physics; classical mechanics, electricity and magnetism, thermodynamics, other selected topics.

Prerequisites: MAT 111 or MAT 115 or MAT 141.

Corequisites: PHY 211, PHY 212.

When Offered

Every fall semester.

PHY 211 - General Physics I Recitation

(0) Recitation.

Corequisites: PHY 210.

When Offered

Every fall semester.

PHY 212 - General Physics I Lab

(1) Lab.

Corequisites: PHY 210.

Lab/Lecture Hours

One-credit lab.

Fee

Lab fees apply.

When Offered

Every fall semester.

PHY 310 - General Physics II

(4) Thorough, systematic study of the foundations of classical and modern physics. Intended primarily for students preparing for careers in medicine, physical therapy, science education, and graduate work in other sciences. Sequence begins with kinematics and dynamics, explores the theories of gravitation and electricity, and ends with a study of nuclear physics, cosmology, and other selected topics.

Prerequisites: PHY 210.

Corequisites: PHY 311, PHY 312.

When Offered

Every spring semester.

PHY 311 - General Physics II Recitation

(0) Recitation.

Corequisites: PHY 310.

When Offered

Every spring semester.

PHY 312 - General Physics II Lab

(1) Lab.

Corequisites: PHY 310.

Lab/Lecture Hours

One credit lab.

Fee

Lab fees apply.

When Offered

Every spring semester.

PSY 245 - Life-Span Psychology

(3) The pattern of human development shows certain goals and tasks that are almost universal across persons, yet each of us is differently shaped by our experiences and our genetics. In this course, we explore how much and in what ways people change and compare the various theories with a Christian understanding of the direction of development.

When Offered

Every fall semester.

Graduation Requirements for Bachelor of Science in Pre-Physical Therapy

The faculty recommends students in the B.S. in Pre-Physical Therapy to the Board of Trustees as candidates for graduation when they have completed the following requirements.

1. Completion of a total of 120 credits, including all general education, elective and Pre-Physical Therapy major program requirements.
2. A letter grade of D or better and a cumulative GPA of 2.0 or better in all CCU coursework, and a GPA of 2.0 or higher for all courses specified for the major.
3. Completion of 180 hours of ministry/community service and 180 chapel credits. Transfer students are required to complete 45 hours of ministry/community service and 45 chapel credits each year of attendance at CCU. For further details on ministry/community service, see the Life Directions Center (LDC) section of this catalog. For further details on chapel credits, see the Student Life section of this catalog.
4. Meet the CCU Residency requirements.
5. Acceptable performance on exit exams, as required by the faculty.
6. Formal and timely application for graduation by the date specified by the University Registrar.
7. No outstanding financial obligation to the University.

Pre-Physician Assistant Major

The Bachelor of Science in Pre-Physician Assistant major provides excellent preparation for graduate Physician Assistant programs. The degree includes clear guidance for fulfilling the prerequisites for admission while also providing a well-rounded liberal arts education with a solid biblical training based in a Christian worldview.

The Bachelor of Science in Pre-Physician Assistant requires completion of the following 120 credits:
General Education Core (49 credit hours)
Major Core (66 credit hours)
General Electives (5 credit hour)

General Education Requirements (49 credit hours)

Arts and Humanities (9 credit hours)

Take one course from each of the following three academic disciplines:

Fine Arts (3 credit hours)

Choose one course from the following:

HUM 120 - Introduction to the Arts

(3) Introduction to our humanity through hands-on experience in the arts (music, visual arts, poetry, story, play, and dance). Aesthetic and artistic values in the broader context of human cultural development, responsibility, and joy.

Notes: This course satisfies the general education fine arts requirement for most students, and is the required fine arts course for education majors. It is recommended for all students with a general interest in the fine arts. Students with a special interest in theatre should see THR 112. Students with a special interest in music should see MUS 110.

Note: HUM 120 does not satisfy the fine arts requirement for music majors or minors.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

MUS 110 - Musical Perspectives

(3) An exploration of music in the broader context of culture and the arts; personal musical experiences through listening and doing; and developing the ability to discern aesthetic excellence. Included is an introduction to the elements of music and how music works, the development of a Christian perspective on the arts, a broad survey of representative selections of Western music, and a focused overview of non-western/world music.

Notes: This course satisfies the general education fine arts requirement for most students. It is recommended for all students, especially those with an interest in music, and is the required fine arts course for all music majors and minors. Students with a special interest in Theatre should see THR 112.

Note: MUS 110 does not satisfy the fine arts requirement for education majors.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

THR 112 - Theatre Appreciation

(3) An introduction to the theatre world and all its aspects: the people who are active in that world, the many kinds of work that are created, the sensations and ideas we receive from those works, and the ways the life of theatre has transmitted across many times and place.

Notes: This course satisfies the general education fine arts requirement for most students. It is recommended for all students, especially those with an interest in theatre. Students with a special interest in music should see MUS 110.

Note: THR 112 does not satisfy the fine arts requirement for music majors or minors, or education majors.

When Offered

Fall and spring semesters.

Literature (3 credit hours)

Choose one course from the following:

ENG 201 - Introduction to Literature

(3) Understand, experience, and evaluate poetry, short fiction, essays, and drama genres, both American and multinational.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Fall and spring semesters.

ENG 202 - American Literature I

(3) Representative stories, poems, and documents in American literature from the Colonial era to the early Republic (1776-1830) through the Romantic-transcendentalist period (1830-1860). Includes readings from multiethnic and women writers.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every fall semester.

ENG 203 - American Literature II

(3) Representative stories, poems, and drama in American literature from the Civil War to the present. Nontraditional ethnic and women's voices included. Emphasis on interpretation and criticism of American literature.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every spring semester.

ENG 204 - British Literature I

(3) Surveys the history of literature in Britain until 1800 and representative works by influential writers of the periods contained therein.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every fall semester.

ENG 205 - British Literature II

(3) Surveys the history of literature in Britain from 1800 to the present and representative works by influential writers.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every spring semester.

Philosophy (3 credit hours)

PHL 202 - Introduction to Philosophy

(3) This course is a survey of many major issues raised over the two-and-a-half millennia of western philosophy. With an emphasis on historical context and development, as well as philosophy's relationship to Christian thought, this course challenges students to critically explore philosophical questions and introduce them to the great tradition of intellectual inquiry. Special attention will be given to the subjects of truth and knowledge, reality and appearance, mind and body, right and wrong, beauty and the existence of God.

When Offered

Mathematics (3 credit hours)

MAT 212 - Statistics and their Application

(3) An introduction to statistical analysis as used in various liberal arts disciplines. Descriptive and inferential statistics and attendant research designs will be considered. Students will become familiar with SPSS and its use in analyzing data and decision making.

Prerequisites: Sophomore standing.

When Offered

Fall and spring semesters.

Science (4 credit hours)

BIO 120 - Biological Principles

(3) Life processes common to plants and animals, cell structure and function. Introduction to genetics, biochemistry, and development.

Prerequisites: For Biological and General Sciences majors only.

Corequisites: BIO 121.

When Offered

Every fall semester.

BIO 121 - Biological Principles Lab

(1) Corequisite Lab for BIO 120 Biological Principles.

Corequisites: BIO 120.

Lab/Lecture Hours

Three-hour lab.

Fee

Course fees apply.

When Offered

Every fall semester.

Social Sciences (12 credit hours)

Take each of the following four courses:

ECO 215 - Economics

(3) Economics is about scarcity and choice. Students in this course study how people, firms, governments, and nations interact in alternative economic systems to make choices about allocating scarce resources. In addition, students learn to evaluate these systems, understand macroeconomic monetary and fiscal policies, and engage in policy debates.

When Offered

Fall and spring semesters.

HIS 185 - Western Civilization

(3) The spiritual values and intellectual achievements of ancient Israel, Greece, Rome, the Middle Ages, the Renaissance, and Reformation that gave birth to the modern world.

When Offered

Every fall semester.

HIS 205 - American History

(3) Principles of the founding and the political, economic, intellectual, cultural, and religious traditions that have shaped America.

When Offered

Every spring semester.

POL 207 - Introduction to American Politics

(3) Introduction to political science and American government to prepare students to be effective citizens.

When Offered

Every fall and spring semester.

Pre-Physician Assistant Major Core (66 credit hours)

BIO 130 - Biological Diversity

(3) Continuation of BIO 120 Biological Principles. Introduction to human physiology, animal and plant kingdom, plant structure and function, ecology, and creation and evolution.

Prerequisites: For Biological and General Sciences majors only.

Corequisites: BIO 131.

When Offered

Every spring semester.

BIO 131 - Biological Diversity Lab

(1) Co-requisite lab for BIO 130 Biological Diversity.

Corequisites: BIO 130.

Lab/Lecture Hours

3-hour lab.

Fee

Course fees apply.

When Offered

Every spring semester.

BIO 201 - Human Anatomy and Physiology I

(3) Structure and function of the skeletal, muscular, and nervous systems.

Prerequisites: BIO 120 or BIO 209.

Corequisites: BIO 211 (Lab).

When Offered

Every fall and spring semester.

BIO 211 - Human Anatomy and Physiology I Lab

(1)

Corequisites: BIO 201.

Lab/Lecture Hours

Three-hour lab.

Fee

Lab fees apply.

When Offered

Every fall and spring semester.

BIO 202 - Human Anatomy and Physiology II

(3) Human respiratory, circulatory, digestive, excretory, endocrine, and reproductive systems.

Prerequisites: BIO 201.

Corequisites: BIO 212 (Lab).

When Offered

Every fall and spring semester.

BIO 212 - Human Anatomy and Physiology II Lab

(1)

Corequisites: BIO 202.

Lab/Lecture Hours

Three-hour lab.

Fee

Lab fees apply.

When Offered

Every fall and spring semester.

BIO 206 - Molecular Biology

(3) The purpose of this course is to provide an introduction to the functioning of cells at the molecular level and an in-depth analysis of the central dogma of biology that occurs at the cellular level, i.e., DNA, RNA, and Protein formation. This will include organization of the genome, replication, transcription, translation, and regulation of gene expression.

Prerequisites: BIO 120, BIO 121, BIO 130, BIO 131; Sophomore standing.

When Offered

Every spring semester.

BIO 306 - Cell Biology

(3) Cell Biology is an advanced course designed to provide students with an in-depth understanding of the most fundamental and basic unit of life, the cell. Topics will include cellular macromolecules, cellular organelles and cell function including membrane dynamics, vesicle transport, the cytoskeleton, the cell cycle, cell signaling, apoptosis, and cancer.

Prerequisites: BIO 206, one year of college chemistry, and junior or senior standing.

When Offered

Every fall semester.

BIO 216 - Molecular Biology Lab

(1) Laboratory training in basic Molecular Biology Techniques including: DNA Purification, Restriction Digestion, PCR Amplification, Ligation, Transformation, Protein Expression and Purification, and experimental Analysis.

Prerequisites: BIO 120. Sophomore standing.

Corequisites: BIO 206.

Fee

Course fee applies.

When Offered

Every spring semester.

BIO 316 - Cell Biology Lab

(1)

Prerequisites: BIO 206, one year of college chemistry, and junior or senior standing.

Corequisites: BIO 306.

Fee

Lab fees apply.

When Offered

Every fall semester.

BIO 309 - Genetics

(3) Laws of heredity, chemical nature of genetic material, and biochemical patterns of gene action.

Prerequisites: BIO 201, BIO 202.

When Offered

Every fall semester.

BIO 401 - Developmental Biology

(3) Development of the vertebrate animal before birth through adulthood.

Prerequisites: BIO 201, BIO 202, BIO 306, BIO 316, or BIO 345.

When Offered

Every fall semester.

BIO 308 - Microbiology

(3) Microbiology is a survey of microorganisms including bacteria, fungi, parasites, and viruses. A taxonomic investigation of pathogenic microorganisms is a major focus of the course. Other topics include structure, nutrition, development, metabolism, genetics, control, drugs, infection, disease, immunity, and environmental microbiology.

Prerequisites: BIO 201, BIO 202.

Corequisites: BIO 318 (Lab)

When Offered

Every spring semester.

BIO 318 - Microbiology Lab

(1)

Corequisites: BIO 308.

Lab/Lecture Hours

Three-hour lab.

Fee

Lab fees apply.

When Offered

Every spring semester.

BIO 403 - Neurobiology

(3) An introduction to neuroscience. The course covers the structure and function of the nervous system, with attention given to sensory structure, and muscles. The structure and function of the human brain and the cellular basis of neuronal activity will be emphasized.

Prerequisites: BIO 201 and BIO 202.

When Offered

Every spring semester.

CHM 121 - General Chemistry I

(4) Atomic structure, stoichiometry, chemical bonding, and gas and solution chemistry.

Prerequisites: MAT 111 or MAT 115 or MAT 141.

Corequisites: CHM 131 (Lab), CHM 141 (Recitation).

When Offered

Every fall semester.

CHM 131 - General Chemistry I Lab

(1)

Corequisites: CHM 121.

Lab/Lecture Hours

Three-hour lab.

Fee

Lab fees apply.

When Offered

Every fall semester.

CHM 141 - General Chemistry I Recitation

(0)

Corequisites: CHM 121.

When Offered

Every fall semester.

CHM 122 - General Chemistry II

(4) Major concepts in four areas of chemistry: physical chemistry (kinetics and equilibrium), analytical chemistry (acids, base, redox), inorganic chemistry (atmospheric chemistry and metals), organic chemistry (alkanes and function groups).

Prerequisites: Grade of C- or higher in CHM 121.

Corequisites: CHM 132 (Lab), CHM 142 (Recitation).

When Offered

Every spring semester.

CHM 132 - General Chemistry II Lab

(1)

Corequisites: CHM 122.

Lab/Lecture Hours

Three-hour lab.

Fee

Lab fees apply.

When Offered

Every spring semester.

CHM 142 - General Chemistry II Recitation

(0)

Corequisites: CHM 122.

When Offered

Every spring semester.

CHM 221 - Organic Chemistry I

(4) Introduction to the study of structure, reactions, properties, and mechanisms of organic molecules.

Prerequisites: CHM 122.

Corequisites: CHM 231 (Lab), CHM 241 (Recitation).

When Offered

Every fall semester.

CHM 231 - Organic Chemistry I Lab

(1) Basic organic procedures using microscale lab techniques, computer simulation, and data acquisition.

Corequisites: CHM 221.

Lab/Lecture Hours

Three-hour lab.

Fee

Lab fees apply.

When Offered

Every fall semester.

CHM 241 - Organic Chemistry I Recitation

(0)

Corequisites: CHM 221.

When Offered

Every fall semester.

CHM 222 - Organic Chemistry II

(4) Continuation of CHM 221. Emphasis on organic synthesis and reaction mechanisms. Chemistry of heterocycles and biologically related compounds introduced.

Prerequisites: CHM 221.

Corequisites: CHM 232 (Lab), CHM 242 (Recitation).

When Offered

Every spring semester.

CHM 232 - Organic Chemistry II Laboratory

(1) Continuation of CHM 231.

Corequisites: CHM 222.

Lab/Lecture Hours

Three-hour lab.

Fee

Lab fees apply.

When Offered

Every spring semester.

CHM 242 - Organic Chemistry II Recitation

(0)

Corequisites: CHM 222.

When Offered

Every spring semester.

CHM 331 - Biochemistry

(3) Introduction to principles of biochemistry for science and health science-oriented majors. Topics include protein structure, enzyme kinetics, intermediary metabolism and metabolic control, and the molecular biology of gene expression. Special topics include metabolic disorders, the biochemistry of cancer, and the human genome project.

Prerequisites: CHM 222.

When Offered

Every spring semester.

MAT 111 - College Algebra

(3) Study of equations, inequalities, functions, graphs, exponents, logarithms.

Prerequisites: SAT mathematics score of 520 or an ACT mathematics score of 20. OR a B- or better in high school algebra II. Meets general education requirements for mathematics for health science majors.

When Offered

Fall, spring and summer semesters.

PHY 210 - General Physics I

(4) Basic principles of physics; classical mechanics, electricity and magnetism, thermodynamics, other selected topics.

Prerequisites: MAT 111 or MAT 115 or MAT 141.

Corequisites: PHY 211, PHY 212.

When Offered

Every fall semester.

PHY 211 - General Physics I Recitation

(0) Recitation.

Corequisites: PHY 210.

When Offered

Every fall semester.

PHY 212 - General Physics I Lab

(1) Lab.

Corequisites: PHY 210.

Lab/Lecture Hours

One-credit lab.

Fee

Lab fees apply.

When Offered

Every fall semester.

PSY 101 - Introduction to Psychology

(3) This course provides an overview of the field of psychology, including psychological principles, methods, theories, and research broadly applied to various domains within the discipline. This course will equip students to understand the theoretical and philosophical foundations of contemporary psychology in light of a Christian worldview, and proposes an integrated framework from which to approach psychology and their Christian faith.

When Offered

Every fall and spring semesters.

PSY 201 - Social Psychology

(3) An overarching theme for the CCU Psychology program is that we are, at our core, relational persons. No area of psychology exemplifies this more consistently than social psychology. This course focuses on the powerful influence that groups can have on individuals, as well as evidence that humans are strongly motivated to seek relationships with others.

When Offered

Every spring semester.

PSY 245 - Life-Span Psychology

(3) The pattern of human development shows certain goals and tasks that are almost universal across persons, yet each of us is differently shaped by our experiences and our genetics. In this course, we explore how much and in what ways people change and compare the various theories with a Christian understanding of the direction of development.

When Offered

Every fall semester.

Graduation Requirements for Bachelor of Science in Pre-Physician Assistant

The faculty recommends students in the B.S. in Pre-Physician Assistant to the Board of Trustees as candidates for graduation when they have completed the following requirements.

1. Completion of a total of 120 credits, including all general education, elective, and Pre-Physician Assistant major program requirements.
2. A letter grade of D or better and a cumulative GPA of 2.0 or better in all CCU coursework, and a GPA of 2.0 or higher for all courses specified for the major.
3. Completion of 180 hours of ministry/community service and 180 chapel credits. Transfer students are required to complete 45 hours of ministry/community service and 45 chapel credits each year of attendance at CCU. For further details on ministry/community service, see the Life Directions Center (LDC) section of this catalog. For further details on chapel credits, see the Student Life section of this catalog.
4. Meet the CCU Residency requirements.
5. Acceptable performance on exit exams, as required by the faculty.
6. Formal and timely application for graduation by the date specified by the University Registrar.
7. No outstanding financial obligation to the University.

Science Major

The Science major provides a wide background in general science, biology, chemistry, earth science, physics, mathematics, computing, the impact of science and technology, and environmental science and conservation. The major offers a professional foundation for careers in science and secondary school teaching.

The Bachelor of Science in General Science requires completion of the following 120 credits:

General Education Core (45 credit hours)

Science Major Core (42 credit hours)

Electives (33 credit hours)

General Education Requirements (45 credit hours)**Arts and Humanities (9 credit hours)**

Take one course from each of the following three academic disciplines:

Fine Arts (3 credit hours)

Choose one course from the following:

HUM 120 - Introduction to the Arts

(3) Introduction to our humanity through hands-on experience in the arts (music, visual arts, poetry, story, play, and dance). Aesthetic and artistic values in the broader context of human cultural development, responsibility, and joy.

Notes: This course satisfies the general education fine arts requirement for most students, and is the required fine arts course for education majors. It is recommended for all students with a general interest in the fine arts. Students with a

special interest in theatre should see THR 112. Students with a special interest in music should see MUS 110.

Note: HUM 120 does not satisfy the fine arts requirement for music majors or minors.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

MUS 110 - Musical Perspectives

(3) An exploration of music in the broader context of culture and the arts; personal musical experiences through listening and doing; and developing the ability to discern aesthetic excellence. Included is an introduction to the elements of music and how music works, the development of a Christian perspective on the arts, a broad survey of representative selections of Western music, and a focused overview of non-western/world music.

Notes: This course satisfies the general education fine arts requirement for most students. It is recommended for all students, especially those with an interest in music, and is the required fine arts course for all music majors and minors.

Students with a special interest in Theatre should see THR 112.

Note: MUS 110 does not satisfy the fine arts requirement for education majors.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

THR 112 - Theatre Appreciation

(3) An introduction to the theatre world and all its aspects: the people who are active in that world, the many kinds of work that are created, the sensations and ideas we receive from those works, and the ways the life of theatre has transmitted across many times and place.

Notes: This course satisfies the general education fine arts requirement for most students. It is recommended for all students, especially those with an interest in theatre. Students with a special interest in music should see MUS 110.

Note: THR 112 does not satisfy the fine arts requirement for music majors or minors, or education majors.

When Offered

Fall and spring semesters.

Literature (3 credit hours)

Choose one course from the following:

ENG 201 - Introduction to Literature

(3) Understand, experience, and evaluate poetry, short fiction, essays, and drama genres, both American and multinational.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Fall and spring semesters.

ENG 202 - American Literature I

(3) Representative stories, poems, and documents in American literature from the Colonial era to the early Republic (1776-1830) through the Romantic-transcendentalist period (1830-1860). Includes readings from multiethnic and women writers.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every fall semester.

ENG 203 - American Literature II

(3) Representative stories, poems, and drama in American literature from the Civil War to the present. Nontraditional ethnic and women's voices included. Emphasis on interpretation and criticism of American literature.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every spring semester.

ENG 204 - British Literature I

(3) Surveys the history of literature in Britain until 1800 and representative works by influential writers of the periods contained therein.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every fall semester.

ENG 205 - British Literature II

(3) Surveys the history of literature in Britain from 1800 to the present and representative works by influential writers.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every spring semester.

Philosophy (3 credit hours)

PHL 202 - Introduction to Philosophy

(3) This course is a survey of many major issues raised over the two-and-a-half millennia of western philosophy. With an emphasis on historical context and development, as well as philosophy's relationship to Christian thought, this course challenges students to critically explore philosophical questions and introduce them to the great tradition of intellectual inquiry. Special attention will be given to the subjects of truth and knowledge, reality and appearance, mind and body, right and wrong, beauty and the existence of God.

When Offered

Fall and summer semesters.

Biblical Studies (12 credit hours)

Take the following four courses (some courses are cross-listed and only one prefix needs to be taken):

BIB 111 - Old Testament

(3) This course provides an introduction to the theological, historical, and literary features of the Old Testament, tracing God's covenant relationship with ancient Israel. Special consideration will be given to the divine covenants and Messianic prophecies of the Old Testament.

When Offered

Every spring semester.

Cross-listed HIS 111

HIS 111 - Old Testament

(3) This course provides an introduction to the theological, historical, and literary features of the Old Testament, tracing God's covenant relationship with ancient Israel. Special consideration will be given to the divine covenants and Messianic prophecies of the Old Testament.

When Offered

Every spring semester.

Cross-listed BIB 111.

BIB 114 - New Testament

(3) This course provides an introduction to the theological, historical, and literary features of the New Testament, tracing the presentation of the gospel message through historical, epistolary, and apocalyptic genres. Special consideration will be given to the life of Christ and missionary journeys of the Apostle Paul.

When Offered

Every fall semester.

Cross-listed HUM 114

HUM 114 - New Testament

(3) This course provides an introduction to the theological, historical, and literary features of the New Testament, tracing the presentation of the gospel message through historical, epistolary, and apocalyptic genres. Special consideration will

be given to the life of Christ and missionary journeys of the Apostle Paul.

When Offered

Every fall semester.
Cross-listed BIB 114.

PHL 315 - World Religions and Systems of Belief

(3) This course introduces an academic study of religion and what is called worldview, supplemented by an overview of some of the major tenets of Christianity; this is then followed by a survey of several other religious traditions and competing philosophies.

Prerequisites: PHL 202, THE 201.

When Offered

Winter and spring semesters.

THE 201 - Introduction to Theology

(3) This course covers basic issues, themes, and categories of Christian theology, including the doctrines of Scripture, God, humanity, Christ, salvation, the church, and last things. This course encourages students to better know, trust, love, and live by God's Word.

Prerequisites: BIB 111, BIB 114.

When Offered

Fall, winter, spring, and summer semesters.

Communication (6 credit hours)

COM 103 - Public Speaking

(3) Introductory principles of communication emphasizing public speaking. Aspects of verbal and nonverbal delivery, speech organization, and the effective use of supporting material and presentational aids are addressed. Students give several speeches designed to better equip them for future speaking endeavors

When Offered

Fall and spring semesters.

ENG 102 - English Composition

(3) Effective use of the English language and exploration of rhetorical modes in written composition. Review of structure, purpose, and audience awareness in developing essays.

Prerequisites: ACT and/or SAT scores will be used to determine placement in either ENG 102 or ENG 102 (Basic).

Notes: Course must be completed first semester at CCU.

When Offered

Fall and spring semester.

ENG 105 - Advanced English Composition

(3) Advanced English composition, research methods, and literary study for invited exceptional students. Focus on both the study of literature and research writing.

Prerequisites: One of the following:

- AP English Language and Composition
 - A score of 4 is the minimum prerequisite for enrollment in ENG 105. A student who scores a 4 or 5 will automatically enroll a student in ENG 105 instead of ENG 102 and/or ENG 201.
- AP English Literature and Composition
 - A score of 4 is the minimum prerequisite for enrollment in ENG 105. A student who scores a 4 or 5 will automatically enroll a student in ENG 105 instead of ENG 102 and/or ENG 201.
- Score of 30 or above on the verbal section of the ACT exam.
- Score of 700 or above on the verbal section of the SAT exam.
- By invitation of the English department.

Notes: Fulfills general education requirements for both ENG 102 and ENG 201.

When Offered

Every fall semester.

Integrative Studies (3 credit hours)

* Please see the First-Year Integration (FYI) page for specific information about this required course.

INT 101 - First-Year Integration

(3) Think critically, grow spiritually, and change the world. Based on the premise that we as Christians are called to be rational creatures, relational creatures, and responsible creatures, FYI is an integrative study of foundational Christian principles with other disciplines. Examination and discussion of problems and contemporary issues - academic, personal, and social - facing students in their pursuit of success in college and life. Please see the First-Year Integration (FYI) page for specific information about this required course.

When Offered

Fall and spring semesters.

Mathematics (3 credit hours)

MAT 111 - College Algebra

(3) Study of equations, inequalities, functions, graphs, exponents, logarithms.

Prerequisites: SAT mathematics score of 520 or an ACT mathematics score of 20. OR a B- or better in high school algebra II. Meets general education requirements for mathematics for health science majors.

When Offered

Fall, spring and summer semesters.

Social Sciences (12 credit hours)

Take each of the following four courses:

ECO 215 - Economics

(3) Economics is about scarcity and choice. Students in this course study how people, firms, governments, and nations interact in alternative economic systems to make choices about allocating scarce resources. In addition, students learn to evaluate these systems, understand macroeconomic monetary and fiscal policies, and engage in policy debates.

When Offered

Fall and spring semesters.

HIS 185 - Western Civilization

(3) The spiritual values and intellectual achievements of ancient Israel, Greece, Rome, the Middle Ages, the Renaissance, and Reformation that gave birth to the modern world.

When Offered

Every fall semester.

HIS 205 - American History

(3) Principles of the founding and the political, economic, intellectual, cultural, and religious traditions that have shaped America.

When Offered

Every spring semester.

POL 207 - Introduction to American Politics

(3) Introduction to political science and American government to prepare students to be effective citizens.

When Offered

Every fall and spring semester.

Science Major (42 credit hours)

Major Core (42 credit hours)

BIO 120 - Biological Principles

(3) Life processes common to plants and animals, cell structure and function. Introduction to genetics, biochemistry, and development.

Prerequisites: For Biological and General Sciences majors only.
Corequisites: BIO 121.

When Offered

Every fall semester.

BIO 121 - Biological Principles Lab

(1) Corequisite Lab for BIO 120 Biological Principles.

Corequisites: BIO 120.

Lab/Lecture Hours

Three-hour lab.

Fee

Course fees apply.

When Offered

Every fall semester.

BIO 130 - Biological Diversity

(3) Continuation of BIO 120 Biological Principles. Introduction to human physiology, animal and plant kingdom, plant structure and function, ecology, and creation and evolution.

Prerequisites: For Biological and General Sciences majors only.

Corequisites: BIO 131.

When Offered

Every spring semester.

BIO 131 - Biological Diversity Lab

(1) Co-requisite lab for BIO 130 Biological Diversity.

Corequisites: BIO 130.

Lab/Lecture Hours

3-hour lab.

Fee

Course fees apply.

When Offered

Every spring semester.

BIO 206 - Molecular Biology

(3) The purpose of this course is to provide an introduction to the functioning of cells at the molecular level and an in-depth analysis of the central dogma of biology that occurs at the cellular level, i.e., DNA, RNA, and Protein formation. This will include organization of the genome, replication, transcription, translation, and regulation of gene expression.

Prerequisites: BIO 120, BIO 121, BIO 130, BIO 131; Sophomore standing.

When Offered

Every spring semester.

BIO 306 - Cell Biology

(3) Cell Biology is an advanced course designed to provide students with an in-depth understanding of the most fundamental and basic unit of life, the cell. Topics will include cellular macromolecules, cellular organelles and cell function including membrane dynamics, vesicle transport, the cytoskeleton, the cell cycle, cell signaling, apoptosis, and cancer.

Prerequisites: BIO 206, one year of college chemistry, and junior or senior standing.

When Offered

Every fall semester.

BIO 216 - Molecular Biology Lab

(1) Laboratory training in basic Molecular Biology Techniques including; DNA Purification, Restriction Digestion, PCR Amplification, Ligation, Transformation, Protein Expression and Purification, and experimental Analysis.

Prerequisites: BIO 120. Sophomore standing.

Corequisites: BIO 206.

Fee

Course fee applies.

When Offered

Every spring semester.

BIO 316 - Cell Biology Lab

(1)

Prerequisites: BIO 206, one year of college chemistry, and junior or senior standing.

Corequisites: BIO 306.

Fee

Lab fees apply.

When Offered

Every fall semester.

BIO 460 - Bioethics

(3) The biological revolution and its ethical impact; genetic engineering, reproductive technology, advanced prolongation of life, biblical principles of medical and biotechnological decision-making, secular alternatives; political dynamics.

Prerequisites: Senior Standing; final semester at CCU. Instructor permission required.

Fee

Fees may apply.

When Offered

Every semester.

CHM 121 - General Chemistry I

(4) Atomic structure, stoichiometry, chemical bonding, and gas and solution chemistry.

Prerequisites: MAT 111 or MAT 115 or MAT 141.

Corequisites: CHM 131 (Lab), CHM 141 (Recitation).

When Offered

Every fall semester.

CHM 131 - General Chemistry I Lab

(1)

Corequisites: CHM 121.

Lab/Lecture Hours

Three-hour lab.

Fee

Lab fees apply.

When Offered

Every fall semester.

CHM 141 - General Chemistry I Recitation

(0)

Corequisites: CHM 121.

When Offered

Every fall semester.

CHM 122 - General Chemistry II

(4) Major concepts in four areas of chemistry: physical chemistry (kinetics and equilibrium), analytical chemistry (acids, base, redox), inorganic chemistry (atmospheric chemistry and metals), organic chemistry (alkanes and function groups).

Prerequisites: Grade of C- or higher in CHM 121.

Corequisites: CHM 132 (Lab), CHM 142 (Recitation).

When Offered

Every spring semester.

CHM 132 - General Chemistry II Lab

(1)

Corequisites: CHM 122.

Lab/Lecture Hours

Three-hour lab.

Fee

Lab fees apply.

When Offered

Every spring semester.

CHM 142 - General Chemistry II Recitation

(0)

Corequisites: CHM 122.

When Offered

Every spring semester.

PHY 103 - Physical Geology

(3) Physical/ chemical makeup of Earth and processes giving rise to its present form.

Corequisites: PHY 104.

Lab/Lecture Hours

Three credit lecture, one-credit lab, two required field trips.

When Offered

Every fall semester.

PHY 104 - Physical Geology Lab

(1) Lab.

Corequisites: PHY 103.

Lab/Lecture Hours

One credit lab.

Fee

Lab fees apply.

When Offered

Every fall semester.

PHY 210 - General Physics I

(4) Basic principles of physics; classical mechanics, electricity and magnetism, thermodynamics, other selected topics.

Prerequisites: MAT 111 or MAT 115 or MAT 141.

Corequisites: PHY 211, PHY 212.

When Offered

Every fall semester.

PHY 211 - General Physics I Recitation

(0) Recitation.

Corequisites: PHY 210.

When Offered

Every fall semester.

PHY 212 - General Physics I Lab

(1) Lab.

Corequisites: PHY 210.

Lab/Lecture Hours

One-credit lab.

Fee

Lab fees apply.

When Offered

Every fall semester.

PHY 310 - General Physics II

(4) Thorough, systematic study of the foundations of classical and modern physics. Intended primarily for students preparing for careers in medicine, physical therapy, science education, and graduate work in other sciences. Sequence begins with kinematics and dynamics, explores the theories of gravitation and electricity, and ends with a study of nuclear physics, cosmology, and other selected topics.

Prerequisites: PHY 210.

Corequisites: PHY 311, PHY 312.

When Offered

Every spring semester.

PHY 311 - General Physics II Recitation

(0) Recitation.

Corequisites: PHY 310.

When Offered

Every spring semester.

PHY 312 - General Physics II Lab

(1) Lab.

Corequisites: PHY 310.

Lab/Lecture Hours

One credit lab.

Fee

Lab fees apply.

When Offered

Every spring semester.

Secondary General Science Licensure

See the School of Education section of this catalog for details on the Secondary Science Licensure Program: B.S. General Science requirements.

Graduation Requirements for Bachelor of Science in Science

The faculty recommends students in the B.S. in Science to the Board of Trustees as candidates for graduation when they have completed the following requirements.

1. Completion of a total of 120 credits, including all general education, electives and Science major program requirements.

2. A letter grade of D or better and a cumulative GPA of 2.0 or better in all CCU coursework, and a GPA of 2.0 or higher for all courses specified for the major.
3. Completion of 180 hours of ministry/community service and 180 chapel credits. Transfer students are required to complete 45 hours of ministry/community service and 45 chapel credits each year of attendance at CCU. For further details on ministry/community service, see the Life Directions Center (LDC) section of this catalog. For further details on chapel credits, see the Student Life section of this catalog.
4. Meet the CCU Residency requirements.
5. Acceptable performance on exit exams, as required by the faculty.
6. Formal and timely application for graduation by the date specified by the University Registrar.
7. No outstanding financial obligation to the University.

Sports Management Major

The Bachelor of Science in Sports Management is based on an interdisciplinary curriculum that combines a thorough kinesiology education with additional training in management. This combination provides graduates the tools and training to play, organize, and manage programs associated with sports or physical activities of all types and at all levels, and does so while emphasizing biblical principles and a Christian world. Students graduating from this program are highly qualified to lead in careers related to sports, health, and fitness, while also being uniquely qualified as entrepreneurs in these areas.

The Bachelor of Science in Sports Management requires completion of the following 120 credits:

General Education Core (49 credit hours)

Kinesiology Core (51 credit hours)

Management Core (18 credit hours)

General Electives (2 credit hours)

General Education Requirements (49 credit hours)

Arts and Humanities (9 credit hours)

Take one course from each of the following three academic disciplines:

Fine Arts (3 credit hours)

Choose one course from the following:

HUM 120 - Introduction to the Arts

(3) Introduction to our humanity through hands-on experience in the arts (music, visual arts, poetry, story, play, and dance). Aesthetic and artistic values in the broader context of human cultural development, responsibility, and joy.

Notes: This course satisfies the general education fine arts requirement for most students, and is the required fine arts course for education majors. It is recommended for all students with a general interest in the fine arts. Students with a special interest in theatre should see THR 112. Students with a special interest in music should see MUS 110.

Note: HUM 120 does not satisfy the fine arts requirement for music majors or minors.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

MUS 110 - Musical Perspectives

(3) An exploration of music in the broader context of culture and the arts; personal musical experiences through listening and doing; and developing the ability to discern aesthetic excellence. Included is an introduction to the elements of music and how music works, the development of a Christian perspective on the arts, a broad survey of representative selections of Western music, and a focused overview of non-western/world music.

Notes: This course satisfies the general education fine arts requirement for most students. It is recommended for all students, especially those with an interest in music, and is the required fine arts course for all music majors and minors. Students with a special interest in Theatre should see THR 112.

Note: MUS 110 does not satisfy the fine arts requirement for education majors.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

THR 112 - Theatre Appreciation

(3) An introduction to the theatre world and all its aspects: the people who are active in that world, the many kinds of work that are created, the sensations and ideas we receive from those works, and the ways the life of theatre has transmitted across many times and place.

Notes: This course satisfies the general education fine arts requirement for most students. It is recommended for all students, especially those with an interest in theatre. Students with a special interest in music should see MUS 110.

Note: THR 112 does not satisfy the fine arts requirement for music majors or minors, or education majors.

When Offered

Fall and spring semesters.

Literature (3 credit hours)

Choose one course from the following:

ENG 201 - Introduction to Literature

(3) Understand, experience, and evaluate poetry, short fiction, essays, and drama genres, both American and multinational.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Fall and spring semesters.

ENG 202 - American Literature I

(3) Representative stories, poems, and documents in American literature from the Colonial era to the early Republic (1776-1830) through the Romantic-transcendentalist period (1830-1860). Includes readings from multiethnic and women writers.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every fall semester.

ENG 203 - American Literature II

(3) Representative stories, poems, and drama in American literature from the Civil War to the present. Nontraditional ethnic and women's voices included. Emphasis on interpretation and criticism of American literature.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every spring semester.

ENG 204 - British Literature I

(3) Surveys the history of literature in Britain until 1800 and representative works by influential writers of the periods contained therein.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every fall semester.

ENG 205 - British Literature II

(3) Surveys the history of literature in Britain from 1800 to the present and representative works by influential writers.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every spring semester.

Philosophy (3 credit hours)

PHL 202 - Introduction to Philosophy

(3) This course is a survey of many major issues raised over the two-and-a-half millennia of western philosophy. With an emphasis on historical context and development, as well as philosophy's relationship to Christian thought, this course challenges students to critically explore philosophical questions and introduce them to the great tradition of intellectual

inquiry. Special attention will be given to the subjects of truth and knowledge, reality and appearance, mind and body, right and wrong, beauty and the existence of God.

When Offered

Fall and summer semesters.

Biblical Studies (12 credit hours)

Take the following four courses (some courses are cross-listed and only one prefix needs to be taken):

BIB 111 - Old Testament

(3) This course provides an introduction to the theological, historical, and literary features of the Old Testament, tracing God's covenant relationship with ancient Israel. Special consideration will be given to the divine covenants and Messianic prophecies of the Old Testament.

When Offered

Every spring semester.

Cross-listed HIS 111

HIS 111 - Old Testament

(3) This course provides an introduction to the theological, historical, and literary features of the Old Testament, tracing God's covenant relationship with ancient Israel. Special consideration will be given to the divine covenants and Messianic prophecies of the Old Testament.

When Offered

Every spring semester.

Cross-listed BIB 111.

BIB 114 - New Testament

(3) This course provides an introduction to the theological, historical, and literary features of the New Testament, tracing the presentation of the gospel message through historical, epistolary, and apocalyptic genres. Special consideration will be given to the life of Christ and missionary journeys of the Apostle Paul.

When Offered

Every fall semester.

Cross-listed HUM 114

HUM 114 - New Testament

(3) This course provides an introduction to the theological, historical, and literary features of the New Testament, tracing the presentation of the gospel message through historical, epistolary, and apocalyptic genres. Special consideration will be given to the life of Christ and missionary journeys of the Apostle Paul.

When Offered

Every fall semester.

Cross-listed BIB 114.

PHL 315 - World Religions and Systems of Belief

(3) This course introduces an academic study of religion and what is called worldview, supplemented by an overview of some of the major tenets of Christianity; this is then followed by a survey of several other religious traditions and competing philosophies.

Prerequisites: PHL 202, THE 201.

When Offered

Winter and spring semesters.

THE 201 - Introduction to Theology

(3) This course covers basic issues, themes, and categories of Christian theology, including the doctrines of Scripture, God, humanity, Christ, salvation, the church, and last things. This course encourages students to better know, trust, love, and live by God's Word.

Prerequisites: BIB 111, BIB 114.

When Offered

Fall, winter, spring, and summer semesters.

Communication (6 credit hours)**COM 103 - Public Speaking**

(3) Introductory principles of communication emphasizing public speaking. Aspects of verbal and nonverbal delivery, speech organization, and the effective use of supporting material and presentational aids are addressed. Students give several speeches designed to better equip them for future speaking endeavors

When Offered

Fall and spring semesters.

ENG 102 - English Composition

(3) Effective use of the English language and exploration of rhetorical modes in written composition. Review of structure, purpose, and audience awareness in developing essays.

Prerequisites: ACT and/or SAT scores will be used to determine placement in either ENG 102 or ENG 102 (Basic).

Notes: Course must be completed first semester at CCU.

When Offered

Fall and spring semester.

ENG 105 - Advanced English Composition

(3) Advanced English composition, research methods, and literary study for invited exceptional students. Focus on both the study of literature and research writing.

Prerequisites: One of the following:

- AP English Language and Composition
 - A score of 4 is the minimum prerequisite for enrollment in ENG 105. A student who scores a 4 or 5 will automatically enroll a student in ENG 105 instead of ENG 102 and/or ENG 201.
- AP English Literature and Composition
 - A score of 4 is the minimum prerequisite for enrollment in ENG 105. A student who scores a 4 or 5 will automatically enroll a student in ENG 105 instead of ENG 102 and/or ENG 201.
- Score of 30 or above on the verbal section of the ACT exam.
- Score of 700 or above on the verbal section of the SAT exam.
- By invitation of the English department.

Notes: Fulfills general education requirements for both ENG 102 and ENG 201.

When Offered

Every fall semester.

Integrative Studies (3 credit hours)

* Please see the First-Year Integration (FYI) page for specific information about this required course.

INT 101 - First-Year Integration

(3) Think critically, grow spiritually, and change the world. Based on the premise that we as Christians are called to be rational creatures, relational creatures, and responsible creatures, FYI is an integrative study of foundational Christian principles with other disciplines. Examination and discussion of problems and contemporary issues - academic, personal, and social - facing students in their pursuit of success in college and life. Please see the First-Year Integration (FYI) page for specific information about this required course.

When Offered

Fall and spring semesters.

Mathematics (3 credit hours)**MAT 111 - College Algebra**

(3) Study of equations, inequalities, functions, graphs, exponents, logarithms.

Prerequisites: SAT mathematics score of 520 or an ACT mathematics score of 20. OR a B- or better in high school algebra II. Meets general education requirements for mathematics for health science majors.

When Offered

Fall, spring and summer semesters.

MAT 112 - Mathematics for Liberal Arts

(3) This course introduces some of the important ideas in mathematics and how they can be applied in everyday life situations, solving a wide range of practical problems. Topics include sets, logic, history of numeration, number systems and their properties, number patterns, counting principles, probability, statistics, graph theory, personal finance, and voting methods.

Notes: Students with higher level mathematics skills (i.e. ACT MAT above 20 and SAT MATH above 520) are discouraged from taking this class. Only students who do not place into MAT 111 - College Algebra should enroll in MAT 112 - Mathematics for Liberal Arts.

When Offered

Fall, spring and summer semesters.

Science (4 credit hours)**BIO 120 - Biological Principles**

(3) Life processes common to plants and animals, cell structure and function. Introduction to genetics, biochemistry, and development.

Prerequisites: For Biological and General Sciences majors only.

Corequisites: BIO 121.

When Offered

Every fall semester.

BIO 121 - Biological Principles Lab

(1) Corequisite Lab for BIO 120 Biological Principles.

Corequisites: BIO 120.

Lab/Lecture Hours

Three-hour lab.

Fee

Course fees apply.

When Offered

Every fall semester.

Social Sciences (12 credit hours)

Take each of the following four courses:

ECO 215 - Economics

(3) Economics is about scarcity and choice. Students in this course study how people, firms, governments, and nations interact in alternative economic systems to make choices about allocating scarce resources. In addition, students learn to evaluate these systems, understand macroeconomic monetary and fiscal policies, and engage in policy debates.

When Offered

Fall and spring semesters.

HIS 185 - Western Civilization

(3) The spiritual values and intellectual achievements of ancient Israel, Greece, Rome, the Middle Ages, the Renaissance, and Reformation that gave birth to the modern world.

When Offered

Every fall semester.

HIS 205 - American History

(3) Principles of the founding and the political, economic, intellectual, cultural, and religious traditions that have shaped America.

When Offered

Every spring semester.

POL 207 - Introduction to American Politics

(3) Introduction to political science and American government to prepare students to be effective citizens.

When Offered

Every fall and spring semester.

Kinesiology Core (51 credit hours)**BIO 201 - Human Anatomy and Physiology I**

(3) Structure and function of the skeletal, muscular, and nervous systems.

Prerequisites: BIO 120 or BIO 209.

Corequisites: BIO 211 (Lab).

When Offered

Every fall and spring semester.

BIO 211 - Human Anatomy and Physiology I Lab

(1)

Corequisites: BIO 201.

Lab/Lecture Hours

Three-hour lab.

Fee

Lab fees apply.

When Offered

Every fall and spring semester.

BIO 460 - Bioethics

(3) The biological revolution and its ethical impact; genetic engineering, reproductive technology, advanced prolongation of life, biblical principles of medical and biotechnological decision-making, secular alternatives; political dynamics.

Prerequisites: Senior Standing; final semester at CCU. Instructor permission required.

Fee

Fees may apply.

When Offered

Every semester.

CHM 111 - Nutrition

(3) Nutrients and their functions in the body. Nutrition and health, clinical applications of nutrition, and facts and fallacies of diet. Meets nutrition prerequisites for students planning to enter various advanced programs for health science-oriented professions.

When Offered

Every spring semester.

KIN 105 - Introduction to Sports and Recreation Management

(3) This course provides an overview of the history of sport and its evolution as a business, highlighting key topics in the field of Sports Management.

When Offered

Every fall semester.

KIN 210 - Foundations in Kinesiology

(3) Foundations in Kinesiology introduces the study of kinesiology and provides the foundations of anatomy, physiology, biomechanics, and sports psychology for students to continue their kinesiology degree.

When Offered

Every fall semester.

KIN 225 - Individual and Dual Physical Activities

(3) This course examines the key factors related to proper instruction and participation for individual sports, team sports, and lifetime physical activities. Emphasis is placed on rules, strategies, organization, and the development of skills.

Prerequisites: KIN 210. Student must be a declared major in Kinesiology, Physical Education, Pre-Physical Therapy, or Sports Management.

Fee

Course fee applies.

When Offered

Every spring semester.

KIN 230 - Sport and Recreation Programming

(3) This course provides an overview of the programming techniques, practices, and development used in all levels of sport.

Prerequisites: KIN 105. Student must be a declared major in Kinesiology, Physical Education, Pre-Physical Therapy, or Sports Management.

When Offered

Every spring semester.

KIN 240 - Sports Nutrition

(3) This course examines the empirically-based evidence behind proper nutritional habits and programming among an athletic population.

Prerequisites: CHM 111, KIN 210. Student must be a declared major in Kinesiology, Physical Education, Pre-Physical Therapy, or Sports Management.

Fee

Course fee applies.

When Offered

Every fall semester.

KIN 310 - Mental Aspects of Sports Performance

(3) Offers overview of basic concepts and principles essential to understanding the psychological and behavioral aspects of sport and exercise. Emphasis is given to the conceptual frameworks and the applied aspects of sport performance enhancement and mental skills, exercise behavior and motivation, and health and well being. Applications are made to future practitioners of coaching, teaching, sports medicine, counseling, sport management, and fitness instruction.

Prerequisites: PSY 101 or PSY 201 or PSY 245.

When Offered

Every spring semester.

KIN 320 - Physiology of Exercise

(3) Educate students how exercise affects the anatomy and physiology of the human body.

Prerequisites: BIO 202, BIO 212. Student must be a declared major in Kinesiology, Physical Education, Pre-Physical Therapy, or Sports Management.

When Offered

Every fall semester.

KIN 330 - Therapeutic Exercise and Rehabilitation

(3) An introduction to the science behind therapeutic exercise and how it may be used in recovery and rehabilitation.

Prerequisites: KIN 320. Student must be a declared major in Kinesiology, Physical Education, Pre-Physical Therapy, or Sports Management.

When Offered

Every spring semester.

KIN 345 - Coaching and Talent Development

(3) This course helps students become aware of the principles related to the nurturing and development of talent at all levels. Coaching and sports instructors benefit from the awareness of current theories and trends that are promoted in this course.

Prerequisites: KIN 310. Student must be a declared major in Kinesiology, Physical Education, Pre-Physical Therapy, or Sports Management.

Fee

Course fee applies.

When Offered

Every spring semester.

KIN 420 - Event Marketing and Management

(3) This course provides strategies for marketing and managing sports and recreation events based on best practices current in the field.

Prerequisites: KIN 230. Student must be a declared major in Kinesiology, Physical Education, Pre-Physical Therapy, or Sports Management.

When Offered

Every spring semester.

KIN 430 - Kinesiology Senior Seminar

(3) This course is designed to integrate anatomy and physiology, kinesiology, biometrics, and sports psychology in an applied setting.

Prerequisites: Senior standing. Student must be a declared major in Kinesiology, Physical Education, Pre-Physical Therapy, or Sports Management.

When Offered

Every fall semester.

KIN 450 - Kinesiology Senior Internship

(5) Supervised field experience in a professional setting.

Prerequisites: KIN 430. Student must be a declared major in Kinesiology, Physical Education, Pre-Physical Therapy, or Sports Management.

Notes: Pass/Fail.

When Offered

Scheduled by school.

MAT 212 - Statistics and their Application

(3) An introduction to statistical analysis as used in various liberal arts disciplines. Descriptive and inferential statistics and attendant research designs will be considered. Students will become familiar with SPSS and its use in analyzing data and decision making.

Prerequisites: Sophomore standing.

When Offered

Fall and spring semesters.

Management Core (18 credit hours)

LAW 303 - Business Law

(3) Practical overview of relevant foundational aspects of business law, such as contracts, agency, and commercial transactions, and basic application of these principles to the workplace.

Prerequisites: BUS 101 or MGT 101, Junior or Senior standing.

When Offered

Fall and spring semesters.

LED 101 - Foundations of Management and Leadership

(3) Students learn to build theoretical, practical, and theological foundations for becoming effective managers and leaders. Students learn to analyze their strengths and weaknesses, making specific growth plans. The course covers many facets of organizational behavior and analyzes human behavior in the workplace. Students study the elements of group behavior including group dynamics, communication, leadership power and politics, and conflict and negotiation.

When Offered

Fall and spring semesters.

MGT 201 - Organizational Behavior and Design

(3) This course is oriented toward developing a better understanding of organizational culture and the role human behavior has in forming culture; using this knowledge to help people be more productive and satisfied in various organizational settings, i.e. large publicly owned corporations, and small privately-owned companies and nonprofit organizations. It provides you with an understanding of the field of organizational behavior and the implications it has in the management of a rapidly evolving workforce.

Prerequisites: LED 101 or BUS 101 or MGT 101.

When Offered

Fall and spring semesters.

MGT 500 - Management Problem Solving and Decision-Making

(3) Fundamental and advanced techniques for making decisions and solving problems at all leadership levels in business and in life. These systematic techniques, or processes, are designed to improve the student's ability to gather, organize, and evaluate information in the areas of problem solving, decision making and plan implementation.

Prerequisites: Juniors and Seniors only.

When Offered

Every fall and spring semester.

MGT 561 - Business Project Planning, Scheduling, and Controlling

(3) To be successful, project managers must analyze alternative project decisions by relying heavily on project planning, scheduling, estimating, control, and risk management tools and techniques. This course provides students with the skills required to plan, baseline, monitor, analyze, and evaluate project performance and associated risks.

Prerequisites: Juniors and Seniors only.

Fee

Course fees apply.

When Offered

Every spring semester.

MKT 202 - Principles of Marketing

(3) Marketing is not tricking people into buying something, but rather involves creating genuine value for customers. Students learn how to use the marketing mix (product, price, promotion, and place) and STP (segmenting, targeting, and positioning) as well as better understand advertising, logistics, data analytics, online marketing, pricing, and ethics. The final group project includes a real-world application to rebrand and market a company.

When Offered

Every fall semester.

Graduation Requirements for Bachelor of Science in Sports Management

The faculty recommends students in the B.S. in Sports Management to the Board of Trustees as candidates for graduation when they have completed the following requirements.

1. Completion of a total of 120 credits, including all general education, electives and Sports Management major program requirements.
2. A letter grade of D or better and a cumulative GPA of 2.0 or better in all CCU coursework, and a GPA of 2.0 or higher for all courses specified for the major.
3. Completion of 180 hours of ministry/community service and 180 chapel credits. Transfer students are required to complete 45 hours of ministry/community service and 45 chapel credits each year of attendance at CCU. For further details on ministry/community service, see the Life Directions Center (LDC) section of this catalog. For further details on chapel credits, see the Student Life section of this catalog.
4. Meet the CCU Residency requirements.
5. Acceptable performance on exit exams, as required by the faculty.
6. Formal and timely application for graduation by the date specified by the University Registrar.
7. No outstanding financial obligation to the University.

Minor

Biology Minor

Students may earn a minor in the field by completing the following 22 credit hours provided none of the courses is required in the student's major.

Required Courses (22 credit hours)

Required Core (16 credit hours)

BIO 120 - Biological Principles

(3) Life processes common to plants and animals, cell structure and function. Introduction to genetics, biochemistry, and development.

Prerequisites: For Biological and General Sciences majors only.

Corequisites: BIO 121.

When Offered

Every fall semester.

BIO 121 - Biological Principles Lab

(1) Corequisite Lab for BIO 120 Biological Principles.

Corequisites: BIO 120.

Lab/Lecture Hours

Three-hour lab.

Fee

Course fees apply.

When Offered

Every fall semester.

BIO 130 - Biological Diversity

(3) Continuation of BIO 120 Biological Principles. Introduction to human physiology, animal and plant kingdom, plant structure and function, ecology, and creation and evolution.

Prerequisites: For Biological and General Sciences majors only.

Corequisites: BIO 131.

When Offered

Every spring semester.

BIO 131 - Biological Diversity Lab

(1) Co-requisite lab for BIO 130 Biological Diversity.

Corequisites: BIO 130.

Lab/Lecture Hours

3-hour lab.

Fee

Course fees apply.

When Offered

Every spring semester.

BIO 201 - Human Anatomy and Physiology I

(3) Structure and function of the skeletal, muscular, and nervous systems.

Prerequisites: BIO 120 or BIO 209.

Corequisites: BIO 211 (Lab).

When Offered

Every fall and spring semester.

BIO 211 - Human Anatomy and Physiology I Lab

(1)

Corequisites: BIO 201.

Lab/Lecture Hours

Three-hour lab.

Fee

Lab fees apply.

When Offered

Every fall and spring semester.

BIO 202 - Human Anatomy and Physiology II

(3) Human respiratory, circulatory, digestive, excretory, endocrine, and reproductive systems.

Prerequisites: BIO 201.

Corequisites: BIO 212 (Lab).

When Offered

Every fall and spring semester.

BIO 212 - Human Anatomy and Physiology II Lab

(1)

Corequisites: BIO 202.

Lab/Lecture Hours

Three-hour lab.

Fee

Lab fees apply.

When Offered

Every fall and spring semester.

Elective Core (6 credit hours)

- Choose two courses (6 credit hours) from upper level (300 or higher) Biology electives.

Chemistry Minor

Students may earn a minor in Chemistry by completing the following 23 credit hours and all corresponding prerequisites provided none of the courses is required in the student's major.

Required Courses (23 credit hours)

CHM 121 - General Chemistry I

(4) Atomic structure, stoichiometry, chemical bonding, and gas and solution chemistry.

Prerequisites: MAT 111 or MAT 115 or MAT 141.

Corequisites: CHM 131 (Lab), CHM 141 (Recitation).

When Offered

Every fall semester.

CHM 131 - General Chemistry I Lab

(1)

Corequisites: CHM 121.

Lab/Lecture Hours

Three-hour lab.

Fee

Lab fees apply.

When Offered

Every fall semester.

CHM 141 - General Chemistry I Recitation

(0)

Corequisites: CHM 121.

When Offered

Every fall semester.

CHM 122 - General Chemistry II

(4) Major concepts in four areas of chemistry: physical chemistry (kinetics and equilibrium), analytical chemistry (acids, base, redox), inorganic chemistry (atmospheric chemistry and metals), organic chemistry (alkanes and function groups).

Prerequisites: Grade of C- or higher in CHM 121.

Corequisites: CHM 132 (Lab), CHM 142 (Recitation).

When Offered

Every spring semester.

CHM 132 - General Chemistry II Lab

(1)

Corequisites: CHM 122.

Lab/Lecture Hours

Three-hour lab.

Fee

Lab fees apply.

When Offered

Every spring semester.

CHM 142 - General Chemistry II Recitation

(0)

Corequisites: CHM 122.

When Offered

Every spring semester.

CHM 221 - Organic Chemistry I

(4) Introduction to the study of structure, reactions, properties, and mechanisms of organic molecules.

Prerequisites: CHM 122.

Corequisites: CHM 231 (Lab), CHM 241 (Recitation).

When Offered

Every fall semester.

CHM 231 - Organic Chemistry I Lab

(1) Basic organic procedures using microscale lab techniques, computer simulation, and data acquisition.

Corequisites: CHM 221.

Lab/Lecture Hours

Three-hour lab.

Fee

Lab fees apply.

When Offered

Every fall semester.

CHM 241 - Organic Chemistry I Recitation

(0)

Corequisites: CHM 221.

When Offered

Every fall semester.

CHM 222 - Organic Chemistry II

(4) Continuation of CHM 221. Emphasis on organic synthesis and reaction mechanisms. Chemistry of heterocycles and biologically related compounds introduced.

Prerequisites: CHM 221.

Corequisites: CHM 232 (Lab), CHM 242 (Recitation).

When Offered

Every spring semester.

CHM 232 - Organic Chemistry II Laboratory

(1) Continuation of CHM 231.

Corequisites: CHM 222.

Lab/Lecture Hours

Three-hour lab.

Fee

Lab fees apply.

When Offered

Every spring semester.

CHM 242 - Organic Chemistry II Recitation

(0)

Corequisites: CHM 222.

When Offered

Every spring semester.

CHM 331 - Biochemistry

(3) Introduction to principles of biochemistry for science and health science-oriented majors. Topics include protein structure, enzyme kinetics, intermediary metabolism and metabolic control, and the molecular biology of gene expression. Special topics include metabolic disorders, the biochemistry of cancer, and the human genome project.

Prerequisites: CHM 222.

When Offered

Every spring semester.

Mathematics Minor

The minor in Mathematics combines the various fields and focuses of Calculus, Statistics and Algebra in order to provide a well-rounded understanding and skilled competency in the field.

Students may earn a minor in the field by completing the following 18 or 19 credit hours provided none of the courses is required in the student's major.

Required Courses (18-19 credit hours)

MAT 141 - Calculus I

(4) First semester single-variable calculus and analytic geometry: Limits, continuity, differentiation and its applications, Fundamental Theorem of Calculus, basic integration techniques.

Prerequisites: MAT 115 or high school pre-calculus completed with a grade of B- or better, or instructor permission.
Corequisites: MAT 142.

When Offered

Fall, spring and summer semesters.

MAT 142 - Calculus I Recitation

(0) Co-requisite for MAT 141.

Prerequisites: MAT 115 or high school pre-calculus completed with a grade of B- or better, or instructor permission.
Corequisites: MAT 141.

When Offered

Fall, spring and summer semesters.

MAT 241 - Calculus II

(4) Second semester single-variable calculus and analytic geometry: Advanced techniques of integration, polar equations, parametric equations, introduction to differential equations, infinite sequences and series, convergence, power series, and Taylor polynomials. Limits, continuity, derivatives, applications of the derivative, integrals, applications of integrals, techniques of integration, infinite sequences and series including Taylor's series.

Prerequisites: MAT 141, MAT 142 with a grade of B- or better, or AP Calculus AB with a score of 4 or 5, or instructor permission.
Corequisites: MAT 242.

When Offered

Every spring semester.

MAT 242 - Calculus II Recitation

(0) Recitation section to accompany MAT 241.

Prerequisites: MAT 141, MAT 142 with a grade of B- or better, or AP Calculus AB with a score of 4 or 5, or instructor permission.
Corequisites: MAT 241.

When Offered

Every spring semester.

MAT 261 - Linear Algebra

(4) Matrix theory and linear algebra: Systems of linear equations, matrix operations, linear dependence and independence, orthogonal bases and projections, determinants, eigenvalues and eigenvectors, linear transformations.

Prerequisites: MAT 141, MAT 142 with a grade of C- or better.
Corequisites: MAT 262.

When Offered

Every spring semester.

MAT 262 - Linear Algebra Recitation

(0) Recitation section to accompany MAT 261.

Prerequisites: MAT 141, MAT 142 with a grade of C- or better.
Corequisites: MAT 261.

When Offered

Every spring semester.

MAT 313 - Statistics and Probability for Engineers

(3) Basic probability, probability distributions, descriptive statistics, linear regression, design and analysis of single and multiple factor experiments, and statistical quality control.

Prerequisites: MAT 141, MAT 142 with a grade of C+ or better, and sophomore status.

When Offered

Every spring semester.

MAT 341 - Calculus III

(4) Multi-dimensional calculus, study of functions of several variables, partial derivatives, and optimization problems in multi-dimensional spaces. Vectors, vector-valued functions, parametric curves and three dimensional surfaces.

Prerequisites: MAT 241, MAT 242 with a grade of C- or better; or instructor approval.

Corequisites: MAT 342.

When Offered

Every fall semester.

MAT 342 - Calculus III Recitation

(0) Recitation section to accompany MAT 341 .

Prerequisites: MAT 241, MAT 242 with a grade of C- or better; or instructor approval.

Corequisites: MAT 341 .

When Offered

Every fall semester.

OR

MAT 352 - Differential Equations

(3) Ordinary differential equations, analytical, graphical, and numerical analyses, methods, and techniques. First and second order equations, Laplace Transformations, matrices, non-linear systems.

Prerequisites: MAT 241 and sophomore status.

When Offered

Every fall semester.

School of Theology

The School of Theology offers Bachelor of Arts majors in the disciplines of Apologetics and Evangelism, Biblical Studies with Languages, Ministry Management, Theology and Youth Ministry. These degree programs prepare thoughtful, mature, Christian scholars to enter ministry careers and graduate school.

Minors are also available in Apologetics and Evangelism, Biblical Archaeology, Biblical Studies, Church History, Intercultural Ministry, Philosophy, Sacred Music and Literature, Theology, Youth Ministry, and Young Life Leadership.

The School of Theology adheres to the University's commitment to a broad evangelical perspective, centered in an authentic commitment to Christ.

Bachelor's Degrees

Apologetics and Evangelism Major

The Bachelor of Arts in Apologetics and Evangelism embodies the commitment of Colorado Christian University to spread the gospel and advance the kingdom of God. This major is offered in collaboration with the Lee Strobel Center for Evangelism and Applied Apologetics at CCU. The degree introduces students to the knowledge and skills necessary to provide a meaningful defense of the faith and thoughtful evangelistic tools to share it. The major is enhanced with a core foundation of Biblical Studies courses, grounding students in a deep understanding of the biblical basis of apologetics and evangelism.

Students choose one of four emphases that add greater depth and rigor to their Apologetics and Evangelism degree program.

- Cultural Engagement
- Global Apologetics
- Innovative Evangelism
- Practical Apologetics

The Bachelor of Arts in Apologetics and Evangelism degree requires completion of the following 120 credit hours:

General Education (45 credit hours)

Biblical Studies Core (39 credit hours)

Emphasis Core (18 credit hours)

Electives (18 credit hours)

General Education Requirements (45 credit hours)

Arts and Humanities (9 credit hours)

Take one course from each of the following three academic disciplines:

Fine Arts (3 credit hours)

Choose one course from the following:

HUM 120 - Introduction to the Arts

(3) Introduction to our humanity through hands-on experience in the arts (music, visual arts, poetry, story, play, and dance). Aesthetic and artistic values in the broader context of human cultural development, responsibility, and joy.

Notes: This course satisfies the general education fine arts requirement for most students, and is the required fine arts course for education majors. It is recommended for all students with a general interest in the fine arts. Students with a special interest in theatre should see THR 112. Students with a special interest in music should see MUS 110.

Note: HUM 120 does not satisfy the fine arts requirement for music majors or minors.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

MUS 110 - Musical Perspectives

(3) An exploration of music in the broader context of culture and the arts; personal musical experiences through listening and doing; and developing the ability to discern aesthetic excellence. Included is an introduction to the elements of music and how music works, the development of a Christian perspective on the arts, a broad survey of representative selections of Western music, and a focused overview of non-western/world music.

Notes: This course satisfies the general education fine arts requirement for most students. It is recommended for all students, especially those with an interest in music, and is the required fine arts course for all music majors and minors. Students with a special interest in Theatre should see THR 112.

Note: MUS 110 does not satisfy the fine arts requirement for education majors.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

THR 112 - Theatre Appreciation

(3) An introduction to the theatre world and all its aspects: the people who are active in that world, the many kinds of work that are created, the sensations and ideas we receive from those works, and the ways the life of theatre has transmitted across many times and place.

Notes: This course satisfies the general education fine arts requirement for most students. It is recommended for all students, especially those with an interest in theatre. Students with a special interest in music should see MUS 110.

Note: THR 112 does not satisfy the fine arts requirement for music majors or minors, or education majors.

When Offered

Fall and spring semesters.

Literature (3 credit hours)

Choose one course from the following:

ENG 201 - Introduction to Literature

(3) Understand, experience, and evaluate poetry, short fiction, essays, and drama genres, both American and multinational.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Fall and spring semesters.

ENG 202 - American Literature I

(3) Representative stories, poems, and documents in American literature from the Colonial era to the early Republic (1776-1830) through the Romantic-transcendentalist period (1830-1860). Includes readings from multiethnic and women writers.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every fall semester.

ENG 203 - American Literature II

(3) Representative stories, poems, and drama in American literature from the Civil War to the present. Nontraditional ethnic and women's voices included. Emphasis on interpretation and criticism of American literature.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every spring semester.

ENG 204 - British Literature I

(3) Surveys the history of literature in Britain until 1800 and representative works by influential writers of the periods contained therein.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every fall semester.

ENG 205 - British Literature II

(3) Surveys the history of literature in Britain from 1800 to the present and representative works by influential writers.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every spring semester.

Philosophy (3 credit hours)

PHL 202 - Introduction to Philosophy

(3) This course is a survey of many major issues raised over the two-and-a-half millennia of western philosophy. With an emphasis on historical context and development, as well as philosophy's relationship to Christian thought, this course challenges students to critically explore philosophical questions and introduce them to the great tradition of intellectual inquiry. Special attention will be given to the subjects of truth and knowledge, reality and appearance, mind and body, right and wrong, beauty and the existence of God.

When Offered

Fall and summer semesters.

Biblical Studies (9 credit hours)

Take the following three courses (some courses are cross-listed and only one prefix needs to be taken):

BIB 111 - Old Testament

(3) This course provides an introduction to the theological, historical, and literary features of the Old Testament, tracing God's covenant relationship with ancient Israel. Special consideration will be given to the divine covenants and Messianic prophecies of the Old Testament.

When Offered

Every spring semester.

Cross-listed HIS 111

HIS 111 - Old Testament

(3) This course provides an introduction to the theological, historical, and literary features of the Old Testament, tracing God's covenant relationship with ancient Israel. Special consideration will be given to the divine covenants and Messianic prophecies of the Old Testament.

When Offered

Every spring semester.
Cross-listed BIB 111.

BIB 114 - New Testament

(3) This course provides an introduction to the theological, historical, and literary features of the New Testament, tracing the presentation of the gospel message through historical, epistolary, and apocalyptic genres. Special consideration will be given to the life of Christ and missionary journeys of the Apostle Paul.

When Offered

Every fall semester.
Cross-listed HUM 114

HUM 114 - New Testament

(3) This course provides an introduction to the theological, historical, and literary features of the New Testament, tracing the presentation of the gospel message through historical, epistolary, and apocalyptic genres. Special consideration will be given to the life of Christ and missionary journeys of the Apostle Paul.

When Offered

Every fall semester.
Cross-listed BIB 114.

PHL 315 - World Religions and Systems of Belief

(3) This course introduces an academic study of religion and what is called worldview, supplemented by an overview of some of the major tenets of Christianity; this is then followed by a survey of several other religious traditions and competing philosophies.

Prerequisites: PHL 202, THE 201.

When Offered

Winter and spring semesters.

Communication (6 credit hours)

COM 103 - Public Speaking

(3) Introductory principles of communication emphasizing public speaking. Aspects of verbal and nonverbal delivery, speech organization, and the effective use of supporting material and presentational aids are addressed. Students give several speeches designed to better equip them for future speaking endeavors

When Offered

Fall and spring semesters.

ENG 102 - English Composition

(3) Effective use of the English language and exploration of rhetorical modes in written composition. Review of structure, purpose, and audience awareness in developing essays.

Prerequisites: ACT and/or SAT scores will be used to determine placement in either ENG 102 or ENG 102 (Basic).

Notes: Course must be completed first semester at CCU.

When Offered

Fall and spring semester.

ENG 105 - Advanced English Composition

(3) Advanced English composition, research methods, and literary study for invited exceptional students. Focus on both the study of literature and research writing.

Prerequisites: One of the following:

- AP English Language and Composition
 - A score of 4 is the minimum prerequisite for enrollment in ENG 105. A student who scores a 4 or 5 will automatically enroll a student in ENG 105 instead of ENG 102 and/or ENG 201.

- AP English Literature and Composition
 - A score of 4 is the minimum prerequisite for enrollment in ENG 105. A student who scores a 4 or 5 will automatically enroll a student in ENG 105 instead of ENG 102 and/or ENG 201.
- Score of 30 or above on the verbal section of the ACT exam.
- Score of 700 or above on the verbal section of the SAT exam.
- By invitation of the English department.

Notes: Fulfills general education requirements for both ENG 102 and ENG 201.

When Offered

Every fall semester.

Integrative Studies (3 credit hours)

* Please see the First-Year Integration (FYI) page for specific information about this required course.

INT 101 - First-Year Integration

(3) Think critically, grow spiritually, and change the world. Based on the premise that we as Christians are called to be rational creatures, relational creatures, and responsible creatures, FYI is an integrative study of foundational Christian principles with other disciplines. Examination and discussion of problems and contemporary issues - academic, personal, and social - facing students in their pursuit of success in college and life. Please see the First-Year Integration (FYI) page for specific information about this required course.

When Offered

Fall and spring semesters.

Mathematics (3 credit hours)

MAT 112 - Mathematics for Liberal Arts

(3) This course introduces some of the important ideas in mathematics and how they can be applied in everyday life situations, solving a wide range of practical problems. Topics include sets, logic, history of numeration, number systems and their properties, number patterns, counting principles, probability, statistics, graph theory, personal finance, and voting methods.

Notes: Students with higher level mathematics skills (i.e. ACT MAT above 20 and SAT MATH above 520) are discouraged from taking this class. Only students who do not place into MAT 111 - College Algebra should enroll in MAT 112 - Mathematics for Liberal Arts.

When Offered

Fall, spring and summer semesters.

Science (3 credit hours)

SCI 230 - Integrated Physical Science with Lab

(3) This is an integrated course presenting the major concepts, theoretical perspectives, historical trends, and empirical findings of the physical sciences. Laboratory exercises and lectures explore motion, the four forces, heat, energy, chemical reactions, the structure and development of matter, the types and nature of chemical bonding, and the nature and history of the universe, the solar system, and the Earth.

Lab/Lecture Hours

Laboratory investigations included in course.

Fee

Lab fees apply.

When Offered

Every semester.

Social Sciences (12 credit hours)

Take each of the following four courses:

ECO 215 - Economics

(3) Economics is about scarcity and choice. Students in this course study how people, firms, governments, and nations interact in alternative economic systems to make choices about allocating scarce resources. In addition, students learn to evaluate these systems, understand macroeconomic monetary and fiscal policies, and engage in policy debates.

When Offered

Fall and spring semesters.

HIS 185 - Western Civilization

(3) The spiritual values and intellectual achievements of ancient Israel, Greece, Rome, the Middle Ages, the Renaissance, and Reformation that gave birth to the modern world.

When Offered

Every fall semester.

HIS 205 - American History

(3) Principles of the founding and the political, economic, intellectual, cultural, and religious traditions that have shaped America.

When Offered

Every spring semester.

POL 207 - Introduction to American Politics

(3) Introduction to political science and American government to prepare students to be effective citizens.

When Offered

Every fall and spring semester.

Biblical Studies Core (39 credit hours)**BIB 230 - Interpreting the Bible**

(3) This course provides an orientation to the Bible, hermeneutics, and exegetical practices. Exploration in the field of biblical studies will include the formation, preservation, and translation of the Bible.

Prerequisites: BIB 111 or HIS 111, BIB 114 or HUM 114, (ENG 104 is recommended).

When Offered

Fall and spring semesters.

BIB 307 - The Synoptic Gospels

(3) This course provides an orientation to the life and teachings of Jesus as theology and historical narrative. Exploration of the Synoptic Gospels will include addressing textual, chronological, historical, and canonical questions that arise as we engage the similarities and differences among Matthew, Mark, and Luke.

Prerequisites: BIB 230.

When Offered

Every third semester.

BIB 310 - Acts and Pauline Literature

(3) This course addresses the development of the early church and its theology in the Book of Acts and Pauline epistles. Special consideration is given to the impact of historical and cultural backgrounds on the hermeneutical approach to the text of the New Testament. Traditional and emerging frameworks for contextualizing Pauline theology are also considered.

Prerequisites: BIB 230.

When Offered

Every third semester.

BIB 315 - Old Testament Narrative and Law

(3) This course provides an exegetical study of the Pentateuch (Genesis through Deuteronomy) and the Deuteronomistic history of the Old Testament (Joshua, Judges, 1 Samuel, 2 Samuel, 1 Kings, 2 Kings). These books are studied within the context of their ancient Near Eastern social, historical, cultural, and geographical settings.

Prerequisites: BIB 230.

When Offered

Every third semester.

BIB 318 - Old Testament Poetry and Wisdom

(3) This course provides an exegetical study of Psalms, Proverbs, Job, Ecclesiastes, and the Song of Solomon. The nature and characteristics of Old Testament poetry and wisdom literature are examined, along with introductory and interpretive issues unique to these books.

Prerequisites: BIB 230.

When Offered

Every third semester.

BIB 409 - Old Testament Prophetic Literature

(3) This course provides an exegetical study of the Major and Minor Prophets of the Old Testament, placing each book within its cultural and historical context. The nature and characteristics of Old Testament prophesy are examined, along with introductory and interpretive issues unique to these books.

Prerequisites: BIB 230.

When Offered

Every third semester.

BIB 410 - Johannine Literature and the General Epistles

(3) This course provides exegetical and theological study of the Johannine and general epistles including consideration of textual, historical, and canonical questions.

Prerequisites: BIB 230.

When Offered

Every third semester.

GRE 301 - Greek I

(3) This course introduces students to the alphabet, vocabulary, and grammar of Koine Greek, including morphology and syntax for basic verbs, nouns and adjectives.

When Offered

Every fall semester.

HEB 301 - Hebrew I

(3) This course introduces students to the alphabet, vocabulary, and grammar of Biblical Hebrew, including vowel pointings, nouns, adjectives, and the verbal system.

When Offered

Every fall semester.

GRE 302 - Greek II

(3) This course completes an introduction to the vocabulary and grammar of Koine Greek, including participles and non-standard noun and verb forms. Additionally, students are taught translation tools and techniques.

Prerequisites: Grade of C- or better in GRE 301.

When Offered

Every spring semester.

HEB 302 - Hebrew II

(3) This course completes an introduction to the vocabulary and grammar of Biblical Hebrew, including the Qal and derived verbal stems. Additionally, students are taught translation tools and techniques.

Prerequisites: Grade of C- or better in HEB 301.

When Offered

Every spring semester.

THE 201 - Introduction to Theology

(3) This course covers basic issues, themes, and categories of Christian theology, including the doctrines of Scripture, God, humanity, Christ, salvation, the church, and last things. This course encourages students to better know, trust, love, and live by God's Word.

Prerequisites: BIB 111, BIB 114.

When Offered

Fall, winter, spring, and summer semesters.

THE 215 - Philosophy and Sociology of Ministry

(3) This course explores the academic and practical approaches to ministry developed from biblical evidence, theological reflection, and social research.

When Offered

Every spring semester.

THE 306 - Communication for Ministry

(3) This course provides an orientation to the principles and practice for the development and delivery of an expository teaching or sermon.

Prerequisites: BIB 230; Junior/Senior status.

When Offered

Fall and spring semesters.

THE 309 - History of Christianity

(3) This course provides an overview of the history of Christianity from the post-apostolic era up to the present day. Focus is given to benchmark events, persons, trends in worship practice and spirituality, doctrinal developments and emphases, and interaction between Christianity and culture over the course of two millennia.

Prerequisites: BIB 111 or HIS 111; BIB 114 or HUM 114.

When Offered

Every fall and spring semesters.

Apologetics and Evangelism Major Core (18 credit hours)

Students take 9 credit hours of the major core and 9 credit hours of their selected emphasis core.

Major Core Requirements (9 credit hours)**APL 100 - Introduction to Apologetics**

(3) This course is an introduction to principles and methodologies of practical Christian apologetics. Multiple apologetic approaches are identified, compared, contrasted, and evaluated as to their strengths and weaknesses.

When Offered

Every fall semester.

APL 202 - Introduction to Personal and Church-based Evangelism

(3) This course is an introduction to the historical and biblical principles which lift and support evangelism. Particular attention is paid to effective contemporary practices through local churches and ministries (6-Stage Process).

Prerequisites: APL 100.

When Offered

Every spring semester.

PHL 240 - Logic and Critical Thinking

(3) This course includes the fundamentals of logic, induction and deduction, logical fallacies, and sources of authority because the ability to think critically and reason well is at the heart of all philosophical endeavors. Emphases will include the application of critical thinking to real-world situations, such as social media, and the relationship between reason and faith.

When Offered

Every odd fall semester.

Emphasis Core Requirements (9 credit hours)

Students choose one of the following four emphases required for the Apologetics and Evangelism major. Courses in the emphasis core are taken online through the College of Adult and Graduate Studies.

Cultural Engagement Emphasis Core

The Cultural Engagement emphasis focuses on engagement with current culture and tensions it has with orthodox Christianity. Learning how to speak the truth in love - without compromising either element, students learn strategies for articulating biblical responses to key cultural issues, but also participate in real-world opportunities to present ultimate solutions grounded in the Gospel of Jesus Christ.

Students choose three courses (9 credit hours) from the following:

CUL 330A - Studies in Secularism: Understanding the Spiritual Landscape

(3) This current issue course explores the rapidly expanding secular influence upon Western society. It discusses the underlying reasons for this shift and offers approaches on how to respond effectively to such trends.

Prerequisites: APL 100A.

CUL 332A - Christian Truth vs. Skeptical Culture: Confronting the Claims of Atheism

(3) This course studies the key issues that divide Christianity and skeptical culture, and confronts the claims of atheist thought. It focuses upon contemporary 21st-century issues.

Prerequisites: APL 100A.

CUL 334A - Conflicts in Culture: Addressing Controversies with Love and Truth

(3) This course examines a number of the key flashpoints within the contemporary "Culture Wars" that currently divide people. It discusses a variety of ways the message of the Gospel and Christians may seek to remedy these issues, such as gender issues, sex, abortion, and other key issues.

Prerequisites: APL 100A.

CUL 436A - Social Action and Evangelism

(3) This course examines and discusses the role of social action and evangelism as an essential principle of outreach and ministry.

Prerequisites: APL 100A.

CUL 438A - The Works and Apologetics of C. S. Lewis

(3) This course reviews and assesses the work of C. S. Lewis, his literature, and unique approach to cultural engagement and apologetics.

Prerequisites: APL 100A.

CUL 440A - Apologetics and the Arts: Film, Music, the Visual Arts, and Social Media

(3) This course examines the role of the arts in apologetics. It discusses and assesses the historic and contemporary impact and uses of these modes of expression to convey Christian truth.

Prerequisites: APL 100A.

Global Apologetics Emphasis Core

The Global Apologetics emphasis focuses on non-Christian and pseudo-Christian belief systems, paying close attention to where those systems diverge from biblical, orthodox Christianity. Application is then made to appropriate apologetic approaches, crafted to address those divergent beliefs and present the true Gospel message.

Students choose three courses (9 credit hours) from the following:

GLA 330A - Comparative Religions: Defending Jesus in a World of Belief Systems

(3) This course explores the varying views of how Christ is understood and depicted by other world religions. It compares and contrasts these perceptions in light of the applicable religion's texts, history, and philosophy.

Prerequisites: APL 100A.

GLA 332A - Christ and Islam: The Case for Christ in a Muslim Context

(3) This course examines how Christ is depicted and seen in the Muslim world. It compares and contrasts these perceptions in light of Islam's texts and history as well as Christian Scripture.

Prerequisites: APL 100A.

GLA 334A - Eastern Religions: Biblical Truth Confronts Eastern Thought

(3) This course studies some of the core beliefs that undergird Eastern Thought. It examines the pillars of the distinct worldviews behind Hinduism, Buddhism, Shinto, Taoism, and others and how they conflict doctrinally with a Christian Worldview.

Prerequisites: APL 100A.

GLA 436A - Religious Cults: The Real Jesus In a Sea of Religious Sects

(3) This course examines a range of historical and contemporary pseudo-Christian organizations and identifies how each departs from doctrinal orthodoxy.

Prerequisites: APL 100A.

GLA 438A - Apologetic Essentials in World Missions

(3) The course identifies and discusses the apologetic topics and approaches that are essential on the mission field. It practically recommends how to utilize these methods across the spectrum of people groups.

Prerequisites: APL 100A.

GLA 440A - Postmodern Thought: Christian Truth vs. A Relativistic Culture

(3) This philosophy-focused course studies the key issues that divide contemporary Postmodernism, and other emerging secular philosophies, from classical Christian thought.

Prerequisites: APL 100A.

Innovative Evangelism Emphasis Core

The emphasis in Innovative Evangelism is designed to enhance students' evangelistic passion, and then to harness it into developing strategic and creative approaches that reach increasing numbers of non-believers who desperately need the truth of the gospel.

Students choose three courses (9 credit hours) from the following:

EVA 330A - Relational Evangelism: Becoming Contagious Christians

(3) This course explores the variety of approaches related to the more organic or relational forms of evangelism.

Prerequisites: APL 100A.

EVA 332A - Building Evangelistic Churches

(3) This course examines the biblical and time-tested principles and practices needed to increase the evangelistic effectiveness of local congregations.

Prerequisites: APL 100A.

EVA 334A - Reaching Next Generations for Christ

(3) This course examines various approaches to reaching young people with the gospel, including a study of student ministries that are evangelistically effective.

Prerequisites: APL 100A

EVA 436A - Introduction to World Religions, Sects, Cults

(3) This introductory course provides a survey of the central beliefs of major world religions, sects, and cults.

Prerequisites: APL 100A.

Cross-listed PRA 440A.

EVA 438A - Leadership In Evangelism: The Pastor and the Point Person

(3) This course examines the attributes, practices, principles, and methods necessary for effective evangelistic leaders.

Prerequisites: APL 100A.

EVA 440A - Evangelism in Smaller Settings

(3) This course studies the important factors and topics associated with evangelizing and edifying seekers in small group and spiritual discovery group settings.

Prerequisites: APL 100A.

Practical Apologetics Emphasis Core

The Practical Apologetics emphasis focuses on how science, history, philosophy, archaeology, religious experience, and evidence related to the life and work of Jesus Christ can all be used to argue for the truth of Christianity - including the Christian worldview, the existence of the triune God, and consequent truth of the Gospel message.

Students choose three courses (9 credit hours) from the following:

PRA 330A - Historical Evidences for Christianity: The Case for Christ

(3) This course studies the core historical evidences of the Christian faith. It reviews the basic apologetics for the work and person of Christ and the historical work and evidences of the early church.

Prerequisites: APL 100A.

PRA 332A - Key Objections to Christianity: The Case For Faith

(3) This course examines and discusses the classical and contemporary objections and rejections of theism and the Christian faith.

Prerequisites: APL 100A.

PRA 334A - Faith and Science: The Case for a Creator

(3) This course explores the foundational issues of the relationship between faith and science, as well as critically examines evidence and arguments in support of Christianity from various scientific disciplines, including cosmology, physics, and biochemistry.

Prerequisites: APL 100A.

PRA 436A - The Case for Easter: Evidence for the Resurrection of Jesus

(3) This course studies the foundational apologetics methodologies concerning the bodily resurrection of Christ. It reviews the basic arguments from Scripture, history, and metaphysics.

Prerequisites: APL 100A.

PRA 438A - Confident Faith: A Cumulative Case For Christianity

(3) This course covers the broad range of apologetic methodologies and philosophical approaches essential to understanding the reasonable argument to be made for theism and Christianity.

Prerequisites: APL 100A.

PRA 440A - Introduction to World Religions, Sects, Cults

(3) This introductory course provides a survey of the central beliefs of major world religions, sects, and cults.

Prerequisites: APL 100A.

Cross-listed EVA 436A.

Graduation Requirements for Bachelor of Arts in Apologetics and Evangelism

The faculty recommends students in the B.A. in Apologetics and Evangelism to the Board of Trustees as candidates for graduation when they have completed the following requirements.

1. Completion of a total of 120 credits, including all general education, electives, and Apologetics and Evangelism major program requirements.

2. A letter grade of D or better and a cumulative GPA of 2.0 or better in all CCU coursework, and a GPA of 2.0 or higher for all courses specified for the major.
3. Completion of 180 hours of ministry/community service and 180 chapel credits. Transfer students are required to complete 45 hours of ministry/community service and 45 chapel credits each year of attendance at CCU. For further details on ministry/community service, see the Life Directions Center (LDC) section of this catalog. For further details on chapel credits, see the Student Life section of this catalog.
4. Meet the CCU Residency requirements.
5. Acceptable performance on exit exams, as required by the faculty.
6. Formal and timely application for graduation by the date specified by the University Registrar.
7. No outstanding financial obligation to the University.

Biblical Studies with Languages Major

The Bachelor of Arts in Biblical Studies with Languages emphasizes understanding the Bible through a specific focus on the exegesis and interpretation of Scripture. This degree equips individuals for Christian ministry with the knowledge and skills to rightly handle and teach the Word of God. This bachelor's degree not only will serve for personal enrichment but also as a foundation for ministry and further graduate study.

Students in the Bachelor of Arts in Biblical Studies with Languages may apply for the Dual Degree program, earning their Biblical Studies with Languages major in their first three years at CCU, and the Master of Arts in Biblical Studies in their fourth year. Course requirements for the Dual Degree program are listed below.

The Biblical Studies with Languages Major requires completion of the following 120 credits:

General Education (45 credit hours)

Major Core (42 credit hours)

Electives (33 credit hours)

General Education Requirements (45 credit hours)

Arts and Humanities (9 credit hours)

Take one course from each of the following three academic disciplines:

Fine Arts (3 credit hours)

Choose one course from the following:

HUM 120 - Introduction to the Arts

(3) Introduction to our humanity through hands-on experience in the arts (music, visual arts, poetry, story, play, and dance). Aesthetic and artistic values in the broader context of human cultural development, responsibility, and joy.

Notes: This course satisfies the general education fine arts requirement for most students, and is the required fine arts course for education majors. It is recommended for all students with a general interest in the fine arts. Students with a special interest in theatre should see THR 112. Students with a special interest in music should see MUS 110.

Note: HUM 120 does not satisfy the fine arts requirement for music majors or minors.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

MUS 110 - Musical Perspectives

(3) An exploration of music in the broader context of culture and the arts; personal musical experiences through listening and doing; and developing the ability to discern aesthetic excellence. Included is an introduction to the elements of music and how music works, the development of a Christian perspective on the arts, a broad survey of representative selections of Western music, and a focused overview of non-western/world music.

Notes: This course satisfies the general education fine arts requirement for most students. It is recommended for all students, especially those with an interest in music, and is the required fine arts course for all music majors and minors. Students with a special interest in Theatre should see THR 112.

Note: MUS 110 does not satisfy the fine arts requirement for education majors.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

THR 112 - Theatre Appreciation

(3) An introduction to the theatre world and all its aspects: the people who are active in that world, the many kinds of work that are created, the sensations and ideas we receive from those works, and the ways the life of theatre has transmitted across many times and place.

Notes: This course satisfies the general education fine arts requirement for most students. It is recommended for all students, especially those with an interest in theatre. Students with a special interest in music should see MUS 110.

Note: THR 112 does not satisfy the fine arts requirement for music majors or minors, or education majors.

When Offered

Fall and spring semesters.

Literature (3 credit hours)

Choose one course from the following:

ENG 201 - Introduction to Literature

(3) Understand, experience, and evaluate poetry, short fiction, essays, and drama genres, both American and multinational.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Fall and spring semesters.

ENG 202 - American Literature I

(3) Representative stories, poems, and documents in American literature from the Colonial era to the early Republic (1776-1830) through the Romantic-transcendentalist period (1830-1860). Includes readings from multiethnic and women writers.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every fall semester.

ENG 203 - American Literature II

(3) Representative stories, poems, and drama in American literature from the Civil War to the present. Nontraditional ethnic and women's voices included. Emphasis on interpretation and criticism of American literature.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every spring semester.

ENG 204 - British Literature I

(3) Surveys the history of literature in Britain until 1800 and representative works by influential writers of the periods contained therein.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every fall semester.

ENG 205 - British Literature II

(3) Surveys the history of literature in Britain from 1800 to the present and representative works by influential writers.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every spring semester.

Philosophy (3 credit hours)

PHL 202 - Introduction to Philosophy

(3) This course is a survey of many major issues raised over the two-and-a-half millennia of western philosophy. With an emphasis on historical context and development, as well as philosophy's relationship to Christian thought, this course challenges students to critically explore philosophical questions and introduce them to the great tradition of intellectual

inquiry. Special attention will be given to the subjects of truth and knowledge, reality and appearance, mind and body, right and wrong, beauty and the existence of God.

When Offered

Fall and summer semesters.

Biblical Studies (9 credit hours)

Take the following three courses (some courses are cross-listed and only one prefix needs to be taken):

BIB 111 - Old Testament

(3) This course provides an introduction to the theological, historical, and literary features of the Old Testament, tracing God's covenant relationship with ancient Israel. Special consideration will be given to the divine covenants and Messianic prophecies of the Old Testament.

When Offered

Every spring semester.

Cross-listed HIS 111

HIS 111 - Old Testament

(3) This course provides an introduction to the theological, historical, and literary features of the Old Testament, tracing God's covenant relationship with ancient Israel. Special consideration will be given to the divine covenants and Messianic prophecies of the Old Testament.

When Offered

Every spring semester.

Cross-listed BIB 111.

BIB 114 - New Testament

(3) This course provides an introduction to the theological, historical, and literary features of the New Testament, tracing the presentation of the gospel message through historical, epistolary, and apocalyptic genres. Special consideration will be given to the life of Christ and missionary journeys of the Apostle Paul.

When Offered

Every fall semester.

Cross-listed HUM 114

HUM 114 - New Testament

(3) This course provides an introduction to the theological, historical, and literary features of the New Testament, tracing the presentation of the gospel message through historical, epistolary, and apocalyptic genres. Special consideration will be given to the life of Christ and missionary journeys of the Apostle Paul.

When Offered

Every fall semester.

Cross-listed BIB 114.

PHL 315 - World Religions and Systems of Belief

(3) This course introduces an academic study of religion and what is called worldview, supplemented by an overview of some of the major tenets of Christianity; this is then followed by a survey of several other religious traditions and competing philosophies.

Prerequisites: PHL 202, THE 201.

When Offered

Winter and spring semesters.

Communication (6 credit hours)

COM 103 - Public Speaking

(3) Introductory principles of communication emphasizing public speaking. Aspects of verbal and nonverbal delivery, speech organization, and the effective use of supporting material and presentational aids are addressed. Students give several speeches designed to better equip them for future speaking endeavors

When Offered

Fall and spring semesters.

ENG 102 - English Composition

(3) Effective use of the English language and exploration of rhetorical modes in written composition. Review of structure, purpose, and audience awareness in developing essays.

Prerequisites: ACT and/or SAT scores will be used to determine placement in either ENG 102 or ENG 102 (Basic).

Notes: Course must be completed first semester at CCU.

When Offered

Fall and spring semester.

ENG 105 - Advanced English Composition

(3) Advanced English composition, research methods, and literary study for invited exceptional students. Focus on both the study of literature and research writing.

Prerequisites: One of the following:

- AP English Language and Composition
 - A score of 4 is the minimum prerequisite for enrollment in ENG 105. A student who scores a 4 or 5 will automatically enroll a student in ENG 105 instead of ENG 102 and/or ENG 201.
- AP English Literature and Composition
 - A score of 4 is the minimum prerequisite for enrollment in ENG 105. A student who scores a 4 or 5 will automatically enroll a student in ENG 105 instead of ENG 102 and/or ENG 201.
- Score of 30 or above on the verbal section of the ACT exam.
- Score of 700 or above on the verbal section of the SAT exam.
- By invitation of the English department.

Notes: Fulfills general education requirements for both ENG 102 and ENG 201.

When Offered

Every fall semester.

Integrative Studies (3 credit hours)

* Please see the First-Year Integration (FYI) page for specific information about this required course.

INT 101 - First-Year Integration

(3) Think critically, grow spiritually, and change the world. Based on the premise that we as Christians are called to be rational creatures, relational creatures, and responsible creatures, FYI is an integrative study of foundational Christian principles with other disciplines. Examination and discussion of problems and contemporary issues - academic, personal, and social - facing students in their pursuit of success in college and life. Please see the First-Year Integration (FYI) page for specific information about this required course.

When Offered

Fall and spring semesters.

Mathematics (3 credit hours)**MAT 112 - Mathematics for Liberal Arts**

(3) This course introduces some of the important ideas in mathematics and how they can be applied in everyday life situations, solving a wide range of practical problems. Topics include sets, logic, history of numeration, number systems and their properties, number patterns, counting principles, probability, statistics, graph theory, personal finance, and voting methods.

Notes: Students with higher level mathematics skills (i.e. ACT MAT above 20 and SAT MATH above 520) are discouraged from taking this class. Only students who do not place into MAT 111 - College Algebra should enroll in MAT 112 - Mathematics for Liberal Arts.

When Offered

Fall, spring and summer semesters.

Science (3 credit hours)**SCI 230 - Integrated Physical Science with Lab**

(3) This is an integrated course presenting the major concepts, theoretical perspectives, historical trends, and empirical findings of the physical sciences. Laboratory exercises and lectures explore motion, the four forces, heat, energy, chemical reactions, the structure and development of matter, the types and nature of chemical bonding, and the nature and history of the universe, the solar system, and the Earth.

Lab/Lecture Hours

Laboratory investigations included in course.

Fee

Lab fees apply.

When Offered

Every semester.

Social Sciences (12 credit hours)

Take each of the following four courses:

ECO 215 - Economics

(3) Economics is about scarcity and choice. Students in this course study how people, firms, governments, and nations interact in alternative economic systems to make choices about allocating scarce resources. In addition, students learn to evaluate these systems, understand macroeconomic monetary and fiscal policies, and engage in policy debates.

When Offered

Fall and spring semesters.

HIS 185 - Western Civilization

(3) The spiritual values and intellectual achievements of ancient Israel, Greece, Rome, the Middle Ages, the Renaissance, and Reformation that gave birth to the modern world.

When Offered

Every fall semester.

HIS 205 - American History

(3) Principles of the founding and the political, economic, intellectual, cultural, and religious traditions that have shaped America.

When Offered

Every spring semester.

POL 207 - Introduction to American Politics

(3) Introduction to political science and American government to prepare students to be effective citizens.

When Offered

Every fall and spring semester.

Biblical Studies with Languages Major (42 credit hours)

Biblical Studies with Languages Major Core (39 credit hours)

BIB 230 - Interpreting the Bible

(3) This course provides an orientation to the Bible, hermeneutics, and exegetical practices. Exploration in the field of biblical studies will include the formation, preservation, and translation of the Bible.

Prerequisites: BIB 111 or HIS 111, BIB 114 or HUM 114, (ENG 104 is recommended).

When Offered

Fall and spring semesters.

BIB 307 - The Synoptic Gospels

(3) This course provides an orientation to the life and teachings of Jesus as theology and historical narrative. Exploration of the Synoptic Gospels will include addressing textual, chronological, historical, and canonical questions that arise as we engage the similarities and differences among Matthew, Mark, and Luke.

Prerequisites: BIB 230.

When Offered

Every third semester.

BIB 310 - Acts and Pauline Literature

(3) This course addresses the development of the early church and its theology in the Book of Acts and Pauline epistles. Special consideration is given to the impact of historical and cultural backgrounds on the hermeneutical approach to the text of the New Testament. Traditional and emerging frameworks for contextualizing Pauline theology are also considered.

Prerequisites: BIB 230.

When Offered

Every third semester.

BIB 315 - Old Testament Narrative and Law

(3) This course provides an exegetical study of the Pentateuch (Genesis through Deuteronomy) and the Deuteronomic history of the Old Testament (Joshua, Judges, 1 Samuel, 2 Samuel, 1 Kings, 2 Kings). These books are studied within the context of their ancient Near Eastern social, historical, cultural, and geographical settings.

Prerequisites: BIB 230.

When Offered

Every third semester.

BIB 318 - Old Testament Poetry and Wisdom

(3) This course provides an exegetical study of Psalms, Proverbs, Job, Ecclesiastes, and the Song of Solomon. The nature and characteristics of Old Testament poetry and wisdom literature are examined, along with introductory and interpretive issues unique to these books.

Prerequisites: BIB 230.

When Offered

Every third semester.

BIB 409 - Old Testament Prophetic Literature

(3) This course provides an exegetical study of the Major and Minor Prophets of the Old Testament, placing each book within its cultural and historical context. The nature and characteristics of Old Testament prophesy are examined, along with introductory and interpretive issues unique to these books.

Prerequisites: BIB 230.

When Offered

Every third semester.

BIB 410 - Johannine Literature and the General Epistles

(3) This course provides exegetical and theological study of the Johannine and general epistles including consideration of textual, historical, and canonical questions.

Prerequisites: BIB 230.

When Offered

Every third semester.

GRE 301 - Greek I

(3) This course introduces students to the alphabet, vocabulary, and grammar of Koine Greek, including morphology and syntax for basic verbs, nouns and adjectives.

When Offered

Every fall semester.

HEB 301 - Hebrew I

(3) This course introduces students to the alphabet, vocabulary, and grammar of Biblical Hebrew, including vowel pointings, nouns, adjectives, and the verbal system.

When Offered

Every fall semester.

GRE 302 - Greek II

(3) This course completes an introduction to the vocabulary and grammar of Koine Greek, including participles and non-standard noun and verb forms. Additionally, students are taught translation tools and techniques.

Prerequisites: Grade of C- or better in GRE 301.

When Offered

Every spring semester.

HEB 302 - Hebrew II

(3) This course completes an introduction to the vocabulary and grammar of Biblical Hebrew, including the Qal and derived verbal stems. Additionally, students are taught translation tools and techniques.

Prerequisites: Grade of C- or better in HEB 301.

When Offered

Every spring semester.

THE 201 - Introduction to Theology

(3) This course covers basic issues, themes, and categories of Christian theology, including the doctrines of Scripture, God, humanity, Christ, salvation, the church, and last things. This course encourages students to better know, trust, love, and live by God's Word.

Prerequisites: BIB 111, BIB 114.

When Offered

Fall, winter, spring, and summer semesters.

THE 215 - Philosophy and Sociology of Ministry

(3) This course explores the academic and practical approaches to ministry developed from biblical evidence, theological reflection, and social research.

When Offered

Every spring semester.

THE 306 - Communication for Ministry

(3) This course provides an orientation to the principles and practice for the development and delivery of an expository teaching or sermon.

Prerequisites: BIB 230; Junior/Senior status.

When Offered

Fall and spring semesters.

THE 309 - History of Christianity

(3) This course provides an overview of the history of Christianity from the post-apostolic era up to the present day. Focus is given to benchmark events, persons, trends in worship practice and spirituality, doctrinal developments and emphases, and interaction between Christianity and culture over the course of two millennia.

Prerequisites: BIB 111 or HIS 111; BIB 114 or HUM 114.

When Offered

Every fall and spring semesters.

Upper-Division Field-Related Electives (3 credit hours)

Students must complete three hours of 300-400 level coursework in Theology or Philosophy (THE or PHL course prefix).

Dual Degree Track

Students accepted in the Dual Degree program complete their Bachelor of Arts in Biblical Studies with Languages degree in three years, then complete their Master of Arts in Biblical Studies in their fourth year through the College of Adult and Graduate Studies (CAGS). Included in the bachelor's degree course requirements are nine master's level credit hours that satisfy both undergraduate and graduate degree requirements. To satisfy CCU graduate program course requirements, students must earn a letter grade of B- or better in the master's level courses taken in their undergraduate degree. (Cum GPA and letter grade requirements for the undergraduate degree remain the same.) All admissions requirements of the Master of Arts in Biblical Studies must be fulfilled. Information on admissions can be found on the CCU admissions page.

The Bachelor of Arts in Biblical Studies with Languages Dual Degree Major requires completion of the following 120 credits.

General Education (45 credit hours)

Major Core (33 credit hours)

Master of Arts in Biblical Studies coursework (9 credit hours)

Electives (33 credit hours)

The Master of Arts in Biblical Studies requires completion of an additional 30 credit hours.

Biblical Studies Major Core (33 credit hours)

BIB 230 - Interpreting the Bible

(3) This course provides an orientation to the Bible, hermeneutics, and exegetical practices. Exploration in the field of biblical studies will include the formation, preservation, and translation of the Bible.

Prerequisites: BIB 111 or HIS 111, BIB 114 or HUM 114, (ENG 104 is recommended).

When Offered

Fall and spring semesters.

BIB 307 - The Synoptic Gospels

(3) This course provides an orientation to the life and teachings of Jesus as theology and historical narrative. Exploration of the Synoptic Gospels will include addressing textual, chronological, historical, and canonical questions that arise as we engage the similarities and differences among Matthew, Mark, and Luke.

Prerequisites: BIB 230.

When Offered

Every third semester.

BIB 310 - Acts and Pauline Literature

(3) This course addresses the development of the early church and its theology in the Book of Acts and Pauline epistles. Special consideration is given to the impact of historical and cultural backgrounds on the hermeneutical approach to the text of the New Testament. Traditional and emerging frameworks for contextualizing Pauline theology are also considered.

Prerequisites: BIB 230.

When Offered

Every third semester.

BIB 315 - Old Testament Narrative and Law

(3) This course provides an exegetical study of the Pentateuch (Genesis through Deuteronomy) and the Deuteronomistic history of the Old Testament (Joshua, Judges, 1 Samuel, 2 Samuel, 1 Kings, 2 Kings). These books are studied within the context of their ancient Near Eastern social, historical, cultural, and geographical settings.

Prerequisites: BIB 230.

When Offered

Every third semester.

BIB 318 - Old Testament Poetry and Wisdom

(3) This course provides an exegetical study of Psalms, Proverbs, Job, Ecclesiastes, and the Song of Solomon. The nature and characteristics of Old Testament poetry and wisdom literature are examined, along with introductory and interpretive issues unique to these books.

Prerequisites: BIB 230.

When Offered

Every third semester.

BIB 409 - Old Testament Prophetic Literature

(3) This course provides an exegetical study of the Major and Minor Prophets of the Old Testament, placing each book within its cultural and historical context. The nature and characteristics of Old Testament prophecy are examined, along with introductory and interpretive issues unique to these books.

Prerequisites: BIB 230.

When Offered

Every third semester.

BIB 410 - Johannine Literature and the General Epistles

(3) This course provides exegetical and theological study of the Johannine and general epistles including consideration of textual, historical, and canonical questions.

Prerequisites: BIB 230.

When Offered

Every third semester.

GRE 301 - Greek I

(3) This course introduces students to the alphabet, vocabulary, and grammar of Koine Greek, including morphology and syntax for basic verbs, nouns and adjectives.

When Offered

Every fall semester.

HEB 301 - Hebrew I

(3) This course introduces students to the alphabet, vocabulary, and grammar of Biblical Hebrew, including vowel pointings, nouns, adjectives, and the verbal system.

When Offered

Every fall semester.

GRE 302 - Greek II

(3) This course completes an introduction to the vocabulary and grammar of Koine Greek, including participles and non-standard noun and verb forms. Additionally, students are taught translation tools and techniques.

Prerequisites: Grade of C- or better in GRE 301.

When Offered

Every spring semester.

HEB 302 - Hebrew II

(3) This course completes an introduction to the vocabulary and grammar of Biblical Hebrew, including the Qal and derived verbal stems. Additionally, students are taught translation tools and techniques.

Prerequisites: Grade of C- or better in HEB 301.

When Offered

Every spring semester.

THE 215 - Philosophy and Sociology of Ministry

(3) This course explores the academic and practical approaches to ministry developed from biblical evidence, theological reflection, and social research.

When Offered

Every spring semester.

THE 309 - History of Christianity

(3) This course provides an overview of the history of Christianity from the post-apostolic era up to the present day. Focus is given to benchmark events, persons, trends in worship practice and spirituality, doctrinal developments and emphases, and interaction between Christianity and culture over the course of two millennia.

Prerequisites: BIB 111 or HIS 111; BIB 114 or HUM 114.

When Offered

Every fall and spring semesters.

Master of Arts in Biblical Studies Core (9 credit hours)

These courses are taken through the College of Adult and Graduate Studies and satisfy course requirements in the Bachelor of Arts in Biblical Studies **AND** the Master of Arts in Biblical Studies.

BIB 507 - The Bible and Progressive Revelation

(3) This course unites the many parts of the Bible into unified storylines such as redemption, Jesus Christ, the Holy Spirit, and Biblical Covenants as God revealed them to His people.

BIB 522 - Interpreting the Bible I

(3) This course will introduce students to biblical hermeneutics, the science of the interpretation of Holy Scripture. The task of hermeneutics, goal of the interpreter, and realities of understanding literature will be considered. This is part one of a two-course sequence on how to interpret the Bible, using English translations.

Prerequisites: BIB 507.

BIB 523 - Interpreting the Bible II

(3) This course will complete the process of teaching students about biblical hermeneutics. Subject matter covered will include genres of biblical literature and the fruit of the interpretive task. This is part two of a two-course sequence on how to interpret the Bible, using English translations.

Prerequisites: BIB 522.

Students must have a total of 60 earned credit hours prior to registration in a graduate-level course.

Graduation Requirements for Bachelor of Arts in Biblical Studies with Languages

The faculty recommends students in the B.A. in Biblical Studies with Languages to the Board of Trustees as candidates for graduation when they have completed the following requirements.

1. Completion of a total of 120 credits, including all general education, electives and Biblical Studies with Languages major program requirements.
2. A letter grade of D or better and a cumulative GPA of 2.0 or better in all CCU coursework, and a GPA of 2.0 or higher for all courses specified for the major.
3. Completion of 180 hours of ministry/community service and 180 chapel credits. Transfer students are required to complete 45 hours of ministry/community service and 45 chapel credits each year of attendance at CCU. For further details on ministry/community service, see the Life Directions Center (LDC) section of this catalog. For further details on chapel credits, see the Student Life section of this catalog.
4. Meet the CCU Residency requirements.
5. Acceptable performance on exit exams, as required by the faculty.
6. Formal and timely application for graduation by the date specified by the University Registrar.
7. No outstanding financial obligation to the University.

Ministry Management Major

The Bachelor of Arts in Ministry Management is a challenging degree that combines biblical and theological preparation for ministry with a solid foundation in business and leadership courses. This degree equips individuals for Christian ministry while being bi-vocational in business, for working in business during further graduate study in theology, and over time for a position as a Ministry Manager or Executive pastor. This bachelor's degree not only will serve for personal enrichment but also as a foundation for ministry and further graduate study.

Ministry Management majors select an emphasis in either Biblical Studies or Theology, providing maximum flexibility in tailoring an academic program that positions students for graduate school and career goals.

The Ministry Management major requires completion of the following 120 credits:

General Education (45 credit hours)

Major Core (67 credit hours)

Electives (8 credit hours)

General Education Requirements (45 credit hours)

Arts and Humanities (9 credit hours)

Take one course from each of the following three academic disciplines:

Fine Arts (3 credit hours)

Choose one course from the following:

HUM 120 - Introduction to the Arts

(3) Introduction to our humanity through hands-on experience in the arts (music, visual arts, poetry, story, play, and dance). Aesthetic and artistic values in the broader context of human cultural development, responsibility, and joy.

Notes: This course satisfies the general education fine arts requirement for most students, and is the required fine arts course for education majors. It is recommended for all students with a general interest in the fine arts. Students with a special interest in theatre should see THR 112. Students with a special interest in music should see MUS 110.

Note: HUM 120 does not satisfy the fine arts requirement for music majors or minors.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

MUS 110 - Musical Perspectives

(3) An exploration of music in the broader context of culture and the arts; personal musical experiences through listening and doing; and developing the ability to discern aesthetic excellence. Included is an introduction to the elements of music and how music works, the development of a Christian perspective on the arts, a broad survey of representative selections of Western music, and a focused overview of non-western/world music.

Notes: This course satisfies the general education fine arts requirement for most students. It is recommended for all students, especially those with an interest in music, and is the required fine arts course for all music majors and minors. Students with a special interest in Theatre should see THR 112.

Note: MUS 110 does not satisfy the fine arts requirement for education majors.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

THR 112 - Theatre Appreciation

(3) An introduction to the theatre world and all its aspects: the people who are active in that world, the many kinds of work that are created, the sensations and ideas we receive from those works, and the ways the life of theatre has transmitted across many times and place.

Notes: This course satisfies the general education fine arts requirement for most students. It is recommended for all students, especially those with an interest in theatre. Students with a special interest in music should see MUS 110.

Note: THR 112 does not satisfy the fine arts requirement for music majors or minors, or education majors.

When Offered

Fall and spring semesters.

Literature (3 credit hours)

Choose one course from the following:

ENG 201 - Introduction to Literature

(3) Understand, experience, and evaluate poetry, short fiction, essays, and drama genres, both American and multinational.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Fall and spring semesters.

ENG 202 - American Literature I

(3) Representative stories, poems, and documents in American literature from the Colonial era to the early Republic (1776-1830) through the Romantic-transcendentalist period (1830-1860). Includes readings from multiethnic and women writers.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every fall semester.

ENG 203 - American Literature II

(3) Representative stories, poems, and drama in American literature from the Civil War to the present. Nontraditional ethnic and women's voices included. Emphasis on interpretation and criticism of American literature.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every spring semester.

ENG 204 - British Literature I

(3) Surveys the history of literature in Britain until 1800 and representative works by influential writers of the periods contained therein.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every fall semester.

ENG 205 - British Literature II

(3) Surveys the history of literature in Britain from 1800 to the present and representative works by influential writers.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every spring semester.

Philosophy (3 credit hours)

PHL 202 - Introduction to Philosophy

(3) This course is a survey of many major issues raised over the two-and-a-half millennia of western philosophy. With an emphasis on historical context and development, as well as philosophy's relationship to Christian thought, this course challenges students to critically explore philosophical questions and introduce them to the great tradition of intellectual inquiry. Special attention will be given to the subjects of truth and knowledge, reality and appearance, mind and body, right and wrong, beauty and the existence of God.

When Offered

Fall and summer semesters.

Biblical Studies (9 credit hours)

Take the following three courses (some courses are cross-listed and only one prefix needs to be taken):

BIB 111 - Old Testament

(3) This course provides an introduction to the theological, historical, and literary features of the Old Testament, tracing God's covenant relationship with ancient Israel. Special consideration will be given to the divine covenants and Messianic prophecies of the Old Testament.

When Offered

Every spring semester.

Cross-listed HIS 111

HIS 111 - Old Testament

(3) This course provides an introduction to the theological, historical, and literary features of the Old Testament, tracing God's covenant relationship with ancient Israel. Special consideration will be given to the divine covenants and Messianic prophecies of the Old Testament.

When Offered

Every spring semester.

Cross-listed BIB 111.

BIB 114 - New Testament

(3) This course provides an introduction to the theological, historical, and literary features of the New Testament, tracing the presentation of the gospel message through historical, epistolary, and apocalyptic genres. Special consideration will be given to the life of Christ and missionary journeys of the Apostle Paul.

When Offered

Every fall semester.

Cross-listed HUM 114

HUM 114 - New Testament

(3) This course provides an introduction to the theological, historical, and literary features of the New Testament, tracing the presentation of the gospel message through historical, epistolary, and apocalyptic genres. Special consideration will be given to the life of Christ and missionary journeys of the Apostle Paul.

When Offered

Every fall semester.
Cross-listed BIB 114.

PHL 315 - World Religions and Systems of Belief

(3) This course introduces an academic study of religion and what is called worldview, supplemented by an overview of some of the major tenets of Christianity; this is then followed by a survey of several other religious traditions and competing philosophies.

Prerequisites: PHL 202, THE 201.

When Offered

Winter and spring semesters.

Communication (6 credit hours)

COM 103 - Public Speaking

(3) Introductory principles of communication emphasizing public speaking. Aspects of verbal and nonverbal delivery, speech organization, and the effective use of supporting material and presentational aids are addressed. Students give several speeches designed to better equip them for future speaking endeavors

When Offered

Fall and spring semesters.

ENG 102 - English Composition

(3) Effective use of the English language and exploration of rhetorical modes in written composition. Review of structure, purpose, and audience awareness in developing essays.

Prerequisites: ACT and/or SAT scores will be used to determine placement in either ENG 102 or ENG 102 (Basic).

Notes: Course must be completed first semester at CCU.

When Offered

Fall and spring semester.

ENG 105 - Advanced English Composition

(3) Advanced English composition, research methods, and literary study for invited exceptional students. Focus on both the study of literature and research writing.

Prerequisites: One of the following:

- AP English Language and Composition
 - A score of 4 is the minimum prerequisite for enrollment in ENG 105. A student who scores a 4 or 5 will automatically enroll a student in ENG 105 instead of ENG 102 and/or ENG 201.
- AP English Literature and Composition
 - A score of 4 is the minimum prerequisite for enrollment in ENG 105. A student who scores a 4 or 5 will automatically enroll a student in ENG 105 instead of ENG 102 and/or ENG 201.
- Score of 30 or above on the verbal section of the ACT exam.
- Score of 700 or above on the verbal section of the SAT exam.
- By invitation of the English department.

Notes: Fulfills general education requirements for both ENG 102 and ENG 201.

When Offered

Every fall semester.

Integrative Studies (3 credit hours)

* Please see the First-Year Integration (FYI) page for specific information about this required course.

INT 101 - First-Year Integration

(3) Think critically, grow spiritually, and change the world. Based on the premise that we as Christians are called to be rational creatures, relational creatures, and responsible creatures, FYI is an integrative study of foundational Christian principles with other disciplines. Examination and discussion of problems and contemporary issues - academic, personal, and social - facing students in their pursuit of success in college and life. Please see the First-Year Integration (FYI) page for specific information about this required course.

When Offered

Fall and spring semesters.

Mathematics (3 credit hours)

MAT 112 - Mathematics for Liberal Arts

(3) This course introduces some of the important ideas in mathematics and how they can be applied in everyday life situations, solving a wide range of practical problems. Topics include sets, logic, history of numeration, number systems and their properties, number patterns, counting principles, probability, statistics, graph theory, personal finance, and voting methods.

Notes: Students with higher level mathematics skills (i.e. ACT MAT above 20 and SAT MATH above 520) are discouraged from taking this class. Only students who do not place into MAT 111 - College Algebra should enroll in MAT 112 - Mathematics for Liberal Arts.

When Offered

Fall, spring and summer semesters.

Science (3 credit hours)

SCI 230 - Integrated Physical Science with Lab

(3) This is an integrated course presenting the major concepts, theoretical perspectives, historical trends, and empirical findings of the physical sciences. Laboratory exercises and lectures explore motion, the four forces, heat, energy, chemical reactions, the structure and development of matter, the types and nature of chemical bonding, and the nature and history of the universe, the solar system, and the Earth.

Lab/Lecture Hours

Laboratory investigations included in course.

Fee

Lab fees apply.

When Offered

Every semester.

Social Sciences (12 credit hours)

Take each of the following four courses:

ECO 215 - Economics

(3) Economics is about scarcity and choice. Students in this course study how people, firms, governments, and nations interact in alternative economic systems to make choices about allocating scarce resources. In addition, students learn to evaluate these systems, understand macroeconomic monetary and fiscal policies, and engage in policy debates.

When Offered

Fall and spring semesters.

HIS 185 - Western Civilization

(3) The spiritual values and intellectual achievements of ancient Israel, Greece, Rome, the Middle Ages, the Renaissance, and Reformation that gave birth to the modern world.

When Offered

Every fall semester.

HIS 205 - American History

(3) Principles of the founding and the political, economic, intellectual, cultural, and religious traditions that have shaped America.

When Offered

Every spring semester.

POL 207 - Introduction to American Politics

(3) Introduction to political science and American government to prepare students to be effective citizens.

When Offered

Every fall and spring semester.

Ministry Management Major (67 credit hours)

Ministry Management Leadership Core (28 credit hours)

ACC 201 - Principles of Accounting I Financial Reporting

(4) This course provides an introduction to the financial accounting information role in business and society, focusing on the recording and reporting of business operations, including financing and investing events. It provides insights on business and enables students to become familiar with reporting of business operations using generally accepted accounting principles.

Prerequisites: BUS 101 or MGT 101.

When Offered

Fall and spring semesters.

BUS 101 - Introduction to Business, Management and Ethics

(3) Students learn fundamental business topics that prepares them to be successful in the exciting world of business and non-profit organizations. Students gain foundations in functional areas (accounting, finance, management, marketing, and technology) and operating environments common to every organization. This course is engaging and transformational, whether one is just starting out or already an avid student of business.

When Offered

Fall and spring semesters.

Cross-listed MGT 101

CIS 101 - Business Applications in Technology

(3) A look at the history and use of the personal computer, with an emphasis upon current Microsoft products including MS Office. Students will gain skills in word processing, spreadsheet management, database management, web design, and presentation graphics. An emphasis will be placed on the use of technology in Business. A mastery of the materials and skills taught in this course is essential for success in most of the other courses in the School of Business and Leadership because the tools taught in this course are used extensively in the other courses.

Fee

Course fees apply.

When Offered

Every fall and spring semester.

FIN 301 - Managerial Finance

(3) This course equips students to manage the financial aspects of businesses, non-profits, and ministries. Risk-return, time value of money, ratio analysis, business valuation, asset pricing, and financial decision making are topics covered in this course.

Prerequisites: ACC 201, LED 101.

When Offered

Every fall semester.

LAW 303 - Business Law

(3) Practical overview of relevant foundational aspects of business law, such as contracts, agency, and commercial transactions, and basic application of these principles to the workplace.

Prerequisites: BUS 101 or MGT 101, Junior or Senior standing.

When Offered

Fall and spring semesters.

LED 101 - Foundations of Management and Leadership

(3) Students learn to build theoretical, practical, and theological foundations for becoming effective managers and leaders. Students learn to analyze their strengths and weaknesses, making specific growth plans. The course covers many facets of organizational behavior and analyzes human behavior in the workplace. Students study the elements of group behavior including group dynamics, communication, leadership power and politics, and conflict and negotiation.

When Offered

Fall and spring semesters.

MGT 201 - Organizational Behavior and Design

(3) This course is oriented toward developing a better understanding of organizational culture and the role human behavior has in forming culture; using this knowledge to help people be more productive and satisfied in various organizational settings, i.e. large publicly owned corporations, and small privately-owned companies and nonprofit organizations. It provides you with an understanding of the field of organizational behavior and the implications it has in the management of a rapidly evolving workforce.

Prerequisites: LED 101 or BUS 101 or MGT 101.

When Offered

Fall and spring semesters.

MGT 400 - Organizational Capstone

(3) Students gain practical understandings, application, and integration of cutting-edge organizational disciplines and practices - all undergirded by Christian principles. The course focuses on developmental, reconstructive, and succession aspects of all types of organizations. It emphasizes strategic understandings of stewardship, leadership, and management both internally and externally to the organization.

Prerequisites: Senior standing, Final semester at CCU, Instructor permission required. This course must satisfy a major course requirement in the student's degree program.

Fee

Fees may apply.

When Offered

Every fall and spring semesters.

Cross-listed LED 400.

MGT 500 - Management Problem Solving and Decision-Making

(3) Fundamental and advanced techniques for making decisions and solving problems at all leadership levels in business and in life. These systematic techniques, or processes, are designed to improve the student's ability to gather, organize, and evaluate information in the areas of problem solving, decision making and plan implementation.

Prerequisites: Juniors and Seniors only.

When Offered

Every fall and spring semester.

Ministry Management Emphases (39 credit hours)

Choose one of the two Ministry Management Emphases below.

Biblical Studies Emphasis (39 credit hours)

BIB 230 - Interpreting the Bible

(3) This course provides an orientation to the Bible, hermeneutics, and exegetical practices. Exploration in the field of biblical studies will include the formation, preservation, and translation of the Bible.

Prerequisites: BIB 111 or HIS 111, BIB 114 or HUM 114, (ENG 104 is recommended).

When Offered

Fall and spring semesters.

BIB 307 - The Synoptic Gospels

(3) This course provides an orientation to the life and teachings of Jesus as theology and historical narrative. Exploration of the Synoptic Gospels will include addressing textual, chronological, historical, and canonical questions that arise as we engage the similarities and differences among Matthew, Mark, and Luke.

Prerequisites: BIB 230.

When Offered

Every third semester.

BIB 310 - Acts and Pauline Literature

(3) This course addresses the development of the early church and its theology in the Book of Acts and Pauline epistles. Special consideration is given to the impact of historical and cultural backgrounds on the hermeneutical approach to the text of the New Testament. Traditional and emerging frameworks for contextualizing Pauline theology are also considered.

Prerequisites: BIB 230.

When Offered

Every third semester.

BIB 315 - Old Testament Narrative and Law

(3) This course provides an exegetical study of the Pentateuch (Genesis through Deuteronomy) and the Deuteronomistic history of the Old Testament (Joshua, Judges, 1 Samuel, 2 Samuel, 1 Kings, 2 Kings). These books are studied within the context of their ancient Near Eastern social, historical, cultural, and geographical settings.

Prerequisites: BIB 230.

When Offered

Every third semester.

BIB 318 - Old Testament Poetry and Wisdom

(3) This course provides an exegetical study of Psalms, Proverbs, Job, Ecclesiastes, and the Song of Solomon. The nature and characteristics of Old Testament poetry and wisdom literature are examined, along with introductory and interpretive issues unique to these books.

Prerequisites: BIB 230.

When Offered

Every third semester.

BIB 409 - Old Testament Prophetic Literature

(3) This course provides an exegetical study of the Major and Minor Prophets of the Old Testament, placing each book within its cultural and historical context. The nature and characteristics of Old Testament prophesy are examined, along with introductory and interpretive issues unique to these books.

Prerequisites: BIB 230.

When Offered

Every third semester.

BIB 410 - Johannine Literature and the General Epistles

(3) This course provides exegetical and theological study of the Johannine and general epistles including consideration of textual, historical, and canonical questions.

Prerequisites: BIB 230.

When Offered

Every third semester.

GRE 301 - Greek I

(3) This course introduces students to the alphabet, vocabulary, and grammar of Koine Greek, including morphology and syntax for basic verbs, nouns and adjectives.

When Offered

Every fall semester.

HEB 301 - Hebrew I

(3) This course introduces students to the alphabet, vocabulary, and grammar of Biblical Hebrew, including vowel pointings, nouns, adjectives, and the verbal system.

When Offered

Every fall semester.

GRE 302 - Greek II

(3) This course completes an introduction to the vocabulary and grammar of Koine Greek, including participles and non-standard noun and verb forms. Additionally, students are taught translation tools and techniques.

Prerequisites: Grade of C- or better in GRE 301.

When Offered

Every spring semester.

HEB 302 - Hebrew II

(3) This course completes an introduction to the vocabulary and grammar of Biblical Hebrew, including the Qal and derived verbal stems. Additionally, students are taught translation tools and techniques.

Prerequisites: Grade of C- or better in HEB 301.

When Offered

Every spring semester.

THE 201 - Introduction to Theology

(3) This course covers basic issues, themes, and categories of Christian theology, including the doctrines of Scripture, God, humanity, Christ, salvation, the church, and last things. This course encourages students to better know, trust, love, and live by God's Word.

Prerequisites: BIB 111, BIB 114.

When Offered

Fall, winter, spring, and summer semesters.

THE 215 - Philosophy and Sociology of Ministry

(3) This course explores the academic and practical approaches to ministry developed from biblical evidence, theological reflection, and social research.

When Offered

Every spring semester.

THE 306 - Communication for Ministry

(3) This course provides an orientation to the principles and practice for the development and delivery of an expository teaching or sermon.

Prerequisites: BIB 230; Junior/Senior status.

When Offered

Fall and spring semesters.

THE 309 - History of Christianity

(3) This course provides an overview of the history of Christianity from the post-apostolic era up to the present day. Focus is given to benchmark events, persons, trends in worship practice and spirituality, doctrinal developments and emphases, and interaction between Christianity and culture over the course of two millennia.

Prerequisites: BIB 111 or HIS 111; BIB 114 or HUM 114.

When Offered

Every fall and spring semesters.

Theology Emphasis (39 credit hours)

BIB 230 - Interpreting the Bible

(3) This course provides an orientation to the Bible, hermeneutics, and exegetical practices. Exploration in the field of biblical studies will include the formation, preservation, and translation of the Bible.

Prerequisites: BIB 111 or HIS 111, BIB 114 or HUM 114, (ENG 104 is recommended).

When Offered

Fall and spring semesters.

BIB 307 - The Synoptic Gospels

(3) This course provides an orientation to the life and teachings of Jesus as theology and historical narrative. Exploration of the Synoptic Gospels will include addressing textual, chronological, historical, and canonical questions that arise as we engage the similarities and differences among Matthew, Mark, and Luke.

Prerequisites: BIB 230.

When Offered

Every third semester.

BIB 310 - Acts and Pauline Literature

(3) This course addresses the development of the early church and its theology in the Book of Acts and Pauline epistles. Special consideration is given to the impact of historical and cultural backgrounds on the hermeneutical approach to the text of the New Testament. Traditional and emerging frameworks for contextualizing Pauline theology are also considered.

Prerequisites: BIB 230.

When Offered

Every third semester.

BIB 410 - Johannine Literature and the General Epistles

(3) This course provides exegetical and theological study of the Johannine and general epistles including consideration of textual, historical, and canonical questions.

Prerequisites: BIB 230.

When Offered

Every third semester.

BIB 315 - Old Testament Narrative and Law

(3) This course provides an exegetical study of the Pentateuch (Genesis through Deuteronomy) and the Deuteronomic history of the Old Testament (Joshua, Judges, 1 Samuel, 2 Samuel, 1 Kings, 2 Kings). These books are studied within the context of their ancient Near Eastern social, historical, cultural, and geographical settings.

Prerequisites: BIB 230.

When Offered

Every third semester.

BIB 318 - Old Testament Poetry and Wisdom

(3) This course provides an exegetical study of Psalms, Proverbs, Job, Ecclesiastes, and the Song of Solomon. The nature and characteristics of Old Testament poetry and wisdom literature are examined, along with introductory and interpretive issues unique to these books.

Prerequisites: BIB 230.

When Offered

Every third semester.

BIB 409 - Old Testament Prophetic Literature

(3) This course provides an exegetical study of the Major and Minor Prophets of the Old Testament, placing each book within its cultural and historical context. The nature and characteristics of Old Testament prophesy are examined, along with introductory and interpretive issues unique to these books.

Prerequisites: BIB 230.

When Offered

Every third semester.

GRE 301 - Greek I

(3) This course introduces students to the alphabet, vocabulary, and grammar of Koine Greek, including morphology and syntax for basic verbs, nouns and adjectives.

When Offered

Every fall semester.

HEB 301 - Hebrew I

(3) This course introduces students to the alphabet, vocabulary, and grammar of Biblical Hebrew, including vowel pointings, nouns, adjectives, and the verbal system.

When Offered

Every fall semester.

GRE 302 - Greek II

(3) This course completes an introduction to the vocabulary and grammar of Koine Greek, including participles and non-standard noun and verb forms. Additionally, students are taught translation tools and techniques.

Prerequisites: Grade of C- or better in GRE 301.

When Offered

Every spring semester.

HEB 302 - Hebrew II

(3) This course completes an introduction to the vocabulary and grammar of Biblical Hebrew, including the Qal and derived verbal stems. Additionally, students are taught translation tools and techniques.

Prerequisites: Grade of C- or better in HEB 301.

When Offered

Every spring semester.

THE 215 - Philosophy and Sociology of Ministry

(3) This course explores the academic and practical approaches to ministry developed from biblical evidence, theological reflection, and social research.

When Offered

Every spring semester.

THE 306 - Communication for Ministry

(3) This course provides an orientation to the principles and practice for the development and delivery of an expository teaching or sermon.

Prerequisites: BIB 230; Junior/Senior status.

When Offered

Fall and spring semesters.

THE 309 - History of Christianity

(3) This course provides an overview of the history of Christianity from the post-apostolic era up to the present day. Focus is given to benchmark events, persons, trends in worship practice and spirituality, doctrinal developments and emphases, and interaction between Christianity and culture over the course of two millennia.

Prerequisites: BIB 111 or HIS 111; BIB 114 or HUM 114.

When Offered

Every fall and spring semesters.

THE 404 - Systematic Theology I

(3) This course is the first in a two-course rotation designed to introduce students to a deeper understanding of Christian doctrine than can be accomplished in THE 201 Introduction to Theology. This course treats questions of Theological Method and the doctrines of Revelation (including Scripture), Theology Proper, Anthropology, and Sin. This two-course cycle is intended to replace the same or similar classes in seminary or graduate school.

Prerequisites: THE 201 (with the exception of those majoring in Theology).

When Offered

Fall semester.

THE 405 - Systematic Theology II

(3) This course is the second in a two-course rotation designed to introduce students to a deeper understanding of Christian doctrine than can be accomplished in THE 201 Introduction to Theology. This course treats the doctrines of Christology, Pneumatology, Soteriology, Ecclesiology, and Eschatology. This two-course cycle is intended to replace the same or a similar class in seminary or graduate school.

Prerequisites: THE 404.

When Offered

Spring semester.

THE 410 - Historical Theology I

(3) This course traces Christian theology from the Patristic period to the Middle Ages. Emphasis is placed upon primary source materials, theological themes and significant figures in historical context, the relationship of dogma and practice, and contemporary application in Christian formation.

Prerequisites: THE 309; Junion or Senior standing.

When Offered

Every fall semester.

THE 413 - Historical Theology II

(3) This course follows closely with Historical Theology I, and traces the historical development of Christian theology from the High Middle Ages to the twentieth century. In addition to theology, the course places an emphasis on Christian formation. Students work through primary source texts together with the aim of learning how to read an ancient text in a theological manner with an eye to contemporary application.

Prerequisites: THE 410.

When Offered

Every spring semester

- Choose one 300-400 level Theology (THE) or Philosophy (PHL) course (3)

Graduation Requirements for Bachelor of Arts in Ministry Management

The faculty recommends students in the B.A. in Ministry Management to the Board of Trustees as candidates for graduation when they have completed the following requirements.

1. Completion of a total of 120 credits, including all general education, electives and Ministry Management major program requirements.
2. A letter grade of D or better and a cumulative GPA of 2.0 or better in all CCU coursework, and a GPA of 2.0 or higher for all courses specified for the major.
3. Completion of 180 hours of ministry/community service and 180 chapel credits. Transfer students are required to complete 45 hours of ministry/community service and 45 chapel credits each year of attendance at CCU. For further details on ministry/community service, see the Life Directions Center (LDC) section of this catalog. For further details on chapel credits, see the Student Life section of this catalog.
4. Meet the CCU Residency requirements.
5. Acceptable performance on exit exams, as required by the faculty.
6. Formal and timely application for graduation by the date specified by the University Registrar.
7. No outstanding financial obligation to the University.

Theology Major

Students who major in Theology become perceptive, critical readers of the biblical text and of theological literature. They are able to interpret the Bible for themselves and for others confidently. The major provides a foundation for seminary or graduate studies, and based on the minor, for various entry-level ministry, missions, education, and social service opportunities.

Students in the Bachelor of Arts in Theology may apply for the Dual Degree Program, earning their Theology major in their first three years at CCU, and the Master of Arts in Theological Studies in their fourth year. Course requirements for the Dual Degree program are listed below.

The Theology Major requires completion of the following 120 credits:

General Education (45 credit hours)

Major Core (39 credit hours)

Electives (36 credit hours)

General Education Requirements (45 credit hours)

Arts and Humanities (9 credit hours)

Take one course from each of the following three academic disciplines:

Fine Arts (3 credit hours)

Choose one course from the following:

HUM 120 - Introduction to the Arts

(3) Introduction to our humanity through hands-on experience in the arts (music, visual arts, poetry, story, play, and dance). Aesthetic and artistic values in the broader context of human cultural development, responsibility, and joy.

Notes: This course satisfies the general education fine arts requirement for most students, and is the required fine arts course for education majors. It is recommended for all students with a general interest in the fine arts. Students with a special interest in theatre should see THR 112. Students with a special interest in music should see MUS 110.

Note: HUM 120 does not satisfy the fine arts requirement for music majors or minors.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

MUS 110 - Musical Perspectives

(3) An exploration of music in the broader context of culture and the arts; personal musical experiences through listening and doing; and developing the ability to discern aesthetic excellence. Included is an introduction to the elements of music and how music works, the development of a Christian perspective on the arts, a broad survey of representative selections of Western music, and a focused overview of non-western/world music.

Notes: This course satisfies the general education fine arts requirement for most students. It is recommended for all students, especially those with an interest in music, and is the required fine arts course for all music majors and minors. Students with a special interest in Theatre should see THR 112.

Note: MUS 110 does not satisfy the fine arts requirement for education majors.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

THR 112 - Theatre Appreciation

(3) An introduction to the theatre world and all its aspects: the people who are active in that world, the many kinds of work that are created, the sensations and ideas we receive from those works, and the ways the life of theatre has transmitted across many times and place.

Notes: This course satisfies the general education fine arts requirement for most students. It is recommended for all students, especially those with an interest in theatre. Students with a special interest in music should see MUS 110.

Note: THR 112 does not satisfy the fine arts requirement for music majors or minors, or education majors.

When Offered

Fall and spring semesters.

Literature (3 credit hours)

Choose one course from the following:

ENG 201 - Introduction to Literature

(3) Understand, experience, and evaluate poetry, short fiction, essays, and drama genres, both American and multinational.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Fall and spring semesters.

ENG 202 - American Literature I

(3) Representative stories, poems, and documents in American literature from the Colonial era to the early Republic (1776-1830) through the Romantic-transcendentalist period (1830-1860). Includes readings from multiethnic and women writers.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every fall semester.

ENG 203 - American Literature II

(3) Representative stories, poems, and drama in American literature from the Civil War to the present. Nontraditional ethnic and women's voices included. Emphasis on interpretation and criticism of American literature.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every spring semester.

ENG 204 - British Literature I

(3) Surveys the history of literature in Britain until 1800 and representative works by influential writers of the periods contained therein.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every fall semester.

ENG 205 - British Literature II

(3) Surveys the history of literature in Britain from 1800 to the present and representative works by influential writers.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every spring semester.

Philosophy (3 credit hours)**PHL 202 - Introduction to Philosophy**

(3) This course is a survey of many major issues raised over the two-and-a-half millennia of western philosophy. With an emphasis on historical context and development, as well as philosophy's relationship to Christian thought, this course challenges students to critically explore philosophical questions and introduce them to the great tradition of intellectual inquiry. Special attention will be given to the subjects of truth and knowledge, reality and appearance, mind and body, right and wrong, beauty and the existence of God.

When Offered

Fall and summer semesters.

Biblical Studies (9 credit hours)

Take the following three courses (some courses are cross-listed and only one prefix needs to be taken):

BIB 111 - Old Testament

(3) This course provides an introduction to the theological, historical, and literary features of the Old Testament, tracing God's covenant relationship with ancient Israel. Special consideration will be given to the divine covenants and Messianic prophecies of the Old Testament.

When Offered

Every spring semester.

Cross-listed HIS 111

HIS 111 - Old Testament

(3) This course provides an introduction to the theological, historical, and literary features of the Old Testament, tracing God's covenant relationship with ancient Israel. Special consideration will be given to the divine covenants and Messianic prophecies of the Old Testament.

When Offered

Every spring semester.

Cross-listed BIB 111.

BIB 114 - New Testament

(3) This course provides an introduction to the theological, historical, and literary features of the New Testament, tracing the presentation of the gospel message through historical, epistolary, and apocalyptic genres. Special consideration will be given to the life of Christ and missionary journeys of the Apostle Paul.

When Offered

Every fall semester.
Cross-listed HUM 114

HUM 114 - New Testament

(3) This course provides an introduction to the theological, historical, and literary features of the New Testament, tracing the presentation of the gospel message through historical, epistolary, and apocalyptic genres. Special consideration will be given to the life of Christ and missionary journeys of the Apostle Paul.

When Offered

Every fall semester.
Cross-listed BIB 114.

PHL 315 - World Religions and Systems of Belief

(3) This course introduces an academic study of religion and what is called worldview, supplemented by an overview of some of the major tenets of Christianity; this is then followed by a survey of several other religious traditions and competing philosophies.

Prerequisites: PHL 202, THE 201.

When Offered

Winter and spring semesters.

Communication (6 credit hours)

COM 103 - Public Speaking

(3) Introductory principles of communication emphasizing public speaking. Aspects of verbal and nonverbal delivery, speech organization, and the effective use of supporting material and presentational aids are addressed. Students give several speeches designed to better equip them for future speaking endeavors

When Offered

Fall and spring semesters.

ENG 102 - English Composition

(3) Effective use of the English language and exploration of rhetorical modes in written composition. Review of structure, purpose, and audience awareness in developing essays.

Prerequisites: ACT and/or SAT scores will be used to determine placement in either ENG 102 or ENG 102 (Basic).

Notes: Course must be completed first semester at CCU.

When Offered

Fall and spring semester.

ENG 105 - Advanced English Composition

(3) Advanced English composition, research methods, and literary study for invited exceptional students. Focus on both the study of literature and research writing.

Prerequisites: One of the following:

- AP English Language and Composition
 - A score of 4 is the minimum prerequisite for enrollment in ENG 105. A student who scores a 4 or 5 will automatically enroll a student in ENG 105 instead of ENG 102 and/or ENG 201.
- AP English Literature and Composition
 - A score of 4 is the minimum prerequisite for enrollment in ENG 105. A student who scores a 4 or 5 will automatically enroll a student in ENG 105 instead of ENG 102 and/or ENG 201.
- Score of 30 or above on the verbal section of the ACT exam.
- Score of 700 or above on the verbal section of the SAT exam.
- By invitation of the English department.

Notes: Fulfills general education requirements for both ENG 102 and ENG 201.

When Offered

Every fall semester.

Integrative Studies (3 credit hours)

* Please see the First-Year Integration (FYI) page for specific information about this required course.

INT 101 - First-Year Integration

(3) Think critically, grow spiritually, and change the world. Based on the premise that we as Christians are called to be rational creatures, relational creatures, and responsible creatures, FYI is an integrative study of foundational Christian principles with other disciplines. Examination and discussion of problems and contemporary issues - academic, personal, and social - facing students in their pursuit of success in college and life. Please see the First-Year Integration (FYI) page for specific information about this required course.

When Offered

Fall and spring semesters.

Mathematics (3 credit hours)**MAT 112 - Mathematics for Liberal Arts**

(3) This course introduces some of the important ideas in mathematics and how they can be applied in everyday life situations, solving a wide range of practical problems. Topics include sets, logic, history of numeration, number systems and their properties, number patterns, counting principles, probability, statistics, graph theory, personal finance, and voting methods.

Notes: Students with higher level mathematics skills (i.e. ACT MAT above 20 and SAT MATH above 520) are discouraged from taking this class. Only students who do not place into MAT 111 - College Algebra should enroll in MAT 112 - Mathematics for Liberal Arts.

When Offered

Fall, spring and summer semesters.

Science (3 credit hours)**SCI 230 - Integrated Physical Science with Lab**

(3) This is an integrated course presenting the major concepts, theoretical perspectives, historical trends, and empirical findings of the physical sciences. Laboratory exercises and lectures explore motion, the four forces, heat, energy, chemical reactions, the structure and development of matter, the types and nature of chemical bonding, and the nature and history of the universe, the solar system, and the Earth.

Lab/Lecture Hours

Laboratory investigations included in course.

Fee

Lab fees apply.

When Offered

Every semester.

Social Sciences (12 credit hours)

Take each of the following four courses:

ECO 215 - Economics

(3) Economics is about scarcity and choice. Students in this course study how people, firms, governments, and nations interact in alternative economic systems to make choices about allocating scarce resources. In addition, students learn to evaluate these systems, understand macroeconomic monetary and fiscal policies, and engage in policy debates.

When Offered

Fall and spring semesters.

HIS 185 - Western Civilization

(3) The spiritual values and intellectual achievements of ancient Israel, Greece, Rome, the Middle Ages, the Renaissance, and Reformation that gave birth to the modern world.

When Offered

Every fall semester.

HIS 205 - American History

(3) Principles of the founding and the political, economic, intellectual, cultural, and religious traditions that have shaped America.

When Offered

Every spring semester.

POL 207 - Introduction to American Politics

(3) Introduction to political science and American government to prepare students to be effective citizens.

When Offered

Every fall and spring semester.

Theology Major (39 credit hours)**BIB 230 - Interpreting the Bible**

(3) This course provides an orientation to the Bible, hermeneutics, and exegetical practices. Exploration in the field of biblical studies will include the formation, preservation, and translation of the Bible.

Prerequisites: BIB 111 or HIS 111, BIB 114 or HUM 114, (ENG 104 is recommended).

When Offered

Fall and spring semesters.

GRE 301 - Greek I

(3) This course introduces students to the alphabet, vocabulary, and grammar of Koine Greek, including morphology and syntax for basic verbs, nouns and adjectives.

When Offered

Every fall semester.

HEB 301 - Hebrew I

(3) This course introduces students to the alphabet, vocabulary, and grammar of Biblical Hebrew, including vowel pointings, nouns, adjectives, and the verbal system.

When Offered

Every fall semester.

LAT 301 - Latin I

(3) This course introduces students to the basics of classical Latin, including grammar, vocabulary, and syntax. Students also receive instruction in translation tools and techniques as they develop proficiency in reading, translating, and using the Latin language within various disciplines.

When Offered

Every odd fall semesters.

GRE 302 - Greek II

(3) This course completes an introduction to the vocabulary and grammar of Koine Greek, including participles and non-standard noun and verb forms. Additionally, students are taught translation tools and techniques.

Prerequisites: Grade of C- or better in GRE 301.

When Offered

Every spring semester.

HEB 302 - Hebrew II

(3) This course completes an introduction to the vocabulary and grammar of Biblical Hebrew, including the Qal and derived verbal stems. Additionally, students are taught translation tools and techniques.

Prerequisites: Grade of C- or better in HEB 301.

When Offered

Every spring semester.

LAT 302 - Latin II

(3) This course continues an introduction to classical Latin, including increased complexity in grammar, vocabulary, and syntax. Students will continue to receive translation tools and techniques, continue to develop proficiency in reading, translating, and using the Latin language within various disciplines.

Prerequisites: Grade of C- or better in LAT 301.

When Offered

Every even spring semester.

THE 215 - Philosophy and Sociology of Ministry

(3) This course explores the academic and practical approaches to ministry developed from biblical evidence, theological reflection, and social research.

When Offered

Every spring semester.

THE 306 - Communication for Ministry

(3) This course provides an orientation to the principles and practice for the development and delivery of an expository teaching or sermon.

Prerequisites: BIB 230; Junior/Senior status.

When Offered

Fall and spring semesters.

THE 309 - History of Christianity

(3) This course provides an overview of the history of Christianity from the post-apostolic era up to the present day. Focus is given to benchmark events, persons, trends in worship practice and spirituality, doctrinal developments and emphases, and interaction between Christianity and culture over the course of two millennia.

Prerequisites: BIB 111 or HIS 111; BIB 114 or HUM 114.

When Offered

Every fall and spring semesters.

THE 404 - Systematic Theology I

(3) This course is the first in a two-course rotation designed to introduce students to a deeper understanding of Christian doctrine than can be accomplished in THE 201 Introduction to Theology. This course treats questions of Theological Method and the doctrines of Revelation (including Scripture), Theology Proper, Anthropology, and Sin. This two-course cycle is intended to replace the same or similar classes in seminary or graduate school.

Prerequisites: THE 201 (with the exception of those majoring in Theology).

When Offered

Fall semester.

THE 405 - Systematic Theology II

(3) This course is the second in a two-course rotation designed to introduce students to a deeper understanding of Christian doctrine than can be accomplished in THE 201 Introduction to Theology. This course treats the doctrines of Christology, Pneumatology, Soteriology, Ecclesiology, and Eschatology. This two-course cycle is intended to replace the same or a similar class in seminary or graduate school.

Prerequisites: THE 404.

When Offered

Spring semester.

THE 410 - Historical Theology I

(3) This course traces Christian theology from the Patristic period to the Middle Ages. Emphasis is placed upon primary source materials, theological themes and significant figures in historical context, the relationship of dogma and practice, and contemporary application in Christian formation.

Prerequisites: THE 309; Junion or Senior standing.

When Offered

Every fall semester.

THE 413 - Historical Theology II

(3) This course follows closely with Historical Theology I, and traces the historical development of Christian theology from the High Middle Ages to the twentieth century. In addition to theology, the course places an emphasis on Christian formation. Students work through primary source texts together with the aim of learning how to read an ancient text in a theological manner with an eye to contemporary application.

Prerequisites: THE 410.

When Offered

Every spring semester

- 300-level BIB New Testament elective (3)
- 300-level BIB Old Testament elective (3)
- 400-level THE Theology elective (3)

Dual Degree Track

Students accepted in the Dual Degree program complete their Bachelor of Arts in Theology degree in three years, then complete their Master of Arts in Theological Studies in their fourth year through the College of Adult and Graduate Studies (CAGS). Included in the bachelor's degree course requirements are nine master's level credit hours that satisfy both undergraduate and graduate degree requirements. To satisfy CCU graduate program course requirements, students must earn a letter grade of B- or better in the master's level courses taken in their undergraduate degree. (Cum GPA and letter grade requirements for the undergraduate degree remain the same.) All admissions requirements of the Master of Arts in Theological Studies must be fulfilled. Information on admissions can be found on the CAGS admissions page.

The Bachelor of Arts in Theology Dual Degree Major requires completion of the following 120 credits.

General Education (45 credit hours)

Major Core (30 credit hours)

Master of Arts in Theological Studies coursework (9 credit hours)

Electives (36 credit hours)

The Master of Arts in Theological Studies requires completion of an additional 30 credit hours.

Theology Major Core (30 credit hours)

BIB 230 - Interpreting the Bible

(3) This course provides an orientation to the Bible, hermeneutics, and exegetical practices. Exploration in the field of biblical studies will include the formation, preservation, and translation of the Bible.

Prerequisites: BIB 111 or HIS 111, BIB 114 or HUM 114, (ENG 104 is recommended).

When Offered

Fall and spring semesters.

GRE 301 - Greek I

(3) This course introduces students to the alphabet, vocabulary, and grammar of Koine Greek, including morphology and syntax for basic verbs, nouns and adjectives.

When Offered

Every fall semester.

HEB 301 - Hebrew I

(3) This course introduces students to the alphabet, vocabulary, and grammar of Biblical Hebrew, including vowel pointings, nouns, adjectives, and the verbal system.

When Offered

Every fall semester.

LAT 301 - Latin I

(3) This course introduces students to the basics of classical Latin, including grammar, vocabulary, and syntax. Students also receive instruction in translation tools and techniques as they develop proficiency in reading, translating, and using

the Latin language within various disciplines.

When Offered

Every odd fall semesters.

GRE 302 - Greek II

(3) This course completes an introduction to the vocabulary and grammar of Koine Greek, including participles and non-standard noun and verb forms. Additionally, students are taught translation tools and techniques.

Prerequisites: Grade of C- or better in GRE 301.

When Offered

Every spring semester.

HEB 302 - Hebrew II

(3) This course completes an introduction to the vocabulary and grammar of Biblical Hebrew, including the Qal and derived verbal stems. Additionally, students are taught translation tools and techniques.

Prerequisites: Grade of C- or better in HEB 301.

When Offered

Every spring semester.

LAT 302 - Latin II

(3) This course continues an introduction to classical Latin, including increased complexity in grammar, vocabulary, and syntax. Students will continue to receive translation tools and techniques, continue to develop proficiency in reading, translating, and using the Latin language within various disciplines.

Prerequisites: Grade of C- or better in LAT 301.

When Offered

Every even spring semester.

THE 215 - Philosophy and Sociology of Ministry

(3) This course explores the academic and practical approaches to ministry developed from biblical evidence, theological reflection, and social research.

When Offered

Every spring semester.

THE 306 - Communication for Ministry

(3) This course provides an orientation to the principles and practice for the development and delivery of an expository teaching or sermon.

Prerequisites: BIB 230; Junior/Senior status.

When Offered

Fall and spring semesters.

THE 309 - History of Christianity

(3) This course provides an overview of the history of Christianity from the post-apostolic era up to the present day. Focus is given to benchmark events, persons, trends in worship practice and spirituality, doctrinal developments and emphases, and interaction between Christianity and culture over the course of two millennia.

Prerequisites: BIB 111 or HIS 111; BIB 114 or HUM 114.

When Offered

Every fall and spring semesters.

THE 404 - Systematic Theology I

(3) This course is the first in a two-course rotation designed to introduce students to a deeper understanding of Christian doctrine than can be accomplished in THE 201 Introduction to Theology. This course treats questions of Theological Method and the doctrines of Revelation (including Scripture), Theology Proper, Anthropology, and Sin. This two-course cycle is intended to replace the same or similar classes in seminary or graduate school.

Prerequisites: THE 201 (with the exception of those majoring in Theology).

When Offered

Fall semester.

THE 405 - Systematic Theology II

(3) This course is the second in a two-course rotation designed to introduce students to a deeper understanding of Christian doctrine than can be accomplished in THE 201 Introduction to Theology. This course treats the doctrines of Christology, Pneumatology, Soteriology, Ecclesiology, and Eschatology. This two-course cycle is intended to replace the same or a similar class in seminary or graduate school.

Prerequisites: THE 404.

When Offered

Spring semester.

THE 410 - Historical Theology I

(3) This course traces Christian theology from the Patristic period to the Middle Ages. Emphasis is placed upon primary source materials, theological themes and significant figures in historical context, the relationship of dogma and practice, and contemporary application in Christian formation.

Prerequisites: THE 309; Junion or Senior standing.

When Offered

Every fall semester.

THE 413 - Historical Theology II

(3) This course follows closely with Historical Theology I, and traces the historical development of Christian theology from the High Middle Ages to the twentieth century. In addition to theology, the course places an emphasis on Christian formation. Students work through primary source texts together with the aim of learning how to read an ancient text in a theological manner with an eye to contemporary application.

Prerequisites: THE 410.

When Offered

Every spring semester

Master of Arts in Theological Studies Core (9 credit hours)

These courses are taken through the College of Adult and Graduate Studies and satisfy course requirements in the Bachelor of Arts in Theology AND the Master of Arts in Theological Studies.

PHL 560 - Apologetics

(3) This course provides a rational defense of the Christian worldview. It equips the student to gently and respectfully respond to objections to Christian belief using scripture and reason.

Prerequisites: THE 530 .

THE 539 - Theological Hermeneutics

(3) This course focuses on the interpretation of Scripture, laying a foundation of recognized methodological applications and building upon it an understanding of specifically theological approaches.

Prerequisites: THE 530.

THE 564 - Christian Ethics

(3) This course provides a focused behavioral component to the Master of Arts in Theological Studies, operating from the premise that Christian theology most faithfully executed and applied to the life of the believer results in high moral/ethical/ godly behavior.

Prerequisites: THE 530. THE 532, THE 534, and THE 536 are recommended.

Students must have a total of 60 earned credit hours prior to registration in a graduate-level course.

Graduation Requirements for Bachelor of Arts in Theology

The faculty recommends students in the B.A. in Theology to the Board of Trustees as candidates for graduation when they have completed the following requirements.

1. Completion of a total of 120 credits, including all general education, electives and Theology major program requirements.
2. A letter grade of D or better and a cumulative GPA of 2.0 or better in all CCU coursework, and a GPA of 2.0 or higher for all courses specified for the major.
3. Completion of 180 hours of ministry/community service and 180 chapel credits. Transfer students are required to complete 45 hours of ministry/community service and 45 chapel credits each year of attendance at CCU. For further details on ministry/community service, see the Life Directions Center (LDC) section of this catalog. For further details on chapel credits, see the Student Life section of this catalog.
4. Meet the CCU Residency requirements.
5. Acceptable performance on exit exams, as required by the faculty.
6. Formal and timely application for graduation by the date specified by the University Registrar.
7. No outstanding financial obligation to the University.

Youth Ministry Major

The Youth Ministry major emphasizes biblical principles, discipleship, counseling relationships, and effective communication, and combines classroom instruction and ministry experience. The major enables students to articulate a biblical philosophy of youth ministry, model an appropriate lifestyle, understand contemporary youth problems, counsel youth, organize and administrate youth programs, and communicate biblical concepts effectively in a variety of teaching situations. The major also prepares students for graduate studies and seminary.

The Youth Ministry Major requires completion of the following 120 credits:

General Education (48 credit hours)

Major Core (39 credit hours)

Electives (33 credit hours)

General Education Requirements (48 credit hours)

Arts and Humanities (9 credit hours)

Take one course from each of the following three academic disciplines:

Fine Arts (3 credit hours)

Choose one course from the following:

HUM 120 - Introduction to the Arts

(3) Introduction to our humanity through hands-on experience in the arts (music, visual arts, poetry, story, play, and dance). Aesthetic and artistic values in the broader context of human cultural development, responsibility, and joy.

Notes: This course satisfies the general education fine arts requirement for most students, and is the required fine arts course for education majors. It is recommended for all students with a general interest in the fine arts. Students with a special interest in theatre should see THR 112. Students with a special interest in music should see MUS 110.

Note: HUM 120 does not satisfy the fine arts requirement for music majors or minors.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

MUS 110 - Musical Perspectives

(3) An exploration of music in the broader context of culture and the arts; personal musical experiences through listening and doing; and developing the ability to discern aesthetic excellence. Included is an introduction to the elements of music and how music works, the development of a Christian perspective on the arts, a broad survey of representative selections of Western music, and a focused overview of non-western/world music.

Notes: This course satisfies the general education fine arts requirement for most students. It is recommended for all students, especially those with an interest in music, and is the required fine arts course for all music majors and minors. Students with a special interest in Theatre should see THR 112.

Note: MUS 110 does not satisfy the fine arts requirement for education majors.

Fee

Course fees apply.

When Offered

Fall and spring semesters.

THR 112 - Theatre Appreciation

(3) An introduction to the theatre world and all its aspects: the people who are active in that world, the many kinds of work that are created, the sensations and ideas we receive from those works, and the ways the life of theatre has transmitted across many times and place.

Notes: This course satisfies the general education fine arts requirement for most students. It is recommended for all students, especially those with an interest in theatre. Students with a special interest in music should see MUS 110.

Note: THR 112 does not satisfy the fine arts requirement for music majors or minors, or education majors.

When Offered

Fall and spring semesters.

Literature (3 credit hours)

Choose one course from the following:

ENG 201 - Introduction to Literature

(3) Understand, experience, and evaluate poetry, short fiction, essays, and drama genres, both American and multinational.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Fall and spring semesters.

ENG 202 - American Literature I

(3) Representative stories, poems, and documents in American literature from the Colonial era to the early Republic (1776-1830) through the Romantic-transcendentalist period (1830-1860). Includes readings from multiethnic and women writers.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every fall semester.

ENG 203 - American Literature II

(3) Representative stories, poems, and drama in American literature from the Civil War to the present. Nontraditional ethnic and women's voices included. Emphasis on interpretation and criticism of American literature.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every spring semester.

ENG 204 - British Literature I

(3) Surveys the history of literature in Britain until 1800 and representative works by influential writers of the periods contained therein.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every fall semester.

ENG 205 - British Literature II

(3) Surveys the history of literature in Britain from 1800 to the present and representative works by influential writers.

Prerequisites: Minimum grade of C- in ENG 102 or equivalent.

When Offered

Every spring semester.

Philosophy (3 credit hours)

PHL 202 - Introduction to Philosophy

(3) This course is a survey of many major issues raised over the two-and-a-half millennia of western philosophy. With an emphasis on historical context and development, as well as philosophy's relationship to Christian thought, this course challenges students to critically explore philosophical questions and introduce them to the great tradition of intellectual

inquiry. Special attention will be given to the subjects of truth and knowledge, reality and appearance, mind and body, right and wrong, beauty and the existence of God.

When Offered

Fall and summer semesters.

Biblical Studies (12 credit hours)

Take the following four courses (some courses are cross-listed and only one prefix needs to be taken):

BIB 111 - Old Testament

(3) This course provides an introduction to the theological, historical, and literary features of the Old Testament, tracing God's covenant relationship with ancient Israel. Special consideration will be given to the divine covenants and Messianic prophecies of the Old Testament.

When Offered

Every spring semester.

Cross-listed HIS 111

HIS 111 - Old Testament

(3) This course provides an introduction to the theological, historical, and literary features of the Old Testament, tracing God's covenant relationship with ancient Israel. Special consideration will be given to the divine covenants and Messianic prophecies of the Old Testament.

When Offered

Every spring semester.

Cross-listed BIB 111.

BIB 114 - New Testament

(3) This course provides an introduction to the theological, historical, and literary features of the New Testament, tracing the presentation of the gospel message through historical, epistolary, and apocalyptic genres. Special consideration will be given to the life of Christ and missionary journeys of the Apostle Paul.

When Offered

Every fall semester.

Cross-listed HUM 114

HUM 114 - New Testament

(3) This course provides an introduction to the theological, historical, and literary features of the New Testament, tracing the presentation of the gospel message through historical, epistolary, and apocalyptic genres. Special consideration will be given to the life of Christ and missionary journeys of the Apostle Paul.

When Offered

Every fall semester.

Cross-listed BIB 114.

PHL 315 - World Religions and Systems of Belief

(3) This course introduces an academic study of religion and what is called worldview, supplemented by an overview of some of the major tenets of Christianity; this is then followed by a survey of several other religious traditions and competing philosophies.

Prerequisites: PHL 202, THE 201.

When Offered

Winter and spring semesters.

THE 201 - Introduction to Theology

(3) This course covers basic issues, themes, and categories of Christian theology, including the doctrines of Scripture, God, humanity, Christ, salvation, the church, and last things. This course encourages students to better know, trust, love, and live by God's Word.

Prerequisites: BIB 111, BIB 114.

When Offered

Fall, winter, spring, and summer semesters.

Communication (6 credit hours)**COM 103 - Public Speaking**

(3) Introductory principles of communication emphasizing public speaking. Aspects of verbal and nonverbal delivery, speech organization, and the effective use of supporting material and presentational aids are addressed. Students give several speeches designed to better equip them for future speaking endeavors

When Offered

Fall and spring semesters.

ENG 102 - English Composition

(3) Effective use of the English language and exploration of rhetorical modes in written composition. Review of structure, purpose, and audience awareness in developing essays.

Prerequisites: ACT and/or SAT scores will be used to determine placement in either ENG 102 or ENG 102 (Basic).

Notes: Course must be completed first semester at CCU.

When Offered

Fall and spring semester.

ENG 105 - Advanced English Composition

(3) Advanced English composition, research methods, and literary study for invited exceptional students. Focus on both the study of literature and research writing.

Prerequisites: One of the following:

- AP English Language and Composition
 - A score of 4 is the minimum prerequisite for enrollment in ENG 105. A student who scores a 4 or 5 will automatically enroll a student in ENG 105 instead of ENG 102 and/or ENG 201.
- AP English Literature and Composition
 - A score of 4 is the minimum prerequisite for enrollment in ENG 105. A student who scores a 4 or 5 will automatically enroll a student in ENG 105 instead of ENG 102 and/or ENG 201.
- Score of 30 or above on the verbal section of the ACT exam.
- Score of 700 or above on the verbal section of the SAT exam.
- By invitation of the English department.

Notes: Fulfills general education requirements for both ENG 102 and ENG 201.

When Offered

Every fall semester.

Integrative Studies (3 credit hours)

* Please see the First-Year Integration (FYI) page for specific information about this required course.

INT 101 - First-Year Integration

(3) Think critically, grow spiritually, and change the world. Based on the premise that we as Christians are called to be rational creatures, relational creatures, and responsible creatures, FYI is an integrative study of foundational Christian principles with other disciplines. Examination and discussion of problems and contemporary issues - academic, personal, and social - facing students in their pursuit of success in college and life. Please see the First-Year Integration (FYI) page for specific information about this required course.

When Offered

Fall and spring semesters.

Mathematics (3 credit hours)**MAT 112 - Mathematics for Liberal Arts**

(3) This course introduces some of the important ideas in mathematics and how they can be applied in everyday life situations, solving a wide range of practical problems. Topics include sets, logic, history of numeration, number systems and their properties, number patterns, counting principles, probability, statistics, graph theory, personal finance, and voting methods.

Notes: Students with higher level mathematics skills (i.e. ACT MAT above 20 and SAT MATH above 520) are discouraged from taking this class. Only students who do not place into MAT 111 - College Algebra should enroll in MAT 112 - Mathematics for Liberal Arts.

When Offered

Fall, spring and summer semesters.

(or higher except for MAT 202 or MAT 302 - Teaching Mathematics in the Elementary Classroom)

Science (3 credit hours)

SCI 230 - Integrated Physical Science with Lab

(3) This is an integrated course presenting the major concepts, theoretical perspectives, historical trends, and empirical findings of the physical sciences. Laboratory exercises and lectures explore motion, the four forces, heat, energy, chemical reactions, the structure and development of matter, the types and nature of chemical bonding, and the nature and history of the universe, the solar system, and the Earth.

Lab/Lecture Hours

Laboratory investigations included in course.

Fee

Lab fees apply.

When Offered

Every semester.

Social Sciences (12 credit hours)

Take each of the following four courses:

ECO 215 - Economics

(3) Economics is about scarcity and choice. Students in this course study how people, firms, governments, and nations interact in alternative economic systems to make choices about allocating scarce resources. In addition, students learn to evaluate these systems, understand macroeconomic monetary and fiscal policies, and engage in policy debates.

When Offered

Fall and spring semesters.

HIS 185 - Western Civilization

(3) The spiritual values and intellectual achievements of ancient Israel, Greece, Rome, the Middle Ages, the Renaissance, and Reformation that gave birth to the modern world.

When Offered

Every fall semester.

HIS 205 - American History

(3) Principles of the founding and the political, economic, intellectual, cultural, and religious traditions that have shaped America.

When Offered

Every spring semester.

POL 207 - Introduction to American Politics

(3) Introduction to political science and American government to prepare students to be effective citizens.

When Offered

Every fall and spring semester.

Youth Ministry Major Core (39 credit hours)

Bible and Theology Courses (18 credit hours)

BIB 230 - Interpreting the Bible

(3) This course provides an orientation to the Bible, hermeneutics, and exegetical practices. Exploration in the field of biblical studies will include the formation, preservation, and translation of the Bible.

Prerequisites: BIB 111 or HIS 111, BIB 114 or HUM 114, (ENG 104 is recommended).

When Offered

Fall and spring semesters.

THE 215 - Philosophy and Sociology of Ministry

(3) This course explores the academic and practical approaches to ministry developed from biblical evidence, theological reflection, and social research.

When Offered

Every spring semester.

THE 309 - History of Christianity

(3) This course provides an overview of the history of Christianity from the post-apostolic era up to the present day. Focus is given to benchmark events, persons, trends in worship practice and spirituality, doctrinal developments and emphases, and interaction between Christianity and culture over the course of two millennia.

Prerequisites: BIB 111 or HIS 111; BIB 114 or HUM 114.

When Offered

Every fall and spring semesters.

THE 306 - Communication for Ministry

(3) This course provides an orientation to the principles and practice for the development and delivery of an expository teaching or sermon.

Prerequisites: BIB 230; Junior/Senior status.

When Offered

Fall and spring semesters.

THE 404 - Systematic Theology I

(3) This course is the first in a two-course rotation designed to introduce students to a deeper understanding of Christian doctrine than can be accomplished in THE 201 Introduction to Theology. This course treats questions of Theological Method and the doctrines of Revelation (including Scripture), Theology Proper, Anthropology, and Sin. This two-course cycle is intended to replace the same or similar classes in seminary or graduate school.

Prerequisites: THE 201 (with the exception of those majoring in Theology).

When Offered

Fall semester.

THE 405 - Systematic Theology II

(3) This course is the second in a two-course rotation designed to introduce students to a deeper understanding of Christian doctrine than can be accomplished in THE 201 Introduction to Theology. This course treats the doctrines of Christology, Pneumatology, Soteriology, Ecclesiology, and Eschatology. This two-course cycle is intended to replace the same or a similar class in seminary or graduate school.

Prerequisites: THE 404.

When Offered

Spring semester.

THE 412 - Practical Theology

(3) This course explores leading thinkers, ideas, and texts in practical theology, with special attention to pastoral and lay responses to contemporary concerns.

Prerequisites: BIB 230.

When Offered

Every spring semester.

Youth Ministry Courses (12 credit hours)**YTM 201 - Foundations of Youth Ministry**

(3) Biblical foundations and objectives of youth ministry and its role in the local church; qualifications of youth leaders.

When Offered

Every fall semester.

YTM 202 - Spiritual Formation in Youth Ministry

(3) This course explores the essential elements of spiritual formation in the developmental contexts of middle school and high school students. Spiritual disciples from both adult and student perspectives are defined and applied within the context of discipleship.

When Offered

Every spring semester.

YTM 402 - Contemporary Youth Problems

(3) This course explores different approaches under the heading of biblically responsible counseling. Relational models and counseling strategies for issues common to students in the personal, social, and spiritual realms are presented.

Prerequisites: YTM 101, YTM 201 or YTM 202.

When Offered

Every fall semester.

YTM 450 - Youth Internship

(1 to 12) This course combines field education in ministry with practical theological reflection through hours of ministry, journals, reflective readings and a final reflection paper.

Notes: Pass/Fail; may be repeated for credit up to 12 credits.

When Offered

Fall, spring and summer semesters.

Upper-Division Field Related Electives (6 credit hours)

Select six credit hours from upper-division courses with a BIB, MUS, PSY, THE, or YTM prefix. Students wishing to fulfill this requirement from coursework outside these prefixes may request approval from the appropriate faculty in Youth Ministry.

Youth Ministry Major Elective (3 credit hours)

Complete three credit hours selected from courses with a YTM, BIB, or THE prefix.

Graduation Requirements for Bachelor of Arts in Youth Ministry

The faculty recommends students in the B.A. in Youth Ministry to the Board of Trustees as candidates for graduation when they have completed the following requirements.

1. Completion of a total of 120 credits, including all general education, electives and Youth Ministry major program requirements.
2. A letter grade of D or better and a cumulative GPA of 2.0 or better in all CCU coursework, and a GPA of 2.0 or higher for all courses specified for the major.
3. Completion of 180 hours of ministry/community service and 180 chapel credits. Transfer students are required to complete 45 hours of ministry/community service and 45 chapel credits each year of attendance at CCU. For further details on ministry/community service, see the Life Directions Center (LDC) section of this catalog. For further details on chapel credits, see the Student Life section of this catalog.
4. Meet the CCU Residency requirements.
5. Acceptable performance on exit exams, as required by the faculty.
6. Formal and timely application for graduation by the date specified by the University Registrar.
7. No outstanding financial obligation to the University.

Minor

Apologetics and Evangelism Minor

Students may earn a minor in Apologetics and Evangelism by completing the following 18 credit hours provided none of the courses is required in the student's major:

Required Courses (18 credit hours)

Required Core (9 credit hours)

APL 100 - Introduction to Apologetics

(3) This course is an introduction to principles and methodologies of practical Christian apologetics. Multiple apologetic approaches are identified, compared, contrasted, and evaluated as to their strengths and weaknesses.

When Offered

Every fall semester.

APL 202 - Introduction to Personal and Church-based Evangelism

(3) This course is an introduction to the historical and biblical principles which lift and support evangelism. Particular attention is paid to effective contemporary practices through local churches and ministries (6-Stage Process).

Prerequisites: APL 100.

When Offered

Every spring semester.

PHL 240 - Logic and Critical Thinking

(3) This course includes the fundamentals of logic, induction and deduction, logical fallacies, and sources of authority because the ability to think critically and reason well is at the heart of all philosophical endeavors. Emphases will include the application of critical thinking to real-world situations, such as social media, and the relationship between reason and faith.

When Offered

Every odd fall semester.

Elective Core (9 credit hours)

Choose 9 credit hours from the following list of courses.

Cultural Engagement Focus

CUL 330A - Studies in Secularism: Understanding the Spiritual Landscape

(3) This current issue course explores the rapidly expanding secular influence upon Western society. It discusses the underlying reasons for this shift and offers approaches on how to respond effectively to such trends.

Prerequisites: APL 100A.

CUL 332A - Christian Truth vs. Skeptical Culture: Confronting the Claims of Atheism

(3) This course studies the key issues that divide Christianity and skeptical culture, and confronts the claims of atheist thought. It focuses upon contemporary 21st-century issues.

Prerequisites: APL 100A.

CUL 334A - Conflicts in Culture: Addressing Controversies with Love and Truth

(3) This course examines a number of the key flashpoints within the contemporary "Culture Wars" that currently divide people. It discusses a variety of ways the message of the Gospel and Christians may seek to remedy these issues, such as gender issues, sex, abortion, and other key issues.

Prerequisites: APL 100A.

CUL 436A - Social Action and Evangelism

(3) This course examines and discusses the role of social action and evangelism as an essential principle of outreach and ministry.

Prerequisites: APL 100A.

CUL 438A - The Works and Apologetics of C. S. Lewis

(3) This course reviews and assesses the work of C. S. Lewis, his literature, and unique approach to cultural engagement and apologetics.

Prerequisites: APL 100A.

CUL 440A - Apologetics and the Arts: Film, Music, the Visual Arts, and Social Media

(3) This course examines the role of the arts in apologetics. It discusses and assesses the historic and contemporary impact and uses of these modes of expression to convey Christian truth.

Prerequisites: APL 100A.

Innovative Evangelism Focus

EVA 330A - Relational Evangelism: Becoming Contagious Christians

(3) This course explores the variety of approaches related to the more organic or relational forms of evangelism.

Prerequisites: APL 100A.

EVA 332A - Building Evangelistic Churches

(3) This course examines the biblical and time-tested principles and practices needed to increase the evangelistic effectiveness of local congregations.

Prerequisites: APL 100A.

EVA 334A - Reaching Next Generations for Christ

(3) This course examines various approaches to reaching young people with the gospel, including a study of student ministries that are evangelistically effective.

Prerequisites: APL 100A

EVA 436A - Introduction to World Religions, Sects, Cults

(3) This introductory course provides a survey of the central beliefs of major world religions, sects, and cults.

Prerequisites: APL 100A.

Cross-listed PRA 440A.

EVA 438A - Leadership In Evangelism: The Pastor and the Point Person

(3) This course examines the attributes, practices, principles, and methods necessary for effective evangelistic leaders.

Prerequisites: APL 100A.

EVA 440A - Evangelism in Smaller Settings

(3) This course studies the important factors and topics associated with evangelizing and edifying seekers in small group and spiritual discovery group settings.

Prerequisites: APL 100A.

Global Apologetics Focus

GLA 330A - Comparative Religions: Defending Jesus in a World of Belief Systems

(3) This course explores the varying views of how Christ is understood and depicted by other world religions. It compares and contrasts these perceptions in light of the applicable religion's texts, history, and philosophy.

Prerequisites: APL 100A.

GLA 332A - Christ and Islam: The Case for Christ in a Muslim Context

(3) This course examines how Christ is depicted and seen in the Muslim world. It compares and contrasts these perceptions in light of Islam's texts and history as well as Christian Scripture.

Prerequisites: APL 100A.

GLA 334A - Eastern Religions: Biblical Truth Confronts Eastern Thought

(3) This course studies some of the core beliefs that undergird Eastern Thought. It examines the pillars of the distinct worldviews behind Hinduism, Buddhism, Shinto, Taoism, and others and how they conflict doctrinally with a Christian Worldview.

Prerequisites: APL 100A.

GLA 436A - Religious Cults: The Real Jesus In a Sea of Religious Sects

(3) This course examines a range of historical and contemporary pseudo-Christian organizations and identifies how each departs from doctrinal orthodoxy.

Prerequisites: APL 100A.

GLA 438A - Apologetic Essentials in World Missions

(3) The course identifies and discusses the apologetic topics and approaches that are essential on the mission field. It practically recommends how to utilize these methods across the spectrum of people groups.

Prerequisites: APL 100A.

GLA 440A - Postmodern Thought: Christian Truth vs. A Relativistic Culture

(3) This philosophy-focused course studies the key issues that divide contemporary Postmodernism, and other emerging secular philosophies, from classical Christian thought.

Prerequisites: APL 100A.

Practical Apologetics Focus

PRA 330A - Historical Evidences for Christianity: The Case for Christ

(3) This course studies the core historical evidences of the Christian faith. It reviews the basic apologetics for the work and person of Christ and the historical work and evidences of the early church.

Prerequisites: APL 100A.

PRA 332A - Key Objections to Christianity: The Case For Faith

(3) This course examines and discusses the classical and contemporary objections and rejections of theism and the Christian faith.

Prerequisites: APL 100A.

PRA 334A - Faith and Science: The Case for a Creator

(3) This course explores the foundational issues of the relationship between faith and science, as well as critically examines evidence and arguments in support of Christianity from various scientific disciplines, including cosmology, physics, and biochemistry.

Prerequisites: APL 100A.

PRA 436A - The Case for Easter: Evidence for the Resurrection of Jesus

(3) This course studies the foundational apologetics methodologies concerning the bodily resurrection of Christ. It reviews the basic arguments from Scripture, history, and metaphysics.

Prerequisites: APL 100A.

PRA 438A - Confident Faith: A Cumulative Case For Christianity

(3) This course covers the broad range of apologetic methodologies and philosophical approaches essential to understanding the reasonable argument to be made for theism and Christianity.

Prerequisites: APL 100A.

PRA 440A - Introduction to World Religions, Sects, Cults

(3) This introductory course provides a survey of the central beliefs of major world religions, sects, and cults.

Prerequisites: APL 100A.

Cross-listed EVA 436A.

Biblical Archaeology Minor

For over a century, biblical archaeology has proven to be a fruitful branch of study as archaeologists have shed light on the people and places of the Bible. Ruins, artifacts, inscriptions, and other remains help us understand the historical and cultural world in which the biblical events unfolded and out of which the Bible itself was written. The Biblical Archaeology Minor deepens student understanding of the Bible through a study of archaeology and historical geography, equips students to approach the archaeological evidence from a biblical worldview, provides an apologetic for the reliability of the Bible, and trains students in archaeological field work.

The Biblical Archaeology minor includes coursework completed on campus and participation in excavations in the Middle East or the Mediterranean basin. The minor is an introduction to graduate studies in archaeology for those who wish to pursue a career in this field.

Students may earn a minor in the field by completing the following 18 credit hours provided none of the courses is required in the student's major:

Required Courses (18 credit hours)

Required Core (9 credit hours)

BIB 131 - Introduction to Biblical Archaeology

(3) This course provides an introduction to biblical archaeology through a study of its goals, methods, results, and history as a discipline. Special focus is given to how archaeology illuminates the cultures of the biblical lands from the Bronze Age through the Roman period.

When Offered

Every spring semester.

BIB 397 - Special Topics

(1-3) Guided group investigation and discussion of a selected topic. Graded; may be repeated for credit.

Fee

Course fee may apply.

When Offered

Scheduled by school.

BIB 497 - Special Topics

(1-3) This course is a guided group investigation and discussion of a selected topic.

Prerequisites: BIB 230.

Notes: Graded; may be repeated for credit.

Fee

Course fee may apply.

When Offered

Scheduled by School.

Elective Core (9 credit hours)

Choose 9 credit hours (3 courses) from the following:

BIB 315 - Old Testament Narrative and Law

(3) This course provides an exegetical study of the Pentateuch (Genesis through Deuteronomy) and the Deuteronomic history of the Old Testament (Joshua, Judges, 1 Samuel, 2 Samuel, 1 Kings, 2 Kings). These books are studied within the context of their ancient Near Eastern social, historical, cultural, and geographical settings.

Prerequisites: BIB 230.

When Offered

Every third semester.

COM 314 - Cross-Cultural Communication

(3) Examines Issues, theories, research, and strategies related to developing effective communication practices between diverse cultures. Consideration of biblical principles related to peoples and issues within various cultural backgrounds and experiences.

Prerequisites: COM 103.

When Offered

Every fall semester.

GLS 301 - Cultural Anthropology

(3) Inter-disciplinary study of American and world cultures, social organization, technology, religion, socialization, enculturation, acculturation, and social change using the insights of anthropology combined, as relevant, with findings of sociology.

When Offered

Even spring semesters.

GRE 402 - Greek Exegesis

(3) This course inculcates principles and practices of exegesis applied to the study of selected passages from the New Testament.

Prerequisites: Grade of C- or better in GRE 302.

When Offered

Odd fall semesters.

HEB 411 - Hebrew Exegesis

(3) This course inculcates the principles and practices of exegesis applied to the study of selected passages from the Old Testament.

Prerequisites: Grade of C- or better in HEB 302.

When Offered

Scheduled by School.

HIS 313 - Ancient Mediterranean World

(3) The extraordinary transformations of the ancient Mediterranean world are examined from 2000 B.C. through the onset of the first century A.D. The ways in which the Aegean, Greek, and Roman civilizations shaped their world are examined along with their multiple contributions to the shaping of our world.

Prerequisites: HIS 185.

When Offered

Even fall semesters.

Biblical Studies Minor (CUS)

Students may earn a minor in the field by completing the following 18 credit hours provided none of the courses is required in the student's major:

Required courses (18 credit hours)

Required Core (3 credit hours)

BIB 230 - Interpreting the Bible

(3) This course provides an orientation to the Bible, hermeneutics, and exegetical practices. Exploration in the field of biblical studies will include the formation, preservation, and translation of the Bible.

Prerequisites: BIB 111 or HIS 111, BIB 114 or HUM 114, (ENG 104 is recommended).

When Offered

Fall and spring semesters.

May substitute an upper division (300-400 level) field-related elective with a THE or BIB prefix if BIB-230 is already included in the student's core requirements.

Elective Core (15 credit hours)

- Choose 15 credit hours of upper-division (300-400 level) coursework in Biblical Studies, Greek, or Hebrew.

Church History Minor

This minor provides focused study in the history of the Christian church spanning from the first century to contemporary developments. It emphasizes the acquisition of substantial content knowledge in church history, historical theology, and historiography. Courses consist of a foundation of core classes along with the flexibility to choose electives leading to a breadth of perspective or focused depth.

Students may earn a minor in the field by completing the following 18 hours and any required prerequisites, provided none of the courses is required in the student's major:

Required Courses (18 credit hours)

Required Core (12 credit hours)

HIS 466 - Historiography

(3) An introduction to the art and science of historical research and writing with an emphasis on the history of historical thought, the methodology of doing history, and the philosophy of history including a Christian perspective.

Prerequisites: Junior or senior standing.

When Offered

Even fall semesters.

THE 309 - History of Christianity

(3) This course provides an overview of the history of Christianity from the post-apostolic era up to the present day. Focus is given to benchmark events, persons, trends in worship practice and spirituality, doctrinal developments and emphases, and interaction between Christianity and culture over the course of two millennia.

Prerequisites: BIB 111 or HIS 111; BIB 114 or HUM 114.

When Offered

Every fall and spring semesters.

THE 410 - Historical Theology I

(3) This course traces Christian theology from the Patristic period to the Middle Ages. Emphasis is placed upon primary source materials, theological themes and significant figures in historical context, the relationship of dogma and practice, and contemporary application in Christian formation.

Prerequisites: THE 309; Junion or Senior standing.

When Offered

Every fall semester.

THE 413 - Historical Theology II

(3) This course follows closely with Historical Theology I, and traces the historical development of Christian theology from the High Middle Ages to the twentieth century. In addition to theology, the course places an emphasis on Christian formation. Students work through primary source texts together with the aim of learning how to read an ancient text in a theological manner with an eye to contemporary application.

Prerequisites: THE 410.

When Offered

Every spring semester

Elective Core (6 credit hours)

Choose 2 courses from the following:

HIS 303 - American Church History

(3) History of the Christian experience in America from the Colonial era to the present. Examination of the differences in theology and polity among the major denominations.

When Offered

Odd spring semesters.

HIS 314 - Roman Empire and Medieval Europe

(3) A study of the shaping of the western world from the first century to the fifteenth century. Special emphasis is on the development of the Christian Church during this time period.

When Offered

Odd spring semesters.

HIS 315 - Early Modern Europe

(3) This course explores the individuals, events, and trends in Europe beginning with the fifteenth-century Italian Renaissance and its expansion into the rest of Europe. The Protestant Reformation and the resultant era of religious warfare are covered in detail, culminating with the Thirty Years' War in the early seventeenth century.

When Offered

Odd fall semesters.

LAT 301 - Latin I

(3) This course introduces students to the basics of classical Latin, including grammar, vocabulary, and syntax. Students also receive instruction in translation tools and techniques as they develop proficiency in reading, translating, and using the Latin language within various disciplines.

When Offered

Every odd fall semesters.

LAT 302 - Latin II

(3) This course continues an introduction to classical Latin, including increased complexity in grammar, vocabulary, and syntax. Students will continue to receive translation tools and techniques, continue to develop proficiency in reading, translating, and using the Latin language within various disciplines.

Prerequisites: Grade of C- or better in LAT 301.

When Offered

Every even spring semester.

- THE/HIS special electives 300-level or above, as approved by the Dean of the School of Theology

Intercultural Ministry Minor

Colorado Christian University trains students to impact the world for Christ through critical engagement in a major of their choice. The Intercultural Ministry Minor broadens the impact of this training by preparing students to apply this knowledge and skill within intercultural contexts. The minor teaches students how to interpret the Scriptures accurately and communicate truth clearly across cultural boundaries. The minor assists students with placement in nonprofit positions upon graduation.

Students may earn a minor in the field by completing the following 18 hours and any required prerequisites, provided none of the courses is required in the student's major:

Required Courses (18 credit hours)

BIB 230 - Interpreting the Bible

(3) This course provides an orientation to the Bible, hermeneutics, and exegetical practices. Exploration in the field of biblical studies will include the formation, preservation, and translation of the Bible.

Prerequisites: BIB 111 or HIS 111, BIB 114 or HUM 114, (ENG 104 is recommended).

When Offered

Fall and spring semesters.

COM 314 - Cross-Cultural Communication

(3) Examines Issues, theories, research, and strategies related to developing effective communication practices between diverse cultures. Consideration of biblical principles related to peoples and issues within various cultural backgrounds and experiences.

Prerequisites: COM 103.

When Offered

Every fall semester.

GLS 325 - Field Experience in Intercultural Ministry

(3) Students participate in a local or international field internship in conjunction with an external organization.

When Offered

Scheduled by School.

THE 225 - Introduction to Intercultural Ministry

(3) To orient students to the fundamental issues in the field of missiology with a particular focus on the biblical theology of mission, the role of the sender/supporter, life on the mission field, and current issues in missiological debate.

Fee

Course fee applies.

When Offered

Every fall semester.

THE 411 - Mission Preparation

(3) This course guides students in evaluating mission experiences in light of life calling in addition to preparing them for entry into full-time mission partnerships after graduation.

Prerequisites: THE 225.

When Offered

Every fall semester.

THE 325 - History and Theory of Christian Expansion

(3) A study of the background, origin, and expansion of the Christian church, focusing on personalities and methods which have contributed to the spread of the gospel to the ends of the earth. Attention will be given to comparing, contrasting and evaluating the differing methods of cross-cultural development in subsequent periods of history, drawing lessons for the modern missionary endeavor in light of current missiological philosophies and methods.

When Offered

Even spring semesters.

THE 425 - Theological Foundations for Intercultural Ministry

(3) Students consider a biblical basis for world mission rooted in the *missio dei*. This course enhances capacity for sound theological reasoning and decision making within intercultural contexts through examination of missiological principles revealed in the Scriptures.

Prerequisites: BIB 230 and THE 225.

When Offered

Every odd spring semester.

Philosophy Minor

The Philosophy minor develops critical thinking skills, exposes students to the great ideas of history, teaches them to reflect more deeply on the world around them, and allows them to intellectually engage with their Christian faith and develop responses to the challenges that they face. Ultimately, philosophy aids future Christian leaders by teaching them to love God with their minds, helping them to cultivate Christian character, and giving them the tools to approach the world thoughtfully and solve problems.

Students may earn a minor in the field by completing the following 18 hours and any required prerequisites, provided none of the courses is required in the student's major:

Required Courses (18 credit hours)

Required Core (12 credit hours)

PHL 240 - Logic and Critical Thinking

(3) This course includes the fundamentals of logic, induction and deduction, logical fallacies, and sources of authority because the ability to think critically and reason well is at the heart of all philosophical endeavors. Emphases will include the application of critical thinking to real-world situations, such as social media, and the relationship between reason and faith.

When Offered

Every odd fall semester.

PHL 301 - Ethics

(3) This course introduces students to the major tenets of Christian natural law as well as the ethical theories of deontology, utilitarianism, and virtue ethics. Major concepts such as natural rights, virtue, and happiness are explored and then applied to individual cases relating to themes such as censorship, cloning, euthanasia, capital punishment, and social distancing.

Prerequisites: PHL 202.

When Offered

Every even spring semester.

PHL 340 - Beauty, Desire, and Wisdom

(3) Why is there beauty in the world? What compels us to pursue it in the forms of art, relationships, and the things of the world around us? This course helps students understand the important but troubled relationship between beauty, desire, and the need for guiding wisdom.

Prerequisites: PHL 202.

When Offered

Every even fall semesters.

PHL 360 - Philosophy of Mind, Soul, and the Human Person

(3) This course examines classical, Christian, and contemporary issues in the philosophy of mind and what it means to be human. Particular emphasis is given to the nature of the soul and recent attempts to redefine the human person.

Prerequisites: PHL 202.

When Offered

Every odd spring semesters.

Elective Core (6 credit hours)

Choose two courses (6 credit hours) from the following:

ACC 505 - Accounting Ethics

(3) Ethics as applied to the accounting profession is studied through the lenses of biblical responsibility and practice. The fundamental values of integrity, due care, confidentiality, objectivity and independence are explored through theory and cases. Students will learn to recognize potential conflict of interest and moral dilemma situations and develop proper professional code of conduct responses.

Prerequisites: ACC 303.

When Offered

Every fall semester.

BIO 460 - Bioethics

(3) The biological revolution and its ethical impact; genetic engineering, reproductive technology, advanced prolongation of life, biblical principles of medical and biotechnological decision-making, secular alternatives; political dynamics.

Prerequisites: Senior Standing; final semester at CCU. Instructor permission required.

Fee

Fees may apply.

When Offered

Every semester.

LAW 427 - Philosophies of Jurisprudence

(3) This capstone course explores the ethics and theories of law that students will encounter in law school. Students are prepared with the analytical framework to recognize, understand, and more effectively negotiate legal philosophies and practices from a biblical worldview.

Prerequisites: LAW 212, LAW 217, LAW 303, LAW 310.

When Offered

Every spring semester.

POL 320 - Classical Political Philosophy

(3) This course presents the major themes in classical political philosophy, providing students a foundation upon which they can begin to understand the great divide (as well as the recurring problems) between classical and modern political thought. The course will focus on philosophic writings of Plato and Aristotle, as well as other select, significant writings of classical political philosophy.

Prerequisites: POL 207.

When Offered

Even fall semesters.

POL 321 - Modern Political Philosophy

(3) Students examine modern political philosophy, ranging from Machiavelli to social contract theorists such as Hobbes, Locke, and Rousseau. This course analyzes modern theorists who argue that political right is grounded in history, or will, such as Kant, Hegel, and Marx. The question of political legitimacy runs throughout the course, "Is any form of political rule legitimate, and if so, why?"

Prerequisites: POL 207.

When Offered

Odd fall semesters.

COM 357 - Popular Culture and Media

(3) This course will introduce students to methods and approaches of assessing the media and popular cultural milieu they inhabit from a philosophical and Christian point of view. Students will learn what constitutes the nature of media and culture, how to analyze and critique media and cultural practices, and how to engage with pop culture as thoughtful Christians.

Prerequisites: PHL 202.

When Offered

Every spring semester.

Cross-listed PHL 357.

PHL 357 - Popular Culture and Media

(3) This course will introduce students to methods and approaches of assessing the media and popular cultural milieu they inhabit from a philosophical and Christian point of view. Students will learn what constitutes the nature of media and culture, how to analyze and critique media and cultural practices, and how to engage with pop culture as thoughtful Christians.

Prerequisites: PHL 202.

When Offered

Every spring semester.

Cross-listed COM 357.

Sacred Music and Literature Minor

The Minor in Sacred Music and Literature constitutes an interdisciplinary course of study in Christian aesthetics, art and music history, poetry, and liturgical practice. The program provides students with the opportunity to integrate their studies in theology, history, music, art, and literature with broader aspects and trends in the church and the world. Through a carefully selected series of classes from various schools in the college, and culminating in two semesters of unique interdisciplinary seminars, students will go beyond their initial exposure through the general education core, studying each art form and its history in the context of the church in-depth. The minor culminates in a publicly presented research project, demonstrating students' readiness to serve the church, pursue graduate study if desired, and communicate effectively with the world.

Students may earn a minor in the field by completing 18 credit hours (courses vary depending on area of major study).

Sacred Music and Literature Minor Required Courses (18 credit hours)

MUS 340 - Seminar in Sacred Music and Literature is taken for two semesters (6 credit hours), and includes a thesis or research project supervised by seminar faculty.

Required Courses for Biblical Studies, Ministry Management, Theology, Youth Ministry Majors

ENG 305 - Poetry Seminar

(3) Interpretation and critical reading, structures, and conventions of poetry in English, past and present.

Prerequisites: One of the following: ENG 201, ENG 202, ENG 203, ENG 204, or ENG 205.

When Offered

Odd fall semesters.

ENG 420 - Advanced Creative Writing: Poetry

(3) Technique, writing practice, and criticism.

Prerequisites: ENG 230 and junior/senior status or permission of the instructor.

When Offered

Even fall semesters.

MUS 323 - History of Music I

(2) Historical study of the music of the Medieval, Renaissance, and Baroque periods of music history through readings, study of scores, listening, and analysis of stylistic characteristics of representative compositions. The study of the music is integrated with concurrent historical developments in government, politics, economics, geography, science, literature, painting, and philosophy.

When Offered

Every fall semester.

MUS 340 - Seminar in Sacred Music and Literature

(3) This is a team-taught interdisciplinary seminar in sacred music, literature, and the related arts. The course focuses on the arts in the context of the Christian life and the liturgy of the church. Students investigate primary sources, prepare for discussion, and have multiple opportunities for presentation to the class.

Prerequisites: Students with Junior or Senior standing.

When Offered

Every spring semester.

MUS 341 - Foundations of Worship and Worship Arts

(3) This course serves as an introductory study of the history, theology, and practice of biblical worship and worship arts. Course content will focus on the biblical, theological, historical, and practical foundations of worship and worship arts from Old Testament times to the present.

When Offered

Even fall semesters.

PHL 340 - Beauty, Desire, and Wisdom

(3) Why is there beauty in the world? What compels us to pursue it in the forms of art, relationships, and the things of the world around us? This course helps students understand the important but troubled relationship between beauty, desire, and the need for guiding wisdom.

Prerequisites: PHL 202.

When Offered

Every even fall semesters.

- One (1) additional credit hour. Choose from MUA 101-126, MUA 133, or MUE 100-117.

Required Courses for English Majors

MUS 323 - History of Music I

(2) Historical study of the music of the Medieval, Renaissance, and Baroque periods of music history through readings, study of scores, listening, and analysis of stylistic characteristics of representative compositions. The study of the music is integrated with concurrent historical developments in government, politics, economics, geography, science, literature, painting, and philosophy.

When Offered

Every fall semester.

MUS 340 - Seminar in Sacred Music and Literature

(3) This is a team-taught interdisciplinary seminar in sacred music, literature, and the related arts. The course focuses on the arts in the context of the Christian life and the liturgy of the church. Students investigate primary sources, prepare for discussion, and have multiple opportunities for presentation to the class.

Prerequisites: Students with Junior or Senior standing.

When Offered

Every spring semester.

MUS 341 - Foundations of Worship and Worship Arts

(3) This course serves as an introductory study of the history, theology, and practice of biblical worship and worship arts. Course content will focus on the biblical, theological, historical, and practical foundations of worship and worship arts from Old Testament times to the present.

When Offered

Even fall semesters.

PHL 340 - Beauty, Desire, and Wisdom

(3) Why is there beauty in the world? What compels us to pursue it in the forms of art, relationships, and the things of the world around us? This course helps students understand the important but troubled relationship between beauty, desire, and the need for guiding wisdom.

Prerequisites: PHL 202.

When Offered

Every even fall semesters.

THE 309 - History of Christianity

(3) This course provides an overview of the history of Christianity from the post-apostolic era up to the present day. Focus is given to benchmark events, persons, trends in worship practice and spirituality, doctrinal developments and emphases, and interaction between Christianity and culture over the course of two millennia.

Prerequisites: BIB 111 or HIS 111; BIB 114 or HUM 114.

When Offered

Every fall and spring semesters.

- One (1) additional credit hour. Choose from MUA 101-126, MUA 133, or MUE 100-117.

Required Courses for Music Education, Music, and Music with emphases in Performance, Production and Engineering, Music Media and Marketing, and Composition Majors**ENG 305 - Poetry Seminar**

(3) Interpretation and critical reading, structures, and conventions of poetry in English, past and present.

Prerequisites: One of the following: ENG 201, ENG 202, ENG 203, ENG 204, or ENG 205.

When Offered

Odd fall semesters.

ENG 420 - Advanced Creative Writing: Poetry

(3) Technique, writing practice, and criticism.

Prerequisites: ENG 230 and junior/senior status or permission of the instructor.

When Offered

Even fall semesters.

MUS 340 - Seminar in Sacred Music and Literature

(3) This is a team-taught interdisciplinary seminar in sacred music, literature, and the related arts. The course focuses on the arts in the context of the Christian life and the liturgy of the church. Students investigate primary sources, prepare for discussion, and have multiple opportunities for presentation to the class.

Prerequisites: Students with Junior or Senior standing.

When Offered

Every spring semester.

MUS 341 - Foundations of Worship and Worship Arts

(3) This course serves as an introductory study of the history, theology, and practice of biblical worship and worship arts. Course content will focus on the biblical, theological, historical, and practical foundations of worship and worship arts from Old Testament times to the present.

When Offered

Even fall semesters.

PHL 340 - Beauty, Desire, and Wisdom

(3) Why is there beauty in the world? What compels us to pursue it in the forms of art, relationships, and the things of the world around us? This course helps students understand the important but troubled relationship between beauty, desire, and the need for guiding wisdom.

Prerequisites: PHL 202.

When Offered

Every even fall semesters.

THE 309 - History of Christianity

(3) This course provides an overview of the history of Christianity from the post-apostolic era up to the present day. Focus is given to benchmark events, persons, trends in worship practice and spirituality, doctrinal developments and emphases, and interaction between Christianity and culture over the course of two millennia.

Prerequisites: BIB 111 or HIS 111; BIB 114 or HUM 114.

When Offered

Every fall and spring semesters.

Required Courses for Worship Arts Majors

ENG 305 - Poetry Seminar

(3) Interpretation and critical reading, structures, and conventions of poetry in English, past and present.

Prerequisites: One of the following: ENG 201, ENG 202, ENG 203, ENG 204, or ENG 205.

When Offered

Odd fall semesters.

ENG 420 - Advanced Creative Writing: Poetry

(3) Technique, writing practice, and criticism.

Prerequisites: ENG 230 and junior/senior status or permission of the instructor.

When Offered

Even fall semesters.

HUM 221 - Experiencing Creative Arts and Culture

(3) A guided experience of the arts (visual, literary, theatre and music) within a selected urban cultural setting.

Notes: Additional fees apply for travel/lodging and event tickets. Class size will be limited.

When Offered

Scheduled by School, winter or summer semesters.

LAT 301 - Latin I

(3) This course introduces students to the basics of classical Latin, including grammar, vocabulary, and syntax. Students also receive instruction in translation tools and techniques as they develop proficiency in reading, translating, and using the Latin language within various disciplines.

When Offered

Every odd fall semesters.

PHL 340 - Beauty, Desire, and Wisdom

(3) Why is there beauty in the world? What compels us to pursue it in the forms of art, relationships, and the things of the world around us? This course helps students understand the important but troubled relationship between beauty, desire, and the need for guiding wisdom.

Prerequisites: PHL 202.

When Offered

Every even fall semesters.

MUS 340 - Seminar in Sacred Music and Literature

(3) This is a team-taught interdisciplinary seminar in sacred music, literature, and the related arts. The course focuses on the arts in the context of the Christian life and the liturgy of the church. Students investigate primary sources, prepare for discussion, and have multiple opportunities for presentation to the class.

Prerequisites: Students with Junior or Senior standing.

When Offered

Every spring semester.

THE 309 - History of Christianity

(3) This course provides an overview of the history of Christianity from the post-apostolic era up to the present day. Focus is given to benchmark events, persons, trends in worship practice and spirituality, doctrinal developments and emphases, and interaction between Christianity and culture over the course of two millennia.

Prerequisites: BIB 111 or HIS 111; BIB 114 or HUM 114.

When Offered

Every fall and spring semesters.

Required Courses for all other Majors

ENG 305 - Poetry Seminar

(3) Interpretation and critical reading, structures, and conventions of poetry in English, past and present.

Prerequisites: One of the following: ENG 201, ENG 202, ENG 203, ENG 204, or ENG 205.

When Offered

Odd fall semesters.

ENG 420 - Advanced Creative Writing: Poetry

(3) Technique, writing practice, and criticism.

Prerequisites: ENG 230 and junior/senior status or permission of the instructor.

When Offered

Even fall semesters.

MUS 323 - History of Music I

(2) Historical study of the music of the Medieval, Renaissance, and Baroque periods of music history through readings, study of scores, listening, and analysis of stylistic characteristics of representative compositions. The study of the music is integrated with concurrent historical developments in government, politics, economics, geography, science, literature, painting, and philosophy,

When Offered

Every fall semester.

MUS 340 - Seminar in Sacred Music and Literature

(3) This is a team-taught interdisciplinary seminar in sacred music, literature, and the related arts. The course focuses on the arts in the context of the Christian life and the liturgy of the church. Students investigate primary sources, prepare for discussion, and have multiple opportunities for presentation to the class.

Prerequisites: Students with Junior or Senior standing.

When Offered

Every spring semester.

PHL 340 - Beauty, Desire, and Wisdom

(3) Why is there beauty in the world? What compels us to pursue it in the forms of art, relationships, and the things of the world around us? This course helps students understand the important but troubled relationship between beauty, desire, and the need for guiding wisdom.

Prerequisites: PHL 202.

When Offered

Every even fall semesters.

THE 309 - History of Christianity

(3) This course provides an overview of the history of Christianity from the post-apostolic era up to the present day. Focus is given to benchmark events, persons, trends in worship practice and spirituality, doctrinal developments and emphases, and interaction between Christianity and culture over the course of two millennia.

Prerequisites: BIB 111 or HIS 111; BIB 114 or HUM 114.

When Offered

Every fall and spring semesters.

- One (1) additional credit hour. Choose from MUA 101-126, MUA 133, or MUE 100-117.

Theology Minor

Students may earn a minor in the field by completing the following 18 hours and any required prerequisites, provided none of the courses is required in the student's major:

Required Courses (18 credit hours)

Required Core (12 credit hours)

BIB 230 - Interpreting the Bible

(3) This course provides an orientation to the Bible, hermeneutics, and exegetical practices. Exploration in the field of biblical studies will include the formation, preservation, and translation of the Bible.

Prerequisites: BIB 111 or HIS 111, BIB 114 or HUM 114, (ENG 104 is recommended).

When Offered

Fall and spring semesters.

May substitute an upper division (300-400) field-related elective with a THE or BIB prefix if BIB-230 is already included in the student's core requirements.

THE 309 - History of Christianity

(3) This course provides an overview of the history of Christianity from the post-apostolic era up to the present day. Focus is given to benchmark events, persons, trends in worship practice and spirituality, doctrinal developments and emphases, and interaction between Christianity and culture over the course of two millennia.

Prerequisites: BIB 111 or HIS 111; BIB 114 or HUM 114.

When Offered

Every fall and spring semesters.

THE 404 - Systematic Theology I

(3) This course is the first in a two-course rotation designed to introduce students to a deeper understanding of Christian doctrine than can be accomplished in THE 201 Introduction to Theology. This course treats questions of Theological Method and the doctrines of Revelation (including Scripture), Theology Proper, Anthropology, and Sin. This two-course cycle is intended to replace the same or similar classes in seminary or graduate school.

Prerequisites: THE 201 (with the exception of those majoring in Theology).

When Offered

Fall semester.

THE 405 - Systematic Theology II

(3) This course is the second in a two-course rotation designed to introduce students to a deeper understanding of Christian doctrine than can be accomplished in THE 201 Introduction to Theology. This course treats the doctrines of Christology, Pneumatology, Soteriology, Ecclesiology, and Eschatology. This two-course cycle is intended to replace the same or a similar class in seminary or graduate school.

Prerequisites: THE 404.

When Offered

Spring semester.

Elective Core (6 credit hours)

- Choose 3 credit hours of an upper-division (300-400) Theology elective.
- Choose 3 credit hours of an upper-division (300-400) Bible elective.

Young Life Leadership Minor

The Young Life Leadership minor, one of only three such programs in the country, consists of seven classes (18 credit hours) designed to train the student for service in Young Life's ministry of evangelism and discipleship. Each class is designed to help the student do two things: reflect on the theological, sociological and developmental basis for Young Life's evangelism and create tangible opportunities to implement these understandings with middle school and/or high school students. Students not involved in the Young Life ministry are invited to be a part of this minor: much in this curriculum has a broad spectrum of vocational application.

Students may earn a minor in the field by completing the following 18 credit hours provided none of the courses is required in the student's major.

Required Core (18 credit hours)

COM 314 - Cross-Cultural Communication

(3) Examines Issues, theories, research, and strategies related to developing effective communication practices between diverse cultures. Consideration of biblical principles related to peoples and issues within various cultural backgrounds and experiences.

Prerequisites: COM 103.

When Offered

Every fall semester.

EPS 342 - Adolescent Development and Culture

(3) Biological, cognitive, psychological, social, and moral growth and development of early, middle and late adolescents. Explores theories of adolescent development in a family, peer, school, and community context. Explores personal, educational and career decision making, psychosocial problems during adolescence, and implications for teaching, youth ministry, counseling, and nonprofit organization work with youth.

Prerequisites: Sophomore standing (30+ Credit Hours).

When Offered

Every fall and spring semester.

YTM 101 - Young Life Ministry Skills

(2) This course focuses on the fundamental ministry skills of Young Life, which is best described as relational/incarnational evangelism. Students will theologically reflect on the principle core values of this ministry as well as seek to apply these principles in their own ministries. It is not required that students be involved in the Young Life ministry, as these principles have a wide range of application.

When Offered

Every fall semester.

YTM 202 - Spiritual Formation in Youth Ministry

(3) This course explores the essential elements of spiritual formation in the developmental contexts of middle school and high school students. Spiritual disciples from both adult and student perspectives are defined and applied within the context of discipleship.

When Offered

Every spring semester.

YTM 321 - Leading Ministry Teams

(2) This course explores the personal development of a leader in the framework of their call to ministry. Students learn how to develop and lead a team. The course helps students identify both their own gifts and strengths as well as the gifts and strengths of those they lead. Students then create approaches that maximize these discoveries.

Prerequisites: YTM 101, YTM 201 or YTM 202.

When Offered

Scheduled by school.

YTM 350 - Youth Internship

(1 to 12) This course combines field education in ministry with practical theological reflection through hours of ministry, journals, reflective readings and a final reflection paper.

Notes: Pass/Fail; may be repeated for credit up to 12 credits.

When Offered

Every fall, spring, and summer semesters.

YTM 450 - Youth Internship

(1 to 12) This course combines field education in ministry with practical theological reflection through hours of ministry, journals, reflective readings and a final reflection paper.

Notes: Pass/Fail; may be repeated for credit up to 12 credits.

When Offered

Fall, spring and summer semesters.

Youth Ministry Minor

Students may earn a minor in the field by completing the following 18 hours and any required prerequisites, provided none of the courses is required in the student's major:

Required Courses (18 credit hours)

Required Core (12 credit hours)

BIB 230 - Interpreting the Bible

(3) This course provides an orientation to the Bible, hermeneutics, and exegetical practices. Exploration in the field of biblical studies will include the formation, preservation, and translation of the Bible.

Prerequisites: BIB 111 or HIS 111, BIB 114 or HUM 114, (ENG 104 is recommended).

When Offered

Fall and spring semesters.

May substitute an upper division (300-400) field-related elective with a THE or BIB prefix if BIB-230 is already included in the student's core requirements.

YTM 201 - Foundations of Youth Ministry

(3) Biblical foundations and objectives of youth ministry and its role in the local church; qualifications of youth leaders.

When Offered

Every fall semester.

YTM 202 - Spiritual Formation in Youth Ministry

(3) This course explores the essential elements of spiritual formation in the developmental contexts of middle school and high school students. Spiritual disciples from both adult and student perspectives are defined and applied within the context of discipleship.

When Offered

Every spring semester.

YTM 402 - Contemporary Youth Problems

(3) This course explores different approaches under the heading of biblically responsible counseling. Relational models and counseling strategies for issues common to students in the personal, social, and spiritual realms are presented.

Prerequisites: YTM 101, YTM 201 or YTM 202.

When Offered

Every fall semester.

Elective Core (6 credit hours)

- Choose 6 credit hours of upper-division (300-400) field-related electives with a BIB, THE, or YTM prefix.

Employment Management Services

Employment Management Services (EMS) works with employers looking to recruit and select excellent job candidates for their business workforce. EMS works with employers twelve months a year to place students in both full and part time employment opportunities. Students are encouraged to seek employment and contribute to their education costs by working through college at screened and selected employers. Students of all majors are eligible to apply and enroll in the EMS JOBS course series. This enables a student to gain general work experience OR work in areas of interest to deepen their degree program.

Successful students who enroll in the EMS JOBS course series may earn up to 24 semester hours of their college education in real life work experience. These credit hours may be earned in addition to their 120 credit hours in general education, major, and elective coursework, or the EMS JOBS course series may be used to replace elective credit requirements.

All students must have prior approval from EMS before enrolling in any JOBS course. In order to participate in the EMS JOBS course series, a student must fulfill all requirements as defined by the EMS team. These requirements may vary based upon the student's prior work experience and academic performance while at CCU.

While employed and participating for academic credit, a student must maintain continual employment with a minimum of 225 hours for each semester enrolled in a JOBS course. All academic credit for work experience is granted on a pass/fail basis. EMS takes student performance very seriously and will remain engaged in the student's work performance throughout the period of time the student is enrolled in the EMS JOBS course series.

There is a course fee assessed for all JOBS courses, but no tuition charges. JOBS registration cannot count toward a student's financial aid eligibility for the enrolled term. Students are advised to work with their Financial Aid counselor for further information.

EMS JOBS Course Series

The following courses are available to be taken for a total of 3 credit hours per semester.

JBS 100 - Leading Yourself in the World of Work

(3) Overview of professionalism in the workplace including functional processes (communication, goal setting, decision-making, networking, resume writing, interviewing) and employer expectations for success in the workplace.

Notes: Pass/Fail.

Fee

Course fees apply.

When Offered

Fall, spring and summer semesters.

JBS 150 - Leading Yourself in the World of Work 1

(3) First professional job experience, approved by Employment Management Services, to increase professional skill sets, integrate the student into the workplace, and connect class learning with employment experience. Student must maintain continual employment with a minimum of 225 hours per semester.

Notes: Pass/Fail.

Fee

Course fees apply.

When Offered

Fall, spring and summer semesters.

JBS 200 - Leading Yourself in the World of Work 2

(3) Second professional job experience, approved by Employment Management Services, to increase professional skill sets, integrate the student into the workplace, and connect class learning with employment experience. Student must maintain continual employment with a minimum of 225 hours per semester.

Notes: Pass/Fail.

Fee

Course fees apply.

When Offered

Fall, spring and summer semesters.

JBS 250 - Leading Yourself in the World of Work 3

(3) Third professional job experience, approved by Employment Management Services, to increase professional skill sets, integrate the student into the workplace, and connect class learning with employment experience. Student must maintain continual employment with a minimum of 225 hours per semester.

Notes: Pass/Fail.

Fee

Course fees apply.

When Offered

Fall, spring and summer semesters.

JBS 300 - Leading Yourself in the World of Work 4

(3) Fourth professional job experience, approved by Employment Management Services, to increase professional skill sets, integrate the student into the workplace, and connect class learning with employment experience. Student must maintain continual employment with a minimum of 225 hours per semester.

Notes: Pass/Fail.

Fee

Course fees apply.

When Offered

Fall, spring and summer semesters.

JBS 350 - Leading Yourself in the World of Work 5

(3) Fifth professional job experience, approved by Employment Management Services, to increase professional skill sets, integrate the student into the workplace, and connect class learning with employment experience. Student must maintain continual employment with a minimum of 225 hours per semester.

Notes: Pass/Fail

Fee

Course fees apply.

When Offered

Fall, spring and summer semesters.

JBS 400 - Leading Yourself in the World of Work 6

(3) Sixth professional job experience, approved by Employment Management Services, to increase professional skill sets, integrate the student into the workplace, and connect class learning with employment experience. Student must maintain continual employment with a minimum of 225 hours per semester.

Notes: Pass/Fail

Fee

Course fees apply.

When Offered

Fall, spring and summer semesters.

JBS 450 - Leading Yourself in the World of Work 7

(3) Seventh professional job experience, approved by Employment Management Services, to increase professional skill sets, integrate the student into the workplace, and connect class learning with employment experience. Student must maintain continual employment with a minimum of 225 hours per semester.

Notes: Pass/Fail.

Fee

Course fees apply.

When Offered

Fall, spring and summer semesters.

Off-Campus Programs

Study Abroad and Off-Campus Programs

Colorado Christian University aims not only to give students an unforgettable study abroad experience, but ultimately desires to develop students into global citizens. CCU's study abroad partners offer programs in 20 countries and offer courses relevant to nearly every major while also offering students unique opportunities in terms of field-based internships, language acquisition, and cultural assimilation experiences.

- CCCU GlobalEd (through the Council for Christian Colleges and Universities)
- Living & Learning International (Quito, Ecuador & Rome, Italy)
- Study Abroad Lithuania (LCC International University)
- Veritas Christian Study Abroad

Students interested in studying abroad or off-campus are responsible to research and apply for the study abroad or off-campus program in a timely manner. If studying abroad, students are also responsible to initiate conversation with their LDC advisor who will work with them to determine if and how the academic credit earned abroad will apply toward the student's degree requirements before the student makes a decision to participate in a study abroad program. It is recommended that the student see their advisor about the approval of transfer credits at least one month prior to the program's application deadline.

To make an appointment with CCU's Study Abroad Coordinator or to learn more about study abroad at CCU, email studyabroad@ccu.edu.

Students participating in a study abroad or off-campus program will also need to work with the Study Abroad Representative in Service Central to determine the cost of this endeavor, as well as to explore available financial aid. CCU students cannot apply their CCU Institutional aid toward a study abroad program, although federal aid, state aid, and some private scholarships may be applicable.

Off-Campus Programs

American Studies Program

Founded in 1976, the American Studies Program (ASP) has served hundreds of students as a "Washington, D.C. campus." ASP uses Washington as a stimulating educational laboratory where collegians gain hands on experience with an internship in their chosen field. Internships are tailored to fit the student's talents and aspirations and are available in a wide range of fields. Participants also explore pressing national and international issues in public policy seminars that are issue oriented, interdisciplinary and led by ASP faculty and Washington professionals.

The ASP bridges classroom and marketplace, combining biblical reflection, policy analysis and real world experience. Students are exposed to on the job learning that helps them build for their future and gain perspective on the calling of God for their lives. They are challenged in a rigorous course of study to discover for themselves the meaning of Christ's lordship in putting their beliefs into practice. Project tracks include public policy and strategic communication. The aim of the program is to help Council schools prepare their students to live faithfully in contemporary society as followers of Christ. Contact CCU's Life Directions Center for more information.

The Council for Christian Colleges & Universities (CCCU), an association of more than 180 campuses around the world, offers off-campus study programs to students of its member institutions. The programs offer a unique opportunity for students to make the world their classroom, going beyond the confines of the traditional classroom. These interdisciplinary learning opportunities are available to upper-class students. For further information, contact CCU's Life Directions Center (LDC) for CCU-specific application procedures.

More information available at CCCU GlobalEd.

Contemporary Music Center

The Contemporary Music Center (CMC) provides students the opportunity to live and work in community while seeking to understand how God will have them integrate music, faith and business. Both interdisciplinary and multidisciplinary in nature, the CMC offers three tracks: the Artist Track, the Business Track, and the Technical Track. The Artist Track is tailored to students considering careers as vocalists, musicians, songwriters, recording artists, performers, producers and recording engineers. The Executive Track is designed for business, arts management, marketing, communications and related majors interested in possible careers as artist managers, agents, record company executives, music publishers, concert promoters and entertainment industry entrepreneurs. The Technical Track is geared toward studio recording, audio engineering, concert production, and road tours.

All students receive instruction, experience and a uniquely Christian perspective on creativity and the marketplace, while working together to create and market a recording of original music. All tracks include course work, labs, directed study and a practicum. Contact CCU's Life Directions Center for CCU-specific application procedures and courses available.

The Council for Christian Colleges & Universities (CCCU), an association of more than 180 campuses around the world, offers off-campus study programs to students of its member institutions. The programs offer a unique opportunity for students to make the world their classroom, going beyond the confines of the traditional classroom. These interdisciplinary learning opportunities are available to upper-class students. For further information, contact CCU's Life Directions Center (LDC) for CCU-specific application procedures.

More information available at CCCU GlobalEd.

LCC International University

Colorado Christian University has formed a transfer agreement and partnership with LCC International University (LCC). Located in the Baltic port of Klaipeda, Lithuania, LCC is a Christian Liberal Arts university with a diverse population of 600 students representing over 25 different countries, with half the student body coming from outside of Lithuania. Study Abroad students are able to study in English a wide selection of courses, giving students exposure to a variety of different cultures through classroom diversity and intercultural engagement.

CCU is pleased to provide pre-approved course substitutions for Study Abroad semesters at LCC in the fields of Business, Psychology, Theology, and English / Literature. As it is often difficult to find opportunities to study in these areas

from a Christian perspective outside of the United States, this is a great opportunity for CCU students to experience life, culture, and academics in Eastern Europe.

LCC is an international affiliate school in the Council for Christian Colleges & Universities (CCCU), and also holds membership with the Association of Christian Schools International (ACSI). LCC was established in 1991 by a joint venture of Lithuanian, Canadian, and American foundations. One-third of LCC faculty are Lithuanian while two-thirds are from Western Europe, Canada, and the United States.

If you are interested in studying at LCC, contact your LDC Advisor for details.

Middle East Studies Program

The Middle East Studies Program (MESP), based in Amman, Jordan, allows students to explore and interact with the complex and strategic world of the modern Middle East. The interdisciplinary seminars give students the opportunity to explore the diverse religious, social, cultural and political traditions of Middle Eastern peoples. Students also study the Arabic language and engage the religious culture and politics of the Middle East. Students will examine the Israeli-Palestinian conflict from every perspective, live with a local family during a week-long homestay, and learn about topics most precious to the region. A long-term service project that serves the region is included in this experience.

At a time of tension and change in the Middle East Region, MESP encourages and equips students to relate to the Muslim world in an informed, constructive and Christ centered manner. Contact CCU's Life Directions Center for more information.

The Council for Christian Colleges & Universities (CCCU), an association of more than 180 campuses around the world, offers off-campus study programs to students of its member institutions. The programs offer a unique opportunity for students to make the world their classroom, going beyond the confines of the traditional classroom. These interdisciplinary learning opportunities are available to upper-class students. For further information, contact CCU's Life Directions Center (LDC) for CCU-specific application procedures.

More information available at [CCCU GlobalEd](#).

Scholarship and Christianity in Oxford

The Scholarship and Christianity in Oxford (SCIO) program is designed for students interested in doing intensive scholarship in this historic seat of learning.

Designed specifically for students seeking an academically rigorous and robust experience, a semester at SCIO seeks to brighten the brightest of minds. Students at SCIO can spend one or two semesters in Oxford. SCIO and Wycliffe Hall require students to have a GPA of 3.7 or higher. In tutorials, students meet one-on-one with acclaimed Oxford scholars (often including widely-published authors, historians, former international ambassadors, and other celebrated scholars) to go head-to-head on subjects within the disciplines of history, literature, languages, philosophy, musicology, art, science, and more.

The Council for Christian Colleges & Universities (CCCU), an association of more than 180 campuses around the world, offers off-campus study programs to students of its member institutions. The programs offer a unique opportunity for students to make the world their classroom, going beyond the confines of the traditional classroom. These interdisciplinary learning opportunities are available to upper-class students. For further information, contact CCU's Life Directions Center (LDC) for CCU-specific application procedures.

More information available at [CCCU GlobalEd](#).

Reserve Officers Training Corps (ROTC)

Enrollment in Reserve Officers Training Corps programs is open to both men and women, and ROTC courses are open to all students whether or not they are enrolled in ROTC programs. The Air Force and the Army provide undergraduate and selected graduate students with the opportunity to combine academic study with a military officer's educational program. The two services conduct courses in their respective areas leading to a regular or reserve commission upon graduation. For more information contact CCU's Office of Admission at 303-963-3200 and ask to speak with the ROTC liaison.

ROTC Programs

Air Force Aerospace Studies: Air Force ROTC

Military Science: Army Reserve Officers' Training Corps (ROTC)

ROTC

Air Force Aerospace Studies: Air Force ROTC

U.S. Air Force Reserve Officers' Training Corps (ROTC) at Colorado Christian University is offered in a cross-town agreement with the program at University of Colorado - Boulder. U.S. Air Force ROTC offers several programs leading to a commission in the U.S. Air Force upon receipt of at least a baccalaureate degree.

Standard Four-Year Program

This program is in three parts: the General Military Course for lower division students (normally freshmen and sophomores), the Professional Officer Course for upper division students (normally juniors and seniors), and Leadership Laboratory attended by all cadets. Completion of the General Military Course is a prerequisite for entry into the Professional Officer Course. Completion of a four-week summer training course is required prior to commissioning.

Modified Two-Year Program

This program is offered to full-time regularly enrolled degree students. It requires at least two years of full-time college (undergraduate, graduate level, or a combination). Those selected for this program must complete a six-week field training program during the summer months as a prerequisite for entry into the Professional Officer Course the following fall semester.

Leadership Lab

Air Force ROTC cadets must attend Leadership Lab (one and one-half hour per week). The laboratory involves a study of Air Force customs and courtesies, drill and ceremonies, career opportunities, and the life and work of an Air Force junior officer.

Other Air Force ROTC Programs

Other programs are frequently available based on current Air Force needs. Any Air Force ROTC staff member in Boulder 303.492.8278 can discuss best alternatives. Interested students should make initial contact as early as possible to create the best selection opportunity, as selection is competitive. There is no obligation until a formal contract is entered.

Air Force College Scholarship Program

Students participating in Air Force ROTC may be eligible to compete for Air Force ROTC College scholarships. Students selected for this program are placed on scholarships that pay tuition; book allowance; nonrefundable educational fees; and a modest subsistence per month, tax-free. All cadets enrolled in the Professional Officer Course receive a modest stipend during the regular academic year. Scholarships that are available include two- and three-year scholarships. These scholarships are available to both men and women, in all academic disciplines. In addition, there are special programs for minority students.

Flight Opportunities

Prior to entering the fourth year of the Air Force ROTC program, qualified ROTC students can compete for pilot allocations. In the summer following their junior year, qualified pilot candidates generally attend the Flight Screening Program (FSP) near San Antonio, TX.

U.S. Air Force Medical Programs

Qualified pre-med students can compete for pre-med scholarships and programs. These scholarships and programs can lead to a rewarding career as an Air Force officer, serving as a physician.

Air Force ROTC Course Credit

Air Force ROTC credit for graduation varies with each college. Students should contact the appropriate college for determination of credit.

Registration

Register for Air Force ROTC classes (listed below) by going to your Life Directions Center advisor for help in completing an Add/Drop form. Students attend classes and the Leadership Lab at the University of Colorado at Boulder. At the end of the semester, Air Force ROTC sends a grade to CCU's Service Central office, which is added to the student's transcript. Credit granted follows the course information below.

For more information students can contact the Air Force ROTC Unit Admissions Officer at 303-492-3133.

AIR 101 - Heritage and Values I

(1) This course provides an introduction to the Air Force, encourages students to pursue an AF career or seek additional information to be better informed about the role of the USAF. The course allows students to examine general aspects of the Department of the Air Force, AF Leadership, Air Force benefits, and opportunities for AF officers. The course also lays the foundation for becoming an Airman by outlining our heritage and values.

AIR 102 - Heritages and Values II

(1) A continuation of AIR 101 - Heritage and Values I. This course provides a historical perspective including lessons on war and the US military, AF operations, principles of war, and airpower. This course also provides students with an understanding for the employment of air and space power, from an institutional, doctrinal, and historical perspective. The students are introduced to the Air Force way of life and gain knowledge on what it means to be an Airman.

AIR 201 - Team and Leadership Fundamentals I

(1) This course is designed to provide a fundamental understanding of both leadership and team building. This course teaches students that there are many layers to leadership, including aspects that are not always obvious. Such things include listening, understanding themselves, being a good follower, and problem solving efficiently.

AIR 202 - Team and Leadership Fundamentals II

(1) A continuation of AIR 201 - Team and Leadership Fundamentals I. This course is designed to discuss different leadership perspectives when completing team building activities and discussing things like conflict management. This course also provides students with the ability of demonstrating their basic verbal and written communication skills. Active cadets will apply these lessons at Field Training, which follows the AIR-200 level.

AIR 301 - Leading People and Effective Communication I

(3) This course is designed to build on the leadership fundamentals taught in the AIR-200 level. The cadets will have the opportunity to utilize their skills as they begin a broader leadership role in the detachment. The goal is for cadets and students to have a more in-depth understanding of how to effectively lead people and provide them with the tools to use throughout their detachment leadership roles.

AIR 302 - Leading People and Effective Communication II

(3) A continuation of AIR 301 - Leading People and Effective Communication I. This course is designed to help cadets hone their writing and briefing skills. The course continues into advanced skills and ethics training that will prepare them for becoming an officer and a supervisor.

AIR 401 - National Security, Leadership Responsibilities, Commissioning Preparation I

(3) This course is designed to address the basic elements of national security policy and process. The cadet will comprehend the air and space power operations as well as understand selected roles of the military in society and current domestic and international issues affecting the military profession.

AIR 402 - National Security, Leadership Responsibilities, Commissioning Preparation II

(3) A continuation of AIR 401 - National Security, Leadership Responsibilities, Commissioning Preparation I. This course is designed to prepare cadets for life as a second lieutenant. Cadets should comprehend the responsibility, authority, and functions of an Air Force commander and selected provisions of the military justice system.

Military Science: Army Reserve Officers' Training Corps (ROTC)

The Military Science Program at Colorado Christian University is offered in conjunction with Colorado School of Mines (CSM) in Golden, CO and the University of Colorado Boulder. The program develops the qualities of citizenship and leadership in the individual, which are desirable in both military and civilian enterprises. Successful completion of the four-

year program qualifies the student for a commission as a Second Lieutenant in the United States Army, Army Reserve, or Army National Guard.

The Department of Military Science offers programs leading to an officer's commission in the active Army, Army Reserve, or National Guard in conjunction with an undergraduate or graduate degree. Military science courses are designed to supplement a regular degree program by offering practical leadership and management experience.

Four-Year Program

The four-year program consists of two phases: the basic course (freshman and sophomore years) and the advanced course (junior and senior years).

Basic Course

The basic course offers a 2- or 3-credit course each semester, covering Army history and organization as well as military leadership and management. Laboratory sessions provide the opportunity to apply leadership skills while learning basic military skills. Enrollment in the basic course incurs no military obligation except for Army scholarship recipients.

Advanced Army ROTC

The advanced course covers leadership, tactics and unit operations, training techniques, military law, and professional ethics, and includes a leadership practicum each semester. A 30-day summer leader development and assessment course at Fort Lewis, Washington, provides challenging leadership training, and is a prerequisite for commissioning. To take the advanced course, students must have completed the basic course and obtain permission from the Professor of Military Science (PMS).

Two-Year Program

The two-year program consists of the advanced Army ROTC course. Veterans or students who are also enlisted in either the National Guard or U.S. Army Reserves may be eligible to enroll in the advanced course without attendance at basic camp or completion of the basic course. Candidates may also have the opportunity to attend a four-week summer ROTC basic course at Ft Knox, Kentucky, in order to meet basic course requirements. Inquiries on advanced placement should be directed to the Enrollment and Scholarship Officer (303.492.6495). To take the advanced course, students must obtain permission from the Professor of Military Science (PMS).

Scholarship Programs

Four-year college scholarships are available to high school seniors, who should apply before January 1 of their senior year. Competition for two- and three-year scholarships is open to all university students, regardless of academic major and whether or not they are currently enrolled in ROTC. Scholarship students receive full tuition and fees, a book allowance, and an allowance of \$300-\$500 per month during the academic year. Students interested in the scholarship program should contact the enrollment officer no later than the beginning of the spring semester to apply for the following academic year. Contact the Enrollment Officer at 303.492.3549.

Simultaneous Membership Program

Students currently in the Army Reserves or Army National Guard and entering the second year of the basic course or the advanced course may participate in the Simultaneous Membership Program (SMP). Students participating in this program will receive a \$350 to \$500 monthly stipend. Participants in the SMP may be eligible for Army Reserve or Army National Guard tuition assistance benefits.

Professional Military Education

Leadership Laboratories:

Fall semester labs are held on Thursdays from 3:30-4:50 p.m. and Spring semester labs are held on three Saturdays from 7:00 a.m. to 3:00 p.m. These labs provide Cadets with practical leadership experience and performance-oriented, hands-on instruction outside the classroom. Leadership labs are compulsory for enrolled Cadets.

Information:

Register for Army ROTC classes (listed below) by going to your Life Directions Center advisor for help in completing an Add/Drop form. Students can choose to attend classes at University of Colorado at Boulder (303-492-6495), Colorado School of Mines in Golden (303-273-3380), or Metro State University (303-352-7419). At the end of the semester, Army ROTC sends a grade to CCU's Service Central office, which is added to the student's transcript. Credit granted follows the course information below.

For more information about the Army ROTC program, contact an Army ROTC Enrollment/Scholarship Office (303-492-6495) or send an e-mail to armyrotc@colorado.edu, or visit <http://www.colorado.edu/AROTC>.

MIL 103 - Adventures in Leadership I

(2) Introduces fundamentals of leadership and the United States Army. Examines its organization, customs, and history as well as its current relevance and purpose. Students also investigate basic leadership and management skills necessary to be successful in both military and civilian settings. Includes fundamentals of Army leadership doctrine, team-building concepts, time and stress management, an introduction to cartography and land navigation, marksmanship, briefing techniques, and some basic military tactics.

Fee

Lab fee: \$87.50.

MIL 104 - Adventures in Leadership II

(2) Continues the investigation of leadership in small organizations. Covers selected topics such as basic troop leading procedures, military first aid and casualty evacuation concepts, creating ethical work climates, an introduction to Army organizations and installations, and a further examination of basic military tactics. Introduces students to effective military writing styles.

Fee

Lab fee: \$87.50.

MIL 203 - Methods of Leadership and Management I

(3) Comprehensively reviews advanced leadership and management concepts including motivation, attitudes, communication skills, problem solving, human needs and behavior, and leadership self development. Students continue to refine effective written and oral communications skills and to explore topics such as the basic branches of the Army, and officer and NCO duties. Students conduct classroom and practical exercises in small unit light infantry tactics and are prepared to perform as midlevel leaders in the cadet organization.

Fee

Lab fee: \$87.50.

MIL 204 - Methods of Leadership and Management II

(3) Focuses on leadership and management functions in military and corporate environments. Studies various components of Army leadership doctrine to include the four elements of leadership, leadership principles, risk management and planning theory, the be-know-do framework, and the Army leadership evaluation program. Continue to refine communication skills.

Fee

Lab fee: \$87.50.

MIL 301 - Military Operations and Training I

(3) Further explores the theory of managing and leading small military units with an emphasis on practical applications at the squad and platoon levels. Students examine various leadership styles and techniques as they relate to advanced small unit tactics. Familiarizes students with a variety of topics such as cartography, land navigation, field craft, and weapons systems. Involves multiple, evaluated leadership opportunities in field settings and hands-on experience with actual military equipment. Students are given maximum leadership opportunities in weekly labs.

Prerequisites: Prerequisites: consent of the Professor of Military Science.

Fee

Lab fee: \$87.50.

MIL 302 - Military Operations and Training II

(3) Studies theoretical and practical applications of small unit leadership principles. Focuses on managing personnel and resources, the military decision making process, the operations order, and oral communications. Exposes the student to tactical unit leadership in a variety of environments with a focus on preparation for the summer advance camp experience.

Prerequisites: Prerequisites: consent of the Professor of Military Science.

Fee

Lab fee: \$87.50.

MIL 401 - Adaptive Leadership

(3) Examines management and leadership concepts and techniques associated with planning and executing military training and operations at company and higher echelons. Includes analyses of professional ethics and values, effective training principles and procedures, subordinate counseling, and effective staff officer briefing techniques. Also investigates other subjects such as counter terrorism, modern peacekeeping missions, and the impact of the information revolution on the art of land warfare. Conducted both in and out of classroom setting and with multiple practical leadership opportunities to organize cadet training and activities.

Prerequisites: Prerequisites: consent of the Professor of Military Science.

Fee

Lab fee: \$87.50.

MIL 402 - Leadership in a Complex World

(3) Continues MILR 4072 study of management and leadership concepts and techniques, providing practical leadership experiences in the classroom and during multiple cadet-run activities. Also examines varied topics such as theory and practice of the military justice system, law of war, military-media relations, support mechanisms for soldiers and their families, operational security considerations, and historical case studies in military leadership in the context of 21st century land warfare.

Prerequisites: Prerequisites: consent of the Professor of Military Science.

Fee

Lab fee: \$87.50.

Academic Calendar 2021-2022 (CUS)

Summer Semester 2021

Payment Due upon Registration

Semester Begins: May 10

Last Day to Drop Without a "W" (CUS) - course dates 7 days or less, Drop deadline: end of 1st day

Last Day to Drop Without a "W" (CUS) - course dates 8 days or more, Drop deadline: end of 3rd day

Graduation Date (No Commencement Ceremony): August 21

The last day to withdraw from a summer course and receive a "W" grade is the day when 75% of the course has been completed (counting weekends if applicable). For example, for a course that lasts 5 days (Monday - Friday), the last day to withdraw would be the 4th day (Thursday). For a course scheduled for 14 days, the last day to withdraw would be day 11 (the second Thursday). Additional calculations for other lengths of courses would follow the same pattern of determining when 75% of the course had been completed.

Fall Semester 2021

Payment Arrangement Due Date: August 1

Semester Begins: August 23

Nursing A8 Block: August 23-October 17

Last Day to Add (CUS): September 1

Last Day to Drop Without a "W" (CUS): September 1

Last Day to Drop for 100% refund: September 1

Labor Day Holiday (University Closed; No class): September 6

Last Day to Withdraw for 75% refund: September 8

Last Day to Withdraw for 50% refund: September 15

Mid-term Exams: October 11-15

Nursing B8 Block: October 18-December 19

Registration - Winter/Spring 2022: November 8-11

Last Day to Withdraw from a Class with a "W": November 12

Thanksgiving Break (No class): November 22-26

Thanksgiving (University Closed): November 25-26
Final Exam Week: December 13-15
Graduation Date (No Commencement ceremony): December 18

Winter Semester 2022

Payment Arrangement Due Date: Upon Registration
Semester Dates: January 3-7
Last Day to Drop Without a "W" (CUS): January 3
Last Day to Drop for 100% refund: January 3

Spring Semester 2022

Payment Arrangement Due Date: December 15, 2021
Nursing A8 Block: January 3-February 27
Semester Begins: January 10
Martin Luther King, Jr Day (University Closed): January 17
Last Day to Add (CUS): January 19
Last Day to Drop Without a "W" (CUS): January 19
Last Day to Drop for 100% refund (CUS): January 19
Last Day to Withdraw for 75% refund (CUS): January 26
Last Day to Withdraw for 50% refund (CUS): February 2
Mid-term Exams: February 28-March 4
Nursing B8 Block: February 28-May 1
Registration - Summer/Fall 2022: March 14-16
Spring Break (No class): March 21-25
Good Friday (University Closed, No class): April 15
Last day to Withdraw from a Class with a "W": April 1
Final Exams: May 2-4
Commencement Ceremony: May 6
Graduation Date: May 7

Academic Policies (CUS)

- [Non-traditional Credit](#)
- [Grading System](#)
- [Academic Standing](#)
- [Undergraduate Scholastic Honors/Commencement](#)

Registration

Registration is held for the fall, winter, spring, and summer semesters at the times indicated in the academic calendar. Students are expected to register for courses for the fall and spring semesters until graduation. Deadlines for registration are listed online in the academic calendar and in the student handbook. Students are responsible for making themselves aware of all deadlines that apply to them. Regular deadline notifications are found in CCU Connect student portal announcements. Students who fail to register may be asked to move off campus based on the demand for campus housing. Students who are not enrolled for 12 months or more must apply for readmission and complete a degree program under the regulations published by the catalog that is in effect at the time of re-enrollment.

Definition of a Credit Hour

The College of Undergraduate Studies (CUS) defines a credit hour using the Carnegie Unit measurement for student workload. The amount of work represented in student learning outcomes for one credit hour is not less than one in-class hour or direct faculty instruction AND two hours of out-of-class student work each week for fifteen weeks, or the equivalent number of total hours if a course is shorter than fifteen weeks. In a typical CUS semester of sixteen weeks, a three-credit course will include a minimum of 45 hours of in-class or direct faculty instruction AND a minimum of 90 hours of out-of-class student work. Other academic activities that measure student workload tied to a credit hour, such as laboratory work, internships, and practica, also require the minimum total equivalent number of hours per credit earned.

Catalog as Guide and Agreement

The catalog provides students with the best information available concerning the University and its programs at the time of publication. While every effort is made to provide accurate and up to date information, the University reserves the right to change without notice statements in the catalog regarding policies, academic offerings, standards of conduct, and charges for tuition, fees, and room and board. Since the University continually modifies and improves the curriculum to meet the needs of students, the catalog serves not only as a guide, but as an agreement between the student and Colorado Christian University. A student who enrolls in the University will be allowed to graduate under the academic requirements in the catalog published at the time of his or her initial enrollment or selection of a major, as long as the student has maintained continuous enrollment.

Limits on Traditional (CUS) Students Registering for College of Adult Studies (CAGS) Courses

Students at sophomore standing or higher who are completing a program as a traditional student within the College of Undergraduate Studies (CUS) may complete no more than fifteen (15) credits via courses offered through the College of Adult and Graduate Studies (CAGS) undergraduate program unless the student is enrolled in a CUS program that requires more than 15 credits through CAGS. Students completing programs in CUS should register for courses offered on the "Main Campus" (MC) that have section numbers in the 01, 02, 03, 04 series. Courses with section numbers such as LK21, ON21, etc. or with course numbers ending in "A" indicate an offering in the College of Adult and Graduate Studies. Students should work with their LDC advisor to understand which CUS requirements are met through CAGS courses.

Course Load

A normal course load is 12-18 hours of credit each semester for full-time students. Undergraduate students in the College of Undergraduate Studies averaging 15 hours per semester and following recommended sequencing of courses will usually be able to complete their programs within the time recommended. Select degree programs require more than 120 total credits and can require additional time. Late changes to major or adding multiple programs can also add extra requirements.

- Students with a cumulative GPA of 3.50 or above may take a maximum of 21 credits per semester.
- Students without a CCU GPA (new freshmen and transfer students) may take a maximum of 18 credits.
- Students with a cumulative GPA of 2.00 to 3.49 may take a maximum of 18 credits per semester unless the student is on probation or conditionally admitted.

Credits past normal course load (12-18 credits) have additional charges. Please reference the CUS financial aid web page for current tuition and fees information.

Classification of Students

Students are classified according to their objective, level, load, and progress.

Objective: A regular student is working toward a degree or certification and must meet all standard requirements for admission. A special student is not working toward a degree or certification but selects courses to meet personal interests.

Level: Students working toward an associate or bachelor's degree are classified as undergraduates.

Load: Undergraduate students taking 12 or more hours per semester are classified as full-time students; those taking 6-11 hours are classified as part-time students; and those taking 1-5 hours are classified as less than part-time students.

Progress: Student progress is reflected in the number of semester hours completed. A freshman has completed up to 29 hours; a sophomore, 30-59 hours; a junior, 60-89 hours; and a senior, 90 or more hours.

CUS students, in an effort to more efficiently track progress toward their degree, will be required to complete a Sophomore Review by registration in the spring of their sophomore year and a Graduation Application process by registration the semester before they plan to graduate. Students not completing either process may not be allowed to register for the next semester until this process is completed.

Cancellation of Courses

The University may cancel courses that do not meet minimum enrollment requirements. In the event of a cancellation, students may be allowed to take alternate courses or a directed study course to maintain normal progress toward graduation.

Academic Advising and Student Responsibility

After enrolling at CCU, CUS students are assigned a Life Directions Center (LDC) advisor who will provide academic, calling and spiritual support until they complete their enrolled program. LDC advisors are available to advise students in course selection, degree completion, and other needs as they arise. However, knowledge and fulfillment of the requirements of a student's program(s), selecting courses, completing prerequisites, maintaining normal progress toward graduation and fulfilling graduation requirements are ultimately the student's responsibility.

The Writing Center

The Writing Center exists to help CCU students become better writers. It is staffed by English faculty whose professional focus is in composition. The faculty oversee upper level English and Communication major consultants who complete the Writing Center Theory and Practice course. The consultants are trained to address a wide variety of writing issues across the disciplines, working closely with faculty throughout the university. Students can contact the Writing Center at writingcenter@ccu.edu and can make appointments at www.ccu.edu/writingcenter.

Tutoring

Student Success Services (SSS) at CCU offers free tutoring resources that provide assistance to current CUS students seeking to supplement classroom instruction to reach their educational goals. Students have access to Peer-to-Peer tutoring as well as 24/7 online academic support. Students can find current listings of courses being tutored and operation details by visiting the Life Directions Center website, CCU Connect, or by speaking with their LDC Advisor.

School of Education Policies

Students who seek to complete a School of Education (SoE) teacher licensure program are advised to review the additional academic policies for these programs. SoE academic policies may be found on the Home Page for the SoE in this Catalog.

School of Nursing and Health Professions Policies

Students who seek to complete a School of Nursing and Health Professions (SNHP) Bachelor's in Nursing degree for RN licensure are advised to review the additional academic policies for this program.

Adding and Dropping Courses

Students may add or drop courses online (using Student Planning) during add/drop periods or by consulting their Life Directions Center advisor. Deadlines for adding and dropping courses are listed in the academic calendar and in the student handbook. Students are responsible for confirming course schedule changes made at the time of submission. Refunds are made on the basis of the schedule in the Financial Information section (College of Undergraduate Studies; College of Adult and Graduate Studies) of this catalog. When students drop just one or two courses, refunds will only apply when remaining credits are below the block tuition rates (12-18 hours) or a student drops a class in the overload category.

In the College of Undergraduate Studies, a grade of W (Withdraw) is assigned to courses dropped after the Wednesday of the second week of the fall and spring terms and before the thirteenth week. After the start of the thirteenth week, the grade earned is assigned. All course changes must be made with the Life Direction Center advisor's approval. Unless a course is officially dropped, charges will continue since the student remains enrolled. Students who initiate withdrawal from a course after the Add/Drop deadline (and before the Withdrawal deadline) will receive a grade of W (Withdrawn) and charges will remain on the student's account. Students who unofficially withdraw from a course after the Add/Drop deadline (and before the Withdrawal deadline) will receive a grade of FW (Unauthorized Withdrawal) and charges will remain on the student's account.

Students who are not registered for a course will not be permitted to attend classes or participate in academic coursework.

Change of Major and Catalog Year

Students who enroll in the University are allowed to graduate under the academic requirements in the catalog published at the time of their initial enrollment or selection of a major, as long as students have maintained continuous enrollment. Students who are not enrolled for more than 12 months must apply for readmission and complete a degree program under the regulations published in the catalog that is in effect at the time of re-enrollment. Students who change their

major will complete the degree program under the catalog in effect at the time they changed their major. A change of program cannot occur during the traditional semester per Federal financial aid regulations. They will be documented at the completion of each semester. Please consult with your LDC Adviser for more details.

Minors and Cross Disciplinary Studies

Students can add a CUS minor or cross disciplinary study to any CUS bachelor's degree. When students declare a minor or cross disciplinary study, they must complete the full 18 (or more) credits required by the minor, and the full 12 (or more) credits required by the cross disciplinary study, and fulfill CCU's residency requirement. There can be no overlap of credit between majors, minors, emphases, or cross disciplinary studies. When there is a question of dual usage of a course, an course substitution must be approved by the dean of the program.

Double Majors

To earn a second major, the student must complete all course requirements of the major. Within the second major, there must be a minimum of 24 non-duplicated credits. Students may utilize the courses of the second major to fulfill the elective requirements of the first major.

Withdrawal from the University

Students contemplating withdrawal from the College of Undergraduate Studies should obtain instructions for completing a Withdrawal Form from their Life Directions Center advisor and ensure financial clearance from the Service Central office. They must also complete an exit survey with their Life Directions Center advisor. Students who withdraw from the University will receive refunds as outlined in the Financial Information section (College of Undergraduate Studies; College of Adult and Graduate Studies) of this catalog. Completed and signed forms must be submitted to the Service Central office for processing.

Voluntary Hardship/Medical Withdrawal

If on the advice of a physician or professional counselor, or due to a significant personal hardship, a student is unable to complete his or her course of study, the student may request to withdraw and possibly receive a prorated refund for tuition as well as room and board, if applicable. The student must provide written proof of his or her medical condition for medical withdrawal. Courses dropped under this condition will be assigned a grade of W. The voluntary hardship/medical withdrawal petition may be obtained from the student's Life Directions Center advisor.

Early Final Examinations

The final examinations for the College of Undergraduate Studies are given the final week of each semester. A final examination schedule is published online each semester and is available at the time of registration. The professor of the academic course determines the most effective and appropriate assessment of course content, such as comprehensive examination, research project, oral presentation, or other performance-based demonstration. Students are required to attend the regularly scheduled course final for each class in which he or she is enrolled. If the professor requires an assessment activity at a different time or venue, this information will be included in the course syllabus and the student is required to attend. Under certain circumstances individual students will be granted permission to reschedule a final examination or assessment activity through an application submitted to the Vice President of Academic Affairs. The application form is available on the Service Central website or from the student's Life Directions Center advisor.

Students may apply to reschedule a final examination when faced with an emergency situation, unforeseen circumstance, verifiable university-sponsored or approved events, and mission-sponsored or educational programs. A student who has three or more examinations scheduled on one day may apply to reschedule one exam at a later date. Travel convenience and personal vacation plans or commitments do not constitute reasons to reschedule.

Official Summons

In matters of vital importance to the student's relationship with the institution, an official summons for a conference may be originated by an administrative office or a faculty member. An official summons will be delivered in writing. A student who neglects or disregards an official summons for a conference may be subject to suspension.

Transfer of Credit
